What's in this brochure?

This brochure lists jobs in Vermont that pay well and will have a lot of openings in the next 10 years, but there are many more jobs in Vermont to choose from beyond those listed in the brochure! Do you see one that matches your interests?

Here's what to look for:

- **Median Wage** – This is the mid-point wage for all people doing this job. Half the people earn more, and half earn less. New workers usually start below the median but can earn more with experience.
- **10-Year Projected Openings** – Jobs with the most expected openings in Vermont are shown in bold.
- **Minimum Education Needed** – This shows what level of school or training you need to prepare for that job.
- **Registered Apprenticeship** – This means you can learn on the job while getting paid. Visit **labor.vermont.gov/apprenticeship** to learn more.
