the cambro® story

When William and Argyle Campbell first opened the doors at Cambro Manufacturing in 1951 their goal was to make a hospital meal tray of the highest quality possible. Named the Camtray®, it demonstrated that they were as committed to excellence in the food service industry as they were to the quality of their own products. As 2011 marked the company's 60th year of leadership in quality, innovation and customer service, today Cambro serves the world with the industry's most complete selection of products for widely diverse segments of the food service business.

Since 1951, the company has experienced many changes including a greatly expanded product line, new methods of manufacturing and distribution, and an increased emphasis on issues like environmental responsibility. From a single factory in California, Cambro has grown to become an international presence with production facilities and sales offices in the United States, Europe, the Middle East and Asia. But the original guiding vision of the Campbell brothers remains unchanged: to create and provide the most innovative, durable and highest quality products for the food service industry. Now led by William's son Argyle, Cambro is still dedicated to meeting our customers' needs, and equally committed to helping you serve, satisfy and delight your guests.

At the heart of our business philosophy is our willingness to listen, so in a very real way we owe all our success to you, our customer. Our longevity in a very competitive field for 60 years certainly proves the value of that philosophy, and we are proud to have earned the loyalty of customers of all sizes and in all segments of the industry. From hotels to healthcare to caterers, from restaurant chains to educational facilities, we understand the food service business and we design and create our products with the end

user foremost in mind. Our goal is to provide our customers the best possible value on products that are durable, save labor and increase food safety, so you can offer your guests a superior experience while enhancing profitability.

Cambro is uniquely committed to investing in the people and processes that make our products a reality. We're proud that children and grandchildren of some of our first employees are with us today, and of the dedication to quality and service of our entire family worldwide. We continually work on developing new ideas for specific industry segments, and invest in new tooling and leading-edge machinery to bring these products to market. We persistently strive to improve our manufacturing methods to be more efficient in terms of process and materials, to keep costs under control while keeping our planet healthy. And we constantly seek to maintain quality and value despite rising costs of transport and raw materials, the need to reduce environmental impacts, and the demand of end users for total order accuracy and responsive service across a global market.

From once offering a single product, the Camtray, sixty years ago, today Cambro offers a wide range of trays, table service and display items, storage, shelving, merchandising and insulated transport products, as well as innovative warewashing systems and healthcare meal delivery solutions.

The future is certain to bring great changes to our industry. Yet one thing that will remain a constant is Cambro's tradition of continually developing new products that help food service operators save time and money, increase sales, reduce labor and improve service. In the years ahead, guided by the commitment of its founders to innovation, quality, and value, Cambro Manufacturing will still be the leader in serving the food service industry and you, our valued customer.

Camrack® 4-in-1 Warewashing System

The Camrack System will protect glassware and keep it clean until the next event, eliminating the need for rewashing.

Efficient Washing

Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying. Long-lasting polypropylene Camracks are built to withstand chemicals and high temperatures up to 200°F (93°C).

Sanitary Storage

Closed outer walls keep fingers and contaminants out and reduce risk of breakage and injury. The Camrack cover and Camdolly make this system completely enclosed. Glassware stays clean when in storage, so operators will only have to wash items once.

Inventory Control

A variety in base rack colors help identify at a glance both contents and quantity per rack. Available in 10 colors.

Safe, Sanitary Transportation

Camracks can be transported across large campuses or to off-site locations in one single unit.

Easy to grip handles and smooth overlapping sides facilitate safe handling.

Camrack Cover Seals from the Top and Camdolly® Seals from the Bottom

Camracks interstack with racks from major manufacturers.

Content labeling options include one-color custom hot stamping or pre-printed clips.

Camracks are covered by one or more of the following patents: Full Base Dish Rack D 412,607. Half Base Dish Rack D 404,176. Half Dish Rack Extender D 400,321. Enlarged Dish Rack Extender D 399,614. Dish Rack with Extender 5,934,486 Utility Patent. Pronged Base Dish Rack D 403,472.

Full Size Camracks® for Stemware & Tumblers

These racks offer complete protection for all your delicate and valuable stemware and tumblers, from washing and handling to stacking, storing and transporting.

Choose the correct dishrack:

1. Measure the maximum diameter of your glass (stemware or tumbler) to determine the number of compartments.
2. Measure the maximum height of your glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.

High Density Storage Floor Track System

Maximize storage capacity by creating storage aisles in all available space. This simple system is composed of stationary starter units anchored to a raised floor track system at both ends with high density mobile units installed in between. Easy to install track requires no drilling or gluing.

High Density Mobile Units are available with factory assembled post kits, vented or solid shelves and high density casters and bumpers. Full track and extension kits ship complete with required hardware. Stationary Starter Units are required to anchor the system at both ends. Choose from a wide selection (see pages 98-99).

Raised Floor Track provides a smooth and level surface to easily roll mobile units. Raised track ensures dirt will not get trapped and is easy to clean. Aluminum track and stainless steel hardware are rust resistant.

* It is recommended to use a stationary unit for every 15' of track to further stabilize the system.

Grooved casters roll easily and securely on raised track.

Raised track connects easily to the bottom of a stationary unit that works as a system anchor. No bolts, no glue or drilling into the floor are required. Easy and fast set up.

CAMSHELVING® BASICS series

WHY CHOOSE BASICS?

Just because the budget is tight and storage needs are less rigorous, it doesn't mean that shelving performance and storage efficiencies should be compromised. Basics Series is made from the same high performing, strong composite material as Elements Series and has the same design features. It's lighter in weight and less in cost but still strong enough to handle light to medium storage demands.

From time to time, motor carriers will charge for services that are beyond the scope of a normal delivery. In the event that this happens, Cambro Mfg. reserves the right to bill the customer for these charges. Services that fall under this program would include:

- Sort & Segregation of product at customer's dock.
- Lift-gate required to off load the product from the truck.
- Inside delivery requests.

These charges are considered to be assessorial charges and are not included in the prepaid freight program.

Orders calling for less than standard pack will be charged \$10.00 net per broken case. Broken cartons are not available on any special order items, the assortment pack, custom imprinted ladles, 4 pack booster chairs, disposable lids or on StoreSafe labels. **There is no broken carton charge on Camracks.**
