

ATLANTA PVC-O

Unbeatable
Impact Resistance

Excellence Response
to Water Hammers

Maximum
Flexibility

High Short and
Long-Term Hydrostatic
Resistance

Increased Hydraulic
Capacity

Completely Corrosion
Resistant

Lower Cost and
Easier Installation

PVC-O: The best choice for high-pressure fluid transport

ATLANTA PVC-O

Enduring Power for
Main Water Systems

APPLICATIONS:

Sewage

Fire Protection Nets

Industrial Applications

Infrastructural Nets

JOINTING METHOD:

Fixed Sealing Rings -
PP & EPDM Rubber

PVC-O 500 PIPE

PVC-O pipes are supplied in total length of 5.95 metres (socket included).

For other lengths for special projects. price on request.

The inside diameters may be subjected to variation according to manufacturing tolerances

SPECIFICATIONS:

Conforms to ISO 16422
