Easy Christmas Felting

Step 1: A high-density felting foam sponge is essential along with a dry felting needle.

Step 2: Place a sheet of felt-wool blend on top of the felting foam, ready to dry felt crafting combed wool.

Step 3: To pull the wool apart, hold hands approx. 20cm apart and gently pull. The ends should be wispy.

Step 4: Place the wool on the felt-wool blend sheet and firmly direct the dry felting needle all the way through to the felting foam. Always keep needle upright, not slanted.

Step 5: Move the wool in the direction you would like the dry felting to follow, using quick pricks of the needle to fix in place. Lift felt from foam every so often to loosen it.

Step 6: Continue to fill the design, introducing new colours as desired. Layer and blend wool as the work progresses.

Step 7: Display completed dry felted artwork.

Dry Felting Starter Kit

This starter set offers the perfect convenience for classrooms and artrooms, with your dry felting essentials – just add the wool tops! This set is enough to get 10 students started in dry felting. And best of all it can be reused – you only need to restock on the felt squares and wool tops.

This kit includes:

- 10 x Felting Foam Block: High density felting foam, 15cm x 15cm x 5cm
 - 10 x Dry Felt Needles: Medium thickness, Length 8.6cm
 - 30 x Wool Felt Square Pieces 14 x 14cm, assorted colours (colours may vary).
- Wool Tops NOT included.**

Easy twist & spiral trees!

Materials

CHZ066 Zart Tinsel Chenille Stems Rainbow 30cm Pack of 150

CHZ102 Zart Chenille Stems Ombre 30cm Pack of 150

Steps

1. Twist four chenille stems together at the centre point to secure, and fold in half.
2. Take two ends and curl each into a spiral to create the lower branches.
3. Moving upwards, twist the remaining six loose ends together once to begin forming the tree trunk.
4. Repeat these two steps—curl two ends into spirals, then twist the remaining ends together—to build the tree shape, leaving two ends remaining.
5. Curl one of the remaining ends into a spiral to create the tree topper.
6. Fold the final end back down along and behind the centre of the tree to extend the trunk and create the base.

Extension Ideas

- Experiment with different twisting techniques and create different shapes and patterns.
- Vary the size and number of stems to create a family of trees, from tiny to tall.
- Attach a loop of chenille stem to hang the tree as a decoration or gift tag.

Gold Christmas Doily Tree

Create this striking tiered tree using just two craft materials – a clever, budget-friendly classroom ornament!

Materials

PAZ364 Zart Doilies Gold Pack of 50

PA594 Zart Paper Straws 8mm x 19.7cm Coloured Pack of 500

Steps

1. Cut a straight line in each doily stopping at the center.
2. Overlap the cut edges and glue to form cone shapes in graduating sizes.
3. Make a small cut at the top of each cone, large enough for the paper straw to pass through.
4. Thread the cones onto the straw, starting with the largest and working up to the smallest, securing each layer.
5. Cut a star shape from a doily and attach to the top of the straw.

(Option: secure base in ball of Plasticine or Magiclay)

Extension Ideas

- Create a forest of trees using different sizes and colours.
- Explore geometric forms by designing alternative tree toppers.
- Decorate the doilies with sequins, gems or glitter.

CRZ260 Slicks By Zart Christmas Colours Pack of 6

PA129-AS Zart Cover Paper 120gsm A4 Assorted Pack of 500

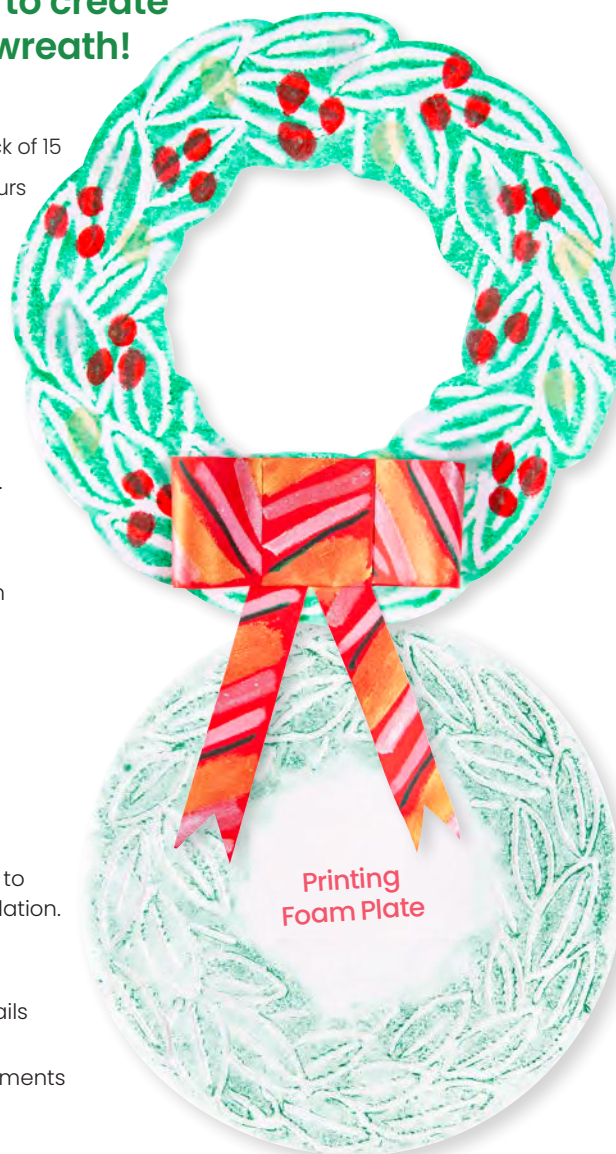

PAZ362 Zart Cartridge Paper Circles 25cm Pack of 100

Steps

1. Use a pencil to draw and press a wreath design into the printing foam.
2. Apply Slicks colour over the foam and lightly spray with water.
3. Press a paper circle onto the foam and rub gently to transfer the print.
4. Repeat printing as desired, wiping the foam clean between prints.
5. Using cover paper and slicks, cut, decorate and add a bow or other decorative details to the wreath.

Extension Ideas

- Display multiple wreaths together to create a collaborative festive installation.
- Experiment with different colour combinations and layered prints.
- Add berries, bows and festive details using collage materials.
- Use metallic markers or embellishments to enhance the finished print.

Printing Foam by Zart

- An easy, economical and very popular introduction to printmaking, designed for all age levels! No need for any sharp or dangerous cutting tools, and no printing press or special tools required. Made from a thin, soft polystyrene, it is lightweight, stores easily and is very safe to use.

How to use: Printing Foam

Step 1: Create the 'block' by simply pressing lines and shapes into the special soft printing foam surface. Use a HB pencil or a ballpoint pen. For larger areas, press into the foam with a popstick, spoon or similar blunt object.

Step 2: Use a foam roller to ink the printing foam surface with any type of water-based printing ink or paint.

Step 3: Carefully lay a sheet of paper over the inked surface and rub all over with a clean, hard roller, back of a spoon, palm of your hand, or baren.

Step 4: Peel off the print slowly. Repeat the inking and rubbing process as desired. Experiment with different coloured inks and different coloured papers.

Clean up: To wash the block, simply hold under the tap or soak in a dish of water. The surface and lines may be carefully cleaned with a soft brush. The block will store easily for future use when completely dry.

How to use: Gel Printing

Gel printing plates produce unique monotypes and image transfers, which can be used as stand-alone artworks or may be incorporated into mixed media, collage and craft projects.

Unlike other forms of printmaking such as block or screen, monotype printing produces only one unique image.

Step 1: Apply small dots of acrylic paint to the gel print plate, cover the whole plate.

Step 2: Roll out the acrylic paint with a rubber roller. Roll the paint in the same direction, back and forth for a few rolls to get even coverage.

Step 3: Use a variety of different materials, found objects and tools to create shapes, textures or patterns in the inked surface. Stencils, found objects, paper scraps and collage materials can also be used to mask out areas of the plate. NB: It is important to never 'dig' into the actual surface of the Gel Printing Plate.

Step 4: Line up a sheet of paper over the plate and press it down. Rub even pressure over the paper with a hand or clean roller.

Step 5: Gently peel back the paper to remove and to reveal the print. Do not allow the paint to dry before removing the paper as this will cause the paper to tear.

Low melt glue is best for lightweight bonds and for adhering porous surfaces together. It's suitable for adhering cardboard, wood, embellishments and fabric. Great for craft, construction, display, decoration and STEM/STEAM projects. It dries quickly which works well in a class setting where time is limited. Low melt glue is not as hot as regular (hot melt) glue, which makes it safer to use for younger children. NB: Students should always use glue guns under adult supervision.

This pack includes:

- 10 x Low Melt Glue Guns
- 1 x 1kg of Low Melt Glue Sticks, approximately 240 sticks
