EV & MOBILITY
TECHNOLOGY FORUM

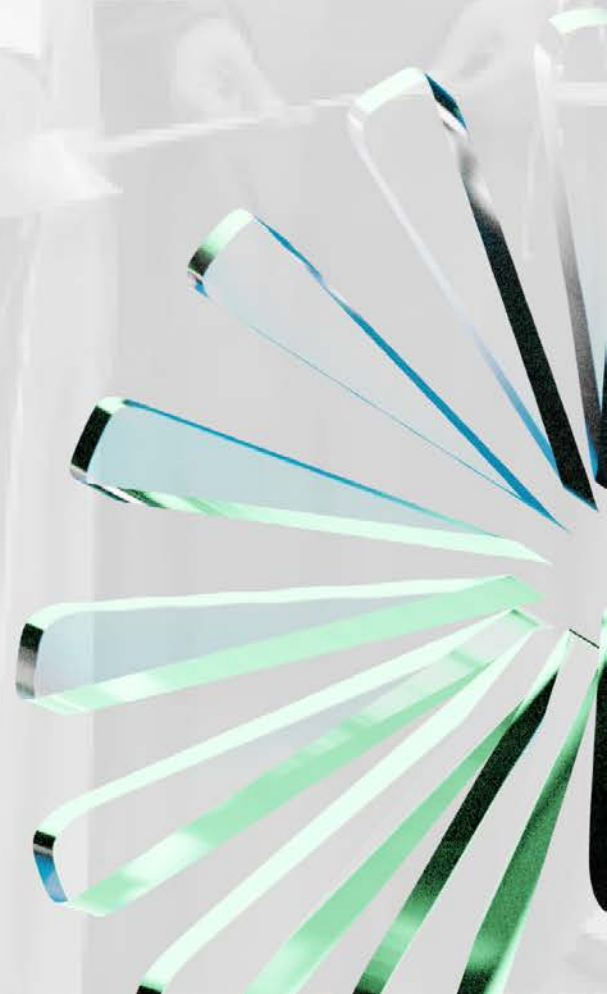

POST EVENT REPORT

Powering the **Future of
Mobility & Logistics**

10 - 11
— JULY 2024

RIYADH INTERNATIONAL CONVENTION
& EXHIBITION CENTER (RICEC)

#GEMTECH

Dear GEMTECH Community,

With the highly successful inaugural edition of the Global EV & Mobility Technology Forum behind us, we are grateful for the incredible support and enthusiasm that each one of you brought to this year's show. We extend our heartfelt thanks to the sponsors, exhibitors, speakers, partners, media, and every attendee who contributed to making the Global EV & Mobility Technology Forum a resounding success. It would not have been possible without your participation and support.

This year, we were privileged to witness a huge turnout from across the industry, with the participation of attendees from more than 600 companies across two electrifying days.

The positive feedback received from our clients, global media, and industry pioneers speaks volumes about the impact of the event. With its futuristic solutions and thought-provoking conference content, the Global EV & Mobility Technology Forum demonstrated the way the industry is headed in the years ahead.

The next edition is going to be bigger and better with larger space, higher participation from across the air, land and water industry along with the logistics verticals. We hope you had a great time at this year's event and look forward to seeing you again next year in Riyadh.

Regards,

Global EV & Mobility Technology Forum Team

Just attended the Global EV & Mobility Technology Forum in Riyadh 🇸🇦 and had the privilege of meeting some of the leading players in the industry. We delved into innovative ideas for embracing new energy mobility solutions and achieving CO2 neutrality. It was an incredibly enriching experience, filled with the latest innovations in the industry. Can't wait to see what day 2 has in store! 🇸🇦

I was thrilled to attend the Global EV & Mobility Technology Forum. The event showcased the latest advancements in electric vehicles and sustainable mobility solutions. A particular highlight was meeting the innovative team at FlyNow Aviation, Ceer and Lucid Motors. Their cutting-edge technology and forward-thinking approach are truly inspiring, highlighting the exciting future of mobility.

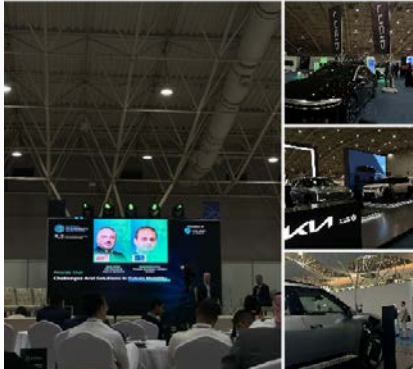

I extend my gratitude to the organisers, speakers, and the attendees for contributing to shape the future of sustainable mobility in alignment with Saudi Vision 2030.

I was pleased today to visit the Global EV & Mobility Technology Forum and gained many beautiful details. I also attended an interview on stage with Mark Notkin and Aadil Rashid Khan where each of them answered questions from journalists and spoke about the future of the Kingdom in the field of electric vehicles with #Vision2030. Lucid Motors was presented as a live example and a major player in the future role of electric vehicles #manufactured locally and their positive impact on the #environment. The role of #Petrinor Corporation in providing modern means while preserving the #environment was also discussed, as well as the discussion about transportation in general and its future. The #experience was very nice and useful. 🇸🇦

I am pleased to have presented on "Skill Development in the Mobility Sector: Vision 2030's Focus" at Global EV & Mobility Technology Forum today, July 10, 2024, in #Riyadh.

My discussion covered Saudi leadership's support for Vision 2030, the strategic approach of #Vision2030 to skill development, collaborative efforts among leading entities in Saudi Arabia, key mobility-related Vision2030 Realization Programs (VRPs), essential industry skills, and successful localization stories.

It was a pleasure connecting with colleagues and stakeholders for future R&D collaborations.

I extend my sincere gratitude to Valiant Business Media for their exceptional work in organizing this successful event.

I would like to express my deep gratitude to #GEMTECH24 Global EV & Mobility Technology Forum for the wonderful event regarding the Electric vehicles and the infrastructure development in Saudi Arabia.

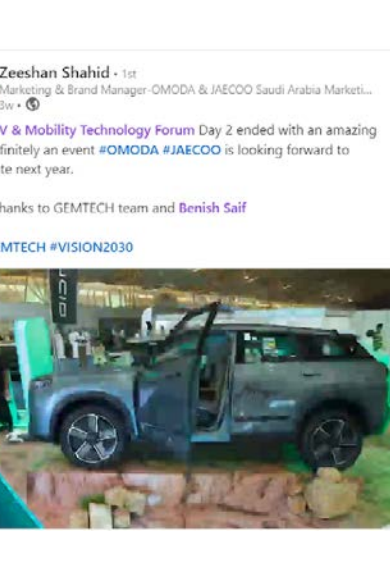

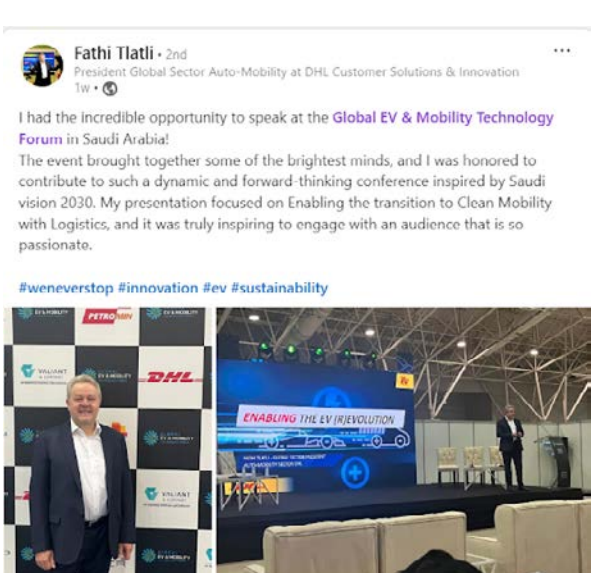

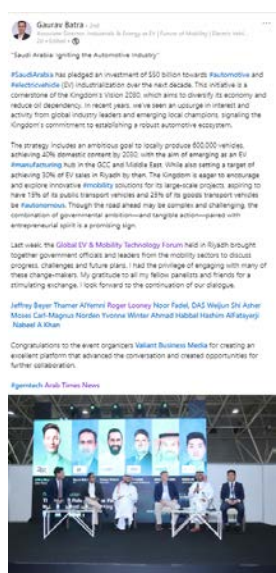

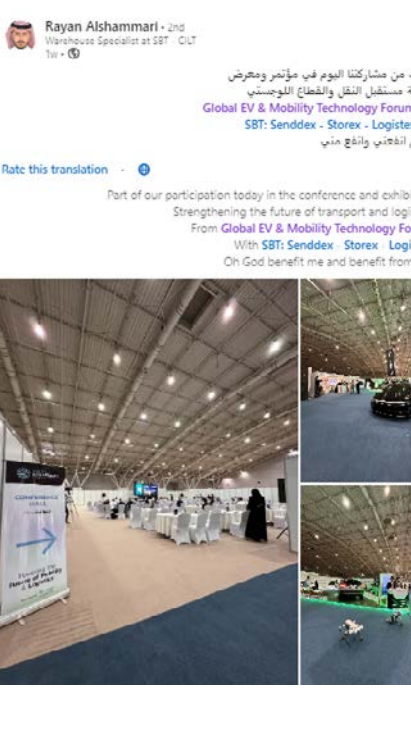

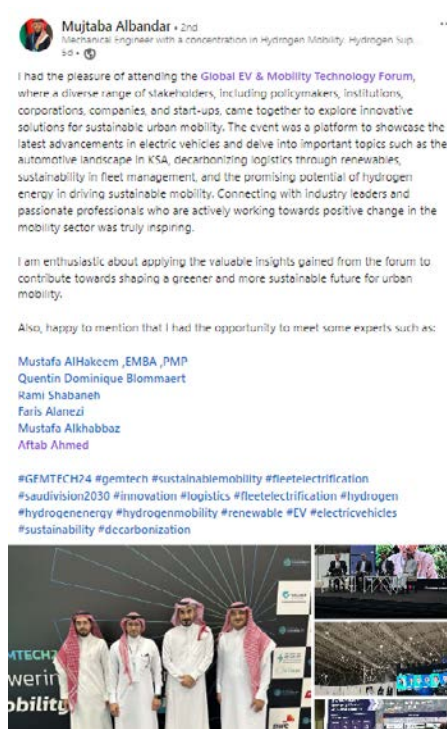

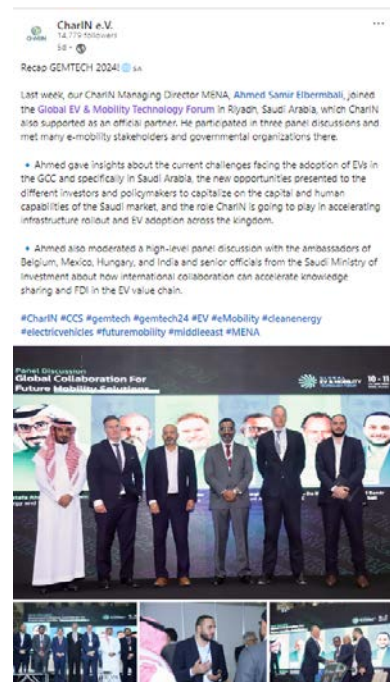

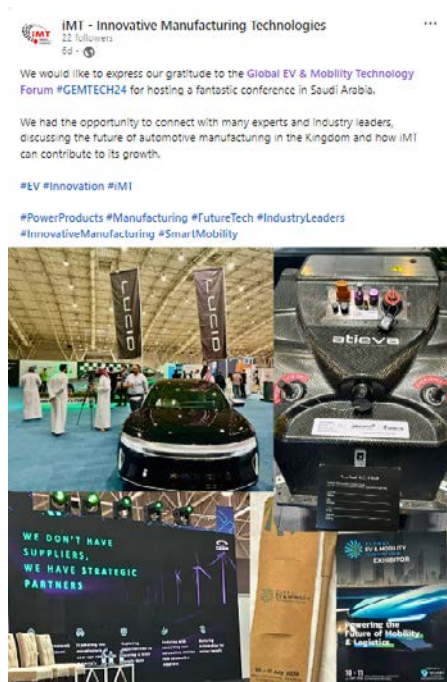

with many of discussions with the experts and leaders in order to overcome the challenges to increase the adaptation of EV, below are some recommendations:

- special sales taxes
- special importing taxes or tax free to empower the expansion of the infrastructure.
- Speeding up license issuance to sell the EV units.
- clear policies related to the charging stations.
- special program for consumers to have events, activations, experience as a clubs.

special thanks for
electromin CEO Mark Notkin

Testimonials

“

I would like to express my deep gratitude to #GEMTECH24 Global EV & Mobility Technology Forum for the wonderful event regarding the Electric vehicles and the infrastructure development in Saudi Arabia.

The National Projects

”

“

Great forum with great speakers. A lot of valuable insights regarding the latest trends and upcoming initiatives in KSA. It was a pleasure representing Vestel Mobility. New opportunities opened and discussed. Looking forward to coming back next year.

Vestel Mobility

”

“

The Global EV & Mobility Technology Forum ended with an amazing buzz. Definitely an event #OMODA #JAECOO is looking forward to participating next year. Special thanks to GEMTECH team

OMODA & JAECOO

”

“

Apart from my participation in the “EV and Mobility” conference! It was a fantastic experience exploring how RPA can revolutionise the EV industry. Imagine cutting your daily grind from hours to minutes with RPA! More time for innovation and less for boring tasks.” The buzz was real! RPA is set to drive efficiency and innovation in the EV space.

Artificial Intelligence Global Company

”

“

We would like to express our gratitude to the Global EV & Mobility Technology Forum #GEMTECH24 for hosting a fantastic conference in Saudi Arabia. We had the opportunity to connect with many experts and industry leaders, discussing the future of automotive manufacturing in the Kingdom and how iMT can contribute to its growth.

IMT Innovative Manufacturing Technologies

”

“

SGS proudly participated in the GEMTECH Forum! We engaged with industry leaders, explored innovative technologies, and discussed the future of sustainability. A big thank you to everyone who contributed to this amazing event. Together, we are driving progress and innovation!

Sustainable Green Solutions

”

“

Abreeza Company extends heartfelt gratitude to all individuals who played a part in the success of the “GEMTECH Forum.” Through our collective efforts, we propel progress and foster innovation.

ABREEZA INTERNATIONAL Inc.

”

“

We had an incredible time showcasing our eCopter and to see so much interest and enthusiasm for our innovative electric helicopter technology.

FlyNow Aviation

”
