Nurturing Growth, Strengthening Partnerships

At APR, growth is all about building strong, lasting relationships and creating opportunities. Our partners are at the heart of this journey, and together we create value that endures.

We're excited to continue this story at IndoInterTex 2026.

Visit us at our booth to explore how we can grow stronger, and shape the future of textiles — together.

Hall BC #C1

Asia Pacific Rayon (APR) is Asia's first fully integrated viscose rayon producer. From plantation to fibre, our state-of-the-art facility responsibly produces more than 300,000 tonnes of Viscose Staple Fibre annually.

LIBOLON

Stand NO: BC F1

PT. INDONESIA LIBOLON FIBER SYSTEM is the internationalization and production base extension of LeaLea Group. The company has invested in new weaving, dyeing, and finishing equipment and adopted Taiwanese factory management and technology. By integrating the Group's polyester and nylon supply chain, it develops high-quality functional fabrics to meet customer needs.

Weaving Factory

Its water-jet looms with automatic warp drawing-in machine, dual-head braiders and quadruple weave can produce a variety of textured fabrics.

Dyeing and finishing factory

Equipped with a Data Color colorimeter, the dyeing, weighing, dissolving and conveying systems are fully automated. Combined with a central dyeing monitoring system, dyeing and finishing quality and efficiency are enhanced. In addition, complete textile finishing processes such as brushing, coating, embossing, printing and laminating are installed.

Knitting factory

Circular knitting machines are introduced to produce single/double-sided elastic fabric.

LOCATION / SITE PLAN

EXHIBITION LAYOUT

Welcome Address Chairman of the Indonesia Textile Association

The year 2026 begins under a global atmosphere that is far from calm. Geopolitical tensions, regional conflicts, and disruptions in global trade have reshaped the dynamics of international supply chains. Industries across the world are navigating uncertainty, rising costs, and shifting markets.

Yet history has repeatedly shown that the textile and apparel industry is one of the most resilient sectors in the global economy. When the world faces challenges, textiles continue to clothe nations, sustain livelihoods, and drive industrial recovery.

Indonesia's textile and textile products industry stands firmly within this spirit of resilience.

For decades, this industry has been a backbone of national manufacturing linking millions of workers, thousands of companies, and an integrated supply chain from fiber to fashion. Today, despite global pressures, the Indonesian TPT industry continues to adapt, innovate, and move forward with renewed confidence.

The transformation of our industry is already underway. Companies are embracing advanced manufacturing technologies, improving efficiency, strengthening sustainability commitments, and expanding collaboration across borders. These steps are not only about surviving today's challenges, but about preparing Indonesia to lead in the next chapter of the global textile industry.

In this context, Inatex – Indo Intertext 2026 becomes more than an exhibition. It is a meeting point of ideas, technology, partnerships, and shared optimism. Here, industry players, global partners, and innovators gather to exchange knowledge, explore opportunities, and shape the future of textiles together.

The Indonesia Textile Association believes that the strength of an industry lies in its ability to unite. Through stronger cooperation between businesses, government, and international partners, we can transform challenges into opportunities and ensure the continued growth of Indonesia's textile ecosystem.

Despite global uncertainties, our outlook remains clear:

Indonesia's textile industry will continue to evolve, compete, and contribute to the global marketplace.

On behalf of the Indonesia Textile Association, I extend my appreciation to all exhibitors, participants, and partners who continue to support this important platform. May Inatex – Indo Intertext 2026 inspire innovation, strengthen partnerships, and reinforce our shared confidence in the future of Indonesia's textile and garment industry.

NATIONAL BOARD

INDONESIA TEXTILE ASSOCIATION

Jemmy Kartiwa Sastraatmaja
Chairman

INWA

**Welcome Address
Chairwoman of Indonesian Nonwoven
Association**

On behalf of the Indonesian Nonwoven Association (INWA), I am pleased to extend a warm welcome to all exhibitors, partners, and visitors attending INDO INTERTEX 2026.

As one of the leading exhibitions for the textile and garment industry, this event provides an important platform for industry players to connect, exchange ideas, and discover the latest technologies and innovations shaping the sector today. For the nonwoven industry, opportunities such as this are especially valuable in strengthening collaboration and supporting the continued development of Indonesia's textile and nonwoven industries.

I would like to express my sincere appreciation to the organizers and all participants for their contribution in making this exhibition possible. I hope this event will bring valuable insights, new partnerships, and meaningful opportunities for everyone involved.

Chairwoman of INWA

Velda Agustino

**Welcome Address
Chairman of Indonesia Printing Community**

Assalamu'alaikum Wr. Wb.
Salam Sejahtera bagi kita semua,

Puji syukur ke hadirat Tuhan YME, atas izin-NYA, INDO INTERTEX, INDO TEXPRINT dan rangkaian lainnya kembali bisa hadir untuk yang ke 22 kalinya, dalam format pameran offline, yang diselenggarakan selama 4 hari mulai dari 15, 16, 17 dan 18 April 2026 di Jakarta International Expo, oleh PT. PERAGA NUSANTARA JAYA SAKTI.

Tahun 2026 ini menjadi momentum krusial bagi industri tekstil Indonesia untuk kembali bangkit dan bertransformasi. Pameran tahun ini membawa tema besar tentang inovasi, teknologi cerdas, dan keberlanjutan (sustainability). Di tengah tantangan global, Kita melihat peluang besar melalui kolaborasi teknologi. Melalui Indo Intertext, kita menghadirkan mesin-mesin tekstil dan garmen mutakhir untuk meningkatkan efisiensi dan daya saing. Sementara itu, Indo Texprint hadir menjawab kebutuhan industry fashion dan tekstil yang semakin dinamis dengan teknologi percetakan tekstil digital terkini.

KOPI GRAFIKA INDONESIA (Indonesia Printing Community) menyambut baik dan mendukung sepenuhnya penyelenggaraan pameran INDO INTERTEX, INDO TEXPRINT 2026 dan lainnya. Selamat kepada PT. PERAGA NUSANTARA JAYA SAKTI selaku penyelenggara, dan selamat mengikuti pameran kepada peserta dan pengunjung. Semoga kesuksesan menyertai kita semua. Terima kasih.

Jakarta, April 2026

PENGURUS
KOPI GRAFIKA INDONESIA

Dr. Usman Batubara

Ketua Umum

Welcome Address
Chairman of Indonesia Fiber & Filament Yarn
Makers Association (APSyFI)

Sustained economic growth and rising standards of living and purchasing power make Indonesia – the world's fourth most populous country with about 280 million people – an attractive market for textiles and clothing. Meanwhile, the rich middle class in Indonesia's textile sector also faces challenges to achieve self-sufficiency in its clothing and apparel needs. Therefore, the role of the textile industry is very strategic, not only in meeting increasing domestic needs, but also in generating foreign exchange by encouraging exports. Moreover, with the most dynamic and young demographic profile, the textile and apparel industry is the main job provider in the manufacturing sector and accelerates economic stability.

One of the industry's advantages is the presence of well-developed upstream and downstream businesses, which support vertical integration and close operational synergies. However, there are still some problems in the value chain in terms of competitiveness, technology improvement, etc. The potential for future global recession needs to be addressed in efforts to mitigate the economy in Indonesia. The importance of the domestic market as the main pillar in the development of the national economy is a priority in efforts to mitigate the potential for global recession. The government's joint efforts to support the textile and apparel industry should be appreciated and supported by all stakeholders. This is an effort by the Indonesian Fiber and Filament Yarn Makers Association (APSyFI) to support the domestic textile sector to be more vibrant.

We at (APSyFI) are grateful for the initiatives taken by INDOINTERTEX and INATEX 2026 in promoting the Indonesian Textile sector to the next level and strongly support the objectives of organizing the event. This exhibition is also a symbol of the awakening of the TPT industry and the resilience of the industry in facing future challenges.

We hope that all members of the organization and Textile industry will greatly benefit from such events and exhibitions, which will greatly help in assimilating knowledge to continuously improve the competitiveness of the sector.

Indonesia Fiber and Filament Yarn Makers Association

Redma Gita Wirawasta
Chairman

**Welcome Address
Chairman of Indonesian Textile Expert
Association (IKATSI)**

Bismillahirrahmanirrahim,
Assalamu'alaikum warahmatullahi wabarakatuh,
Salam sejahtera bagi kita semua,

Puji dan syukur kita panjatkan ke hadirat Tuhan Yang Maha Esa, karena atas rahmat dan karunia-Nya Pameran INDO-INTERTEX 2026 kembali dapat diselenggarakan sebagai salah satu agenda strategis industri tekstil dan produk tekstil Indonesia.

Penyelenggaraan pameran tahun ini berlangsung di tengah dinamika global yang penuh tantangan. Perkembangan geopolitik dunia, termasuk ketegangan di beberapa kawasan strategis, berpotensi memengaruhi stabilitas perdagangan internasional, rantai pasok, serta harga energi. Selain itu, dinamika kebijakan perdagangan global, termasuk pembahasan terkait skema Agreement on Reciprocal Tariff, masih berkembang dan memerlukan perhatian bersama agar kepentingan industri nasional tetap terjaga.

Di tingkat domestik, industri tekstil dan produk tekstil (ITPT) juga menghadapi berbagai tantangan struktural. Daya beli pasar yang masih dalam proses pemulihan, kompetisi produk impor, serta kebutuhan harmonisasi regulasi menjadi bagian dari realitas yang harus kita kelola secara bersama-sama. Di sisi lain, pembahasan penguatan regulasi sektor tekstil diharapkan dapat terus berlanjut sebagai bagian dari upaya memperkuat fondasi industri nasional.

IKATSI memandang bahwa berbagai inisiatif dan wacana penguatan industry baik melalui gagasan pembentukan kelembagaan strategis maupun langkah-langkah revitalisasi industry perlu disikapi secara konstruktif dan kolaboratif. Setiap kebijakan yang bertujuan memperkuat industri tekstil nasional tentu memerlukan sinergi, dialog terbuka, serta perencanaan yang matang agar memberikan manfaat optimal bagi seluruh pelaku industri dari hulu hingga hilir.

Dalam konteks tersebut, INDO-INTERTEX 2026 menjadi momentum yang sangat penting. Pameran ini bukan hanya ruang promosi teknologi dan produk, melainkan juga wahana konsolidasi industri, pertukaran gagasan, dan penguatan jejaring kemitraan. Transformasi teknologi, peningkatan efisiensi, penguatan kompetensi sumber daya manusia, serta implementasi praktik industri yang berkelanjutan menjadi agenda yang semakin relevan bagi keberlanjutan ITPT nasional.

Industri tekstil Indonesia memiliki sejarah panjang sebagai salah satu sektor strategis yang menyerap tenaga kerja dalam jumlah besar dan memberikan kontribusi signifikan terhadap perekonomian nasional. Dengan fondasi tersebut, kita memiliki modal kuat untuk terus beradaptasi, berinovasi, dan meningkatkan daya saing di tengah perubahan global.

IKATSI berkomitmen untuk terus menjadi mitra strategis pemerintah dan seluruh pemangku kepentingan dalam mendorong penguatan standar kompetensi, profesionalisme industri, serta pengembangan ekosistem tekstil yang lebih terintegrasi dan berkelanjutan.

Kami berharap Pameran INDO-INTERTEX 2026 dapat menjadi energi positif bagi seluruh pelaku industri membangun optimisme, membuka peluang kolaborasi baru, serta memperkuat posisi industri tekstil Indonesia di kancah global.

Atas nama IKATSI, kami menyampaikan apresiasi setinggi-tingginya kepada panitia, peserta, sponsor, dan seluruh pihak yang telah berkontribusi dalam terselenggaranya kegiatan ini. Semoga kerja bersama yang kita bangun hari ini menjadi fondasi bagi industri tekstil Indonesia yang semakin tangguh, adaptif, dan berdaya saing.

Wassalamu'alaikum warahmatullahi wabarakatuh.

Salam Hormat,

Ketua Umum DPP IKATSI,
Ir. H M Shobirin F Hamid, AT., SE., M.M.

Welcome Address
Chairman of Asosiasi Pemasok Garmen & Aksesori Indonesia (APGAI)

Greetings to all of us,

APGAI is an association that is recognized by the Indonesian government, and is made up of members that manufacture and operate well established Garment-and-Accessory retail brands in the country..

It is of a great honor for us to be able to act as a supporting association at this prestigious event for several consecutive years, **The 22nd Indonesia International Textile and Garment Machinery Accessories Exhibition.**

We would like to express our sincere appreciation to **Peraga Expo** for their initiative and dedication in bringing together key players from the garment and textile industry. Events like this are not only platforms for showcasing products and innovations, but also important meeting points for collaboration, knowledge exchange, and sustainable growth of our industry.

As an association representing garment & accessory entrepreneurs, we strongly believe that exhibitions such as this play a vital role in strengthening the industry networks, opening new business opportunities, and encouraging innovation in design, production, and technology. They also help bridge the gap between manufacturers, suppliers, buyers, and other stakeholders, both locally and internationally.

Our association is committed to supporting initiatives that promote competitiveness, professionalism, and sustainability within the garment sector. We see this exhibition as a strategic step toward building a stronger and more resilient industry ecosystem, especially in facing global challenges, shifting consumer demands and rapidly changing market demands.

We hope this event will be productive, inspiring, and beneficial for all participants and visitors alike. May it lead to meaningful partnerships, valuable insights, and long-term cooperation.

Once again, we congratulate the organizers on this excellent event and wish the exhibition a great success.

Warm regards,

Hendry Sagoro
Chairman of APGAI
Asosiasi Pemasok Garmen & Aksesori Indonesia

Welcome Address Chairwoman of the Indonesian Garment and Textile Association (AGTI)

The Indonesian Textile and Textile Products (TPT) industry is one of the strategic sectors within the national industrial structure. This sector not only contributes significantly to export performance and job creation, but also forms part of an industrial ecosystem that continues to grow through innovation, productivity improvement, and the ability to adapt to increasingly competitive global market dynamics.

In this context, the organization of the INATEX Exhibition serves as a highly strategic momentum for industry players to strengthen collaboration, expand partnership networks, and showcase the capabilities of Indonesia's textile and garment industry to a broader market. The presence of the exhibitor e-catalog in this exhibition represents an important step in introducing company profiles, production capabilities, product innovations, and the industry's commitment to quality and sustainability, which can be digitally accessed through the INATEX website.

Amid various global challenges ranging from supply chain transformation, sustainability demands, to the acceleration of industrial digitalization, I firmly believe that the Indonesian TPT industry possesses the capacity and resilience to continue transforming. The strength of our industry lies in its fully integrated value chain, extensive manufacturing experience, and the spirit of collaboration continuously fostered among business actors, associations, government, and all stakeholders.

As the Chairwoman of the Indonesian Garment and Textile Association (AGTI), I hope that the INATEX Exhibition can serve as a platform that strengthens the positioning of the national garment and textile industry as a strategic partner in the global supply chain. Through this forum, we not only promote products but also demonstrate our shared commitment to building an industry that is more innovative, highly competitive, and sustainability-oriented.

I would like to express my appreciation to all exhibitors, industry partners, and the organizing committee who have contributed to making this exhibition possible. May participation in INATEX provides tangible benefits in opening new market opportunities, strengthening business partnerships, and encouraging the growth of Indonesia's textile and garment industry to a higher level.

Thank you.
Anne Patricia Sutanto
Chairwoman
Indonesian Garment and Textile Association (AGTI)

**Welcome Address
Ketua Umum
Indonesia Baby Clothing and Equipment
Entrepreneurs Association
(P4B)**

Salam sukses bagi kita semua

Saya mewakili Perkumpulan Pengusaha Pakaian dan Perlengkapan Bayi mengucapkan selamat kepada Peraga Expo dan pihak yang terlibat di dalam pameran INDO INTERTEX 2026 yang diselenggarakan pada tanggal 15-18 April 2026 di Jakarta International Expo Kemayoran.

Industri Tekstil dan Garment selalu dituntut untuk berkembang dan berinovasi atas design dan material. Dengan ada nya kegiatan pameran INDO INTERTEX dimana berkumpulnya pengusaha industri tekstil, garment dan juga retailer akan menjadi platform dimana para pengusaha bisa berkolaborasi dan memberikan solusi yang inovatif sehingga mendorong pertumbuhan bagi pelaku usaha Indonesia.

Semoga exhibitor dan juga pengunjung pameran bersama koordinator INDO INTERTEX 2026 bisa selalu membangun ekosistem usaha yang membawa pertumbuhan ekonomi bagi para pelaku usaha lokal dan meningkatkan pertumbuhan ekonomi secara nasional.

Salam sukses,

PERKUMPULAN PENGUSAHA PAKAIAN DAN PERLENGKAPAN BAYI INDONESIA

CHAIRMAN
DAVIS LIM

Welcome Address Chairman of IKA ITT-STTT Politeknik STTT Bandung

Assalamualaikum Warahmatullahi Wabarakatuh

Salam sejahtera bagi kita semua

Marilah kita panjatkan puji syukur ke hadirat Tuhan Yang Maha Kuasa atas segala rahmat dan karunia-Nya, sehingga kita dapat menyambut penyelenggaraan Indo Intertext tahun 2026 dengan penuh semangat dan optimisme. Penyelenggaraan tahun ini merupakan edisi ke-22 dari Indo Intertext, yang secara konsisten menjadi salah satu pameran industri tekstil dan garmen terbesar serta paling berpengaruh di kawasan Asia Tenggara.

Sejak pertama kali diselenggarakan, Indo Intertext telah berkembang menjadi platform strategis yang mempertemukan para pelaku industri, produsen teknologi, pelaku usaha, akademisi, serta berbagai pemangku kepentingan dalam ekosistem industri tekstil dan produk tekstil. Melalui forum ini, berbagai inovasi, teknologi terkini, serta peluang kerja sama dapat diperkenalkan dan dikembangkan secara luas untuk mendukung pertumbuhan industri tekstil yang semakin kompetitif.

Pada kesempatan ini, saya selaku Ketua Umum IKA ITT-STTT Politeknik STTT, mewakili seluruh alumni Institut Teknologi Tekstil (ITT) – Sekolah Tinggi Teknologi Tekstil (STTT) – Politeknik STTT Bandung, menyampaikan apresiasi dan penghargaan yang setinggi-tingginya kepada seluruh penyelenggara, peserta pameran, mitra industri, serta pihak-pihak yang telah berkontribusi dalam terselenggaranya Indo Intertext 2026.

Industri tekstil dan produk tekstil (TPT) saat ini berada dalam fase transformasi yang ditandai oleh percepatan inovasi teknologi, digitalisasi proses produksi, serta meningkatnya tuntutan terhadap praktik industri yang berkelanjutan. Dalam menghadapi dinamika tersebut, kolaborasi yang erat antara dunia industri, institusi pendidikan, dan komunitas profesional menjadi faktor kunci dalam memperkuat daya saing industri tekstil nasional di tingkat global.

Sebagai organisasi alumni yang menaungi para profesional tekstil yang telah berkiprah di berbagai sektor industri, Ikatan Alumni ITT-STTT Politeknik STTT berkomitmen untuk terus berperan aktif dalam mendukung pengembangan industri tekstil Indonesia melalui penguatan jejaring profesional, peningkatan kapasitas sumber daya manusia, serta pengembangan kolaborasi yang konstruktif dengan berbagai pemangku kepentingan.

Kami meyakini bahwa melalui penyelenggaraan Indo Intertext ke-22 ini akan tercipta ruang pertukaran gagasan, inovasi, serta peluang kerja sama yang semakin luas, sehingga mampu mendorong lahirnya solusi-solusi strategis bagi kemajuan industri tekstil nasional. Dengan sinergi yang kuat dan berkelanjutan, kita optimis bahwa industri tekstil Indonesia akan semakin tangguh, inovatif, dan mampu bersaing di pasar global.

Akhir kata, kami menyampaikan terima kasih dan penghargaan kepada seluruh pihak yang telah mendukung terselenggaranya Indo Intertext 2026. Semoga kegiatan ini memberikan kontribusi nyata bagi kemajuan industri tekstil dan produk tekstil

Wassalamualaikum Warahmatullahi Wabarakatuh

Ketua Umum
IKA ITT-STTT Politeknik STTT Bandung
Riady Madyadinata, AT

Welcome Address Chairman of Rantai Tekstil Lestari (RTL)

For many years now, I have had the opportunity to witness this Indo Intertex. Each edition carries its own energy — new exhibitors, new technologies, new conversations — yet the core spirit remains the same: bringing together the global textile machinery ecosystem - dominated by China - with Indonesia's vibrant textile and apparel industry.

Walking through the exhibition halls, one cannot help but feel a mixture of admiration and reflection. The technologies on display are increasingly sophisticated — from automated production lines and energy-efficient dyeing systems to digital monitoring tools and advanced recycling solutions.

At the same time, these impressive displays quietly remind us of something else: how much further Indonesia still needs to go in upgrading its industrial capabilities. Many of the machines we see here represent standards that have long been adopted elsewhere, while parts of our domestic industry are still catching up. This should not be viewed as discouraging news. Rather, exhibitions like this provide a rare mirror — a moment for honest reflection for everyone involved in the ecosystem.

For policymakers, it is an opportunity to assess whether the regulatory environment truly supports industrial modernization and sustainability. For industry players, it is a chance to evaluate how quickly we are adopting new technologies and improving our competitiveness. For investors and financial institutions, the exhibition highlights both the gaps and the immense opportunities within Indonesia's textile sector — one of the country's most important manufacturing industries and a critical employer across many regions.

As Chairman of Rantai Tekstil Lestari, an alliance advocating for a more sustainable and circular textile industry, I see another important dimension. Modern machinery is not only about productivity; it is also about enabling cleaner production, resource efficiency, and eventually a circular textile economy. Without technological upgrades — including recycling infrastructure, traceability systems, and efficient processing technologies — it will be difficult for Indonesia to remain competitive in a world where sustainability standards are rapidly rising.

This is why events like Indo Intertex carry significance beyond simple business transactions. They are platforms where ideas, partnerships, and future industrial directions begin to take shape.

Having said that, we should also be honest with ourselves. The ambition for Indonesia should go beyond simply rolling out the red carpet for machinery suppliers, particularly those coming from large manufacturing countries such as China. The organizers,

together with national stakeholders, should continue working harder to ensure that Indonesia is not only a market for imported technology, but also a destination for investment, knowledge transfer, joint ventures, and industrial collaboration.

For local players, the real value of this event lies not only in what we see on display, but in how we transform these encounters into long-term progress for the industry.

Across the global textile industry today, innovation is moving rapidly toward solutions that reduce water consumption, energy use, chemical discharge, and material waste. For Indonesia, adopting such technologies is no longer a distant aspiration but an urgent necessity, as global brands and markets increasingly demand cleaner, traceable, and more responsible supply chains.

Therefore, the technologies showcased in exhibitions like this should also be viewed through the lens of sustainability. Machines and systems that are energy-efficient, capable of processing recycled materials, or designed to minimize environmental impact can help Indonesian manufacturers modernize while simultaneously improving their environmental performance. If supported by the right policies, investments, and collaborations, these innovations can accelerate Indonesia's journey toward a textile industry that is not only competitive, but also aligned with the global transition to a more sustainable and circular economy.

Basrie Kamba

Chairman of Rantai Tekstil Lestari (rtl.or.id)

**Welcome Address
Sekretaris Jenderal
Equipment and Sports Apparel Association of Indonesia
(EQUINOC)**

Sebagai asosiasi yang menaungi ratusan brand lokal dan pelaku UMKM Indonesia di sektor peralatan dan pakaian olahraga, kami memandang INDO INTERTEX sebagai forum strategis yang sangat penting. UMKM masih menghadapi keterbatasan akses terhadap teknologi terkini, bahan baku, aksesoris, serta solusi packing yang lebih berkelanjutan dan kompetitif. Di tengah tuntutan pasar global terhadap produk yang semakin sustain dari hulu hingga hilir, event ini menjadi jembatan penting untuk membuka wawasan, memperluas jaringan, membangun kolaborasi, serta mendorong transformasi agar brand lokal Indonesia mampu tumbuh lebih kuat, kompetitif, inovatif, dan berkelanjutan di pasar nasional maupun global.

William Socrates

Sekretaris Jenderal

**Welcome Address
Chairman of Indonesia Exhibition Companies
Association (IECA/ASPERAPI)**

Salam sejahtera untuk kita semua.

Selamat datang kepada para peserta dan pengunjung di Pameran Indo Intertex-Inatex 2026, yang diselenggarakan pada tanggal 15-18 April 2026 di Jakarta International Expo, Kemayoran. Kami merasa terhormat dapat menjadi bagian dari acara bergengsi ini.

Sebagai Ketua Umum Asosiasi Perusahaan Pameran Indonesia (ASPERAPI), saya ingin mengucapkan terima kasih Kepada PT. Peraga Nusantara Jaya Sakti atas dedikasi dan usaha kerasnya dalam menyelenggarakan pameran ini. Pameran merupakan platform vital bagi para pelaku industri untuk berbagi pengetahuan, menjalin hubungan bisnis, dan mengeksplorasi perkembangan terkini di sektor tekstil.

Acara ini tidak hanya menampilkan peralatan dan teknologi terbaru, tetapi juga menciptakan ruang untuk diskusi dan kolaborasi. Kami percaya bahwa interaksi di sini akan mendorong inovasi dan pertumbuhan yang signifikan dalam industri kita.

Kami mengajak Anda semua untuk aktif berpartisipasi dalam berbagai sesi yang disediakan dan memanfaatkan kesempatan ini untuk membangun jejaring yang bermanfaat. Bersama-sama, mari kita majukan industri tekstil Indonesia dan tingkatkan daya saing di pasar global.

Terima kasih atas perhatian dan partisipasi Anda. Semoga Pameran Indo Intertex-Inatex 2026 ini sukses dan bermanfaat bagi kita semua.

Jakarta, February 2026

**Dewan Pengurus Pusat
Asosiasi Perusahaan Pameran Indonesia**

Hosea Andreas Runkat
Ketua Umum

PERAGAEXPO

Welcome Address The Organizer – Peraga Expo

Dear Exhibitors and Visitors

Amid global uncertainties marked by geopolitical tensions, regional conflicts, and disruptions in international supply chains, various industries face significant challenges. However, the textile and garment industry has proven to be one of the most resilient sectors in navigating these dynamics.

In this context, Indo Intertext – Inatex 2026 is more than just an exhibition; it serves as a strategic platform that brings together industry players, global partners, and innovators to exchange knowledge, explore opportunities, and collectively shape the future of the textile industry. A variety of collaborative programs will be offered, including seminars and workshops, educational and business seminars with associations and fashion entrepreneurs, color trend zones, fashion trunk shows, sustainable textiles, as well as Build Your Brand sessions providing practical tips and in-depth insights for industry players to grow their businesses in the textile and garment sector.

On behalf of the organizing committee, PT. Peraga Nusantara Jaya Sakti, and the Indonesian Textile Association (API), we extend our sincere appreciation to all associations and supporting partners for their contributions to the successful organization of previous exhibitions. We hope that Indo Intertext – Inatex 2026 will further strengthen collaboration among industry players, create constructive opportunities for discussion, and drive innovation and sustainable business development in the textile sector.

PT. Peraga Nusantara Jaya Sakti

Based in Indonesia, PT. Abdiel Industrial Machineries, has provide a wide range of textile products and services for over 40 years. Since beginning our company keep growing and evolved. We will attend our customers need as well as to provide them smart solution, Our products has verified and proven to increase their business and productivity in effective way.

✓ In 1984, we started as marketing division as a weaving machinery company

✓ In 1986, we were actively selling second-hand weaving loom machines, ring spinning plat and also finishing processing machines from USA, Europe, Japan and Korea.

✓ In 1988 we were marketer for spinning, weaving, processing machine for Japan textile companies.

Then, we cooperate with Marubeni Corp, Japan, by focusing on selling their textile

machines in Indonesia. At the same time, we became an official agent of Germany textile company by selling their air conditioning machine, travelling cleaner and warp tying machine.

✓ From 2000 until now, we has started to cooperate with a lot of textile brands. We are now as an official textile agent by selling digital printing machines, loop steamer machines, washing machines, finishing machines, etc.

The key benefits for cooperate with us:

1. Present prestigious textile brand around the world that working hard for a sustainable future in the textile industry
2. Delivers high end, high quality and complete range of textile products. Our textile machines are designed for Industry 4.0 and are delivering a paradigm shift in manufacturing flexibility and productivity.
3. Competent team also fully certified with diverse industries background, including local after sales team back up.
4. Expert technical team has experience on machine installation both on local and international.

BMS - Belgian Monitoring Systems (formerly
BarcoVision) is a leading global supplier of
Manufacturing Execution Systems (MES) for
the discrete manufacturing industry, with
focus on the textile, plastics and
pharmaceutical industry.

The BarcoVision manufacturing execution
systems of BMS cover all textile
manufacturing processes. Under the name
WeaveMaster, a very powerful loom
monitoring system is available. KnitMaster
monitors circular as well as warp knitting
machines. Further our SpinMaster and
TwistMaster are systems used in yarn
manufacturing.

BMS is the leading supplier in the field of
automated on-loom fabric inspection. With
the Cyclops scanner and the QualiMaster
fabric quality management system, BMS
offers a unique quality assurance solution for
weavers.

BRAZZOLI®
THE DYEING MACHINES MANUFACTURER

BRAZZOLI SRL

Stand No: HA 36

Address: Via Alla Chiesa 41 - 20030 Senago (mi), Senago, 20030, Italy

Telephone: 39 02 9901921

Email: info@brazzoli.it

Website: www.brazzoli.it

Contact Person: Mr. Goksun Ozensoy

List of Product: Dyeing Machinery & Accessories

Brazzoli Company is globally recognized as the leading manufacturer of dyeing machines.

The Italian company, located in Senago (near Milan), was established in 1969 and is operating in over 40 countries with its sales network.

Our machines are ECO LOGIC PLUS II for fabric dyeing, ECO-AERO with air jet technology for fabric dyeing, ECO-SYNTHETIC for light weight fabric dyeing, AQUARIUS for sample fabric dyeing and ECO-YARN for yarn dyeing.

Brazzoli specializes in low-water consumption dyeing machines for a wide range of fabrics. Due to high-end products and customization capability, the company is always the first choice of high value fabric producers. Over 4500 machines have been sold all over the world. 60+ years of experience allowed Brazzoli to develop many sensors on dyeing machines to make customers enjoy dyeing without error and improve right on the first time.

Brazzoli respects nature and improves production to save energy and reduces carbon footprint in its 5400m2 production facility. The company also has environmentally friendly products, which are green label certificated.

List of Product: Textile Chemicals for Dyeing, Chemical Fibers, Chemical Auxiliaries

We are presenting two proven textile process solutions designed to protect fabric quality while improving mill efficiency.

1. Advanced Silicone Softener

Our next-generation silicone delivers long-lasting softness, smooth surface feel, and excellent wash durability. Its controlled reactivity ensures uniform film formation on fibers, reducing abrasion, improving drape, and maintaining fabric strength without yellowing.

2. Low-Caustic Wetting Agent

This smart wetting technology enables faster, safer pretreatment with significantly lower caustic usage. It protects fiber integrity, improves absorbency, minimizes weight loss, and supports consistent dyeing—while reducing process stress on fabrics. Result: Better fabric protection, stable quality, and responsible processing

We have been specializing in circular knitting machine parts for 18 years. At this exhibition, we are mainly showcasing circular knitting machine parts such as needles, sinkers, yarn feeders, timing belts, tension meters, and dial indicator stands. Circular knitting machine parts are fundamental to maintaining the efficient and precise operation of circular knitting machines. Whether for routine maintenance or upgrades, selecting reliable and highly compatible parts is crucial. Our products not only offer a complete range of models but also include various brands for your selection. We aim not only to showcase our products but also to facilitate exchange. We welcome you to visit and discuss with us.

Business Segment

Textile finishing, sanforizing, singeing, and fabric treatment machinery.

Company Profile

Founded in 1975, Cibitex S.r.l. is a specialized Italian manufacturer of textile finishing machinery. The company designs and produces high-efficiency systems focused on quality, reliability, ease of use, and sustainable energy-saving technologies, supported by extensive global references.

Key Products / Solutions

- Shrinktex-W – Sanforizing line for woven fabrics
- Shrinktex-WK – Sanforizing line for wovens and open-width knits
- Ready – Sanforizing machine for knits and wovens
- Bluetex – Denim finishing and sanforizing line
- Singetex – Singeing line for woven and knitted fabrics
- Cleantex – Fabric treatment machine improving hydrophilicity, softness, shine, and dimensional stability

Application Focus

Fabric finishing, sanforizing, denim processing, sustainable textile production.

Business Segment

Industrial digital textile printing systems and
water-based textile inks.

Company Profile

EFI Reggiani is a global leader in industrial
textile printing solutions with textile expertise
since 1948. The company delivers integrated
and scalable printing systems combining
digital printers, ink technologies, and
complete production workflows for fashion,
home textile, and technical fabric
applications.

Key Products / Solutions

- EFI Reggiani BOLT – Single-pass digital textile printer for high-volume production
- EFI Reggiani POWER for Fabric – Multi-pass digital printer, best seller in Indonesia
- EFI Reggiani NEXT PLUS – Digital printer for sublimation applications
- EFI Reggiani Water-Based Inks – Reactive, disperse, sublimation, pigment, and acid ink systems

Application Focus

Digital textile printing, fashion fabrics, home
textiles, sustainable production.

List of Product: Spinning Machinery &
Accessories

Hubei Tianmen Textile Machinery Co., Ltd.'s main products are drawing frames with "Crane" brand, which have completely independent intellectual property rights and many national patents. The current products mainly include TM11, TM13, TM15, TM17, TM19 and other models and specifications, leading the market trend, famous at home and abroad. The new generation of products such as TM21, TM23, TM25, TM27, TM27H, TM29, TM29H, TM35 and other models of drawing frames have changed the traditional single machine and unit mode, and can achieve integrated control of the drawing process, opening up the innovation of "intelligent parallel" technology.

INDOHOSE was established in Bandung in
1998 and is a major importer, exporter,
distributor, wholesaler, and retailer of
industrial garment machinery, equipment,
and spare parts in Indonesia. To offer
professional services to the Indonesian
garment industry, INDOHOSE opened a
branch office in Jakarta in 2000, followed by
two more locations in Semarang and Solo.

With over 20 years of experience in industrial
garment machinery, we have built strong
partnerships with customers and suppliers.

Our reputation in the garment industry has
been established by successfully providing
high-quality, high-tech, and efficient
machines for every stage of the production
line

We maintain customer satisfaction through
professional installation, training,
maintenance and consultancy services to
increase factory productivity. We also provide
spare parts for all machines, supported by a
certified, well-trained customer service team
to ensure excellent after-sales support.

Jabar Mulia Indonesia was founded in 1971 with its head office located in Jakarta, and a branch office in Bandung, West Java, Indonesia. JMI is primarily involved in Textile and Synthetic Fibre industries and represents some of the world's leading textile engineering and machinery manufacturers from Europe, in addition to the U.S.A.

The company is organized into four divisions/business units:

Over the past 30 years, JMI's Textile Machinery Department, has been the core business unit, and been able to successfully secure an important share of the textile machinery business in the Indonesian textile market. Being one of the most reputable agencies in Indonesia, for the best European machinery and systems (including Saurer), JMI has, over years, grown from strength to strength, thanks to the mutual strong rapport and unceasing support from the Indonesian textile community.

The Spare Part and Accessories Department is well organized to give prompt service to all customers, supporting the machinery sales departments.

Contact Person: Ms. Liz Chen

Founded in 2000 by Tina Lee, the company
began with her deep engagement in the
textile industry. After gaining expertise at
Groz, she started her own venture in 2005,
focusing on heddles. Partnering with
Taiwan's Yihong Heddles, they advanced
product adaptability and quality. In 2010, a
joint R&D team developed PET heddles
through Jiangsu Yonggu Nano Technology.
By 2021, Yonggu launched the world's first
fully automated heddle factory in Suzhou,
enhancing precision and efficiency. Today,
Yihong sells over 1 billion heddles annually,
holding significant market share across Asia,
and continues to collaborate with global
leaders to drive industry progress.

PT. Petra Textima Mandiri presents its latest
advancements in textile processing at Indo
InterTex 2026. We specialize in high-
performance High-Temperature Dyeing
Machines designed for optimal liquor ratios,
significantly reducing environmental impact
while ensuring superior color consistency.

Accompanying our dyeing technology is our
advanced Automatic Weft Straightener,
which utilizes high-resolution sensors to
rectify fabric distortions with extreme
precision. These integrated solutions are
engineered to enhance finishing quality,
minimize waste, and streamline production
efficiency. We invite industry partners to visit
our exhibit and discover how our technical
expertise can elevate your manufacturing
standards.

The Textima Company (PT Petra Textima
Mandiri) was established in 2012. A group of
professional experts with over two decades
of experience in the field of engineering,

Water jet loom: The water-jet loom is a high-
efficiency shuttleless loom that uses high-
pressure water flow to guide weft yarn.
Suitable for weaving hydrophobic fiber
fabrics such as chemical fiber, Ultra-fine
denier, ultra-high density blackout fabric, etc.
It features high speed, high output and low
energy consumption. Widely used in home
textile, garment and other textile fields, it can
produce high-quality fabrics with uniform
texture and smooth hand feel.

List of Product: Sewing Machines & Equipment

We are a factory specialized in the production of clothing care products, which include household sewing machine, sewing furniture, handheld steamer, lint remover, etc. Our philosophy is to offer products in which the functions really satisfy the needs of our customers.

We create sophisticated products that are simple because we believe the technology should improve the usage experience of clothing care without complicating the way they function. That's why we offer the most affordable products at the lowest price. We believe that our client is partner who we can establish a long-term collaboration with, therefore, in addition to offering transparency and efficiency, we strive to continue improving everything.

Shaoxing Hengyuan Machinery Manufacturing Co., Ltd is a Korea and China joint venture textile machinery manufacturing company. We manufacture the tumble dryer. This equipment mainly apply to the wet fabrics. By tumbling and drying through continuous cycle of hot air, it enhances and stabilizes the fabric density under the centripetal force of the roller, while creating the soft and fluffy, reducing the internal shrinkage of the fabric. The equipment is characterized by intelligence, energy saving, smaller coverage of area and manpower saving.

List of Product: Spinning Preparatory Machinery & Accessories, Spinning Machinery & Accessories

The paper tube splitting machine is designed to split multifilament yarns such as nylon and polyester into single filaments or several filaments. It uses full servo control to directly wind the single filaments onto paper tubes, facilitating the sale and transportation of the finished single filaments and significantly reducing production and transportation costs. Compared with general single filaments produced directly during the spinning stage, it is suitable for mass production as well as the production of various types of single filaments such as ultra-fine filaments and electrostatic filaments.

Taiwan Association of Machinery Industry (TAMI) was founded in October 1945, and originally named "Taiwan Association of Iron Industry." It was then renamed "Taiwan Provincial Association of Iron Industry." In May 1947, the organization was reshuffled and became "Taiwan Provincial Confederation of Machinery Industry." Finally, on April 28th 1948, the name TAMI was officially established.

In recent years, TAMI has intensively conducted numerous machinery export promotion delegations, as well as trade fairs in domestic and international market places.

A multilingual TAMI website has been established to angle toward machinery promotion, which is available in Mandarin, English, and Japanese.

An important mission of TAMI is to continuously upgrading and strengthen the competitiveness of Taiwan manufacturing industry by facilitating more technical discussion and sales cooperation between members, promoting quality standards such as CE, and creating better interactions within industry through hosting technology forums and seminars.

"TAMI" greatly helps to increase the competitiveness of all its 2,700 company members in the international market place.

Business Segment

Textile wet processing machinery for printing,
dyeing, and finishing.

Company Profile

Wuxi Xinlian Printing & Dyeing Machinery &
Electrical Co., Ltd. is a Chinese manufacturer
specializing in complete wet-processing
solutions for the textile industry. The
company focuses on the design and
manufacture of printing, dyeing, and
finishing equipment, integrating mechanical
engineering, electrical control, and process
know-how to support stable, high-efficiency
textile production.

With strong in-house engineering capabilities
and large-scale manufacturing capacity, Wuxi
Xinlian serves textile mills requiring reliable
and cost-effective wet processing lines.

Key Products / Solutions

- Desizing, Scouring & Bleaching Series –
Wet pretreatment systems for woven and
knitted fabrics
- Mercerizing Series – Mercerizing machines
for improved fabric strength and luster
- Pad Dyeing Series – Continuous pad dyeing
systems
- Washing Series – Washing ranges for post-
dyeing and finishing
- Pre-shrinking Series – Dimensional stability
treatment systems
- Open-Width Knitted Fabric Wet
Pretreatment Series – Pretreatment lines for
open-width knits
- Chemical Fiber Fabric Wet Pretreatment
Series – Wet processing for synthetic fabrics

Application Focus

Woven and knitted fabric wet processing,

continuous dyeing, fabric pretreatment,
large-scale textile finishing operations.

PT. Bintang Ciptaperkasa (BCP) was located in
Bandung, is a professional textile dyeing
company. We specialize in offering a wide
range of high-quality products, including
sewing threads, fabrics, dyeing services,

knitted preforms, and a variety of accessories.
With years of experiences in thread
production, BCP has developed its own brand
"RAINBOW" which covers products such as
yarn and sewing thread.

We are committed to providing
comprehensive solutions, such as poor
supplier coordination and insufficient supply.
By continually improving our products and
services, we ensure that our customers
receive the best possible experience and
outcomes.

Our Yarn Dyeing Processing Department
capable of handling materials such as
polyester, cotton, poly-cotton blends (TC),
cotton-poly blends (CVC), nylon, polyester-
viscose (TR), rayon, and more, meeting the
customized needs of different clients. Our
exceptionally strong capability in dyeing
process is capable to handle 20 tons of poly-
cotton yarn and 2 tons of nylon yarn daily.

Our Fabric Dyeing Department has a strong
production capacity, capable of processing
25 tons of polyester fabric and 7 tons of
cotton fabric in a single day. We are not only
able to handle woven materials but also
capable of dyeing knitted materials, offering
a broad range of dyeing services.

Our Fabric Knitting Department produces a
wide variety of fabric types, including
polyester, cotton, TC (poly-cottonblend), and
CVC (cotton-poly blend).

Our Accessories Department is dedicated to
producing high-quality garment accessories,
including twill tape, lace, and printed labels,
to meet the diverse needs of the garment
manufacturing industry.

CV. Citra Kualita Perdana adalah sebuah perusahaan tekstil yang terpadu dan terpercaya di Kota Bandung. Didirikan pada tahun 2005, dimulai dengan usaha printing sablon manual dan mulai berkembang. Pada tahun 2015, kami memutuskan untuk membuka Toko Kain/Trading, karena kami sudah 10 tahun mempelajari tentang kain melalui Printing. Membuat kami mengerti kualitas dan karakteristik kain.

Maka dari itu kami menyediakan Kain Printing yang sudah melebihi 100 motif dan terus bertambah setiap bulannya. Selain Printing Pigment, kami juga memiliki Print

Reaktif serta masih banyak jenisnya. CKP juga menjadi satu-satunya Toko Kain yang memiliki Motif Print terbanyak dan terlengkap di Bandung.

Sistem Bussines to Bussines yang terus tertanam membuat kami yakin untuk membantu usaha. Arti dari nama Citra Kualita Perdana adalah

Citra: Kami sangat mementingkan Pencitraan dan Citra di masyarakat yaitu dengan memberikan pelayanan yang terbaik dan profesional.

Kualita: Tetap mempertahankan kualitas yang di bangun sejak pertama kali kami merintis karir agar tidak mengecewakan.

Perdana: Pertama / awal memulai bisnis. Agar tidak melupakan sejarah kami sampai sekarang.

Jadi arti dari Citra Kualita Perdana adalah memulai awal bisnis dengan kualitas sehingga harus dijaga agar pencitraannya tetap baik.

Visi: Menjadi Toko kain / Trading yang terkemuka dan distributor kain terpercaya di seluruh wilayah Indonesia.

Misi: Membuat dan mendukung kreativitas Bangsa Indonesia.

Membantu menciptakan pertumbuhan di bidang perekonomian Indonesia.

List of Product: Fabrics

Jihua 3509 Textile Co., Ltd. (Once called the NO. 3509 Factory of the Chinese PLA), established in 1950, was restructured in November 2007. Together with Jihua Group (stock code: 601718) as a whole, it was listed in Aug. 2010. It is now under the jurisdiction of Xinxing Cathay International Group, one of the top 500 enterprises. Currently, the Company owns 950 employees, 80,000 SPINDLES and 400 IMPORTED SHUTTLESS LOOMS. Its annual production of various types of yarn is over 20,000 tons, and that of the high-grade fabric, home textile fabrics and industrial fabrics is more than 30 million meters.

In order to expanded our international market, we joined Lenzing Union, TANBOOCEL, Supima and Cotton USA, and we got the certificate of GOTS, OCS, GRS, Oeko-Tex 100, FSC and ISO9001, ISO14001, OHSAS18001 System. Now we could provide the eco-friendly and healthy products to our customers.

Founded in 1996, ESMOD Jakarta pioneered fashion education in Indonesia using the french curriculum and international certification from ESMOD Paris. For more than two decades, it has been shaping designers and entrepreneurs who brought Indonesian creativity from classroom studios to international achievements.

In 2022, it evolved into Creative Polytechnic Indonesia (CPI), a nationally accredited institution adding an Applied Bachelor Degree certification. With study programs accredited by BAN-PT for Fashion Design and by LAMEMBA for Creative Business, CPI continues this legacy by preparing innovators to lead and inspire globally.

List of Product: Other: Association

Rantai Tekstil Lestari is a non-profit
association, founded by eight founders based
on their shared concerns about sustainability
in Indonesia's textile supply chain.

The association aims to be a place where all
stakeholders in the textile industry can gather
and connect to share knowledge, best
practices, and seek opportunities for
potential collaboration.

Vision:

To create a more inclusive, innovative, and
sustainable textile, apparel, and fashion
industry in Indonesia—one that generates
economic growth, strengthens social equity,
and protects the environment.

Mission:

To mobilize and connect stakeholders who
share the vision of a just and sustainable
transformation of Indonesia's textile and
fashion industries.

The Textile Map is a digital media and learning platform focused on delivering knowledge revolving the textile industry to an inclusive scope of readers, particularly in Indonesia. Founded in 2020, The Textile Map aims to document and transcend narratives through thoughtful articles, visual storytelling, digital content, industry collaborations, and learning experiences.

Our work focuses on five major focus areas: Indonesian textiles, world textiles, fashion, business and sustainability, as well as technology and innovation.

Beyond journalism and publishing, The Textile Map is developing learning programs, workshops, conferences, industry events, and digital resources to nurture the next generation of textile-aware thinkers, creators, educators, and innovators.

We aim to be a bridge between tradition and innovation, where heritage meets contemporary relevance, and craft meets creative futures.

Textile South Asia is a leading digital media platform dedicated to delivering comprehensive and timely coverage of the South Asian textile and apparel industry. The platform provides daily news, updates, in-depth analysis, case studies, and exclusive industry scoops that keep professionals informed about the rapidly evolving textile landscape across the region.

Covering key markets including India, Bangladesh, Pakistan, Sri Lanka, and other South Asian countries, Textile South Asia focuses on the entire textile value chain—from fiber and yarn to fabrics, garments, technical textiles, machinery, chemicals, and sustainability initiatives. Our content is designed to serve manufacturers, exporters, suppliers, buyers, policymakers, and industry stakeholders seeking reliable and actionable industry intelligence.

Textile South Asia goes beyond headlines by offering expert insights into market trends, trade developments, policy changes, technological advancements, and investment activity shaping the regional textile sector.

With a strong emphasis on sustainability, compliance, and innovation, Textile South

Asia regularly features stories on eco-friendly production, circular textiles, responsible sourcing, and evolving global standards. Delivered through a user-friendly digital platform, newsletters, and social media channels, Textile South Asia serves as a trusted information hub, connecting the South Asian textile industry with global markets.
