Making Space Work Harder

Every workplace has one thing in common – the need for effective storage. Whether it's a warehouse managing pallets, an office backroom juggling stock, or a hospital requiring hygienic shelving, the right system makes all the difference to safety, efficiency, and organisation.

Quickly find the shelving system you need

Quick Shelving Guide (Only shelving and racking products are included in this guide)

How to find the best storage solution

The storage environment.

We have tried to make selecting the right system storage system simple and easy. With clear and intuitive icons on each page, it's easy to make a quick selection. Need more information? No problem. Highly detailed technical information is available for each product.

Our application icons quickly and simply indicate the environment the system is most suitable for. Application can range from the office to retail to the warehouse. Most of our products are suitable for multiple environments - this is illustrated by the icons shown below.

Please note the usage indicated is only a suggestion and doesn't limit the use of the product in different environments

What exactly do you need to store?

For most workplaces there is generally a wide variety of products that come in a wide range of sizes and loading capacities. It is important to have a clear specification of the weight and dimensions of the goods, this will give a clear understanding as to the type of shelving required.

From this information you will be able to establish the shelf and total bay capacity needed, the overall size of the shelf required to store the various items.

Note

Capacities stated on the icons are based on maximum uniformly distributed loads (UDL). The total bay load is dependent on several factors such as shelf pitch (distance between levels), height of the first shelf & actual size of the shelves.

The meaning of the colours:

Light Duty

Medium Duty

Heavy Duty

Find your solutions.

In addition to our key application and loading icons, we illustrate further information using the icons shown below. You will find these icons at the start of each major product section.

The icons below illustrate dimensions (Height, Width, Depth), application, construction as well as more detailed loading information. The information you'll find below each of these icons act as a summary for the product section that follows, saving you time when you're finding the perfect storage solution.

From left to right these icons illustrate - height, width, depth, application, construction and loading

Guarantee

All of our products come with a guarantee. You will find the relevant guarantee detailed on the first page of each product section.

Assembly Time

Assembly time is now noted on all shelving. This can range from 5 – 20 minutes, based on two competent people building a single bay.

Additional Features

Our product range is vast and extremely diverse, as a result each product has its own features and benefits. Our icons visualise some key features.

These small target icons appear under some images, in pricelists and support graphics. They link the pictured product with its actual size in the pricelist.

KWIKRACK

Our Kwikrack offers a robust and cost effective storage solution for any application. The unique 6 fold channel beam offers shelf capacities of 300kgs with a shelf height of only 54mm. The design of the beam allows for an inset chipboard decking design with interlocking deck supports for a strong and robust shelf level.

The system is simple to erect, yet has all the strength you are likely to need. The bays just tap together with a rubber mallet so you can organise your storage in a fraction of the time it can take with more traditional systems. With a build time of just 10 minutes, large installations will be completed in no time at all.

- **Easy to assemble and re-configure**

KWIKRACK

RIVET RACKING

Offers incredible value for money, whilst offering amazing strength and rigidity.

The system is simple to build with all parts being tapped together using a rubber mallet. All components are joined via the heavy duty rivet and key hole slot which offers a simple and effective way to assemble the racking.

There are no nuts and bolts and the bays require no bracing therefore offering uninterrupted access on all four sides. Bays are available in various heights up to 3660mm high.

With the average time to assemble a bay being just 5 minutes, you will be amazed at how easy it is to create large installations in no time at all. All bays are ready for immediate dispatch and will be delivered in 5 working days.

- **Best Selling system**
Offers the widest choice of sizes, all at great value
- **Easy to build and re-configure**
Simply tap together with a rubber mallet
- **Strong and sturdy**
With shelf capacities up to 600kgs, it easily copes with heavy goods
- **No nuts, bolts or screws**
Simple and quick to erect, with no fuss
- **Strong epoxy paint finish**
Designed to give years of service and withstand heavy use
- **Will suit any application**
Versatile and expandable, suits a wide range of industries
- **Guaranteed delivery in 5 days**
There when you need it, without fail

Heavy & Medium Rivet

Incredible value for money, amazing strength and rigidity. Bays come complete with 3 or more levels and have a central deck support on bays 1220mm to 2135mm wide, whilst 2440mm wide bays have two per level.

J Rivet

Our J rivet system has unbeatable strength at an incredible price. It is also manufactured to the highest quality. The shallow J beam profile (only 30mm thick) gives increased storage capacity whilst maintaining excellent strength.

Heights	Widths	Depths	Application	Construction	Loadings
Standard Bay Height (mm) 1830	Heavy Rivet Widths (mm) 915, 1220, 1525, 1830, 2135, 2440	Heavy Rivet Depths (mm) 305, 457, 610, 762, 915, 1220	Environment Warehouse, Storeroom, Workshop	Uprights: Steel Blue RAL5010	Heavy Rivet Shelf UDL 400-600kg

D Nominal Depth*
CE Clear Entry between uprights

* Dimensions used in price tables

Rivet Racking Bay Loading (kgs)

Rivet Upright

For safety and stability of the bay, the first level must be attached within 200mm from the ground!

	J Rivet	Heavy Rivet
A	98mm	125mm
B	see below ⓘ how to calculate exact Shelf Pitch	
C	B minus D	B minus D
D	30mm	88mm

A Minimum First Shelf Level Height
B Shelf Pitch - Distance between levels
C Clear Entry - Useable space between shelf levels
D Shelf Thickness - Beam and chipboard

ⓘ How can you calculate exact Shelf Pitch (B)

Height of item stored + Shelf Thickness divided by **38.1**
 = Round decimal up to the next whole number and multiply by **38.1**

e.g. 320mm (Height of stored items) + 88mm (Heavy Rivet) / 38.1
 = 10.7 rounded to 11 x 38.1 = 419.1mm Shelf Pitch

We have multiple solutions to different storage problems, if you are unsure what's best for you, please contact us.

SDL T: 01446772614 W: www.storage-designltd.com E: info@storage-design.ltd.uk

Rivet Racking accessories and components

1. J Rivet Beam

Decking is flush with the top of the beam

2. Notched Side Beam

Used with tubes to create rails

3. Rivet Upright

Uprights can be up to 3660mm high

4. Tie Plate

Connects two bays together

5. Plastic Feet

Comes as a standard with every bay

6. Metal Foot

Allows the bay to be floor fixed

7. Heavy Rivet Beam

Decking sits on top of the beam

8. Tray Shelf

Reversed medium rivet 'L' beams

11. Deck Support

Adds strength to shelf levels

10. Wall Bracket

Allows the bay to be wall fixed

9. Chipboard Deck

Rivet Racking uses 15mm and 16mm decks

Rivet Racking can be further enhanced with mobile accessories, providing another range of solutions.

HEAVY RIVET

Heavy duty industrial racking that meets the demands of any warehouse, storeroom and workshop.

Rivet Racking offers incredible value for money with amazing strength and rigidity. The quality of the materials used and robust construction ensures it will meet the rigors of the toughest workplace.

The vast range of bay sizes allows for a solution to meet your storage needs and the available space. Flexibility of wide open bays and large shelf capacities enable products of varying weights and dimensions to be easily stored within a single system.

Heavy Rivet beam profile 915, 1220 & 1525 wide

Heavy Rivet beam profile 1830, 2135 & 2440 wide

If you'd like the Heavy Rivet in blue/orange, use code 'BO' when placing the order.

Our lowest priced Rivet Shelving system

J RIVET

Fully flexible, low cost shelving system

Our J Rivet system offers unbeatable strength at an incredible price, manufactured to the high quality you have come to expect from one of the UK's leading suppliers.

The shallow J beam profile provides increased storage capacity whilst maintaining excellent strength. To maximise flexibility, our J Rivet range is compatible with our incredible Heavy Rivet range.

The system is simple to erect yet has all the strength you are likely to need with a bay load of up to 2800kg. The bays simply tap together with a rubber mallet so you can organize your storage in a fraction of the time it can take with more traditional systems.

With the average time to assemble a bay being just 5 minutes, you will be amazed at how easy it is to create large installations.

RIVET DIVIDER SYSTEM

Our Rivet Divider System provides an effective way to store loose or awkward items. The bays provide multiple locations for separating individual products.

The system uses our Heavy Rivet Racking solution with bespoke shelves, dividers and cladding. This creates a cost effective divider system with strength and easy installation. As well as standard bays we can offer bespoke designs.

Will suit any height or depth

Fix divider to any position

Bay Colour Options

For Blue Uprights with Orange Shelves add /BO to the end of your chosen price code.

For Blue Uprights with Grey Shelves add /BG to the end of your chosen price code.

Shelf Bins & Additional Dividers

If you need a strong, robust and versatile bin storage solution, at a competitive price – then look no further.

Our new range of Shelf Bins have been designed to offer a range of bins in "Big Sizes" for storing large parts or increased volumes. They can fit both small parts shelving systems as well as larger bays, such as Rivet or Longspan.

They have many new features, such as internal dividers that securely locate into 7 different locations. There is also an integral back stop allowing the bin to be suspended out from the shelving, for ease of picking.

With a semi-open front and a large labelling area below, ensures items can be identified quickly. The bins are available in Blue shockproof plastic and can be nested when not in use to save space.

from
£8.⁹³

Features

- 1 Integral back stop
- 2 Profiled sides for extra strength
- 3 Nestable design – space saving
- 4 Large labelling area
- 5 Semi-open fronted design
- 6 7 divider positions in each bin
- 7 Dividers positively slot into the bin

Keep cable reels organised

A new solution for organising and dispensing cable and items stored in reels.

The simple side beam supports a 25mm diameter tube which can hold a variety of drums or reels. The beam is notched so the tubes can be placed in 5 different positions. Each level is then fitted with a face beam to enable the material to be passed to the user and conveniently cut to length.

The units come as either static racks or as a low level mobile trolley. Bays are available in either 915 or 1220mm wide and 610mm deep.

● Cable Reel Trolley 915 x 915 x 610 mm

5 different positions for the tube

Braked castors for additional safety

● Cable Reel Rack 1830 x 915 x 610 mm

RIVET GARMENT RACKS

The perfect storage solution for any bulk garment hanging requirement. All constructed from Rivet racking components for simplicity and ease of assembly.

The 25mm zinc coated tube slots into place on the notched beams and can be located in five different positions. This can provide a single rail centrally positioned or two rails located on each face of the rack providing twice the capacity. Each storage level can be adjusted every 38mm.

Two single rail garment bays connected with tie plates

Price includes uprights, plastic feet, chipboard decks for top and bottom shelves, two levels with notched beams, support beams and 2 or 4 zinc coated tubes

Utilise space with our high density Archive solution

● Double Box Deep Rivet Archive 3050 x 1830 x 915 with 100 boxes on 5 levels

ARCHIVE STORAGE SOLUTIONS

Our Rivet Archive range is the perfect solution for high density paper storage and archiving.

Our range of Archive Storage Solutions is formed of our Heavy Rivet range combined with high quality Heavy Duty Archive boxes. Each individual box offers a loading capacity of up to 20kg, with shelves supporting a UDL of up to 500kg.

Rivet Archive is available in two depths, three heights and two widths and is perfect for the storeroom, workshop or warehouse.

Need More Boxes?

Our Heavy Duty Archive box and lid are designed to hold 20kgs of paper. The robust construction means documents will be securely and safely stored. The boxes come flat packed and are easy to assemble. Boxes come with handle holes for easy transportation and the internal dimensions are 250H x 330W x 390D.

EXPO 4 BOLTLESS SHELVING

With EXPO it's as easy as 1-2-3-4

The unique friction steel clip and shelf design allows the system to be safely erected in minutes.

It now boasts one of the largest selections of modular capacities and sizes, along with an unrivalled range of accessories all finished in a high quality epoxy powder coat paint or galvanised finish.

EXPO 4 offers designers and specifiers a solution to meet any design brief, whether it's a few bays for the office, a multi-tier system or high bay project for the warehouse.

- **Clip fit shelving**
All steel shelf adjustable on steel shelf clips
- **Strong and simple to build**
Build bays quickly and easily adjust shelves
- **Flexible storage systems**
Easily adapts to your changing storage needs
- **Hard wearing painted or galvanised finish**
Offers a clean and bright epoxy powder paint finish
- **Huge range of accessories**
Solves all your storage problems, now and for the future

EXPO.....one upright with four interchangeable shelf styles

EXPO 4 FULL DETAILS TURN TO PAGE 51

The original shelf design, that comes with a wide range of sizes and capacities, all in a hard wearing light grey (RAL7038) epoxy powder coated finish.

EXPO 4D FULL DETAILS TURN TO PAGE 54

A slotted shelf design, that allows a range of dividers to be integrated into the shelf, which can form compartments within the bay. All in a pure white (RAL9010) epoxy powder coated finish.

EXPO 4G FULL DETAILS TURN TO PAGE 50

The latest addition to the range which offers a competitive, hard wearing galvanised finish, with shelf capacities up to 200kgs.

EXPO 3 FULL DETAILS TURN TO PAGE 56

The "EXTRA" Heavy duty shelf, with shelf capacities up to 300kgs and shelf sizes from 1300mm wide and 1000mm deep. All in a

EXPO 4G

EXPO 4G Offers loadings of up to 200kgs per shelf and is supplied in an all-Galvanised finish, it is the ideal solution for all kinds of storage solutions.

A traditional shelf supported on 4 clips and fully adjustable in increments of 25mm to give maximum flexibility. EXPO 4G has shelf depths of 300, 400, 500 and 600mm and frame heights of 2000, 2200, 2500 and 3000mm.

EXPO 4

The “Original” Expo 4 shelf designs offer loadings of up to 200kgs but in a hard-wearing painted finish (RAL7038). Each shelf can be adjusted every 25mm along the upright (Blue RAL5010) providing a quick and simple way to position each shelf.

The shelves come in three widths and four depths from stock, bay heights range from 2000–3000mm from stock but others size and capacities are available to order.

So, whether it's a few bays for the office, a multi-tier or high bay project for the warehouse, we have the solution to meet your needs.

EXPO 4D

Expo 4D integrates the Delta Plus shelf within the standard Expo uprights (Blue RAL5010). These shelves are finished in a pure white (RAL9010).

The shelves come slotted, this allows the use of a range of dividers to create compartments along the shelf, which are available in two widths and four depths.

Bays are supplied with six slotted shelves and are all easily adjustable on clips at a 25mm pitch. All you need to do is select the accessories you need to create any bay configurations that meets your requirements.

EXPO 3

Galvanised Boltless shelving.

EXPO 3 uses the same upright as our EXPO 4 shelving system, but has the unique shelf design which can have capacities up to 300kgs UDL. The design is based on a pair of shelf carriers and the combination of 100mm or 200mm panels to make up the required depth.

- **Hard wearing galvanised finish**
Tough and bright finish that will last the rigours of any environment
- **Simple to build**
Build bays quickly to get your storage problems sorted fast
- **Will suit any application**
Versatile and expandable and suits a wide range of industries
- **Interchangeable with EXPO 4 system**
Mix and match accessories and components with our EXPO 4 systems
- **Wide choice of sizes**
Flexibility to suit all your storage needs within one product

DELTA PLUS STEEL SHELVING

Delta Plus is our versatile steel shelving system and is the evolution of our popular Delta Edge range. Ideal for the office, library, workshop or warehouse, Delta Plus is the ultimate all-rounder.

Developed in-house in the UK, Delta Plus features an aesthetically attractive yet conveniently simple design. The system is brilliantly adaptable with a choice of plain or slotted shelves adjustable every 25mm. The system boasts a vast range of dividers and accessories making Delta Plus perfect for any brief.

Hidden shelf clips and wide open bays maximise the space available to store items. Accessories and dividers allow additional scope to organise items neatly, reducing time and stress.

- **True delta edge profile**
- **Slotted shelves or solid shelves available**
- **120kg (UDL) Shelf loading**
- **Huge range of dividers and accessories**
- **Shelf pitch every 25mm with indicators every 100mm**
- **Hidden shelf clips for maximised storage space**
- **Attractive Pure White (RAL9010) finish**
- **Designed in-house in the United Kingdom**

MIDISPAN RACKING

Midspan is our longspan shelving system with steel decking panels supplied in a contemporary pre-galvanised finish.

This makes it ideal for the most demanding applications and environments. The profiles are designed in such a way to ensure there are no sharp edges when assembling or in use.

The system has a wide range of profiles and sizes which provides complete flexibility when designing your warehouse. Along with a range of accessories that make it simple to store many different products as well as bespoke solutions for the automotive industry.

We offer guaranteed delivery within 5 days, including components to build a high bay or multi-tier installation from our large stocks.

- **Heavy duty and secure**
- **Easy to build and reconfigure**
- **Beams adjust every 25mm**
- **Guaranteed delivery in 5 days**
- **Available in blue or galvanised uprights**
- **Galvanised beams and decking panels**

MIDISPAN RACKING

TS LONGSPAN RACKING

If you need a strong, robust and versatile solution, at a competitive price – then look no further.

The unique fit between the upright and claw gives our longspan racking incredible strength and rigidity. Along with our heavy duty "Z profile" beam which ensures it will meet the most rigorous demands.

All levels come with heavy duty deck supports as standard, this ensures the chipboard & steel mesh shelves carry the same load as the beams. The unique deck support slots into the beam which also eliminates the beams spreading or rotating.

- **Heavy duty Racking system**
Store all your heavy and bulk items with ease
- **Adaptable storage solutions**
Simple to add to, as your storage needs grow
- **Strong "Z" profile beam design**
Unique beam design that offers capacities up to 950kgs
- **Heavy duty shelf levels**
Shelf levels includes deck supports to match beam capacities
- **Guaranteed delivery in 5 days**
Get your stores organised quickly with no hassle

Extremely strong, heavy duty system that's easy to build

2754mm Beam

Heights

Standard Bay Height (mm)
1984, 2492, 3000,

3300				3300			
3100					3100		
2900						2900	
2700							2700

Distance between levels (mm)

Longspan Footplate

ⓘ Remember, if your shelving's height to depth ratio is greater than 4:1, the bay should be fixed to the floor or to the wall!

TS Longspan Heavy Duty Racking

If you need a strong, robust and versatile solution, at a competitive price – then look no further.

The unique fit between the upright and claw gives our longspan racking incredible strength and rigidity. Along with our heavy duty “Z profile” beam which ensures it will meet the most rigorous demands.

All levels come with heavy duty deck supports as standard (except 471mm deep). This ensures the chipboard, solid steel and wire mesh shelves carry the same load as the beams. The unique deck support slots into the beam which also eliminates the beams spreading or rotating.

- **“Twin Slot” pattern on the upright**
New larger upright profile 60x50mm with twin slots
- **Heavy duty Racking system**
Store all your heavy and bulk items with ease
- **Adaptable storage solutions**
Simple to add to, as your storage needs grow
- **Strong “Z” profile beam design**
Unique beam design that offers capacities up to 950kgs
- **Heavy duty shelf levels**
Shelf levels includes deck supports to match beam capacities
- **Guaranteed delivery in 5 days**
Get your stores organised quickly with no hassle

Deck supports are supplied on Depth's of 610mm and greater.

❶ can be made to suit any height or depth

❶ Fix divider to any position

❶ Remember, if your shelving's height to depth ratio is greater than 4:1, the bay should be fixed to the floor or to the wall!

Shelf Bins & Additional Dividers

If you need a strong, robust and versatile bin storage solution, at a competitive price – then look no further.

Our new range of Shelf Bins have been designed to offer a range of bins in "Big Sizes" for storing large parts or increased volumes. They can fit both small parts shelving systems as well as larger bays, such as Rivet or Longspan.

They have many new features, such as internal dividers that securely locate into 7 different locations. There is also an integral back stop allowing the bin to be suspended out from the shelving, for ease of picking.

With a semi-open fronted and a large labelling area below, ensures items can be identified quickly. The bins are available in Blue shockproof plastic and can be nested when not in use to save space.

CANTILEVER RACK

Our cantilever system is based on modular bays and fittings to provide cost effective storage of long and awkward items.

The frames are available in three heights and three depths in both single and double sided configurations. Each bay comes complete with three arms per frame and you can add or deduct the number of levels required.

The arms can be fitted with end stops (at an additional cost shown) to secure any loose products from falling off. The frames are spaced 1000mm or 1500mm apart with bolted on X brace, so you can easily work out your run using the starter and extension bay.

- Incredible value for money
- Easy to build and reconfigure
- Up to 2200kgs per side
- Arms adjust every 75mm
- Tough epoxy finish

VERTICAL RACK

A cost effective way of storing all those long and awkward items.

Our vertical racking is derived from our Heavy Duty Midspan system. The system comes as a starter and extension bay format meaning long runs are more cost effective.

The bays come with 3 dividers, all necessary frames and base plates, two front beams and one back beam and base rail. Other size racks available to order, please contact the sales office.

- **Great value for money**
- **Store all your long awkward items**
- **Quickly gets your storage organized**
- **Simple to build and reconfigure**
- **Fully adjustable hoop dividers**
- **Starter and extension bay system**
- **Can be secured to the floor**

UPRIGHT RACK PROTECTORS

Our moulded rack protectors offer a high visibility bumper, which suits many of the leading pallet racking systems.

Ideally suited for intermediate uprights with a slim profile that does not reduce the clear opening of the bay.

The unique design allows the impact to be absorbed within the protector whilst having the ability to reform after impact. Each guard is quickly installed onto the face of the upright with two cable ties (an additional cable tie is supplied for every protector for maintenance)

- **Cost effective pallet rack protector**
- **Tough impact resistant**
- **High visibility yellow**
- **Energy absorbing design**
- **Easily fitted and removed**
- **Certified to impact loads specified in EN15512-2009**
- **Made from polyethylene compounded plastic**

Choose your upright protector size

- Absorbs the impact energy preventing damage to the upright
- Available in several widths to suit different manufacturers' uprights
- Protectors are 500mm high and can be stacked two high (1000mm)
- Simple attachment to the rack uprights with 2 cable ties
- Quick release cable tie for easier maintenance checks
- Narrow design without reducing the clear entry of the bay
- High visibility yellow colour enhances position of upright location
- Injection moulded from a high impact plastic compound
- Distributes the collision load to an internal energy absorbing pad
- Chemical resistant and suitable for use in temperatures down to -35°C
- Design Registration No. 335225 and No. 335226

Description	Code	Upright Width	Height	Colour	Price
Visiplas Upright Protector	AVS1	50-63mm	500mm	Yellow	£23.41

HEAVY DUTY 'RHINO TUFF' PLASTIC BINS

With a lifetime guarantee, these plastic bins will perform in any environment time and time again.

Their strong robust design and shock proof plastic make these bins ideal for heavy duty industrial applications. The quality and ergonomic design means all our plastic bins can be stacked securely or hung on louvre panels or rails making them efficient in any small part picking environment.

They have a large identification area as well as a large open picking face, meaning the contents are easily identified and picked. With 10 sizes to choose from plus a range of wall panels, racks, trolleys and shelving bays.

- **Small parts storage solution**
- **Made in tough shock proof plastic**
- **Lifetime guarantee**
- **Robust and ergonomic design**
- **Bins in 10 sizes, four colours**
- **Guaranteed delivery in 5 days**

Our range of 'Rhino Tuff' Plastic Bins come with a Lifetime Guarantee

Efficient way to organise high density small part picking walls

LOUVRE RACKS

Our range of louvre racks provide an efficient way to organise small parts bins which include every size for our Rhino range.

The racks provide a simple way to organise small part storage bins, providing a high density storage solution whilst maintaining an efficient way to retrieve items from the picking face.

The frames are made from strong box section profiles finished in light grey RAL 7035 and the louvre panels from hard wearing galvanized steel.

Best mobile solution for small parts picking

LOUVRE TROLLEYS

Save wasted time travelling to items stored in static shelving installations by putting all your small parts storage bins onto our Louvre Trolleys.

Each trolley has been designed to perform to the highest standards with a robust frame design and tough galvanised louvre panels. Each unit comes with an ergonomic plastic handle so the unit can be comfortably moved. The trolley is fitted with heavy duty swivel castors, that offer ease of movement. Two of the castors are braked, which means the trolley can be secured when not in use.

Louvre Trolley dimensions (mm)

❗ If you are looking for a mobile solution, we have a range of Mobile Workbenches on Page 40.

Component organisers on Louvre Rack

Component organisers on Rotary Stand

COMPONENT ORGANISERS

Component Organisers are the perfect small parts organiser for your item storage needs. The Body and frame are made from durable High-Impact Polypropylene and the drawers and Partitions are made from transparent Polypropylene.

Each drawer comes with its own removable horizontal partition, effectively doubling the number of compartments which can be used in the component organiser.

The component organisers can be screwed directly on a wall with the pre-configured holes on the rear side of the cabinet or mounted on a wall using specially designed frames.

The component organisers can be mounted on metal louvre panels with the help of four clips for better mounting which can be fitted on the back wall of the cabinet.

Rhino Tilt Bins are built with robust, high-impact polystyrene, providing security to items inside

TILT BIN FRAMES & STANDS

Tilt Bins are designed to be wall mounted using the special wall mounting frame kit or be mounted on a self supporting, single or double sided stand.

Tilt bins with retaining bars are ideal in any situation where the tilt bins need to be secured such as Vans & mobile work areas but can also be unsecured quickly for easy access.

Retaining bar

How to affix Tilt Bins on Vertical Frames

1. Having removed the Tilt Bin, insert the screw corresponding to the screw holes in the Tilt Bin Cabinet.

3. Interlock the cabinets by sliding front to back. Then insert the fixing plates into the vertical frame.

2. Screw into the Fixing Plate on the back of the Tilt Bin Cabinet.

4. Once in place tighten the screws to affix the Tilt Bin cabinet to the vertical frame.

Tilt Bins with Retaining Bar ideal for Van Kits & Mobile Work Areas

SHELF TRAYS

Our range of shelf trays are designed for strength and ease to use at a competitive price.

Our shelf trays feature a spring loaded shelf stop at the back of the tray. This means the tray can be withdrawn from the shelf and suspended offering around 90% clear picking. This stop also acts as a handle to make it easier to carry.

With shelf trays available in 3 depths, 2 widths and 2 heights any configuration can be designed to offer the maximum high density storage solution. Trays can be sub divided from left to right and all trays and dividers come with labels.

- **Improved strength and rigidity**
- **More ergonomic features**
- **Sprung loaded shelf stop**
- **Can be sub divided**
- **High density storage system**
- **Offers fast retrieval times**
- **Large range of sizes**
- **Goods are kept clean**
- **Better product identification**
- **Uprights are Blue RAL5010**
- **Shelves are White RAL9010**

i Price includes complete Kanban bay with 5x sloping shelves, top and bottom shelves.

KANBAN SHELVING

Rivet Racking Kanban is our solution for production line-side supply systems, where sloping shelves present containers for easy access and at the right height for operatives.

This can reduce costs and increase efficiency for manufacturing operations or inventory management. The two bin arrangement simplifies stock rotation and replenishment. When the front bin is removed the bin behind takes its place, leaving a space that is clearly identified for refilling on the next inspection.

Semi-open Fronted

SHELF BINS

Are you in need a strong, robust and versatile bin storage solution, at a competitive price? – then look no further.

Our range of Shelf Bins have been designed to offer a range of bins in “Big Sizes” for storing large parts or increased volumes. They can fit both small parts shelving systems as well as larger bays, such as Rivet or Longspan.

They have many new features, such as internal dividers that securely locate in up to 7 different locations. There is also an integral back stop allowing the bin to be suspended out from the shelving, for ease of picking.

With a semi-open front and a large labelling area below, ensures items can be identified quickly. The bins are available in Blue shockproof plastic and can be nested when not in use to save space.

Label and Ticket Holders

Magnetic Label Holders and Self Adhesive Label Holders

Available in self-adhesive or magnetic formats, these holders keep labels, barcodes, and location markers protected and readable, ensuring a long-lasting and effective labelling system. Each holder is supplied in pre-cut lengths and come complete with card and cover strip.

- **Instant visible rack identification**
Choose either magnetic or self-adhesive
- **Two Fixing Options**
Magnetic holders are ideal for applications where regular changes are required, or cold stores to temperatures of -30 degrees. Self-adhesive is great for a more permanent labelling solution.
- **Other sizes available from stock**
Pre-cut lengths for quick despatch
- **5, 10 & 50 metre rolls are also available**
to be cut to size with scissors
- **Scannable & Barcode-Compatible**
Transparent cover allows easy barcode scanning.
- **Protects Label from Dirt & Damage**
The clear PVC cover strip shields labels from dust, spills, and wear and tear.

Available in blue (B), green (G), red (R), white (W), and yellow (Y)

Magnetic Easy Wipe Location Markers

White magnetic location markers supplied in pre cut single sized pieces. Use a wet-wipe marker pen, write on, update and move when required.

These pre-cut markers offer a quick and easy high visibility system of identifying locations, products or stock quantities etc.

For best results please use a wet wipe marker pen, the text can then be simply cleaned using a damp cloth - using permanent markers will require a strong alcohol based cleaner.

Magnetic Easy Wipe Location Markers

H x W (mm)	Code	Pack	Colour	Price
20 x 80	LM28W	100	White	£26.70
30 x 80	LM38W	100	White	£34.50

racksack®

racksack® is a practical, space-saving way to sort and dispose of waste in the workplace. Originally designed to fit onto the end of racking systems with S hooks, they're ideal for use in warehouses, factories, and other industrial settings. The range has since expanded to include rollcage, trolley, mini, and nano styles.

- racksack® can be bespoke overprinted with different designs, including company logos, prices available upon request
- Supplied with 2x S hooks. Optional bungee loop or wall-mounted hook fixings also available.

racksack®

Climb-It® Mobile Steps with Safety Gates

These Mobile Steps are equipped with a spring gate that keeps the user confined in their working space. It meets the rigorous standards of EN 131 Professional, ensuring reliability and safety is to a maximum. The units anti-slip, fully enclosed, plywood platform ensures the user is kept safe and gripped, especially when working at height.

- Non-slip plywood platform (600 x 500mm)
- Fully enclosed platform with spring-loaded gates
- 100mm wide treads with anti-slip pattern to prevent slipping
- Equipped with braked swivel castors for stability and mobility
- Maximum load capacity: 150kg
- Certified to EN 131 Professional standards

LOCKERS
HAZARDOUS CUPBOARDS

Keep all hazardous products safe and secure

HAZARDOUS SUBSTANCE CUPBOARDS

It is vital that employers and employees comply with the control of hazardous substances in all working environments.

This range of cupboards and cabinets enables the separate storage and transportation of hazardous substances as demanded by the CoSHH regulations.

- **"No snag" handles with 2-point locking**
- **Adjustable spill-retaining galvanized shelves for superior spill management***
- **Integral liquid-tight sump encourages the correct handling of spills through the use of absorbents***
- **Floor chests have a welded integrated sump, angled lid to discourage article placement and a hasp and staple lock - padlock not supplied**
- **Stands raise cupboards by 500mm with an adjustable foot for uneven surfaces.**

ImpactSAFE Heavy Duty Bollard

This advanced range of Heavy Duty Bolt-Down Bollards has shock absorbing rubber buffers to take the force of impacts away from the slab and fixings.

Our Heavy Duty Bolt-Down Bollards offer exceptional impact protection with industrial steel cores and innovative ImpactSAFE shock-absorbing rubber buffers, designed to deflect impact force away from slabs and fixings. Available in 1000mm, 1300mm, and 1600mm heights, each bollard includes a slide-over polymer cover kit—eliminating the need for repainting—and 50mm reflective bands for high visibility.

Installation is fast and secure using bolt-down fixings and flush finish safety-plus floor anchors, which reduce trip hazards and prevent dirt build-up. These bollards are ideal for safeguarding entrances, service zones, and high-traffic areas across commercial and industrial sites.

The 168mm diameter steel cores come with galvanized base plates and are available in five bright colour options. Fully tested to PAS 13 standards, these bollards deliver long-term durability, reduced maintenance, and enhanced safety.

A full range of bolt-down and potted (cast-in) options is also available upon request.

- Heavy Duty Bollard available in 1000mm, 1300mm and 1600mm height options
- Bolt-Down fixings, with polymer cover kits and 50mm reflective bands
- Industrial steel core bollards with ImpactSAFE shock absorbing buffers to arrest impact force
- Easy to fit, slide-over Polymer cover kits to eliminate need for repainting
- Flush finish safety-plus floor anchors to reduce trip hazards and dirt collection

What is the PAS 13 code of practice?

PAS 13 is the only global code of practice for industrial safety barriers. It is intended to be used as a reference point for engineers, architects, contractors, health and safety professionals, as well as any other stakeholders involved in the design, construction, deployment and maintenance of safety barriers. The code is based on the principles of risk assessment and recommends selecting the appropriate safety barriers based on the potential hazards and risks in the surrounding area.

Compliance with PAS 13 helps to ensure that the installed safety barriers are effective in protecting people and assets from potential hazards and ultimately minimising the risk of accidents and injuries.

End of Aisle Double Bumper Barrier

Low maintenance High Density Polyethylene (HDPE) plastic barriers only need replacing when frequent, major impact has occurred.

Unlike metal barriers, there is minimal floor damage when impact occurs, saving maintenance costs long term. Available in a range of striking, high visibility colours that are easily detectable, preventing accidents before they happen. Fully recyclable and non-toxic. Suitable for use in food production facilities & freezer environments.

- Made from Highly durable plastic to protect end of aisle
- Flexes on impact and reforms shape
- Variety of highly visible colours available
- Use in temperatures as low as -40°C
- Colour Options: Colourfast Yellow & Grey & Safety Yellow & Grey

Pedestrian Safety Gates

Safe and easy to use pedestrian access for any barrier system

Manufactured from low maintenance, High Density Polyethylene (HDPE) plastic, these gates only need replacing when frequent, major impact occurs. Unlike metal gates, there is minimal floor damage upon impact, saving long-term maintenance costs. Available in a range of striking, high-visibility colours that are easily detectable, they prevent accidents before they happen. Fully recyclable and non-toxic, these gates are suitable for use in food production facilities and freezer environments. They align perfectly with our safety barrier range, including Pedestrian Safety Barriers (SEG+), Guardrail Systems (MHE / PIT), Single Bumper Pedestrian Barriers, Double Bumper Pedestrian Barriers.

- Separating forklifts from pedestrian routes
- Flexes on impact and reforms shape
- Use in ambient, chilled, and freezer environments
- Compatible with our range of safety barrier systems

Description	Part number	Price
Safety gate in colourfast yellow and grey	RB-GATE90-CF-G	£370.00
Safety gate in safety yellow and grey	RB-GATE90-SY-G	£370.00

Floor Rail Barriers

Protect your aisles of racking from low level accidental impact damage with this durable Floor Rail Bumper system.

The Floor Rail Barrier is a robust and efficient solution designed to enhance racking protection in various industrial environments. Manufactured from high-density polyethylene (HDPE) polymer, these barriers provide durable and reliable protection, making them ideal for safeguarding infrastructure against impacts from material handling equipment (MHE).

Features and Benefits:

- Highly durable plastic for long lasting protection
- Flexes on impact and reforms shape
- Use in ambient, chilled and freezer environments
- Available in Safety Yellow (Standard)
- Bespoke options available upon request

Description	Part number	Price
Floor rail bumper 1200mm long in colourfast yellow	RB-FR-1200-CF	£60.00
Floor rail bumper 1200mm long in safety yellow	RB-FR-1200-SY	£60.00
Floor rail bumper 1200mm long in grey	RB-FR-1200-G	£60.00

Protection Bollard

Unlike metal barriers, there is minimal floor damage when impact occurs, saving maintenance costs long term.

Adding strength and presence to corners, structures and entryways Available in a range of striking, high visibility colours that are easily detectable, preventing accidents before they happen.

Fully recyclable and non-toxic. Suitable for use in food production facilities and freezer environments.

- Highly durable plastic with a steel core for long lasting protection
- Variety of highly visible colours available
- Use in temperatures as low as -40°C
- Colour Options: Colourfast Yellow & Grey & Safety Yellow & Grey"

Description	Part number	Price
Safety bollard 1200mm high in colourfast yellow and grey	RB-B1200-CF-G	£320.00
Safety bollard 900mm high in colourfast yellow and grey	RB-B900-CF-G	£300.00
Safety bollard 600mm high in colourfast yellow and grey	RB-B600-CF-G	£210.00
Safety bollard 1200mm high in safety yellow and grey	RB-B1200-SY-G	£320.00
Safety bollard 900mm high in safety yellow and grey	RB-B900-SY-G	£300.00
Safety bollard 600mm high in safety yellow and grey	RB-B600-SY-G	£210.00

ImpactSAFE Bollards

Low maintenance High Density Polyethylene (HDPE) plastic barriers only need replacing when frequent, major impact has occurred. Pedestrian barriers with bumpers offer extra deflection and strength to increase safety of pedestrians.

- Highly durable plastic for long lasting protection
- Flexes on impact and reforms shape
- Variety of highly visible colours available
- Use in temperatures as low as -40°C
- Colour Options: Colourfast Yellow & Grey & Safety Yellow & Grey

Description	Part number	Price
Single bumper pedestrian barrier 1900mm length in colourfast yellow and grey	RB-SBPB-CF-G-1900	£580.00
Single bumper pedestrian barrier 3400mm length in colourfast yellow and grey	RB-SBPB-CF-G-3400	£890.00
Single bumper pedestrian barrier 4900mm length in colourfast yellow and grey	RB-SBPB-CF-G-4900	£1,200.00
Single bumper pedestrian barrier 1900mm length in safety yellow and grey	RB-SBPB-SY-G-1900	£580.00
Single bumper pedestrian barrier 3400mm length in safety yellow and grey	RB-SBPB-SY-G-3400	£890.00
Single bumper pedestrian barrier 4900mm length in safety yellow and grey	RB-SBPB-SY-G-4900	£1,200.00
Double bumper pedestrian barrier 1900mm length in colourfast yellow and grey	RB-DBPB-CF-G-1900	£670.00
Double bumper pedestrian barrier 3400mm length in colourfast yellow and grey	RB-DBPB-CF-G-3400	£1,040.00
Double bumper pedestrian barrier 4900mm length in colourfast yellow and grey	RB-DBPB-CF-G-4900	£1,420.00
Double bumper pedestrian barrier 1900mm length in safety yellow and grey	RB-DBPB-SY-G-1900	£670.00
Double bumper pedestrian barrier 3400mm length in safety yellow and grey	RB-DBPB-SY-G-3400	£1,040.00
Double bumper pedestrian barrier 4900mm length in safety yellow and grey	RB-DBPB-SY-G-4900	£1,420.00

ImpactSAFE Protection Posts

Low-cost door and services protection

Medium Duty Protection Post - Ideal for keeping pallet trucks and MHE away from equipment, vulnerable services and building projections, which would otherwise result in personnel safety issues and impact damage. This product combines the strength of a steel core and baseplate, with the impact absorption of a rubber buffer. Sleeved in highly visible Safety Yellow Polyethylene, our Protection Posts are low-maintenance, with no requirement for

repainting going forward.

- Strong and robust protection post
- 600mm, 800mm and 1000mm high post options
- Highly visible to drivers and pedestrians
- No need for repainting with Yellow polyethylene sleeve

Description	Part number	Price
ImpactSAFE Protection Posts - 600mm High - Yellow & Black	ISP-600YB	-
ImpactSAFE Protection Post - 800mm High - Yellow & Black	ISP-800YB	-
ImpactSAFE Protection Post - 1000mm High - Yellow & Black	ISP-1000YB	-

Flexible Delineators

Safe and easy to use pedestrian access for any barrier system

Flexi-delineators designed to route vehicles safely round your industrial facility. They are ideal for segregation of traffic routes with risk of vehicle impact where barriers are not achievable or desired.

Highly visible with 4 no. Reflective Bands to promote night time safety. Soft under vehicle impact - they will crush and bend returning to original state without damage to the delineator or damage to the vehicles.

- Separating forklifts from pedestrian routes
- Flexes on impact and reforms shape
- Use in ambient, chilled, and freezer environments
- Compatible with our range of safety barrier systems

Description	Part number	Price
Flexi-Delineator - Black & Yellow	FD-1000-BY	-
Flexi-Delineator - Yellow & Silver	FD-1000-YS	-
Flexi-Delineator - White & Red	FD-1000-WR	-
Flexi-Delineator - Black & Silver	FD-1000-BS	-

PolyWRAPs Column Protectors

Designed to make columns highly visible to MHE/PIT traffic operators. Clashes with columns and the protector will cushion the impact. The tough Polyethylene makes this the product of choice for most industrial facilities - no fixings to the slab this is a simple clam-shell fitment.

The PolyWRAP is suitable for structural columns and high risk mezzanine columns where forklifts and power trucks operate.

- Designed to fit a wide range of common structural steel columns to provide impact protection
- Vibrant colours to make them highly visible to drivers
- Simple clam-shell design make it quick and easy to install and secure with ratchet straps
- Stackable design with impact absorbing cores reduces the impact damage done to vehicles

Model Number	Dimensions (mm)	Price
PW-150	152 x 152	£300.00
PW-200	203 x 203	£210.00
PW-250	254 x 254	£320.00
PW-300	305 x 305	£300.00
PW-370	356 x 368	£210.00
PW-420	406 x 406	£210.00
PW-600	610 x 305	£210.00
PW-900	914 x 305	£210.00

PolyWRAP SpaceSavers

PolyWRAP SpaceSaver Column Protectors are quick and easy to install and are ideal for protecting mezzanine columns without taking up valuable floor space:

- Designed to make columns highly visible to traffic operators to see the column and avoid hitting it
 - Specifically designed to suit mezzanine columns where space is at a premium
 - PolyWRAP SpaceSaver column protector will cushion the impact, avoiding damage to both the vehicle and the column itself
 - Tough polyethylene construction makes this the product of choice for most industrial facilities
- Simple clam-shell design that requires no fixings to install
- The performance of the PolyWRAP SpaceSaver will depend on vehicle speeds, weights and condition of impact

Model Number	Dimensions (mm)	Price
PWSS-100	100 x 100	£300.00
PWSS-120	120 x 120	£210.00
PWSS-150	150 x 150	£320.00
PWSS-200	203 x 203	£300.00
PWSS-250	250 x 250	£210.00

Sign & Lamp PostWRAPs

A 2 piece clam-shell designed Sign Post Protector with high density foam impact cores. Manufactured from tough Polyethylene with high density foam absorbing impact core. Available in 5 colour options with 3 no. diamond grade reflective bands for night time visibility. Each protector can be simply raised up to gain access to the security hatch for maintenance access.

- Quick and easy to install on-site
- Low-cost solution avoids unnecessary and expensive excavation associated with potted steel solutions
- The system incorporates an absorbing core that will take vehicle nudges and low speed impact avoiding damage to vehicle bumpers and/or the sign post itself
- Tough Polyethylene construction, will stand up to all weather conditions

- Unique Clam Shell system with security fixings
- Diamond grade 50mm hi-vis reflectors
- 1250mm High, outer diameter 285mm – max UK Manufacture internal diameter 210mm
- Can be used 'Double Stacked' at 2500mm high to suit HGV cab level visibility
- Manufactured in the UK from Polyethylene

Model Number	Colour	Price
BS-SPW-1250-YS	Yellow & Silver	£300.00
BS-SPW-1250-RW	Red & White	£210.00
BS-SPW-1250-BY	Black & Yellow	£300.00
BS-SPW-1250-BW	Black & White	£210.00
BS-SPW-1250-GW	Green & White	£210.00

SoftWRAPs

Eliminate the risk of personnel injury in your industrial facility with the fitment of SoftWRAP column protection. A high tear resistant yellow textured vinyl canvas encasing polyethylene based medium density foam cores for easy wrap-around fitment to i-Beams, secured by 50mm Velcro seam. Typically installed at 1100mm or 1800mm heights.

Model Number	Dimensions (mm)	Price
SWC-1100-Y	1100mm x 300mm x 300mm	£300.00
SWC-1800-Y	1800mm x 300mm x 300mm	£210.00

CornerWRAP

CornerWRAP makes exposed corners highly visible, while reflective chevron stripes provide excellent night-time visibility:

- **Medium Duty CornerWRAP** is an ideal solution for protecting vulnerable door opening corners
- **Heavy Duty CornerWRAP** is a perfect solution for exposed corners and header beams, highlighting vulnerable corners and providing a cushion under impact
- Protects people and buildings from harmful effects
- Suitable for steel, brick, block or precast concrete walls

Model Number	Description	Price
CW-LD800-BY	Medium Duty CornerWRAP - Black & Yellow	£300.00
CW-LD890-BY	Heavy Duty CornerWRAP - Black & Yellow	£300.00

EdgeWRAPs

Provides safety and visual awareness to sharp edges in the workplace

- Easy to install foam edge protection
- Protect pedestrians from injury to heads and limbs
- Makes exposed sharp edges visible and safe
- Protects exposed edges from damage

Type	Code	Shape Description	Cutout Dimensions	Price
A	EW-40-A	Cutout circle	Not specified	£300.00
B	EW-40-B	Push-fit circle	20 x 8mm	£210.00
C	EW-40-C	Semi-circle	Flat Edge: 32mm	£300.00
D	EW-6020-D	Rectangle	Not specified	£210.00
E	EW-40-E	Push-fit trapeze	20 x 8mm	£210.00

Workplace Projects Industrial Fit-Out

The design of a warehouse clearly has a direct effect on the efficiency of the entire business. With such a critical area of the supply chain it makes perfect sense to get expert guidance and support. We can provide advice on warehouse design inside and out, we will listen to you and what your organisation needs and supply the complete solution.

- Industrial partitions
- Kitchen and welfare facilities
- Mezzanine floors
- Storage systems
- Materials handling
- Live storage systems
- Roller and belt conveyors
- Picking and packing equipment

! Book your annual Rack Inspections to keep safe & operational

Inspections

By ensuring that the racking system is in good condition, annual inspections can improve safety, productivity, and compliance, while minimizing costs and liability.

An experienced and qualified inspector will walk you around any identified situations in the report, to spend the time to assist you with the information you need to ensure your storage systems are safe and compliant to the latest health and safety legislation. This will help to reduce risk and prolong the lifespan of your racking... ultimately saving you money!

On completion of an electronic inspection from a PUWER & SEMA accredited inspector, you will have a clear & concise digital next day report, highlighting;

- Priority rated actions to SEMA's Red, Amber and Green classifications.
- Recommendations that will prolong the life of your storage equipment.
- Guidance to improve workforce safety such as housekeeping.

Book an inspection to remain compliant and to safeguard your warehouse

Training

Upskill your team to better support maintenance, safety and operations

Having the inhouse personnel with the skills to quickly spot, assess and repair your racking, can have a significant savings, improve productivity and your profitability.

Does your team understand what to look for and why?

Anything can happen to your warehouse in between annual inspections, why leave it to chance? Regular internal checks of your racking ensures that it stays safe to support your stock and remains structurally sound.

Does your team have the skills to repair and reduce racking risk?

In house repair skills means you can minimise production downtime and your repair costs long term, by addressing damage when it happens. Provide the skills and knowledge required for your team to safely carry out repairs on damaged racking systems with confidence, by trainers who are all highly experienced ex installers.

Book a course to secure your organisation against safety and operational risks
