- See Terms and Conditions (2) for additional details

Over 25 year ago the owner of Fenix Sol, Lovon Fausett, pioneered the import model in the stainless steel fabrication industry with Spokane Stainless Products (SSP). Combining domestic manufacturing with the importation of standard (stock) items allowed SSP to grow from a regional fabricator into a national powerhouse. SSP factories prioritized custom domestic fabrication while utilizing standard imported items to fulfill a project. This not only lowered overall project costs for their customers but allowed SSP to speed up production time in addition to increased project capacity.

Now we're happy to offer the same model to you. Fenix Sol's LTC program allows you to purchase items at a substantial discount - FREIGHT INCLUDED.

Whether you're a dealer, a designer, or a fabricator Fenix Sol can help you lower overall costs, increase your margins, and help you win more sales.
We can even build to your specs!

Here's how it works:

- You place an order.
- Your order is placed into production and combined with our stocking / container orders
- Your order rides with ours to the Fenix Sol warehouse
- Your order is unloaded, palletized and / or crated, and shipped to your warehouse.
