While treated water is safe enough to drink straight from the tap, old and rusted pipes can compromise the quality of water received. Rusted pipes have a potential of causing contamination when soil, mud, rust and bacteria enters the pipeline.

Additionally, sediment buildup in home water tanks that are not regularly cleaned can also lead to contamination.

Inorganic contaminants

Radioactive elements

Bacteria & viruses

Microbial Pathogens

Taste the difference, feel the health

Removes chlorine, heavy metals, organic and inorganic contaminants.

Increase alkalinity level of water.

Removes **over 180** contaminants as small as 0.002 micron.

*Maximum wattage of 1000 watts. Stay near the microwave and listen carefully to the popping. Once the popping slows down to 2 seconds between pops, STOP the microwave.

How to make a perfect popcorn:

1
Add kernels to the silicone bowl. Never overfill the Glass insert tray with kernels.

2
Place the Vent & Shake Lid on the bowl in the vented cooking with holes on the base.

3
Place it in the microwave, set your microwave to 3 minutes*.

4
Shake out the unpopped kernels.

5
Ready to serve.

ICE CREAM SCOOP

Comfortable Grip: The soft-touch handle ensures a secure, non-slip hold for both right-handers and left-handers, making scooping easy and enjoyable.

Versatile Use: Besides ice cream, the scoop can be used for scooping out watermelon, cantaloupe, pumpkin, cookie dough, and more, making it a versatile kitchen tool.
