MEASURE GG

When there is a medical emergency, La Verne's paramedic and ambulance transport services are ready to respond. For more than four decades, the Paramedic Service Fee (Measure GG) has helped support local paramedic services through a monthly assessment which provides a waiver of out-of-pocket costs to residents.

Measure GG was approved by La Verne voters in 1980 to create a dedicated funding source for paramedic services in the City. The current assessment is $6.90 per month, or $82.80 annually. Since establishment, emergency medical services have changed significantly. Today's paramedic and ambulance transport system requires additional staffing, specialized training, medical equipment, ambulances, supplies, regulatory compliance, and 24/7 operational readiness comprising almost three-quarters of all fire calls for service.

As these costs continue to rise, the City Council approved a Proposition 218 process to increase the monthly amount to support the long-term sustainability of paramedic and ambulance transport services in La Verne to ensure residents do not face additional out-of-pocket costs. The matter was discussed at four City Council meetings, which are recorded and available to watch at LaVerneCA.gov/Live.

STRATEGIC PLANNING SURVEY

Each year, the City Council continues its strategic planning efforts to identify and address the community's priorities. Developed collaboratively with the community, the Strategic Plan establishes guiding values, focused goals, and actionable initiatives that help shape the City's work over the next several years. Progress on these initiatives is reviewed annually as part of the City's budget process.

An essential part of this process is the Annual Community Survey, which is now open to everyone who lives, works, or enjoys spending time in La Verne. The survey will be open throughout Fall 2026. By participating, community members can share their priorities and help ensure the Strategic Plan reflects the needs of the community. Survey results will be presented and discussed during the City Council's Strategic Planning Session.

Visit LaVerneCA.gov/Survey to complete the survey online. To request a paper copy, email survey@laverneca.gov.

SANDBAGS

During heavy rainfall, sandbags can provide an effective barrier to help divert water away from homes and buildings. When La Verne faces such weather, the La Verne Fire Department will open sandbag pick-up locations for residents, schools, and businesses at the following sites:

- Public Safety Facility, 2061 Third Street
- Fire Station 3, 5100 Esperanza Drive

Shovels and bags will be available at these locations. Since filling and loading sandbags is typically a two-person job, please bring someone to assist you. There is a limit of 10 sandbags per household or business. Please note that once sandbags are taken, they cannot be returned. We encourage you to only take the number of sandbags you truly need, based on the specific needs of your property.

We recommend following the La Verne Fire Department on social media to receive updates for when these sites will be activated.

EL NIÑO PREPAREDNESS

With El Niño conditions expected to strengthen into winter 2026 and early 2027, residents are encouraged to prepare their homes and families for the possibility of severe storms. Heavy rain and strong winds can cause flash flooding, debris and mud flows, fallen trees, power outages, and property damage.

Before storm season, inspect your roof for leaks or loose materials, clear rain gutters and drainage areas, trim hazardous branches, and secure outdoor furniture and trash cans. Prepare an emergency kit with at least three days of food, water, medications, flashlights, and backup batteries. Stay informed through official emergency alerts and be ready to evacuate people and pets if directed. Never walk or drive through flooded roads, around barricades, or near downed power lines.

Learn more about severe-storm preparedness at listoscalifornia.org

SCE PUBLIC SAFETY POWER SHUTOFFS

What is a Public Safety Power Shutoff (PSPS)?

A Public Safety Power Shutoff (PSPS) occurs when Southern California Edison (SCE) temporarily turns off electricity in an area to help reduce the risk of wildfires sparked by utility equipment. These shutoffs are most often triggered by dangerous fire weather conditions such as strong winds, dry vegetation, and low humidity.

Being prepared is the best way to stay safe and minimize disruption during a power outage. SCE provides resources and preparation tips to help residents plan ahead for these situations. For a full list of safety and preparation recommendations, please visit: sce.com/outages-safety/outage-preparedness.

To check the status of a power outage in your neighborhood, visit the SCE Outage Center: sce.com/psps

FIRE RISK REDUCTION LIST

The City of La Verne has been added to the 2026 Fire Risk Reduction Community List by the California Board of Forestry and Fire Protection, recognizing the City's ongoing efforts to improve wildfire preparedness, reduce local fire risk, and protect residents, property, and critical infrastructure. The designation reflects La Verne's work in areas such as defensible space, vegetation management, fuel modification, emergency access, inspections, fire prevention, and community education. It may also strengthen the City's eligibility for state wildfire mitigation funding and could help residents qualify for homeowners insurance discounts under California's Safer from Wildfires framework. Residents should contact their insurance provider directly to determine whether any discounts or credits are available. Residents are also encouraged to maintain defensible space, harden their homes where possible, register for emergency alerts, and prepare household evacuation plans.

For more information, visit laverneca.gov/fire or contact the La Verne Fire Department at (909) 596-5991.

WASTE MANAGEMENT CONVERSION

Beginning September 1, 2026, residential solid waste billing in La Verne will transition from the City to Waste Management (WM). This change will allow residents to manage billing, account setup, payment options, and service-related questions directly through WM, which already handles billing for commercial accounts.

The transition is intended to improve customer service, reduce delays, and streamline the billing process while keeping existing service levels, rates, and franchise agreement terms unchanged.

Residents should have received information from WM by mail with instructions for setting up their accounts. Residents who do not have internet access or need assistance may meet with a WM representative at La Verne City Hall, 3660 D Street, every Thursday in September from 7:30 a.m. to 5:30 p.m.

Learn more at LaVerneCA.gov/WM or contact WM at SGV@WM.com

RECYCLING

SB 1383 requires cities to monitor waste containers to ensure materials are sorted correctly. The graphic below shows updated sorting requirements for organics, recycling, and trash. If incorrect materials are placed in a cart or bin at your home or business, you will receive two notices before a third notice may result in a contamination fee. Beginning September 1, 2026, Waste Management will assume responsibility for residential billing. Additional information about this transition will be provided to residents in advance.

For more information, please contact the Public Works Department at (909) 596-8744 or Waste Management at (909) 599-1274, or visit the City of La Verne website and navigate to Residents → Environmental Programs → Refuse/Waste Management.
