Six reasons to join the

iPhone Duo

01 The largest display ever on iPhone

Open it up to a 7.6-inch display, 50% larger than iPhone 18 Pro Max. Closed, it’s passport-sized, with a 5.4-inch outer screen.

02 Two batteries, working as one

One battery in each half: up to 31 hours of video playback on the inner display, and up to 50% charge in around 20 minutes.

03 The thinnest iPhone ever

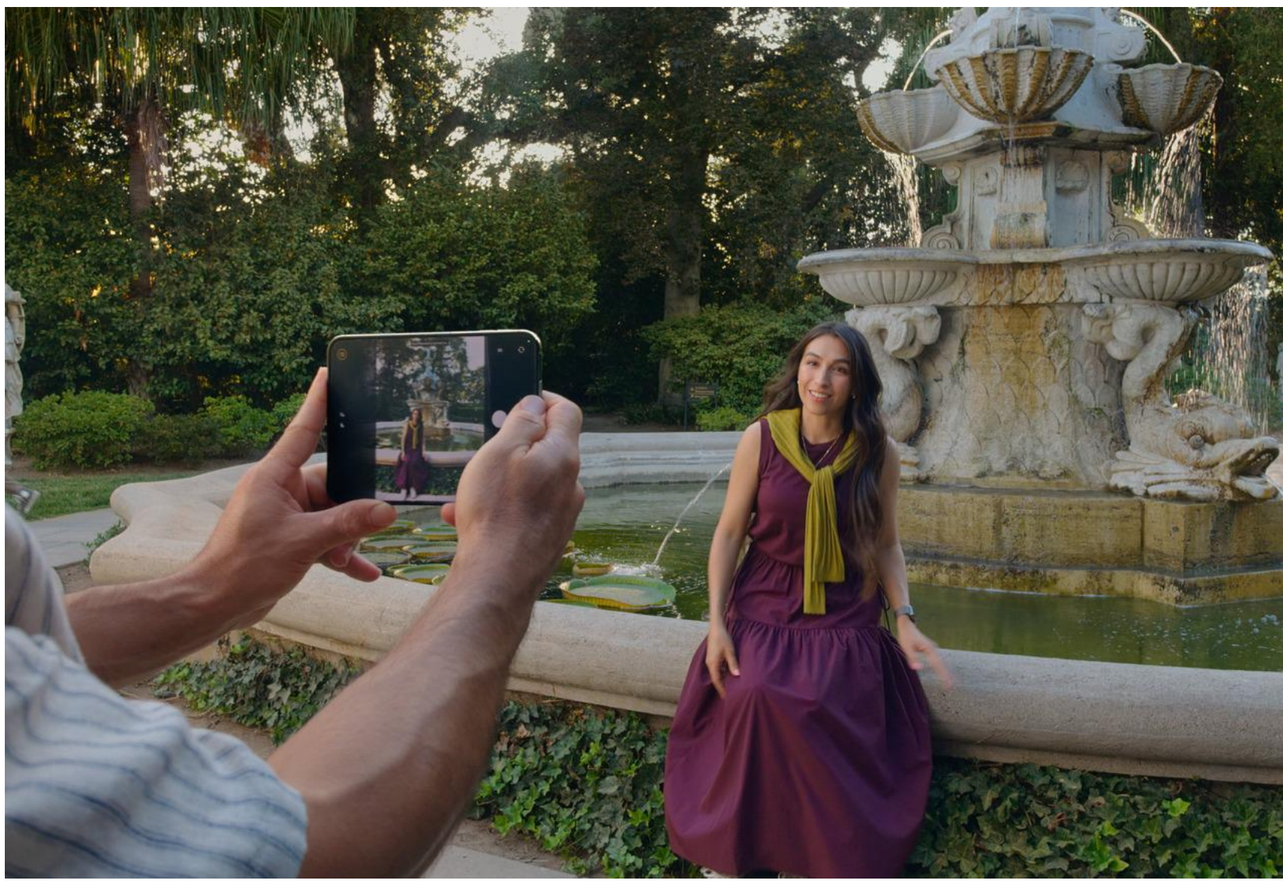
Just 5.2 mm thin when open, crafted from grade 5 titanium, with a hinge made of more than 100 components.

04 Power to play your games to the limit

Vapor-cooled A20 Pro: up to 35% better sustained performance than iPhone 17 Pro.

05 Selfies are out of the ordinary

Take selfies with the rear cameras and see yourself on the outer display.



06 And most importantly, better for the planet

iPhone Duo is made with 35% recycled content, and its paper packaging is 100% fiber-based.

100%

Recycled cobalt in the battery
