

# RAISED BY WOLVES

## FOREWORD

We're outsiders here. Having found your way into Raised by Wolves, you might be an outsider too. But that can change. It should change. Comfort is counter to growth. Consider your past self on the precipice of any great change: as you looked in on the new frontier, as it looked back at you, everyone appeared feral or wild, everything foreign, unknown. But our stories are now set to merge within this now shared common space.

Raised by Wolves is far from our roots. Prior to its existence, we had always created from the periphery in more under-appreciated areas of our city because we believed place-making could only occur in less developed areas. But over the 15 years since our first opening with NEIGHBORHOOD in East Village. We've come to believe in principles over formulas, as Charles Eames did. If we allow ourselves to be limited by our style and perspective and past successes, if we cannot embrace the unknown, we are shackled by the formula, thus ultimately destined for failure.

So, this is us evolving. This is us grappling with the desire for change and the change itself, cultivating what we hope will be a new kind of suburban institution.

We crave both absolute freedom and lasting bonds, ruled by the inherent push and pull of instinct and intuition: the lone wolf driven to remake the selfless pack. Yes, Raised by Wolves is out of place. But one of our guiding principles remains: start a conversation. Among the communities we've nurtured and been nourished by, the quiet conversations have led to tighter bonds and a simple, galvanizing twist in our shared fate.

From the ashes, invention. We hope you enjoy.
