The following pages share an assortment of Skram products that demonstrate the brand's singular aesthetic, with a focus on solutions for the contract sector.

Additional products and resources are available via skramfurniture.com

Introducing Naqi Chair

Naqi was developed to offer a solution for design-driven but budget-conscious contract/hospitality projects. Key features include solid timber construction, diverse material options, and contract-grade performance. It also features tool-free, interchangeable upholstery to facilitate easy updating or replacement on the fly.

Piedmont No. 3 Seating

This collection brings considered lines to a dining chair (PC4) and counter- and bar-height stools (PS5, PS6). Each piece pairs a formed steel frame with an ergonomically tuned, carved solid timber seat and back.

next page: PS6: piedmont no. 3 stool

Altai Seating

The Altai seating is offered in Armchair, Loveseat, and Sofa variants. Clients may specify upholstery as COM/COL (subject to Skram Upholstery Department approval) or use graded-in Skram leathers or textiles. Cushions feature double-needle stitching accents and an unstructured feel for maximum comfort. Metalwork may be in steel, bronze, or steel with bronze accents.

V4 Armchair

The V4 is a mid-back armchair featuring a sculpted solid timber frame with a slim, contoured, three-dimensional seat, upholstered in graded-in leathers or textiles, or COM/COL.

next page: V4R: V4 armchair

Saddlestool

Inspired by western saddle-making traditions, Saddlestool is a backless stool offered in two models for dining or counter-height applications. A reinforced solid timber frame carries a seat finished with double-needle stitching in contrasting thread, and an oil-tanned black leather pull makes positioning easier. Upholstered in graded-in leathers or textiles, or approved COM/COL.

Altai Museum Bench

The Altai Bench pairs a 2.5" thick solid timber top, finished with a reverse bullnose edge profile, with six slender all-metal legs featuring Altai's new signature contract-grade leg design. Each leg rises from a stepped, turned sleeve at the foot, giving the bench a light, architectural stance.

accent tables

Introducing Eno Accent Tables

The Eno accent table pairs a round top, finished with a wafer undercut edge, on three sculptural legs. Built in solid timber with contract-grade joinery, it is offered in two accent table sizes (E20, E22) and as a café table (E24).

above: D01/D02: drop series side tables

Drop Series Tables

The drop accent tables are offered with stone or timber tops and metal bases. The 2 cm "drop"-shaped tops feature a reverse bullnose edge profile and a "softened" tip with a 1.5" (D01/D02) or 3" (D03/D04) radius. Metal legs are relieved at the top to mate seamlessly with the stone or timber top. Tables are well-suited for use individually or in clusters.

Introducing Tye Cocktail Table

Tye is a large-format centerpiece crafted in solid timber using traditional joinery methods. The design is distinguished by subtle structural detailing and flowing planar transitions between its intersecting elements. Well-suited for design-driven contract environments, the table is fully customizable in both size and material.

next page: TY5: tye cocktail table

Altai Console Table

The Altai Console pairs a 2.5" thick solid timber top, finished with a reverse bullnose edge profile, with six slender all-metal legs featuring Altai's new signature contract-grade leg design. Each leg rises from a stepped, turned sleeve at the foot, giving the console a light, architectural stance.

Wishbone 2-Drawer High Table

The Wishbone series 2-drawer high table features hand book-matched longwood veneers. All edges and corners are reinforced with solid timber for added durability. Construction is mitered, with 'waterfall' edges and mortise-and-tenon joinery.

private office

Lineground Desks & Meeting Tables

The new Lineground Desks and Meeting Tables are a suite of bold solutions for a range of contract applications, from private office to training, to public and private meeting spaces. The throughline of the design is the curved, stepping radiused edges that mate with the distinctive accent metal corner detail. Fully concealed connectivity and wire management options are available.

Featuring PJ4-SYS

A customizable private office system inspired by the classic PJ4 bureau, featuring its distinctive timber integral recessed pull design. Built with mixed solids and hand book-matched longwood veneers, the system incorporates solid timber corner and edge reinforcement for added durability in commercial environments. Cabinet areas may be configured to suit, including options for: wardrobe, shelving behind doors, pull-out drawers, file drawers, waste pullouts, refrigerators, etc. Custom sizes, configurations, and materials are available.

meeting

Piedmont Meeting Table

Developed to meet demands for our Piedmont Pedestal Table in commercial/contract settings, skram offers the P33 Meeting Tables. Made-to-order to client specifications, the P33-MTG is available in widths from 84-288" and depths from 36-72". There are two basic top shapes: boat or taper. Tops are constructed of mixed timber solids and hand book-matched longwood veneers. Fully integrated connectivity options and fully concealed wire management from table surface to floor may be tailored to specific needs.

next page: P33-MTG: piedmont meeting table / L41: lineground media system

Piedmont Round Table

The piedmont round table features a solid timber top with edge profiles available as flat, reverse bullnose, or wafer undercut. The base is formed steel or bronze with timber detailing to match and adjustable leveler feet. Integrated connectivity and concealed wire management options are available.

next page: P34: piedmont round table

Lineground Conference Table

This Lineground Table is a pedestal-style conference table constructed from solid timber (or mixed solids and hand book-matched veneers, depending on size/specification) with traditional mortise-and-tenon joinery throughout. Engineered for modern workspaces, the table offers integrated connectivity and concealed wire management options. The design is fully customizable in size, material, and configuration to suit.

next page: L68–C: lineground conference table

Piedmont Conference Table

The Piedmont conference table features a rectangular solid timber top (default). Edge profiles may be flat, reverse bullnose, or wafer undercut. The base is formed steel or bronze with timber detailing to match and adjustable leveler feet. All standard timber and metal finishes are available. Fully integrated connectivity and wire management options are available.

next page: P35: piedmont conference table

Wishbone Credenza

The Wishbone Credenza's standard configuration has 6 drawers (3 per tier). Hardwood veneer longwoods are hand book-matched. Construction is mitered, 'waterfall' edges and mortise-and-tenon joinery. All edges and corners are reinforced with solid timber for added durability. Drawers are solid maple riding on soft-closing concealed runners and opening via recessed, integral pulls. Optionally, lower drawers may be outfitted with file bars.

next page: W51: wishbone credenza

Lineground Media System

The Lineground media system is a highly customizable cabinet well-suited to an array of settings. Configured as standard, the L41 offers a centered bank of graduated drawers in maple timber, soft-closing concealed runners, and low-profile tab pulls. Doors flank the drawers and are side-hinged. Cabinet areas have adjustable shelving and may optionally be outfitted with pull-out drawers or other features. Door and drawer faces are to match, with leather overlays, or opaque colors. Connectivity, wire management, and ventilation are available for technology integration.

next page: L41: lineground media system

Altai Shelving System

The Altai shelving system is a freestanding modular open storage unit that can be tailored to each individual project. The unit is constructed of solid timber shelves with radiused corners and a reverse bullnose edge profile. Uprights are constructed in steel with a variety of finish options. Standard options/upgrades include: display lighting, file or storage cabinets, TV mount, and perforated metal privacy screen.
