POWER-PROPELLED DRUM HANDLERS

Powered mobility, lifting and dispensing for safer, more efficient drum handling.

WHY CHOOSE PILOT?

- ✓ Power-Propelled Travel Up To 2 MPH
- ✓ Powered Lift & 360° Drum Rotation
- ✓ Pour Up To 106" High
- ✓ Dispense Beyond Straddle Legs
- ✓ Intuitive Walk-Behind Controls
- ✓ Capacity: 800 lb Full Drum

The PILOT™ Power-Propelled Series combines powered travel, lifting and drum rotation in a single ergonomic solution. Transport drums throughout your facility, position them with precision, and dispense contents at heights up to 106" using intuitive walk-behind controls.

POWER-PROPELLED DRUM POURER

Best for: Mobile drum dispensing and transport.

540 Series

- ✓ Power-Propelled Drum Transport
- ✓ Powered Lift & Drum Rotation
- ✓ Lift Heights Up To 106"
- ✓ MORCINCH Drum Holder Included
- ✓ Operates In Narrow Aisles
- ✓ Capacity: 800 lb Full Drum

Recommended Applications: Facilities looking to reduce manual effort while increasing drum handling productivity.

SCALE-EQUIPPED POWER-PROPELLED DRUM POURER

Best for: Weighing and dispensing products while transporting drums.

545 Series

- ✓ Lift, Move, Weigh & Pour
- ✓ Integrated Scale System
- ✓ ±0.2% Scale Accuracy
- ✓ Display Precision Of 0.1 lb/kg
- ✓ Eliminates Separate Weighing Step
- ✓ Capacity: 800 lb Full Drum

Recommended Applications: Batch processing, ingredient dispensing and applications requiring weighing during transfer.

PILOT™ SAFETY & PRODUCTIVITY FEATURES

Built-In Safety

- ✓ Anti-Crush Reversing Switch
- ✓ Dead-Man Braking System
- ✓ Emergency Stop Control
- ✓ Reduced Travel Speed At Elevated Heights
- ✓ Integrated Battery Monitoring

Enhanced Productivity

- ✓ Powered Travel Up To 2 MPH
- ✓ Tight 58" Turning Radius
- ✓ Built-In Battery Charger
- ✓ 24V Battery Power
- ✓ Raise, Lower, Tilt & Travel From One Control Position

LIFT, WEIGH & POUR

Safe, controlled dispensing solutions for batching, filling, processing and production operations.

IF YOU NEED TO...	CHOOSE
Lift and pour a drum	Vertical-Lift
Weigh while dispensing	515/525 Scale Models
Reach over tanks and mixers	Hydra-Lift
Handle heavier drums	410 Series

VERTICAL-LIFT POURERS

Best for: Batching, filling and precise dispensing.

510 Series

- ✓ Lift, Move & Pour
- ✓ 360° Drum Rotation
- ✓ Compact Footprint
- ✓ Up to 60" Lift Height
- ✓ Capacity: Up to 800 lb

Recommended Applications: Controlled dispensing and everyday drum handling.

520 Series

- ✓ Lift, Move & Pour
- ✓ 360° Drum Rotation
- ✓ Compact Footprint
- ✓ Up to 106" Lift Height
- ✓ Capacity: Up to 800 lb

Recommended Applications: Higher discharge points and production operations.

515 Series Scale-Equipped

- ✓ Lift, Move & Pour
- ✓ Weigh & Dispense
- ✓ Compact Footprint
- ✓ Accurate Batching
- ✓ Capacity: Up to 800 lb

Recommended Applications: Measuring ingredients, blending, and controlled filling.

525 Series Scale-Equipped

- ✓ Lift, Move & Pour
- ✓ Weigh & Dispense
- ✓ Up to 106" Lift
- ✓ Accurate Batching
- ✓ Capacity: Up to 800 lb

Recommended Applications: Elevated weighing and dispensing applications.

HYDRA-LIFT KARRIERS

Best for: Elevated pouring and extended reach.

400A Hydra-Lift Series

- ✓ Lift, Move & Pour
- ✓ Reach Over Tanks & Vessels
- ✓ 360° Drum Rotation
- ✓ Pour Up To 96" High
- ✓ Capacity: Up to 800 lb

Recommended Applications: Process vessels, mixing tanks, and production lines.

410 Heavy-Duty Series

- ✓ Heavy-Duty Construction
- ✓ Twin Boom Stability
- ✓ Lift, Move & Pour
- ✓ 1,200 lb Capacity

Recommended Applications: Heavy drums and demanding industrial environments.

400S-XR Extended Reach

Recommended Applications: Reaching over obstructions, tanks, and equipment.

- ✓ Access Drums on Pallets
- ✓ Pour Beyond Front Wheels
- ✓ Controlled Dispensing
- ✓ Capacity: Up to 800 lb

FORKLIFT DRUM HANDLING

Move, lift and pour drums using the forklift you already own.

IF YOU NEED TO...	USE THIS SOLUTION
Lift and move drums	Forklift Drum Grippers
Lift, move and pour	Forklift Pourers
Lift, move and pour without leaving the seat	GRIP+GO

GRIP+GO 290F

Best for: High-volume drum handling with minimal operator involvement.

- ✓ Lift, Move & Pour Drums
- ✓ Operator Remains Seated
- ✓ Powered Grip Control
- ✓ Handles Steel, Plastic & Fiber Drums
- ✓ Reduce Manual Drum Handling

Recommended Applications: Distribution centers, warehouses, and high-throughput manufacturing operations.

Drum Pad Kit 6978-P for plastic & fiber drums.

FORKLIFT POURERS

Best for: Controlled drum dispensing using a forklift.

285 Series

- ✓ Lift & Pour Drums
- ✓ Controlled Drum Rotation
- ✓ Mounts To Existing Forklift
- ✓ Capacity Options, 800 - 2,500 lbs.
- ✓ Improve Dispensing Safety

Recommended Applications: Loading process tanks, filling containers, and dispensing drum contents.

Pictured: 285A-HD Heavy-Duty Forklift-Karrier with 4560B-P MORCinch Top Rim Clamp

FORKLIFT DRUM GRIPPERS

Best for: Fast drum transport and handling.

286 & 288 Series

- ✓ Lift & Transport Upright Drums
- ✓ Secure Drum Grip
- ✓ Single & Double Drum Options
- ✓ Quick Forklift Attachment
- ✓ Improve Drum Handling Efficiency

Recommended Applications: Receiving, shipping, warehouse storage, and material movement.

Pictured: 288-2 MORSPEED 1500 Fork-mount double upright drum handler.

CRANE & HOIST DRUM HANDLING

Lift, move and pour drums safely using overhead cranes, hoists and lifting equipment.

IF YOU NEED TO...	USE THIS SOLUTION
Lift and transport upright drums	Drum Lifters
Lift and pour drums overhead	Kontrol-Karriers
Rotate drums with powered control	Power-Tilt Kontrol-Karriers
Lift and pour within operator reach	Drum Karriers

POWER-TILT KONTROL-KARRIERS

Best for: Powered overhead drum pouring.

195 Series

- ✓ Lift & Pour Drums Overhead
- ✓ Powered 360° Drum Rotation
- ✓ AC or Air Powered Models
- ✓ Pendant-Control Operation
- ✓ ASME Load-Tested Design
- ✓ Capacity: Up to 1,500 lb

Recommended Applications: Frequent drum dispensing operations requiring powered rotation and precise control.

KONTROL-KARRIERS

Best for: Controlled overhead drum dispensing.

185 Series

- ✓ Lift & Pour Drums Overhead
- ✓ Geared 360° Drum Rotation
- ✓ Controlled Drum Dispensing
- ✓ Handles Drums with Faucets or Valves
- ✓ Compatible with MORCINCH Options
- ✓ Capacity Options, 800 - 2,500 lbs.

Recommended Applications: Process vessels, mixing operations, and controlled overhead pouring.

DRUM KARRIERS

Best for: Drum pouring within operator reach.

85 Series

- ✓ Lift, Move & Pour Drums
- ✓ Manual 360° Drum Rotation
- ✓ Transport Upright or Horizontal
- ✓ Lock Drum in Pour Position
- ✓ Controlled Hand Tilt Operation
- ✓ Capacity: Up to 800 lb

Recommended Applications: Production and maintenance environments requiring economical drum pouring.

DRUM LIFTERS

Best for: Lifting and transporting drums with a crane or hoist.

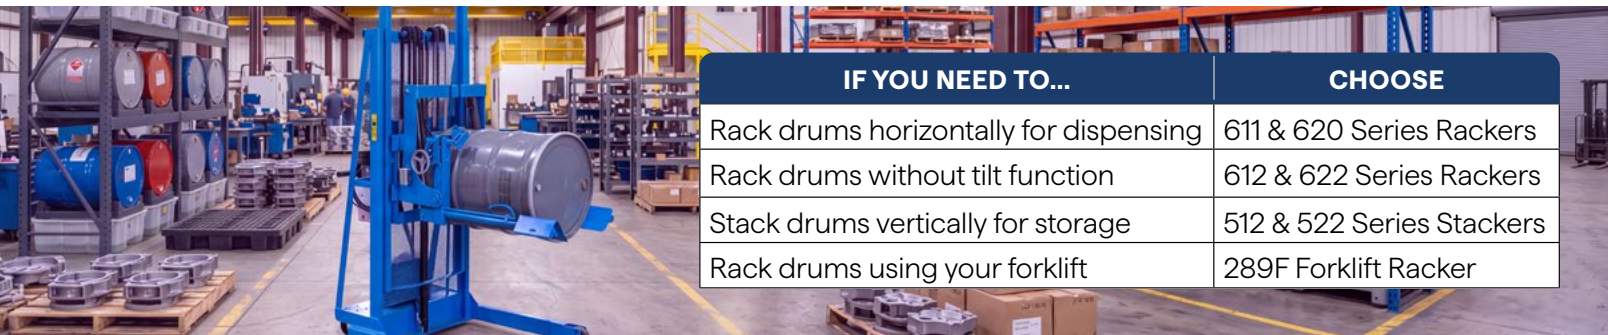

86, 90, 91, 92, 41, 42 Series

- ✓ Lift Upright or Horizontal Drums
- ✓ Models for Steel, Plastic & Fiber Drums
- ✓ Secure Drum Engagement
- ✓ ASME Load-Tested Design
- ✓ Multiple Lifter Styles Available
- ✓ Capacity: Models Up to 1,000 lb

Recommended Applications: Shipping, receiving, storage, and overhead drum transport.

RACK, STACK & STORE

Safely rack, retrieve and stack drums while maximizing warehouse storage space.

HORIZONTAL DRUM RACKERS

Best for: Racking drums horizontally for storage and dispensing.

611 & 620 Series

- ✓ Tilt Drum Into Rack Position
- ✓ Rack Up To 56" or 102" High
- ✓ Compact 6-Foot Turning Radius
- ✓ Place Drums Side-by-Side
- ✓ Capacity: Up to 800 lb

Recommended Applications: Facilities that frequently rack and retrieve drums for dispensing operations.

612 & 622 Series

- ✓ No-Tilt Function
- ✓ Compact 6-Foot Turning Radius
- ✓ Place Drums Side-by-Side
- ✓ Efficient Drum Retrieval
- ✓ Capacity: Up to 800 lb

Recommended Applications: Facilities primarily focused on drum storage rather than dispensing.

VERTICAL-LIFT DRUM STACKERS

Best for: Stacking upright drums to maximize storage density.

512 & 522 Series

- ✓ Lift, Move & Stack Drums
- ✓ Stack Upright Drums
- ✓ Compact Maneuverability
- ✓ Handle Rimmed Steel Drums
- ✓ Capacity: Up to 800 lb

Recommended Applications: Warehouses and storage areas looking to maximize floor space.

FORKLIFT DRUM RACKER

Best for: Racking drums with an existing forklift.

289F Model

- ✓ Mounts To Existing Forklift
- ✓ Rack Drums Horizontally
- ✓ Place Drums In Storage Racks
- ✓ Handles Rimmed Drums
- ✓ Capacity: Up to 800 lb

Recommended Applications: Facilities that already use forklifts and need an economical solution for drum racking.

NOT SURE? ASK MORI!

Scan to get help 24/7 from MORI!

PALLETIZE & POSITION

Safely load, unload and position drums with ergonomic handling solutions.

IF YOU NEED TO...	CHOOSE
Palletize upright drums	81 / 825H / 82H Series
Palletize and pour drums	82A-GT Series
Load cabinets & reach beyond obstacles	82H-XR Series

UPRIGHT DRUM PALLETIZERS

Best for: Loading, unloading and positioning upright drums on pallets and containment.

82H Series

- ✓ Palletize Upright Drums
- ✓ Power Lift Available
- ✓ Handles Steel, Plastic & Fiber Drums
- ✓ Enhanced Productivity
- ✓ Capacity: Up to 1,000 lb

Recommended Applications: Frequent drum handling and palletizing operations.

825H Series

- ✓ Weigh & Transport Drums
- ✓ Integrated Digital Scale
- ✓ Eliminates Need for Separate Scale
- ✓ Handles Steel, Plastic & Fiber Drums
- ✓ Capacity: Up to 800 lb

Recommended Applications: Everyday palletizing and drum handling operations.

81 Series

- ✓ Manual Lift Operation
- ✓ Handles Steel, Plastic & Fiber Drums
- ✓ Compact Design
- ✓ Economical Drum Handling
- ✓ Capacity: Up to 800 lb

Recommended Applications: Low-volume palletizing & drum positioning applications.

PALLETIZE & POUR

Best for: Positioning and dispensing drums from pallets.

82A-GT Series

- ✓ Hand Crank Geared Tilt
- ✓ Controlled Dispensing
- ✓ Pour Up To 26" High
- ✓ Scale-Equipped Models Available
- ✓ Capacity: Up to 600 lb

Recommended Applications: Facilities that need both drum positioning and controlled dispensing.

82H-XR SERIES

Best for: Loading and unloading cabinets, spill containment, and hard-to-reach locations.

82H-XR Series

- ✓ Extended Reach Design
- ✓ Cabinet Loading Applications
- ✓ Positions Drum Beyond Front Wheels
- ✓ Integrated Safety Features
- ✓ Capacity: Up to 600 lb

MIX DRUMS

Safely mix drum contents without opening the container.

IF YOU NEED TO...	CHOOSE
Gently blend contents inside a closed drum	Drum Rollers
Thoroughly mix difficult materials	Drum Tumblers
Load drums at floor level	456 or 310 Series
Automate the mixing cycle	311 Series

DRUM ROLLERS

Best for: Gentle blending and suspension of settled materials.

201 Series Portable Drum Rollers

- ✓ Rock-Over Drum Loading
- ✓ Fixed or Variable Speed Models
- ✓ Mix Closed Drums
- ✓ Gentle Mixing Action
- ✓ Capacity: 500 lb liquid / 300 lb dry

Recommended Applications: Paints, chemicals, lubricants and other products that settle during storage.

456 Series Hydra-Lift Drum Rollers

- ✓ Easy Floor-Level Loading
- ✓ Variable Drum Speed
- ✓ Gentle Mixing Action
- ✓ Reduce Manual Drum Handling
- ✓ Capacity: 1,000 lb liquid / 400 lb dry

Recommended Applications: Facilities that frequently load heavy drums for mixing.

5154 Series Drum Rollers

- ✓ Single or Double Drum Models
- ✓ Fixed or Variable Speed
- ✓ Hoist Loading
- ✓ Continuous Drum Mixing
- ✓ Capacity: 1,000 lb liquid / 300 lb dry

Recommended Applications: Production environments requiring regular drum mixing.

DRUM TUMBLERS

Best for: Thorough corner-over-corner mixing of liquids, powders and solids.

309 Series Drum Tumblers

- ✓ Hoist Drum Loading
- ✓ Fixed or Variable Speed
- ✓ Single or Double Drum Models
- ✓ Thorough Batch Blending
- ✓ Capacity: 800 lb full / 400 lb half-full drum

Recommended Applications: Powders, resins, adhesives and difficult mixing applications.

310 Series Tilt-To-Load Drum Tumblers

- ✓ Floor-Level Drum Loading
- ✓ Hydraulic Drum Lift
- ✓ Variable Drum Speed
- ✓ Improved Ergonomics
- ✓ Capacity: 800 lb full / 400 lb half-full drum

Recommended Applications: Frequent mixing operations requiring easier drum loading.

311 Series Tilt-To-Load Complete Drum Tumblers

- ✓ Automated Mixing Cycle
- ✓ Integrated Controls & Enclosure
- ✓ Automatic Lift & Return
- ✓ Variable Speed Control
- ✓ Capacity: 800 lb full / 400 lb half-full drum

Recommended Applications: High-volume production environments requiring repeatable automated mixing.

MOVE & TRANSPORT

Safely move, position and transport drums throughout your facility.

IF YOU NEED TO...	CHOOSE
Move upright drums over longer distances	Drum Trucks
Lift, move and manually tilt drums	80 Series Mobile-Karriers
Easily maneuver drums at floor level	Drum Dollies

DRUM TRUCKS

Best for: Moving drums around warehouses, and production areas.

4-Wheel Drum Trucks

- ✓ Move Upright Drums
- ✓ Transport, Palletize & Position
- ✓ Handles Steel, Plastic & Fiber Drums
- ✓ Heavy-Duty Construction
- ✓ Capacity: Up to 1,000 lb

Recommended Applications: Frequent drum movement and positioning throughout a facility.

2 & 3-Wheel Drum Trucks

- ✓ Simple Drum Transport
- ✓ Ergonomic Drum Handling
- ✓ Easy Drum Positioning
- ✓ Multiple Model Options Available
- ✓ Compact & Maneuverable

Recommended Applications: Everyday drum movement and material handling tasks.

DRUM DOLLIES

Best for: Low-profile drum mobility and positioning.

14, 24 & 34 Series

- ✓ Move Drums At Floor Level
- ✓ Round & Square Models Available
- ✓ Handles Steel, Plastic & Fiber Drums
- ✓ Wide Stance For Stability
- ✓ Easy Drum Positioning

Recommended Applications: Short-distance drum movement and workstation positioning.

Clamp+Go Dolly Handle

- ✓ Attaches To Round Dollies
- ✓ Improves Steering Control
- ✓ Quick Engagement & Release
- ✓ Reduce Manual Effort
- ✓ Easy Drum Positioning

Recommended Applications: Facilities frequently moving drums on dollies.

MOBILE-KARRIERS

Best for: Economical drum transport, positioning and manual dispensing.

80 Series

- ✓ Lift, Move & Tilt Drums
- ✓ Manual Drum Rotation
- ✓ Mechanical Drum Grip
- ✓ No Power Required
- ✓ Capacity: Up to 800 lb

Recommended Applications: Drum transport, workstation positioning, low-height dispensing, and everyday material handling.

STAINLESS STEEL DRUM HANDLING

Corrosion-resistant drum handling equipment designed for washdown, chemical processing, food production, and pharmaceutical environments.

IF YOU NEED TO...	CHOOSE
Lift, weigh & pour drums	Stainless Vertical-Lift Pourers
Lift, move & pour drums	Stainless Hydra-Lift Karriers
Transport drums	Stainless Drum Trucks
Position drums at floor level	Stainless Drum Dollies

VERTICAL-LIFT POURERS

Best for: Food processing, pharmaceutical batching and sanitary dispensing operations.

500 Series

- ✓ Type 304 Stainless Steel Construction
- ✓ Lift, Weigh & Pour Drums
- ✓ Controlled 360° Rotation
- ✓ Washdown Compatible
- ✓ Corrosion Resistant

Recommended Applications: Applications requiring sanitary operation and frequent cleaning.

HYDRA-LIFT KARRIERS

Best for: Elevated drum dispensing in corrosive or washdown environments.

400 Series

- ✓ Type 304 Stainless Steel Construction
- ✓ Lift, Move & Pour Drums
- ✓ Controlled 360° Rotation
- ✓ Elevated Pouring Capability
- ✓ Washdown Compatible

Recommended Applications: Chemical processing, food production and pharmaceutical facilities.

DRUM TRUCKS

Best for: Transporting drums in sanitary and corrosive environments.

4 Wheel Trucks

- ✓ Corrosion-Resistant Construction
- ✓ Ergonomic Drum Transport
- ✓ Washdown Compatible
- ✓ Heavy-Duty Design
- ✓ Multiple Drum Styles Supported

Recommended Applications: Food, beverage and clean manufacturing operations.

DRUM DOLLIES

Best for: Floor-level drum positioning and workstation movement.

14, 24 & 34 Series

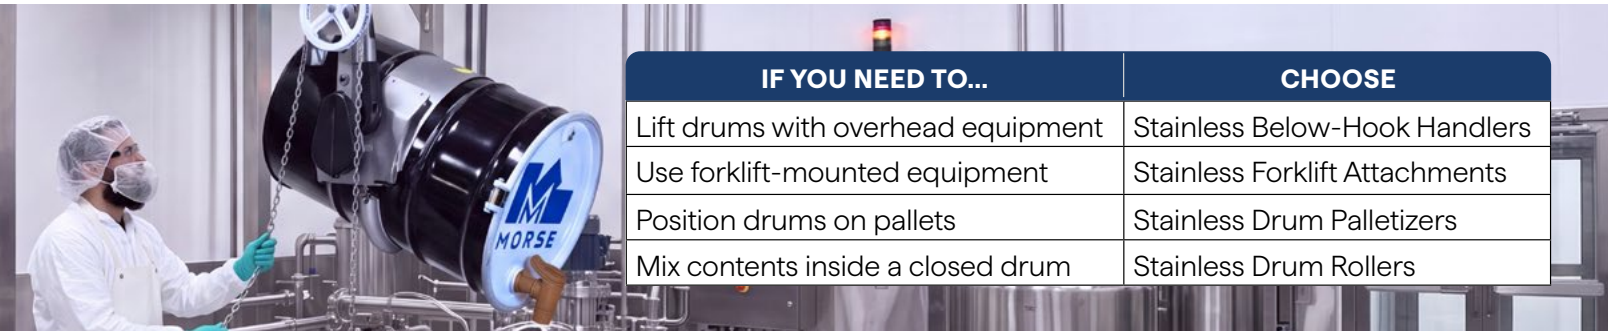

- ✓ Corrosion-Resistant Construction
- ✓ Washdown Compatible
- ✓ Wide Stance Stability
- ✓ Easy Drum Positioning
- ✓ Steel, Plastic & Fiber Drum Compatibility

Recommended Applications: Frequent drum movement in sanitary environments.

Much of the Morse Product Line is available in Stainless Steel. Visit morsedrum.com for our full lineup.

COMPLETE STAINLESS SOLUTIONS

Build a corrosion-resistant drum handling system from transport through dispensing.

IF YOU NEED TO...	CHOOSE
Lift drums with overhead equipment	Stainless Below-Hook Handlers
Use forklift-mounted equipment	Stainless Forklift Attachments
Position drums on pallets	Stainless Drum Palletizers
Mix contents inside a closed drum	Stainless Drum Rollers

STAINLESS BELOW-HOOK HANDLERS

Best for: Overhead drum lifting and pouring in sanitary environments.

85, 86, 90, 92 Series

- ✓ Type 304 Stainless Steel Construction
- ✓ Lift & Pour Drums Overhead
- ✓ Corrosion Resistant Design
- ✓ Washdown Compatible
- ✓ Long Service Life

Recommended Applications: Food processing, pharmaceutical manufacturing, and clean production environments.

STAINLESS FORKLIFT ATTACHMENTS

Best for: Forklift-based drum handling in washdown and corrosive environments.

285 Series

- ✓ Type 304 Stainless Steel Construction
- ✓ Lift, Transport & Position Drums
- ✓ Corrosion Resistant Design
- ✓ Washdown Compatible
- ✓ Available For Multiple Drum Types

Recommended Applications: Facilities using forklifts in sanitary or chemical processing environments.

STAINLESS PALLETIZERS

Best for: Positioning and palletizing drums in sanitary environments.

81 & 82 Series

- ✓ Corrosion Resistant Construction
- ✓ Palletize & Position Drums
- ✓ Washdown Compatible
- ✓ Ergonomic Handling
- ✓ Long-Term Durability

Recommended Applications:Facilities where cleanliness and corrosion resistance are critical.

STAINLESS DRUM ROLLERS

Best for: Mixing drum contents in sanitary and corrosion-sensitive environments.

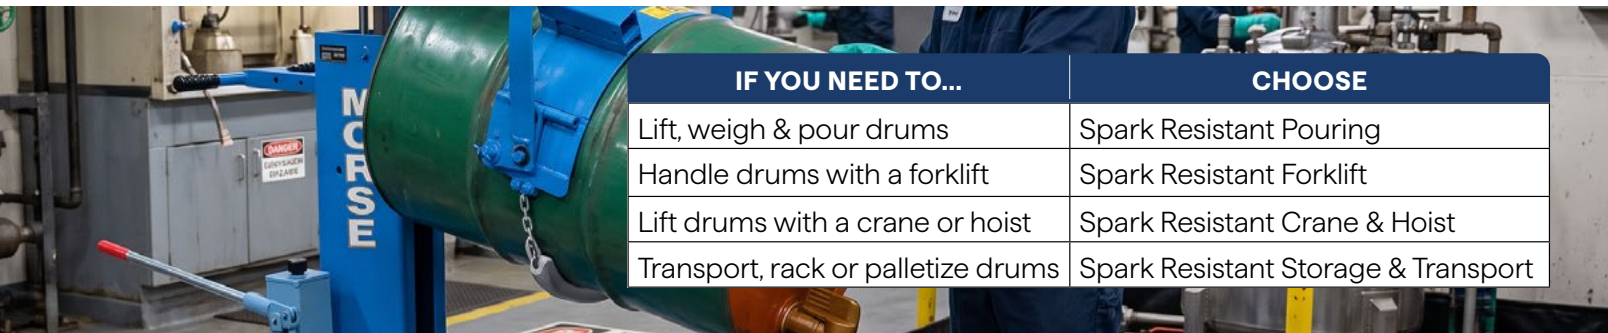

5154 Series

- ✓ Type 304 Stainless Steel Construction
- ✓ Gentle Drum Mixing Action
- ✓ Mix Closed Drums Without Transfer
- ✓ Single or Double Drum Models Available
- ✓ Corrosion Resistant & Washdown Compatible

Recommended Applications: Blending ingredients, resuspending settled materials, and maintaining product integrity in sanitary environments.

SPARK RESISTANT SOLUTIONS

Reduce spark potential with drum handling solutions designed for hazardous and flammable material environments.

IF YOU NEED TO...	CHOOSE
Lift, weigh & pour drums	Spark Resistant Pouring
Handle drums with a forklift	Spark Resistant Forklift
Lift drums with a crane or hoist	Spark Resistant Crane & Hoist
Transport, rack or palletize drums	Spark Resistant Storage & Transport

SPARK RESISTANT POURING SOLUTIONS

Best for: Dispensing and weighing drum contents in hazardous environments.

510M, 515M-T, 520M, 525M-T, 400AM & 410M Series

- ✓ Vertical-Lift Pourers Available
- ✓ Scale-Equipped Models Available
- ✓ Hydra-Lift Karriers Available
- ✓ Controlled 360° Drum Rotation
- ✓ Capacities Up To 1,200 lb

Recommended Applications: Solvent dispensing, chemical processing, paint manufacturing, and flammable liquid transfer.

SPARK RESISTANT FORKLIFT SOLUTIONS

Best for: Forklift-based drum handling and dispensing.

285AM, 285AM-HD, 285XMGR & 286M-1

- ✓ Forklift-Karriers Available
- ✓ Drum Grippers Available
- ✓ Heavy-Duty Models Available
- ✓ Lift, Move & Pour Drums
- ✓ Capacities Up To 2,500 lb

Recommended Applications: Hazardous storage areas, warehouse operations, and production facilities handling flammable materials.

SPARK RESISTANT CRANE & HOIST SOLUTIONS

Best for: Overhead lifting, transporting and pouring drums.

185 Series, 195GM-A, 85AM, 90M, 92M & 41M

- ✓ Kontrol-Karriers Available
- ✓ Power-Tilt Models Available
- ✓ Drum Lifters Available
- ✓ Manual & Powered Rotation Options
- ✓ Independently Load Tested

Recommended Applications: Tank charging, process vessel filling, overhead dispensing, and drum transfer operations.

SPARK RESISTANT STORAGE & TRANSPORT SOLUTIONS

Best for: Moving, positioning, palletizing and storing drums.

611M, 620M, 81M, 82HM, 82AM-GT, 80AM, 160M, 14M & 32M

- ✓ MORStak Rackers Available
- ✓ Drum Palletizers Available
- ✓ Mobile-Karriers Available
- ✓ Drum Trucks & Dollies Available
- ✓ Multiple Drum Positioning Solutions

Recommended Applications: Drum storage, rack loading, palletizing, staging areas, shipping and receiving.

Petroleum & Lubricants

Paints & Coatings

Chemical Processing

Flammable Materials

Hazardous Environments

PAIL HANDLING

Lift, move, pour and mix 5-gallon pails with ergonomic handling solutions.

PAIL TRUCKS

Best for: Moving heavy pails safely and efficiently.

152-5 Model

- ✓ Transport 5-Gallon Pails
- ✓ Ergonomic Handling Design
- ✓ Reduce Manual Lifting
- ✓ Stable & Maneuverable
- ✓ Capacity: 150 lbs.

Recommended Applications: Warehouses, maintenance departments and production environments.

MOBILE PAIL HANDLERS

Best for: Lifting, positioning and dispensing pails.

83 Series

- ✓ Lift & Transport Pails
- ✓ Controlled Pouring
- ✓ Ergonomic Operation
- ✓ Compact Footprint
- ✓ Extended-Reach Models Available

Recommended Applications: Filling, batching and workstation dispensing applications.

CAN TUMBLERS

Best for: Mixing ingredients inside a sealed pail.

305 Series

- ✓ Mix Sealed Containers
- ✓ Corner-Over-Corner Mixing
- ✓ No Product Exposure
- ✓ Consistent Blending
- ✓ Compact Design

Recommended Applications: Paints, coatings, chemicals and other materials that settle during storage.

CAN TIPPERS

Best for: Manual pouring and controlled dispensing.

15 Series

- ✓ Improve Pour Control
- ✓ Reduce Operator Strain
- ✓ Simple Mechanical Design
- ✓ Compact & Portable
- ✓ Easy Container Positioning

Recommended Applications: Low-volume dispensing and workstation applications.

BELOW-HOOK POURERS

Best for: Lifting and pouring pails with a hoist or crane.

85-5 Model

- ✓ Lift & Pour Pails
- ✓ Controlled Rotation
- ✓ Hoist Compatible
- ✓ Secure Container Retention
- ✓ Improved Operator Safety

Recommended Applications: Production environments requiring overhead pail handling.

BELOW-HOOK LIFTERS

Best for: Overhead lifting and transport of pails.

92-5 Series

- ✓ Lift Pails With A Hoist
- ✓ Secure Container Engagement
- ✓ Simple Operation
- ✓ Durable Construction
- ✓ Efficient Material Handling

Recommended Applications: Transporting pails between workstations and storage areas.
