Introduction

Raising the "WOW" Factor

The second edition of Smart Lift & Mobility World, with five concurrent events, witnessed crowds, connections and cheers during three action-packed days in February at BIEC in Bengaluru.

From dawn to dusk, Smart Lift & Mobility (SLM) World 2026 proved to be a comprehensive and strategically integrated three-day event. Those present at Bangalore International Exhibition Centre (BIEC), Bengaluru, from February 5-7 witnessed a truly global convergence. Top-notch vertical transportation (VT), security and access control, mobility solutions, car parking, people-flow and building-movement ecosystems representatives — as well as prominent dignitaries representing related stakeholder sectors — came together under one roof. Taking forward the success story of its debut edition held in 2024 at Bengaluru, the second edition of the expo exceeded all expectations once again.

Observing the intense interactions taking place during the international event and unique knowledge summits on all three days, plus the unique SLM Awards presentation and Elevator Safety Run conceptualized by event organizers Virgo Communications and Exhibitions, was truly heartwarming. The ELEVATOR WORLD India and Future Building & Smart Mobility (FBSM) summits covered several relevant and topical themes, providing a dedicated platform for exchanging ideas and formulating a blueprint for the future.

Designed to be larger and more comprehensive than its debut edition, SLM World 2026 kicked off with a prestigious inauguration ceremony featuring industry titans Anitha Raghunath, director, Virgo Communications; T. Bruce MacKinnon, president and CEO, Elevator World, Inc.; Abhijit Dandekar, president, Pacific Asia Lift and Escalator Association (PALEA); Suraj Thodimarath, (then) managing director (MD), Wittur India and president, Elevator & Escalator Component Manufacturers Association of India (EECMAI); Sumit Bhatnagar, director (Rolling Stock, Electrical [RSE], Operations and Maintenance O&M), Bangalore Metro Rail Corp. Ltd.; Dr. HR Shivakumar, Karnataka Administrative Service, secretary, Karnataka Real Estate Regulatory Authority Real Estate Regulatory Authority (K-RERA); and Massimo Bezzi, president, European Federation for Elevator Small and Medium-sized Enterprises (EFESME).

In her welcome speech, Raghunath explained that SLM World was conceived as more than an exhibition. To move with time, it was envisioned as an integrated ecosystem — bringing together manufacturers of elevators, escalators, mobility solutions, parking systems and building access technologies alongside architects, developers, policymakers and solution providers. This platform is a convergence of ideas, insights, partnerships and leadership that will define how people move within the built environment, she said.

As India builds taller, smarter and more inclusive cities, vertical and horizontal mobility have evolved from being invisible backend infrastructure to becoming central enablers of urban experience, safety, efficiency and sustainability. Today, mobility systems are no longer just cost components in a project — they are strategic value drivers. They directly influence project return on investment, operational efficiency, user satisfaction, accessibility and, ultimately, the livability of our cities. In a rapidly urbanizing India, how people move within buildings and across urban spaces is fundamental to how cities function, grow and thrive.

This platform has also played an important role in media engagement and policy advocacy. During the runup to the event, Virgo actively amplified the industry's voice on the need for a "One Nation, One Lift" policy and on the importance of stronger budgetary support for real estate and infrastructure

— sectors that directly drive employment, urban development and vertical mobility demand, Ragunath added.

MacKinnon shared information about EW, its evolution and growth journey, observing it is in the third generation of a publication established in 1953 by his grandfather to bring the industry together. He pointed out that EW has focused completely on the elevator industry for 73 years, and it is the only independent publisher covering this industry in all the major markets — the U.S., Middle East, China, Türkiye, Europe, the U.K. and India. EW continues to partner with nearly every association and every event across the planet, trying to help achieve the goal of growing the VT industry and making it safer for riders, workers and the industry as a whole.

MacKinnon recalled partnering with Virgo Communications two decades ago and his first visit to India. Appreciating the SLM World platform — which brings all stakeholders together to communicate, broaden their horizons and improve construction and architecture — MacKinnon emphasized the human need to connect at a face-to-face event will not change.

Dandekar provided a brief introduction of PALEA and the need for having a common code and certifications for VT worldwide. In his Industry Vision Address, he presented a compelling global perspective on the elevator sector and emphasized the urgent need for a unified "One Nation, One Lift Policy" to strengthen regulatory alignment and safety standards across India.

The India Outlook Address was delivered by Thodimarath, who spoke on the theme "Global Standards Powering India's Next Phase of Vertical Mobility." He presented a forward-looking perspective on strengthening India's elevator and escalator ecosystem through alignment with global standards. He emphasized the critical role of component manufacturers in enhancing safety, quality benchmarks and manufacturing excellence to support India's rapid infrastructure growth. He reinforced the importance of global benchmarking, regulatory coherence and industry-wide collaboration in shaping a future-ready vertical mobility landscape for India.

During the Guest of Honor Address, Bhatnagar spoke on the theme "Metro-Led Urban Development: Shaping Mobility, Connectivity and Growth Opportunities." He presented a forward-looking perspective on advancing India's urban transit ecosystem through metro-led initiatives. Drawing on his 32 years of experience across Indian Railways' Research Designs and Standards Organization, Delhi Metro Rail Corp. and Bangalore Metro Rail Corp. Ltd., he emphasized the critical role of rolling stock, signaling and electrical systems in enhancing operational efficiency, connectivity and sustainable urban growth.

Delivering the second Guest of Honor Address, Shivakumar spoke on the theme "RERA and India's Future-Ready Real Estate Ecosystem." He presented a forward-looking perspective on transforming India's real estate sector through regulatory reforms, transparency and robust governance. He emphasized the pivotal role of K-RERA in enhancing compliance, protecting consumer interests and fostering sustainable urban development. His address added strategic depth to the Expo, reinforcing the importance of regulatory coherence, accountability and industry-wide collaboration in building a resilient and future-ready real estate ecosystem for India.

Presenting the "Special Address on SME Growth," Bezzi explained how common European standards have empowered elevator SMEs to compete, collaborate and scale globally.

In his concluding remarks, Dandekar outlined key takeaways and the road ahead for building a standards-driven, future-ready vertical mobility ecosystem — reinforcing the importance of collaboration, policy

reform and global benchmarking in shaping India's next phase of growth.

During all the three days of SLM World 2026, representatives of prominent exhibitor brands and a large number of enthusiastic visitors expressed immense happiness with the high quality of products and technologies showcased, as well as the senior management-level teams exchanging insights at the stalls.

From launches to innovations, unveiling new technologies to upskilling and training sessions, profitable business development to mutually beneficial buyer-seller meets that initiated tie-ups to impactful networking, SLM World 2026 had much more in store for everyone who exhibited or visited, with the innovative booths and revolutionary technology in the mobility space being the center of attention.

More than 10,000 key visitors were seen connecting with key stakeholders and building strategic partnerships in the exclusive business-to-business zone, getting high-quality leads and engaging directly with decision-makers and targeted industry buyers. Visitors had a rare opportunity to explore advanced technologies featuring leading brands under one roof.

The international expo provided a powerful opportunity for manufacturers, suppliers and solution providers to showcase their latest products, technologies and services, interacting with top industry professionals and expanding brand visibility and influence across international markets. Buyers benefitted from exploring multiple solutions under one roof, engaging with both new and established players, comparing offerings and making informed decisions aligned with their specific project requirements.

SLM World 2026 was hailed as an ideal platform for buyers to witness the latest-generation products from credible and compliant suppliers with focused outreach to large developers, mid-scale builders and owner-driven decision-makers — a key buying segment in the Indian market.

Reinforcing its position as the industry's go-to convergence platform, the second edition brought together global OEMs, independent elevator companies, real estate developers, architects, consultants, homeowners and component manufacturers, offering them unmatched opportunities to connect, collaborate and co-create solutions that promise to elevate performance standards and accelerate the next phase of growth in elevator and mobility solutions.

With a strong emphasis on accessibility, inclusivity, safety and sustainability, SLM World 2026 created a compelling stage for live demonstrations and breakthrough innovations shaping the future of India's vertical growth. Product launches by CONCORD, Wittur India and a key announcement by YugX Lifts underlined the importance of SLM World 2026 as an international platform.

CONCORD launched its latest state-of-the-art electric traction home lift system with an integrated shaft without counterweight, with all safeties and complete compliance to IS15259:200 and Persons With Disabilities (PWD) lift rules. These compact, self-supported, wheelchair-friendly home lift systems are ideal for duplex/triplex apartments and villas.

Wittur India introduced its 2-h fire-rated small glass door designed for projects where safety, visibility and compliance matter most. IS 17900-compliant, it is designed for modern elevator applications. The company also launched all new, IS 17900-compliant variants of its Core MD, Core and Stellar Steel doors, marking a complete upgrade in safety and compliance standards in its products, effective March 2026.

Introduction

Following the smashing success of the sequel at Bengaluru — India's Silicon Valley — which received a strong endorsement from exhibitors and visitors alike, SLM World's focus now shifts to the upcoming hat-trick edition. The stage is set for raising the bar even higher. Stall bookings have already commenced for SLM World 2028, with enthusiasm quite evident. The third chapter of this most eagerly awaited show will be held in a new city — Mumbai, India's financial and commercial capital, at the Bombay Exhibition Centre, Goregaon, from February 17-19, 2028.

SLM World was conceptualized and organized by Virgo Communications and Exhibitions, the pioneers who introduced the VT industry-focused expo and magazine concept in India in 2007. Virgo is credited with launching dedicated trade fairs in India, as well as in additional emerging international markets like Bangladesh, Sri Lanka and South Africa. Further details can be found at slmworld.in.

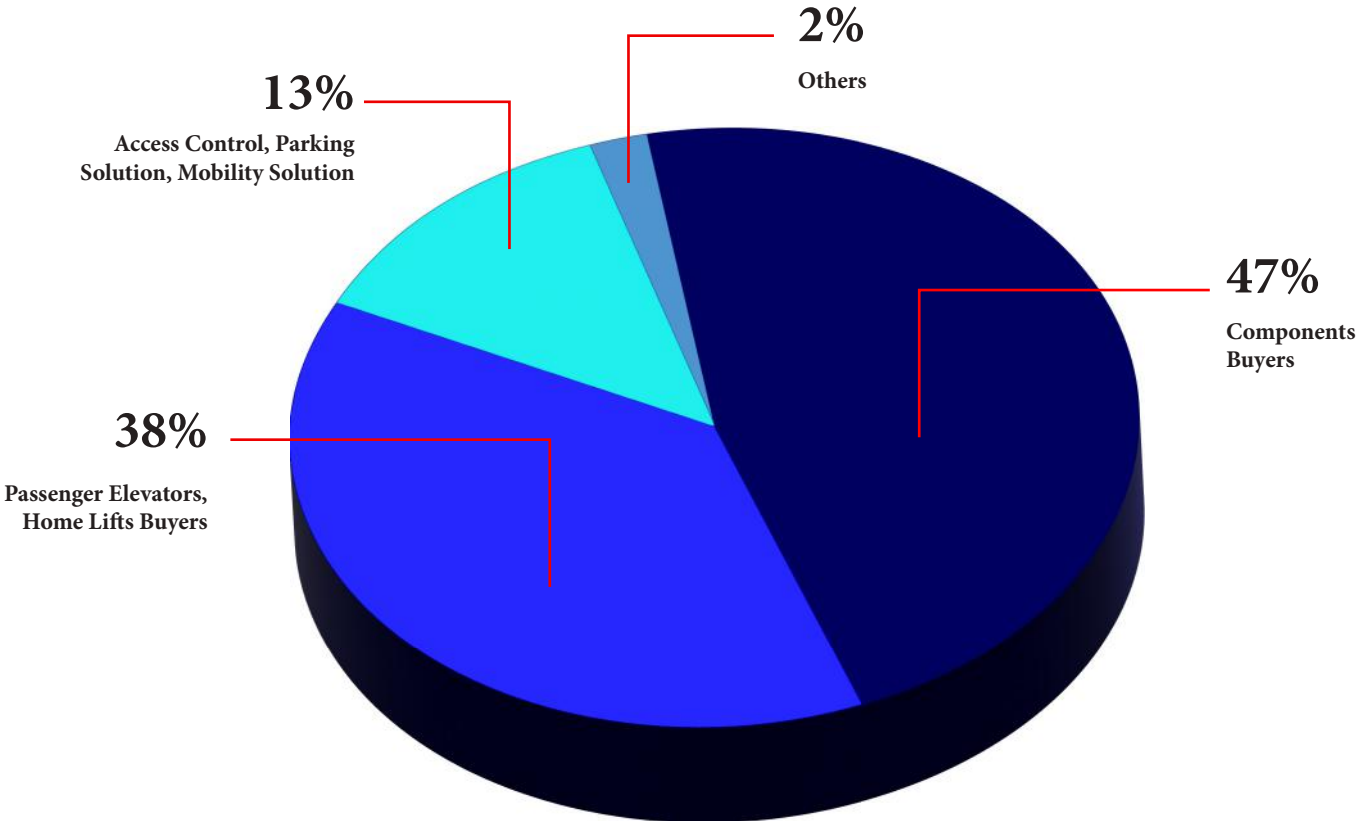
SLMW 2026 Analysis Report

Profile



Elevator World India Summit

A key highlight of the 2026 edition was the Elevator World India (EWI) Summit with sessions featuring a keynote address on One Nation One Lift Policy, Global Standards Powering India's next phase of VT growth and a first of its kind exclusive business and leadership coaching curated for business owners, promoters, and senior decision-makers. The Summit also brought together panel discussions on Home Lift - a High Growth Opportunity and Independent Elevator Companies as a Rising Force. A number of training sessions were also held on key technical aspects.

The second edition once again hosted industry leaders, innovators and experts from across India to explore the latest advancements, trends and solutions shaping the future of vertical mobility. Designed to bring forward the point of views of leaders from the buyer segments (real estate developers and architects) as well as the VT industry, it served as an interactive knowledge sharing platform. A series of panel discussions, presentations, training sessions and audience interactions were the key highlights of the Summit, establishing the event as a focused information hub for the elevator industry in India and its stakeholders.

The Summit was conceptualized as a platform for knowledge and learning to complement the B2B nature of the Expo. The series of panel discussions brought expert insights, industry trends, potential business ideas, technological know-how, marketing innovations and most importantly community building to a diverse group of delegates.

The panel discussions comprised the Summit's agenda on day one while the third day was dedicated to training sessions. The Summit also provided a platform for thought leaders to put their ideas across through keynote addresses.

AGENDA

Day 1 - 5 February 2026 (Thursday)		
3:30 to 3:40 Pm	Session Keynote: *Home Elevator in India: A high growth market opportunity*	*Mr. BS Kumaraswamy, Director, Monteferro India Guiderails and Elevator Parts Private Ltd*
3:40 to 4:30 Pm	Panel Discussion 1: *Home Elevator in India: A high growth market opportunity*	*Moderator:* *Mr. Krishna Kumar Ravi, President & CEO, PAPL Corp* *Speakers:* • *Mr. Chaitanya Potineni, General Manager, Johnson Lifts Pvt. Ltd.* • *Mr. Anik Fouzdar, Director Marketing and Sales, Wittur Elevator Components India* • *Mr. Savio Joseph, Director, Express Elevators Premium Home Solution* • *Ar. Leena Kumar, Founder and Principal, Kumar Consultants, Architects & Council member, WICCI Karnataka Architecture Council*
4:30 to 5:30 Pm	Panel Discussion 2: *Independent or home grown elevator companies: A rising force in India*	*Moderator:* *Mr. Arun Narang, Director, BESCO* *Speakers:* • *Mr. Ratan Singh Sehgal, Managing Director, Hybon Elevators & Escalators* • *Mr. Neeraj Hemnani, CEO, Ricardo Elevators* • *Mr. Manoj Kumar V, Managing Director, Infra Elevators India Pvt Ltd* • *Mr. Mohan Kumar BT, Managing Director, Comfort Elevators & Escalators Pvt Ltd, and President, Karnataka Elevator Association* • *Mr. Fali Palkhivala, Director, Concord Elevator* • *Mr. Paolo Tattoli, EFESME - European Federation for Elevator Small & Medium-sized Enterprises*
5:30 to 7:00 Pm	Exclusive business leadership coaching for next-gen elevator entrepreneurs: *Strategic focus, scalable growth and IPO readiness*	*Speaker* *Mr. Dinkar Rao, Managing Director and Founder, Groval Euler's Consulting*

Day 3 - 7 February 2026 (Saturday)		
Certified Training Programme for Lift Inspectors: Lift Safety Inspection & Compliance *Theme: To upgrade inspectors on standardised safety, inspection protocols, and compliance readiness across states.*		
10:45 Am - 12:00 Pm	Elevator Inspection & Audit Procedures *Objective - The importance of Elevator audits, compliance requirements, and practical challenges*	*Mr. Rajnikant Lad- Founder of Elevator Auditor and Elevator Safety Forum India & Chairman of Building Transportation Safety (FSAI).*
12:15 - 1:00 Pm	Elevator Accidents: Root causes & Corrective Measures	
1:00 - 2:00 Pm	**Lunch Break**	
2:00 - 3:00 Pm	Understanding the elevator business *Objective - Awareness of Elevator System, Products,Installation and Service*	*Mr. Nithin Gadkari – Director, Elevate IQ Solution's LLP*
3:10 - 4:00 Pm	Structure of Elevator System *Objective - Elevator system and components overview*	*Mr. Santhosh Kumar, CEO, BSVT & Mr Surendra M Salian- Designated Partner - Elevate IQ Solutions LLP*

Business Coaching

A special ELEVATE Strategic Business Coaching Session was successfully conducted during the Elevator World India Summit 2026, co-located with Smart Lift & Mobility World 2026. The session focused on guiding elevator entrepreneurs and industry leaders on building sustainable, scalable, and professionally managed elevator enterprises.

The discussion highlighted the evolving landscape of India's elevator industry, emphasizing the shift from traditional installation-focused operations to building long-term, structured businesses. Key insights were shared on business strategy, organizational growth, leadership development, and strengthening industry capabilities to meet the demands of rapidly urbanizing cities.

The session saw active participation from industry professionals, entrepreneurs, and leadership teams, making it a valuable platform for knowledge sharing, strategic thinking, and industry advancement.

Elevator World India Summit

Future Buildings & Smart Mobility Summit

The Future Buildings & Smart Mobility (FBSM) Summit, a new platform that brings real estate, mobility and design into one conversation, witnessed its first 2026 chapter at Bangalore after a successful hat-trick since its debut in Hyderabad, Chennai and Mumbai during 2025. The concept once again brought together developers, architects, policymakers, and technology leaders for a unified, future-focused dialogue and a deep dive into future buildings, smart mobility solutions, and urban infrastructure trends.

The panel discussions on topical themes drew attendees like a magnet. Topics discussed included whether South India is ready for the next wave of urban density or are our cities being built faster than they can function, is Bengaluru evolving into India's first high-density tech city, and Evolution of automated parking systems in India, along with a fireside chat on Building for the next 20 years: A developer's vision for livable, connected cities.

FBSM will continue its journey during 2026 with upcoming chapters scheduled at Kochi, Vizag, Lucknow, Kolkata and Jaipur.

AGENDA

Day 2 - 6 February 2026 (Friday)		
11:00 - 11:15 Am	Introduction – Future Buildings & Smart Mobility Summit	
11:15 - 11:20 Am	Welcome Address *Anishka Raghunath, Marketing Strategist, Virgo Communications & Exhibitions Pvt Ltd*	
11:20 - 11:30 Am	Association Presentation *Ar. Apurva Bose Dutta, Author | Architectural Journalist | Curator | Editor | Educator, and President, WICCI Karnataka Architecture Council*	
11:30 Am - 12:00 Pm	**Keynote Address** *Ar. Dinesh Verma, Principal Architect & Managing Director, Ace Group Architects Pvt Ltd*	
12:10 - 1:00 Pm	Panel Discussion 1: *Is South India ready for the next wave of urban density or are our cities being built faster than they can function?*	Moderator: *Mr. Mayank Saksena, Managing Director & CEO – Land Services, Anarock Group* Speakers: • *Ar. Thomas Fritzsche, Founder + Head of Design, TFA - Thomas Fritzsche Associates, Germany* • *Mr. Bhadresh S, Associate Vice President and Head (MEP), Sattva Group* • *Mr. Tapan Mozumdar, Sr. Vice President Operations, Global Network for Zero* • *Mr. Tarunesh Mathur, President and CEO, Schindler India (and South Asia)* • *Mr. Farook Mahmood, Chairman Emeritus & Founder President, FIABCI-INDIA, and Chairman & Managing Director, Silverline Group*
1:00 - 1:10 Pm	Partner Presentation 1 *Schindler*	
1:10 - 2:00 Pm	**Lunch Break**	
2:00 - 3:00 Pm	Panel Discussion 2: *Is bengaluru evolving into India's first high-density tech city?*	Moderator: *Mr. Digbijay Das, Senior Director, Valuation Services, Colliers India* Speakers: • *Ar. Gunjan Das, Principal Architect, NG Associates, and Council member, WICCI Karnataka Architecture Council* • *Mr. Jayaram S Govindaiah, Head - India Real Estate, Wipro* • *Mr. Sathyaseelan A, Director, JLL India* • *Mr. Kannan Sundar Rajan, Head-Elevator and Escalator Segment, L&T Technology Services*
3:00 - 3:10 Pm	Partner Presentation 2 Gallagher Security	
3:10 - 3:30 Pm	Fire-Side Chat: *Building for the next 20 years: A developer's vision for livable, connected cities*	Moderator: Mr. Mayank Saksena, Managing Director & CEO – Land Services, ANAROCK Group
3:30 - 4:30 Pm	Panel Discussion 3: *Evolution of automated parking systems in India*	Moderator: *Mr. Uday Kulkarni, Founder & Director, Utopias* Speakers: • *Mr. Girish Vyas, Managing Director, Wohr Parking Systems* • *Mr. Antony Parokaran, Director - Car Parking Division, Sieger Global* • *Mr Nakul Modani, Director, RR Parkon* • *Ar. Smart Lift & Mobility Awards

The Smart Lift & Mobility Awards 2026 recognized excellence and innovation across the built environment. The multi-dimensional event covered myriad facets. The nomination process ensured a high level of credibility with Ernst & Young being the process partner and Economic Times being media partner for the 20+ categories and 60+ awards.

The SLM Awards have been conceptualized as a specific platform that will honor noteworthy leaders from not just the VT industry but also stakeholders such as developers, architects and more. The objective is to highlight the brands, their people and signature projects that have played an integral role in spearheading shaping India's vertical growth story and effectively raised the bar, leading by example, thereby inspiring others to do the same.

The SLM Awards 2026 again aimed to identify and incentivize the stakeholders who are performing exceptionally and also delivering the finest quality services in the design, adaptation and implementation of technology and management of elevators and escalators in India while also elevating the safety, quality and user-experience factors.

Awards Winners

Excellence in Aesthetically Designed Elevator and Lobby Interior (Architects)-Lulu IT Twin Towers Kochi

Elevator Safety Run

Over 3,000 runners came together at BIEC–Tumkur Road, Bengaluru, for the second edition of the Elevator Safety Run, reinforcing the growing call for safer vertical and horizontal mobility across India. The run brought together industry leaders, professionals, families and fitness enthusiasts from India and abroad, uniting the elevator industry and the public on a shared platform for safety awareness. The run featured two categories, a 5 km and a 10 km, catering to both enthusiastic participants and seasoned runners.

"Elevators are used every day, yet safety is often taken for granted. The Elevator Safety Run is about changing that mindset and making safety everyone's responsibility," said Anitha Raghunath, Co-Founder & Director, Virgo Communications & Exhibitions. "The overwhelming participation shows a clear commitment towards zero accidents, stronger standards and safer mobility for all."

Designed as a dynamic engagement featuring a competitive run, warm-up and cool-down sessions, the initiative focused on making elevator safety a mainstream conversation. With participation doubling from the previous edition, the run marked a significant milestone in building stronger collaboration, wider reach and deeper public engagement.

At the Elevator Safety Run, there were no finish-line distinctions—because every participant was a winner. By showing up, running together and taking a collective pledge, each runner contributed to a larger purpose: building awareness and responsibility towards elevator safety.

Elevator Safety Run

Buyer & Seller Meet

The Buyer–Seller Forum, a dedicated vendor development platform at Smart Lift & Mobility World Expo 2026, was designed to facilitate meaningful interactions between buyers and suppliers. The forum enabled productive business discussions, fostering potential partnerships and sourcing opportunities.

This initiative aimed to address the requirements of architects, builders, OEMs, and lift installers by connecting them with leading suppliers of elevators, escalators, mobility solutions, parking systems, and building access control systems. Through curated meetings and networking opportunities, the forum served as an effective platform for industry stakeholders to explore collaboration and strengthen their supply networks.

THE INDUSTRY IS COMING TOGETHER | HAVE YOU REGISTERED FOR SLM WORLD 2026 ?

SMART LIFT & MOBILITY WORLD 2026
EXPO | SUMMIT | AWARDS | RUN
5|6|7 FEBRUARY, 2026
BIEC-Tumkur Rd, Bengaluru, India

India's only Integrated Platform
For Elevators, Escalators,
Mobility Solutions, Parking Systems,
Building Access, & Allied Technologies

200. Brands | 500. Products | 50. Speakers | 10. Summit Sessions | 3000. Runners | 100. Award Nominations | 12000. Key Visitors | 175000. Sqft floor space

Dear Industry Professional,

Cities are rising. Expectations are changing. And the world is demanding smarter movement.

Smart Lift & Mobility World 2026 is India's only complete platform dedicated to Vertical and Horizontal Transportation and Mobility Solutions. It brings together the strongest minds, technologies, and opportunities to help you deliver safer, more efficient, and more intelligent buildings.

This is where your next breakthrough begins.

Why You Should attend?

For Builders and Developers
Explore technologies that improve project appeal, reduce operational challenges, and deliver enhanced user comfort and safety.

For Architects and Designers
Discover elegant and intelligent mobility solutions that support creative freedom and modern building experiences.

For Project Consultants and PMCs
Compare innovations, evaluate capabilities, and choose the most reliable and future-aligned engineering options.

For Manufacturers and Inst
Connect with de

FUTURE-READY TECH. VISIONARY MINDS. UNMATCHED OPPORTUNITIES.

India's Largest Integrated Platform
For Elevators, Escalators,
Mobility Solutions, Parking Systems,
Building Access, & Allied Technologies

EXPO | SUMMIT | AWARDS | RUN
5|6|7 FEBRUARY, 2026
BIEC-Tumkur Rd, Bengaluru, India

200. Exhibitors | 500. Products | 50. Speakers | 3000. Runners | 100. Award Nominations | 12000. Key Visitors | 175000. Sqft floor space

Dear Industry Professional,

The future of mobility is here — smarter, faster, and built for tomorrow.
At Smart Lift & Mobility World 2026, India's only fully integrated exhibition for elevators, escalators, parking systems, and building access solutions, you'll experience innovation that redefines how people move and buildings perform.
Discover the latest technologies, connect with over 200 leading brands, and find the right solutions to elevate your next project.

Why You Should attend?

For Builders & Developers
Explore advanced VHT systems that enhance project value, safety, and long-term performance.

For Architects
Discover integrated technologies and design-forward solutions that bring your creative visions to life.

Dear Industry Leaders & Partners,

& Mobility World 2026 (SLM World 2026) is where the conversations

rw taller and more connected, the focus on safe, efficient, and futu

ar Industry Professional,

ery project deserves solutions that fit perfectly in performance, design, and long-term value. At Smart Lift Mobility World 2026, India's biggest and only integrated exhibition dedicated to elevators, escalators, rking systems, building access, and mobility solutions, you will find everything your project needs under e roof.
nnect with over 200 global brands showcasing the latest technologies that enhance how people move hin buildings and cities.

hy You Should attend?

- **For Builders and Developers:** Discover reliable, energy-efficient, and future-ready systems that improve building value and project returns.
- **For Architects:** Explore mobility and access solutions that blend seamlessly with your designs and create a better user experience.
- **For Project Consultants:** Interact with experts, compare products, and identify solutions engineered for safety, durability, and innovation

Concurrent events

part of the country's largest network of developers, architects, consultants, manufacturers, and mobility innovators scover the entire building access and people flow ecosystem. Under one roof.

A Comprehensive Industry Landscape
Not just an exhibition, an integrated platform featuring:

- **High-level summits**
- **Strategic leadership forums**
- **National recognition awards**
- **The country's only elevator safety run**
- **200+ exhibiting companies with 500+ product innovations**
- **50+ industry speakers and 10,000+ influential visitors**

Why SLM 2026 Matters

Why Attend SLMW 2026

Concurrent events

s where industry direction is decided. This is where leaders belong.

A new year brings new possibilities, and this is the perfect moment to lock the dates for an opportunity you truly don't want to miss.
India is entering a transformative era where buildings, vertical transportation, mobility systems, and digital intelligence are no longer independent discussions. They now form one unified ecosystem driven by safety, efficiency, sustainability, and superior user experience.
Smart Lift & Mobility World 2026 is where this future takes shape.
Recognised as India's largest and most influential B2B platform for VHT, mobility, and the built environment, SLMW 2026 brings together decision-makers, innovators, and solution providers under one roof, creating meaningful conversations, real business outcomes, and lasting impact.

A Complete Industry Experience
More than an exhibition, SLMW 2026 is a powerful, multi-format industry platform featuring:

- Strategic leadership summits and closed-door forums
- High-impact knowledge sessions and industry dialogues
- National awards recognising excellence and innovation
- India's only Elevator Safety Run, a nationwide awareness initiative
- 200+ exhibitors showcasing 500+ breakthrough products
- 50+ expert speakers and 10,000+ influential, qualified visitors

WHY SLMW 2026 MATTERS TO YOU

1 BUILDERS & DEVELOPERS
Future-proof your projects with next-generation mobility solutions that enhance asset value and occupant experience.

2 ARCHITECTS & DESIGNERS
Discover intelligent, sustainable systems that integrate seamlessly with design-led developments.

Not just an expo- it's a complete industry ecosystem featuring:

- **High-impact summits**
- **Leadership forums**
- **National awards**
- **India's only elevator safety run**
- **200+ exhibitors & 500+ products**
- **50+ speakers & 10,000+ key visitors**

Why SLM 2026 Matters

01 FOR BUILDERS AND DEVELOPERS
Stay ahead of 2026 expectations with mobility solutions that enhance project value and improve user experience.

02 FOR ARCHITECTS AND DESIGNERS
Explore next-gen systems that support smart, efficient, and design-driven building environments.

03 FOR PROJECT CONSULTANTS AND PMCS
Compare live systems, evaluate performance, and adopt sustainable, future-ready technologies.

04 FOR MANUFACTURERS AND INSTALLERS
Meet decision-makers, strengthen your pipeline, and connect with India's strongest mobility demand network.

As a key leader in the Indian elevator industry, we are pleased to invite you to a **first-of-its-kind Business and Leadership Knowledge Session**, along with an **exclusive business coaching experience**, at **Smart Lift & Mobility World 2026**. This specially curated session will be held on **5 February 2026 (Day 1)** and will be followed by an **exclusive industry networking cocktail and dinner**, bringing together senior leaders from the elevator and components ecosystem for meaningful interaction, insight sharing, and collaboration

Day 1 | Thursday, 5 February 2026 I 03:30 PM – 06:30 PM I Followed by Cocktail Dinner & Networking | By Invitation Only .
These sessions are designed for CXOs, owners, promoters, and senior decision-makers, enabling strategic dialogue, peer-to-peer learning, and direct insights from industry experts.
1. Home Elevators in India: A High-Growth Market Opportunity- Market potential, growth drivers, compliance requirements, and the road ahead
The **home elevator segment** is witnessing rapid growth, transitioning from a niche offering to a mainstream mobility solution. This fast-expanding market presents significant opportunities for both multinational and home-grown players, driven by rising urban density, premium housing demand, and an increasing emphasis on accessibility, comfort, and convenience.
2. Independent Elevator Companies: A Rising Force in India -From entrepreneurship to enterprise excellence
This session focuses on the growing role and success stories of independent elevator companies, which are rapidly emerging as a key driving force within India's broader elevator ecosystem. Led by experienced industry experts and strengthened by next-generation leadership bringing new-age business skills, these companies combine strong execution capabilities, deep long-term customer relationships, and expanding technical expertise. With a clear focus on quality, safety, and compliance, they are contributing meaningfully to India's vertical growth story—positioning the country as one of the largest and fastest-growing elevator markets globally.
3. Exclusive Business Leadership Coaching for Next-Gen Elevator Entrepreneurs -Strategic focus, scalable growth & IPO readiness
A high-impact, closed-door business coaching session designed for founders and next-generation leaders of elevator companies, focusing on the transition from founder-led operations to CEO-driven, institution-ready organisations. The session will offer strategic clarity on business structure, professionalisation, capital growth, governance, and long-term value creation—equipping participants to build scalable, future-ready enterprises with an IPO mindset.
We firmly believe that these sessions will add significant value to your business perspective and open new avenues for growth and expansion. Kindly let us know your interest in reserving your seat along with one additional Director or senior management team member who may also benefit from these discussions. We would appreciate receiving your confirmation of participation **on or before 15 January 2026** for us to make the necessary arrangements.

Testimonials

Dignitaries

Sumit Bhatnagar
Bangalore Metro Rail Corp. Director, RSE and O&M

In modern urban transit systems such as metro networks, reliable elevators and escalators are essential for seamless passenger mobility. With increasing urbanization, the industry must focus on equipment that offers high reliability, reduced operational costs and minimal maintenance. Technologies such as predictive maintenance and AI-based monitoring can significantly enhance operational efficiency and passenger safety. This exhibition provides a valuable platform to showcase such advancements and connect infrastructure authorities with technology providers. I congratulate the organizers for creating an event that encourages innovation and collaboration in the mobility ecosystem.

Abhijit Dandekar
President, PALEA

I was glad to be a part of SLM World 2026. What makes this expo unique is that it goes beyond elevators and escalators by bringing together component manufacturers, access control solutions, software technologies and a wide range of mobility- and building-related innovations under one roof. This integrated approach creates excellent opportunities for networking and collaboration across the industry. It also aligns well with our objective of promoting initiatives like 'One Nation, One Code.' The scale of participation and the enthusiasm of attendees are impressive, and I believe this platform will lead to meaningful partnerships and progress for the mobility sector.

Massimo Bezzi
President, EFESME

It is a pleasure to participate once again in SLM World. Having attended the first edition, I can clearly see significant improvements in this second edition, particularly in the exhibition space, booth designs and the variety of products on display. The event has become more engaging and attractive for industry professionals. What makes this exhibition unique is the combination of the expo with the awards ceremony, which adds great value and sets it apart from other industry events. It brings together not only elevator professionals but also building managers and construction companies, giving them an opportunity to explore and stay updated on the latest technologies in the sector.

Dinesh Verma
Founding Partner, Principal Architect, ACE Group Architects

Hi, I'm Architect Dinesh Verma from ACE Group Architects, Bangalore. I was invited here to speak about future buildings and smart mobility, and it was a wonderful opportunity to share my thoughts on how buildings may evolve in the coming years. However, events like this are equally valuable because they allow us to learn from other experts in the industry. I thank the organizers for inviting me and wish FBSM great success, and I look forward to participating again next year.

Testimonials

Bhaskar T Nagendrappa
President, CREDAI - Karnataka

As urban development accelerates, infrastructure is becoming the foundation around which new habitats are created. This expo provides an excellent opportunity for professionals in the industry to explore emerging technologies and solutions related to building mobility. The venue, the organization and the information available here make it a valuable experience for everyone involved in the construction and infrastructure sectors. I encourage professionals across the industry to participate and benefit from this platform. It is exciting to be part of SLM World 2026.

Uday Kulkarni
Director, Utopias

I would like to thank Virgo Communication for introducing the parking segment at this mega exhibition. Though it was a small part, it created significant opportunities and opened doors for parking solutions. As a moderator and parking consultant, I found the interaction between architects and manufacturers highly valuable in addressing gaps and regional challenges. Parking is set to become a critical focus in metro cities. A dedicated parking platform in future editions could drive not just evolution, but a true industry revolution.

B.S. Kumaraswamy
Director, Monteferro India Guide Rails and Elevator Parts Pvt. Ltd.

Being a keynote speaker at SLMW 2026 was a great opportunity to address one of the most relevant topics in the Indian elevator market—the home elevator segment. The platform helped clarify market ambiguities and reinforced confidence that this segment holds strong growth potential. The panel discussions further strengthened this message for the industry.
As a long-time associate of the event, it is impressive to see its continuous evolution and increasing professionalism each year. The expo witnessed strong footfall and engagement, and we are delighted to be part of such a well-organized and impactful platform.

Arun Nagang
Director, BESCO

SLMW 2026 has been an excellent platform for us to connect with customers, vendors, and industry peers. This is our second time exhibiting, and we consistently find it valuable for meaningful business interactions and industry-wide discussions. The addition of the summit, safety initiatives, and networking opportunities makes the event even more impactful.
The show is especially important for us as it caters to the South Indian market, where we see significant growth. It allows our team to meet customers from across the region in one place, making it highly efficient and beneficial. Kudos to Team Virgo for organizing such a great platform.

Testimonials

Partners / Exhibitors

Ashish Patel
Director, 3A Industries

Participating in SLM World 2026 was a great experience for our company. We witnessed excellent footfalls, especially on February 4-5, with many visitors from the southern region showing strong interest in our products. At the expo, we showcased our elevator door mechanisms including two-, three-, four- and six-panel systems, along with our compact model designed for space-constrained shafts. The event was very well organized, and the support from the organizers was commendable. It provided us with a valuable platform to connect with industry professionals and showcase our innovations.

Paresh Nayak
President, Aaron Industries Limited

At SLM World 2026, we showcased our latest innovation, EVOC 360, a home lift with battery backup that allows up to 100 trips on a full charge. The exhibition provided an excellent platform to present our technology, connect with industry professionals and strengthen our presence in the rapidly growing elevator and mobility ecosystem.

Mohit Agarwal
Director, Aggarwal Art and Pattern Pvt. Ltd

Participating in SLM World 2026 for the first time was a very positive experience for us. The exhibition provided a strong platform to showcase our portfolio and connect with potential clients. We received excellent responses, particularly from visitors across the southern region of India, which helped us expand our business network. The event was very well organized, with great arrangements and professional management by the SLM World team. We are happy with the outcome and look forward to participating again in future editions.

Dr. Abhijeet Joglekar
Head - Sales and Marketing, Arkel Electronic India Pvt. Ltd.

This was our second participation at SLM World, and it has been a wonderful experience. Arkel specializes in advanced elevator control panels, including state-of-the-art elevator monoblock control systems. At this expo, we launched our new 100% IS-compliant ARCUBE control panels for the first time. We also introduced our destination control system (DCS) compatible ARMAXX panels designed for modern high-rise building applications. The event witnessed impressive footfall with visitors from across India and abroad. It is truly a matter of pride for us to participate and showcase our innovations at such a dynamic industry platform.

Testimonials

R Rajaraman
VP - Magnet Technology Machines, Bharat Bijlee Ltd.

This is our second participation at SLM World, and we are very happy with the response. The arrangements were excellent, footfall was strong and we look forward to participating in future editions.

Vyom Chowdhary
Director, Epic Elevators Pvt. Ltd

At SLM World 2026, we showcased our ready-to-install villa elevator, and the response from visitors was truly amazing. The exhibition saw excellent footfall with many reputed clients visiting our booth. The organizers did a fantastic job managing the event and ensuring a great experience for exhibitors. We are extremely happy to be part of this platform and look forward to supporting and participating in the exhibition for many more years to come.

Abey George
GM, Techno Doors Pvt. Ltd.

Our participation in SLM World 2026 has been a very positive experience. This edition witnessed strong and highly relevant footfalls, which made the interactions even more valuable for us. We have been associated with Virgo Communications since 2008 and have participated in many of their exhibitions. What makes their events unique is the strong personal contact and the professional-yet-friendly approach they bring to the industry. We are very happy to be part of this platform and look forward to continuing this association in the future.

Jimit Deliwala
Flexon Wires and Cables

Participating in SLM World 2026 allowed us to showcase our complete product portfolio and connect with both existing and potential customers. The exhibition saw excellent footfall, and the audience matched our target segment perfectly. Overall, we are very satisfied with the response and the opportunity the platform provided.

Testimonials

Ashwin
Hepzi Elevators

At SLM World Expo 2026, we showcased our latest product range including Edge, Inox and Elevate elevators designed for premium and luxury applications. The response this year has been very encouraging, with a strong presence of architects, builders and industry professionals visiting our booth. From stall setup to visitor engagement, the overall experience has been excellent. We are happy to be part of this platform and look forward to participating again in future editions.

Milind Manjareka
CEO, Inditech Electro Systems Private Limited

At SLM World Expo 2026, we introduced our newly developed landing operating panel and car operating panel models that will soon be launched in the market. The exhibition was a very good experience for us, with strong visitor turnout. We were able to connect with many potential buyers and industry professionals. I would like to congratulate the organizers for successfully conducting such a valuable industry platform.

Subramania Bharathiyar
Product Head, Inovance India Elevator

This was our second consecutive participation at SLM World. In the 2026 edition, we showcased both our existing and new technologies. The exhibition provided an excellent platform to connect with our existing customers while also engaging with new prospects. We experienced strong footfall and valuable business interactions. It has been a great experience for us, and we look forward to continuing our participation in future editions.

Mrugesh Shah
Jainox Processor Pvt Ltd

We have been participating in SLM World Expo since the first edition, and the experience has always been very positive. The exhibition allowed us to meet many of our existing clients while also connecting with several new customers. It also provided a great platform to showcase our latest product designs and innovations. We are very happy with the footfall and the overall exhibition experience.

Testimonials

Mudassar Mukadam
CEO, MAS Industries Pvt. Ltd.

This was our second participation in SLM World Expo in Bengaluru, and it has been a very good experience. The footfall was impressive. It was great meeting many customers and industry professionals during the event.

Kirtinath Joshi
GM, Field Operations, Omega Elevators

We regularly participate in the SLM World Expo in Bengaluru, and this edition has been an excellent experience. At the exhibition, we showcased our glass cabin designs, stainless steel elevator solutions and platform screen door models. The response from visitors has been very encouraging, with hundreds of inquiries received. Overall, the event was very well organized and highly productive for us.

Anik Fouzdar
director – Marketing & Sales, Wittur

Participating in SLM World Expo for the second time has been a wonderful experience for us. The exhibition has truly created an integrated ecosystem where manufacturers, installers, builders and consultants come together on one platform. We witnessed excellent participation and meaningful discussions with industry stakeholders. At the event, Wittur also launched a new range of elevator doors, safety systems and components compliant with the latest IS 17900 standards, helping customers stay ahead with safer and more productive elevator solutions. We congratulate the organizers for creating such a valuable industry platform.

Milind Shingate
Tectronics Techworld Pvt. Ltd.

SLM World Expo 2026 provided a strong platform for us to present our latest innovations & connect with industry professionals, partners and customers from across the country and overseas. Tectronics proudly launched its new model, the RTG 24P 1212 Series, which attracted significant attention for its advanced performance, efficient design and high reliability. Visitors and industry experts appreciated the product for its engineering excellence and suitability for modern elevator requirements. Receiving an overwhelming response, the company's stall witnessed heavy footfall throughout the event. Tectronics also introduced its newly developed safety block after receiving a huge response to its over speed governor solutions. It was widely appreciated by industry professionals as a valuable addition designed to enhance operational safety & provide better protection in elevator systems.

Testimonials

Anurag Gupta
founder and MD, YugX

Our objective is to build a strong pan-India distribution network through regional partners and offer globally certified lift solutions supported by local service expertise. The response at the expo was extremely positive, and we received strong interest and valuable inquiries from industry participants.

Vipul Goswami
Marketing Manager, Saurashtra Elevator Co.

This was our first participation at SLM World Expo 2026, and the experience has been extremely positive. We showcased our latest swing door solutions and received strong interest from visitors. The exhibition gave us the opportunity to connect with many new customers and industry professionals. We truly enjoyed the event and look forward to participating again in the upcoming editions.

Divan Patel
Sharp Engineers

We introduced our new series of gearless and belt-drive elevator machines, including the X7 model, which is CSA-certified for the U.S. market. The exhibition provided a great platform to showcase our latest technologies and connect with industry professionals. The footfall was impressive, and we had very productive interactions with visitors and potential clients. Overall, it was a very good experience participating in the expo in Bengaluru, and we look forward to future editions.

Komal Vaishnav
Marketing Executive, Shypod Engineers

We showcased our latest solutions, including a dumbwaiter system designed for kitchen lifts and a gearless machine suitable for 20-passenger elevators. The exhibition turned out to be a very positive experience for us. We received strong interest from visitors and potential clients who appreciated the quality and uniqueness of our products. The organizers were very supportive throughout the event. Overall, the expo provided a valuable platform for emerging businesses and entrepreneurs to showcase innovations and grow in the industry.

Testimonials

Sagar Auti
Chief Marketing Officer, Emesa India and Raloe India

We introduced our Optimus Home Lift, designed with a spacious cabin and optimized shaft configuration using high-precision technology. The response from visitors was very encouraging, with strong interest from architects, builders and industry professionals. The exhibition provided an excellent platform for us to present our innovations to the Indian market and connect with the right buyers. We look forward to building meaningful business opportunities through this platform.

Umesh G V
Founder & MD, Stalwart Elevators Products Pvt. Ltd.

We showcased multiple cabin designs and specialized door systems, including glass doors. The response from visitors and customers has been very encouraging. The event was very well organized and provided us with an excellent platform to showcase our capabilities and connect with potential customers across the industry.

Prasanna
Director & CEO, Stalwart Elevators Products Private Limited

Participating in Smart Lift & Mobility World Expo 2026 has been a very satisfying experience for us. We received a strong response from visitors and customers who showed great interest in our products. The exhibition provided an excellent platform to interact with industry professionals and explore potential business opportunities. With the positive response and meaningful discussions we had during the event, we are confident about securing new orders and expanding our market presence. We sincerely thank the organizers for organizing such a valuable platform for the elevator and mobility industry.

Anoop Menon
CEO, Torro Industries LLP (Vert Elevators)

This was our first participation at the SLM World Expo and we are extremely happy with the response we received. The exhibition gave us the opportunity to connect with industry professionals, showcase our solutions and engage with potential clients. We would definitely recommend this platform to other industry peers as it offers great visibility and valuable networking opportunities within the elevator and building mobility ecosystem.

Testimonials

Syed Junaid
Oscar Plus Elevator (Hedefsan India)

We introduced our new MRL HD control panel and mobile-operated solutions. The exhibition experience was excellent, and the most valuable aspect was meeting genuine buyers and industry professionals. The response from visitors was very encouraging, and we look forward to further expanding our presence in the market.

Mayur Bhosale
National Sales Head, Wohr Parking Systems Pvt. Ltd.

We experienced excellent footfall with many architects, developers and builders visiting our booth to explore advanced parking solutions for their projects. The exhibition provided a great opportunity to interact with potential clients and discuss real project requirements.

Ramanathan
Head of Marketing, Sieger Parking

Participating in SLM World Expo 2026 for the first time has been a great experience. We were also honored with the Innovative Parking Solution Award for our H-Cart and L-Cart tower parking systems. The footfall and B2B interactions were very promising.

Yati Smaru
Concord Ascentech

At SLM Expo 2026, we showcased our patented modular technology and flexible chassis systems, enabling efficient fabrication of elevator components such as car frames and bed plates. We also introduced our IS 15259 compliant electric traction homelift, designed with advanced safety features and enhanced aesthetics. The response has been very encouraging, with strong footfall and quality interactions. We are delighted to be part of this exhibition and appreciate Team Virgo for organizing such a platform. We look forward to participating in future editions and wish the team continued success.

Testimonials

Manoj Kumar
Managing Director, Infra-Elevators

This is our Second consecutive year participating in SLM Expo, and the experience has been excellent. As Kerala's only elevator manufacturer, this platform has helped us generate strong enquiries and secure valuable orders. The arrangements and overall organization of the event have been truly impressive. We are very happy to be part of this exhibition and appreciate the efforts of the organizing team. Wishing Smart Lift Mobility continued success in the future.

Nnamit Kedia
Partner, Torrin Drive

SLM 2026 has been a great experience for us. As one of the leading manufacturers of traction machines, we are grateful for the continued support of our customers, having supplied over two lakh machines in India. The event provided valuable insights into evolving market dynamics, including pricing and global factors, along with important customer feedback. It was an excellent platform to reconnect with existing clients and engage with new ones while showcasing our complete range of elevator solutions. Overall, SLM 2026 has been a success for us, and we look forward to participating again in 2028.

Chetan
Shivshakti Elevator Components Pvt. Ltd.

We have been manufacturing elevator components since 1998, specializing in elevator doors and related systems. At SLM 2026, we showcased our latest innovations, including fire-resistant doors designed to meet industry standards and certifications such as ISO and BIS. Participating in this exhibition has been a valuable experience for us, providing a platform to present our products and connect with industry professionals. We are glad to be part of SLM 2026 and appreciate the opportunity to showcase our advancements to a wider audience.

Ankitha K Arun
Executive Director, Aarve

This is our second time participating in Smart Lift Mobility, and the experience has been excellent. Both editions have delivered phenomenal responses, with strong engagement from leading elevator companies. We've gained significant traction, especially from our previous participation.
The three-day event provides a great platform to connect with other component manufacturers, exchange knowledge, and grow together as an industry. Overall, we've had a very positive experience with Smart Lift Mobility and look forward to future editions.

Testimonials

Speakers

Tarunesh Mathur
President & CEO, Schindler India

It was a pleasure attending Smart Lift and Mobility World 2026 in Bangalore. The event brought together industry leaders, architects, developers, and elevator experts on one platform to discuss the future of urban mobility and infrastructure. With India's rapid economic growth and the real estate sector expected to expand significantly, the elevator industry will play a critical role in supporting urban development. Forums like this allow experts to step away from daily work and collectively reflect on how our cities are evolving and how we can contribute to their growth. I congratulate the organizing team for creating such an engaging and meaningful platform for the industry.

Krishna Kumar Ravi
President & CEO, PAPL Corp

The second edition of Smart Lift and Mobility World 2026 has been fantastic and even better than the first edition. As the President and CEO of Papal Corp, I believe this is one of the most holistic events in the vertical transportation industry. The Elevator World Summit, panel discussions, exhibitions, and initiatives like the elevator safety run make this a truly integrated industry platform. The enthusiasm of participants, the strong turnout, and the exchange of knowledge among experts have made the experience very rewarding. Events like this are essential for innovation, networking, and learning across the elevator ecosystem.

Ar. Thomas Fritzsche
Founder + Head of Design, TFA Thomas Fritzsche Associates, Germany

It was a great pleasure participating in the discussions at Smart Lift and Mobility World 2026. The panel explored how Indian cities are growing and how we can develop strategies to make them more livable. As an architect from TFA Thomas Fritsche Architects, I believe cities must be designed as collaborative environments where buildings work together as part of the urban fabric rather than standing as isolated landmarks. By combining Indian cultural knowledge with global urban design experiences from Europe, we can develop more organized, sustainable, and people-friendly cities. I look forward to exploring the exhibition and seeing the innovations presented by elevator companies here.

Ar. Vijaya Bhargav
Co-Founder & Partner OSTRACA, & Vice President, WICCI, Karnataka Architecture Council

Having attended several exhibitions organized by Virgo Communications, I was particularly impressed with the integrated format of Smart Lift and Mobility World 2026. Traditionally, lift exhibitions focused only on elevators, but integrating parking systems into the event is a brilliant step. As architects, we usually focus on services like electrical, plumbing, and air-conditioning systems, while parking technologies often receive less attention. This expo helped bridge that gap by showcasing innovative parking solutions and demonstrating how these technologies are already widely used globally. It was a great opportunity to learn, interact with manufacturers, and understand how such solutions can be integrated into modern building designs.

Testimonials

Bhadresh S
Associate Vice President & Head (MEP), Sattva Group

It is great to see an event like Smart Lift and Mobility World 2026 dedicated to vertical transportation technologies. Representing the MEP team at Satwa, I found the exhibition extremely valuable for understanding the latest innovations in elevators, safety systems, and building mobility solutions. Technologies such as destination control systems, regenerative drives, and advanced safety features can significantly improve efficiency and user experience in both residential and commercial buildings. The event also helps industry professionals connect with vendors and technology partners. Overall, it has been a highly informative and rewarding experience.

Ar. Apurva Bose Dutta
Author | Architectural Journalist | Curator | Editor | Educator, & President, WICCI Karnataka Architecture Council

I am delighted to participate in Smart Lift and Mobility World 2026 as an association partner through the WICCI Karnataka Architecture Council. The summit successfully brought together stakeholders from architecture, mobility, sustainability, and urban planning to discuss the future of our cities. Such collaborations are extremely important because building better cities requires contributions from multiple disciplines. Platforms like this encourage dialogue, knowledge sharing, and partnerships that can lead to meaningful change in the built environment. I congratulate the organizing team for creating such an inclusive and impactful forum.

Tapan Mozumdar
Sr. Vice President Operations, Global Network for Zero

The panel focused on the growing density in cities and how it can be managed to improve efficiency. Cities can be compared to the human body, where different systems work together to keep it functioning smoothly. In the same way, roads act as arteries and people represent the lifeblood that must reach important economic centers such as offices and IT parks. If mobility systems fail, the city's productivity is affected. One effective solution for managing density is vertical development with well-planned high-rise buildings supported by efficient elevator systems integrated with public transport. Smart mobility requires synchronizing building mobility with city infrastructure, using simulations, data analysis, and modern technologies to ensure smooth movement and efficient urban growth.

Farook Mahmood
Chairman Emeritus & Founder President, FIABCI-INDIA, and Chairman & Managing Director, Silverline Group

It was a very insightful panel discussion with knowledgeable and well-informed speakers. The conversation highlighted some critical challenges faced by our cities today, particularly the lack of proper infrastructure. Sustainable, environmentally friendly development must become a priority if cities are to grow responsibly. During the discussion, we also emphasized the importance of stable urban planning, including clearly defined green belts and master plans that remain consistent over time rather than constantly changing. This is essential for ensuring long-term sustainability and organized growth. We also spoke about the City Prosperity Index developed by the World Bank and the United Nations, which could help Indian cities assess their strengths and identify areas for improvement. Overall, it was a valuable and meaningful discussion.

Testimonials

Visitors

Babu Venkatesh
Civil Engineer, MV Designs & Fasteners

I visited SLM World 2026 to understand the latest elevator technologies and innovations in the market. Since we work on residential and commercial infrastructure projects, it is important for us to recommend reliable and value-for-money solutions to our clients. The expo helped us explore new products, compare features, understand pricing and meet manufacturers directly. Interacting with vendors in person gave us confidence in their capabilities. It is a great platform for professionals to stay updated with industry developments.

Purnima
Architect, Flora Arcade Consultancy

This was my first visit to a SLM World exhibition, and it was very informative. I was surprised to see the wide range of components and manufacturers involved in the elevator industry. Such exhibitions help professionals understand the technology and available options better. In the future, I would also like to see more complete elevator manufacturers participating. Safety, quality parts and proper maintenance from original manufacturers are very important, and this platform helps raise awareness about these aspects.

Bhanuprata Biswal
Gidex Elevator Private Limited

Visiting SLM World 2026 has been a valuable learning experience for us. The expo introduced us to a wide range of products, technologies and service solutions within the elevator ecosystem. For a company like ours that is expanding into new markets, such platforms are extremely useful for understanding industry trends, discovering new suppliers and strengthening our business network. The knowledge gained here will definitely help us expand our operations and improve our offerings in the Indian market.

Mamta
Developer & Joint Secretary, CREDAI Karnataka

It has been exciting to visit SLM World 2026. The exhibition brings together a wide variety of elevator and parking solutions under one roof, offering developers and architects numerous choices for different types of projects. The exhibitors have done a fantastic job showcasing products that cater to projects of all scales. Events like this allow professionals to compare technologies, interact directly with manufacturers and discover solutions that enhance building efficiency and user experience. I wish all the exhibitors great success and hope the event continues to grow in the coming years.
