Introducing Scan Me

AFRICA'S FIRST CONSUMER-FRIENDLY NFC ECOSYSTEM

Most NFC apps are built for developers and technicians. Scan Me is different. Designed for both Android and Apple devices, Scan Me is Africa's first truly consumer-friendly NFC ecosystem – built for real people in real situations, every single day. No Internet needed.

Designed for Everyone

No technical skills needed. If you can tap your phone, you can use Scan Me.

Works on All Smartphones

Compatible with all Android and Apple NFC-enabled devices.

One App Everywhere

One login. One ecosystem. Six powerful solutions.

App Availability

- Available on Apple App Store & Google Play Store
- Shortest Code: **90033**

Download the Scan Me app today for **FREE** — your gateway to a smarter, safer tomorrow.

#Be Unforgettable

Smart NFC Business Cards & Luggage Labels

Make Every Introduction Count. Make Every Journey Easier.

#Be Unforgettable combines stylish personalisation with smart NFC technology to help people connect, share information and identify personal belongings with a simple tap.

Whether you're networking at a business event, promoting your services, travelling abroad, attending a conference, or simply wanting a more memorable way to share your details, #Be Unforgettable turns an ordinary card or luggage label into a powerful digital connection tool.

Know Me™

The heart of every #Be Unforgettable product is the Know Me™ digital profile. With a simple tap using an NFC-enabled smartphone, you can instantly share:

- Contact Information
- Business Details
- Websites & Landing Pages
- Social Media Profiles
- Brochures & Catalogues
- Videos & Presentations
- Booking Links
- Emergency Contact Information
- Travel Details
- Personal Messages

No app is required for the person scanning as long as they have their NFC on. However, Apple iOS phones need an app to read and could load the Scan Me App or use one of the current apps.

Business Cards Reimagined

Traditional business cards are often lost, forgotten or thrown away. And we include designs. Design your own card on our app and watch your name become Unforgettable!

A #Be Unforgettable NFC Business Card allows you to:

- ✓ Share your details instantly
- ✓ Update information without reprinting cards
- ✓ Stand out from competitors
- ✓ Create memorable first impressions
- ✓ Reduce paper waste
- ✓ Showcase your brand professionally

Available in Black, White, Bamboo and Custom Designs.

R150

R150

R200

The smart card people never throw away.

Smart Luggage Labels

Travelling can be stressful, especially when luggage is misplaced.

A #Be Unforgettable NFC Luggage Label helps anyone who finds your luggage quickly access the information you choose to share.

The label can display:

- Your Name
- Contact Details
- Travel Companion Details
- Hotel Information
- Tour Operator Information
- Emergency Contact Details
- Special Instructions

Important To Understand

This Is NOT A GPS Tracker

#Be Unforgettable products do not contain cellular technology, GPS tracking hardware, batteries, SIM cards or live location services. Because there is no cellular connection, the product cannot track or monitor the location of people, luggage, pets or assets. Instead, the system works when a person physically taps the NFC tag with their smartphone.

Perfect For

Business Professionals • Entrepreneurs • Travellers • Golfers • Event Attendees • Students • Tourism Operators • Clubs • Associations • Schools • Conference Delegates

The technology is designed to help people identify, connect and communicate — not track.

Why NFC?

Unlike battery-powered devices:

- ✓ No charging required
- ✓ No monthly subscription fees
- ✓ No SIM cards
- ✓ No batteries
- ✓ Waterproof and durable
- ✓ Works instantly with most Android and Apple smartphones
- ✓ Lifetime usability

One Tap. One Connection. One Lasting Impression.

Be Remarkable.

MAKE EVERY ROUND COUNT. MAKE EVERY CONNECTION LAST.

#BeRemarkable™

NFC GOLF BALL MARKERS

MORE THAN
A BALL MARKER.

MORE THAN
A BUSINESS CARD.

The #BeRemarkable NFC Golf Ball Marker combines personal branding, networking and emergency assistance into a single premium golf accessory.

Designed for golfers, golf clubs, coaches, sponsors and corporate events, each marker contains NFC technology that allows information to be shared instantly with a simple tap of a smartphone.

Whether you're promoting your business, sharing your contact details, supporting a charity event or providing emergency information while on the course, #BeRemarkable creates a lasting impression every time it is used.

TWO POWERFUL USES IN ONE PRODUCT

PROMOTIONAL & BUSINESS NETWORKING

Transform your golf ball marker into a digital business card.

With a simple tap, golfers can instantly access:

- ✓ Contact Details
- ✓ Business Information
- ✓ Websites
- ✓ Booking Links
- ✓ Social Media Profiles
- ✓ Brochures & Catalogues
- ✓ Sponsorship Information
- ✓ Tournament Information
- ✓ Videos & Promotions

Perfect for:

- Golf Professionals
- Golf Clubs
- Coaches
- Sponsors
- Corporate Golf Days
- Charities & Fundraisers
- Networking Events

EMERGENCY GOLF MARKER

Golfers often play alone, in remote areas or during early morning rounds.

The same NFC marker can provide emergency information if assistance is needed.

- ✓ Emergency Contacts
- ✓ Medical Conditions
- ✓ Allergies
- ✓ Medication Information
- ✓ Blood Group
- ✓ Personal Identification
- ✓ Family Contact Details

If a golfer becomes ill, injured or requires assistance, a fellow golfer, marshal or first responder can tap the marker with an NFC-enabled smartphone to access critical information instantly.

IMPORTANT
TO UNDERSTAND

THIS IS
NOT
A GPS TRACKER

#BeRemarkable markers do not contain:

- ✗ GPS Tracking
- ✗ Cellular Technology
- ✗ SIM Cards
- ✗ Batteries
- ✗ Monthly Subscriptions

The marker works only when physically tapped by another person using an NFC-enabled smartphone.

#BeGreen

NFC AGRICULTURE, FORESTRY & HARVEST MANAGEMENT TAGS

GROW IT. IDENTIFY IT. MANAGE IT.

GROW SMARTER. MANAGE BETTER. HARVEST MORE.

Modern farming, forestry and environmental management rely on accurate information.

#BeGreen™ NFC Tags provide instant access to critical records, helping growers, foresters and land managers identify, monitor and manage valuable living assets with a simple tap of a smartphone.

Whether managing orchards, vineyards, timber plantations, irrigation systems or conservation projects, #BeGreen puts important information directly into the hands of the people who need it.

PERFECT FOR

- Forestry Plantations
- Vineyards
- Orchards
- Tree Nurseries
- Crop Production
- Botanical Gardens
- Irrigation Systems
- Conservation Projects
- Agricultural Equipment
- Nature Reserves

WHAT INFORMATION CAN BE STORED?

- TREE & CROP MANAGEMENT**
 - Tree Species
 - Planting Date
 - Growth Records
 - Age & Size
 - Yield Information
 - Harvest Schedule
 - Treatment History
 - Disease Records
 - Fertiliser Applications
 - Inspection Notes
- FORESTRY & TIMBER OPERATIONS**
 - Block Identification
 - Tree Age
 - Harvest Planning
 - Environmental Records
 - Sustainability Audits
 - Compliance Information
- EQUIPMENT & INFRASTRUCTURE**
 - Asset Numbers
 - Service Records
 - Maintenance History
 - Operating Instructions
 - Warranty Information

HOW IT WORKS

TAG → TAP → MANAGE → HARVEST

- TAG INSTALLED**
Attach a #BeGreen NFC tag to a tree, vineyard post, irrigation system or asset.
- TAP WITH SMARTPHONE**
Any NFC-enabled Android or Apple smartphone can read the tag.
- INFORMATION APPEARS**
Relevant records instantly display on screen.
- UPDATE & MANAGE**
Workers record inspections, treatments and growth information.
- BETTER DECISIONS**
Accurate information improves productivity, traceability and harvest planning.

WHY AGRICULTURE LOVES #BEGREEN

- IMPROVE TRACEABILITY**
Track every tree, crop block and asset throughout its lifecycle.
- BETTER RECORD KEEPING**
Reduce paperwork and simplify field operations.
- FASTER INSPECTIONS**
Access information instantly while working in the field.
- INCREASED PRODUCTIVITY**
Improve planning and operational efficiency.
- SUSTAINABLE MANAGEMENT**
Support environmental compliance and responsible resource management.

IMPORTANT TO UNDERSTAND THIS IS NOT A GPS TRACKER

- ✗ No Cellular Technology
- ✗ No SIM Cards
- ✗ No Batteries
- ✗ No Monthly Fees
- ✗ No Live Tracking

#BeGreen works when physically tapped by a smartphone, providing information on demand.

IDEAL USERS

- Farmers
- Foresters
- Vineyard Managers
- Orchard Managers
- Agricultural Consultants
- Municipal Parks Departments
- Conservation Agencies
- Botanical Gardens
- Timber Companies
- Environmental Researchers

#BeGreen™

IDENTIFY • MONITOR • MANAGE • HARVEST

SMART NFC SOLUTIONS FOR AGRICULTURE, FORESTRY & ENVIRONMENTAL MANAGEMENT

MY ASSET. MY RESPONSIBILITY. MY RECOVERY.

TAG • PROTECT • RETURN

#MyAsset™ NFC Tags help identify ownership and provide a simple way for honest finders to return valuable items.

PERFECT FOR

- NO BATTERIES
Always ready
- NO SUBSCRIPTIONS
No monthly fees
- NO CHARGING
Just smart identification
- WORKS ANYWHERE
Any NFC-enabled smartphone

PROTECT WHAT MATTERS MOST

HOW #MYASSET™ WORKS

LOST DOESN'T HAVE TO MEAN GONE FOREVER

- ### ASSET GOES MISSING

A camera, bike, trailer, laptop or any valuable item is misplaced, left behind or lost.
- ### HONEST FINDER NOTICES TAG

An honest person finds the item and notices the #MyAsset NFC Tag.
- ### NFC TAG TAPPED

The finder enables NFC on their smartphone and taps the tag.

No special app required.
Works with most Android and Apple smartphones.
- ### INFORMATION APPEARS

The information chosen by the owner appears instantly.

 - ✓ Name
 - ✓ Asset Reference
 - ✓ Contact Number
 - ✓ Return Instructions
 - ✓ Email Address
 - ✓ Additional Notes
- ### ASSET RETURNED

The finder contacts the owner. The asset finds its way home.

Everyone wins!

THIS IS NOT A GPS TRACKER

- NO GPS
- NO CELLULAR CONNECTION
- NO SIM CARD
- NO BATTERY
- NO MONTHLY SUBSCRIPTION

#MyAsset is an identification and recovery system, not a tracking device.

The system only works when someone physically taps the NFC tag with their smartphone.

#MA MyAsset
NFC
TAG • PROTECT • RETURN

Because valuable things deserve a way home.

 PEACE OF MIND ON EVERY RIDE

Ride Free. Be Prepared.

Every Second Matters.

(Pin, Adhesive, Soft or Hard 30mm Tags)

For every biker, every journey carries a degree of risk. The ScanMe SaveMe NFC Emergency Tag is designed to provide critical support when you need it most, ensuring that in the event of an accident, your essential medical information and emergency contacts are instantly accessible to first responders. This discreet, durable, and waterproof tag is a silent guardian, working tirelessly to provide peace of mind on every ride.

How It Works: Your Roadside Lifeline

Biker Injured

Bystander
Helps

Tag Scanned

Info Appears

Help Notified

From the moment of impact to professional medical intervention, our NFC tag streamlines the critical first minutes. It ensures that vital information is not lost in the chaos, empowering bystanders and emergency services to act swiftly and effectively, leading to better outcomes for injured riders.

Be Prepared. Ride Protected. **Every Second Matters.**

Key Benefits for Bikers

- **Stay Safe On The Go:** Your vital information is available in seconds, directly from your helmet or gear, when it matters most.
- **Critical Medical Information:** Instantly provides first responders with essential details like allergies, conditions, and medications, even if you're unconscious or unable to communicate.
- **Instant Access:** Information appears within seconds on any NFC-enabled smartphone – no special apps or internet connection required for the rescuer.
- **Emergency Contact Notification:** Your loved ones are quickly notified, providing them with critical updates and alleviating concern during a stressful time.

Perfect For

Motorcyclists • Road Warriors •
Adventure Riders • Daily
Commuters • Anyone seeking
enhanced safety on two wheels.

Universal Compatibility & Security

- Compatible with virtually all Android and Apple smartphones that support NFC technology.
- Your personal and medical information is stored
- securely on the tag itself, not on any external server or scanning device, ensuring utmost privacy.
- Data is viewable only at the exact moment of scanning, ensuring control over your sensitive details.

SCAN ME SAVE ME™ EMERGENCY NFC TAG

Store critical life-saving information that can make all the difference when every second counts. Your Scan Me Save Me tag can securely provide access to important details such as:

- DNR (Do Not Resuscitate)
- PACEMAKER (Device Information)
- MEDICAL INSURANCE (Medical Aid Details)
- EMERGENCY CONTACTS (Family & Loved Ones)
- MEDICATIONS & ALLERGIES (Medications, Allergies)
- AND MUCH MORE (Conditions, Blood Type & More)

Built for everyday life, the durable NFC tag is water-resistant, battery-free, maintenance-free, and always ready when needed.

DURABLE & WATER-RESISTANT (Built to last) | **NO BATTERIES EVER** (Always ready) | **NO APP NEEDED ON ANDROID** (Just tap and read) | **APPLE USERS** (Free NFC reader app available)

ANDROID No app needed. Just tap your NFC-enabled Android phone to read instantly.

APPLE Use any free NFC reader app from the App Store to read the tag.

PEACE OF MIND EVERY DAY

THE POWER OF A SCAN – FOR SENIORS

(Pin, straight or through, 30mm Tags)

Independence With Peace Of Mind

The Scan Me Save Me NFC Emergency Tag provides a vital layer of safety and confidence for seniors, allowing them to maintain their independence while ensuring help is always within reach. Designed as a discreet 30mm tag, it can be worn as a brooch or attached to personal items. If a senior becomes confused, disoriented, or needs assistance, any good Samaritan can simply tap their NFC-enabled smartphone on the tag. This instant scan securely displays crucial medical details and emergency contact information, facilitating immediate and appropriate support.

How It Works: A Simple Safety Net *for Seniors*

Wear

Scan

Access

Help

Notified

This seamless process ensures that in moments of vulnerability, critical information is accessible, and loved ones are quickly alerted, providing true peace of mind for both seniors and their families.

Key Benefits for Seniors

- **Stay Safe On The Go:** Maintain an active and independent lifestyle with the confidence that help is always at hand.
- **Critical Medical Information:** Instantly provides first responders with essential details like allergies, conditions, medications, and blood type.
- **Instant Access:** Information appears within seconds on any NFC-enabled smartphone; no special apps or internet connection required for the rescuer.
- **Emergency Contact Notification:** Designated family members or next of kin are immediately notified when the tag is scanned.

Universal Compatibility & Security

- Compatible with virtually all Android and Apple smartphones that support NFC technology.

Peace Of Mind For The Ones You Love Most.

In a world where every parent's biggest fear is losing their child, the Scan Me Save Me NFC Emergency Brooch Tag offers a powerful solution. Designed with care, this discreet 30mm brooch tag empowers children with a silent guardian, ensuring their safety and your peace of mind. Whether at a crowded park, a busy mall, or an unfamiliar place, should your child become lost or need assistance, any kind individual with an NFC-enabled smartphone can simply tap the brooch to instantly access crucial medical details and emergency contact information. This immediate access facilitates swift action and helps ensure a safe reunion.

How It Works: A Child's Safety Journey

This thoughtful process ensures that in moments of vulnerability, critical information is accessible, empowering helpers and expediting contact with loved ones. It provides a seamless safety net, allowing children to explore their world with a little extra protection, and parents to breathe a little easier.

Key Benefits for Your Child

- **Stay Safe Every Day:** Vital information is available in seconds, directly from your child's brooch, when it matters most.
- **Critical Medical Information:** Instantly provides first responders with essential details like allergies, specific conditions, or medications, even if your child is unable to communicate.
- **Instant Access:** Information appears within seconds on any NFC-enabled smartphone – no special apps or internet connection required for the rescuer.
- **Emergency Contact Notification:** Designated parents or guardians are quickly notified, providing them with critical updates and alleviating concern during a stressful time.

Because Their Safety Means Everything.

Universal Compatibility & Security

- Compatible with virtually all Android and Apple smartphones that support NFC technology.
- Your child's personal and medical information is stored securely on the tag itself, not on any external server or scanning device, ensuring utmost privacy.
- Data is viewable only at the exact moment of scanning, ensuring control over sensitive details.

Perfect For

Parents • Families • Children with specific medical conditions • School trips and outings • Anyone prioritizing child safety and rapid emergency response.

Peace Of Mind On Every Journey.

For the millions who navigate daily commutes by public transport or personal vehicle, unexpected emergencies can strike at any moment. The Scan Me Save Me NFC Emergency Brooch Tag offers a crucial layer of protection, designed specifically for the fast-paced, often anonymous environment of a daily journey. This discreet 30mm brooch provides peace of mind, ensuring that if you suddenly feel unwell, become disoriented, or are involved in an incident, vital medical information and emergency contacts are immediately accessible. It's a small, powerful tool for ensuring your well-being, even when you cannot speak for yourself.

This streamlined process empowers everyday heroes to provide immediate assistance, bridging the gap between an incident and professional help. By making crucial information instantly available, the NFC tag ensures that every second counts towards a faster, more effective response, ultimately safeguarding commuters when they are most vulnerable.

The Power of a Scan – In Motion

Be Prepared. Ride Protected. Every Second Matters.

For cyclists, the open road brings freedom, but also unforeseen risks. Whether it's a casual ride in the park, an intense mountain biking trail, or a long-distance road trip, incidents can occur when you least expect them, potentially leaving you incapacitated and unable to communicate vital information. The Scan Me Save Me NFC Cyclist Safety Tag provides a critical layer of personal protection, ensuring that even in remote locations or during solo rides, your essential medical details and emergency contacts are immediately accessible to anyone with a smartphone. This small, discreet 25mm tag, designed to fit seamlessly under your helmet, acts as a silent guardian, empowering helpful bystanders and first responders to provide immediate and informed care when every second truly counts.

How It Works: Your Roadside Lifeline

25mm soft
Helmet Tag or bike tag

This straightforward process ensures that in critical moments, the information needed to assist you is literally at hand. By empowering anyone with an NFC-enabled smartphone to instantly access your pre-loaded emergency data, the tag bridges the gap between an incident and professional help, facilitating a faster, more effective response, and ultimately safeguarding your well-being on every ride.

Key Benefits for Your Ride

- **Stay Safe On The Go:** Your vital information is available in seconds, directly from your helmet tag, precisely when you need it most during an incident.
- **Critical Medical Information:** Instantly provides first responders and helpful bystanders with essential details like allergies, pre-existing conditions, and medications, even if you are unconscious or unable to communicate.
- **Instant Access:** Information appears within seconds on any NFC-enabled smartphone – no special apps or internet connection required for the rescuer.
- **Emergency Contact Notification:** Your loved ones are quickly notified, receiving critical updates and alleviating their concern during a stressful situation.

The Power of a Scan For Loved Ones Living With Memory Loss

Dignity. Safety. Peace Of Mind.

How It Works: A Caring Connection

Supporting people with memory loss, dementia or Alzheimer's.

(Pin, straight or through, 30mm Tags)

For individuals living with memory loss, such as those with Dementia or Alzheimer's, navigating the world can present unique challenges. Moments of disorientation or wandering can lead to anxiety and danger, both for the individual and their families. The Scan Me Save Me NFC Emergency Pin Tag offers a vital solution, providing a discreet yet powerful means of protection.

This small, elegant pin, easily worn on clothing or accessories, ensures that if a loved one becomes lost or needs assistance, their critical medical information and emergency contacts are immediately accessible to anyone with an NFC-enabled smartphone. It acts as a silent guardian, helping caring bystanders facilitate a safe and swift reunion, preserving dignity and providing invaluable peace of mind to families.

Because Every Moment Of Care Brings Us Home.

This simple yet effective process ensures that in critical moments, the information needed to assist your loved one is literally at hand. By empowering anyone with an NFC-enabled smartphone to instantly access pre-loaded emergency data, the tag bridges the gap between a moment of confusion and professional help, facilitating a faster, more effective response, and ultimately safeguarding your loved one's well-being.

Key Benefits for Your Loved Ones

- **Stay Safe For Every Step:** Your loved one's vital information is available in seconds, directly from their discreet pin, providing a crucial safety net in moments of disorientation.
- **Critical Medical Information:** Instantly provides first responders and helpful bystanders with essential details like allergies, pre-existing conditions, and medications, even if your loved one is unable to communicate.
- **Instant Access:** Information appears within seconds on any NFC-enabled smartphone – no special apps or internet connection required for the rescuer.

BECAUSE THEY'RE FAMILY
BRING THEM HOME

The Power of a Scan – For Pets

Because Every Pet Deserves To Come Home.

For pet owners, few moments are more terrifying than realizing a beloved companion has gone missing. Whether it's a curious cat wandering too far, or a playful dog getting disoriented during a walk, the fear of not knowing where they are, or if they're safe, is profound. Traditional tags can be hard to read or outdated, and microchips require specialized scanning equipment. The Scan Me Save Me NFC Tag offers a modern, instant solution, providing a direct link between a lost pet and their anxious owner. This discreet, durable, and waterproof tag attaches easily to any collar, ensuring that if your pet is ever found by a kind stranger, vital information is just a tap away. It's about empowering your furry family members with the best chance of a swift and safe return, transforming moments of panic into reunions of joy.

How It Works: Your Pet's Path Home

1 Pet Missing
Pet becomes separated from its owner.

2 Finder Locates Pet
A caring person finds the pet and checks the collar.

3 Tag Scanned
The NFC tag is tapped using any smartphone with NFC enabled.

4 Owner & Info Shown
Owner details and important pet information appear instantly.

5 Owner Notified
The owner is contacted and reunited with their pet.

Owner Notified

Happy Reunion

This intuitive process ensures that in critical moments, when your pet needs help most, the necessary information is literally at hand. By empowering any good Samaritan with an NFC-enabled smartphone to instantly access pre-loaded owner and medical data, the tag bridges the gap between a lost pet and their loving family, bringing peace of mind to both.

Why Scan Me Save Me is Essential for Every Pet Owner

Perfect For

Pet owners, dog owners, cat owners, and any animal lover who wants to provide an extra layer of security and a faster path home for their cherished companions.

Key Benefits for Your Peace of Mind

- Peace of Mind For You and Your Pet:** Your pet's vital information is available in seconds, directly from their discreet 30mm NFC Tag, providing a crucial safety net should they ever wander.
- Comprehensive Pet & Owner Information:** Instantly provides helpful individuals with essential details like your contact information, vet contacts, and critical medical history (allergies, medications, pre-existing conditions) for your pet.
- Instant Access, No Barriers:** Information appears within seconds on any NFC-enabled smartphone – no special apps or internet connection required for the rescuer, making it incredibly easy for anyone to help.
- Immediate Owner Notification:** You're alerted immediately when your pet's tag is scanned, receiving critical updates and alleviating concern during a stressful situation, knowing your pet has been found.

**Because They're Family.
Bring Them Home Every Day.**

Universal Compatibility & Security

- Universal Compatibility:** Works seamlessly with virtually all Android and Apple smartphones that support NFC technology, making it accessible to a wide network of potential helpers.

EVERY RUN MATTERS.
WE'VE GOT YOUR BACK.

The Power of a Scan – For Runners

Run With Confidence. Peace Of Mind With Every Mile.

This small, discreet, and ultra-durable 30mm pin is waterproof and weatherproof, designed to withstand the rigors of any run. Easily attachable to clothing or gear,

For runners, every stride is a step towards a healthier lifestyle, but it also carries inherent risks. Whether it's an unexpected medical emergency, an injury on a remote trail, or simply getting disoriented, being alone and vulnerable can be terrifying. Traditional ID bracelets often have limited space for critical information, and carrying a phone might not always be feasible or safe. The Scan Me Save Me NFC Pin offers a cutting-edge solution, ensuring that vital medical details and emergency contacts are always accessible, even when you can't speak for yourself. This discreet, durable, and waterproof pin attaches easily to your running gear, providing an instant lifeline for good Samaritans to connect you with help, transforming moments of crisis into swift, effective assistance.

How It Works: Your Lifeline On Every Run

One tap. Instant help. Peace of mind.

1 Runner Injured

A runner experiences a medical emergency or gets injured during their run.

2 Good Samaritan Assists

A fellow runner notices the emergency and sees the Scan Me Save Me brooch on the runner's vest.

3 NFC Tag Scanned

The Scan Me Save Me brooch is tapped using any NFC-enabled smartphone.

4 Information Appears

Important medical details, conditions and emergency contacts appear instantly on the screen.

5 Help Arrives

Emergency contacts are notified and help arrives faster so the runner gets the care they need.

Your Safety Net On The Go

This intuitive process ensures that in critical moments, when you need help most, the necessary information is literally at hand. By empowering any good Samaritan with an NFC-enabled smartphone to instantly access pre-loaded medical and emergency contact data, the pin bridges the gap between an injured or unwell runner and rapid, informed assistance, bringing peace of mind to both you and your loved ones.

Every Run Matters. We've Got You.

One Tap Can Save A Life.

Key Benefits for Your Peace of Mind

- **Peace of Mind With Every Stride:** Your vital information is available in seconds, directly from your discreet 30mm NFC Pin, providing a crucial safety net should you ever face an emergency during your run.
- **Comprehensive Medical Information:** Instantly provides helpful individuals with essential details like allergies, current medications, pre-existing conditions, and any other critical health history, allowing for appropriate care.
- **Instant Access, No Barriers:** Information appears within seconds on any NFC-enabled smartphone – no special apps or internet connection required for the rescuer, making it incredibly easy for anyone to help, anywhere.
- **Immediate Emergency Contact Notification:** Your designated loved ones are alerted immediately when your pin is scanned, receiving critical updates and alleviating concern during a stressful situation, knowing you've been found.

Perfect For

Runners, joggers, marathon runners, trail runners, fitness enthusiasts, and anyone who enjoys outdoor activities and wants to ensure their safety and the peace of mind of their loved ones during their adventures.

Universal Compatibility & Security

- **Universal Compatibility:** Works seamlessly with virtually all Android and Apple smartphones that support NFC technology, making it accessible to a wide network of potential helpers on your running routes.
- **Private & Secure Data Storage:** Your personal and medical information is stored securely on the pin itself, not on any external server or scanning device, ensuring utmost privacy and control over sensitive details.
- **Data On-Demand:** Information is viewable only at the exact moment of scanning, ensuring complete control over sensitive details, and no data is tracked or stored elsewhere after the scan.

SCAN ME SAVE ME™ EMERGENCY NFC TAG

The Power of a Scan For Tourists

*Explore With Confidence.
Travel With Peace Of Mind.*

For tourists, navigating new environments bring excitement but also potential challenges. Whether it's an unexpected illness in a foreign city, an injury on a hiking trail, or simply getting lost without a way to communicate, being away from home can make vulnerability feel amplified. Language barriers, unfamiliar emergency procedures, and limited access to critical personal information can turn a minor incident into a major crisis. The Scan Me Save Me NFC Pin offers a reliable solution, ensuring that vital medical details and emergency contacts are always accessible, transforming moments of uncertainty into swift, informed assistance, no matter where your adventures take you.

How It Works: Your Global Safety Net

One Tap. One Scan. One Lifeline. Help is always within reach.

This intuitive process provides a vital safety net for any traveler. In critical moments, when language barriers or confusion might delay aid, the pin empowers any helpful individual with an NFC-enabled smartphone to instantly access pre-loaded medical and emergency contact data. This bridges the gap between a tourist in need and rapid, informed assistance, bringing peace of mind to both you and your loved ones back home.

Why Scan Me Save Me is Essential for Every Tourist

Key Benefits for Your Peace of Mind

- **Peace of Mind Wherever You Go:** Your vital information is available in seconds, directly from your discreet 30mm NFC Pin, providing a crucial safety net should you ever face an emergency while abroad.
- **Comprehensive Medical Information:** Instantly provides helpful individuals with essential details like allergies, current medications, pre-existing conditions, and any other critical health history, allowing for appropriate care even without a common language.
- **Instant Access, No Barriers:** Information appears within seconds on any NFC-enabled smartphone – no special apps or internet connection required for the rescuer, making it incredibly easy for anyone to help, anywhere in the world.
- **Immediate Emergency Contact Notification:** Your designated loved ones are alerted immediately when your in is scanned, receiving critical updates and alleviating concern during a stressful situation, knowing you've been found.

Perfect For

Tourists, travelers, backpackers, international visitors, and anyone exploring new destinations who wants to ensure their safety and the peace of mind of their loved ones during their adventures.

Universal Compatibility & Security

- **Universal Compatibility:** Works seamlessly with virtually all Android and Apple smartphones that support NFC technology, making it accessible to a wide network of potential helpers on your travels.
- **Private & Secure Data Storage:** Your personal and medical information is stored securely on the pin itself, not on any external server or scanning device, ensuring utmost privacy and control over sensitive details.
- **Data On-Demand:** Information is viewable only at the exact moment of scanning, ensuring complete control over sensitive details, and no data is tracked or stored elsewhere after the scan.

Enjoy Your Journey. We've Got Your Back.

TRUCKERS LOOK OUT FOR EACH OTHER. TOGETHER WE SAVE LIVES.

The Power of a Scan For Every Truckers Journey

Drive Safe. Stay Informed. Save Lives.

For truckers and long-haul drivers, every mile brings potential risks. The solitude of the road, long hours, and unexpected medical events can turn a routine trip into an emergency far from home. In critical situations, the ability to quickly communicate vital health information and notify loved ones can be life-saving. The Scan Me Save Me NFC Emergency Adhesive tag for dashboards or brooches for the driver provides a crucial safety net, ensuring that even when a driver can't speak for themselves, their essential information is accessible to those who can help, transforming moments of vulnerability into swift and informed assistance.

How It Works: Your Roadside Safety Net

— TRUCKERS LOOK OUT FOR EACH OTHER. TOGETHER WE SAVE LIVES. —

SCAN ME SAVE ME FOR TRUCKERS

ONE TAP. ONE SCAN. ONE LIFELINE.

This streamlined process empowers anyone to provide immediate, informed assistance. In critical moments, when speech might be impossible or time is of the essence, the pin allows a helpful individual with an NFC-enabled smartphone to instantly access pre-loaded medical data and emergency contacts. This ensures the driver receives appropriate care and their loved ones are quickly notified, bringing peace of mind to everyone involved.

Key Benefits for Your Journey

- **Peace of Mind Behind the Wheel:** Your vital information is available in seconds, directly from your discreet 30mm NFC Pin, providing a crucial safety net should you ever face an emergency on the road.
- **Comprehensive Medical Information:** Instantly provides helpful individuals with essential details like allergies, current medications, pre-existing conditions, and any other critical health history, allowing for appropriate care when you're unable to communicate.
- **Instant Access, No Barriers:** Information appears within seconds on any NFC-enabled smartphone – no special apps or internet connection required for the rescuer, making it incredibly easy for anyone to help, anywhere.
- **Emergency Contact Notification:** Your designated loved ones are alerted immediately when your pin is scanned, receiving critical updates and alleviating concern during a stressful situation.

Perfect For

Truckers, long-haul drivers, delivery drivers, fleet operators, and anyone whose profession keeps them on the road for extended periods, ensuring their safety and the peace of mind of their loved ones during their journeys.

Secure, Private & Universal

- **Universal Compatibility:** Works seamlessly with virtually all Android and Apple smartphones that support NFC technology, making it accessible to a wide network of potential helpers on your travels.
