SETTING THE TABLE FOR *Stories Worth Sharing*

We believe every new day is a cause for celebration. Cooler weather brings more reasons to gather, whether you're keeping cozy or highlighting the holidays. Our designs honor new stories and nostalgic traditions alike with our hand-crafted art, rich colors, and pieces that can layer infinitely to create a gathering as unique as your guests.

Our paper tabletop products are at the heart of what we do, helping you create accessible beauty to elevate the everyday. Whether you're laying a foundation with a runner or using everything from placemats to place cards, every item is crafted with quality and care for your table.

Throughout these pages, you will see these pieces introduced as stories with like items, each one designed to provide a curated starting point for a beautiful and cohesive table. We see these stories as guides, not rule books, and encourage you to mix and match across collections and finish with your own china and linens—that is where the magic happens! We hope your own traditions and taste help shape these stories for your guests into something uniquely you.

Beyond our tabletop papers, we invite you to add dimension and texture to your settings with felt, honeycomb, and porcelain dinnerware. Our Stationery Collective offers cards for every occasion, and our Ribbon Collection adds the perfect finishing touch to settings and gifts.

Let these pages inspire gatherings worth sharing for generations around the table as you celebrate the beauty of the season. As always, thank you for letting Hester & Cook be part of these moments with the ones you hold most dear.

Meet the Owners

Angie Hester Cook, CEO, and Robbie Cook, President

Hester & Cook started in the home basement of husband and wife team Robbie and Angie Hester Cook over 20 years ago. What began as Robbie's inspired idea of crafting a vintage door knob into a bottle stopper soon became the company's first product, Knobstoppers. From there the company rapidly grew—offering everything from hand-crafted chandeliers to #2 pencils. Today we are best known for our paper tabletop products designed to help elevate dining experiences.

Welcome to Hester & Cook!

We are honored to be a part of your gatherings, homes, and traditions, year after year.
Cheers to honoring traditions and creating new ones!

Fine Art FOR THE TABLE

The Hester & Cook difference.

We are proud to say that since the beginning through today's modern climate of computer generated art, Hester & Cook has remained true to our focus of bringing one-of-a-kind works of fine art to your table. Nearly all of the tabletop and stationery products seen throughout this catalog feature the hand-rendered work of a myriad of talented digital and fine artists. We remain committed to this standard and believe it's the difference you will see in our products and feel in the love and detail that was shown to each and every item from our team – just for you!

COLLABORATIVE *Artists*

Along with our in-house design and illustration team, we are honored to partner with these wonderful artists from the US, Canada and the UK, each of whom brings their own unique style to our product line across multiple categories.

Bewilderbeest

Stowmarket, Suffolk
ENGLAND

Bewilderbeest is the proudly absurd creation of Chief Nitwit, Iain Hamilton, and Chief of Odd, Maddy Hamilton. This husband and wife duo's style is absurd and extraordinary as Iain works with pen and ink (and nonsense) to create richly detailed illustrations. Most feature a combination of animals and absurd jokes that are cheeky, but not rude, so you can still send them to your grandma.

Catherine Greenup Visual

Cambria, California

Catherine Greenup Visual has been producing hand-crafted gold leaf stationery, home gifts, custom furniture, and faux taxidermy for over 20 years. Along with her husband and business partner, Carl Finley, she combines elements found in and collected from natural settings to bring into the home with a unique approach to decor, design, and craftsmanship unlike anything else you'll see in the world of stationery and beyond.

Elizabeth Foster

Greenville, South Carolina

Elizabeth Foster is a painter, designer, and maker from Nashville, TN, residing in South Carolina. Her colorful and imaginative paintings are reflections of her everyday experience transformed into modern folk tale. Known for enchanting stories, charming characters, and narrative images that beg you to step right into them, her love of animals and storytelling inform each design she creates with sophisticated charm.

Janet Hill

Stratford, Ontario
CANADA

Janet Hill of Janet Hill Studio is an author and illustrator who creates both elegant, yet whimsical, paintings, often with an underlying narrative that instantly captures the imagination. The creative mind behind cheeky books such as Miss Moon: Wise Words from a Dog Governess and Lucy Crisp and the Vanishing House, her style evokes a sense of nostalgia, mystery, humor, and comfort.

Roiann Ridley

Bowling Green, Kentucky

LakeRabbit, born from artist, designer, & forager Roiann Ridley, presents original designs from organically grown specimens and responsibly foraged discoveries. Roiann's finds are delicately deconstructed, methodically pressed, designed with an artist's eye, and reconstructed with a colorist's heart. A study in the gentle impermanence of nature, her work preserves the language of flowers in timeless form.

Laura Stoddart

Clayhanger, Devon
ENGLAND

Established in England, Laura Stoddart is an award-winning illustrator known for her lovely hand-painted miniature people with oversized blooms. Her artwork is beautiful, whimsical, and endearing with a level of detail that is truly captivating to the viewer. We are proud to showcase it throughout both our tabletop and stationery products.

Vicki Sawyer

Carnegie, Pennsylvania

While out on a walk, a thought occurred to Vicki: "If birds can build nests, they could make hats!" With that thought in mind, Vicki Sawyer has been painting her whimsical animal scenes (many of which can be seen on our best-selling products!) ever since.

Maggie Vandewalle

Cedar Rapids, Iowa

Maggie Vandewalle depicts animals and their environments realistically but with quirks, a bit of humor, and always with great respect. She recalls a childhood divided between two passions—an insatiable love of reading and a profound fascination for the natural world. These early interests are the foundation for her paintings whose whimsical creatures and their antics evoke a feeling that one has walked into the middle of a remarkable journey.

NEW TABLETOP *Stories*

Celebrate fall and the holidays with our new seasonal stories! Our artist collaborations feature bold pressed maple leaves from Roiann Ridley of LakeRabbit and the merriest mistletoe placemats from Elizabeth Foster, while our H&C team brought antique pumpkins and autumnal artichokes to life. With options perfect for Thanksgiving dinners to Christmas gatherings, these fresh designs bring warm, welcoming style to any fall or holiday table.

TABLEWARE & PARTY TRIMMINGS

Behind every item in this section is a story of craft, care, and collaboration. We're grateful to work with talented craftspeople across the globe, from felt artisans in Nepal to ceramic specialists in Indonesia, ribbon master makers in Italy, and paper partners throughout Europe and Germany. Each product reflects a shared commitment to quality and thoughtful design. We're honored by these collaborations and the chance to bring you pieces that feel like true heirlooms—meaningful, beautiful, and made to be treasured. Across borders and traditions, they are a quiet reminder that the most special details are often shaped far beyond our own tables, then brought home with care to share.

Rooted in TRADITION

We're proud to partner with women artisans in Nepal who make every piece of this felt by hand with impeccable attention to detail. Made from 100% sheep's wool, each item is as special as the craftsmanship with which it is produced. It is an honor to support this cottage industry of makers offering pieces that are rooted in a craft tradition dating back thousands of years and passed down through the generations.

Our ribbons are a beautiful finishing touch to traditional wrapping, but think outside the box to bring even more delight to your gatherings! Tie around flatware or napkins to spruce up a setting, or around stemware to use as colorful drink markers. Our ribbons can even make a bow around your plate or charger, making each setting a gift for guests. We also love them added to bouquets, vases, or candle holders for another layer of color and texture to tie your tablescapes together.

BOXED *Matches*

Our boxed matches bring a little spark of joy to everyday life, featuring Hester & Cook's signature designs alongside artwork from some of our favorite artists. Made in Europe with care for the environment, the sticks are crafted from fast-growing aspen and poplar, and the ignition heads are non-toxic. Whether lighting a candle, setting a cozy mood, or beckoning a choir of "Happy Birthday to you", they make every moment feel a little brighter. Small but full of charm, these matches are the perfect way to brighten your space and make even simple rituals feel special.

TABLE *Runners*

Our table runners are small touches that make a big impression, elevating any table to a work of art with effortless ease. From classic stripes of all sizes to statement florals for fabulous flair, there's a design for every occasion from birthdays to casual dinners and seasonal celebrations. Roll them down the table's full length or playfully pair shorter lengths across for a layered, personal touch. And when the meal is over, they double as charming gift wrap or a quick burst of color or pattern anywhere you need it!

TABLE *Accents*

Our table accents are some of our most versatile pieces, perfect on the table, as decor, or as a finishing touch to gifts. As part of your tablescape, use them as oversized place cards, tuck them under flatware, or scatter down the center of a table as an impromptu runner. For parties, pair with our runners and ribbons for even more festive fun! Simply add a name and attach to a gift to use as an extra special gift tag, or punch with holes and thread on ribbon for a cheerful bunting. Whether celebrating a holiday or every day, our designs make every gathering more festive.

And now she slept, oblivious, and within her the baby grew into
dark sea. Paul reached out, touched her hair lightly, then let his
hand fall. He had a sudden urge to get into the bed with her,
her. It wasn't like with Lauren somehow, it wasn't about sex. He just

wonderful life foundation

While most people can empathize with the emotional struggles of caring for a child with a life-threatening diagnosis, the overwhelming financial burdens faced are frequently overlooked. These families often teeter on the brink of financial collapse due to mounting expenses paired with increased time away from work. Treatment, prescription, and travel costs can quickly consume a family's budget.

The *Wonderful Life Foundation*, a 501(c)(3) nonprofit organization founded in 2009 by Angie and Robbie Cook, offers direct assistance to families experiencing financial hardship in conjunction with life–threatening illnesses. *Hester & Cook* donates a portion of all sales to the foundation, and we are committed to supporting families with children affected by cancer and other serious conditions.

For more information or to donate, please visit wonderfullifefoundation.org.
