

# STRAIGHT HANDPIECE

The Being Foshan Tornado Straight Handpiece is a precision-engineered E-type low-speed handpiece designed for reliable performance in dental laboratories and clinical procedures. Featuring a 1:1 gear ratio and an external cooling system, it ensures smooth operation, controlled speed, and efficient cutting performance. Its durable construction and ergonomic design provide stability and comfort during extended procedures.

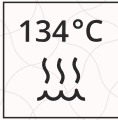

# Key Features

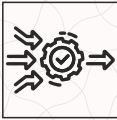

1:1 Gear Ratio  
Transmission

External Cooling  
System

134°C  
Autoclavable  
Construction

Smooth & Efficient  
Operation

# Clinical Applications

- ⬆ Finishing and Polishing
- ⬆ Crown and Bridge Adjustments
- ⬆ Dental prosthetic adjustments

| Technical Specification – Tornado Straight Handpiece |                                   |
|------------------------------------------------------|-----------------------------------|
| Product Type                                         | Straight Handpiece                |
| Handpiece Type                                       | E-Type Low-Speed Handpiece        |
| Gear Ratio                                           | 1:1                               |
| Cooling System                                       | External Cooling                  |
| Rotation Speed                                       | 22,000 – 27,000 rpm               |
| Air Pressure                                         | 245 – 392 KPa (2.5 – 4.0 kgf/cm²) |
| Water Pressure                                       | 198 Kpa (2 kg)                    |
| Applicable Bur Diameter                              | Ø 2.334 – 2.355 mm                |
| Noise Level                                          | ≤ 70 dB                           |
| Sterilization                                        | Autoclavable up to 135°C          |
| Body Material                                        | High-Quality Stainless Steel      |
