About Us

Tripod Home is a family run business established in 1998 by Myles and Jacqui Podmore. Myles was already importing, for many years, all manner of crafts from various countries in Asia and Jacqui an award winning furniture designer.

The company has grown over the years as a wholesale company well known in the industry for supplying something a bit different. We strive to continue to introduce interesting and creative pieces for the home and garden.

All our staff are committed to bringing you the best quality products possible in the most efficient and reliable way possible.

Tripod Home are based in the South West of England in a village on the coast of the Severn Estuary. Also less than 10 minutes drive from the M5, Tripod Home is both in the sticks and easily accessible.

Our staff find the country location really inspiring. Our wholesale warehouses are right next to a popular fishing lakes.

We have supplied the furniture for various large projects including the BeWILDerwood in Norfolk, Alnwick Garden Tree House in Northumbria and The Tsavo Cafe in Chester Zoo. Our latest project is the sourcing of authentic everyday items from Asia for the islands project at Chester Zoo

We are passionate about quality, be it in the products we supply or the service we provide. We are committed to taking this philosophy into all aspects of our business whether it is finding and dealing with our staff, suppliers, customers or projects.

With **Tripod Home** you know we are working hard for you.
