WHAT'S ON CAMPUS

With millions spent on the campus in recent years and more than £10 million being spent on a major redevelopment right now, there has never been a better time to study with us. Well-equipped facilities and cutting-edge virtual reality technology support our students' journeys to their chosen careers.

- Cutting-edge virtual reality equipment
- Fully equipped gym, 3G pitch and sports hall
- Hair and beauty salon
- Exceptional professional training kitchens
- Dedicated student support services
- Wide choice of food options, including Costa Coffee
- Main bus routes between Penzance and Truro passing the campus – buses every 10 minutes
- NEW Hospitality and Mining Academies
- Designated bike shelters, parking, and electric car charging
- Go beyond your course with varied student enrichment options

TOUR THE CAMPUS

Pick your pathway

We have lots of different courses to choose from, but how do you know which is the right one for you?

Don't worry, we can help you narrow down the option that is best suited to you. Here's a quick rundown of the different pathways on offer.

Technical and Vocational programmes

What are they?

- They typically last between one and three years and lead to qualifications such as vocational certificates, diplomas or extended diplomas
- They focus on the practical skills and knowledge linked to a range of subjects, such as art and design, business, health and social care, engineering and many others
- They are offered at different levels depending on your experience
- You'll be assessed through coursework, practical observations, and external exams
- After completion, you can either progress to a higher level study programme, enter the world of work or move on to study at university level

Choose this if...

- You're looking for work skills to enter a particular industry, such as healthcare or construction
- You learn best by getting hands-on
- You want to progress to the workplace, further study or onto university

T Levels

What are they?

- T Levels last two years and are centred on one subject
- They focus on vocational skills linked to the specific career path you've chosen
- One T Level is the equivalent of three A Levels and has UCAS points, which support applications to higher education
- They combine college study with a significant industry placement working with a real employer

Choose this if...

- You already know what job you want to do
- You want to get practical, knowledge-based learning and on-the-job experience
- You want to progress to the workplace, further study or onto university

T-LEVELS

Apprenticeships

What are they?

- An apprenticeship lets you gain work-based skills while earning a real salary
- The majority of the time will be spent learning on-the-job with an employer, with additional training at college
- You'll be assessed at both college and in your workplace

Choose this if...

- You already know what job you want to do
- You prefer to learn in the workplace rather than the classroom
- You want a professional qualification to support your work experience
- You want to earn while you learn

APPRENTICESHIPS

Course levels and entry requirements

It is important to choose the correct level of course after your GCSEs. The choices available to you will depend on whether you meet the entry requirements, how you like to study and what you would like to do after your time with us.

Please use the table opposite as a general guide to our entry requirements. Some courses may require further specific qualification grades due to the nature of their content. Acceptance on a course will also depend on a successful interview.

Please note:

- Some specialist courses may have extra entry requirements; please see website for details
- If you are considering taking on an apprenticeship, we'll ask you to complete an initial assessment in English and Maths, along with a Skills Scan. This will help us to determine your current skills and knowledge, and choose the right level of apprenticeship for you
- If you do not achieve your expected grades, please don't panic. Contact us, and we will help you find an alternative course, normally in the same subject area of interest

WHAT LEVEL IS RIGHT FOR ME?

Entry level

Study Options: Entry Level qualifications
Typical Entry Requirements: No formal qualifications are required
Progression: Next Entry Level or Level 1 course

Level 1

Study Options: Level 1 qualifications, including certificates and diplomas
Typical Entry Requirements: Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification
Progression: Level 2 course, an apprenticeship or employment

Level 2

Study Options: Level 2 qualifications, including diplomas and apprenticeships
Typical Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification
Progression: Level 3 course, an apprenticeship or employment

Level 3

Study Options: Level 3 qualifications, including diplomas, apprenticeships and T Levels
Typical Entry Requirements: Four or more GCSEs at Grade 4 or above including English and/or Maths, or successful completion of a relevant Level 2 qualification and a grade 4 or above in English and/or Maths
Progression: University study, an apprenticeship or employment

Enrichment

There's more to explore on our campus with our diverse enrichment programme. Alongside your studies, you'll be able to discover new interests, develop valuable life skills, boost your CV and prepare for your next steps.

Depending on the enrichment you choose, you can pick a new activity each term, stick with something you love or take on a longer project like a Duke of Edinburgh Award.

Other enrichment can be purely about having fun, being social and meeting new people while trying something you've never done before. And if you can't see something that interests you, you might even get the chance to start something brand new.

Skills and Experiences

- Content creation
- Duke of Edinburgh Award
- Environment and litter picking
- LGBTQ+ Forum
- Travel and culture awareness

FIND OUT MORE

Clubs, Sport and Wellbeing

- Art for wellbeing
- Badminton Club
- Girls' Football with Plymouth Argyle
- Female weightlifting
- Photography Club
- Pokémon Club
- Rugby Academy
- Surf Club
- Skate Club
- The Creative Cafe
- Zumba & Aerobics

Careers and Progression

- Careers and employability
- Industry experiences and networking
- Interview skills
- Leadership opportunities
- Students' Union
- Study support
- University preparation

Whether you want to enhance your academic success, stand out when applying for university, apprenticeships and employment, gain confidence, or simply follow your passions, we have an enrichment opportunity for you.

Automotive & EV Technologies

Technical and vocational study	Level
Light Vehicle Maintenance & Repair Diploma	**Level 1** **Level 2** **Level 3**

Gain practical skills in the automotive industry in an industry-style workshop, learning how vehicle systems work, and diagnosing faults.

Vehicle Fitting Diploma **Level 2**

Build your knowledge of servicing vehicles and replacing parts, while gaining employer-ready skills in our industry-standard workshops.

Heavy Vehicle Maintenance & Repair Diploma **Level 2**

Get hands-on experience working on vehicles over 7.5 tonnes, learning about major systems, and how to remove and refit components.

Aerospace & Aviation Engineering Diploma **Level 2**

With a strong focus on safety, as well as hands-on airframe skills, this is the perfect pathway into the aerospace and aviation industries.

SEE OUR FULL RANGE OF COURSES

Apprenticeships

Level

Light Vehicle Service & Maintenance Technician — **Level 3**

Build skills across vehicle systems and use diagnostic equipment while gaining knowledge through staged learning in the workplace.

Heavy Vehicle Service & Maintenance Technician — **Level 3**

Build confidence diagnosing and fixing major systems in HGVs and modern fleet vehicles, with a combination of college-based study and real workplace experience.

Aircraft Maintenance Technician — **Level 3**

Learn about aircraft systems, safety and maintenance with a mixture of college-based study and workplace learning.

JAYDEN THOMAS

Aerospace & Aviation Engineering Diploma Level 2 alumni

"I enjoyed the practical work, such as the use of hand tools and seeing parts of helicopters."

Business

T Levels — Level

Business (Team Leadership & Management) — Level 3
Develop the core knowledge and skills that are needed for entry to a range of management and administration occupations.

Accounting — Level 3
Gain the skills you need to begin a career in accounting, including understanding financial principles, professionalism and ethics, and using analytics to drive innovation.

Apprenticeships — Level

Content Creator — Level 3
Learn how to create digital content across social media, video, audio and online platforms.

SEE OUR FULL RANGE OF COURSES

BEN SIMPSON

Digital Support Technician Apprenticeship Level 3

"I'm currently an Apprentice Service Desk Analyst for King's College London, and it's just great to be able to learn while working in that role, as I love doing anything IT or technical related."

Childcare, Schools & Education

Technical and vocational study — Level

Caring for Children Diploma — **Level 1**
Gain an understanding of the skills, knowledge and personal qualities required to care for young children.

Education and Early Years Foundation Certificate — **Level 2**
Build the academic skills and the confidence to work in early years and primary school settings.

Early Years Practitioner Occupational Certificate — **Level 2**
Study key themes like child development, play legislation and wellbeing while building professional practice standards.

T Levels — Level

Assisting Teaching — **Level 3**
Learn core teaching assistance knowledge and then put it into practice with a 45-day placement across a school or early years setting.

Early Years Educator — **Level 3**
Develop the skills to plan, deliver and review play and early years education, ending in a 45-day placement.

SEE OUR FULL RANGE OF COURSES

Apprenticeships — Level

Early Years Practitioner — Level 2
Work and interact directly with children on a day-to-day basis, supporting the planning of and delivery of activities.

Early Years Educator — Level 3
Build an understanding of child development and safeguarding with structured training and support within a real business.

EVIE GRIGG

Early Years Educator T Level Level 3

"I chose to study at Cornwall College because the Ofsted rating was fantastic and it seemed like a good opportunity for me. My favourite thing is the lovely people and great teachers on my course."

Building

Technical and vocational study — Level

Construction Multiskills Diploma (Bricklaying, Carpentry & Plumbing) — Level 1

Try carpentry, bricklaying and plumbing to see which direction you'd like to take, while using industry-standard facilities and workshops.

Bricklaying Diploma — Level 1, Level 2

Gain a practical introduction to a range of bricklaying skills – with an emphasis on site safety and expectations – at a level that suits you.

Apprenticeships — Level

Bricklaying — Level 2

Develop essential skills – from block work to arches – and advance your knowledge of the bricklaying industry while working on a real building site.

Plastering — Level 2

Build site-ready plastering skills, including solid plastering and dry lining, and use them on real-life projects.

SEE OUR FULL RANGE OF COURSES

Carpentry & Joinery

Technical and vocational study

Level

Construction Multiskills Diploma (Bricklaying, Carpentry & Plumbing) — **Level 1**
Try carpentry, bricklaying and plumbing to see which direction you'd like to take, while using industry-standard facilities and workshops.

Carpentry & Joinery Diploma — **Level 1**
Explore both carpentry and bench joinery, learning core skills and safe tool use, before choosing your focus of study.

Site Carpentry Diploma — **Level 2**
Learn real construction methods while building your own timber frame house.

Apprenticeships

Level

Architectural Joinery — **Level 2 Level 3**
Earn while you learn on this apprenticeship, producing and installing high-quality timber components, at a level to suit you.

Site Carpentry — **Level 2**
Build site carpentry skills, working on real tasks – from floors to roofs – with a real construction company.

Wood Product Manufacturing Operative — **Level 2**
Build practical core skills like reading technical diagrams, operating workshop machinery and preparing timber materials.

Craft Carpentry & Joinery — **Level 3**
Combine classroom learning with practical on-the-job training to develop the skills needed to create, install and repair complex and decorative wooden components.

Electrical

Technical and vocational study	Level
Electrical Installation Diploma	Level 1 Level 2 Level 3

Build the practical problem-solving abilities employers expect – from work inspection testing and fault diagnosis – at a level that works for you.

Apprenticeships	Level
Installation & Maintenance Electrician	Level 3

Qualify to work as an installation or maintenance electrical engineer while earning a real wage.

TAOMI CARPENTER

Electrical Installation Diploma Level 2

"I chose Cornwall College because the course seemed very professional and welcoming, with excellent facilities and impressive individual work bays. I believed it was the best college to get me through the course I wanted."

Furniture Making

Technical and vocational study	Level
Furniture, Furnishings & Interiors Diploma	**Level 2**

Learn everything from restoring furniture to designing upholstery and managing furniture production in a workshop.

Furniture Design & Making Diploma	**Level 3**

Learn how to plan, cost, and build quality furniture using a range of hand tools and modern power tools.

Apprenticeships	Level
Furniture Manufacturer	**Level 2**

Build core skills developing products and making furniture in a real workplace, earning a real wage.

SEE OUR FULL RANGE OF COURSES

Plumbing

Technical and vocational study — Level

Construction Multiskills Diploma (Bricklaying, Carpentry & Plumbing) — Level 1

Try carpentry, bricklaying and plumbing to see which direction you'd like to take, while using industry-standard facilities and workshops.

Plumbing Diploma — Level 1, Level 2, Level 3

Work on domestic installation and maintenance of sanitation and drainage systems using industry-standard equipment, at a level to suit you.

Plumbing & Heating Diploma — Level 2

Learn the essential skills and knowledge needed to install hot and cold heating systems, along with sanitation and drainage systems.

Apprenticeships — Level

Gas Engineering — Level 3

Gain a deep understanding of gas appliances and safety, and apply these skills while working for a real business.

Low Carbon Heating Technician — Level 3

Learn to plan, install, commission, service and repair modern heating and hot water systems, and apply your learning on real jobs.

Plumbing & Domestic Heating Technician — Level 3

Learn how to plan, install, commission, service and repair modern heating and hot water systems in residential properties.

Property Maintenance, Surveying and Groundworks

SEE OUR FULL RANGE OF COURSES

Apprenticeships

	Level
Property Maintenance Operative	**Level 2**

Develop multi-trade maintenance skills, including carpentry, plumbing, plastering, tiling and basic electrics.

	Level
Groundworker	**Level 2**

Develop core groundworks skills used from start to finish on real-life projects.

T Levels

	Level
Design, Surveying & Planning	**Level 3**

Gain the technical knowledge and real industry experience to launch a career in architecture, surveying or civil engineering with this T Level.

Cookery, Hospitality & Tourism

Technical and vocational study — Level

CORNWALL COLLEGE RUGBY ACADEMY

The Academy is open to all students, regardless of what course they are studying. It provides structured weekly coaching led by qualified rugby professionals, strength and conditioning support, match and training analysis, and workshops covering performance behaviours, leadership, and wellbeing.

LAURA HARVEY

Progression Pathway

"I enjoy spending time with the friends I've made and learning life skills like shopping, cooking and gardening."

Supported Learning & Progression Pathways

SEE OUR FULL RANGE OF COURSES

Prepare for adulthood, independence and the world of work with our Progression Pathways courses. Whether you want to gain the skills to live independently, boost your confidence, or gain guidance on what career to follow, we can help you.

Technical and vocational study

Developing Personal Independence
Grow independence, confidence and resilience for adult life, such as shopping, cooking and travel.

Developing Progression Skills
Build communication, teamwork, problem solving, and employability skills through vocational tasters.

Vocational Studies
Try different vocational areas and build the skills to progress onto a Level 2 course.

Preparing for Employment
Build confidence and workplace skills through placements, projects and employability support.

Supported Internships
Work towards paid employment through a supported placement with job coach help and college-based training.

Project SEARCH
A full-time supported internship with four days a week at a Cornwall Council placement and one day at college.

Supporting you at college

Transport

If you are aged 16-18, and need help with transport to college, it's really important to apply for your bus pass during the months of June and July. This will guarantee that you'll have your pass in time for the start of term in September.

Depending on where you live, your bus pass could be provided by Cornwall Council, Devon Council or through the College's own transport network.

We do have bursaries available that can support eligible learners with the cost of travel. If you have any questions about travelling into college, please email bursaries@cornwall.ac.uk

FE Bursary funding

If you are under 19 years old on 31 August, your course won't cost you anything. For students aged 19 and over who may have to pay fees towards their tuition, guidance is available.

We offer a FE Bursary to support eligible students financially with access to transport, childcare, equipment and free college meals. If you have any further questions regarding financial support with your studies, please email bursaries@cornwall.ac.uk

Student Support

The College provides a supportive learning environment focused on student success and personal growth. Engagement and Progression Officers (EPOs) help with academic and personal challenges, and staff in learning centres offer study support and resources.

Students can take part in personal development activities such as trips, guest talks, and skill-building sessions. Health and wellbeing are also prioritised, with tailored activities across campuses to support mental and physical wellness.

Career guidance is available year-round through Careers Officers, who support university progression, job opportunities, and further training. Students also have access to online tools like Moodle and Teams.

The College values inclusivity and safety, offering SEND support, financial aid, and accommodation options. The Students' Union helps shape the student experience through representation and events.

Alumni spotlight

MEGAN HEARNDEN

Megan studied Beauty Therapy at Cornwall College Camborne, and now works as a spa therapist at the China Fleet Country Club in Saltash.

Megan said: "College has given me the knowledge and skills to help me become the best therapist I can possibly be."

Her studies helped her to grow in confidence and learn more about herself. And now she gets to do what she loves – helping people to see their own beauty – every day in her role.

Megan said: "I must say a huge thank you to my tutors for guiding me through my journey at college. I will be forever grateful for the support they gave me!"

How to apply

So you've decided which course is for you:

1 Apply

Complete an application form

You can apply through the relevant course page on our website using an online form. If you'd prefer a paper copy of the application form, call us and we can send one out to you.

2 Interview

We can't wait to meet you

You'll receive an invitation to meet with the course lecturer at an interview. This is likely to be at one of our scheduled interview events on a weekday evening. It's a perfect opportunity to talk about the course you're interested in and find out how it can help you achieve the goals you have for the future.

3 Accept your offer

You made it! Your college place is waiting

Exciting! Reserve your place as soon as possible. Please note, the offer you get may be conditional on you gaining certain GCSE grades. If you end up not getting the results you expected, there's no need to panic. Just get in touch and we'll help you explore your options.

4 Start course

Welcome to your local, outstanding college

We'll see you in September for your induction week!

GET IN TOUCH

If you have any other queries, please contact us on **0330 123 2523** or email **enquiries@cornwall.ac.uk**
