R.O.I

WHY DO WE PAY EXTRA FOR DECORATED, LOUD MUSIC MATATUS- ARE WE HELPING REPAY THE INVESTMENT THE OWNER MADE?

3 PROUDUCTS 1 MISSION

Grin up your Gut, one Gulp at a Time 😊

MILK KEFIR

Smoothness that soothes the soul

KOMBUCHA

Awakens your vitality, literally

WATER KEFIR

The coolest way to drink H₂O

WHO IS →

A team of young adults who are serious about your gut health. Many health problems originate from the gut. While it's everyone's responsibility to be mindful of what they eat, some of us dread healthy foods as they're often perceived to be uncool or even "yuck!". We believe healthy living should be fun and something to yearn for everyday. Natural Probiotics are one of the things that would properly set you on the right track of health and wellness. That's what our products are all about. Give Kombucha and Kefir a try, and witness your gut appreciate you.

Executive Coach

Inside Out Development Ltd

Spotlighting Kenya's Boldest Leaders & Brands on the Move

1.) What inspired your journey?

My journey was inspired by a deep desire to see people live and lead from the inside out, to show up authentically, use their gifts boldly and create meaningful impact. I wanted to help others build brands and lives that reflect who they truly are.

2.) Your brand in one sentence.

My brand is all about helping individuals and organizations build authentic influence, create meaningful impact and generate sustainable income through intentional personal development and powerful branding.

3.) What problem are you solving for Kenyans?

Through my work, I'm helping Kenyans bridge the gap between potential and performance; empowering professionals and entrepreneurs to own their voice, build personal brands that open doors, and lead with confidence and clarity.

4.) What sets your product/service apart?

My approach and our approach is deeply personal, authentic and transformational. We don't just train or coach, we walk with our clients to help them align who they are with what they do, so that their influence and results grow naturally.

5.) Your proudest milestone so far?

My proudest milestone thus far is seeing my clients rise from shy professionals to confident leaders commanding stages, building thriving businesses and transforming lives. Every success story reminds me that impact is the real reward.

6.) How do you want your leadership to be remembered?

Leadership, to me, is about empowering others to lead. It is rooted in authenticity, courage and service. If I am to be remembered for anything, I hope it is for awakening purpose in people and proving that it's possible to lead with both heart and excellence.

7.) One piece of advice to young entrepreneurs?

Start where you are, with what you have and stay consistent. Purpose and profit meet when you serve people well. Focus on impact and the income will follow.

8.) Matatu life moment – what's your most memorable matatu story from the past?

The last time I was in a matatu was about 15 years ago and I'll never forget the loud music that everyone had to listen to whether you liked it or not! It was chaotic, funny and somehow a true snapshot of Kenyan life, full of energy and personality.

9.) Song currently on repeat in your car?

"Blessings" by Elevation Worship. It's my daily reminder that every stage of the journey is a blessing, even the tough parts.

CAPITAL PUNISHMENT

LITERALLY, THERE IS A PRICE TO PAY FOR GETTING ON THE WRONG SIDE OF YOUR CONDUCTOR'S BOOKS

Epic Snacks

Spotlighting Kenya's Boldest Leaders & Brands on the Move

1.) What inspired your journey?

I wanted to do something more when it comes to value addition and sustainability. Kenya produces incredible fruit but a lot of it goes to waste before it ever reaches the market. EPIC Snacks was born from the idea that we can change that by turning local produce into healthy, export-quality snacks that create value for farmers and promote a more sustainable food ecosystem.

2.) Your brand in one sentence.

Epic crafts delicious, clean-label fruit snacks in Kenya, from pure dried fruit to indulgent dark chocolate varieties creating healthy choices that empower small-holder farmers and elevate everyday snacking.

3.) What problem are you solving for Kenyans?

We're tackling two major challenges, post-harvest fruit waste and unhealthy snacking habits. By sourcing directly from local farmers, EPIC Snacks adds value to Kenya's fruit supply chain while offering consumers a healthier, more natural alternative to processed snacks.

4.) What sets your product/service apart?

What truly sets us apart is our unwavering commitment to quality and authenticity. EPIC Snacks offers certified organic, Halal and Kosher fruit snacks that are both wholesome and indulgent, responsibly sourced from local Kenyan farmers and crafted to meet strict global standards, while delivering a uniquely Kenyan flavor experience.

5.) Your proudest milestone so far?

Reaching certification and gaining shelf space in respected outlets across Kenya has been incredibly rewarding. Every time a customer picks up an EPIC pack, it represents local jobs created, farmers supported and our vision of clean, sustainable snacking coming to life.

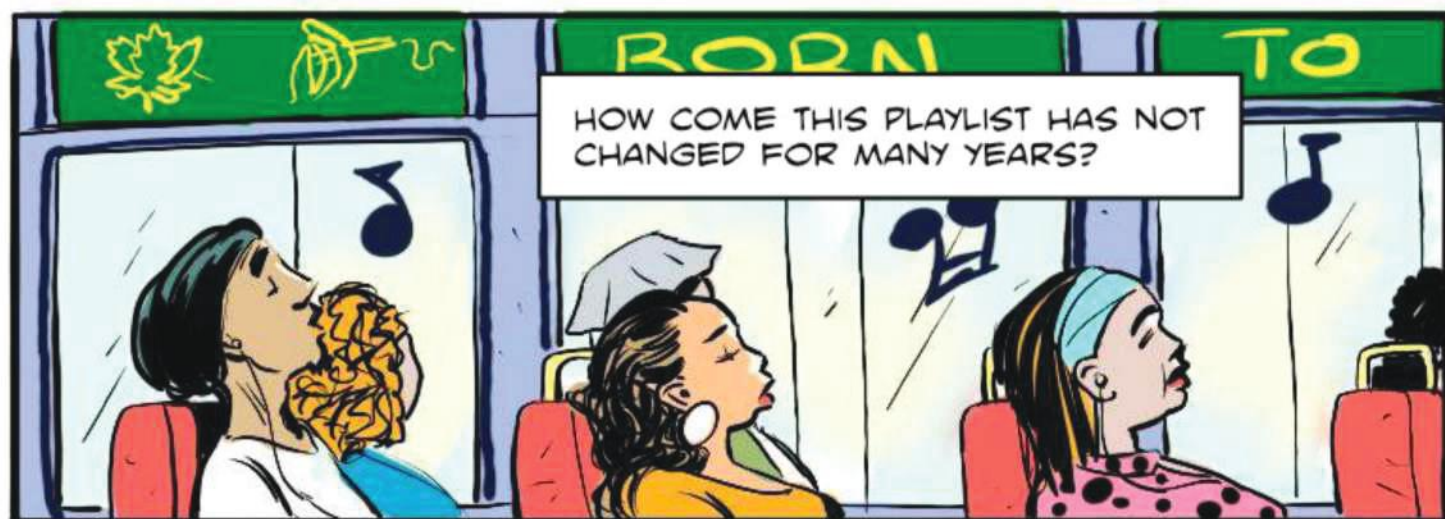

6.) How do you want your leadership to be remembered?

True leadership, to me, means fostering growth that uplifts individuals and strengthens communities. I aspire for my leadership to be remembered for creating meaningful impact through building brands that deliver lasting value to all stakeholders.

Windows that don't work

Roots Reggae

Mirali Vora

CEO

EcoMend Ltd

Spotlighting Kenya's Boldest Leaders & Brands on the Move

1.) What inspired your journey?

A love for nature.

2.) Your brand in one sentence.

Ecomend is a Kenyan eco-friendly brand creating sustainable, plastic free toilet cleaning sheets with biodegradable packaging for a cleaner home and planet.

3.) What problem are you solving for Kenyans?

Ecomend is solving plastic pollution and waste generated from traditional cleaning products by offering an eco-friendly, biodegradable packaged alternative that's convenient, effective and gentle on the environment.

4.) What sets your product/service apart?

Ecomend provides lightweight, water soluble products packaged in biodegradable material, eliminating plastic entirely while still delivering powerful cleaning performance and hygiene.

5.) Your proudest milestone so far?

Successfully launching Kenya's first ever eco-friendly toilet cleaning sheet.

6.) How do you want your leadership to be remembered?

I want my leadership to be remembered for inspiring sustainable change, empowering people to make eco-conscious choices and also for proving that business success and environmental responsibility can go hand in hand.

7.) One piece of advice to young entrepreneurs?

Start small, but think big!

8.) Matatu life moment – what's your most memorable matatu story from the past?

Being stuck in traffic, music blasting, everyone's exhausted but somehow vibing together - a reminder that even in chaos, there's community and creativity everywhere in Kenya

9.) Song currently on repeat in your car?

Not any really.

SOMA SIRI AFRIKA

Empowering young people between 4-24 to discover their gifts and talents, be skilled to become problem solvers for Afrika.

DEAR PARENTS

Your child is more than just grades — they have a gift waiting to shine.

At Soma Siri Afrika, we help children discover their talents through fun, hands-on clubs like Coding, Robotics, Chess, Swimming, Sports, Art, Music clubs learning critical problem solving skills in innovation and Entrepreneurship.

They grow through different learning levels and earn nano-degrees that build their confidence and skills for real life. It's not just co-curricular — it's their pathway to purpose.

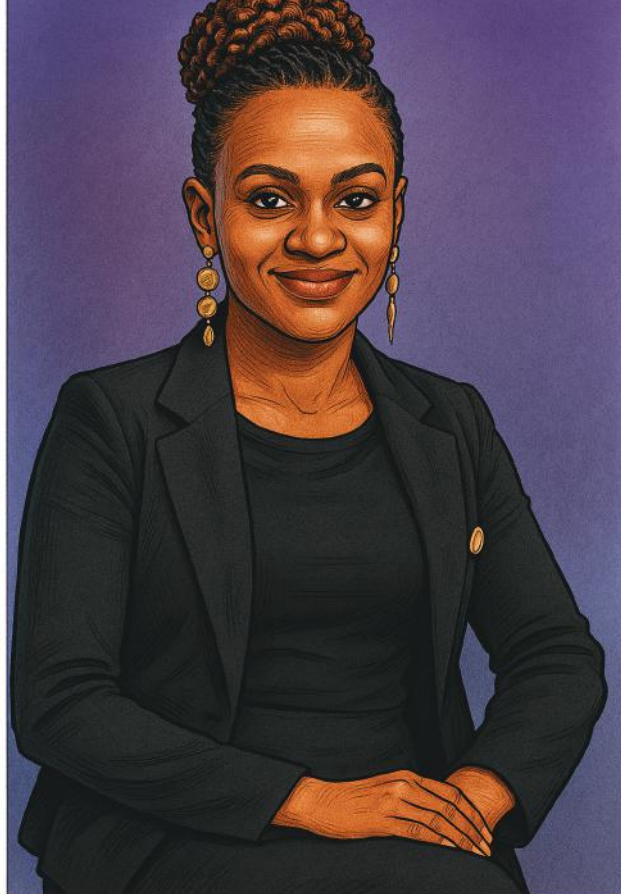

Because your child deserves more than just a report card — they deserve a future that reflects their full potential.

Let's grow that gift together.

Loop Pet Food

Spotlighting Kenya's Boldest Leaders & Brands on the Move

1.) What inspired your journey?

Loop was created to “close the loop” between local sourcing, honest nutrition, and sustainable production, ensuring pets get wholesome food made from ingredients their owners can recognise, while supporting local farmers and reducing reliance on imports.

2.) Your brand in one sentence.

Loop is a Kenyan pet food brand committed to delivering honest, nutritious, and locally made meals that promote pets' health while supporting sustainable local sourcing.

3.) What problem are you solving for Kenyans?

Loop is solving multiple challenges faced by Kenyans, from unemployment and environmental waste to pet health and agricultural sustainability. By creating locally made, gut-conscious pet meals, Loop not only promotes healthier, happier dogs but also supports local farmers through ingredient sourcing and creates jobs across its production and distribution network. Additionally, by upcycling safe food materials that would otherwise go to waste, Loop helps reduce landfill waste and champion a more sustainable, circular economy in Kenya.

4.) What sets your product/service apart?

Loop stands out for using Black Soldier Fly (BSF), a high-protein, hypoallergenic, and sustainable alternative ideal for sensitive dogs. Our meals are rich in fruits and vegetables for balanced nutrition and include prebiotics from chicory root to support a healthy gut. We also ensure every product is 100% aflatoxin-free, whether grain-free with cassava or grain-based under strict quality checks.

5.) Your proudest milestone so far?

Our proudest milestone is expanding into major retailers like Naivas and Quickmart, with plans to be in all hypermarkets soon for consistent product availability. We're also launching Samaki Crunch, an affordable, aflatoxin-free meal made with BSF protein, fish, fruits, vegetables, and prebiotics to keep dogs healthy and happy.

6.) How do you want your leadership to be remembered?

I'd like my leadership to be remembered for passion and unwavering belief in the Loop brand for being thorough, visionary, and driven by the conviction that the brand holds immense potential to make real impact. I'm deeply passionate about advocating for nutritious diets for pets and raising awareness among pet owners so we can all be more mindful and intentional about what we feed our animals.
