A New Chapter In a Never-Ending Story

One of the things I've said from the very beginning of this adventure is that we're not in the travel business – we're in the experience business. And when you're in the experience business, you're in the people business. That belief has guided us from day one, and it continues to guide every decision we make as we grow, expand, and explore new corners of this endlessly fascinating world.

For us, being people-focused begins with our guests. It means small ships, highly personalized expeditions, and an experienced Expedition Team that returns season after season because they believe in what we're building together. Many have been guiding with us for a decade or more, and their passion, knowledge, and genuine care for our guests are among the things I'm proudest of.

And our focus on people doesn't end on board. It also means being responsible to the communities that welcome us, the local partners and suppliers who make our journeys possible, and the scientists and conservation organizations working to better understand and protect the polar regions.

That commitment led us to pioneer our citizen science program, giving guests the opportunity to contribute to meaningful scientific research while exploring some of the most remote places on Earth. Today, many companies offer citizen science, but we're proud to have helped lead the way and to continue expanding what that program can accomplish.

As we begin this new chapter, one thing remains unchanged. We will always measure our success by the experiences we create, the people we bring together, and the positive impact we leave behind.

I hope you'll join us.

John McKeon
Founder, Executive Chairman, Polar Latitudes Expeditions

All Penguins Are Created Equal – All Voyages Are Not

Browsing through polar expedition companies' websites or brochures, the similarities are hard to miss: sculptural icebergs, majestic glaciers, abundant wildlife, dramatic mountains, and fascinating native communities. And honestly, those highlights will be there regardless of who you choose to travel with. But that doesn't mean all experiences will be the same.

Here's what you can expect from us:

MORE TIME EXPLORING

No one offers a more immersive polar experience. Weather permitting, we'll have you off the ship and exploring twice daily, for an average of six hours each day. From kayaking to camping, from hiking on foot to soaring overhead, everything we offer will bring you more intimately engaged with these incredible polar environments.

A MORE EXPERIENCED TEAM

Our expedition staff return season after season, bringing with them an average of twelve years' experience. You'll explore with polar veterans who know the regions intimately and can adjust to weather and ice conditions without interruption, ensuring unforgettable moments day in and day out.

MORE PERSONALIZED EXPERIENCE

We offer a range of expedition ships, from ultra-modern to classic expedition style, with a wide choice of cabins, features, and amenities. Carrying between 70 and 175 guests, our ships maintain a guest-to-team ratio of between 7:1 and 8:1 – ensuring a small-ship, highly attentive experience on board, on the water, and on land.

MORE CAMARADERIE

From expedition team to onboard crew to fellow explorers, there is an unmistakable sense of connection both on board and off. Guests often say it feels like a family. You'll join kindred explorers, sharing unforgettable moments, exchanging photographs and stories, and returning home with more than just memories – maybe even with new friends for life.

MORE POSITIVE IMPACT

Like any good guest, we believe in leaving the places we visit better for having been there. That responsibility begins with one of the industry's lowest carbon footprints and extends to meaningful engagement with the local communities we so depend on. A pioneering citizen science program, local scholarship initiatives, and cultural exchange with remote Inuit communities are among the efforts fundamental to our polar commitment.

We Are All Explorers®

There's something about the magnificent, mysterious, and rarely tread-upon polar regions that captures the heart, ignites the imagination, and instantly awakens the explorer's spirit in everyone privileged enough to experience this part of the world. It's easy to understand why so many legendary explorers are drawn to these places time and again – as you are now.

Our job, as we see it, is to feed that explorer's spirit every day at sea, in every way imaginable. It begins and ends with getting you off the ship and intimately engaged with the environment. Twice-daily outings, averaging six hours off ship, are among the longest offered by anyone. A deeply experienced team and our supremely ice-rated expedition ships prioritize opportunities that will distinguish your memories from all others. And for those who participate, our citizen science program offers yet another way to explore, and to immerse yourself in the maginficent places we visit. Both on board and off, no one delivers more Antarctica and the Arctic than we do, in a spirit of collaboration, camaraderie, and fun.

Get more from your upcoming polar adventure. Join us on the ultimate trip of a lifetime – not as a visitor or an observer, but as an explorer.

Albatros

1986
Albatros Travel is Founded

Biologist and expedition leader Søren Rasmussen founds Albatros Travel, beginning a company shaped by curiosity, remote travel, and a lifelong passion for nature.

1996
First Major Antarctic Charter

Albatros operates a full-ship charter to Antarctica aboard Akademik Sergey Vavilov, marking an important step into polar expedition travel.

2002
East Greenland Exploration

Albatros operates a commercial expedition to Danmarkshavn in East Greenland, reflecting its early focus on remote Arctic routes and lesser-visited destinations.

2007
First Commercial Northwest Passage Expedition

Albatros becomes the first company to run a commercial expedition through the Northwest Passage, expanding its reputation for ambitious Arctic exploration.

2018
Expanding the Expedition Fleet

Ocean Victory is acquired and refitted, strengthening Albatros' ability to operate modern expedition voyages in polar regions.

Two Explorer-Led Legacies
ONE EXPEDITION FUTURE

2010
Polar Latitudes Founded

John McKeon and Shanchen Ting establish Polar Latitudes with a clear focus on Antarctica, small-ship exploration, and a highly personal guest experience.

POLAR LATITUDES

2012
First Ocean Nova Voyages

Polar Latitudes operates its first voyages aboard Ocean Nova introducing guests to Antarctica through an intimate, expedition-focused style of travel.

2013
Citizen Science Program Launched

Polar Latitudes begins offering citizen science, giving guests the opportunity to contribute to real research while deepening their understanding of the polar environment.

2015
Partnership with Woods Hole Begins

A long-standing collaboration with Woods Hole Oceanographic Institution begins, providing logistical support for scientific research in Antarctica.

POLAR LATITUDES.
We Are All Explorers.

2017
Commitment to Guide Training

Polar Latitudes becomes the first to sign on with PTGA's third-party training and assessment program, reinforcing its commitment to professional expedition leadership.

ALBATROS
EXPEDITIONS

2019

Albatros Expeditions is Established

With a growing program of Arctic and Antarctic voyages, Albatros Expeditions is officially created as the company's dedicated expedition travel brand.

2021-2022

A New Generation of Expedition Ships

Ocean Victory begins her Antarctic season, followed by Ocean Albatros, bringing modern design, polar capability, and expanded capacity to the fleet.

2021

Polar Citizen Science Collective

Polar Latitudes becomes the first expedition company to join the Polar Citizen Science Collective, further connecting guest participation with established research projects.

2020

Seaventure Joins the Fleet

Seaventure is acquired and fitted with an onboard citizen science lab, strengthening Polar Latitudes' science program and expedition platform.

POLAR LATITUDES
EXPEDITIONS™

2025

Polar Latitudes Expeditions is Born

Two explorer-led histories unite under one name, combining Antarctic expertise, Arctic heritage, a broader fleet, and a shared belief in immersive, responsible expedition travel.

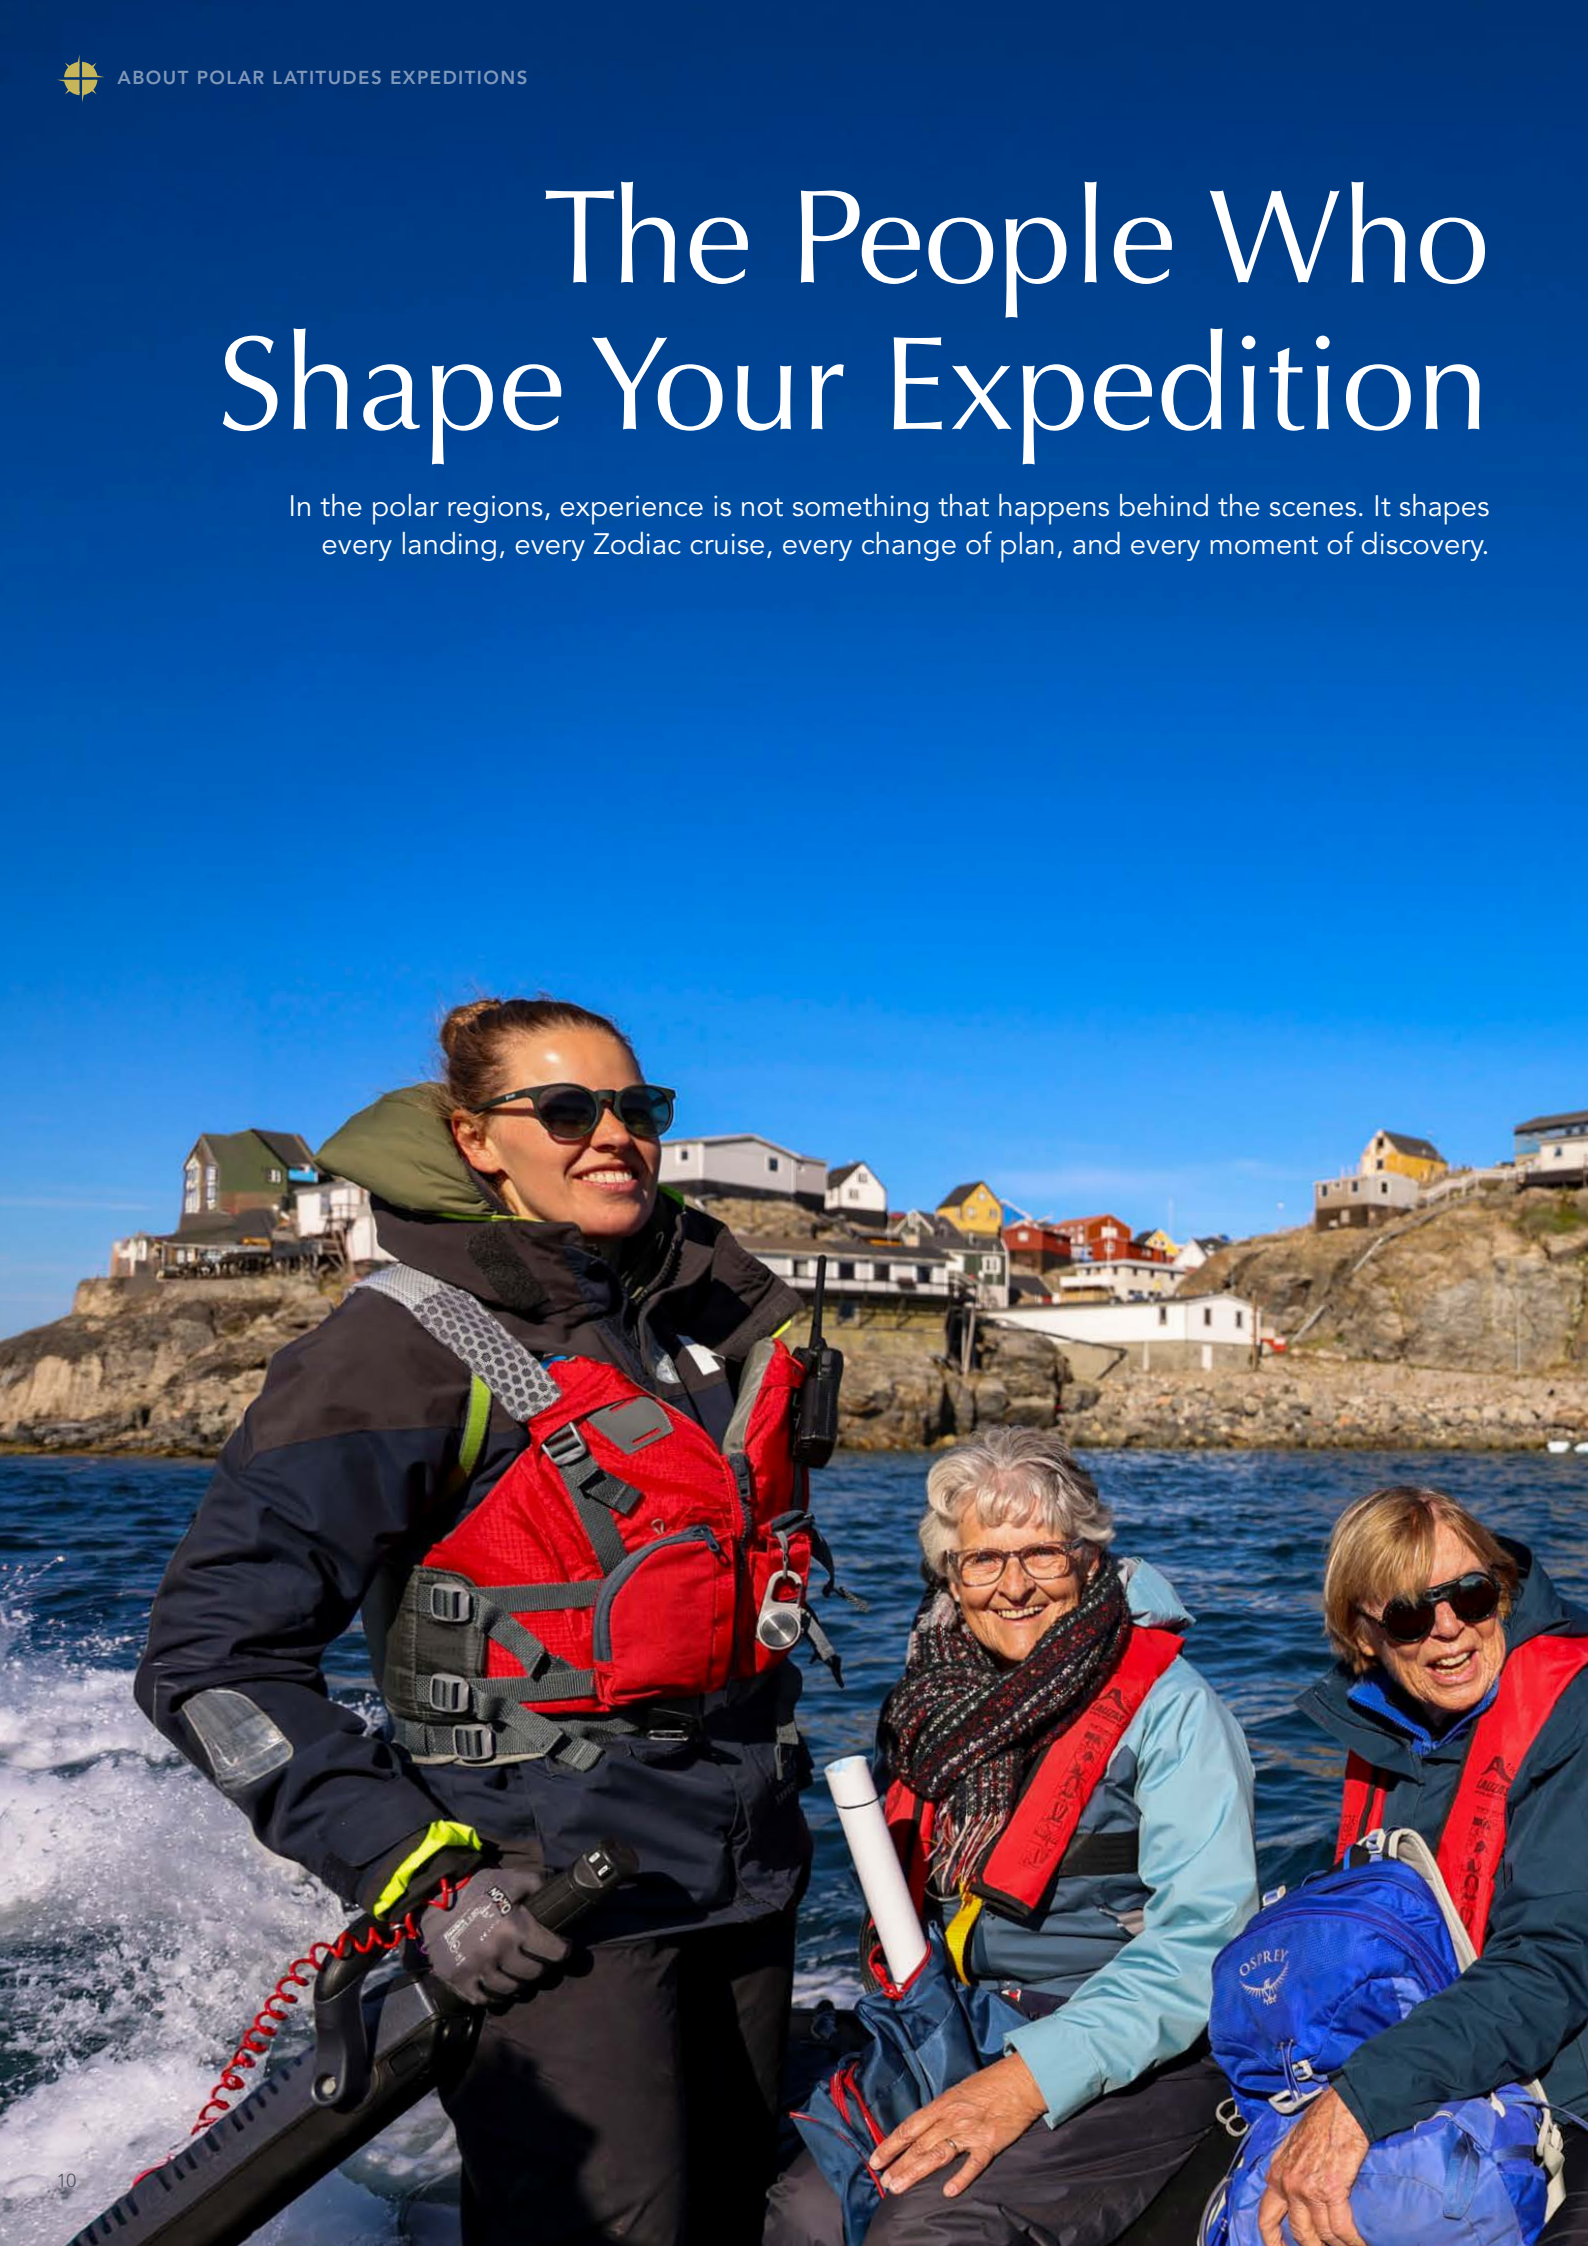
2026 Onward

The Next Chapter Begins

With Discoverer joining the fleet, new Arctic opportunities, and South America added to the expedition portfolio, Polar Latitudes Expeditions offers more ways to explore the world's most remote and remarkable places.

The People Who Shape Your Expedition

In the polar regions, experience is not something that happens behind the scenes. It shapes every landing, every Zodiac cruise, every change of plan, and every moment of discovery.



EXPERIENCE THAT SHAPES EVERY DAY

Many of our Expedition Team members return season after season, bringing a deep understanding of polar conditions, wildlife behavior, landing sites, guest experience, and the small decisions that can transform a day in the field.

KNOWLEDGE WITH REAL DEPTH

Our team brings together naturalists, historians, wildlife specialists, photographers, activity guides, and polar operations experts, each offering a different way to understand the places we explore.

GUIDED BY CONDITIONS

In the polar regions, no plan is ever fixed. Weather, ice, wildlife, and opportunity shape each day, and our Expedition Leaders and Captains work closely together to adapt the plan with care, confidence, and purpose.

PERSPECTIVES FROM AROUND THE WORLD

Our team comes from many countries and backgrounds, with languages, field experience, and personal stories that help guests connect more deeply with the landscapes, wildlife, and communities they encounter.

PRESENT IN EVERY MOMENT

From Zodiac cruises and shore landings to lectures, photography guidance, ditizen science, evening recaps, and informal conversations on deck, the Expedition Team is part of every stage of the journey.

Meet Part of Our Team

Here are just a few of the people who will make your next voyage with us an unforgettable one.

DIEGO PUNTA FERNANDEZ

Home country: Argentina

Polar experience: 18+ seasons

Areas of expertise: Ornithology, field photography, conservation, natural history, polar and Patagonian wildlife

Diego began his career as a park ranger in Argentina before becoming a naturalist and photography guide. Today, he brings together polar expedition leadership, deep birding knowledge, field photography, conservation experience, and a strong connection to Patagonia.

Languages: English & Spanish

GERT VAN DALEN

Home country: South Africa

Polar experience: 8+ seasons

Areas of expertise: Ecology, biology, wildlife guiding, field operations, Zodiac operations, polar safety

Gert brings a strong wildlife and safari background to polar expedition guiding. After working in game reserve management and the South African wildlife industry, he moved from Land Cruisers to Zodiacs and now guides across polar and remote expedition regions.

Languages: English & Afrikaans

TANIA JEKEN

Home country: South Africa

Polar experience: 8+ seasons

Areas of expertise: Expedition coordination, guest operations, Zodiac operations, onboard programming, team support

Tania brings a strong cruise and hospitality background to the Expedition Team, with experience across guest-facing operations, expedition coordination, and field staff support. She combines practical organization with the people-focused energy that helps an expedition run smoothly.

Languages: English & Afrikaans

MAXIMILIANO AGUERO GOHDE

Home country: Spain

Polar experience: 16+ seasons

Areas of expertise: Zodiac operations, mountaineering, hiking, kayaking, camping, marine mammals, field safety

Born and raised in Ushuaia, Maximiliano grew up with a close connection to the sea and Antarctica. His background includes mountaineering, snowboarding, physical education, rescue work, and years of Zodiac driving across Antarctica, the Arctic, and the Chilean Fjords.

Languages: English, Spanish & Portuguese

MARIA CASHIN

Home country: Canada

Polar experience: 14+ seasons

Areas of expertise: Geology, mountaineering, mountain guiding, outdoor leadership, remote field experience

Maria's love of the outdoors, especially mountains, has taken her around the world for more than 30 years. With a geology background and extensive guiding experience, she brings strong field knowledge and mountain expertise to polar expedition travel.

Languages: English

LUYANG ZHA

Home country: Chile

Polar experience: 8+ seasons

Areas of expertise: Cultural interpretation, history, multilingual guiding, guest communication, expedition storytelling

Luyang brings a cultural tourism background and a rare multilingual perspective to expedition guiding. With experience as a translator and guide, he helps guests connect not only with polar landscapes, but also with the stories and history behind them.

Languages: English, Mandarin Chinese, & Spanish

Exploring with Purpose

As a far-reaching expedition company, our impact is equally far-reaching, and we are fully committed to making that impact a positive one, wherever and whenever possible.

- **Minimizing our environmental impact,** which we accomplish, in part, with one of the lowest carbon footprint-per-passenger ratios in Arctic waters.
- **Our pioneering citizen science program,** enabling guests to engage in real and meaningful science, in partnership with environmental research organizations.
- **Our commitment to scientists in residence,** supporting teams from Woods Hole Oceanographic Institution and Oceanites.
- **Giving back to the communities we so depend on,** through education and internship programs, fundraising, and participation in local clean-up efforts.
- **Respecting and supporting the remote communities we visit,** supporting their businesses, and fostering better understanding of cultures unlike our own.
- **Onboard programs like our wide-ranging Green Initiative,** which prioritize sustainability, biodegradability, and widespread use of recycled products.

A Responsibility That Extends Well Beyond the Bow of Our Ships

We travel to some pretty amazing places, but we never lose sight of our responsibility to give, and not just take, from the incredible lands and people we so depend on. This responsibility is most acutely felt in Ushuaia, the southernmost city on earth, and our home port for the duration of every Antarctic season. Working with regional schools to develop scholarship and internship programs, engaging with international universities in post-graduate studies related to the polar cruise industry, supporting local, sustainable sources, and a ground team that is 100% Ushuaia-sourced, are some of the ways we're not just in the community, but an active part of it.

That same mutual respect and responsibility continues when we leave port. Visiting Inuit communities in Greenland, we work exclusively with local guides to not only support their livelihoods, but to ensure that we walk their streets and visit their landmarks respectfully. And we engage with local citizens, who volunteer to share their homes and stories with us, creating better understanding between our diverse cultures. Our smaller ships and lower per-passenger carbon footprint are other ways we respect the fragile environments we visit.

Our Ground Team: Always There for You, and for the Local Community

Our unstoppable Ushuaia-based ground team handles a wide array of critical tasks, ensuring every aspect of your pre-voyage experience is managed with care, from airport transfers and hotel check-in to pre-voyage Q&A sessions and getting you to the ship on time and fully prepared. They are the steady presence behind the scenes, anticipating needs, solving problems before they arise, and making sure your journey begins smoothly and confidently.

Deeply rooted in Ushuaia, they are active members of the local community. They partner with regional organizations, support educational and environmental initiatives, and help foster meaningful connections between our guests and the place we call home. Their knowledge of the region, their professionalism, and their genuine warmth reflect the spirit of our expeditions – thoughtful, responsible, and community-minded.

Some of the Community Programs We're Engaged In

CULTURAL EXCHANGE WITH INUIT COMMUNITIES

With a goal of increased understanding between cultures, we often coordinate with communities and their members, who organize intimate cultural events, demonstrations, and home visits, where tea, sweets, and a bit of local lore are shared.

BEACH CLEAN-UP IN USHUAIA

Our ground team works with civic organizations in regularly-scheduled clean-up efforts on local beaches, one of the many ways we participate in local efforts to serve the community.

SUPPORTING RINCONCITO DEL FIN DE MUNDO DE AYUDA Y CONTENCIÓN

We offer support to local women in need, through a range of initiatives, including local events and onboard auctions and raffles to raise money for clothing, food and school supplies for kids.

MIDDLE SCHOOL CHALLENGE WITH ESCUELA JULIO VERNE

In this year-long competition, students competing in teams of two are tasked with creating a presentation that is Antarctica-themed, and judged for both its creativity and scientific insight. The winning team receives an internship on a voyage to Antarctica.

CAREER STUDIES WITH UNIVERSIDAD DE TIERRA DEL FUEGO

In this post-degree program in development with Polar Latitudes Expeditions, students will have an opportunity to apprentice aboard our ships, where they'll learn about career opportunities in the polar cruise industry.

SHIP VISITS

We organize ship visits for a number of local groups, ranging from primary and secondary school students to local authorities, with presentations tailored to their educational needs, career aspirations, and political support.

ENSURING A BRIGHTER FUTURE FOR STUDENTS AND THE POLAR REGIONS

SOI (Students on Ice) is a Canadian nonprofit founded in 1999 that inspires young people through educational expeditions to Antarctica. These transformative journeys empower students to become informed leaders and advocates for a more sustainable future.

More than 4,500 students have participated to date, and many alumni now lead initiatives in business, science, education, and sustainability around the world.

Polar Latitudes Expeditions provides travel and logistical support to SOI students, and we encourage everyone interested in supporting this important cause to learn more at https://soifoundation.org/en/about/.

A Pioneering Technology to Discover and Protect our Planet's Most Awe-Inspiring Citizens

A sudden whale sighting is a highlight of any polar voyage. But whale encounters with ocean vessels can put these marvelous creatures at risk. So, in 2024, Polar Latitudes Expeditions teamed up with Woods Hole Oceanographic Institution to implement WhaleSpotter, a first-of-its-kind whale detection system, on our Antarctic-bound voyages. This technology helps us identify whales approaching our immediate area, increasing your likelihood of being amazed; but even more importantly, ensuring that we keep our newest ship, Discoverer, at a safe distance.

A 10-YEAR PARTNERSHIP WITH WOODS HOLE OCEANOGRAPHIC INSTITUTION

WhaleSpotter is just one recent example of how we're partnering with Woods Hole to better understand and protect whales in the Antarctic region. Since 2015, we've been providing Woods Hole scientists with travel and other logistical support, an important part of our overall commitment to integrating science into our immersive travel experience. Another recently formed partnership with Oceanites aids their researchers in efforts to count and track penguin colonies, an important indicator of climate change and wildlife adaptation.

Partnerships like these allow science teams to conduct ongoing research that would otherwise be nearly impossible, while also enriching our guest experience through presentations, discussions, and observing scientific research in action.

Citizen Science: Playing a Part in Meaningful Research

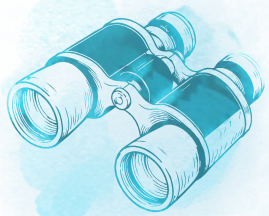
Citizen science is a program we first pioneered in 2015; and in 2021 we became the first polar operator to officially join The Polar Citizen Science Collective, offering citizen science on every Antarctic voyage. Today, our guests support as many as 6 research programs; and into the future, as we expand our reach into the Arctic, North Atlantic and beyond, citizen science will continue to be an integrated part of our overall immersive approach to travel and exploration.

Often cited by guests as a highlight of their voyage, for those who wish to participate, citizen science offers the chance to engage in real, in-the-field data gathering, supporting a range of initiatives and organizations that are working hard on behalf of our beloved planet. This collaboration is critical in remote locations where intensive long-term observation and study would be challenging – if not impossible – by a single organization acting on its own.

How Citizen Science Works

Each citizen science initiative is unique and tailored to the data-collection needs of our research partners, offering a range of ways to engage.

01.



COLLECT

We collect data in any number of ways – through observation, by using a science tool like Secchi Disk, or even by taking photos with our own cameras.

02.

RECORD

We record what we discover, sometimes using an app or tablet, and sometimes by good old fashioned note taking, following strict scientific guidelines.

03.

SHARE

We then share this data with our scientific research partners, adding to an ever-growing body of data points, critical to understanding climate change and its effect.

04.

CONTRIBUTE

With every data point we collect, record and share, we are contributing to a more hopeful future for these magnificent places, and the planet we call home.

NO EXPERIENCE NEEDED

If you're curious and love to learn, you already have all the training you need.

AN EXPERT TEAM

Our program is led by highly trained expedition team members, ensuring that our data meets the same standards required of any scientist.

INCLUDED IN YOUR VOYAGE

Citizen science has always been a fundamental part of our DNA, so it's always been offered at no charge to our guests.

A RANGE OF PROJECTS

Whether you're on the ship's bow observing seabirds, or on the water measuring phytoplankton, every project offers something fascinating.

Ongoing Projects Making a Difference

COLLECTING DATA FOR THE SOUTH GEORGIA BIG SEAWEED SEARCH

The goal of this project, led by scientists from London's Natural History Museum, is to study the seaweed diversity and distribution in South Georgia, assessing threats from climate change and invasive species.

The data you collect will continue to support future management and conservation of this critical marine environment.

SEABIRD SURVEYS FOR THE CORNELL LAB OF ORNITHOLOGY AND EBIRD

Using the eBird app, this project is building a long-term ecological monitoring program of seabirds in the Southern Ocean and along the Antarctic Peninsula. These recordings help researchers understand how birds use oceanic habitat, to help uncover new details about the lives of these remote species.

Gathering observations from many sources, times and locations creates a comprehensive picture of seabird distribution that was never possible before.

CLOUD OBSERVATIONS FOR NASA GLOBE OBSERVER

By observing and recording cloud cover and type timed to NASA satellite fly-overs, we help scientists understand how surface and air temperature are affected by cloud cover, and how clouds respond to a changing climate.

After nearly 10 years of citizen science observations, scientists can now identify patterns and gain a deeper understanding of clouds in the polar regions, and their impact on the environment.

SECCHI DISK STUDY FOR THE SECCHI DISK FOUNDATION

Secchi depth, a measure of the depth at which you lose water clarity, is an important indicator of the relative abundance of phytoplankton, critical to Antarctica's food chain. Using a Secchi Disk, our citizen scientists record and report findings to The Secchi Disk Foundation in the UK.

Secchi Disk data plays a key role in helping academics and organizations like the National Oceanic and Atmospheric Administration (NOAA) study global changes in phytoplankton.

ANTARCTIC SNOW ALGAE STUDY

When present, snow algae play a significant role in the local energy balance, since they increase absorption of sunlight by the snow. Evidence suggests that warming Antarctic temperatures may be intensifying snow algae growth.

Data collected in this study will help close data gaps and verify satellite mapping to understand how snow algae respond to a changing climate.

HAPPYWHALE

Like humans, whales are unique and recognizable. Happywhale is an easy-to-use platform that collects photos of these magnificent mammals for photo-ID studies and tracking. By submitting photos, guests contribute invaluable data to support research on how whales are recovering from exploitation, and how they are responding to climate change.

Happywhale has collected tens of thousands of images to date and has been instrumental in creating slow-down zones, protecting whales from ships in Antarctica and South Georgia

When Travel Meets Science, Great Things Happen

Dr. Annette Bombosch is a co-founder of the Polar Citizen Science Collective and our Lead Citizen Science Coordinator. Here are some highlights from a recent conversation with Annette.

Bringing travelers and science together

Back when I was doing my PhD, I could see that some scientists had a bit of an attitude toward travelers – feeling that the polar regions should be a place for science only. But I thought, what if travelers WERE doing science? I love the fact that citizen science accomplishes that.

Doing what researchers alone can't

I know how hard it is for any scientific organization to get data from the polar regions. Maybe you can get there two or three times each season. As an operator, we saw huge potential to help scale this, as we spend entire seasons in the polar regions, allowing for a great deal of data collection. That realization is what inspired the citizen science program.

Citizen science is real science

For this collaborative approach to work, all the data being collected across our multiple ships has to be done in a standardized way. Our citizen scientists are held to the same data–collecting standards as any other scientist. And the guides are highly trained.

Science needs citizens like you

When you're on the water collecting data, you are the only person, in a world of 8 billion people, in that exact spot at that exact moment, getting that information. It may seem like a drop in the bucket, but that data is added to an immense data set that can, over time, impact conservation, legislation, restoration, a lot of things.

A great big thank you from the whales

The work we do makes a real difference: Slow down zones that protect whales from passing ships, phytoplankton data that reveals shifting food supplies, new perspectives on how to study seabirds, and seaweed observations that helped inform the most recent South Georgia and the South Sandwich Islands Marine Protected Area Management Plan.

What people love about the program

First of all, it's fun. It's the part of science that every scientist loves: the fieldwork. Guests appreciate the educational component, too, understanding how polar ecosystems are connected to our daily lives. And ultimately, citizen science, and all our science onboard, makes the voyage more meaningful for people.

One final thought

A lot of scientific research happens behind a desk, but we're doing the best part, in some of the most beautiful locations on our planet! What could be better?

A Day at the Poles

There's no 'typical day' in the polar regions – every day brings something new. That is why we love it. Still, here is a little taste of what our guests might experience while exploring the polar regions.

Early Morning

Wake up, surrounded by unique and brand-new landscape. As the morning unfolds, early risers begin to stir for hot coffee and pastries, others to the gym, and a few to the Observation Deck to soak up the view, while the Expedition Team busily prepares the Zodiacs for the day's adventure. Breakfast awaits in the main restaurant, where a generous buffet offers everything you need to fuel your day.

Late Morning

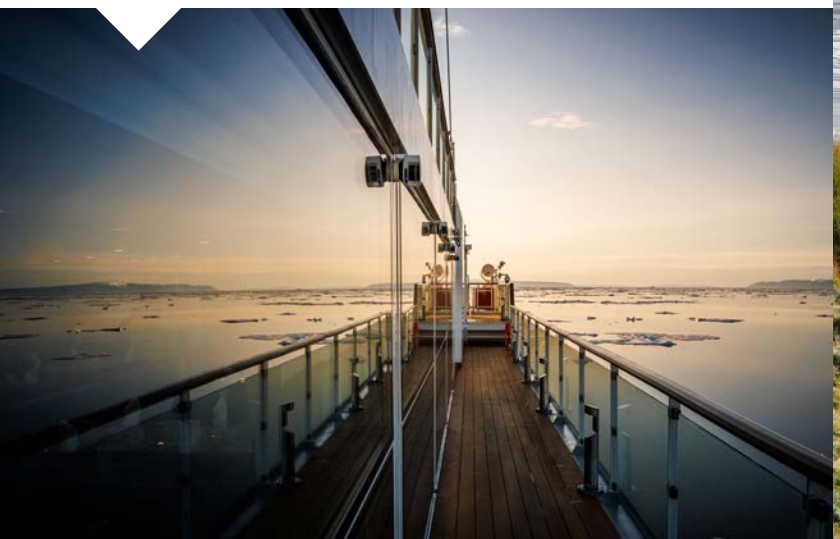
Once breakfast is over, it's time to explore! Activities typically take the form of Zodiac cruises on the water or landings ashore, sometimes in inhabited places such as villages or research stations, but more often in pristine wilderness. For extra variety, optional activities, workshops, and lectures will also be offered.

Early Afternoon

After your first exploration, lunch is served in all our dining areas on board, and occasionally on our outer decks. We offer both a la carte and buffet options, with menus changing each day and always including vegetarian, and special dietary options. After lunch, you can relax, soak in the views from our saunas, and slowly get ready for the second adventure of the day!

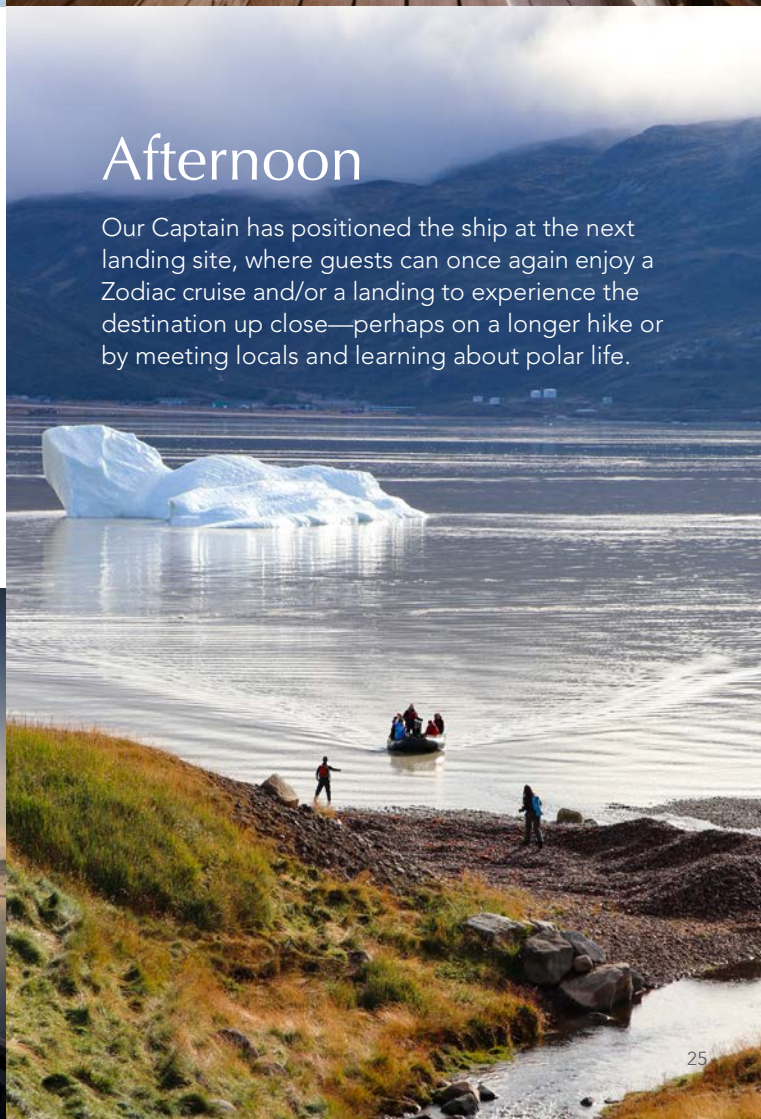
Evening

Wrapping up the day, you'll attend the Expedition Leader's Recap and Briefing, where you'll learn the next day's plans and highlights from the day. Next, dinner time! Gather with other fellow explorers and bond over delicious, ever-changing cuisine, laughter and shared once-in-a-lifetime experiences. Finally, spend a few hours to relax, before retiring to rest, ready for another day of adventure.



Afternoon

Our Captain has positioned the ship at the next landing site, where guests can once again enjoy a Zodiac cruise and/or a landing to experience the destination up close—perhaps on a longer hike or by meeting locals and learning about polar life.



The Arctic & North Atlantic

Our 2027/28 Arctic and North Atlantic seasons feature a diverse collection of voyages across some of the planet's most compelling northern regions, from Svalbard and Greenland to Iceland, the British Isles, Jan Mayen, and Norway's wild northern coast.

Explore classic High Arctic routes, dramatic fjords, remote islands, wildlife-rich shores, and culturally rich coastlines shaped by ice, ocean, and centuries of seafaring history.

The Arctic Realm

Landscapes shaped by ice and time – from drifting icebergs to vibrant wildlife and northern cultures.

NORTHERN LIGHTS

Under dark Arctic skies, witness the aurora borealis ripple across the horizon, an unforgettable display of color and motion unique to the high latitudes.

LIFE AT THE EDGE OF THE ARCTIC

Ittoqqortoormiit, one of the most remote settlements in the Arctic, offers a rare glimpse into life shaped by sea ice, hunting traditions, and generations of resilience. Overlooking the vast fjords of Scoresbysund, this small East Greenland community preserves deep Inuit heritage in an extraordinary polar setting.

DISKO BAY & ICEBERG HIGHWAY

Witness colossal icebergs as they break free from Greenland's glaciers and drift through the waters of Disko Bay. Whales, seabirds, and luminous ice dominate this iconic Arctic seascape.

BAFFIN ISLAND

GREENLAND

KALAALLIT LIFE

Visit small coastal communities where Greenlandic traditions remain deeply connected to sea, ice, and wildlife.

A rare cultural perspective woven seamlessly into your expedition through the Arctic.

CANADA

LAND OF FIRE & ICE

Walk among glaciers, volcanoes, lava fields, and geothermal landscapes shaped by powerful natural forces. Iceland's extremes offer a striking contrast between Arctic seas and volcanic terrain.

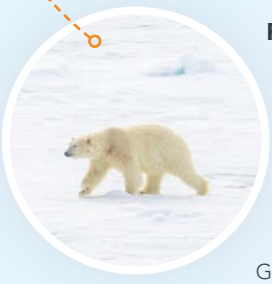
UNDER THE MIDNIGHT SUN

Sail through ice-filled fjords and along remote Arctic shores beneath the never-setting summer sun, where glaciers calve into the sea and life thrives at the very edge of the polar world.

SVALBARD

CATHEDRALS OF ICE: EAST GREENLAND

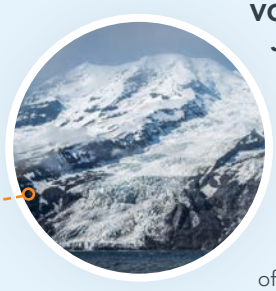
Explore the vastness of the world's largest national park, a realm sculpted by nature's hand. Here, immense fjords, jagged peaks, and icebergs that scrape the sky define one of the most breathtaking polar environments on Earth.



REALM OF THE POLAR BEAR

Enter one of the Arctic's most wildlife-rich regions, where polar bears roam the sea ice alongside walrus, Arctic foxes, and vast seabird colonies. Glaciers, stark mountains, and drifting ice define this raw High Arctic frontier.

JAN MAYEN



VOLCANIC OUTPOST: JAN MAYEN

Rising alone from the North Atlantic, Jan Mayen is one of the Arctic's most remote volcanic islands. Crowned by the glacier-covered peak of Mount Beerenberg, this rarely visited outpost reveals a dramatic world of black lava, sea cliffs, and windswept solitude.

ICELAND

FAROE ISLANDS

VIKING SHORES & ATLANTIC ISLES

Sail through a mosaic of windswept islands, rugged coastlines, and ancient sites shaped by Viking heritage and seabird life. Scotland's northern isles blend wild nature with deep maritime history.

SCOTLAND

CLIFFS, BIRDS & NORTH ATLANTIC DRAMA

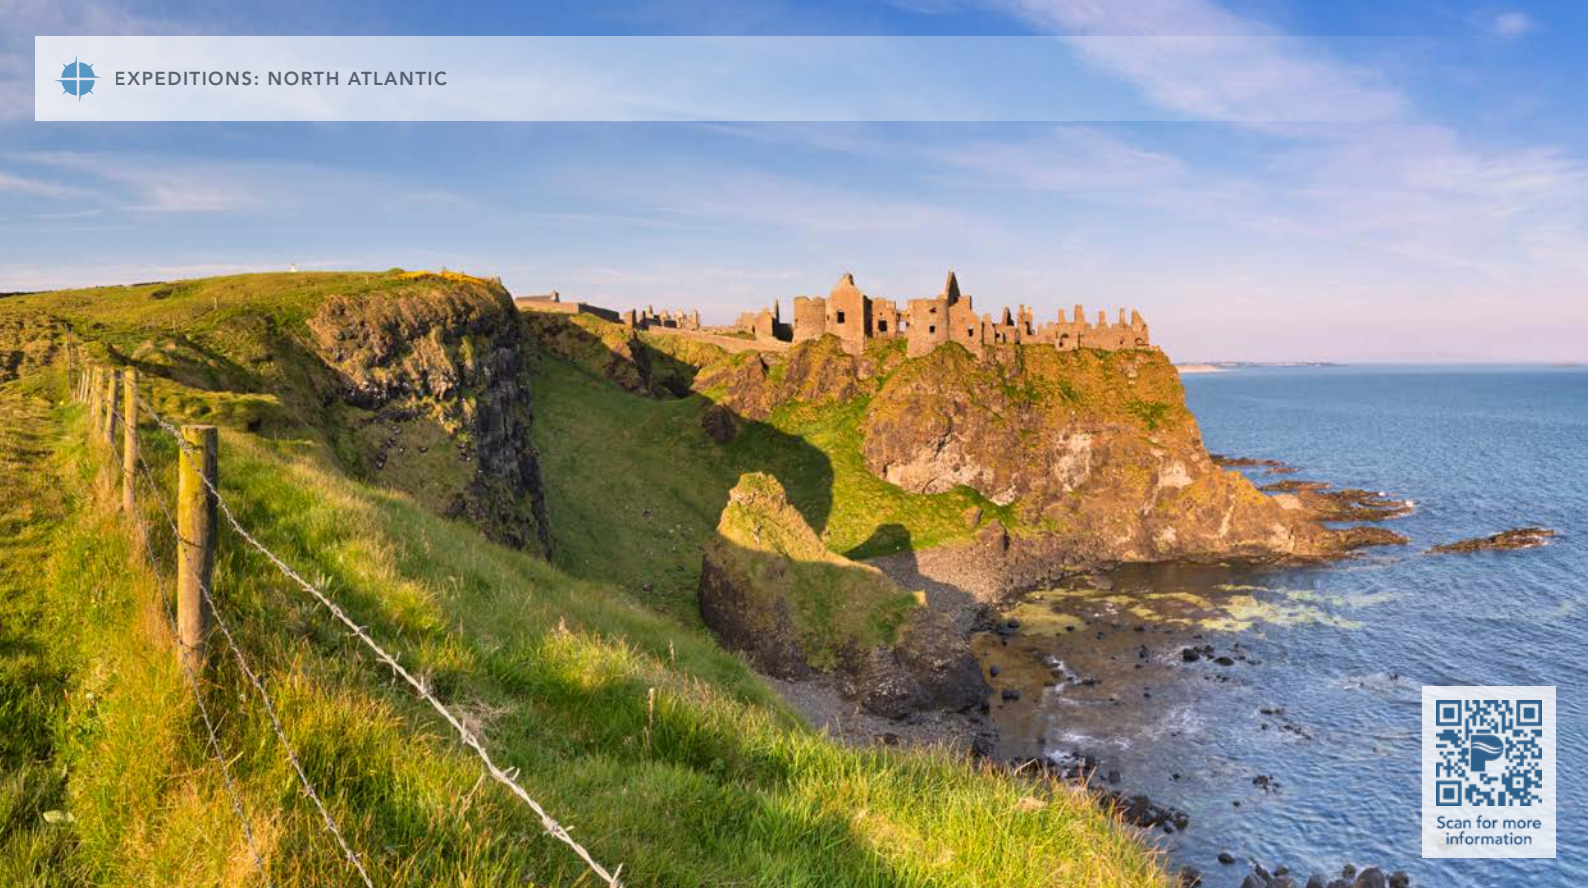
Rising from the North Atlantic, the Faroe Islands reveal sheer sea cliffs, vast seabird colonies, and a landscape shaped by wind, waves, and centuries of seafaring culture.

From drifting sea ice to windswept isles and remote communities, the Arctic offers extraordinary variety. Explore our itineraries and uncover the many faces of this dynamic northern frontier.

North Atlantic

Join us on a storied voyage through time and nature, where remote islands rise from misty seas, each harboring its own rich landscape, wildlife, and ancient legends.

Stretching across the wild ocean between Europe and the Arctic, a North Atlantic odyssey will take you off the beaten path and deep into landscapes shaped by history, wildlife, and the sea.



Jewels of Scotland

7 DAYS (6 nights on board) / Apr 2027

Set sail through the storied islands and wild Atlantic edges of Scotland and Ireland, where ancient monuments, sea cliffs, seabird colonies, and coastal villages reveal a region shaped by wind, water, and time. From Dublin, this short but richly layered voyage carries you along Ireland's Antrim Coast and onward to some of Scotland's most atmospheric island landscapes.

Sail past the Giant's Causeway, explore colorful Tobermory, and discover remote St Kilda, where dramatic cliffs rise above a sea alive with seabirds. In Orkney, stand among Neolithic sites that speak to thousands of years of human history. This is a voyage of rugged beauty, island culture, and enduring stories at the edge of the North Atlantic.

HIGHLIGHTS

- Sail along Ireland's Antrim Coast and view the Giant's Causeway's striking basalt formations
- Visit Rathlin Island, a refuge for puffins, razorbills, guillemots, and other seabirds
- Explore Tobermory's colorful harborfront and island character on the Isle of Mull
- Discover St Kilda, a remote UNESCO World Heritage site with dramatic cliffs, seabird colonies, and human history
- Stand among Orkney's remarkable Neolithic monuments, including the Ring of Brodgar and Skara Brae
- Experience a compact North Atlantic voyage shaped by wildlife, history, folklore, and rugged island landscapes

SHIPS: Ocean Victory

INCLUDED ACTIVITIES

Isles of the North Atlantic

10 DAYS (9 nights on board) / May 2027

Journey from Scotland to Iceland through the wild islands and storied seas of the North Atlantic. From the Hebrides to the Faroe Islands, this voyage connects sacred sites, ancient monuments, seabird cliffs, and remote coastal communities shaped by weather, history, and the sea.

Begin among the historic landscapes of western Scotland, from Iona's abbey to Lunga's puffin-covered cliffs and the standing stones of Lewis. Continue to St Kilda, one of the North Atlantic's most remote island worlds, before crossing to the Faroe Islands and onward to Iceland's volcanic south coast, where sea stacks, fishing villages, and dramatic shorelines bring the journey to a striking close.

HIGHLIGHTS

- Visit Iona, known for its historic abbey and deep spiritual heritage
- Watch for Atlantic puffins and other seabirds along Lunga's dramatic cliffs
- Explore the Callanish Stones on Lewis, one of Scotland's most remarkable Neolithic sites
- Discover St Kilda's remote village remains, seabird colonies, and distinctive island history
- Explore the Faroe Islands' fjords, sea stacks, and coastal villages
- Sail Iceland's south coast, shaped by volcanic islands, black-sand beaches, and rugged shorelines

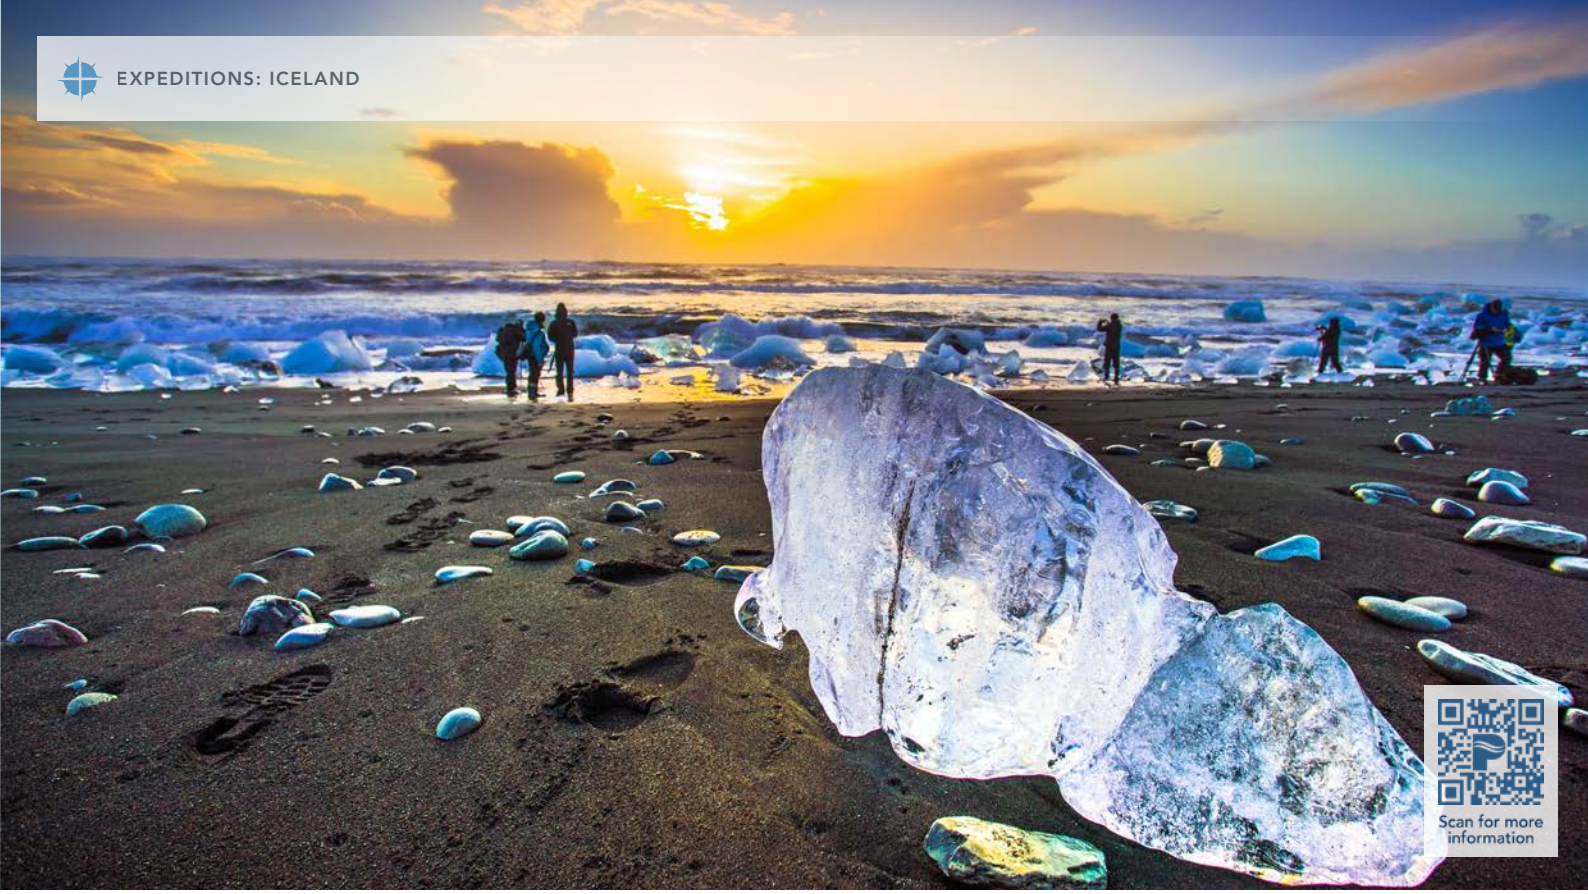
SHIPS: Ocean Victory

INCLUDED ACTIVITIES

Iceland

Forged by fire and ice, Iceland is a land of stark contrasts – where glaciers spill from volcanoes into fjords and geothermal springs steam beside ancient lava fields.

Four-fifths of the island remains uninhabited wilderness, alive with natural wonders and wildlife: whales breach in icy seas, puffins crowd sea cliffs, and waterfalls thunder over rugged, mossy terrain.



Highlights of Iceland

8 DAYS (7 nights on board) / Jun 2027 & Jun 2028

Experience the full drama of Iceland by sea, where glaciers, volcanoes, waterfalls, lava fields, and seabird cliffs reveal a coastline shaped by powerful natural forces. Departing from Reykjavík, this coastal expedition follows the island's wild edges, connecting vibrant harbor towns with some of Iceland's most striking landscapes.

Cross into the Arctic Circle at Grímsey, watch for whales in the rich waters near Húsavík, and explore the black-sand beaches, volcanic islands, and rugged shores of the south coast. From steaming geothermal ground to glacier-fed fjords, this voyage captures Iceland in all its raw, elemental beauty.

HIGHLIGHTS

- Cross the Arctic Circle at Grímsey and watch for Atlantic puffins along its sea cliffs
- Visit Húsavík, one of Iceland's best-known regions for whale watching
- Explore Djúpivogur and the dramatic landscapes of Iceland's eastern coast
- Discover Heimaey in the Westman Islands, where volcanic history and seabird life shape the island
- Experience Reykjavík's colorful harborfront, Nordic culture, and easy access to Iceland's natural wonders
- Journey along a coastline defined by glaciers, lava fields, waterfalls, and volcanic scenery

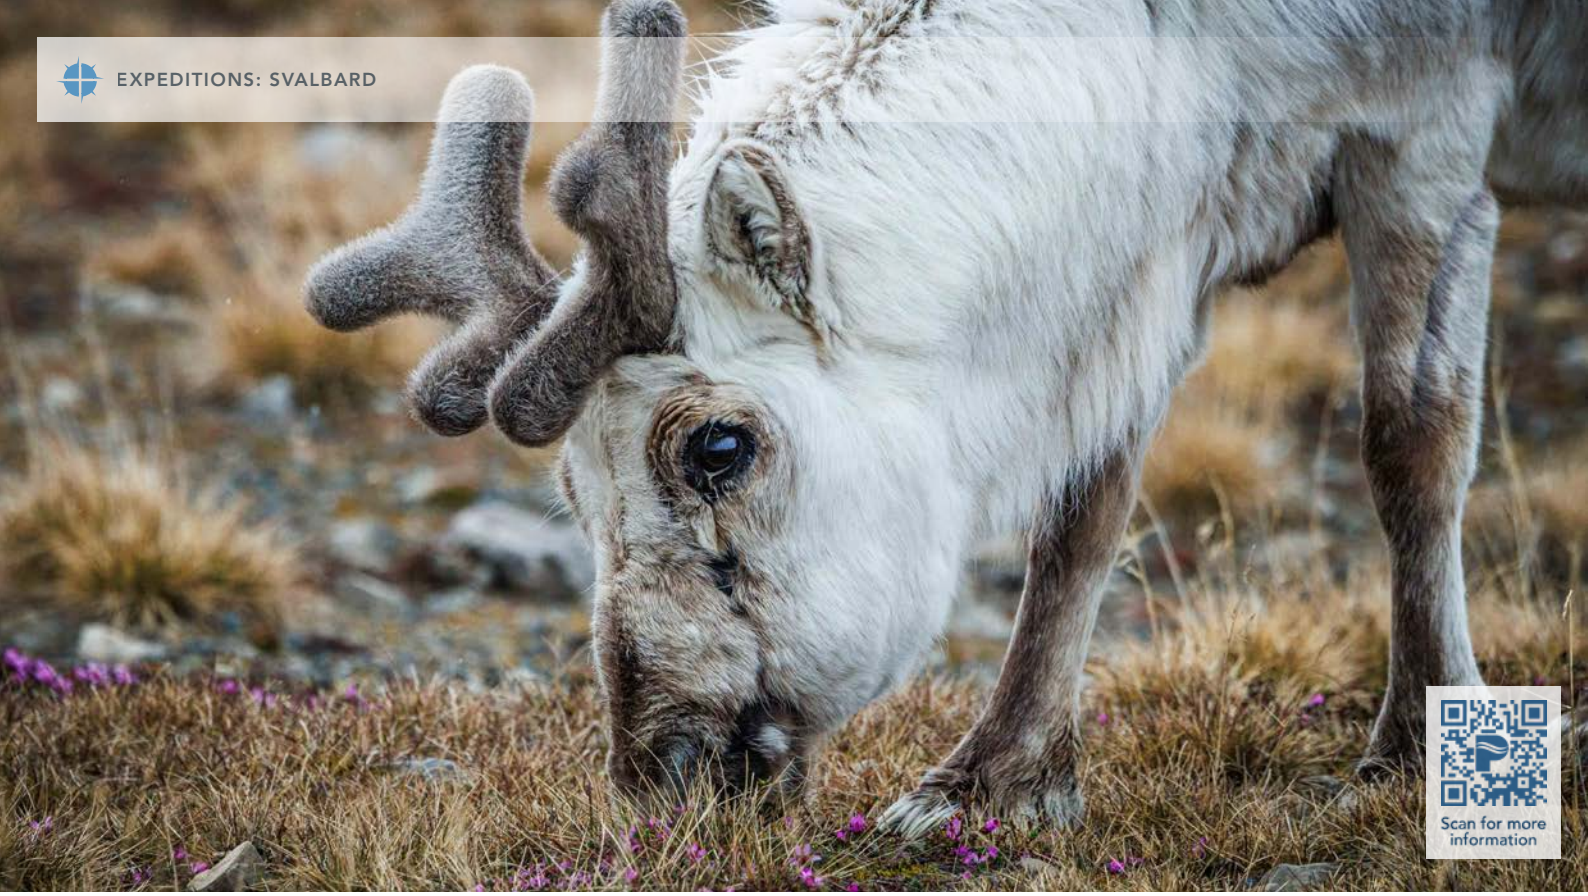
INCLUDED ACTIVITIES

Svalbard

Far north in the High Arctic, Svalbard is a place of ice, wildlife, and constant possibility. Glaciers spill into deep fjords, walrus gather along remote shores, seabirds nest on towering cliffs, and polar bears roam across a landscape shaped by sea ice, weather, and light.

Under the midnight sun, each day is guided by conditions and opportunity. One moment may bring a Zodiac cruise along a glacier front, the next a quiet watch from deck for wildlife near the pack ice. Raw, remote, and deeply atmospheric, Svalbard offers one of the most powerful ways to experience the Arctic at its wildest.



Scan for more information

Svalbard Express

7 DAYS (6 nights on board) / Jun 2027

A compact expedition into the High Arctic wilderness of Svalbard, where glaciers, fjords, pack ice, and wildlife define every day. Sailing aboard Ocean Albatros, this one-week voyage is designed for travelers who want a powerful Arctic experience in a shorter timeframe.

Explore glacier-lined coastlines, remote Arctic shores, and historic sites shaped by whaling, mining, science, and exploration. Depending on conditions, you may cruise beneath towering seabird cliffs, walk across polar desert landscapes, visit Ny-Ålesund, or keep watch for walrus, reindeer, Arctic foxes, whales, and polar bears near the edge of the ice.

HIGHLIGHTS

- Experience Svalbard's High Arctic wilderness on a compact one-week expedition
- Explore glacier-lined fjords, remote shores, and polar desert landscapes by Zodiac and on foot
- Visit historic Arctic sites such as Smeerenburg, Ytre Norskøya, Ny-Ålesund, or Ny London where conditions allow
- Cruise beneath dramatic seabird cliffs and watch for kittiwakes, guillemots, and other Arctic birdlife
- Look for walrus, reindeer, Arctic foxes, whales, and polar bears in their natural habitat
- Venture toward the edge of the pack ice, conditions permitting

SHIPS: Ocean Albatros

OPTIONAL ACTIVITIES

INCLUDED ACTIVITIES

Svalbard: North to the Midnight Sun

8 DAYS (7 nights on board)
May-Aug 2027 & May-Jul 2028

Journey deep into Svalbard's High Arctic wilderness, where glacier-lined fjords, drifting sea ice, and remote shores create one of the most powerful expedition landscapes on Earth. Sailing round-trip from Longyearbyen, this classic Svalbard voyage follows the best opportunities of the season, shaped each day by weather, ice, and wildlife.

Explore by Zodiac and on foot, watch for walrus, whales, seabirds, Svalbard reindeer, Arctic foxes, and polar bears, and venture toward the edge of the pack ice where conditions allow. From historic Ny-Ålesund to quiet glacier fronts and wide Arctic horizons, this voyage captures Svalbard at its wild, luminous best.

HIGHLIGHTS

- Explore Svalbard's glacier-lined fjords, remote shores, and High Arctic wilderness
- Visit Ny-Ålesund, one of the world's northernmost research communities
- Watch for walrus, whales, seabirds, Svalbard reindeer, Arctic foxes, and polar bears
- Venture toward the edge of the northern pack ice
- Experience Svalbard by Zodiac and on foot, with landings shaped by weather, ice, and wildlife
- Begin and end in Longyearbyen, Svalbard's remote gateway to the Arctic

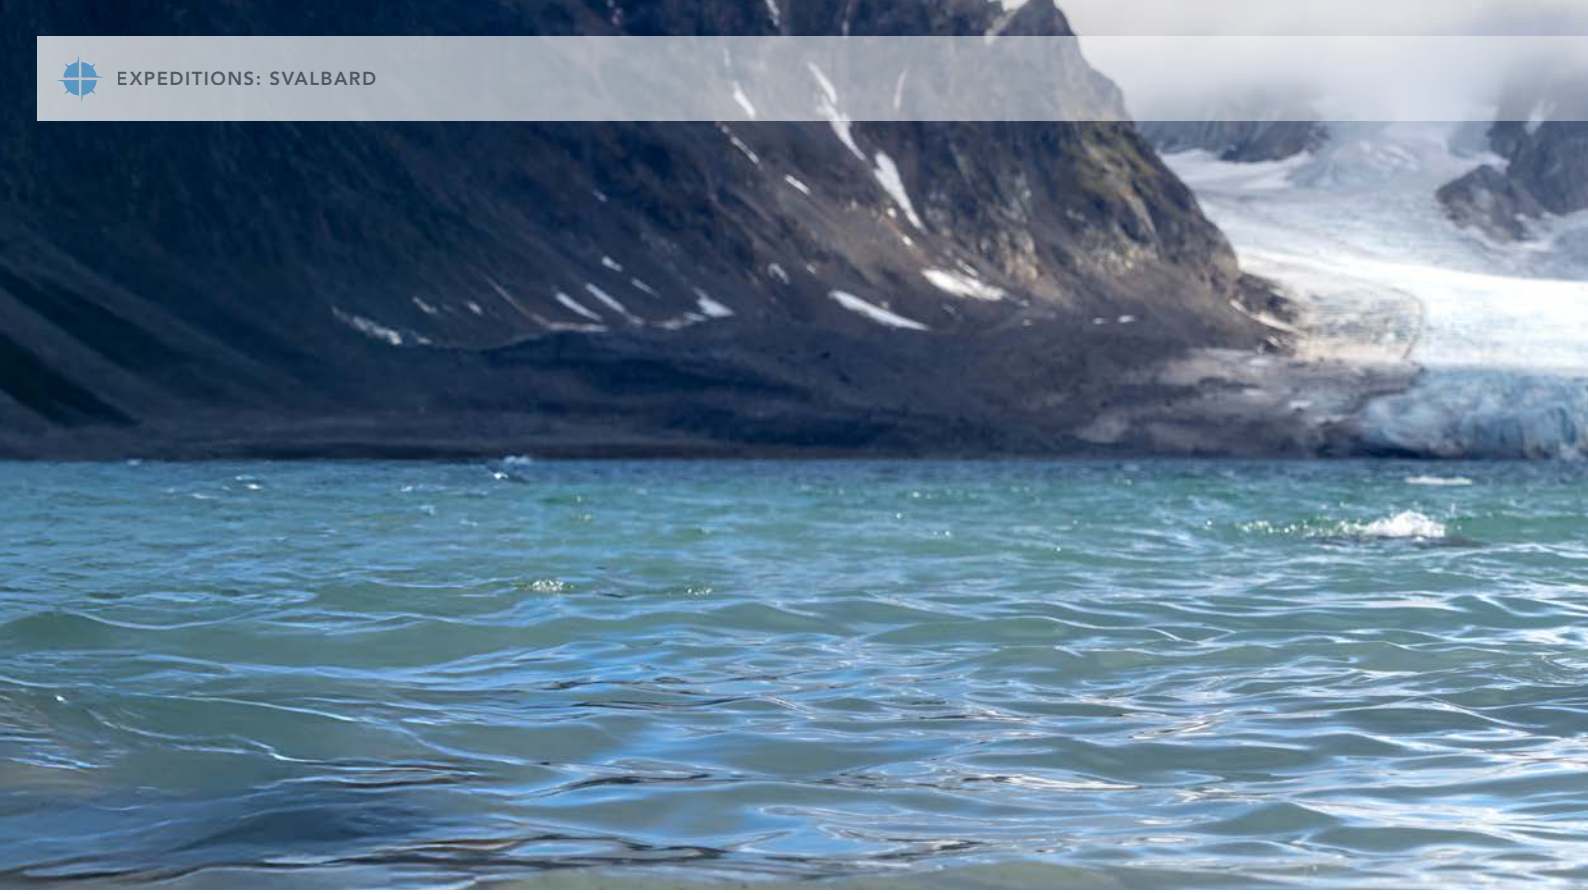
OPTIONAL ACTIVITIES

INCLUDED ACTIVITIES



Svalbard Circumnavigation: The Ultimate Arctic Quest

10 DAYS (9 nights on board) / **Sep 2027 & Aug 2028**

Circle the Svalbard archipelago on an ambitious High Arctic expedition shaped by ice, weather, and wildlife. Reaching beyond Spitsbergen, this voyage explores the remote eastern and northern coasts, where vast ice caps, polar desert landscapes, glacier fronts, and secluded fjords reveal Svalbard at its most wild and far-reaching.

The route is guided by conditions, with each day offering new possibilities for Zodiac cruises, shore landings, wildlife watching, and time near the edge of the pack ice. From Nordaustlandet's immense ice landscapes to seabird cliffs, historic sites, and quiet Arctic shores, this is one of the most complete ways to experience Svalbard.

HIGHLIGHTS

- Complete a full circumnavigation of the Svalbard archipelago, reaching some of the Arctic's most remote and rarely visited regions
- Explore the ice-dominated wilderness of Nordaustlandet, home to massive ice caps and polar desert landscapes
- Keep watch for iconic Arctic wildlife, including polar bears, walrus, Arctic foxes, reindeer, and vast seabird colonies
- Cruise and land along dramatic glacier fronts, pack ice, and secluded fjords under the continuous light of the midnight sun
- Experience daily off-ship exploration by Zodiac and guided hikes, led by expert Expedition Team with deep Arctic knowledge

SHIPS: Ocean Albatros & Discoverer

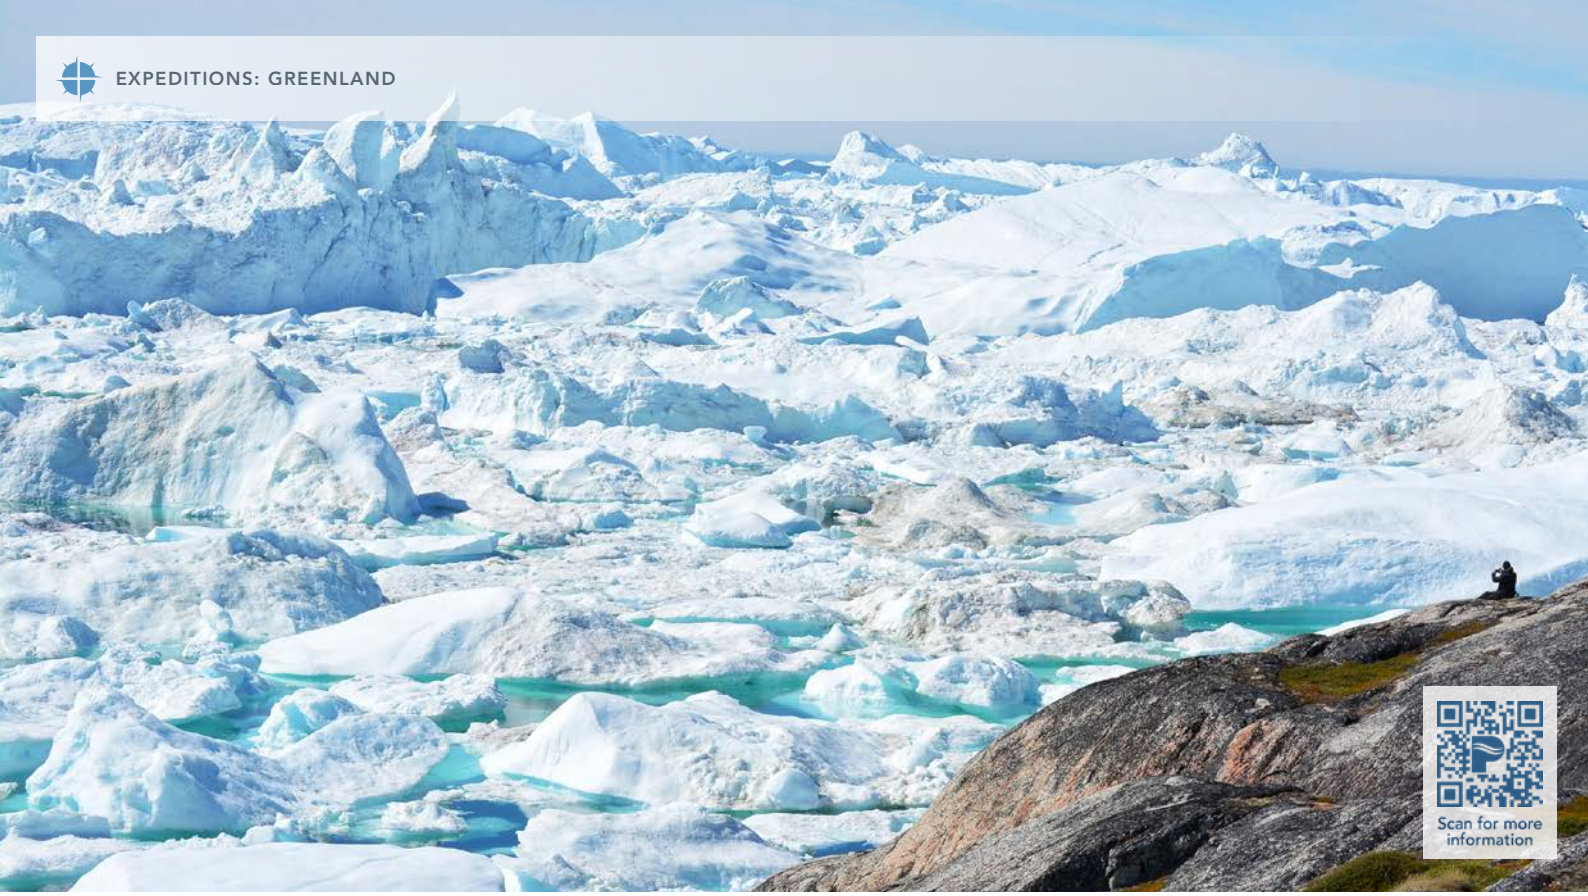
OPTIONAL ACTIVITIES

INCLUDED ACTIVITIES

Greenland

Exploring Greenland is to journey into a world of raw beauty and profound remoteness - an Arctic frontier that leaves every adventurer humbled and inspired. Vast and enigmatic, Greenland beckons with a wilderness of superlatives.

Colossal glaciers and cathedral-like icebergs drift through deep fjords, shaping a breathtaking landscape under the summer midnight sun. Here, Inuit traditions and traces of Viking saga endure amid silent tundra and vibrant village life.



Greenland: Disko Bay & Beyond

8 DAYS (7 nights on board) / Jul 2028

Discover West Greenland on a journey shaped by ice, ocean, and life along the Arctic coast. Sailing round-trip from Kangerlussuaq, this voyage reaches beyond Disko Bay to colorful communities, glacier-carved fjords, volcanic shores, and some of Greenland's most iconic ice-filled landscapes.

Explore Sisimiut, Greenland's lively second city, cruise beneath Disko Island's basalt mountains, and visit Uummannaq, set below its famous heart-shaped peak. Farther north, witness the active glacier front of Eqip Sermia before arriving in Ilulissat, home to the UNESCO-listed Icefjord and some of the most spectacular icebergs in the Arctic. The journey closes with a visit to Itilleq, where Greenlandic hospitality and coastal traditions bring a warm human dimension to the voyage.

HIGHLIGHTS

- Sail round-trip from Kangerlussuaq through West Greenland's fjords, islands, and ice-filled waters
- Visit Sisimiut, Greenland's second-largest city, where Arctic traditions and modern coastal life meet
- Explore Qeqertarsuaq on Disko Island, known for basalt mountains, waterfalls, tundra, and dramatic shoreline scenery
- Discover Uummannaq, set beneath its striking heart-shaped mountain and surrounded by iceberg-studded fjords
- Witness Eqip Sermia Glacier, one of West Greenland's most active and impressive glacier fronts
- Experience Ilulissat Icefjord, a UNESCO World Heritage site and one of Greenland's great natural wonders

SHIPS: Ocean Victory

A COMPACT DISKO BAY CLASSIC

INCLUDED ACTIVITIES

Complete East Greenland

12 DAYS (11 nights on board) / Sep 2027

Enter one of the Arctic's most remote and dramatic regions, where vast fjords, steep mountains, drifting ice, and small coastal communities define the wild eastern edge of Greenland. Departing from Reykjavík, this expedition crosses the Denmark Strait to explore a coastline shaped by weather, sea ice, and deep cultural history.

Visit East Greenlandic communities such as Kuummiut, Tasiilaq, and Ittoqqortoormiit, and trace a route into the immense wilderness of Northeast Greenland National Park. Along the way, cruise ice-filled waters, explore the Blosseville Coast, watch for Arctic wildlife, and experience the powerful silence of a place few travelers ever reach.

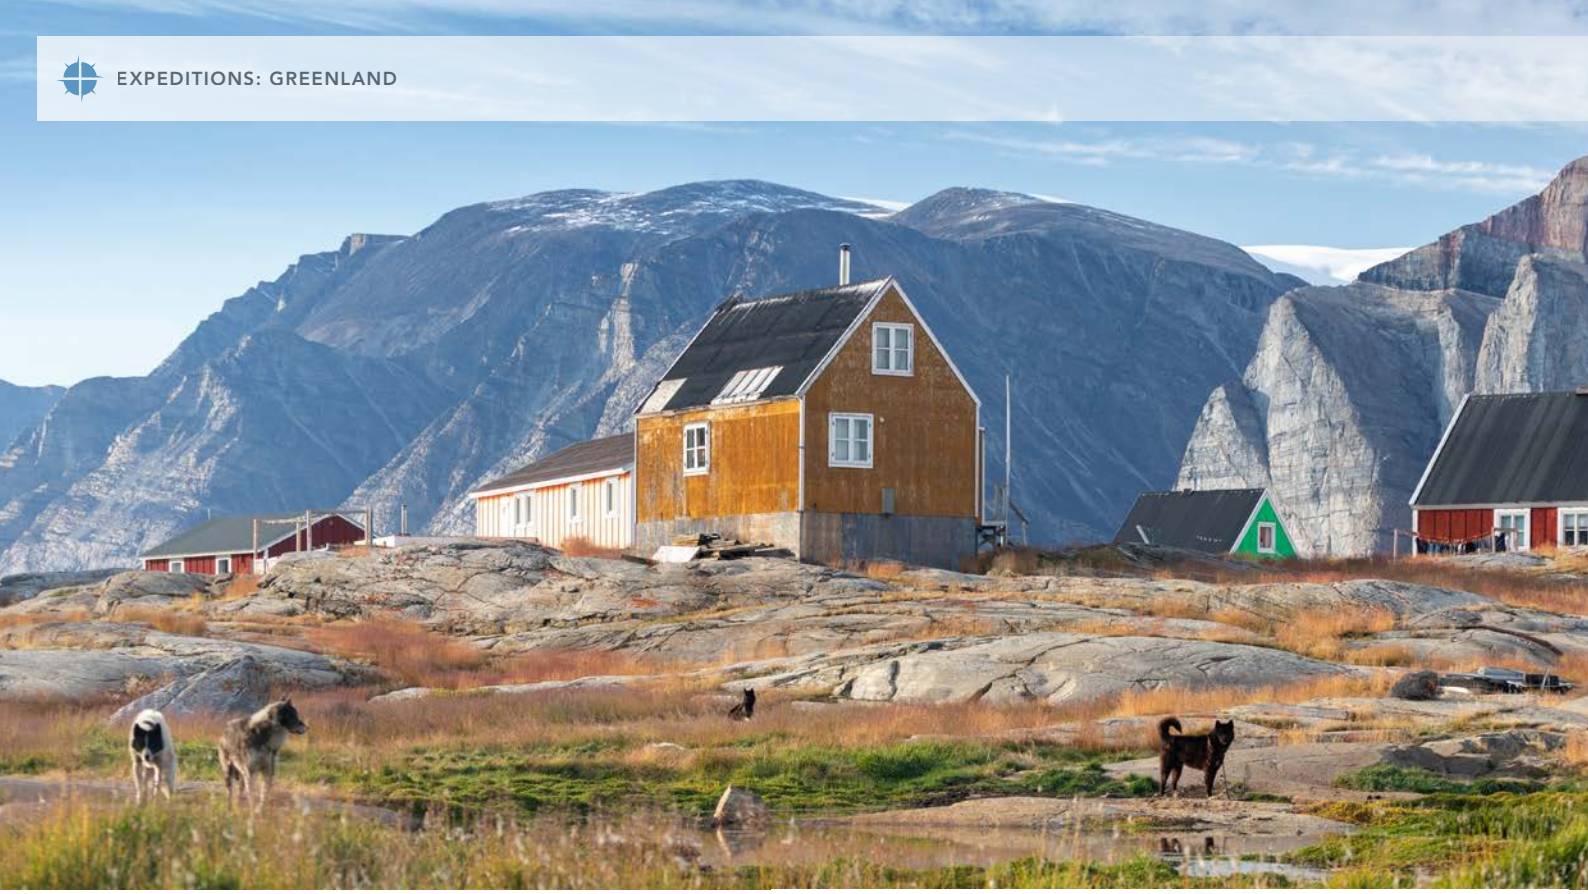
HIGHLIGHTS

- Immerse yourself in authentic East Greenlandic culture, from the community life of Tasiilaq to the remote village of Ittoqqortoormiit
- Explore Northeast Greenland National Park, the world's largest national park, in search of elusive polar bears, Musk oxen, Arctic foxes, and other wildlife
- Cruise through ice-choked fjords and past towering glaciers along the dramatic Blosseville Coast, where sharp mountains meet the sea
- Marvel at the Northern Lights dancing across the Arctic sky on crisp autumn nights
- Feel the thrill of true exploration in a pristine wilderness that few ever experience – a journey to one of the planet's last untouched frontiers

SHIPS: Ocean Albatros

OPTIONAL ACTIVITIES

INCLUDED ACTIVITIES



Greenland Explorer (Westbound)

12 DAYS (11 nights on board)
Jun 2027 & Jun-Jul 2028

Journey west from Reykjavík to Kangerlussuaq on a sweeping expedition through East, South, and West Greenland. Crossing the Denmark Strait, this voyage begins along Greenland's remote eastern coast, where steep mountains, drifting ice, and small communities reveal a powerful sense of Arctic isolation.

From Tasiilaq, Kuummiut, and the still waters of Sermilik Fjord, continue south through Skjoldungen and the glacier-lined passage of Prins Christian Sund. In South Greenland, Norse history comes into focus at sites such as Qassiarsuk and Igaliku, before the journey continues north to Nuuk, Kangaamiut, and the dramatic landscapes of Evighedsfjorden.

HIGHLIGHTS

- Visit the homes of Greenland's Inuit people and learn first-hand about their fascinating lives and culture
- Spend a day in Nuuk, Greenland's surprisingly vibrant capital, where traditional and modern life co-exist harmoniously
- Walk in the footsteps of Vikings at Brattahlíð (Qassiarsuk), Erik the Red's 10th-century farm, and at Igaliku's medieval church ruins
- Navigate the spectacular Prins Christian Sound, a glacier-lined waterway teeming with icebergs, and sail into the dramatic, peak-ringed Skjoldungen Fjord
- Cross the Denmark Strait to Reykjavík, scanning for breaching whales and soaring seabirds as you conclude your Arctic adventure

SHIPS: Ocean Victory

OR GO EASTBOUND

We also offer this remarkable Greenland route in reverse, sailing from Kangerlussuaq to Reykjavík through West, South, and East Greenland.

Across the Arctic

Some Arctic journeys are not defined by one region alone, but by the contrasts that unfold along the way. These longer, multi-region expeditions connect islands, fjords, coastlines, and sea routes across the High Arctic and North Atlantic, revealing how dramatically the north can change from one place to the next.

Each voyage offers a broader view of the Arctic: wild, varied, remote, and constantly shaped by weather, ice, wildlife, and discovery.

Norway's Wild North: Lofoten to Svalbard

10 DAYS (9 nights on board) / May 2028

Sail from Norway's dramatic northern coast into the wild heart of the High Arctic. Beginning in Bodø, this voyage follows a spectacular route through the Lofoten Archipelago, Tromsø, Gjesværstappan, Nordkapp, and Bear Island before reaching the glacier-lined wilderness of Svalbard.

Along the way, experience the full sweep of the Scandinavian north: fishing villages framed by jagged peaks, fjords carved by ice, seabird cliffs alive with motion, and remote Arctic shores where wildlife and history shape every landing. The voyage ends with several days exploring Svalbard, where pack ice, polar bears, walrus, reindeer, and vast glacier fronts reveal the Arctic at its most elemental.

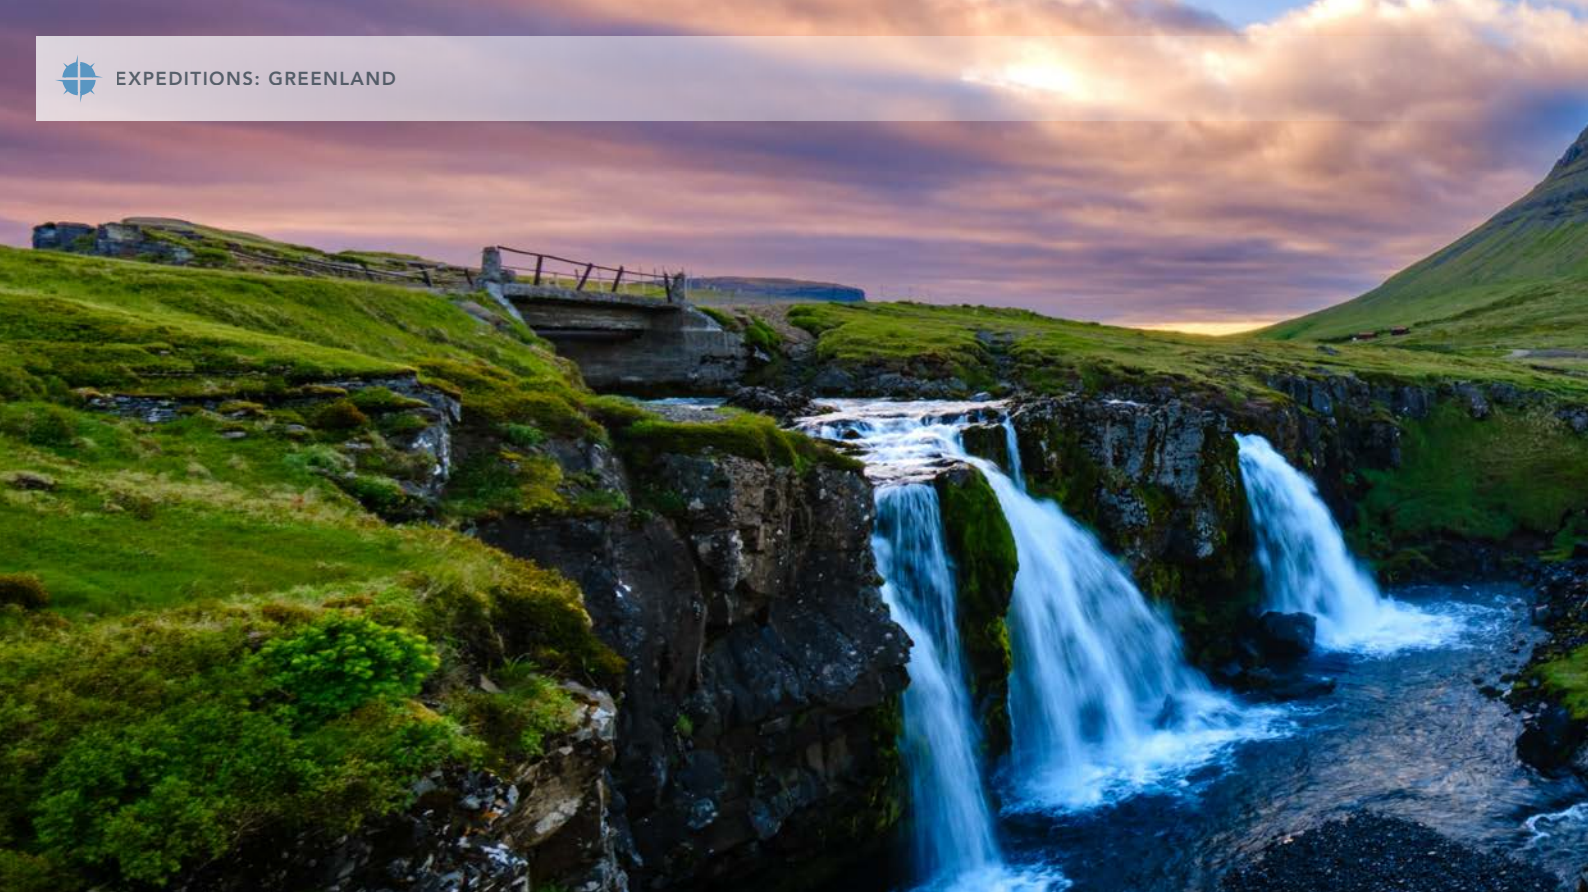
HIGHLIGHTS

- Sail through the fjords and fishing villages of Norway's legendary Lofoten Archipelago
- Visit Tromsø, the gateway to many historic Arctic expeditions
- Explore the bird cliffs of Gjesværstappan and stand near the edge of Europe at Nordkapp
- Cruise the wildlife-rich shores of Bear Island, home to dramatic cliffs and seabird colonies
- Spend several days exploring Svalbard's glaciers, tundra, fjords, and pack ice
- Watch for iconic Arctic wildlife, including walrus, reindeer, seabirds, and polar bears

SHIPS: Ocean Albatros

OPTIONAL ACTIVITIES

INCLUDED ACTIVITIES



Iceland & East Greenland Explorer

10 DAYS (9 nights on board) / Jun 2028

This round-trip voyage from Reykjavík brings together two strikingly different Arctic worlds: Iceland's volcanic coastline and the vast, ice-filled fjords of East Greenland. Begin among the Westman Islands, Snæfellsnes Peninsula, and Iceland's remote Westfjords before crossing the Denmark Strait toward Greenland's wild eastern coast.

In East Greenland, the scale changes completely. Icebergs drift through Sermilik Fjord, mountains rise sharply from the sea, and remote communities such as Kuummiit and Tasiilaq offer insight into East Greenlandic culture and daily life. With sea days for lectures, wildlife watching, and reflection, this voyage balances rugged landscapes, cultural encounters, volcanic history, and the quiet power of the Arctic.

HIGHLIGHTS

- Explore Iceland's volcanic Westman Islands, including Heimaey and the landscapes shaped by Eldfell
- Visit Grundarfjörður and the glacier-crowned Snæfellsnes Peninsula
- Experience Vigur Island and Ísafjörður in Iceland's wildlife-rich Westfjords
- Cross the Denmark Strait, watching for seabirds, whales, and the first signs of Greenland ice
- Cruise among the icebergs and mountains of Sermilik Fjord
- Visit Kuummiit and Tasiilaq for a closer view of East Greenlandic culture, art, and community life

Three Arctic Islands Extended Passage

14 DAYS (13 nights on board) / Aug 2027

Set out on a far-reaching Arctic expedition across three extraordinary island regions: Iceland, East Greenland, and Svalbard. From Reykjavík, sail from Iceland's volcanic shores into the vast fjordlands of East Greenland, where icebergs drift through deep waters and remote communities stand at the edge of one of the world's great wildernesses.

Explore Scoresbysund, the largest fjord system on Earth, and visit Ittoqqortoormiit, a small East Greenland community shaped by sea ice, tradition, and resilience. Then cross the Greenland Sea toward Svalbard, where glacier fronts, tundra landscapes, seabird cliffs, and High Arctic wildlife bring the journey to a powerful finale.

HIGHLIGHTS

- Connect three remarkable Arctic island regions: Iceland, East Greenland, and Svalbard
- Sail deep into Scoresbysund, the world's largest fjord system, surrounded by icebergs, mountains, and Arctic wilderness
- Visit Ittoqqortoormiit, one of East Greenland's most remote communities, shaped by sea ice and tradition
- Explore fjords, glaciers, tundra, and remote coastlines by Zodiac and on foot
- Cross the Greenland Sea toward Svalbard, watching for seabirds, whales, and changing ice conditions
- Discover Svalbard's glacier-lined shores, wildlife habitats, and dramatic High Arctic landscapes

Four Arctic Islands (Northbound)

13 DAYS (12 nights on board) / Sep 2028

Travel north from Reykjavík to Longyearbyen on an expedition that connects four distinct Arctic worlds: Iceland, East Greenland, Jan Mayen, and Svalbard. From Iceland's volcanic shores, cross into the vast fjordlands of East Greenland, where icebergs, basalt mountains, and remote communities reveal the scale and solitude of the High Arctic.

Continue through Scoresbysund, the world's largest fjord system, and visit Ittoqqortoormiit, one of East Greenland's most remote communities. Farther north, Jan Mayen rises alone from the North Atlantic, crowned by the glacier-covered peak of Mount Beerenberg. The journey reaches its powerful finale in Svalbard, where glacier-lined fjords, seabird cliffs, and Arctic wildlife define the edge of the polar world.

HIGHLIGHTS

- Connect four Arctic regions in one voyage: Iceland, East Greenland, Jan Mayen, and Svalbard
- Sail deep into Scoresbysund, among vast fjords, icebergs, basalt mountains, and Arctic wilderness
- Visit Ittoqqortoormiit, a remote East Greenland community shaped by sea ice and tradition
- Attempt a landing at Jan Mayen, one of the North Atlantic's most isolated volcanic outposts
- Explore Svalbard's fjords, bird cliffs, glaciers, and historic sites
- Watch for whales, seabirds, walrus, reindeer, Arctic foxes, and polar bears along the route

Ultimate Arctic Odyssey: Svalbard, Lofoten, East Greenland & Iceland

18 DAYS (17 nights on board) / Sep 2027

This far-reaching 18-day expedition connects some of the Arctic's most dramatic landscapes, from Svalbard's high Arctic wilderness to Bear Island, Lofoten, Jan Mayen, East Greenland, and Iceland. Beginning in Longyearbyen, the journey explores glaciers, fjords, tundra, pack ice, and wildlife before sailing south toward Bear Island and the steep peaks, fishing villages, and golden beaches of Lofoten.

From Norway, the route turns west across the North Atlantic to Jan Mayen and onward to East Greenland, where Ittoqqortoormiit and Northeast Greenland National Park offer true expedition territory: remote, icebound, and shaped by weather, sea, and silence

HIGHLIGHTS

- Experience Svalbard's glaciers, fjords, tundra, pack ice, and high Arctic wildlife
- Cruise the seabird cliffs of Bear Island between Svalbard and mainland Norway
- Discover Lofoten's sawtooth peaks, fishing villages, fjords, and coastal trails
- Sail past Jan Mayen, crowned by the volcanic peak of Mount Beerenberg
- Visit Ittoqqortoormiit and explore Northeast Greenland National Park

Antarctica & the Southern Ocean

Our 2026/2027 & 2027/28 Antarctic seasons offer a thoughtfully curated range of voyages, from classic Antarctic Peninsula expeditions to Antarctic Circle crossings and extended journeys to the Falkland Islands and South Georgia. Choose between traditional sailings across the Drake Passage or our Fly & Cruise programs for added comfort and efficiency.

Whether you're drawn to early-season light, peak whale encounters, or celebrating the New Year in Antarctica, each itinerary is designed to deliver a deeply immersive polar experience.

ARGENTINA

CHILE

AT THE END OF THE WORLD

Ushuaia, the southernmost city in the world and the classic departure point for Antarctic voyages. Nestled between mountains and sea, it's where explorers have long set sail for the ice.

FALKLAND ISLANDS

Stanley

PUNTA ARENAS

Chile's historic port city and gateway to Fly & Cruise expeditions. From here, flights cross the Southern Ocean to King George Island, offering a swift and dramatic arrival in Antarctica.

Punta Arenas

Ushuaia

CROSSING THE DRAKE PASSAGE

The iconic ocean crossing between South America and Antarctica. A true expedition tradition, where seabirds trail the ship and anticipation builds with every nautical mile south.

Drake Passage

FIYING THE DRAKE

By air, the Southern Ocean becomes a breathtaking panorama below. Touch down on King George Island and step directly into your Antarctic expedition, arriving swiftly and comfortably.

Weddell Sea

THE SOUTHERNMOST POST OFFICE

Port Lockroy,a former British research station turned museum and post office, where Gentoo Penguins nest among historic huts. A rare meeting of Antarctic wildlife and human history.

LEMAIRE CHANNEL

Often called "Kodak Gap," this narrow passage is famed for mirror-like waters, towering cliffs, and drifting icebergs, one of the most photogenic waterways in Antarctica.

ANTARCTIC PENINSULA

ANTARCTIC CIRCLE 66°33'48.8"

CROSSING THE ANTARCTIC CIRCLE

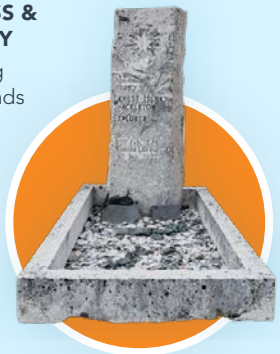
Crossing 66°33' South is a milestone few travelers achieve. South of the Circle, landscapes grow wilder, ice more sculptural, and the sense of remoteness even more profound.

COLORFUL HARBORS & SOUTHERN HERITAGE

With its bright-painted houses, maritime history, and windswept charm, Stanley offers a distinctive introduction to the South Atlantic. Stroll along the harborfront, visit historic sites and museums, and experience a unique blend of British tradition and remote island life.

WHALERS, WILDERNESS & SHACKLETON's LEGACY

Nestled beneath towering mountains, Grytviken blends dramatic history with raw natural beauty. Explore the remnants of a former whaling station, visit the grave of Sir Ernest Shackleton, and witness fur seals and penguins reclaiming a landscape once shaped by industry.



FALKLAND ISLANDS

A remote archipelago of sweeping grasslands, white-sand beaches, and extraordinary wildlife. Vast seabird colonies, penguins, and albatross define these rugged shores shaped by wind and sea.

DECEPTION ISLAND

A flooded volcanic caldera where black sand beaches steam against snow-covered peaks. One of Antarctica's most surreal landings, rich in wildlife and whaling history.

THE KINGDOM OF KINGS

Home to one of the largest king penguin colonies on Earth, Salisbury Plain is an extraordinary spectacle of sound and movement, where tens of thousands of penguins gather against a backdrop of snow-capped peaks and sweeping sub-Antarctic beaches.

The Antarctic Realm

Where ice, ocean, and wildlife create one of the most extraordinary environments on Earth

Now that you've discovered the highlights of the Antarctic region, explore the diverse range of itineraries we offer, each crafted to reveal a different facet of this remarkable region.

When to Travel to Antarctica

While Antarctica is an explorer's dream destination throughout the travel season. Every part of Antarctica's season offers something extraordinary. From the raw, untouched beauty of early November to the golden calm of March, each period reveals a different face of the Peninsula, and a unique range of wildlife activity. Here's how to choose the right time based on your travel style and greatest interest.

Wildlife Enthusiasts

Best time: December to February

These are the liveliest months on the Peninsula. In December, penguin colonies bustle with nesting activity, while January brings the joy of watching fluffy chicks take their first steps. By February, whales arrive in large numbers, especially Humpbacks feeding in calm bays, making it an ideal time for close encounters. If you're drawn to vibrant animal behavior and abundant wildlife, this is your season.

First-Time Explorers

Best time: December & January

Looking to see it all? These mid-season months strike the perfect balance. You'll experience active penguin rookeries, growing chicks, and increasing whale sightings, all while enjoying milder weather, relatively stable seas, and long hours of daylight. Whether it's your first time in Antarctica or your first major expedition anywhere, these months offer an ideal blend of comfort, activity, and wonder.

Landscape Photographers

Best time: November & March

Light defines the experience during these months. November offers pristine, snow-covered landscapes beneath soft, dramatic skies, with long shadows and fewer ships in sight. March brings warm, golden tones and deeper contrast as the sun dips lower on the horizon. Both months feel quieter and more atmospheric, with powerful visuals that lend themselves beautifully to storytelling through a lens.

Whale Lovers

Best time: February & March

Whales are at their most plentiful and active toward the end of the Antarctic season. This is the best time to observe humpbacks feeding in large groups, spot curious orcas near the ice edge, and hear whale blows across calm seas. With quieter waters and fewer ships in the region, these voyages offer exceptional opportunities for close, respectful wildlife encounters and marine photography.

Antarctic Wildlife Month-by-Month

	SPRING	SUMMER			AUTUMN
	NOVEMBER	DECEMBER	JANUARY	FEBRUARY	MARCH
PENGUINS	Penguins begin courtship, mating and nest building	Penguins lay eggs, incubate and hatch in time for Christmas	Chicks hatch, they are their fluffiest and photogenic	Chicks gather in crèches, leaving the nest for the first time	Chicks molt and grow independent, learning to swim
SEALS	Elephant & Fur seals hauled out post-breeding	Weddell seal pups appear on the ice	Seals abound! Leopard seals patrol the waters and hunt near penguin colonies		On the South Shetland Islands, Fur seals are seen in large numbers
WHALES	First Humpbacks and Minkes return	Increasing sightings along the Antarctic Peninsula	Peak whale activity begins (Humpback, Minke, Orca) Excellent whale encounters in calm seas, they feed intensively before migration north		
SEABIRDS	Antarctica's birdlife is returning and focused on nest building, mating and laying eggs.		It's hatching time. Constant feeding flights over colonies	Young birds preparing to fledge	Colonies thinning as some species start to leave Antarctica

Antarctic Peninsula

In the austral summer, the Antarctic Peninsula reveals a world of pristine beauty and raw adventure. Towering ice-clad mountains plunge into sapphire seas, and colossal icebergs drift like sculptures in the polar sun.

In this otherworldly sanctuary, penguin colonies bustle along rocky shores, curious seals lounge on ice floes, and humpback whales surface slowly amid a stillness broken only by wind and water.

Antarctica Springs to Life

10 DAYS (8 nights on board) / Nov 2026

Experience Antarctica at its most pristine and life-affirming. This early-season voyage captures the raw, untouched beauty of the continent as it awakens from its long polar winter. In November, the Antarctic Peninsula is quiet and ethereal, blanketed in fresh snow and alive with seasonal energy. Penguin colonies begin their courtship rituals, seals haul out onto ice-strewn beaches, and sculptural icebergs glow beneath dramatic spring light. With fewer ships on the water this early in the season, you'll feel as though you have Antarctica to yourself. Each landing offers a sense of discovery, revealing a landscape still shaped by winter and just beginning to stir with life.

HIGHLIGHTS

- The best Introduction to Antarctica for those with high ambitions and limited time
- Explore a pristine, untouched continent just opening up after a long winter's nap
- Witness penguins choosing mates, building nests, tending to their eggs
- Enjoy spectacular, colorful sunsets and massive icebergs
- With fewer ships in the water, you'll feel like Antarctica is all yours

INCLUDED ACTIVITIES

Christmas Season in Antarctica

11 DAYS (9 nights on board) / Dec 2026

Celebrate the greatest holiday season in the most inspiring place on earth. This 11-day voyage takes you into the heart of the austral summer, with long daylight hours and snow-dusted landscapes. Cruise through icy bays, hike along penguin-covered shores, and enjoy a special Christmas dinner aboard. Wildlife activity is in full swing – giant gentoo and chinstrap penguin rookeries teem with life – while volcanic islands like Deception Island add a dash of drama. This festive expedition blends holiday tradition with polar adventure in an unforgettable setting.

HIGHLIGHTS

- Enjoy a festive holiday feast and seasonal cheer, celebrating Christmas under the polar sun with fellow adventurers
- Explore the South Shetland Islands, a wildlife-rich archipelago known for penguins, seals, and dramatic volcanic landscapes
- Visit active penguin rookeries during peak nesting season and observe seabirds soaring overhead
- Cruise by Zodiac through icy bays filled with sculptural icebergs and towering glacier fronts

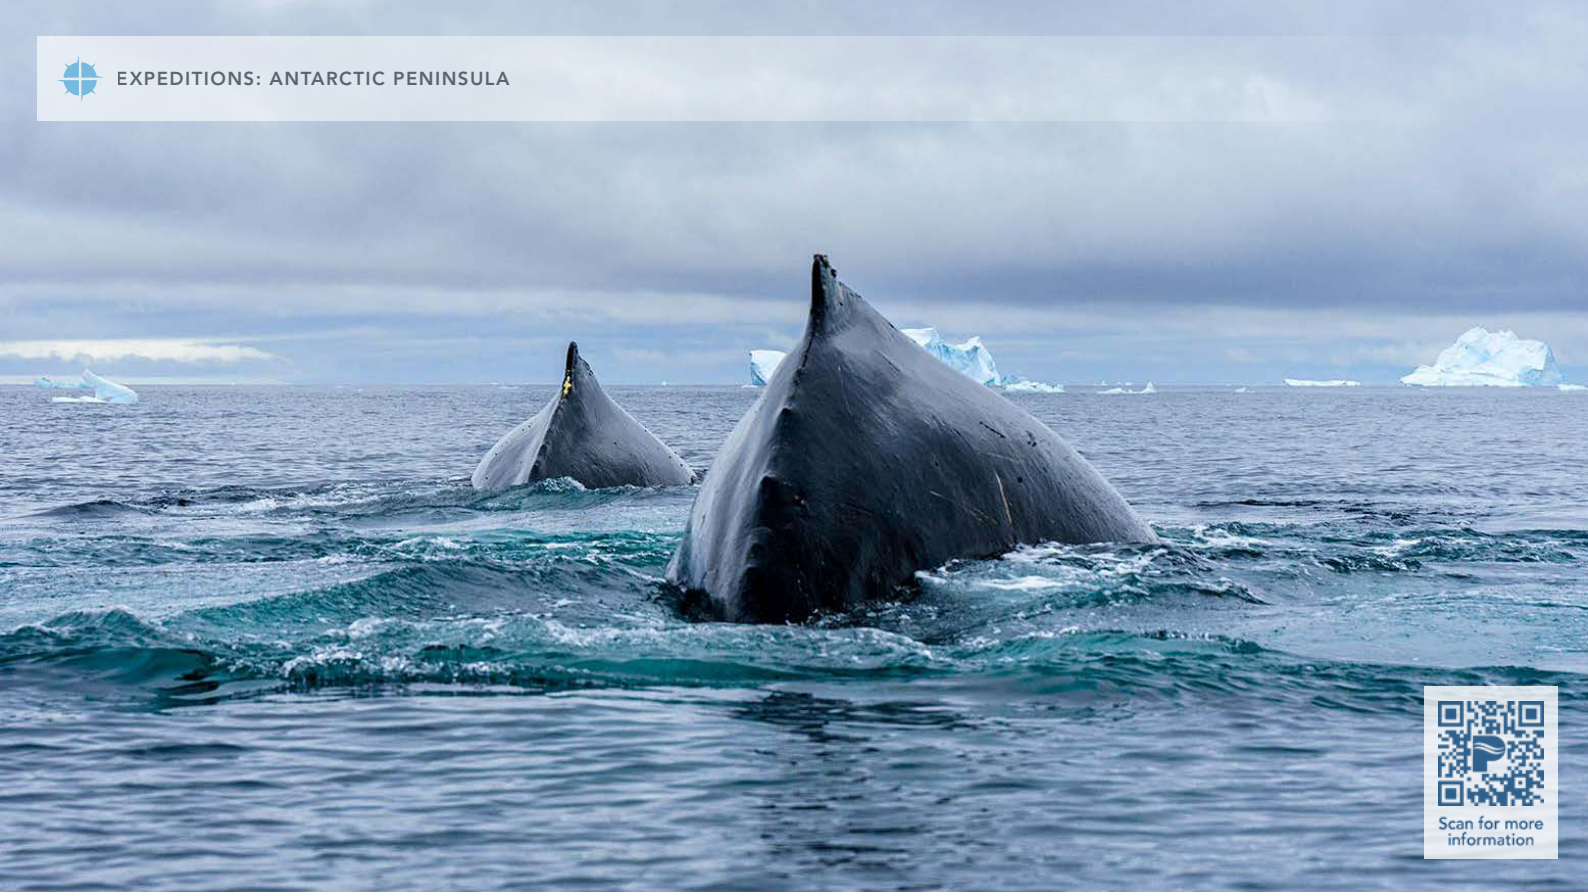
INCLUDED ACTIVITIES



Best of Antarctica's Whale Season

12 DAYS (10 nights on board) / Mar 2027

Experience all that Antarctica has to offer, headlined by its most magnificent residents. Timed for peak whale activity, this late-summer voyage offers unforgettable encounters with feeding humpbacks, orcas, and minke whales amid glassy seas. Penguin colonies bustle with activity, seals lounge along icy shores, and golden light casts a warm glow over sculpted icebergs and glacier-lined bays. With fewer ships on the water, the wilderness – and the whales – will feel as though they're there just for you.

HIGHLIGHTS

- Travel during peak whale season: humpback, minke, and orca whales frequently feed and play near the ship, often visible from the Zodiac
- Explore bustling colonies of gentoo, chinstrap, and Adélie penguins on shore – now filled with fluffy chicks and busy adults
- Step ashore at century-old whaling stations and Antarctic research bases, connecting with the human stories of polar history

Antarctic Peninsula: The Classic Voyage

12 DAYS (10 nights on board)

Nov 2026–Feb 2027 & Nov 2027–Mar 2028

Experience the Antarctic Peninsula in its most iconic form on this classic round-trip expedition from Ushuaia. Crossing the legendary Drake Passage, you'll arrive in a world of towering glaciers, sculptural icebergs, lively penguin colonies, and quiet bays where seals rest on floating ice and whales surface in the stillness.

With an extra day built into the itinerary, this voyage gives the Expedition Team more flexibility to respond to weather, ice, and wildlife opportunities as they unfold. Explore by Zodiac, step ashore at landing sites rich with wildlife and polar history, and take part in included citizen science projects that add a deeper layer of purpose to your time in Antarctica.

HIGHLIGHTS

- Visit wildlife-rich landing sites where penguins, seals, and whales bring the Antarctic summer vividly to life
- Discover the South Shetland Islands, known for dramatic volcanic landscapes, glaciers, and active penguin colonies
- Take part in included citizen science projects, helping support polar research through guided observations and data collection
- Join onboard lectures and recaps that bring Antarctica's wildlife, history, geology, and changing environment into deeper focus
- Step ashore at places shaped by polar history, from historic huts and research stations to former whaling sites

Crossing the Antarctic Circle

13 DAYS (11 nights on board)
Jan–Feb 2027 & Dec 2027–Feb 2028

Be among the very few who will venture to the most southern reaches of Antarctica. Join us on this ultimate Antarctic expedition – a 13-day voyage into the furthest reaches and greatest wonders of the Antarctic Peninsula. Charting a course deep into the Southern Ocean, our gc weather and ice permitting, is to cross the legendary 66° S Antarctic Circle. Along the way, ice and glaciers grow ever more dramatic, and each horizon may bring wildlife encounters with penguins, seals, and even humpback or whales. Every Zodiac cruise and shore landing immerses in Antarctica's wild, untamed beauty. Reaching the Circle becomes the expedition's crowning moment, placing yo among the rare few who have ventured this far south.

HIGHLIGHTS

- Explore the Peninsula's pristine waterways by Zodiac – from the glassy Lemaire Channel to ice-choked bays surrounded by towering glaciers and snow-dusted pea
- Push toward 66°33′ S – the Antarctic Circle – and celeb entering polar legend. Achieving this rarefied latitude places you among the few explorers who have venture far
- Discover Antarctica's history at remote outposts: visit century-old explorer huts (such as Damoy Point) and modern research stations, each adding a human story to the vast polar wilderness
- Immerse yourself in daily polar adventure with multiple shore landings, optional sea kayaking among icebergs, and even the chance to camp under the midnight sun

SHIPS: Ocean Albatros, Ocean Victory, & Discoverer

OPTIONAL ACTIVITIES

INCLUDED ACTIVITIES

Fly & Cruise

Flying to Antarctica offers a refined alternative to the traditional Drake Passage crossing, without changing the essence of the expedition itself. By flying directly to King George Island, you reach Antarctica quickly and comfortably, arriving rested and ready to explore.

Once on board your expedition vessel, the journey unfolds just as it does on our fully vessel-based voyages, led by the same expert team, guided by the same philosophy of exploration, and shaped by the same respect for Antarctica's ever-changing environment.

Why Fly the Drake Passage?

A GENTLER PASSAGE SOUTH

Flying across the Drake Passage allows you to avoid its unpredictable sea conditions, offering a smoother start and finish to your Antarctic expedition and a more comfortable journey overall.

AN INTIMATE EXPEDITION EXPERIENCE

Our Fly & Cruise voyages operate aboard Ocean Nova, a small expedition vessel designed for personal, immersive exploration. With attentive service, expert leadership, and a relaxed onboard atmosphere, she offers a deeply intimate way to experience Antarctica.

A MORE DIRECT JOURNEY

By flying to King George Island, you reach Antarctica efficiently and begin your expedition without the extended sea crossing, streamlining travel while preserving your valuable time and the full expedition experience.

What Stays the Same?

THE FULL ANTARCTIC EXPERIENCE

Once on board your expedition ship, your experience mirrors our cruise-only voyages. You'll explore the same iconic regions, encounter the same extraordinary wildlife, and go ashore via Zodiac for landings and excursions led by our expert Expedition Team.

EXPERT LEADERSHIP AND EXPEDITION FLEXIBILITY

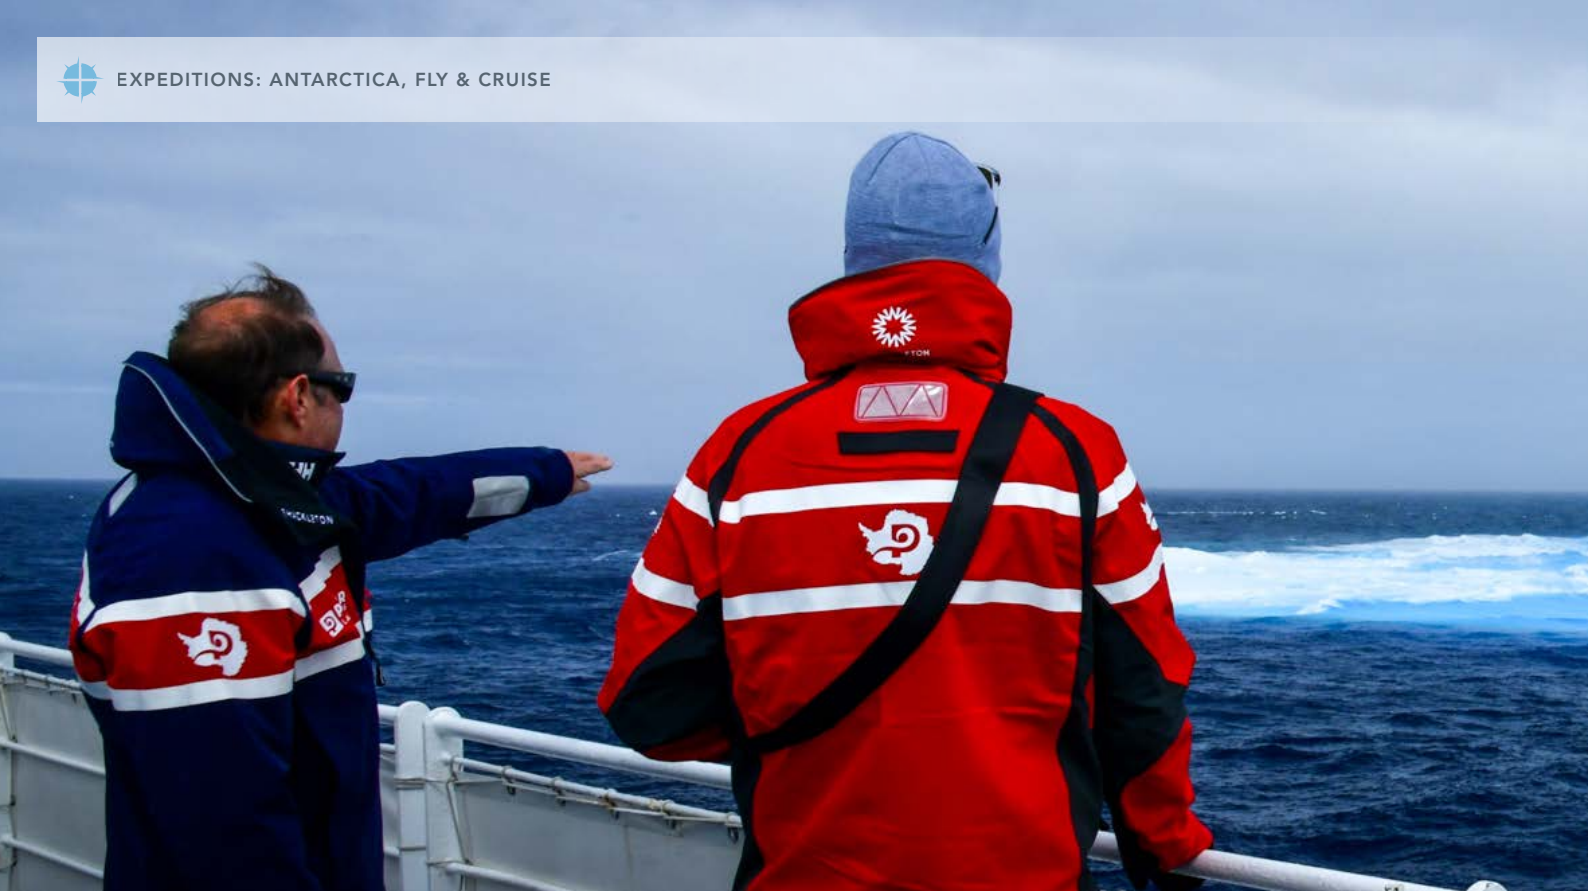
As with all our voyages, daily plans are guided by weather, ice, and wildlife conditions. Your Captain and Expedition Leader evaluate conditions each day to ensure safe operations and meaningful encounters, embracing the true spirit of expedition travel.

CAREFUL PREPARATION AND SEAMLESS SUPPORT

Ahead of your flight, our experienced Punta Arenas team ensures you are fully prepared, from biosecurity procedures and gear fitting to detailed briefings on Antarctic operations and environmental responsibility, so you arrive confident and prepared for the adventure ahead.

GOOD TO KNOW

Antarctic flights are carefully timed around weather conditions, with flexibility built into every journey. In the event of delays, guests are accommodated in comfort, either aboard Ocean Nova or at our partner hotel in Punta Arenas.



Antarctica: Fly the Drake Passage

9 DAYS (5 nights on board) / Jan 2028

Begin your Antarctic expedition by air, arriving rested and ready to explore. This fly-in, fly-out journey combines the comfort and efficiency of flying over the Drake Passage with the depth and authenticity of a classic expedition cruise. Touch down on King George Island, where Antarctica's ice-covered peaks rise into view, before boarding your expedition vessel and setting out to explore the continent by sea. Guided by an expert Expedition Team, you'll experience Antarctica up close, from intimate wildlife encounters and dramatic ice formations to remote landing sites shaped by wind, water, and time, before returning to Punta Arenas.

HIGHLIGHTS

- Fly over the legendary Drake Passage, trading rolling seas for soaring skies as you arrive in Antarctica feeling rested, exhilarated, and ready for discovery
- Explore Antarctica aboard Ocean Nova, a small expedition ship that brings you closer to the ice, wildlife, and landscapes through intimate Zodiac landings and two daily shore visits
- Sail through a world of ice and light, where towering glaciers, luminous icebergs, and snow-covered peaks create an ever-changing polar masterpiece
- Discover the South Shetland Islands, a dramatic blend of volcanic landscapes, glaciers, and wildlife that offers a powerful final chapter to your Antarctic journey
- End your adventure in Chilean Patagonia, unwinding in comfort and exploring authentic Patagonian heritage while reflecting on days spent in one of the most awe-inspiring places on Earth

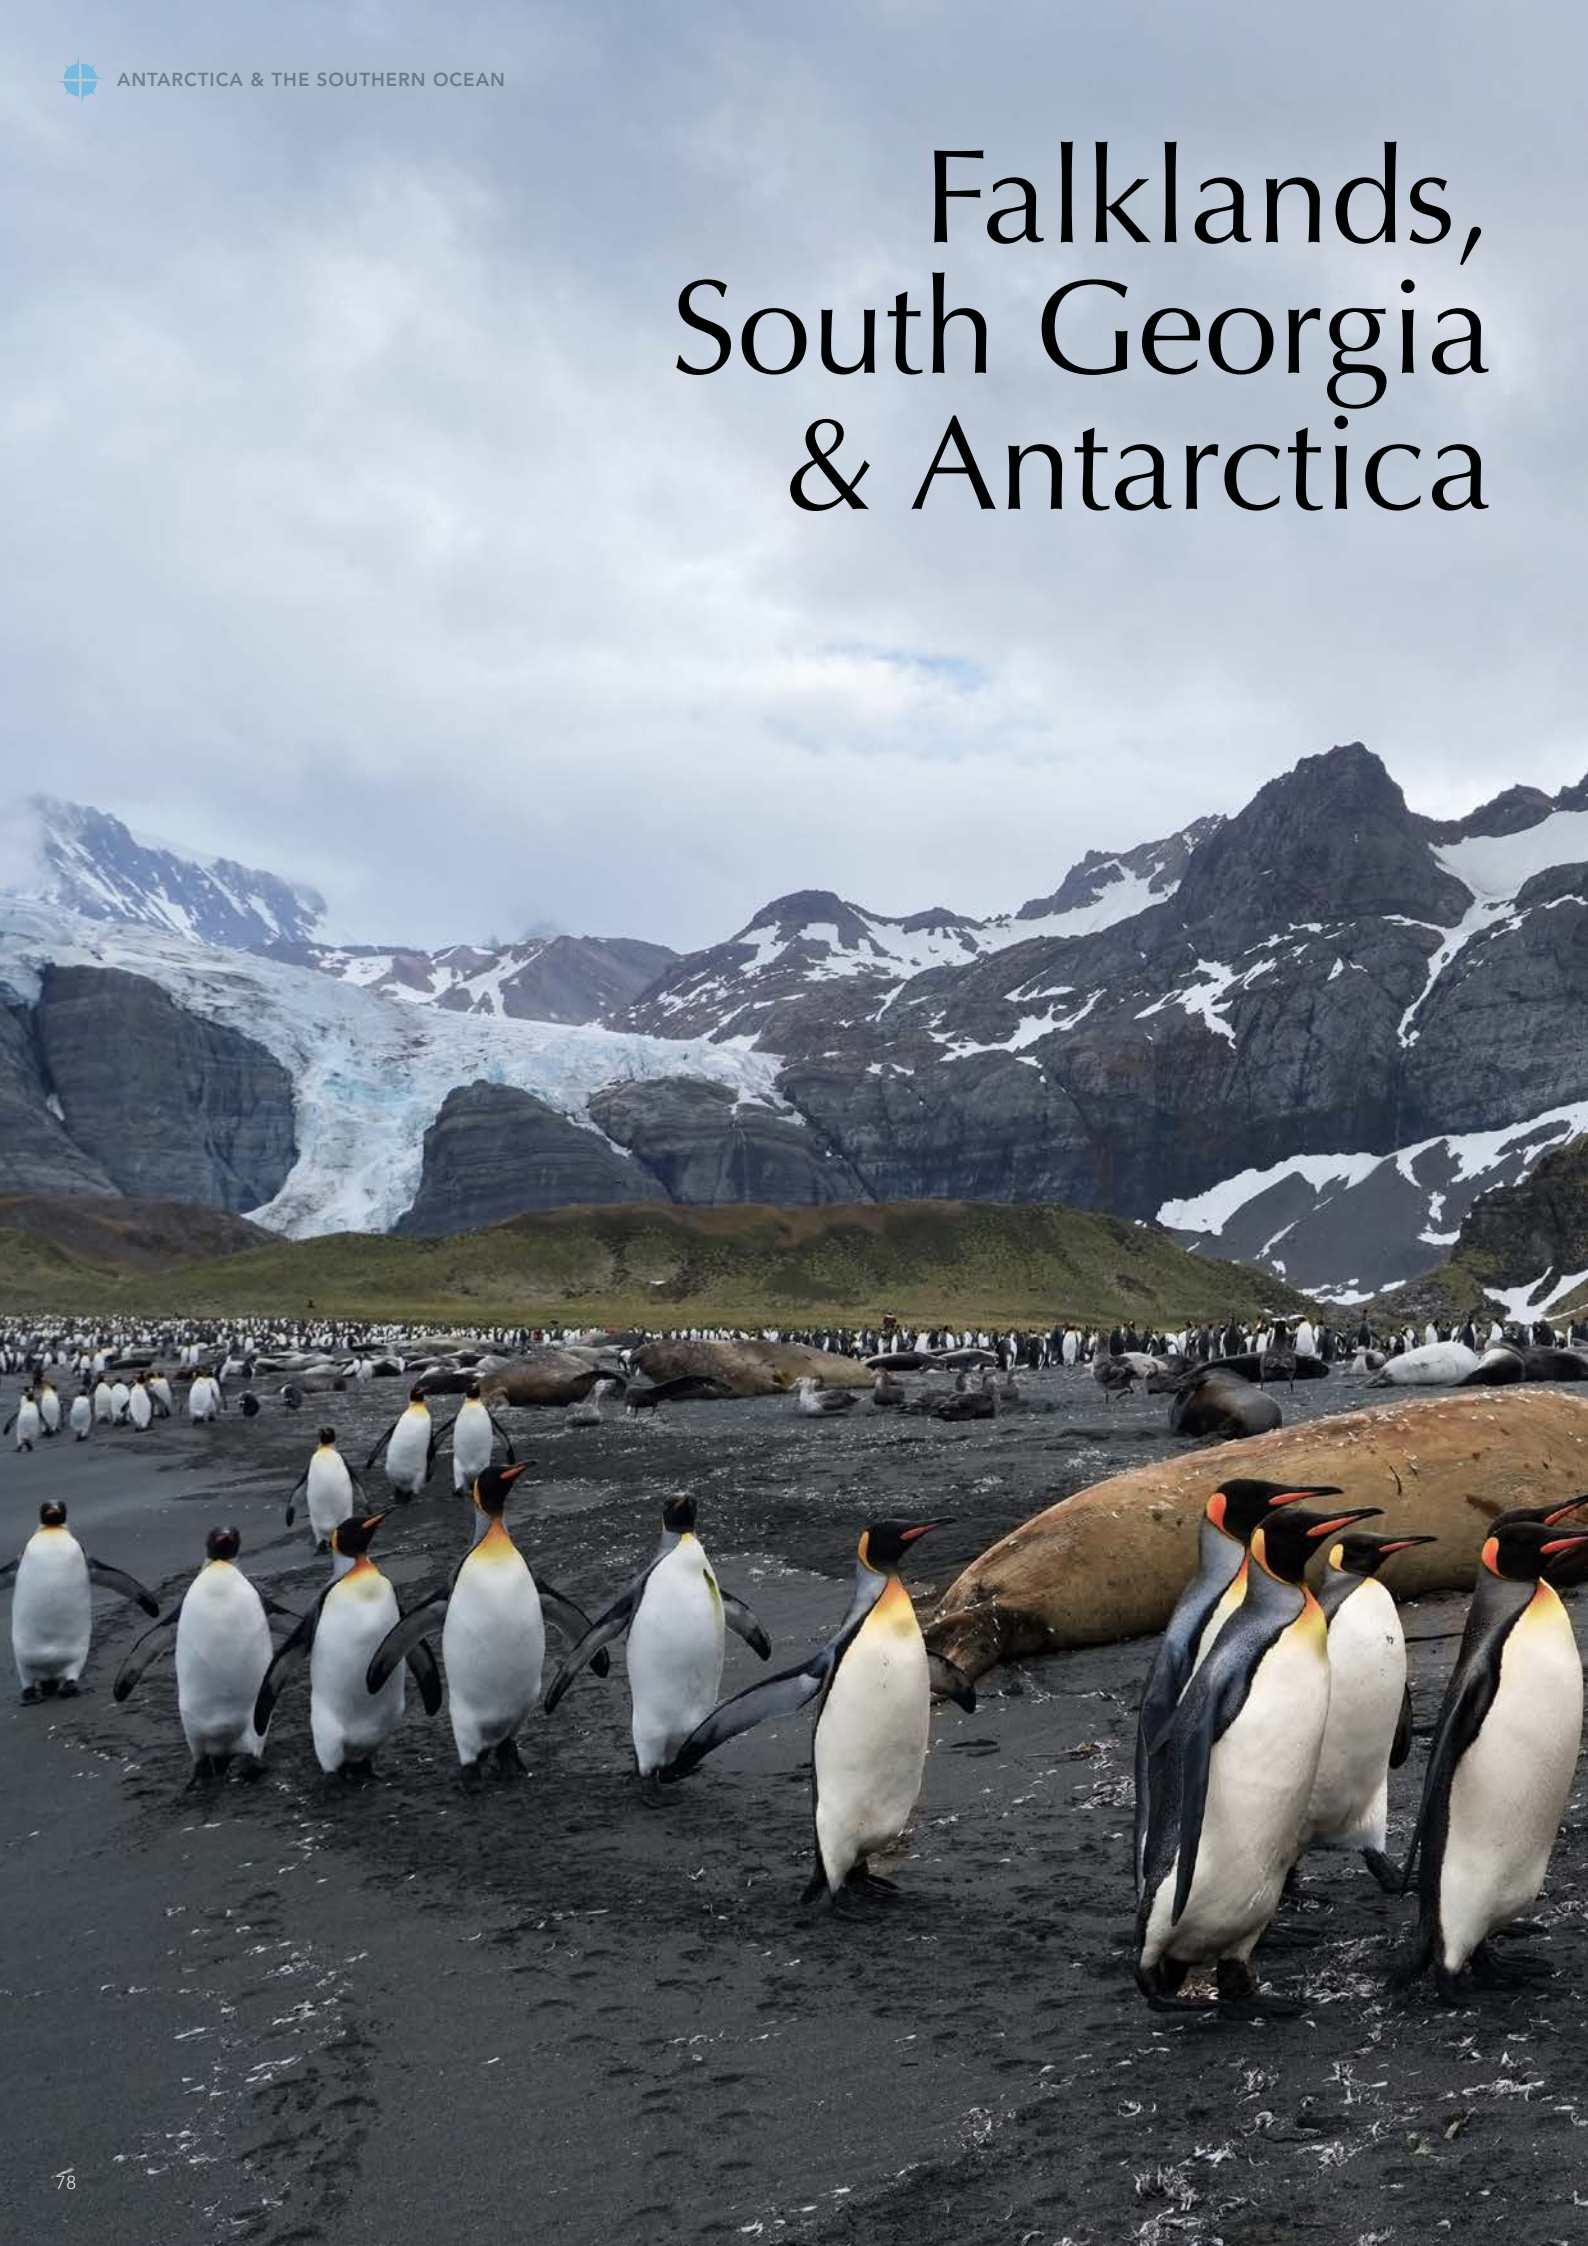
Falklands, South Georgia & Antarctica



Stretching beyond the Southern Ocean, the Falkland Islands and South Georgia reveal a realm of wild wonders. On the windswept shores of the Falklands, rockhopper and gentoo penguins share secluded beaches with basking fur seals, while black-browed albatross wheel overhead.

Farther south, South Georgia greets you with snow-dusted peaks, deep fjords, and beaches alive with tussling elephant seals and vast colonies of king penguins. These untamed outposts stir the spirit and ignite a lasting sense of wonder for the planet's wildest corners.

Falkland Islands, South Georgia & Antarctica

20 DAYS (18 nights on board)
Jan-Mar 2027 & Dec 2027-Jan 2028

Feast your eyes on the greatest wildlife spectacle in the Southern Ocean, followed by all the majesty and wildlife of Antarctica. The sub-Antarctic Falkland Islands and South Georgia are home to some of the most unique and abundant wildlife species on earth. With beaches covered in fur seals, elephant seals, and hundreds of thousands of penguins, it's one of the most jaw-dropping nature scenes you will ever experience. Explore historic Falklands sites and Grytviken's whaling relics, including Sir Ernest Shackleton's grave. Share a moment of silent tribute to "The Boss" before cruising Antarctic channels packed with glaciers, whales and icebergs.

HIGHLIGHTS

- The Falklands host five penguin species and the world's largest black-browed albatross colonies amid their tussock grass islands and rocky shores
- Explore Stanley, the charming capital: see braying Magellanic Penguins at Gypsy Cove and even coastal war relics as you stroll this sheltered harbor
- South Georgia's beaches teem with life: tens of thousands of King and Rockhopper Penguins mingle with massive herds of Elephant and Fur Seals below ice-topped mountains
- Visit historic Grytviken and the graveyard of polar hero Sir Ernest Shackleton
- Continue south via the South Shetland Islands to the Classic Voyage, exploring ice-filled bays, glaciers, and remote polar landscapes by Zodiac and on foot

OPTIONAL ACTIVITIES

INCLUDED ACTIVITIES

Extended Falklands, South Georgia & Antarctic Circle

23 DAYS (21 nights on board) / Dec 2026 & Feb 2028

Experience all the best of three iconic polar regions on this epic 23-day expedition. Begin in the Falkland Islands, where wind-blown moors host gentoo, rockhopper, and Magellanic penguins – and even king penguins – alongside immense black-browed albatross. Then sail to legendary South Georgia, a craggy wilderness often called the Serengeti of the Southern Ocean, where vast colonies of king penguins crowd the beaches and massive elephant and fur seals rumble ashore. As December 31st comes to a close, we'll raise a toast under the midnight sun and welcome the New Year in truly epic fashion, surrounded by icebergs, glaciers, and perhaps a passing whale or two. From there, it's on to the Antarctic Peninsula and the legendary Antarctic Circle. Spanning an extraordinary range of latitudes and ecosystems, this voyage offers a rare chance to experience the full sweep of the Southern Ocean in a single, unforgettable journey.

HIGHLIGHTS

- Celebrate the New Year on an epic expedition across the Southern Ocean, journeying through three of the planet's most iconic polar regions
- Explore the Falkland Islands, discovering windswept coastlines, remote settlements, and a rich maritime history at the edge of the South Atlantic
- Discover South Georgia's wildlife wonderland: towering king penguin colonies and hundreds of elephant and fur seals
- After exploring Antarctica, seek to cross the legendary Antarctic Circle, completing one of the most comprehensive and ambitious polar expeditions available

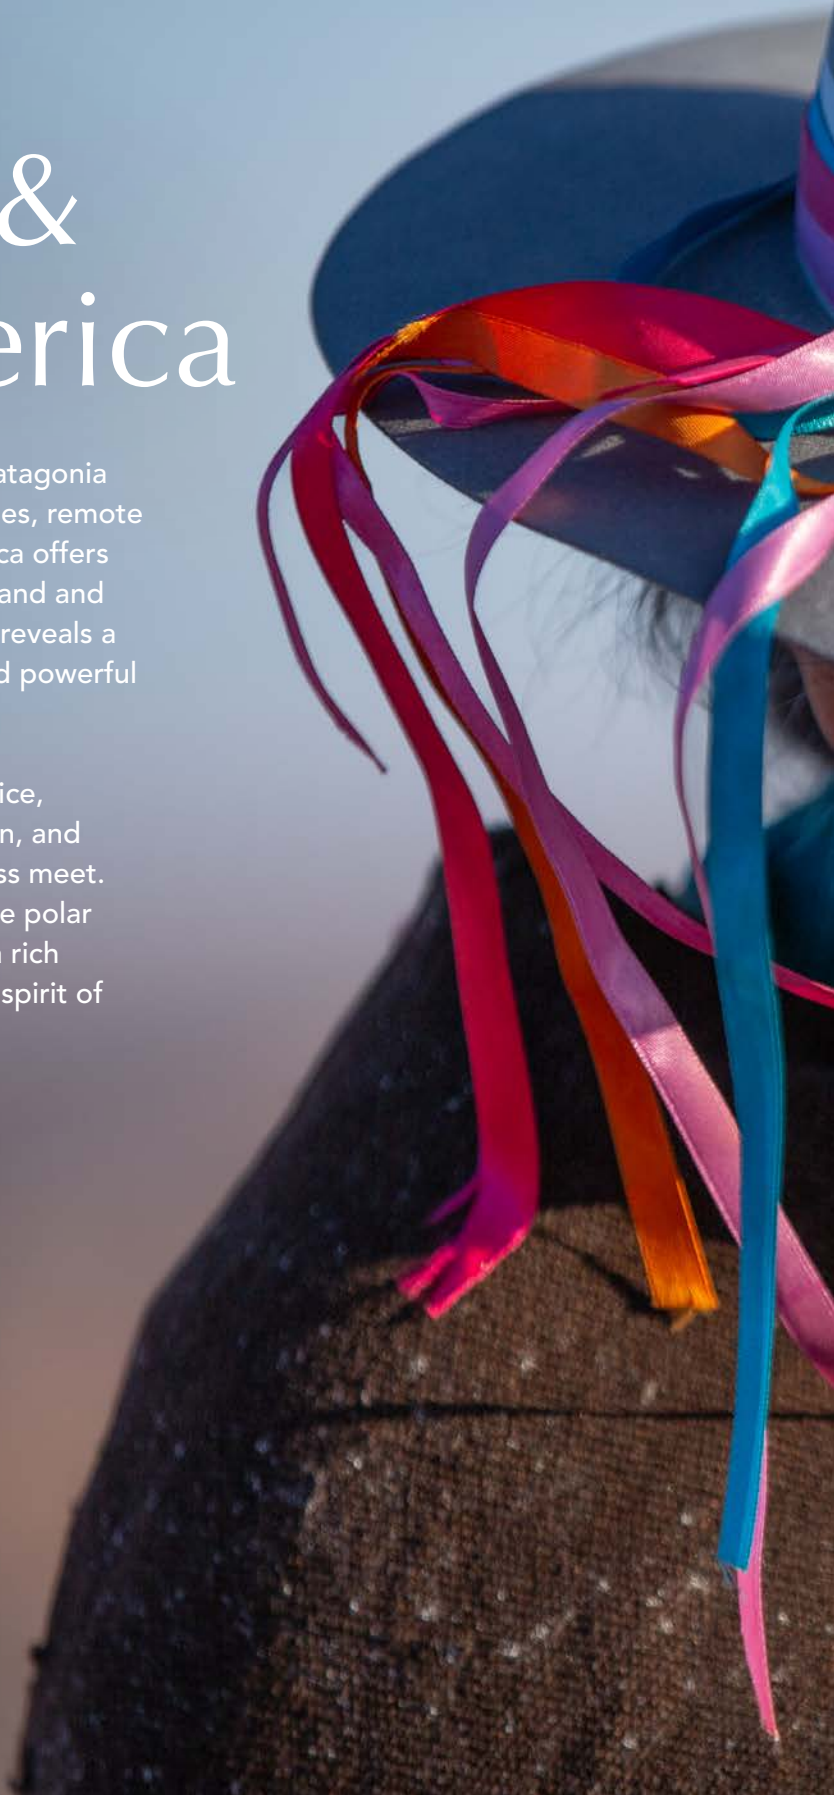
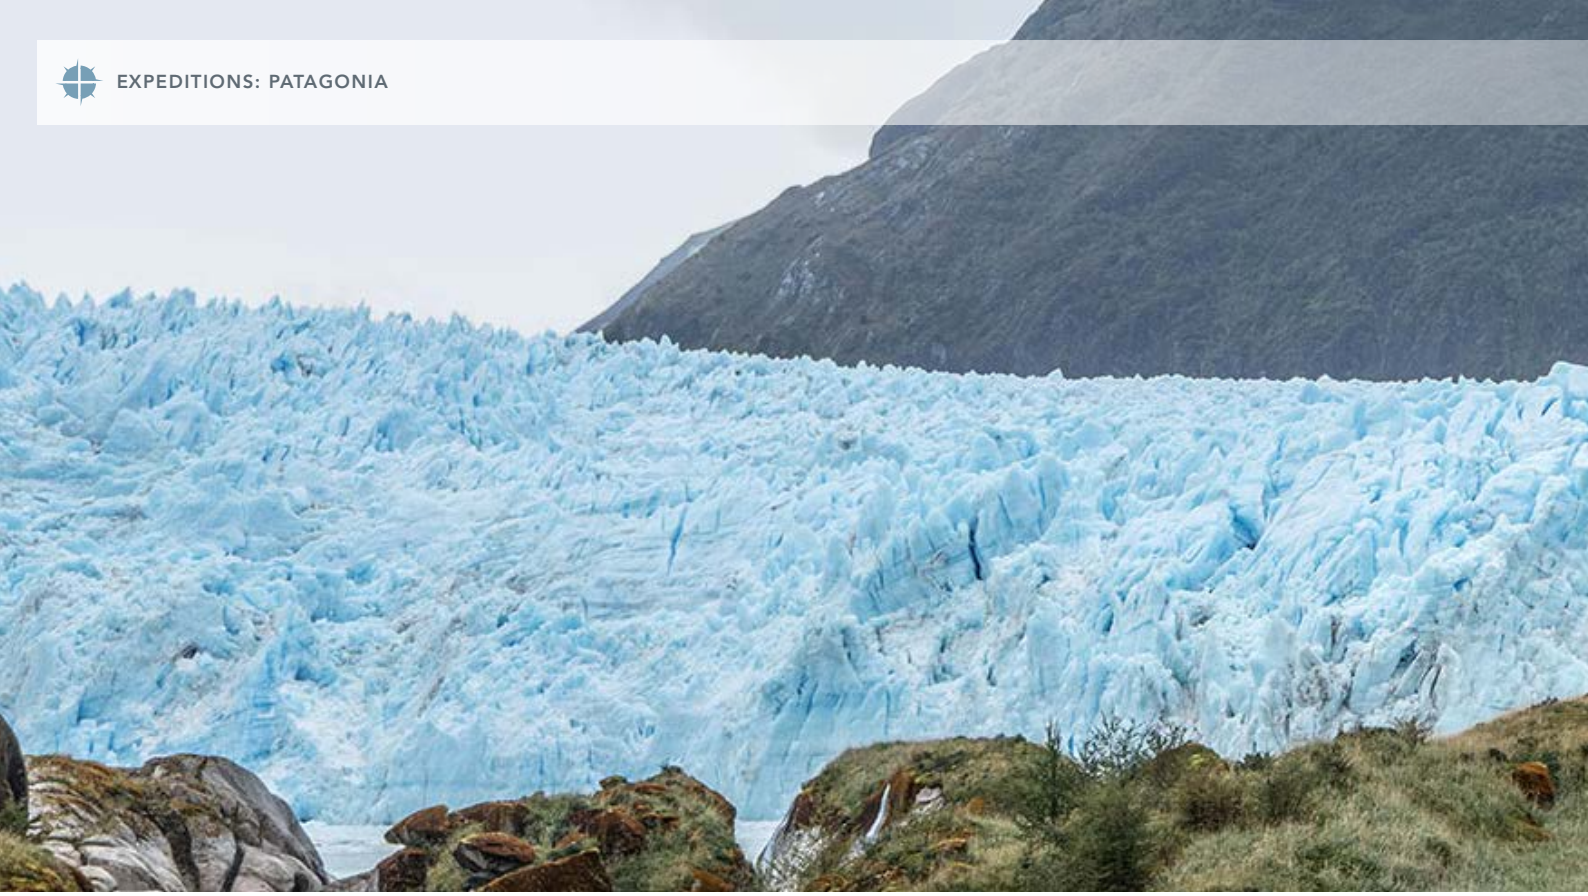
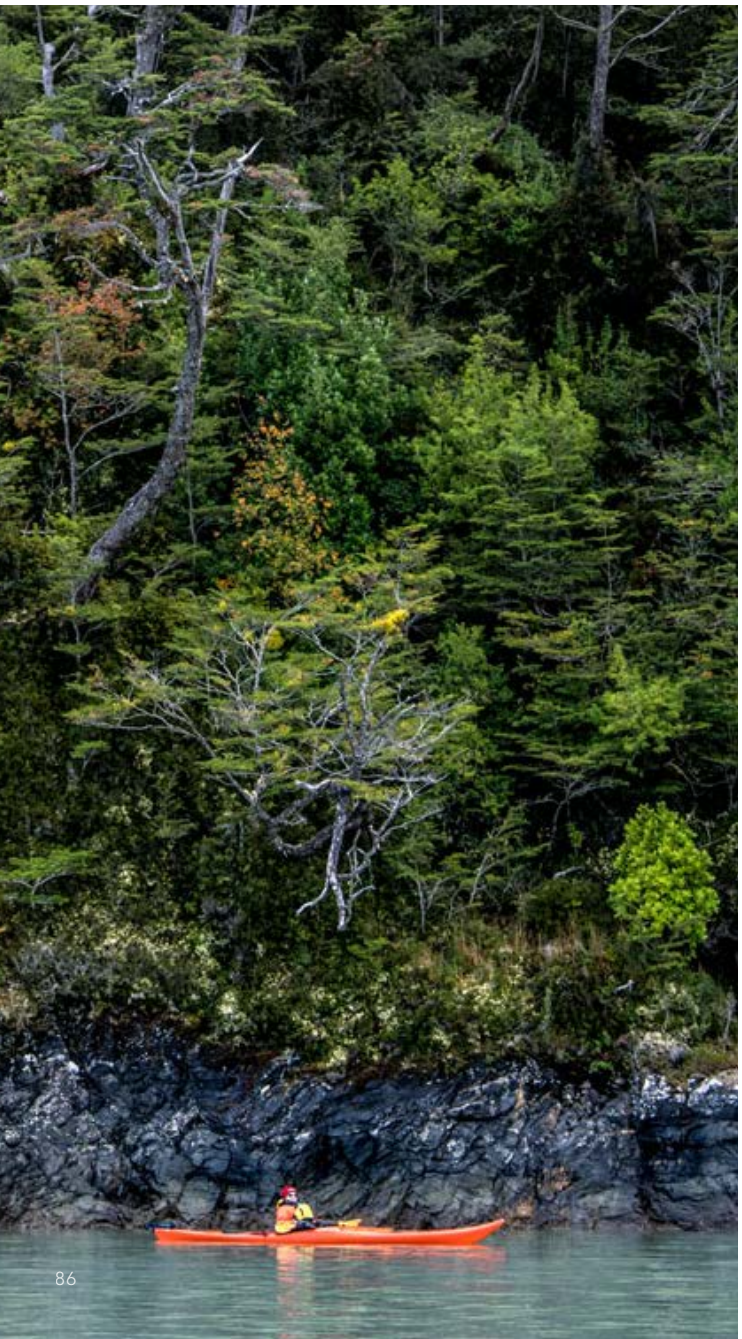
Patagonia & South America

From the glacier-carved channels of Patagonia to volcanic coastlines, desert landscapes, remote islands, and historic port towns, South America offers a different kind of expedition journey. Here, land and sea are deeply connected, and every voyage reveals a region shaped by wildlife, culture, history, and powerful natural forces.

Sail through fjords framed by mountains and ice, visit coastal communities shaped by the ocean, and discover places where tradition and wilderness meet. For travelers drawn to exploration beyond the polar regions, Patagonia and South America offer a rich and deeply rewarding way to experience the spirit of expedition travel.







Deep Patagonia: Tierra del Fuego & the Chilean Fjords

15 DAYS (13 nights on board) / Mar 2027

Venture from Ushuaia to Valparaíso on a sweeping expedition through the wild waterways, fjords, islands, and mountain landscapes of southern Chile. From legendary Cape Horn and the Strait of Magellan to the glacier-carved channels of Patagonia, this voyage reveals a region best experienced from the water.

Along the way, explore remote coastal communities, hike beneath the granite towers of Torres del Paine, discover the living heritage of Chiloé Island, and trace a route through one of South America's most dramatic wilderness regions. Rich in wildlife, culture, and raw natural beauty, this is Patagonia in its deepest and most elemental form.

HIGHLIGHTS

- Journey from Ushuaia to Valparaíso through the wild waterways of southern Chile
- Experience legendary Cape Horn, the symbolic end of the Americas
- Cruise the Beagle Channel, Strait of Magellan, and glacier-carved fjords of Patagonia
- Explore Torres del Paine National Park, where granite peaks, open steppe, and Patagonian wildlife define the landscape
- Visit Puerto Edén, one of the last strongholds of the Kawésqar people and culture
- Discover Chiloé Island's living traditions, colorful markets, and UNESCO-listed wooden churches

Chile & Peru: Voyage Through the Humboldt Current

10 DAYS (9 nights on board) / Mar 2027

Trace the Pacific coast from Valparaíso to Lima on an expedition shaped by desert landscapes, ancient cultures, rich marine life, and the powerful Humboldt Current. Sailing north along the coast of Chile and Peru, this voyage reveals a region where Antarctic-fed waters bring extraordinary life to some of the driest landscapes on Earth.

Explore the wildlife-rich shores of Isla Pan de Azúcar, venture into the stark beauty of the Atacama Desert, and discover the deep cultural history of Arica and Arequipa. Farther north, Paracas opens the way to Peru's coastal treasures, from the Ballestas Islands to the mysterious Nazca Lines, before the journey concludes in Lima.

HIGHLIGHTS

- Journey from Valparaíso to Lima along the Pacific coast of Chile and Peru
- Explore Isla Pan de Azúcar, home to Humboldt penguins, sea lions, seabirds, and desert-adapted flora
- Venture into the Atacama Desert, where stark landscapes reveal one of Chile's most dramatic natural regions
- Visit Arequipa, Peru's White City, framed by volcanoes and rich colonial history
- Step ashore in Paracas, gateway to the Ballestas Islands and the Nazca Lines

South American Explorer: Temples, Jungles & The Panama Canal

10 DAYS (9 nights on board) / Apr 2027

Journey from Lima to Colón on a wide-ranging expedition through Peru, Ecuador, Colombia, and Panama. From ancient temple complexes and Pacific desert shores to tropical forests, coastal villages, and one of the world's great engineering landmarks, this voyage reveals South America in vivid layers.

Explore the archaeological landscapes near Salaverry, follow the wildlife-rich waters of the Humboldt Current toward Ecuador, and discover the cultural and natural diversity of Colombia's Pacific coast. The journey reaches its finale with a full transit of the Panama Canal, where rainforest, history, and human ingenuity meet.

HIGHLIGHTS

- Journey through four countries in one voyage: Peru, Ecuador, Colombia, and Panama
- Explore the Huacas de Moche, Peru's remarkable Temples of the Sun and Moon
- Visit Puerto López and Machalilla National Park, known for coastal wildlife and tropical dry forest
- Explore Colombia's Utría National Park, home to rainforest, mangroves, coral reefs, and extraordinary biodiversity
- Transit the Panama Canal, one of the world's great feats of engineering, between the Pacific and Atlantic

OPTIONAL ACTIVITIES

INCLUDED ACTIVITIES

Adventure Options

The heart of every expedition lies beyond the ship's rail. Our voyages are designed to maximize your time in the polar regions, with a hands-on program of activities that brings you closer to the landscapes, wildlife, and stories of each destination. Many off-ship activities are included in your expedition, while select Optional Activities are available at an additional cost and must be booked in advance. Led by experienced Expedition and Activity Guides, all activities are designed to suit a range of interests and comfort levels, so you can choose how adventurous your journey becomes.

Optional Activities

For those who wish to go even deeper, we offer a carefully curated selection of optional activities that add an extra layer of adventure to your expedition. Led by our professional and passionate Activity Guides, these experiences allow you to challenge yourself, explore at your own pace, and connect more deeply with the polar environment.

Camping

Spend a night immersed in the Antarctic wilderness and experience the polar environment at its most intimate. Wrapped in warm expedition-grade bivy gear, you'll sleep beneath the polar sky, listening as distant ice cracks and glaciers shift as light slowly fades and returns. With limited availability, polar camping is a rare and unforgettable experience best reserved in advance.

Exclusive to Antarctica

Photography Program

Designed for passionate photographers, this immersive program pairs a small group with an award-winning photography instructor for focused, hands-on guidance. Daily outings are tailored to photographic opportunities, supported by onboard workshops and image reviews that refine technique, composition, and creative vision. With limited places available, this program offers a deeper, more intentional way to capture the polar world.

Snowshoeing

Snowshoe across Antarctic terrain with ease, venturing farther from landing sites to reach elevated viewpoints and expansive snowfields. This optional activity allows you to move comfortably over soft snow while taking in wide, uninterrupted polar vistas. No prior experience is required, making it an accessible way to explore more of the landscape on foot.

Exclusive to Antarctica

Kayaking

Kayaking offers a quiet, powerful way to experience the polar regions from water level, gliding past icebergs, glaciers, and wildlife with only the sound of your paddle breaking the surface. We offer two distinct kayaking options, allowing you to choose the level of immersion that suits your experience and interest.

IMMERSIVE KAYAKING

Designed for confident paddlers who want to kayak as often as possible, this small-group program is limited to just 10 participants. With a dedicated kayak guide and safety Zodiac, immersive paddlers have the opportunity to kayak during most excursions and landings, weather and conditions permitting. This is the most in-depth way to explore the polar environment by kayak.

DISCOVER KAYAKING

Perfect for those curious to try polar kayaking without a full-voyage commitment. The program offers a single guided outing per voyage in a small group, with full instruction, support, and safety cover.

Included Activities

Our expeditions are designed to immerse you in the polar world from the moment you arrive. A wide range of included activities is built into your voyage, ensuring a rich mix of exploration, discovery, and shared moments – both ashore and on board. These experiences form the heart of the expedition and are available to all guests.

Zodiac Cruising

Glide among towering icebergs and glaciers in heavy-duty inflatable rubber speedboats. Guided by our expert team, each Zodiac excursion brings you up close to wildlife and stunning polar scenery.

Shore Excursions

Venture ashore for guided walks or hikes across beaches, tundra, and snowfields, or scale higher ground to take in spectacular vistas. Every step immerses you deeper into the sights, sounds, and silence of the polar wilderness.

Onboard Photography Coach

Our onboard Photography Coach is available to all guests, offering practical guidance during Zodiac cruises, shore landings, and from the ship's decks. Through informal advice and short presentations, they help you navigate the unique challenges of polar photography, from changing light to wildlife encounters.

Please note: All Adventure Options are subject to weather and sea conditions, fitness and medical requirements. Activity offerings vary by departure.

Citizen Science

Take part in our Citizen Science Program by assisting with wildlife observations and simple data collection that supports ongoing polar research. These hands-on activities deepen your understanding of the polar environment and its conservation.

Polar Plunge

Take the legendary Polar Plunge and step briefly into the icy polar sea - a fun, optional tradition on our expeditions. Cheered on by crew and fellow travelers, it's a memorable moment and a true badge of polar adventure.

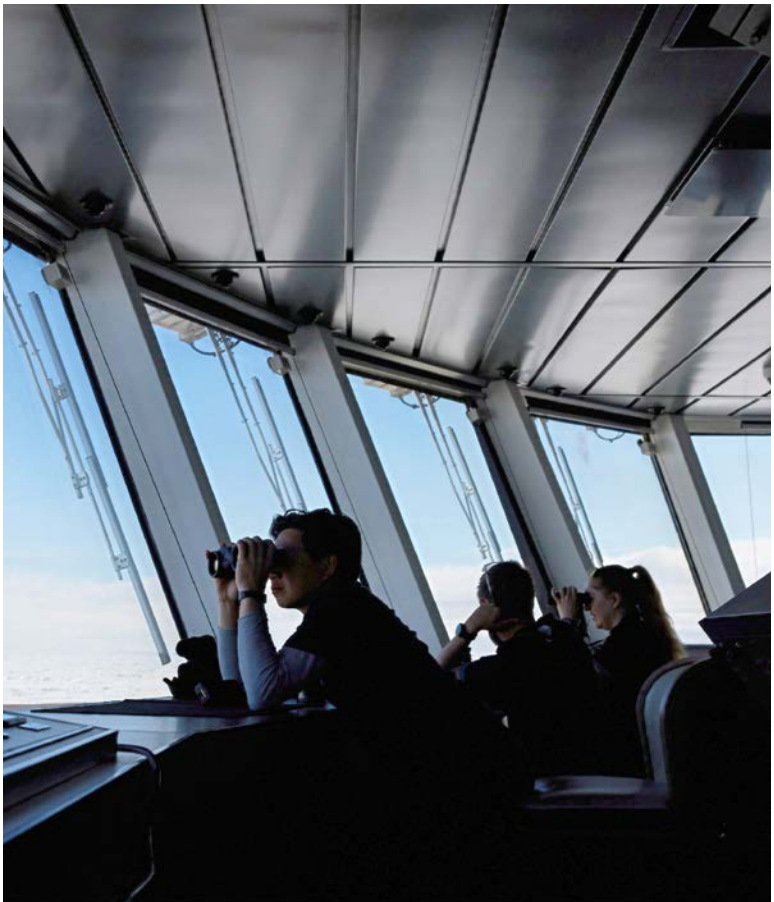
Daily Lectures

Enjoy engaging daily lectures led by our expedition experts, including scientists, naturalists, and historians. These talks offer valuable insight into polar wildlife, geology, and history, enriching each day's discoveries.

Our Fleet

Purpose-built for exploration, our fleet is designed to take you deeper into the polar regions – safely, comfortably, and responsibly. From modern expedition ships to classic polar vessels, each plays a distinct role in delivering immersive journeys defined by time ashore, flexibility in changing conditions, and access to remote places few ever reach.

Engineered for polar performance and guided by experienced crews, our ships combine thoughtful design, a small-ship atmosphere, and a shared commitment to exploration. Wherever you travel with us, you can expect a vessel that supports the adventure rather than overshadowing it, allowing the landscapes, wildlife, and moments ashore to take center stage in every journey.



Ocean Albatros

Ocean Albatros represents the next generation of expedition ships, purpose-built for polar exploration with comfort, stability, and sustainability at its core. Featuring an innovative X-BOW hull and hybrid diesel-electric propulsion, the ship offers smoother sailing in challenging conditions while reducing fuel consumption and emissions.

Spacious public areas, open deck spaces, and modern Scandinavian design create an ideal platform for immersive exploration in both the Arctic and Antarctica.

Suites & Staterooms

With nine different types of modern, exclusive cabins, all with unobstructed views of the pristine landscape, exploring the polar regions has never been so enjoyable. Disconnect from your daily life and be submerged in an otherworldly environment of comfort, lushness, and magnificence. Our cabins are designed for ultimate comfort and luxury and cater to all guests, regardless of whether they are traveling solo or with friends and family.

"Ocean Victory and Ocean Albatros are purpose-built expedition ships with a focus on the outside experience, featuring large windows in all public areas as well as cabins. The interior designs are light and pleasing with darker contrasting accents and are specifically designed to bring adventure seekers comfortably to their many exotic destinations."

Our Facilities

OBSERVATION LOUNGES

Celebrate the dream polar adventure, engage in conversation and relax while admiring the icy landscape of the polar regions. At our Nordic Observation Lounge, we aim to create a fun and enjoyable atmosphere with varied cocktails and drinks, appetizers and small events.

LIBRARY

Honoring the great explorers, the Library allows for an adventure within an adventure. Here you can find sagas, narratives and practical information on the polar regions, in various languages and subjects. From encyclopedias of the polar wildlife and fauna to narrations of the many challenges faced by the first expeditions, this is the perfect location for expanding your mind while we sail.

LECTURE LOUNGES

What makes a good expedition? It is a combination of its activities and the experiences onboard the ship, as well as ashore. At Albatros Expeditions, we are honored to have a variety of experts in our expedition team, from climatologists and geologists to renowned photographers, all eager to share their adventures and knowledge with our guests.

BARS & SPECIALTY RESTAURANT

The Nordic Lounge brings warm Nordic hospitality to the Arctic and Antarctic. Offering a wide choice of drinks, including wine-tasting menus from Gerard Bertrand, this is the perfect place to relax after an unforgettable day and make new friends.

Discoverer

Discoverer brings a fresh chapter to the fleet: a small expedition ship designed for close access to the polar regions, with a refined onboard experience throughout. Carrying up to 140 guests, she combines strong ice capability, efficient Zodiac operations, and generous outer deck space with bright public areas, comfortable lounges, and contemporary cabins.

At heart, Discoverer remains a true expedition vessel. Her ice-strengthened hull, Polar Code compliance, and wrap-around outer deck on Deck 6 make her well suited for remote coastlines, glacier fronts, wildlife watching, and shore landings in the polar regions.

Suites & Staterooms

Each cabin aboard Discoverer is designed as a comfortable retreat after a day of exploration. Natural light, thoughtful design, and refined finishes create a welcoming atmosphere where guests can relax, recharge, and take in the extraordinary landscapes of the polar regions.

From spacious suites with private balconies to ocean-view staterooms and classic porthole cabins, Discoverer offers a range of accommodations for different travel styles. Warm interiors, practical layouts, and carefully selected amenities support the rhythm of expedition travel, giving guests a quiet and comfortable space between days spent exploring by Zodiac, on shore, and out on deck.

Whether traveling solo, as a couple, or with friends and family, guests can choose from suites and staterooms with private balconies, Juliet balconies, large windows, or portholes - each offering a relaxing place to unwind between unforgettable polar adventures.

Ocean Nova

Compact, capable, and purpose-built for polar exploration, Ocean Nova offers an intimate expedition experience in some of the world's most remote regions. Originally constructed for Antarctic service, she combines a strengthened ice-class hull with exceptional maneuverability, allowing access to narrow channels and wildlife-rich coastlines.

With just a small number of guests on board, Ocean Nova delivers a warm, personal atmosphere and a strong sense of camaraderie. Comfortable cabins, panoramic observation areas, and efficient Zodiac operations ensure that the focus remains where it belongs – on immersive exploration, meaningful wildlife encounters, and time spent ashore in the polar wilderness.

Comfort at Sea

Ocean Nova offers a range of comfortable, thoughtfully designed cabins that provide a welcoming retreat after each day of exploration. Accommodating a maximum of just up to 80 guests, the ship features five cabin categories, all with exterior views through picture windows.

Explorer Twins and Explorer Doubles (approx. 10 m²) offer a practical and cozy layout ideal for couples or travel companions, while Comfort Twins (approx. 14 m²) provide additional space for added comfort. Classic Twins and two Classic Singles (approx. 8 m²) are perfect for solo travelers or those seeking a more compact option.

Spread across the Upper and Bridge Decks, cabins are conveniently located near key public areas such as the Panorama Lounge, Dining Room, Polar Library, and Observation Deck, ensuring easy access to both relaxation and enrichment spaces.The ship's small size enhances the sense of space and privacy, while its classic Scandinavian design keeps the focus on what truly matters: the adventure beyond your window.

Our Fleet at a Glance

Our fleet combines modern expedition design with the comfort and stability essential for polar exploration. From the larger Ocean Albatros and Ocean Victory to the more intimate Discoverer and Ocean Nova, each vessel offers a distinct onboard experience while maintaining the highest standards of safety and ice-class capability. Together, they allow us to match the right ship to every journey and every explorer.

WHY ICE CLASS MATTERS

In the polar regions, a ship's ice class is more than a technical specification. It is a mark of capability, safety, and access. Ice-class vessels are specially reinforced to navigate sea ice with greater stability and confidence, allowing them to operate safely in remote and unpredictable conditions.

Our fleet, Ocean Albatros, Ocean Victory, Ocean Nova, and Discoverer, is purpose-built for expedition travel in Antarctica and the Arctic. With strengthened hulls, advanced stabilization systems, and designs optimized for polar waters, these ships combine safety, comfort, and performance, ensuring you can explore icy landscapes responsibly and with complete peace of mind.

Gearing Up for the Last Wild Places on Earth

It's true that the Arctic and Antarctica are cold, and the weather can be unpredictable, but the ships are comfortable, and a few key articles of clothing will do the trick when heading out to explore. Dressing for polar conditions is not unlike packing for a ski vacation – with a few additional suggestions to help you stay warm, dry, and comfortable in changing conditions.

BEANIE HAT

UV400 SUNGLASSES

OUTER LAYER

- ✓ PLX down jacket (yours to keep)

Our Polar-Designed Expedition Gear

If you want to explore the wildest corners of the Earth, you're going to need versatile, comfortable, and cutting-edge expedition gear.

Throughout our voyages, we'll equip you with time-tested, top-quality Muck rubber boots, and with custom Polar Latitudes Expeditions Shackleton expedition jackets, designed with the polar regions in mind. These jackets are lightweight, waterproof, and wind-resistant.

They hug the body, are warm and breathable, and feature a high collar and generous overall length that will keep the chill and sea mist and spray from ever sneaking up on you. Waterproof inside pockets will keep your personal items dry and safe at all times.

INTRODUCING THE MCKEON: A PROFESSIONAL-GRADE DOWN JACKET THAT IS YOURS TO KEEP.

For all our Antarctica voyages, in addition to your Expedition gear on loan, you'll receive a stylish down-filled "puffer coat" created by premium outfitter Shackleton London, and named for our founder, John McKeon.

This versatile, lightweight jacket combines high functionality and everyday stylishness, and is yours to keep, providing excellent service for years – if not decades – to come, wherever your exploration may take you.

Inclusions & Exclusions

INCLUDED ON ALL VOYAGES

Regardless of your destination, every voyage includes:

- Shipboard accommodation in your selected cabin category
- All meals on board (breakfast, lunch, dinner, and snacks)

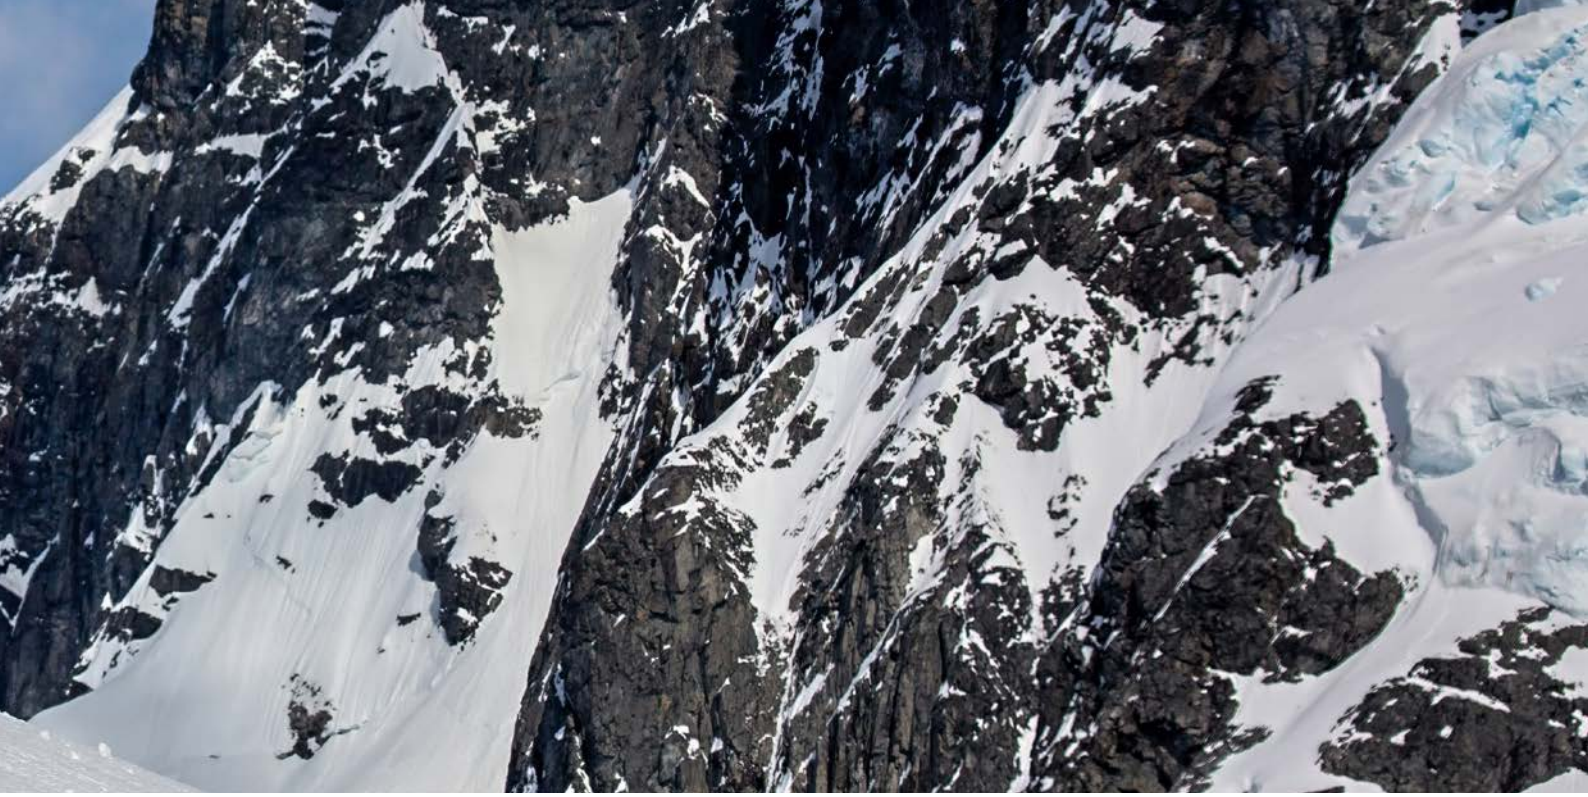
- International airfare
- Mandatory emergency evacuation insurance
- Trip cancellation & interruption insurance
- Passport, visa & vaccination expenses (if required)
- Gratuities for ship crew & expedition staff
- Premium alcoholic beverages & specialty bar items
- Spa treatments, laundry & personal expenses
- Optional activities (e.g. kayaking, camping, snowshoeing, immersive photography program)
- Wi-Fi packages
- Pre- or post-voyage extensions (unless specified)



Traveling Solo

We periodically share special offers designed for solo travelers. Subscribe to our newsletter to be among the first to hear about these opportunities.

Independent in Spirit, United by Discovery

Expedition travel invites connection in its most natural form. Conversations unfold on deck as ice drifts past. Wildlife encounters become shared memories. Even quiet moments of reflection feel part of something larger. Travel independently and become part of an extraordinary community.

Travel solo. Explore together.

SHARE A CABIN, TRAVEL SMART

Guests who are open to sharing may request to be paired with a same-gender cabin mate in a twin or triple cabin, allowing you to avoid the single supplement. Many solo travelers find that sharing adds to the journey, often turning cabin mates into lasting friends

SPACES DESIGNED FOR CONNECTION

Panoramic lounges, open decks, libraries and presentation areas offer welcoming places to gather. Whether discussing the day's sightings over coffee or watching ice drift past with a glass of wine in hand, connection happens naturally.

DEDICATED SINGLE CABINS

For those who prefer complete privacy, dedicated single cabins are available on our ships. These cabins offer the same refined comfort and attention to detail, providing a quiet personal retreat after a day of exploration. Availability is limited, so booking in advance is recommended.

DINING WITHOUT FORMALITIES

There is no assigned seating onboard. Tables for two, four or larger groups make it simple to join different guests throughout the voyage. Solo travelers are always warmly welcomed at every table.

AN INTIMATE ONBOARD ATMOSPHERE

Our small ships create an atmosphere that feels personal from day one. With fewer guests onboard, conversations begin easily and friendships form organically. Our expedition team of scientisvts, naturalists, historians and photographers are approachable and always happy to share their knowledge and passion for the polar regions.

A JOURNEY ON YOUR TERMS

Join every landing, every Zodiac excursion and every expert presentation, or take a quiet moment to take it all in from the deck. Expedition travel offers the perfect balance of shared experiences and personal reflection.

Join The All Explorers Club

If you've traveled with us before, scan to register.

A Place to be Informed, Inspired, and Rewarded

The All Explorers Club isn't a place, exactly, but an idea: that once you travel with us, you become part of our explorer family. As a member of the club, you're eligible for exclusive savings and discounts, upgrades, premium content, and first-in-line alerts on special upcoming voyages. You'll also receive our thrice-annual digital publication, EXPLORERS Magazine, which is only available to club members and our traveling guests. It's full of exclusive interviews, stories, photography, and other content sure to keep your explorer's spirit burning bright. If you've traveled with us before, you're eligible to register and join the club. We hope you do!

AFTER YOUR FIRST VOYAGE

You've gotten a taste of what the early explorers must have felt. It's a taste you want more of – a taste you'd love to share with friends. Here are some discounts and perks to help make that happen:

- 5% off any future Polar Expeditions, on top of any advertised discounts
- Cabin upgrade, when available
- Gift shop credit of USD $100
- Dinner at the Captain's table or with Expedition Team leader

AFTER YOUR SECOND VOYAGE

You've officially caught the adventure travel bug, and are already thinking of where to go next (or again!). We totally understand. So here are some great incentives to follow your dream:

- 5% off any future Polar Expeditions, on top of any advertised discounts
- Cabin upgrade priority, when available
- Gift shop credit of USD $200
- Free Discover Kayaking experience, if available at booking
- A very special gift and Captain's recognition at our Welcome Briefing

AFTER YOUR THIRD VOYAGE

You know first-hand that every polar voyage is totally unique, endlessly fascinating, and absolutely unforgettable. In other words, there's no stopping you. Rewarding you – yes, that we can do.

- 5% off any future Polar Expeditions, on top of any advertised discounts
- Cabin upgrade automatically
- All onboard beverages complimentary
- Gift shop credit of USD $250
- Free adventure activities, when available
- A special gift and personalized plaque commemorating your rare achievement
