
FOREST avenue
Natural Shade.
Timeless Elegance.

Belgian craftmanship
since 2005.

Designed and manufactured
in Belgium.

FOREST
avenue

01

More than shade.

The most beautiful
outdoor spaces
are never overdesigned.

They simply feel right.

Some structures create shade.

The fines ones create atmosphere.

More than architecture.

Outdoor living deserves more than protection from the sun. It deserves beauty, calm and a natural connection to its surroundings. Every Forest Avenue pergola is designed to become a seamless extension of contemporary architecture.

03

Crafted in Belgium.

Every pergola is manufactured in Belgium using carefully selected materials and precision engineering.

From the metal structure to the woven roof, every detail is designed for durability and timeless aesthetics.

Colours inspired by nature.

Every colour has been carefully selected to complement contemporary architecture and natural landscapes. Whether you prefer the warmth of real wood fibres or the timeless elegance of UV-resistant synthetic branches, each finish is designed to blend naturally into its surroundings while maintaining its beauty for years to come.

04

Designed for outdoor living.

Every project starts with architecture.
Not with dimensions.
Not with standard products.

Every Forest Avenue pergola is designed as a seamless extension of the home, balancing natural shade, refined proportions and timeless outdoor living.

Beautiful outdoor spaces begin with thoughtful design.

Built to last.

Hand-woven

Belgian made

Easy maintenance

UV-resistant

FOREST avenue

06

Tailored to your project.

Every project is unique.

Every pergola is custom-built to suit its surroundings, dimensions and architectural style.

From private gardens to hospitality projects, each structure is designed to become an integral part of the space.

Crafted around your vision.

Quick and easy installation.

Our pergolas have been designed for quick, easy and efficient installation.

Thanks to their smart design, the different components can be easily assembled on site. The metal structure is precisely prepared in our workshop to ensure a perfect fit during installation.

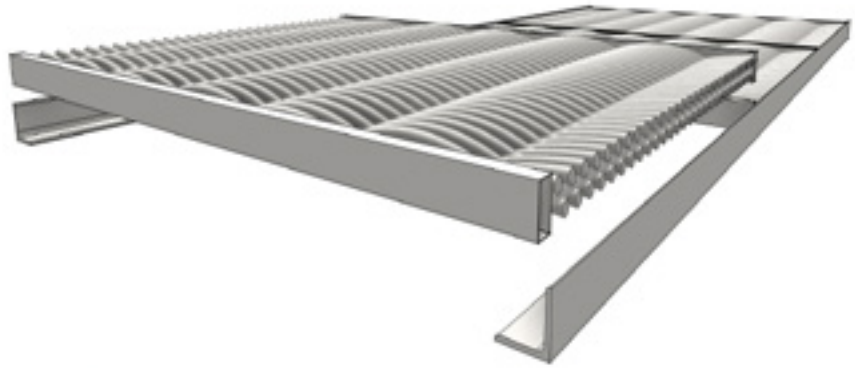

The woven panels are delivered fully finished and ready to install, significantly reducing installation time on site.

A well-thought-out design for seamless installation and a flawless result.

Two ways to create your outdoor space.

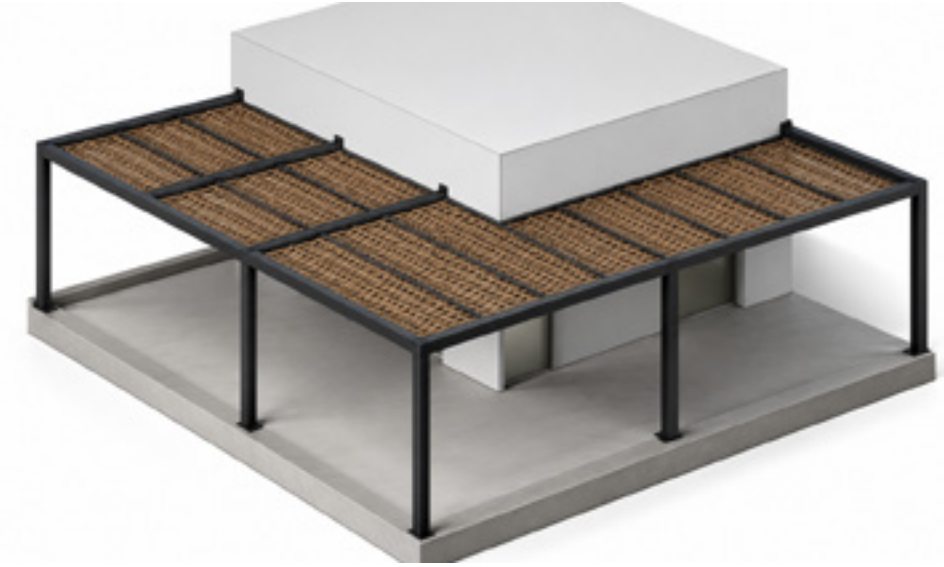

ROOF PANELS

Designed to integrate seamlessly into existing pergolas and outdoor structures.
Every woven roof panel is custom-made to ensure a perfect fit, creating natural shade while preserving the architectural character to your outdoor space.

COMPLETE STRUCTURE

Designed as a complete architectural solution, combining a custom-made steel structure with our signature woven roof.
Every pergola is manufactured to measure, ensuring perfect proportions, seamless integrati-on and timeless outdoor living.

Designed around nature.

Every Forest Avenue pergola is designed to transform outdoor spaces into places where architecture and nature exist in perfect harmony. Refined proportions, timeless materials and beautifully filtered light create an atmosphere that can be enjoyed throughout every season.
