Relaxed Santa Safari
Suggested Itinerary

Saturday 28th November & Wednesday 9th December

10AM: Arrive at West Midlands Safari Park

Penguins first, they love to see people and they don't make much noise.

The dinosaurs and mammals in Land of the Living Dinosaurs and Ice Age are huge, but are quiet and still.

Twilight Cave is a little dark and can be smelly. I might be able to spot a bat as it flies freely around me.

Creepy Crawlies, Aquarium and Reptile World are quiet and have dimmer lights.

There might be some sounds from the the sea lion demonstration in the morning, but there are ear defenders I can borrow from Main Reception if I need them.

10AM-12PM: Visit Santa & festive activities

My family will have booked a time to see Santa. I will need to go to the grotto at this time.

We can enjoy the magical journey through the grotto and a special lift! I can speak to the friendly elves if I need help.

I might have my photo taken with Santa if I want to. I'll then pick a present in the Elves' Workshop and collect my photo.

Mrs Claus' Crafts is safe space for me to sit and have a rest. There's a table with crafts, or I can write a letter to Santa.

We'll also be able to pick up our drink and cookie from the food places.

Mrs Claus will be telling Christmas stories at times during the day. There will be signs telling me when I can see her.

12PM - The music and sounds will be turned on around the Park.

I could explore the African Walking Trail & African Village. It is quiet here. I can see the lemurs from 11:30am.

I might visit Explorers' Play Park or go on some of the rides (if I am visiting on a day that they are open) and see the tigers at Tiger Tropics.

On the way back to the car park, I can look out for the animals again or I can go to one of the encounters if I want.

I might be ready for the Safari Drive, but I better make sure I visit before it closes at 3.00pm!

Helpful Hints: The music and sounds will be turned off until 12PM in the Park with soft music in the grotto. Animatronics will be turned off in the grotto for the Relaxed Morning too.
