## **Red, White, and You 250 Years of American History at Belle Hampton Farm**

On September 6, 2026, the Belle Hampton Legacy Center, a 501(c)3, will proudly commemorate Belle Hampton's beginnings in 1767 in concert with the founding spirit of America that followed in 1776. The 250-Year National Celebration will honor historical milestones that transformed the country.

This celebration is more than a remembrance of the past; it is a tribute to those who carried the legacy forward and a call to inspire future generations to do the same. As we gather to honor 250 years of the United States, we celebrate not only the history of a farm but also the enduring spirit of the people and place that helped build Virginia and shape America.
