5.	Loads in Minibus / Use of Trailers - accidents if loads fall from minibus / trailer hitting persons / other vehicles and / or minibuses / trailers are overloaded, or driver does not have competence to tow a trailer	Serious Injury/Fatality - Driver, Passengers, Pedestrians, other Road Users	- Drivers must check loads are secure and do not exceed the limits of the designed trailer towing specification. - SU provides straps etc to secure loads. - Trailers and associated equipment are checked regularly and maintained by the SU. Records kept. - In December 2021 the towing law was amended, and drivers are no longer required to take an additional towing test based on the following: Category B - if you passed your test on or after 1 January 1997 You can drive vehicles up to 3,500kg MAM with up to 8 passenger seats (with a trailer up to 750kg). You can also tow heavier trailers if the total MAM of the vehicle and trailer is not more than 3,500kg. Category BE - You can drive a vehicle with a MAM of 3,500kg with a trailer. - The size of the trailer depends on the BE 'valid from' date shown on your licence. If the date is: - before 19 January 2013, you can tow any size trailer within the towing limits of the vehicle - on or after 19 January 2013, you can tow a trailer with a MAM of up to 3,500kg within the towing limits of the vehicle	a. SU to check licences before approving towing b. Ensure new minibus / trailer drivers instructed in securing loads	SU/ Driver	Ongoing
