

INTRODUCING

TRIOS 6

Wireless Intraoral Scanner

More detail. More insight.

HD Scanning

Capture up to 110% higher scan resolution.*

ScanAssist

Intelligent alignment supports smooth scanning.

Multimodal Imaging

Capture data with three light sources in one scan.

Dx Plus

Add AI-assisted oral-health visualizations.**

DentalHealth App

Share scans and oral-health insights with patients.**

*Compared with TRIOS 5.

**Software and app availability vary by market and subscription.

TRIOS 6

From digital impressions to informed conversations.

HD scan detail

Up to 110% higher resolution than TRIOS 5.

Three imaging modalities

White light, fluorescence and near-infrared data.

Guided scanning

ScanAssist alignment with LED and haptic feedback.

Wireless ergonomics

308 g including battery; calibration-free operation.

Dx Plus software*

AI-assisted visualizations of caries, plaque, tooth wear and gingival recession.

Patient engagement*

Share scans and insights through the DentalHealth app.

Connected workflows

3Shape Unite, cloud access and lab connections; STL, PLY and DCM output.

Flexible setup

Pod or MOVE Pro; three rechargeable batteries and tip options.

One Scan. More Ways to Care - with Trios 6 Scanner

Clinical applications

Restorations

Crowns, bridges, inlays and onlays

Implantology

Implant restoration workflows

Orthodontics

Supported aligner and appliance partners

Dental status

Full-arch, edentulous and follow-up scans

Full-arch color scan

Preparation detail

Bite relationship

Illustrative scan visuals — not clinical TRIOS 6 output.

TRIOS Care: first-year onboarding, training and support included; plan terms apply.

*Dx Plus and patient-app features depend on software, subscription and local availability. Clinical assessment remains with the dentist.
