

# ESISTYLE

COMPANY PROFILE

*Technology, Design & Passion for the Kitchen*

# Historical Background

**Us since 1981**

An experience born from the **manufacturing of steel components** for the household appliance and nautical industries, through collaborations with major industrial groups.

**2008**

The company expands its operational boundaries by beginning to **collaborate** in the **B2B channel** with major players in **domestic ventilation**.

**2016**

With the launch of the **Esistyle brand**, a new era begins: integrated development and production of solutions for *cooking*, *ventilation*, and *steel kitchens* for international markets.

**Today**

Today, **Esistyle**, with its **continuous research and innovation**, and partnership capabilities, is poised for new global challenges.

## We are Producer and we offer products to the whole world

*We belong to a unique Network of Companies*

# Our Philosophy

To represent absolute elegance in cooking, extraction, and kitchen design. A deliberately Italian inspiration to redefine the pleasure of living in your home with style.
