ABOUT THE NEWSLETTER

Dear Readers,

This week there are not one but two benefit dinners around town. Visit both and eat for good causes! Also, you may have heard of measles cases in nearby counties. In response, the Webster County Health Unit is offering free measles vaccinations for the whole family on two separate days this week. Help protect your family and stop the spread of disease.

Welcome to the **GO Marshfield Neighborhood Newsletter**—your free, online-only source for what's going on right here in our hometown. Got an event coming up? Email us at **gomarshfield@gmail.com**. We'd love to help spread the word!

As always, we do our best to make sure everything is accurate and up to date, but events can change. Double-check with organizers before heading out. Have a great week exploring everything that Marshfield has to offer!

Warmly,

Melissa Mall

Public Health[®]
Prevent. Promote. Protect.

Protect Your Family from **MEASLES**

Vaccination is the best protection!

What are the signs and symptoms of measles?

- Sore throat
- Runny nose
- Cough
- Spots inside the mouth (small white spots)
- Red-brown rash (often starts on the face and spreads)

Why is measles dangerous?

- It can lead to serious complications such as pneumonia, brain swelling (encephalitis), and even death.
- Pregnant women are at higher risk for severe illness, including miscarriage, preterm birth, and low birth weight.
- Pregnant women cannot be vaccinated, but it is important for those around her to be vaccinated to help protect her and the baby.

The best way to keep from getting sick or dying from measles is to be vaccinated.

The measles vaccine is safe, effective, and provides long-lasting protection.

If you think you have measles...

- Stay home away from others.
- Contact your healthcare provider for guidance.

Do not go to your medical provider or emergency room without calling first.
