

Friends of the Dovecote

Urgent Village Hall Meeting Tuesday 11th August 2026

Substantial cracks have appeared in the Clifton Village Dovecote brickwork. After meeting specialist Heritage Builders, we now know that urgent work is required to prevent further deterioration.

We invite all interested residents to join a focus group exploring how we can help preserve this important village landmark:

- **Urgently:** Support essential immediate work to keep the building safe and intact for future generations.
- **Longer term:** Consider future community use of the building as a shared local resource.

7.00 pm – Brief look inside the Dovecote (open until 7.25 pm).

7.30 pm – Discussion at the Village Hall on the Dovecote, its condition, and possible fundraising for urgent work

There will be a short update on CVRA activity over the past 7 years, the current relationship with Nottingham City, and the present condition of the building.

Your help and involvement would be greatly appreciated.
