

VIOSKI

NEW CENTURY MODERN

VIOSKI

Residential and Commercial Furniture - Well designed and well made.

Splunk offices with Palms Loveseats, Palms I Chairs and Metor Benches

VIOSKI furniture, designed by Jeff Vioski, reflects his expertise in architecture and interior design. Each piece seamlessly blends mid-century, modern, and contemporary influences, resulting in thoughtfully designed furniture made from high-quality materials built to last. Whether for your home or office, VIOSKI furniture adds a touch of elegance, sophistication and fun to any space.

Jeff Vioski

Jeff earned his master's degree in Architecture and Urban Planning, specializing in residential design. His furniture designs reflect this expertise, as seen in pieces like the Mitosi and Shea Sectionals, where the influence of architecture is evident. Jeff is committed to using only the finest materials, whether designing a chair or a house. Every Vioski piece is handcrafted with high-quality foam, steel sinuous springs in the seats to prevent sagging, and top-stitched seams for added durability. These are just a few of the rigorous standards you can expect from Vioski furniture.

VIOSKI

CUSTOMIZATIONS

No matter how beautiful a piece is, if it doesn't fit in your space, then beauty doesn't matter. That is why at VIOSKI, we believe your furniture should fit your space perfectly and since most of our pieces can be customized we can assist you in the customization. Any sofa can be made into a sectional and vice versa. If you need additional length for your sofa, require a higher seat, or increase the depth a few inches; we can work with you on that. If you prefer wood legs on a piece instead of a metal base, or if you don't want feathers in your back pillows, we will help you achieve the outcome and help design the furniture you'll love.

THE
COLLECTION

VIOSKI Tuulla Chair

The Tuulla Chair is our best-selling chair, born from Jeff's vision of creating a chair that was essentially "made" of tufts. After exploring various concepts, he perfected the iconic design, which earned the Best Seating of the Year award from Interior Design magazine in 2014. The chair features tufts crafted from varying densities of foam, sinuous springs on the seat, back, and arms, and metal bracing within the frame for exceptional strength and durability. The seams are double-stitched for added resilience, and the base is constructed from solid $\frac{1}{2}$ " steel, available in either a satin chrome or matte black finish. The Tuulla Chair is as comfortable as it is visually striking.

VIOSKI Palms II Chair

The Palms II Chair, designed in 2004, marked Jeff's first win for Seating of the Year from Interior Design magazine. The concept for this chair was inspired by Jeff's early years in Southern California, drawing influence from the Case Study Homes and the mid-century designs of Los Angeles and Palm Springs. The Palms II Chair is sleek and low, exuding a sultry charm, especially in rich dark fabrics. When upholstered in brighter colors, the chair takes on a playful, yet still alluring, character. It's a more compact version of Jeff's earlier design, the Palms I Chair, which is wider and roomier but equally stylish. The Palms II Chair is available with solid walnut legs or a 360-degree solid steel X-base swivel in satin chrome or matte black.

VIOSKI Shea Sectional

Custom Double Lounge Shea Sectional

The Shea Sectional draws inspiration from Jeff's architectural background, incorporating architectural elements within the sofa itself. It features a spacious corner lounge, a 30" deep loveseat, a 2" and a wood console nestled into the sofa's design. These elements come together to create a piece that is both visually stunning and exceptionally comfortable from every angle.

VIOSKI Mitosi Sectional

The Mitosi Sectional showcases Jeff's innovative design by utilizing a single module repeated two, three, four, or five times to create a variety of configurations. Meticulous comfort and visual appeal, arranging five modules forms a captivating conversational focal point of any room. For added customization, the length of the Mitosi's long side perfectly suit your space and style preferences. The piece comes in left or right facing configurations.

ing.

VIOSKI Fratelli Group

The Fratelli Group features a pair of chairs and a waterfall grain, arching solid wood Parsons table. The chairs, compact lounges, are designed to nestle perfectly underneath creating a cohesive and elegant arrangement. With one right-arm and left-arm facing options, the chairs can be configured as shown above or by using two chairs with the same arm orientation, the pieces can be arranged into a tête-à-tête sofa. The flexibility of the Fratelli Group allows for rearrangement; by rotating the chairs from front-facing to side-facing, you can switch to a more lounge-like setup, perfect for putting your legs up and relaxing.

re cushioned with high-quality foam in varying densities. With its clean lines
Zurich Bed offers both elegance and comfort for a perfect night's sleep.

VIOSKI Brenton Table

Milo Loveseat

The clean, open design of the Brenton Round Table beautifully balances simplicity and sophistication. Smooth, angled edges are perfectly flush with its three tapered legs. The solid, spacious design offers lightness and openness. Superbly crafted in solid white oak. Available in 24", 30", 36", 40", 46" diameters and custom sizes.

VIOSKI Eland Bench

The Eland Bench is both versatile and stunning. Its top consists of three movable inserts that can be moved to any position on the bench (as shown below). You can choose from one, two, or three inserts in leather, fabric, wood, or any combination. No matter how you configure your Eland, it will always exude beauty.

VIOSKI Nicholas I Sectional

Everyone loves a corner seat, and the Nicholas Sectional offers three. Its innovative design makes it as visually striking as it is comfortable. The integrated table, with a solid wood top, ensures that the back of the sectional is as eye-catching as the front. Extra-large feather/down and Trillium filled back pillows provide exceptional comfort. Vioski also offers a seat cushion version, the Nicholas II, which features high resiliency (HR) foam with a plush 9" thickness for ultimate relaxation. The Nicholas Sectional combines style and functionality in one remarkable piece. The piece can come in left or right facing orientations and custom configurations are welcome.

VIOSKI Chicago Series

The Chicago Sofa pays homage to classics like the Mies van der Rohe Barcelona Couch and the Florence Knoll Sofa. A blend of influences, Jeff's Chicago Series features roll pillows, individually sewn tufts, meticulous button tufting, and clean, proportional lines that exude timeless beauty. Crafted with high-quality materials for lasting durability, the sofa's round bolster pillow is perfectly positioned for resting your head while reading or napping. The Chicago Series includes sofas, chairs, lounges, extra deep lounges, and loveseats, offering a classic look that makes a statement in any room.

VIOSKI Studio Table

Tuulla Loveseat

The Studio Table brings together a large expanse of rich solid wood and a thinly pressed metal plate, a test of time. Shown in solid walnut. Also available in rift-cut white oak and custom black powder coat.

proportioned metal X-base for a light, modern look durable enough to stand the sizes. Metal base is solid 3/4" x 3/4" steel finished in either satin chrome or matte

VIOSKI Traci Chair

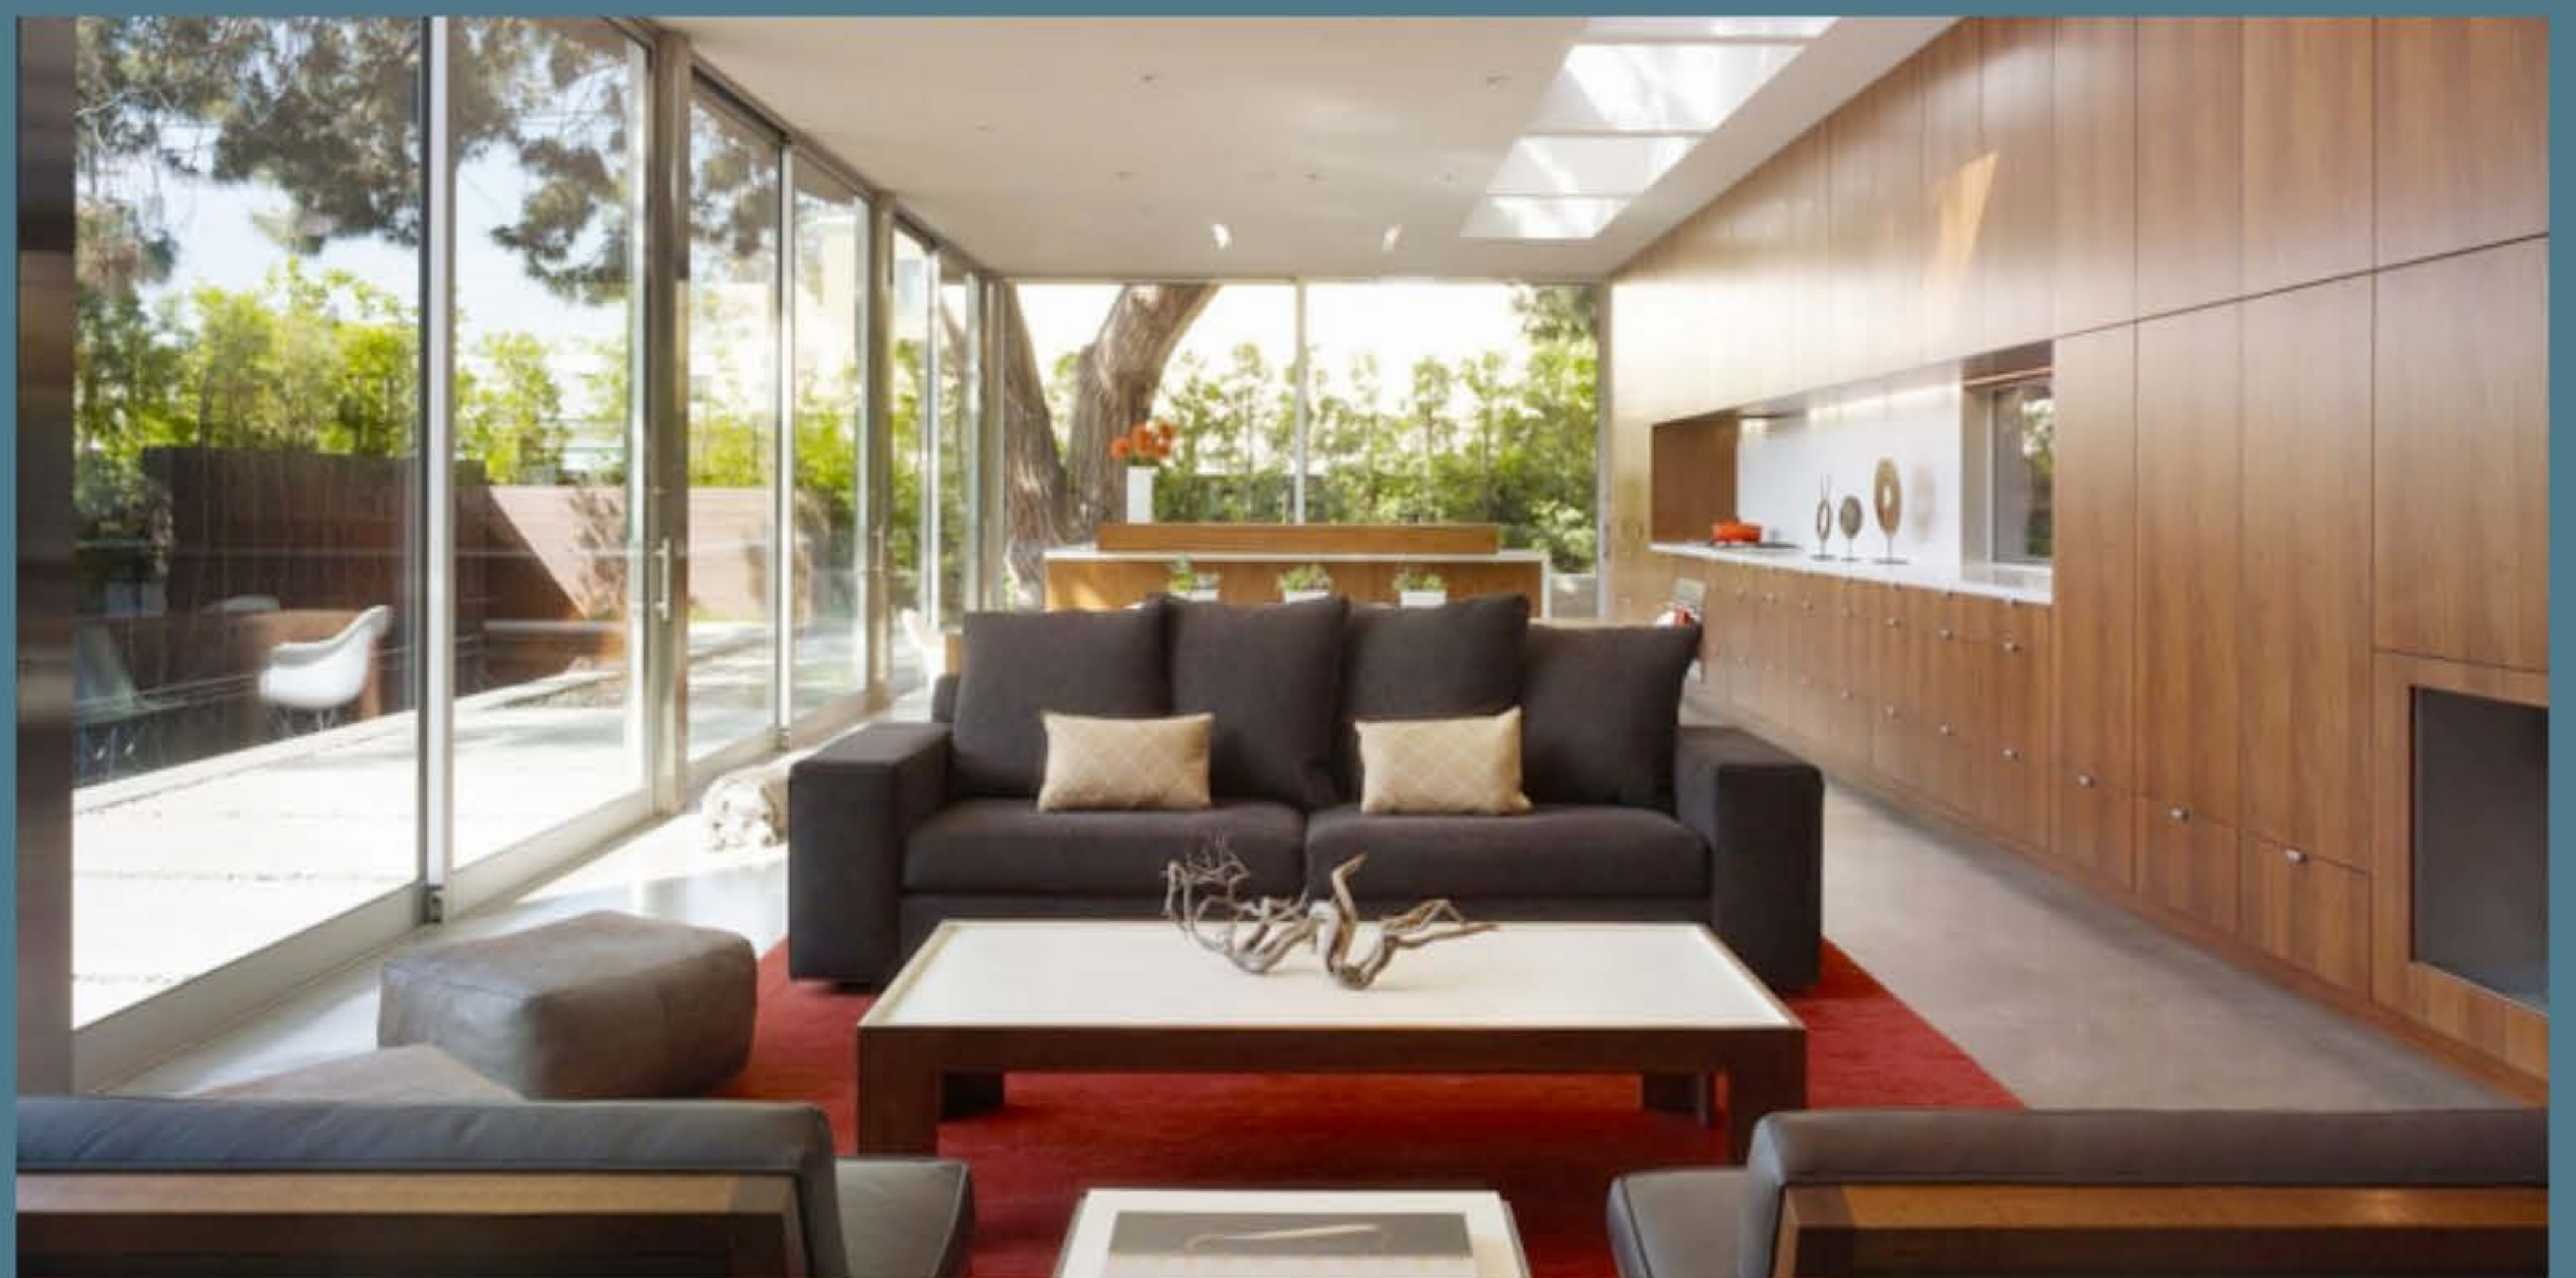

The Traci Chair showcases the timeless pairing of richly colored wood and supple black leather. With a wide, comfortable seat and a solid walnut frame, this chair's reclining profile and clean design make it a classic addition to any living room, bedroom, or office. Whether upholstered in leather or fabric, with a solid walnut or rift-cut white oak frame, the Traci Chair's classic lines will stand out in your space, offering both style and comfort.

VIOSKI Residential & Commercial

Vioski Inc. designs, manufactures, and sells its own line of bespoke, skillfully crafted upholstered furniture. Our clientele includes residential buyers, high-end residential and showrooms, large commercial design firms, and contract dealers. Vioski furnishes homes, offices, commercial spaces, lobbies, and more, offering a perfect blend of style and quality to meet your needs.

VIOSKI

Manufactured by Black Label Home

Vioski is proudly crafted by Black Label Home, the perfect partner when we sought a high-quality builder for our line. Located in Southern California, their factory is just a short corner from where Vioski was originally founded, reflecting our commitment to local sourcing. Black Label Home shares our dedication to exceptional craftsmanship, reinforcing Vioski's reputation as a high-quality brand. Their commitment is evident in every piece they build.

Construction

Each order is individually bench-made by a single upholsterer. We use neither an assembly line nor mass production methods, thereby allowing for more careful attention to the finish quality of each piece. Every order is carefully inspected prior to packaging to ensure product integrity.

Frames

Our frames are hand crafted as a single unit using kiln dried solid alder hardwood. Frames are stapled, glued and corner blocked for optimum strength and rigidity. Chairs like the Tuulla Chair employs metal bracing at certain points on the frame to ensure strength and longevity. Our confidence in the materials and construction methods used enable us to feature a lifetime warranty to the original owner.

Back Pillows

Vioski's back and throw pillows are filled with a blend of feather/down and Trillium, a synthetic down alternative that helps keep the pillows fluffier for longer, thanks to its excellent resilience. The pillows are encased in a liner bag with channeling to prevent sagging. For those with feather allergies, we offer high-quality poly fiber and other blend alternatives.

Seat Cushions

We use the highest quality foam, called HR foam, which stands for hi-resiliency. Another term used for the foam we use is 2.5-pound foam. That is because the foam, if cut into a one-foot square piece, would weigh 2.5 pounds. This foam, as opposed to 1- or 1.5-pound foam, will last much longer than standard foams. Quality from the frame to the fabric. Also, our foam is CertiPUR-US approved, meaning the foam is manufactured without ozone depleters, PBDE flame retardants, mercury lead or other heavy metals, formaldehyde or phthalates. They are very low in VOC (Volatile Organic Compound) emissions indoor air quality (less than 0.5 ppm).

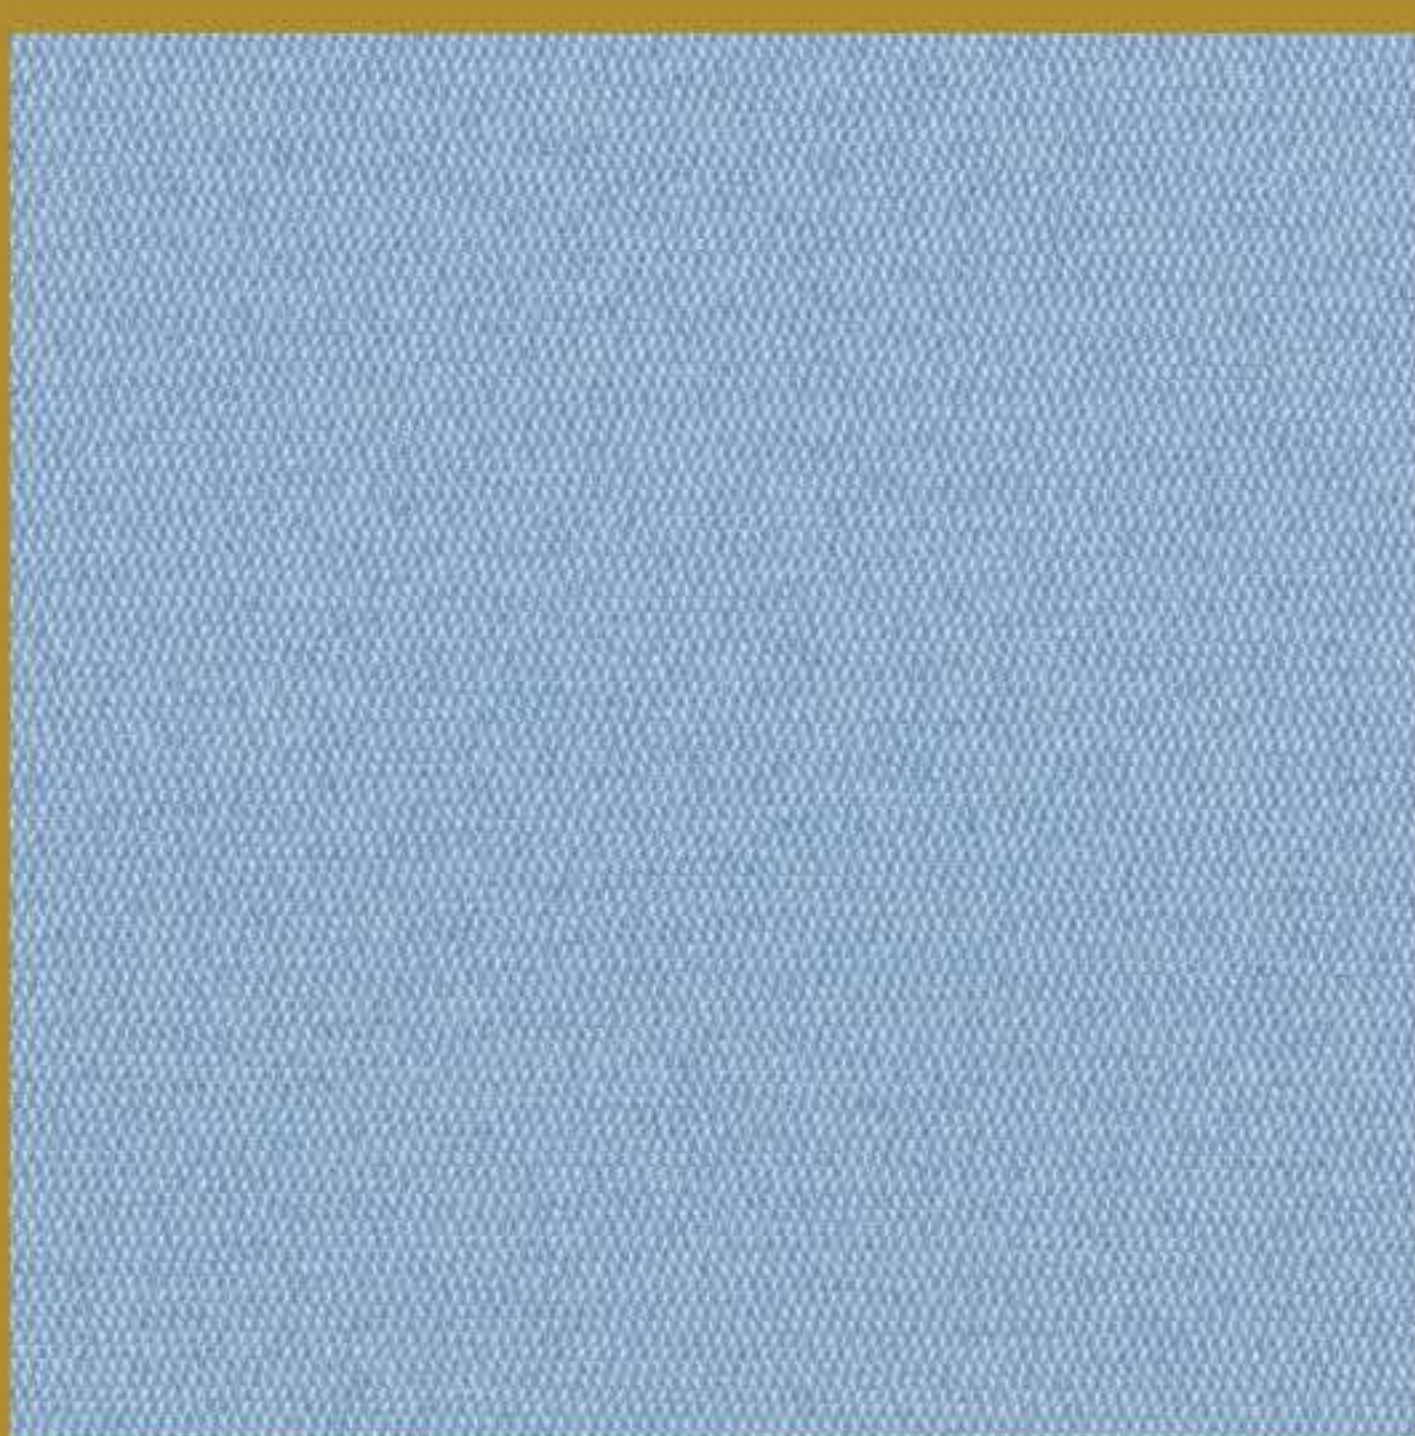

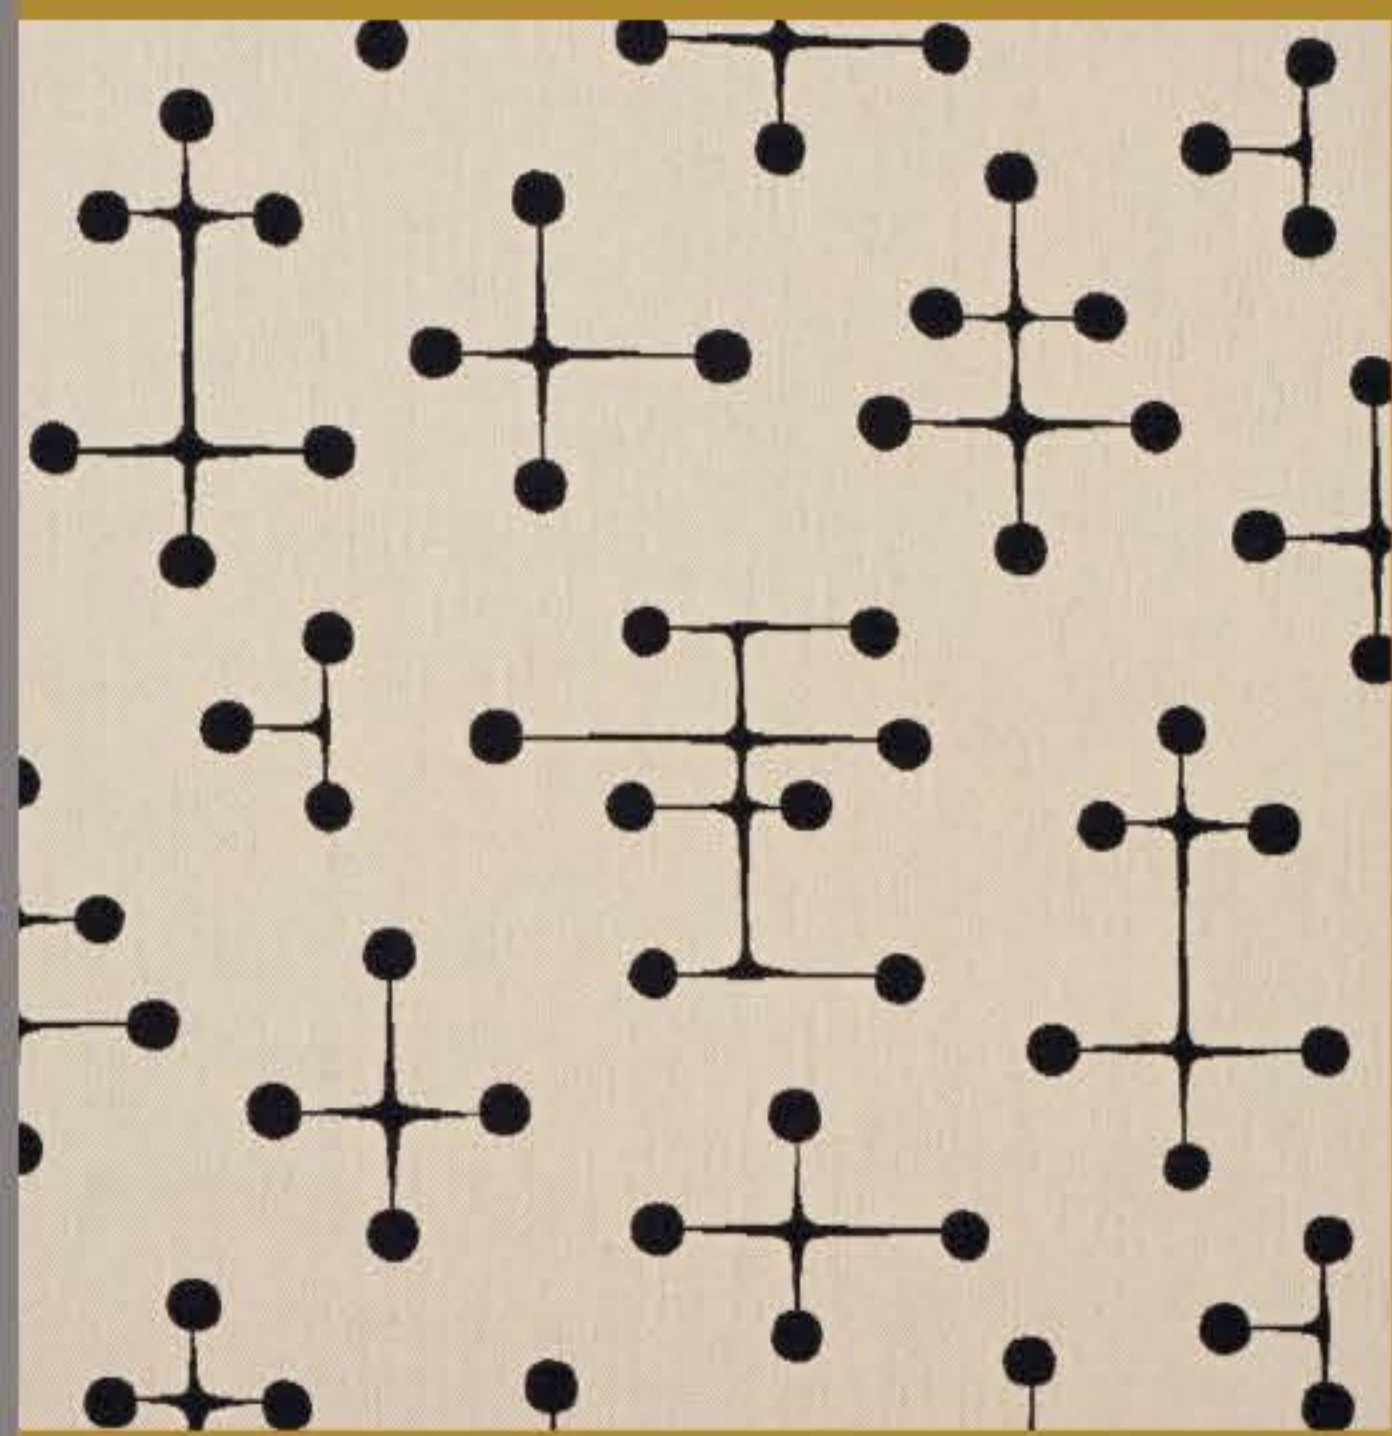

Sinuous Springs & 8-way hand-tied

The vast majority of our styles feature high-quality, American-made sinuous springs, ensuring long-lasting, superior comfort. At Vioski, we use only sinuous and 8-way hand-tied springs—never strapping—so the seat retains its shape and never sags.

VIOSKI Fabrics

At Vioski, every order is built by hand with meticulous attention to detail. For instance, we construct the cushions until the body of the upholstered piece is complete, ensuring the fabric is perfectly aligned. While we don't manufacture fabric, we've worked with countless beautiful C.O.M.s (our own material) fabrics over the years.

There are many high-quality fabric manufacturers to choose from out in the world. For our orders are COM, we'd like to help the customer by highlighting fabrics we've pre-approved. Instead of reinventing the wheel, we've curated a selection of high-quality fabrics to streamline the process. This list isn't exhaustive, to avoid an overwhelming amount of choices, but it offers a range of excellent options. Choosing from our pre-approved fabrics means we can send you samples to see and feel. If you have another fabric in mind, we're happy to test a provided sample. If your choice is from the preapproved fabrics, we can handle the purchase of these fabrics, making your experience smoother and easier.

VIOSKI Homes

Jeff's degree and early career are in architecture and urban planning, with an emphasis on residential design. After working in the architectural field for a number of years, he decided to leave architecture and pursue furniture design. But the love of residential architecture was never far away. When designing a home, he always envisions the home surrounding each piece. After a number of years designing his furniture, designing homes became a drawing here and a drawing there until he had accumulated a portfolio of residential design.

Jeff's home designs are centered around the concept of a courtyard, whenever the site allows. His homes draw inspiration from a blend of mid-century, international style, and classical architecture, creating a timeless yet contemporary feel. As you move through the home, you'll experience beautiful focal points that evoke a sense of journey and discovery. The transitions between spaces are seamless, making the destinations themselves, making every corner of the home, inside and out, a delightful experience.

These VIOSKI homes are designed for a modern lifestyle, incorporating a harmonious blend of the interior and exterior spaces that last and last.

These homes are designed for friends, who want to live with a VIOSKI home. With a VIOSKI home, you can enjoy a peaceful and safe environment. Contact him for more information.

focus on residential design. Architecture and pursue designing his line, he would furniture line, his love of created a VIOSKI style for

te allows. These courtyard sensibilities, creating a beautifully layered vistas and spaces are as captivating as light to explore.

VIOSKI villas, as Jeff likes to think of them when designing, celebrate the inside/outside incorporating courtyards and gardens that interweave with the house, creating a seamless blend of architecture and nature. Every exterior space is as thoughtfully crafted as the interior, ensuring a cohesive and beautiful design throughout. High quality materials are used to create spaces that look stunning and feel luxurious, but not ostentatious.

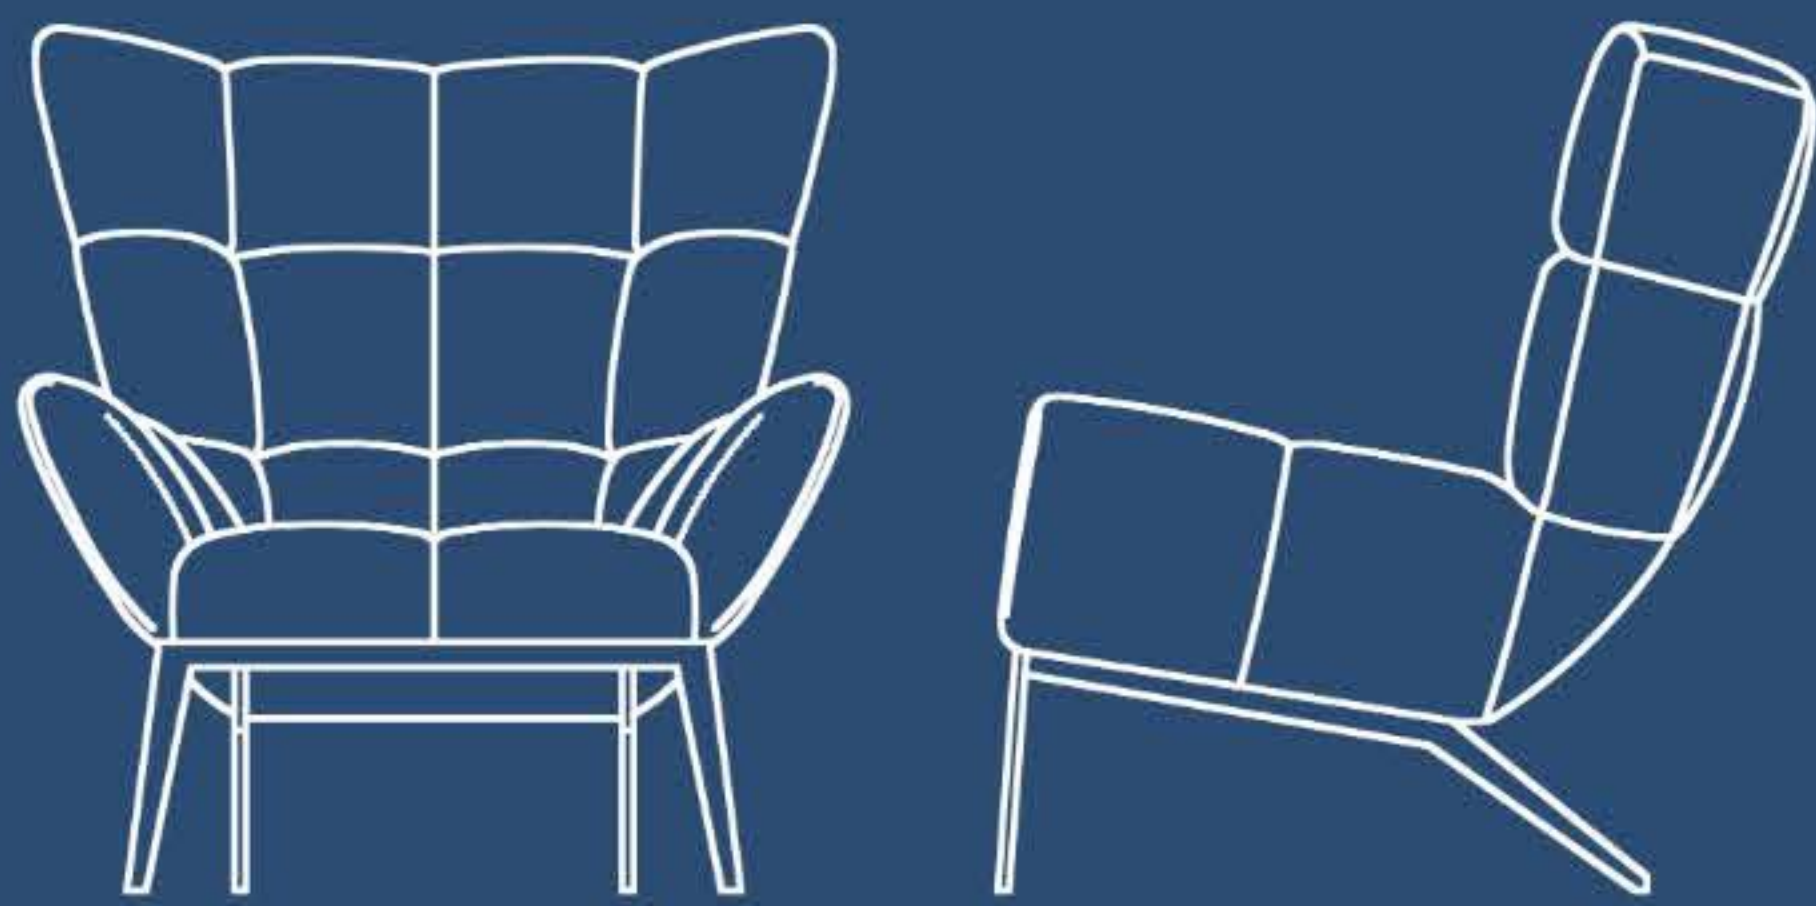

VIOSKI homes are perfect for entertaining, providing ample space for gatherings with family and friends while also offering a cozy, intimate atmosphere for quiet evenings and everyday living. In a VIOSKI designed home, you'll have a place that is both a vibrant hub for community and a peaceful sanctuary. If you are interested in exploring a home designed by Jeff, please feel free to contact us.
