

Satit Prasarnmit International Programme

DIRECTOR

“

On behalf of Srinakharinwirot University and Prasarnmit Demonstration School, it gives me great pleasure to present you with details of our International Programme.

We are extremely proud to have been the first government school in Thailand to offer such a programme, we are also proud to be a registered Cambridge International Centre and for our students to be achieving outstanding results in internationally recognised English in 2017.

Satit Prasarnmit International Programme aims to create confident learners who have a developing international perspective, and are thoroughly equipped to enroll on degree courses in International Programmes at Thai Universities or on degree courses at universities in countries across the English-speaking world.

I thank you for your interest and involvement, and look forward to welcoming you as parents and students of Satit Prasarnmit International Programme.

”

**ASST. PROF.
CHAWALIT SOONGYAI**

PRINCIPAL

“

I joined SPIP in August 2012 , when there was a total of 71 students. Since then, my role has developed into senior leadership, and I play the role of developing and organizing. I am very happy to have joined the ever-growing SPIP community which has grown tremendously through the efforts of all administration and teaching staff consistently working with our school parents' community. I have enjoyed watching SPIP grow from strength to strength over the 9 years I have been here, in terms of numbers, facilities, and the breadth of effectiveness of the curriculum offered. Now there are 356 students at SPIP and we offer the full British curriculum from year 7 to year 13 under the umbrella of the Cambridge International Examination Centre. As part of the senior leadership team of school, I would like to create new knowledge and networks at the international level to transform the education system into one that develops new quality students to be able to be the future change leaders. My education background should be described as rewarding and fruitful. I hold a Bachelors First Class Honours Degree in Thai Linguistics and My Master of Education course at Chulalongkorn University. Now I am pursuing the doctor of philosophy program in Educational System Management Leadership (International Program) at Chulalongkorn University.

SPIP is different to all others I have worked at because It's like my extend family – I feel at home at work.

”

**MR. SATHIBHOPH
SOMTUA**

ASSISTANT HEAD

“

I earned both my bachelor's and master's degrees from Srinakharinwirot University with a focus on teaching English as a foreign language. I worked as a teacher at Satit Prasarnmit Demonstration School (Secondary) (SPSM) after receiving my degree. Before I became the Deputy Headteacher for Co-Curricular Activities at Satit Prasarnmit International Programme (SPIP), I had been employed here as an English teacher for about ten years. My main responsibility at SPIP is to make sure that all children enjoy participating in the events that the school organizes for them. The fact that schools are there for children and that every activity we design should be centered on their needs is what matters most to me. Nothing is more important to me than assisting pupils in realizing their ultimate objective and maximizing their learning ability. Finally, it is a great honor for me to be a member of the SPIP family, and I thus pledge to assist students and to help our school reach its full potential.

”

**MISS PRUKSAPAN
SAWARDSUK**

SENIOR EDUCATIONAL SUPERVISION

“

Satit Prasarnmit International Programme (SPIP) provides the atmosphere for study and creativity. At SPIP, we are committed to making every effort to take all

SPIP students on a voyage of self-discovery and academic achievement.

All teachers at SPIP will not only be a source of wisdom and knowledge, but will also be role models and mentors. They are most willing to help students combine their scholastic success with the life skills essential for success.

The aim of SPIP is to develop among its students all-round abilities, as individuals as well as team players and critical thinkers, by exposing them to diverse fields of challenging activities.

”

**DR. WORAPONG
SAENGPRASERT**

HEAD OF PLANNING AND CURRICULUM DESIGN

“

I was born in South Africa and I'm a dual national being both British and South African. During my younger years in South Africa I developed a love for sports and exercise, competing for my school in any sport available. It was also at this time I knew that I wanted to become a teacher. My higher educational background is from Leeds Metropolitan University which specialises in sports, exercise and physical education. After my studies I started teaching in Manchester, England developing my skills in Physical Education before moving to Thailand to teach at SPIP in 2012.

My favourite sport is rugby union and during my teens I represented my province in South Africa and after moving to England played rugby at county level. I now have a passion for coaching, and particularly enjoy coaching basketball, football and badminton since moving to Satit Prasarnmit.

My teaching philosophy is that students should have the opportunity to enjoy PE no matter their age or gender, and that sport is about doing your best, not being the best. PE lessons should be fun, competitive and educational as it encourages students to have a passion for the lifelong benefits sport can have on individuals physically, mentally or socially.

”

**MR. LUKE
HARRIS**

HEAD OF OPERATION AND ACADEMIC

“

I was born in England, but spent most of my formative years in Scotland and Australia. After returning to the UK, I attended West Bridgford Comprehensive School, Nottingham and went on to Sheffield Hallam University, where I obtained a BA (Hons) in Communication Studies. I also have a Diploma in Education from Nottingham University, and am qualified to teach English as a Foreign Language.

I have been teaching for over twenty years, and the majority of those have been in Thailand, although I have also taught in England and Italy. I have worked at SPIP for over 10 years, and am currently the Head of Operations & Academics and an English teacher. I am a keen sports fan who has coached both the KS3 & KS4 boys' football teams, and I oversee the annual SPIPRiders' charity event to Ayutthaya.

I see learning as an adventure, and encourage my students to view education in this way; a means to enrich their lives, empower themselves and improve their future prospects, as it has mine. I believe in creating a classroom environment where students feel safe, cared for and valued. A learning space with sensible boundaries that students respect and understand so that all may achieve their full potential in both the local and wider, modern, international communities.

”

**MR. ADRIAN
BARSBY**

PNS TEAM

● “On behalf of the PNS team, this past year has been a wonderful journey. We fully appreciate the activities in academics, sports, and other learning areas that our children were able to participate in, despite the challenges posed by the COVID-19 pandemic. We would like to express our heartfelt thanks to the SPIP management for always listening to parents’ opinions and for constantly striving to improve and change for the better in all aspects of school operations. We would also like to thank all the parents for their unwavering support, both in terms of funds, energy, and time to participate in activities and events organized by the school. We have participated fully in SPIP’s internal activities, and also those organized by the school, engaging students in all curricular and co-curricular activities. PNS fundraising activities have been utilized to support various events such as sports day, Christmas event, Halloween, Saisumpun, swimming gala, and Songkran Ceremony, providing our students with invaluable experiences that aid their personal development. These events have also helped to foster good relationships between the school, teachers, students, and parents. Without the cooperation of all parties, the success of these activities would not have been possible.

PNS REPRESENTATIVE

▶ As a member of the Parent-Teacher Association board, I would like to see SPIP participate in even more activities organized by the school in the best interests of our students. For the PNS team and all parents, I will continue to coordinate efforts to create opportunities for our students to participate in future events.

Congratulations to the SPIP students who graduated this year for your hard work and dedication. You have made us all very proud, and we wish you the best in your future endeavors. The success of our students reflects the potential of our school, parents, teachers, and students. Finally, I hope that everyone will cherish good memories from the past year, and that these memories will be a driving force to support our students for years to come.”

YEAR 7

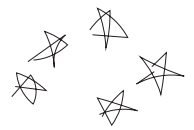

MS. DINGMEI TU

It has been a pleasure to spend time with my year 7 students and it is exciting to watch them make progress and grow. I am very proud of all of you. You are always full of energy and ideas, some are humorous and some are thoughtful and helpful. I enjoy my time with all of you, not only the tutor time but also during our residential trip in Pattaya, each of you showed independence, motivation and courage, while we all enjoyed the trip and you participated actively in all the activities. The school academic year has gone by quickly and I would like to thank all of you for allowing me the opportunity to work in such a pleasant environment and I hope that you will carry this enthusiasm with you into the next academic year.

As the school year ends, I reflect on the beautiful experience of being a homeroom teacher to some of the best tutees one could ask for. These students are polite, punctual, and always eager to learn.

Throughout the year, we have engaged in challenging games that have helped us sharpen our thinking skills, especially regarding riddles, trivia, and spelling. It has been heartwarming to witness the enthusiasm and competitiveness that my tutees have displayed during these activities.

Moreover, my tutees have demonstrated great camaraderie and support for one another. They have always been willing to help their peers struggling with a particular concept, which has fostered a great sense of community within our classroom.

I am confident that my tutees will go on to achieve great things in their academic and personal lives. I am grateful to have been a part of their journey, and I wish them all the best as they move on to new challenges and opportunities.

Our tutor group, 7SPR, is a diverse and tight-knit community of students who have weathered many challenges alongside together. Despite any differences among the students, it seems that everyone has found a way to bond and support each other. We've learned and known one another better throughout the year by spending time together during tutor-group activities, field trips, overnight trips, and so on.

The highlight of the year was our residential trip to Pattaya, where it sounds like everyone had a lot of fun. This trip has very much likely brought all of you even closer, as you now all shared new and unforgettable experiences and made memories that you will cherish for years to come.

Overall, our tutor group in my opinion is a great example of the power of community and the importance of coming together to support one another. Despite any obstacles or differences, we all have found a way to connect and enjoy each other's company. I am so grateful and couldn't be more proud that you all have grown up and come this far. Thank you for making this year a fun and wonderful year!

It has been a pleasure spending my mornings with 8JPE the past year. You are a friendly, humorous & welcoming group of young students with maturity beyond your years who are constantly try to bring the best out of each by helping with revision or encouraging kind words.

We made a lot of good memories with spaghetti, wordle, quizzes & enjoyable moments in assembly. The highlight being the trip to Hua Hin. It was a joy to see all you push yourself outside of your comfort zones in your own different ways, examples such as going on the water slide or going on the tree top climbing or join a sports team, perform on stage in front of hundreds of people.

I wish you the best of luck for the future! Remember to give nothing but your best in everything you do.

This is the bright and enthusiastic 8JZH tutor group. You were all very sweet and polite. Together, you all created a supportive and friendly group. You were all brave and active in the residential trip to Hua Hin, actively engaged in all activities and performed great, and always helped each other out. I am proud that I have got the chance to have that experience with you this year.

Remember, learning is a journey, not a destination. Every step you take towards your goals is progress, no matter how small. Stay motivated and focused, and you will see the results of your hard work. Finally, don't be afraid to make mistakes. Mistakes are opportunities to learn and grow, and we are here to help you overcome any obstacles along the way

It has been an incredible journey to witness the growth and development of 8MSH over the past year. From their first day as curious and eager learners to becoming well-rounded young individuals, it has truly been a rewarding experience. This year has been filled with challenges, but the resilience and determination shown by each member of the homeroom have been nothing short of inspiring. The time has flown by, as it often does when surrounded by such a vibrant and energetic group of students. The Hua Hin residential trip stands out as a memorable experience, during which we all had the opportunity to bond and explore our abilities outside the classroom. The students' diverse personalities shone through during the trip, and it was a pleasure to witness their camaraderie and support for one another.

Each individual in 8MSH has contributed to making this homeroom a lively and engaging environment, and it has been an honor to be their tutor for almost a year. The development of their vivid and diverse personalities over the year has been truly amazing to see, and it's something that will be cherished for years to come.

As we approach the end of the year, I am filled with immense pride for the progress made by each student in 8MSH. Their determination and growth are a testament to their commitment to learning, and I eagerly anticipate the opportunity to continue witnessing their development in the coming year. Thank you, 8MSH, for making each day a joyous and fulfilling experience.

It has been an incredible honor and privilege to serve as the tutor for 8TSP. This year has been filled with excitement and enjoyment. Together as a tutor group, we have gained so much knowledge, and witnessing the positive attitude of each student has been truly inspiring. Every member of 8TSP embodies kindness and positivity, eager to challenge themselves and move forward, making me incredibly proud. We are fortunate to have such a harmonious and synergistic group.

Time has flown by so swiftly; it feels like only yesterday when we first introduced ourselves, and now, we have shared unforgettable moments, like speeding down enormous water slides in Hua Hin.

On a personal note, I want to express my gratitude to each of you for making my inaugural year at SPIP so much more enjoyable. Your warm greetings every morning truly mean the world to me. The extra boost of positivity, the cheerful and uplifting energy from everyone in the tutor group serves as the perfect way to kickstart my day on a high note.

I wish you all the best in your future endeavors, and thank you for this memorable year.

It has been an immense pleasure to observe 9AWR develop as students and grow as people. Although we have faced many challenges, we have all managed to come out the other side stronger and more resilient. A great number of friendships have been struck up over this time and I am sure many will continue for life.

Our residential trip to Kanchanaburi gave us the opportunity to get to know each other in a wildly different environment. During this time 9AWR did an exceptional job of representing the school to all of the people we met. They should be very proud of themselves for being so mature and respectful. All of the tutees pushed themselves to try new things, demonstrating dedication and commitment at every opportunity.

I would like to personally thank each member of 9AWR for giving me so much enjoyment on a daily basis and for making me so proud to be your tutor. I hope that each person enjoys our daily tutor periods and feels just as proud to be part of the group.

The future looks very bright for 9AWR as they continue to grow both personally and academically. I look forward to seeing what wonderful things this group of young adults will achieve.

It has been a pleasure being your tutor teacher. All the year round you all have been very supportive, helpful and dedicated students. I can very confidently say that my tutor class cooperates well in activities, works together as a team, communicates effectively and is open to new ideas and perspectives. I believe that a good student behaviour is essential for creating a positive and productive learning environment and all of you guys are respectful, attentive, engaged and participated in all activities whether it's decorating the class for Halloween and Christmas, making any poster or presentation. Every morning I come to the class and listen to your thoughtful questions, I see you all follow classroom rules and guidelines, are punctual and reliable. I am glad that I have a group of students who not only enhance their own learning experiences but also contribute to the overall success of the class as a whole.

Hello 9PTR! It has been a swift few months with all of you and already we've had so many wonderful memories together. The most memorable for me as your tutor has been the Halloween Decorations. Everyone banded together to create a truly spooky event featuring vampires. The Y9 trip to Kanchanaburi also gave me an opportunity to spend more time with everyone. I had no idea Guy had such a wonderful eye for photography and Taihong for clutching the last 15 minutes of the bridge building. Poon, Ricky and Athens you did awesome pre-planning the bridge and winning most of the competitions on the trip!. Nina and Keen P took two very artistic photos for the trip (impressive)! Jedi has proved to be funny along with Napat with her hair always tied. Nene and Sufia you two are always studious in your work. Keen K you have a photographic memory for flags, it is so impressive! Punch, thank you for always being so fun everyday! It has been wonderful getting to know each one of you more and I hope you have had a relaxing time every morning in room 604 before heading to your classes. Thank you for participating in our activities and for doing your best each and every day.

Reflecting back on our first academic year together in tutor group 9TSL, I am grateful for the opportunity to have gotten to know each and every one of you. Throughout the year I learned more about all of your interesting and unique personalities, hobbies, hopes, and aspirations. Like other groups, we worked together on projects that raised awareness of important issues in the school and wider society. But it was your enthusiastic engagement with our 'Day of the Dead' activities and our communal whiteboard which demonstrated your personal curiosity for learning more about the diverse world we live in and the expanding challenges we face as a global community. I'll never forget our trip to Kanchanaburi, where we explored so many new places together. I'm excited to see what the coming year will bring, and to watch you all grow and flourish as a part of our SPIP community.

MR. WIRUT WICHIANCHOM

I am very pleased to have been presented the opportunity to be a homeroom teacher for year 9 WWI. At the beginning of the school year some problems may have arise as our homeroom gain more members but as time passed, the old group and the new students soon got to know each other more and the atmosphere of our tutor group improved immensely. On each friday afternoon, our homeroom has a Q&A activity in which JR has been the king of the activity for the past year.

I would like to thank all of you for making my morning an enjoyable one and I am looking forward to seeing you presentation for the rest of this year and the next to come.

MR. DAVID PERSEY

I must admit, when I started off on my journey with 10DPE, I wasn't too sure what to expect. The girls seemed a bit quiet, and the boys a bit loud, but I have seen that they were just easing me in gently. I feel fortunate to have inherited a very special tutor group. Our class provides leaders in many fields. I might be biased but I believe we have the musicians, actors, artists and sports players (both male and female) in Year 10 - we seem to provide the bulk of the players for the football teams, as well as the best swimmers, badminton and volleyball players. Naturally, we also have easily scored the most demerits of any class in the school, which is a record which would be good to lose! It was great seeing you all have such a great time at Rayong on this year's field trip. There were no reports of bad behaviour, and I have to say I was really proud that you all. I've also been proud of the way you guys have stood up for each other and welcomed new members to our tutor group, who have really gained in confidence this year. It's nice to have you guys as the first people I see when I come into school with my morning coffee and I'm looking forward to continuing on this journey with you all.

MR. JONATHAN LEWIS

Starting a new role in a new school is nerve-wracking for a teacher. Even though you have been briefed, you have no real idea of what to expect as you enter the first classroom. Will the students miss their old teacher, will they accept you as their new tutor, are they all friendly with each other...A million questions go through your mind.

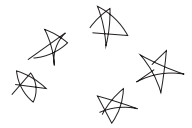

Thankfully, I walked into 10JLW. Sure, we all probably felt nervous at the beginning, but I soon came to find out that those nerves on my behalf were entirely unnecessary, and (hopefully) the students did, too.

Almost instantly I realised that this was a tremendously friendly group who were kind and helpful to each other. They helped me so much in those first few weeks by being open and honest with me so I could quickly get to know them. I want to thank every one of you for your help in those early days.

Hopefully you found me as helpful through the year as I found you. "Guess the song" YouTube games may not have progressed your studies much, but we had fun each morning when assessments weren't looming.

MR. IONEL DINU

It has been an exciting school year for the 10IDI tutor group. Everyone has managed to transition into the key stage 4 mindset relatively smoothly and this helped our group members achieve good academic results. With one or two exceptions, we have had no discipline issues and I want to applaud you all for sticking to the school policies. In one or two years from now, you will be the ones younger students look up to, so work harder in following the school rules. Speak more English every day, manage your time better, submit your work on time, participate in lessons as well as in tutor activities and wear your school uniform with joy. It has been a pleasure to be your tutor this academic year, to see you every morning at our tutor period and to be with you in school outings and trips.

Students have described our tutor room as relaxed, fun, calm, wacky, and supportive. As we are still waking up in the morning, Teacher Mark does his best to keep us up to date with important information about things going on at SPIP. Teacher Mark sometimes plays videos such as short Ted Ed clips or local and world news. Sometimes we have group challenges like quizzes. Students can also have a chance to do some last-minute cramming for tests they have that day. Most importantly, the students in our tutor group are friendly and supportive of each other. We hope it's a place where we can all feel comfortable and have a chance to start the day in a stress-free way.

YEAR 10

MR. MASSIMO CARBONI

It has been a rewarding and exciting journey watching 10MCA develop from when I first became their tutor in year 8. They have shown developing maturity over these particularly challenging 2 and half years with the COVID pandemic and they rose to the challenge by adapting quickly to the changing environment and online learning. New students have joined this tutor group this academic year and they were warmly welcomed and made to feel part of the family immediately showing that 10MCA are kind-hearted and compassionate and not just academically gifted, which is very important.

No matter the weather or circumstances, ever tutor period with 10MCA has had its humorous moments and they have always managed to lighten up the mornings and give me a positive feeling for the rest of the day. It was especially great to see them have fun and enjoy their free time outside of studying on the Khao Yai and Rayong residential trips. I was impressed by their diverse range of talents such as singing and dancing on stage!

It has been my privilege to be their tutor and watch them change and mature and help each other for almost 3 years, and work hard to be good students. I am very proud of all of them and I wish them luck in their future endeavors. I am certain they will be the positive change they wish to see in the world.

As we bid farewell to SPIP, I want to express my gratitude for the time we spent together. Thank you for your hard work, humor, and kindness. I'm confident that each of you will go on to achieve great things, and I wish you all the success in the world.

I am incredibly proud of your growth, resilience, and enthusiasm over the past three years. Together, we have built a strong sense of community within our homeroom, and I will always cherish the funny moments we shared and the laughter that echoed in our classroom.

Being your homeroom teacher has been an incredible experience, and I am filled with gratitude and pride as I write this yearbook entry. I have had the privilege of watching each of you develop into the remarkable individuals you are today.

As we conclude this school year, I want to express my deep appreciation for the opportunity to be your tutor. I hope that the skills and knowledge you have acquired will serve you well in your future endeavors. Best of luck to you all! Lots of love, hugs and best wishes

This tutor group had an incredible journey this year, and I am proud of the progress they have made. Throughout the year, they worked hard to create a safe and supportive environment where everybody could share their thoughts and experiences, ask questions, and receive guidance. They celebrated each other's successes, and offered support through setbacks. I am struck by the resilience, determination, and spirit this group has demonstrated. From navigating the trials of remote learning to adapting to new social situations, they exhibited determination and perseverance. They have remained committed to the task at hand, and made significant progress in achieving their goals. We also celebrated some amazing achievements, from winning competitions, acing exams and assignments to winning sporting event. Each of these accomplishments reflects their hard work. It was lovely to see the students being relaxed and artistic during our residential trip. Some students really pushed themselves beyond their own comfort zones. But it was their maturity and social graces that left a lasting impression on my mind. I am grateful for the privilege of being a small part of their educational journey, and I wish them all the very best for their future endeavors.

My tutor group is a collection of very promising young people who I could not possibly hope to describe, or to individually message in the hopes of reaching them on a personal level, especially not in 150 words. They're mostly thoughtful and hard-working, and authentically themselves, and I can't and won't take any credit for the greatness they've achieved this year. I've enjoyed working with them, and I don't think or know any of them to be a lesser person than myself. I'm not the greatest teacher but I've tried to help them know that they have a voice, that their feelings are heard in the school, that we should think critically about the things that happen in the school and the world around us and not be afraid to say what we feel, and I always try to help them smile with a joke when I can.

It has been an honor to watch all thirteen of my Y11 tutees show their ability to perform as fine young adults. You have proved that thirteen can bring luck! This year has been challenging for all of us, teachers and students, as we are back in the game at full capacity after the pandemic.

Many exciting recurring events have been successfully organized by the school for the first time in three years, and my tutees made great contributions to that. Starting with fantastic decorations for Halloween festivities and active participation in all activities, through the great engagement on Sports Day, and ending with an excellent performance during the residential trip to Chiang Mai. Each time you proved that, as teachers, we can trust you and may delegate some of the responsibility to you. And we weren't disappointed. Moreover, during the Chiang Mai trip, we were genuinely impressed by your creativity and maturity.

In tutoring class, I've finally decided to give you the space to express your creativity. And I'm delighted again with your cleverness in the selection of games, your commitment during these activities, and the fact that you never skip using English, even if it's challenging.

On a personal note, I would like to thank each and every one of you for showing up. Each of you guys is a wonderful individual with their own sensitivity and talents for different areas. I am proud of everyone, and sure of your continued development next year.

I am so proud of you 12 CTA. I can not believe the time has gone by so quickly. We have made so many memories and overcome so many obstacles.

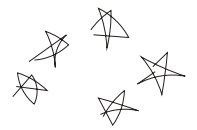

I can still remember our first day of tutorial, for many it was a lovely reunion as I got the privilege to once again be your tutor. We also welcomed lots of new tutees to our class. Over the past few months I have gotten to know each of you. You are there for each other when help is needed, be it a pencil, shoes, a charger, notes, or advice on homework. You are amazing, talented, and extraordinary.

Our residential trip to Phuket is one filled with memories, you embraced it and gave it your all from snorkeling, bracelet making, board games, ice skating, zip lining and karaoke. You sang your heart out that last night!

On a final note, thank you for making the start of my days enjoyable. I am grateful that I could be here to help support you throughout the year and provide donuts and bubble tea too. Please remember to eat breakfast and have a great day! Go and enjoy your adventures.

MR. DAVID BENTON

It has been a real pleasure to be the tutor of 12 DBE this year at SPIP. Apart from a few of my tutees, I had not really known many of the students in my group, so it was a rewarding experience to get to know them. Overtime, and through many morning chats, I feel we have bonded as a tutor group. The morning activities we had would involve general chit chat about how their lives were going, and asking them if they had any problems regarding their studies at SPIP.

Of course, recently we all managed to relax from the stresses of academic life with our wonderful residential trip to Phuket. I know some of my tutees will not be returning to SPIP next year and I would like to wish them all the best for their future studies. For the ones going on to year 13, I wish them all the best for their up-and-coming exams and look forward to seeing them again next year.

MR. GEORGE MEANS

Despite my constant nagging about unkempt uniforms and consistent tardiness, the relationships in our homeroom have somehow gone unscathed. We have managed to blend friendship and leadership, to concoct a recipe for... well, compromise is the best way to put it. It's been kind of a tough love type of year now that I think about it.

My tutor group activities are never the type for students to get enthusiastic about, but when the enthusiasm wanes below a level of respect, I put them in front of the class to see exactly how it feels delivering a "quote of the week." I preach that they should embrace the discomfort so it is only fitting that they also listen to the dull, awkward silence that comes along with trying to hold an early morning conversation with students who likely stayed up until 2 a.m. the night prior. Now that I'm typing it all out, I sound like an over-aged, evil villain whose only superpower is to complain. With this revelatory self-realization, I hereby vow to be more lenient on those of you moving onto A Levels.

YEAR 13

MR. JAMES SCHULTZ

It has been my absolute pleasure to take on my old Year 9 tutor group, plus a few brilliant additions, in their final year at SPIP. As a sendoff, we have spent the year writing University applications, creating lists of anonymous quotations, having strange and brilliant conversations and, of course, going to Korea on our residential trip.

I have spent five years of my life (a full term of high school) with most of this class and it has been even more fun than when I was at high school myself. They have seen a lot of seasons change at SPIP and a lot of teachers, students and staff come and go, but throughout, they have been a part of the core of the school, the heart of the community. SPIP will shine a little less brightly without them.

SATIT PRASARNMIT INTERNATIONAL PROGRAMME

After a day of excitement and exploration, the students found respite at the comfortable and inviting Pinnacle Grand Jomtien Resort, where they could unwind and recharge for the next day's adventures. The thrilling activities and relaxing accommodations made the Year 7 residential trip a truly memorable experience for all involved.

ELEMENTS OF ART: THE PROJECT

Over the last term, Year 7 explored different elements of art: line, shape, color, value, form, texture, and space. Students were challenged to create a piece of art that used all seven elements. The theme was 'Childhood Memories.' Each student chose a subject, which can be an item, a person, or an object from your childhood memories. Then draw a fraction of whatever they chose for each of those elements.

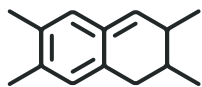

Our year 7s, like every other year group, started our SPIP's Christmas party in their homerooms, where they exchanged their gifts in Secret Santa. After that, our youngest students then proceed to go on stage to perform together as a group, singing some of the most famous Christmas songs, including Jingle Bells, Silent Night, Merry Christmas (War is over), and Auld Lang Syne. Every student has given it their all, as they spent their time rehearsing in their music classes.

YEAR GROUP *SPIP* ACTIVITIES

SATIT PRASARNMIT INTERNATIONAL PROGRAMME

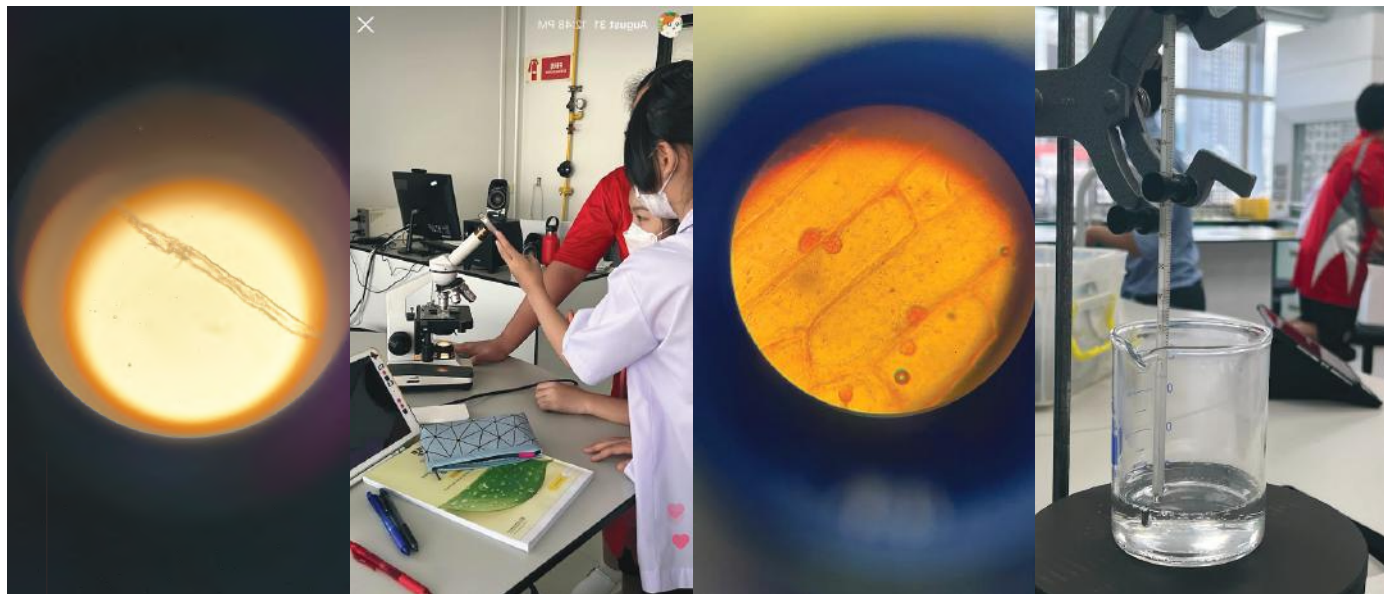

YEAR GROUP *Spip* ACTIVITIES

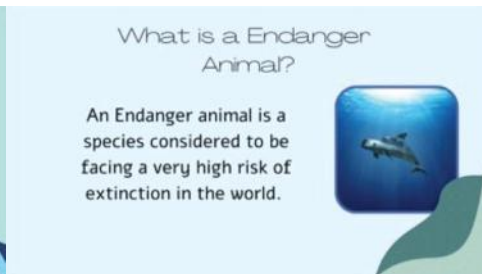

In Year 7 science class, students not only learned from textbooks but also engaged in practical experiments. These hands-on experiences deepened their understanding of scientific concepts and sparked their curiosity.

One memorable experiment focused on temperature changes over time. Using a thermometer, they recorded minute-by-minute temperature fluctuations. This practical exercise expanded their knowledge of temperature dynamics and material behavior.

Additionally, students explored the captivating world of microscopy. Examining an onion cell under the microscope was enlightening for many; it was their first experience with this tool. They witnessed the microscopic world come alive before their eyes.

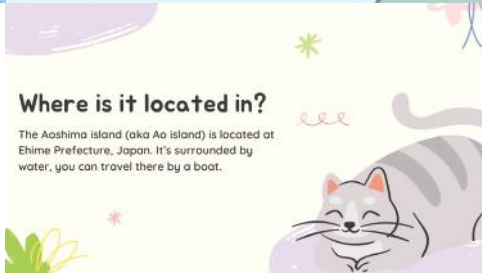

These experiences cultivated important skills as well. Students learned to handle the lab equipment and microscopes, feeling like real scientists. The combination of textbook learning and hands-on experiments made the class exciting and enhanced their understanding.

In the Year 7 English Language Development class, students participated in various projects to explore different subjects and enhance their English skills. One project focused on the topic of endangered animals. Students conducted research, created informative slideshows, and delivered engaging presentations, showcasing their abilities in collaboration and communication. Through this project, they gained a deeper understanding of ecosystems and the significance of conservation.

Another project involved a group exploration of unusual tourist destinations around the world. Students worked together to research and prepare group presentations, which allowed them to develop their

ENGLISH LANGUAGE DEVELOPMENT

teamwork and collaboration skills while expressing their creativity.

Students also delved into video production, writing scripts, and filming news stories featuring heroic and villainous encounters. This project provided opportunities for developing their writing skills, managing their time effectively, and gaining insights into the art of storytelling and visual communication.

These projects in the Year 7 English Language Development class gave students valuable opportunities to cultivate their skills, foster creativity, and encourage collaborative teamwork. Through these activities, students were able to express themselves and engage with the subjects in a meaningful way.

This year's residential trip took us to the heart of Thailand, Huahin. We first used this opportunity to explore the surrounding regions of Petchaburi and Prachuap Khiri Khan. Our first stop was at the Chang Hua Man Royal Project, where we were given incredible insight into sustainable agriculture and environmental conservation. After that, though, was the part everyone was most looking forward to.

The Vana Nava Water Park, which was the first famous water park in Thailand, We all took this time to relax and enjoy the water slides and wave pools throughout the park. The experience was unlike any other, as we all got to enjoy this time with our friends. It was indeed an unforgettable experience overall. After that, we checked in to our rooms before getting to enjoy a delicious meal and a relaxing evening. The next day we got up bright and early to prepare for the team-building workshops. We spend the day doing icebreakers and teamwork games. It was a fun-filled bonding experience as we got to know each other on a deeper level.

On the third day, we all had another thrilling day as we visited Cha-am ATV Park, where we did archery and paintball. Later, we visited Tree Top Adventure Park, where students challenged themselves to various obstacles. The day worked up a sweat for all of us. Our day ended with a relaxing and cool visit to the chocolate factory.

The last day of our trip began with breakfast at the hotel; after that, we had a creative workshop as we were tasked with making cactus gardens in glass jars. After carefully packing up our jars and checking out of the hotel, we stopped briefly at Thai Rosewood Bar & Bistro for lunch, then finally returned safely to Bangkok.

YEAR GROUP ACTIVITIES

Spip

On October 7th, our Year 8 students had their first field trip to the Golden Mount Temple. They had the opportunity to learn about the temple's historical significance and immerse themselves in the serene atmosphere.

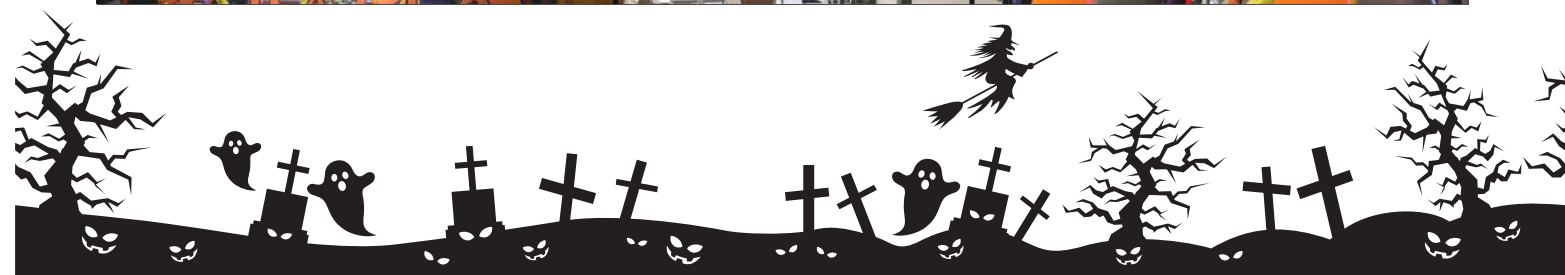

During the visit, the students had a unique experience as they got to learn exciting facts about the temple that stood for centuries. Exploring the temple's surroundings, the students climbed to the top and enjoyed the panoramic view of Bangkok. It was a moment of appreciation for the wonders of nature.

Overall, the field trip to the Golden Mount Temple offered the Year 8 students an educational and enriching experience. They gained knowledge about the temple's history and had the chance to witness the harmony between nature and cultural architecture.

This year, the SPIP language department has decided to take our year 8 students on a field trip to allow students to fully engage in and experience the festivities surrounding Chinese New Year. Students participated in Chinese-based activities such as quizzes, games, and even Chinese painting! Everyone had a lot of fun experiencing traditional Chinese cultures. A lot of the students even managed to score lovely small rabbit plushies to bring home.

At Halloween, every student had the opportunity to cook up their own spooky Halloween story, which their English teachers would then choose for them to read for the entire school to hear. Congratulations, and good job on the four stories chosen!

During the school Halloween Festival, another competition that was set up was the Homeroom Decorating competition! All of the students were able to apply their creative thinking skills to decorate their tutor rooms according to the spooky themes assigned. As this was the first time that our school has had this activity, many students are very excited about it. We all agree that this was one of the most unique competitions held for Halloween. As a result, all students put a lot of effort into this.

Furthermore, students must think of freaky, scary, costumes to wear. This is a costume competition, so everyone tries to create the most amazing costumes ever. And they all get to share their fantastic costumes by walking fashion shows on the stage. The students and teachers vote for the winner of this competition. Well done, and thank you to all participants.

efore the Christmas holidays officially began, a Christmas card competition was held for our KS3 students, where each tutor group was to choose a representative for their Christmas card. There were a lot of options to choose from, and we can all agree that all of them were superb in their own ways.

This year's residential trip, which took us to Kanchanaburi, was one of the most enjoyable and remarkable experiences for our Year 9 class. On March 21, 2023, we headed to Ratchaburi to visit the Damnoen Saduak Floating Market to experience traditional Thai culture, which included exploring the market by boat and learning how to make coconut palm sugar locally.

After our trip around on the boat, we went straight to

"Spring 22 and Gallery Cafe" for a rest, then headed for lunch. After our recharge, we continued our travels towards Kanchanaburi to "Mallika Town" for pictures and a small scavenger hunt.

On the second day of our trip, we woke up early and had breakfast at the hotel. After filling our stomachs, we joined a team-building workshop with our hotel staff that included many intriguing activities to do together with our friends. After a day full of activities, we went to

dinner at "Keeree Tara" and headed back to our rooms for rest.

On our third day, we departed for the "Bridge of the River Kwai Station" and boarded a train. The wind was gusting through the open windows as our train passed the peaceful local scenery. We had lunch, then explored the "Thailand-Burma Railway Center Museum," where it was filled with historical objects from the past. In addition to that, we visited graveyards that were made to show respect for our fallen soldiers who

died in the Second World War. After our tour of the area, we headed back to our hotel in the evening for an assembly organized by our teachers. Students took part together in a bridge-building competition, competing to see which bridge would hold the greatest weight.

On our last day, we headed to an art and craft workshop at the hotel, where we created our own designs on a plain cup and heated it in a special oven. After that, we arrived back home to SPIP.

Every student was assigned to write essays on the topic "What makes an outstanding teacher?" Everyone did splendidly and had written deep, meaningful pieces of writing with appreciation for our teachers. At the end, our English teachers picked out the best two that are most expressive to be read out at the Wai Kru ceremony.

A big congratulations to our winners, Bambam and Brye. These two students have received the opportunity to read out their pieces at the Wai Kru ceremony with gratitude and good-heartedness. This was a brilliant way to pay respects to our teachers, who always dedicated their time and tried their best for students' futures.

YEAR
SPIP
GROUP ACTIVITIES

In our music class, we year 9s were tasked with practicing and perfecting a song assigned by our teacher, Mr. Jordan, for the entirety of term 2. This year we were given the classic song “Fly Me to the Moon” by Count Basie and Frank Sinatra to work on. Students practiced the song in every class on their instruments, which included guitars, drums, keyboards, bass, ukuleles, and violins. Everyone did a fantastic job with their performances!

■ YEAR GROUP *SPIP* ACTIVITIES :::::

On November 9, our year 9 students went to watch a Thai traditional performance called “Khon” at the Thai Cultural Centre. The performance was astonishing, outstanding, and breathtaking. There were many scenes that were remarkable, and we were mind-blown by them. The performers were very talented and attractive in their traditional attire; they performed various stunts and Thai dancing. They certainly put in lots of effort and practice to make this performance happen. This gave the students a lot of knowledge about Thai performing arts and some amazing culture that they weren’t aware of before.

For our students term 1 finals art project, we created our very own album covers by choosing our own personal favorite songs and artists. We started by conducting thorough research to get inspiration and insight on the different album covers. After each of us decided on our projects, we started on our sketches and then continued on to paint. To finish off our project, students were also asked to comment on their finished pieces. These feedbacks were then used to improve future artworks.

In our art class, we have gotten the opportunity to take on a project involving our very own self-portraits as an assignment for our Finals Term 2 project. Students start the assignment with grid drawings as practice before going in on the real canvas. The grid lines were drawn to help us position the dimensions of each of our individual faces as accurately as possible. After all the lines were drawn out with precision, we got started on our canvas.

After we were all done with our pencil sketches of the faces, we then began adding color, which, in many opinions, is the best part of the project. We were able to express our creativity with a variety of mediums and styles.

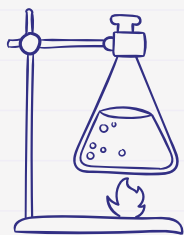

Album Cover Project & Self Portrait Art Project

In our year group, students have been performing different experiments throughout the year, providing them with a lot of experience and expertise in our science laboratories. In our first term, students conducted the leaf starch experiment, while we moved on to harder experiments in our second term. Students conducted more complicated experiments in our second term, including an experiment on the rate of reaction and displacing metals.

Many said these last few experiments were one of the most memorable as they opened up many new methods of investigation and gave them a chance to dive deeper into the subject. These experiments also provided us with the chance to build our teamwork to achieve the best possible outcome. Although these experiments may have been tiring, they were also a thrilling memory, as we were all stressed about the possibility of not completing them in time.

Throughout these experiments, students learned to observe and memorize data and procedures quickly and were able to accurately apply their theory knowledge to the experiment at hand.

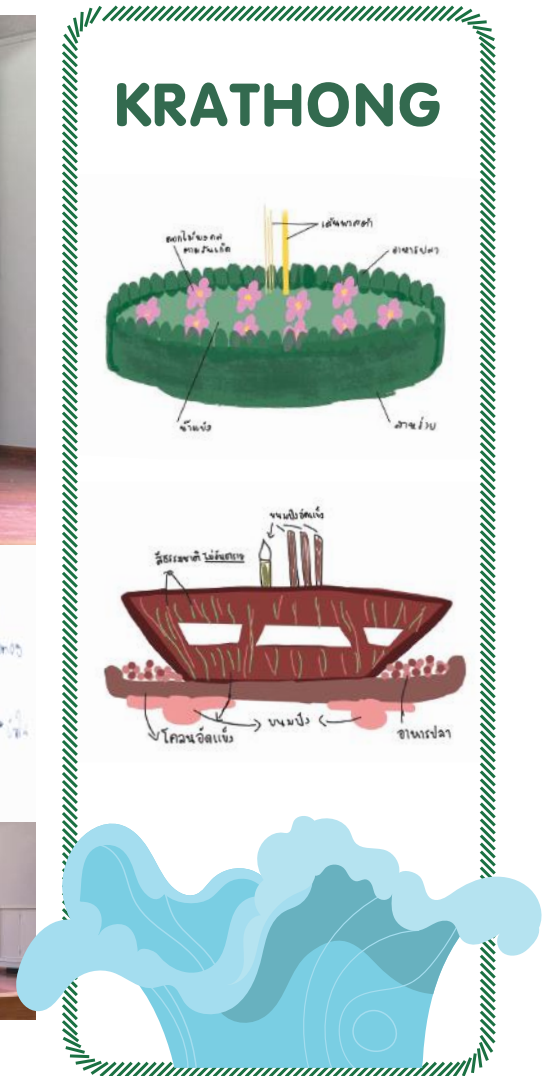

YEAR GROUP *SPIP* ACTIVITIES ■

A wide-angle photograph of a beach volleyball game in progress. Several players are scattered across the sandy beach and the shallow water's edge. One player in the foreground is in a ready stance, holding a volleyball. The background features a calm sea and a distant, hilly island under a soft, hazy sky, suggesting late afternoon or early evening.

The residential trip to Rayong was an unforgettable experience. Every one of us had much fun, but it was sad as the journey came to an end.

YEAR GROUP *Spip* ACTIVITIES :: :: :: :: ::

This year SPIP hosted a small, interactive Loy Krathong activity on Tuesday, November 8 with our Year 10 students in the mini theater during Thai class. This new event has students focusing on creating

environmentally friendly krathongs, encouraging them to think outside the box and pitch different ideas on eco-friendly krathongs with their friends.

Overall, this Loy Krathong activity

was a fun and educational event that assisted students in studying more about Thai culture and traditions. It has been a memorable experience for all 10th grade students.

On Tuesday, December 13, 2022, our SPIP year 10 students embarked on an exciting trip to the Electricity Generating Authority of Thailand Learning Center. Students gained firsthand experience with the science and technology behind electricity generation and the vital role that the Electricity Generating Authority of Thailand plays in providing power to the country.

They participated in interactive exhibits and demonstrations that taught about the science behind electricity production. This trip was a fun and informative experience for the students, providing them with a unique opportunity to study more about electricity and the natural world in a hands-on and engaging way that is sure to leave an unforgettable mark.

Our year 10 environmental management and travel and tourism students took a day trip to Koh Kret. Students from each subject were assigned tasks and assignments they had to complete while on the island. We got there by taking the bus to the pier and then taking the boat across the Chao Phraya River. The island was lovely and peaceful, with many local shops and restaurants. Although it was sunny, we still enjoyed the scenery and learned about their cultures and lifestyles. Before lunch, we went to an antique and beautiful pottery shop. We had pottery-making, carefully supervised by the owners and staff. For lunch, students went into different groups to explore the restaurant and find places to eat. Most of the shops were closed as we went on weekdays; however, we still enjoyed every bit of it. In the afternoon, we went for a boat ride around the island to see the sights. This trip was quite an experience, where we got to appreciate nature and different people's cultures, and it was an enjoyable day!

YEAR GROUP ACTIVITIES

Some of our friends, Tonnam, P, Pin Pin, Gut, Dada, and Kunming, have decided to join the Satit Volleyball Game from the 3rd to the 9th of November. All of them have trained and worked hard on drills throughout the season to prepare for the then-upcoming competition since July; the competition took place at Chonburi, Burapha University.

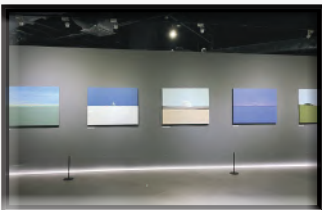

Nine schools competed in the competition, including Satit Prasarnmit, Satit Chula, Satit Kaset, and Satit Burapha. The boys, with Tonnam as captain, have led their team to first place, and winning back gold medals. We are excited to say the boys team has won every set against other schools. As for the girls, they had won bronze with the help of Dada as Vice captain.

For the boys final match, the crowd was filled with excitement as they cheered loudly for our players. The game was on fire as the two teams put in all their efforts to win first place. As the last segments of the game arrived, Satit Prasarnmit was able to win gold medals. The players were very

proud of themselves, as they should be, for winning this competition. We must give our thanks to all the players efforts and the coach's intense training. With little surprise, our boy's captain team, Tonnam, has received the "most valuable player" award for this competition, which is considered a legend in our books.

THE RENOWNED RIVERSITY ART MUSEUM

Immersed in a world where creativity knows no bounds, our year 10 students took part in an art trip to the renowned Riversity Art Museum, located on the banks of Chao Phraya. Students gathered and boarded the bus; the trip took almost an hour as students arrived at the building. Everyone was amazed by the architecture and artwork displayed as soon as they entered the museum.

The entrance of the building, as students described it, was stunning, with high ceilings and large windows and doors leading to multiple other rooms. As our year 10 students strolled around the gallery, they were immersed in the rich tapestry of colors, forms, and textures that adorned the walls. Each stroke of paint crafted and ignited their imagination and stirred emotions, provoking their imagination. Students saw paintings, sculptures, and even some thought-provoking modern art installations. Many pictures were taken to be used as inspiration for their future art pieces.

Students took some pictures with our phones so that we could use them as inspiration later. As they left the museum, they felt inspired and motivated to pursue their creativity and express themselves through art.

YEAR GROUP *SPIP* ACTIVITIES ■

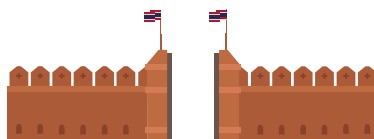

Right after our plane landed in Chiang Mai, we dove headfirst into team-building exercises set up by High 10 Company. We were split into groups, each competing with each other to construct the highest paper tower possible. At the end, we did a brilliant team boom, “Hey! Oooh Yes!” After we were done, students got to design and paint their own Borsang umbrellas. On the night of our first day, we all gathered together for our final preparations for the big day ahead. Students demonstrated a mock class to the teachers who were on the trip with them before heading to bed.

The day started bright and early in the morning as students sprang out of their beds and donned the spiffy residential trip shirt. We all had a quick bite to eat, then boarded our buses. The atmosphere was tense as everyone readied their minds for the chaos about to come. Arriving at the school, we were welcomed with traditional dances and speeches from the students. To our surprise, everything went extremely well. All the kids were nice and somewhat well behaved, but we thoroughly enjoyed our time teaching and playing football with them. After a long day, we settled in on our buses and embarked on a trip to the Chiang Mai Night Safari.

It was a well-deserved trip for the students. After a long day, the students were able to indulge in the mystical place known as the night safari. We attended shows and bought souvenirs before heading back to the hotel for some well-earned rest.

YEAR GROUP ACTIVITIES

The adventure-style theme park, Pongyang, featured many attractions, but the ones we got to experience were the downhill roller coaster and an adventure course. All students had much joy as their laughs resonated throughout the mountains. Another highlight of this trip was the white water kayaking, which, to be completely honest, was more akin to rafting. Students and teachers were brought uphill, where we were taught the proper method in order to control the kayak before boarding the rafts. The current was somewhat strong, and everybody laughed and screamed as the boat rocked from side to side. By the end of all that, somebody started a water fight where a person got wet, but in the end, everyone joined in and splashed around in the water. Upon returning back to the hotel, there was one last activity before everybody would go to bed, and that was the Last Night Activity. Rocking their most glamorous outfits, students assembled at the hall to play games and enjoy food prepared by the staff. Before the night ended, a mini-concert was held where two bands performed and ended the night with some live music.

At the Art and Cultural Center, students learned about their traditions and how the city came to be. At the last stop before the journey back to Bangkok, students enjoyed sushi and cake at the Japanese-themed carp cafe, where carps would swim around the students as they ate lunch. After students headed to the Chiang Mai Airport and departed back home to Bangkok.

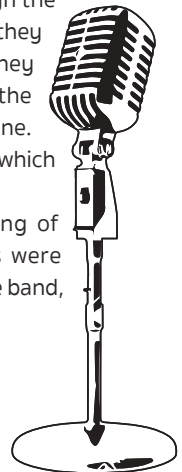

On March 29, Wong Weird Yai performed at the vaccine center at SWU. Although the equipment wasn't the best and they were really tight on schedule, they were able to pull through with the show and thoroughly enjoyed it with everyone. They also received donations from the crowd, which they donated to charity afterwards.

The Wong Wien Yai is the merging of compath and dopamine. These two bands were previously separated in the last few years. The band, as the name suggests, is extremely

- • • *big. The band comprises:*
- • • *Hammy: the lead singer*
- • • *Peace, Bee and Mod: guitarists*
- • • *Peem P, Jaime: The keyboards*
- • • *Fook: Bassist*
- • • *Nine T: Drummer*

The vaccine center was the second show of wong wien yai, previously debuting at the school fair. Due to the large nature of the band, the show was a bit hard to handle, especially with changing members and everything. But as we said, the show came out pretty well even with the problems of not having enough amps, among many others. I'd like to thank everyone on behalf of the wong wien yai for supporting us all the time with the many shows we did, and even though some of the band members are leaving next year, we'll still continue this band and hope that everyone will support us the same.

This year, SPIP has decided to enter the Equity Partnership Competition! Each of our representative teams is paired with rural communities to help create, advertise, and market products that are deemed suitable for e-commerce to reduce inequality and support rural development. Students were also asked to consider the time frame in which the products are to be manufactured and sold and where to source the materials. Overall, it was a good learning and team-building experience for all involved.

YEAR GROUP ACTIVITIES

WHARTON INVESTMENT COMPETITION

Our exceptional Year 11 students have embraced the challenge of competing in the Wharton Investment Competition hosted by the Wharton School of Business in Pennsylvania. This event served as a platform for students to showcase their entrepreneurial skills, knowledge, and strategic thinking on a global stage.

Over 12 weeks, our students received the opportunity to foster a deeper understanding of financial markets and also learn new skills regarding trading and investing in stocks. This experience has fueled many to further pursue careers in finance and provided solid foundations for their future endeavors.

This year, our year 11s have received the honor of taking charge of a monumental task: the designing and making of our iconic school house banners. Our year 11s were assigned to manage and lead the house banner design process for this year's Sports Day. Each house came up with its own idea and artwork to represent the house's identity. With all their hard work, they managed to create remarkable and outstanding banners, ready to be used at the Sports Day event.

SPORTS DAY EVENT.

Running for the Heart 2023

Driven by a shared purpose, several of our Year 11 students set out to make a difference. We are proud to say that several of our students have decided to participate in a marathon run for charity “Running for the Heart 2023”, an event organized by the Sirindhorn Cardiac Center of Phramongkutklao Hospital. Students have taken time out of their weekends to run the entire ten-kilometer race. Despite the fact that the event began early in the morning, all of us were excited and pumped for the run. It was a priceless opportunity for all of us to bond, run, and giggle with all our pals.

The marathon itself was a celebration of strength, endurance, and solidarity. Side by side, all of us crossed the finish line, each receiving a medal and unfathomable happiness when we returned home.

Within the pages of this yearbook, we take you on a memorable journey. This year's residential trip has been a bittersweet experience for us all since we first arrived in Phuket. We caught our first meal on the island, Chinese dim sum. Although many of us who couldn't wait had already finished a whole meal at the airport, we just couldn't help ourselves

with the food in front of us. After we had our fill, we visited Aquaria Phuket. Afterwards, we checked into our hotel and spent our afternoon drenched in the mud as the so-called "team building activities" ended up with one boy ripping a hole in the "crotch area". After we changed, we then headed out to a beautiful beachside restaurant, "KEP International Restaurant," and ended our day early as we prepared for the boat ride the next day.

We left the hotel and headed to "Baan Nam Kem Pier," where we all slept on the car ride there. We took a speed boat, where, surprisingly, everyone still slept before arriving at Surin Island. Kids in Morgan Village taught us to weave seashell bracelets. After that, we went snorkeling, jumping off the front of the boat and into the waters below. After we had our fill of the ocean, everyone settled in as the boat returned to shore; however, as everyone was relaxing in their seats, we could find two individuals at the back of the boat, still eating.

The car ride back took longer than expected, making us head straight to "La Tervana" restaurant. The dinner ended with a small birthday celebration before heading back to the hotel.

The third day of our trip started later than the second, as we got up and headed to "Hanuman World" for ziplining and a Sky Walk. It is advised not to wear flip flops, but many did, ending with most flying off during the zipline. After our activities, we sightseered at "Prom Thep Cave," where a bunch of us went down the steep slopes, for god knows why, while the other half of us relaxed at the top. After that, we divided into subgroups, with most returning to the hotel; the other group going ice skating; and the last group who said they were going to the beach somehow ending up on a boat to another beach.

For dinner, everyone regrouped and headed to the BBQ place, where a stage was set up for the night. Everything ended in high spirits as we separated. Our last day in Phuket started off on the road straight to Phuket's old town, where we were free to explore the vendors and shops that lined the streets. Some of us had also visited the infamous Harry Potter-themed cafe. After that, we headed out for lunch before arriving at the airport and arriving back in Bangkok.

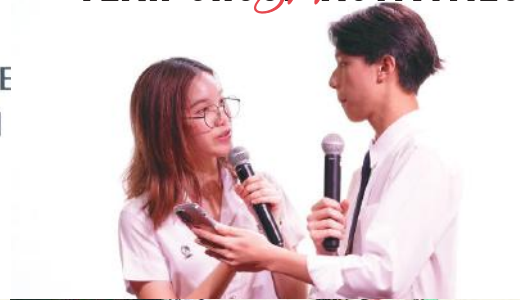

SATIT PRASARNMIT

INTERNATIONAL PROGRAMME

ALUMNI ASSOCIATION

YEAR GROUP *Spip* ACTIVITIES

It is with great pride and honor that we introduce the first ever generation of the SPIP Alumni Association. In this academic year, five of our year 12 students, Punn (head), Butik (co-head), Tammy (public relations), Jasmine (social media management), and Proud (website developer and quality control), worked hard to establish the foundations of the association, and on October 8th, it was officially announced to the school as the SPIP Alumni Association, an organization aimed at SPIP Alumni students. A place for alumni to gather and interact with both current and past students and teachers, as well as a means to receive updates on SPIP. In term 1, we worked on sharing each alumni's great achievements with the school and inviting some of them to the school production. Recently, we have interviewed several of our alumni, including Post's SPIP05 class of 2020, Jingjung's SPIP06 class of 2021, and recently graduated Year 13 students SPIP8 class of 2023. On January 20th, 2023, one of our main events will be held as we invite Jingjung SPIP6 and her friend to be our guest speakers to talk about their faculty, the Bachelor of Arts in Language and Culture of Chulalongkorn University (BALAC CU), together with giving revision and exam tips to key stage 4-5 students.

Our Year 12 Business and Economics students were given the opportunity to visit the Stock Exchange of Thailand (SET), where they witnessed the vibrant world of finance and experienced the pulse of the nation's economy. On Thursday, February 9, our year 12 students, accompanied by our teachers and staff, embarked on the trip. Once they arrived, they were greeted with a bustling atmosphere where they received insightful presentations from industry professionals who generously shared their knowledge and experience.

Throughout the visit, students got to experience and see large digital screens brightly lit up with numbers showing real-time data involving the global economy and its impact on Thailand. Students also receive the chance to study further into the disciplines of our stock exchange history, financial literacy, and the value of financial planning at the cutting-edge, interactive investor museum.

Students returned with a practical glimpse into the world of investment, entrepreneurship, and the interplay between economics and technology. It was a refreshing and exciting trip for all our students, as many consider this a break after the intense mock exams all the students went through.

SERVICE CONFERENCE

In a vibrant display of cultural appreciation and unity, four of our year 12 students took center stage at SPIP's Songkran Festival, showcasing the mesmerizing art of Thai dancing, or “ฟ้อนมาลัย”. Our dancers, Tammy, Gam, Rita, and Earn, practiced and choreographed their moves, blocking, and outfits every evening for almost 3 weeks, despite their other responsibilities. With the assistance of Miss Earn, they were able to pull off a graceful and immersive performance.

YEAR GROUP *SPIP* ACTIVITIES

SONGKRAN THAI DANCING

A group of SPIP students, including our year 12 students, Bank and Proud, attended the 12th annual servICE conference on November 25–27, 2022, at Berkeley International School. The ServICE conference is a collaborative, student-led event organized by international schools in Bangkok.

The conference gives students a chance to exchange experiences and successful service learning projects from their respective schools and communities and learn from one another. The conference offers a platform for various keynote speakers, both adults and students, to share their passions. It also offers “How-To” sessions for students who want to share their knowledge with others and networking opportunities to learn from NGOs sharing projects throughout Thailand. Additionally, students can work together to develop upcoming student-led, interschool service learning initiatives. All of the students left the conference feeling enthusiastic and inspired. It was a refreshing experience to interact and collaborate with peers from other schools.

SIXTH FORM DUTIES

From the start of this academic year, a group of year 12 students were chosen to play different roles, led by our Head Boy (Jarr), Head Girl (Summer), Deputy Head Boy (Ultra), and Deputy Head Girl (Tammy).

Our lunch duty officers included Rafa, Aazia, Mark, Pun, and Yochi. Underneath their good looks and friendly behavior, our officers also tackled a multitude of tasks, including overseeing student cues in the canteen during lunch for all key stages. Our club duty officers are made up of Nano, Ultra, Primm, and Mooham. They were tasked with patrolling the school corridors during club times for students that were caught wandering about; furthermore, they also acted as assistants for club teachers in need. Lastly, our most hardworking bunch, the Common Room Managers, are the people who clean up our always messy common room, from water bottles to blankets. Bank, Proud, and Punn really had their work cut out for them.

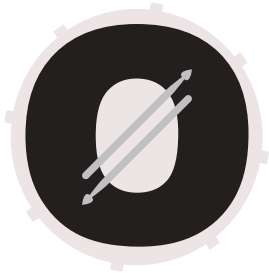

SIXTH FORM RESEARCH PROJ

Since the beginning of Term 1, SPIP's Sixth Form students have been dedicating time and committing themselves to their research projects, an annual assignment of completing an original 4000-word research piece and a five-minute presentation based on any topic or subject chosen. Throughout the first term, students attended enrichment classes weekly, helping them build and hone their research-conducting skills. Many insightful workshops were held throughout the term, such as Mr. Jonas's class on "The Introduction of Research Projects" and Ms. Shalene's lesson on "Why do research and what I should aim to produce".

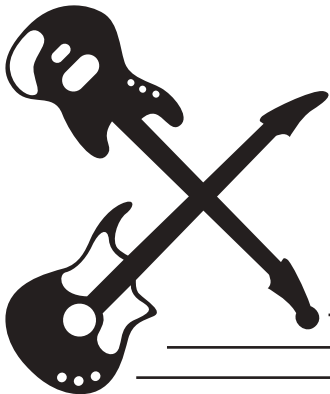

YEAR GROUP *Spip* ACTIVITIES

R

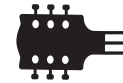

C

“

TALENTLESS BAND

“The past year has been quite a ride for our band, Talentless. We have accomplished a lot of things that we didn’t particularly think that we would achieve. One of those things was being able to play the mind-boggling song “Weird Fishes.”

You have probably seen us play in the Valentine’s Day show, walked past us as we jammed out in the Vaccination Center at the university, and most definitely got annoyed at us for being in the music room for too long.

I’d like to thank Alex, the mastermind behind the composition of each song, as well as being able to single-handedly rock out on the guitar without fail. Tete, who has been there since day one and is the only person I know that can play bass, sing, and look good doing it, Kan is the bright light in the band that can make anyone laugh and shred every solo that has been assigned to him. That leaves me, the final member of the band, Fifa. I’m simultaneously the drummer and the singer at the same time, as well as the guy who feels very thankful to have such an amazing band to play music with.”

FIFA - Thikatus Matthawewongsa

”

Our year 13s went to Korea for their last ever residential trip with SPIP. It was many of our first times going abroad with our friends, which made this trip abroad very special and memorable. Every student was visible and excited as we boarded our plane to Seoul. We spent four days there, visiting almost all the major tourist attractions.

One of our most memorable moments there was when we had the privilege of visiting Lotte World Theme Park. All of us used this opportunity to get dressed up in Korean student uniforms, which many can agree are one of the best-looking uniforms worldwide. Thrill-seekers at heart, our 13-year-olds wasted no time exploring the park, enjoying the rides and other activities available in the area. This experience will remain one of our core memories forever.

As the seniors of SPIP, we were excited to celebrate Halloween and organized two workshops for our fellow juniors. One focused on making “Bualoy,” a traditional Thai dessert, and the other centered around soap-making.

In the weeks leading up to the day of the event, we worked tirelessly to prepare the ingredients and materials needed and researched multiple Bualoy recipes and soap-making techniques for our workshop. Furthermore, we practiced making the desserts and soaps ourselves to ensure that we would be able to guide our juniors through the process.

On the day of the event, we arrived at school early in order to set up the workshops. Although we were exhausted from the long hours of planning and preparation, our excitement and enthusiasm kept us going.

The bualoy workshop was a hit, with students lining up to make the dessert and walking out with a bowl of bualoy. The soap-making station was equally successful, with students mixing together fragrances and molding them. Everyone worked hard and earned themselves their own bar of soap. We were overjoyed to see our juniors enjoying our workshops and felt a sense of accomplishment.

As the day came to an end, we packed up and went home, knowing that our efforts had been well spent.

This year, our year 13 media studies students created a small film together. With the help of Mr. Ken, some year 12 media students, and a few friends from outside our school, Lemons at 6:00, a story of friendship between two unlikely individuals, came to fruition. Our actors, Georg and Nano, star in this film and show the various misadventures of Nolan, the middest man alive, and his ghostly unnamed friend, a mischievous apparition that appeared randomly in his life. This film was tough to make, from the sleepless nights spent creating the scripts and storyboards to the sweltering hot afternoons spent filming. Nevertheless, it was also this year's highlight for many of us. We made new friends, had new experiences, and collectively made something special that we will take with us for many years to come.

YEAR GROUP ACTIVITIES

Although it was our last sports day, our focus wasn't on "sports". We were aware that the Faculty of Medicine at Chiang Mai University was going to announce the interview list on the same day as well. After realizing that all of us who applied were eligible for the interview, we became even more motivated to compete in sports. Well, at least Flint and I were. I remembered watching Flint's amazing 800-meter run, which he practiced days before despite not finishing first. Racing Niko in the 100-meter sprint was entertaining. Although he beat me, it was a memorable race. After all, despite most of us running away and hiding from house captains to avoid participating, sports day was another remarkable day of term 1.

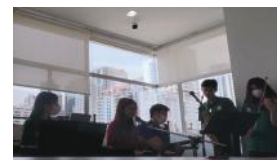

MURMAID BAND

I remember hanging around in Mr. Jordan's room, just playing whatever came to mind, when he walked in and asked if we wanted to perform at lunchtime.

Most of us were hesitant at first, but it was our last year, so we might as well have some fun. While a few of us weren't too experienced with band work, we managed to jam and actually have fun playing the songs at lunchtime, especially with all the support from the other students! Admittedly, it wasn't enough time for us to REALLY have fun with it, but either way, it was a good time.

"First, I'd like you to all look around, what do you see? To me, I see the many faces that have sculpted me to become who I am today. I see the select group of teachers and friends who have each gone to infinity and beyond for all of us.

I see my amazing friends, my ride-or-dies, you guys were there since day one and I am terribly proud of you all for making it this far. I wish I could turn back time, just so I could spend more of it with you guys. You also get a big W.

I admit that I'm nervous to start this new adventure without you guys beside me to do things I've never done before with people I've never known. I admit that change can be scary. But at the same time, I'm excited for this new chapter of my life. I'm excited to meet new people and try new things. Because while change can be scary I am fearless"

FLINT - Rawipol Aramwatanapong

"The past 3 years were filled with both good and bad times, most of which we can now look back upon and laugh. All of the lessons we have learnt — both in and outside of class, all the books we read, nights we spent memorizing for the endless A levels tests, the relationships we began, ended and mended, and all the dreadful experiences we've come across are what I would describe as my perfect high school life and even if I could turn back time, I wouldn't change a thing.

The fact that this is the end of our school's life and that now we're entering our adulthood sounds so unreal and is something I don't want to accept. But because I cannot stop the clock from ticking, the last thing I could do is to wish that we'll not drift apart. There is so much more awaiting us and this is just the beginning of the amazing things you guys will surely enter."

NEUF - Natwadi Karnjana-o-past

"When I started out at SPIP I was one of the worst performing student in the class, I had little to no hope for my future, but as I leave this place I am privileged to be able to study in one of the best universities in the world and I am forever indebted to SPIP because they believed in me when I didn't believe in myself.

Special thanks to Ms. Sherline that has been with me through thick and thin, thank you Mr. Ady and Mr. Luke for trying to keep me in line with the school rules even though I don't follow them, and giving me the best disappointed dad look, thank you Mr. Theo for letting me steal art supplies that I may or may not have given back and thank you Mr. Thomas for the fun classes

PLAN - Thanida Kamchokchai

GRADUATE

LUKE HARRIS

The Greater Bangkok Athletics Conference (GBAC) brings together schools in the Bangkok region to compete in various sports. This year, the GBAC events were highly successful, with student-athletes from different schools showcasing their talents and skills. The sports included basketball, football, swimming, volleyball, track & field, and badminton, and the age groups competing were U13, U15, and U18.

One of the highlights of this year's GBAC events was the achievement of the SPIP U18 girls' team, which won the double (league playoff final and tournament). This was a remarkable feat, and this was SPIPs' first team to achieve this accomplishment since entering the conference in 2015. The team members showed exceptional skills and teamwork, which helped them secure the victories. It was a proud moment for the school, the team, and the coach.

Several student-athletes from SPIP also stood out in the different GBAC events. These included Niko and Leo from Year 13, North, Summer, Proud, Arm, Mark, Rafa from Year 12, Fook, Nutty, Peace, Jolie from Year 11, Dada, and Kate. Chaigasut (Katherine), Minnie Sihanatkathakul, Khunming, Kaosuay, Earn Earn, and New Promanneevirach, Pin Pin, and Tonnam from Year 10, Perm, Grace, Kitty, and Keen Limpitikranon, Phuc, and Sun from Year 9, Grammy, Irene, Kao, Missile, Max, and Sayhi from Year 8, and Kui Jui and Nice from Year 7. These students displayed excellent sportsmanship, skills, and teamwork, representing their school with pride.

Apart from the GBAC events, SPIP also held its interhouse sports competitions. These events are an integral part of school life and help foster a sense of healthy competition and teamwork among students. The students actively participated in various events, including track and field, football, basketball, and volleyball. It was an excellent opportunity for students to showcase their athletic abilities and build a sense of community and teamwork within the school.

In conclusion, the GBAC events and interhouse sports competitions were highly successful this year, with students from SPIP excelling in various sports. The achievement of the U18 girls' team in winning the double was a remarkable accomplishment and made the school proud. The standout performances of individual students in different sports events also demonstrated the school's commitment to sports and student development. The interhouse sports competitions allowed students to foster a sense of community and teamwork, which are essential life skills. Overall, it was a great year for sports at SPIP.

“Sporting participation is not about being the best, but about doing your best. Knowing that you have left it all out on the field should fill every athlete with a sense of accomplishment, pride and enjoyment.”

Welcome to the exciting chapter of Sports Day 2023, On November 23, 2022, as students piled onto the tracks of the Thai Japan Sports Stadium, chatter echoed throughout the stadium as every student from each house held up their flag with pride, ready to bring home the win for their respective houses.

Sports Day was finally back after being missing for years due to the pandemic, and everyone was as excited as ever! As per tradition, the day started off with a little parade around the track. Led by their house captains and leaders, they proudly marched around the stadium, hyping themselves up for the fierce competition ahead.

The events were separated by age group and gender, consisting of U13, U15, and U18. Students who signed up eagerly awaited their turn to bring home first place for their house, and others who didn't sign up cheered their friends on. There were field events throughout the whole day, such as the discus, shot putt, and long jump, as well as track events like the 100-meter run and many more. In addition to that, students built their team spirit by competing in team events such as relay races.

As you could've guessed, putting their entire heart and soul into physically exhausting exercises would drain most of their energy, but fortunately there were many food and drink stalls set up just outside the stadium where students enjoyed ice cream, drinks, and even some Thai desserts.

As the exciting day came to an end, the SPIP teachers held a traditional SPIP teacher relay race, in which Makara took home first place. With that, SPIP Sports Day 2023 had its concluded ranking:

SWIMMING GALA 2023

On March 31, 2023, SPIP held its first swimming gala after the COVID pandemic. Students from all year groups were involved, choosing events they wanted to participate in. The events ranged from individuals to relays, medleys, and even the pizza raft challenge! Each student competed in their strongest strokes and used the gala as a great opportunity to refine their swimming techniques. Whichever event they competed in, they gave it their all and supported one another. It was a fantastic event to kickstart SPIP's return and paved the way for many more to come. As a reward, all the houses received a generous amount of house points for their efforts. The ranking goes as follows:

- 1: Makara in first with a total of 388 points
2: Erawan in second with 308 points
3: Singha in third coming in at 377 points
4. Lastly, Yaksha in 4th place with 332 points.

INTERHOUSE SPORTS

SPORTS

It was a scorcher out on the field as students piled out to watch our annual interhouse sports competition. A friendly sports rivalry between houses. The stands courtside were filled with overwhelming support from both teachers and students of each house, cheering and showing their house spirits.

The next part is from the perspective of a fellow Erawan football athlete:

“

“As a member of the Erawan house, I didn’t hesitate to register for the upcoming annual school football interhouse. I was determined to give it my all. As the day came, although the heat was intense, I didn’t care. I was here to play, and the sun ain’t stopping me. First, we went against Yakasha and came out on top; Makaras went against Singha and won theirs. The final game was finally here, and we were up against the Makaras, our toughest opponent yet. The game began with a lot of tension; we broke through their defense and took the first lead, but lost the lead very quickly. However, during the last minute of the game, we scored and won the game. Although the tension was real, in the end, we are one happy family, SPIP.”

”

BOYS GBAC BASKETBALL

Losing the finals against the French was a tough one. We trained hard, came up with plans, and headed into the game fully prepared. Sadly, we just couldn't win. Nevertheless, I want to thank you on behalf of the team, Mr. Ken and Mr. Dom, for your dedication and passion and how you are always pushing us to be our best out there on the court. Not to forget all the students who came to support and cheer us on our home games; the atmosphere was top notch. On behalf of myself, I want to express my utmost gratitude to everyone on the basketball team. Competing with your athletes has been an absolute pleasure and an invaluable experience. I wish I could say, "Try again next year", but sadly, as a year 13 student, my journey ends here.

- Nikolas Rihau Chung (Year 13)

GIRLS GBAC BASKETBALL

Every training session by Mr. Luke and Ms. Nook was a test of our commitment, but as the season progressed and games got relatively more competitive, each and every player became more pumped for practice. Together, we grinded and worked on our skills and strategies, running game plays and 5v5s. Through all the wins and losses, all of us played together and supported one another throughout it all.

Looking back, I'm reminded of the countless hours I and my teammates spent together on the court, pushing our limits, sweat dripping, missing shots, and stealing the PE Department's water supply. It was an incredible, hard journey, and as captain of our U18 girls' basketball team, I am honored to have been given this opportunity to stand beside each and every one of you; everyone was part of the team and brought something unique to the court. All of your passion, determination, and sportsmanship have left an incredible mark on our team's legacy. Through this historic moment, I am proud to say that we have become the first-ever U18 girls' team to win a double championship for both tournament and league!

Our U15 girls' team also left a mark on this year's tournament, earning first place after intense matches against eight other schools. Our success this year is not just the trophies and medals we proudly hold, but also all the memories we created and lessons we learned along the way. I want to express my deepest respect and appreciation for every female basketball athlete in SPIP who has worked hard throughout the season, and I believe next season will be as incredible as the one now. I look forward to being on the court with all of you guys soon!

FOOTBALL

As the football season comes to an end, it is sad to say that although we might not have achieved what we aimed to reach at the start of the season, I have come to appreciate every single member of the team and would like to thank each and every player who participated and represented the school badge with pride. We have put in our best efforts in every training session and game. Although we weren't very pleased with some of the outcomes, what I can say is that every player on the team showed talent and passion for the sport.

GBAC 2022

As the captain of the U18 football boy's team, I would like to congratulate and show my deepest gratitude to every player who gave it their all, kept the team spirits high, and thrived for the best possible outcome for each and every game. This season in particular, I would like to give special mention to our boys U13 junior's team, who won first place in our GBAC tournament! I am certain that this is not the end but a new beginning for the success of both our girls and boys football teams. I am looking forward to playing with you all next season. See you very soon! Cheers.

SWIMMING GBAC

Swimming is one of the sports that our SPIP student athletes appreciate most. Swimmers are eager to attend both morning and afternoon training sessions, even if it gets difficult to get up early or to get in the water after a long day of school. We are proud to say that our swimmers fought through thick and thin and came out better swimmers than before.

This year's first GBAC swim meet was held at Wellington College in September. The event began bright and early in the morning, immediately after everyone's typical warm-up routine. The event took place the entire day, and all of the SPIP swimmers excelled in their strokes. Multiple gold, silver, and bronze medals were awarded to our swimmers as a result of their hard work in both training and their individual heats. Our swim team placed fourth overall in this competition, as our student-athletes gave it their all and aim to build on their performances in the following competitions.

Time for practice flew by as the next GBAC swim meet arrived. This time, our swimmers visited Verso International School in January for their second major competition. Every swimmer had put in their best effort throughout the day. As expected, they won numerous medals in both individual and relay events. Although swimmers might struggle to hear underwater, the crowds cheered loud words of encouragement from outside the pool. Participating in the GBAC swimming competition also gave students new opportunities to meet new people, both juniors and seniors, and form new relationships with athletes from different schools.

Swimming is a sport that competes with time, but no matter how fast you swim, you will always learn something from it. This year was a fantastic experience, and we hope that next year will be even better. Keep going, everyone!

VOLLEYBALL //////// GBAC

Volleyball has become an increasingly significant sport at SPIP. This year marks the first time SPIP has chosen to send a U15 and U18 team, both boys and girls, to represent our school in the GBAC Volleyball Tournament. This came as amazing news for many of our students.

This was a new experience for many of us; we never thought we would be able to form a tightly knit team of players to defeat other teams. On March 1, SPIP's first ever volleyball tournament for our U18s was held, and the results were victorious. Our U18 girls won gold with the help of some of the U15 juniors, and our U15 boys won silver. After the U18's tournament, it was time for our U15's to start preparing for their upcoming

tournament. They have had a few more practice sessions, and most of them participated well and tried to improve themselves.

The U15 GBAC Volleyball Tournament happened on May 8th. Our girls have done an amazing job of representing SPIP, winning gold, and although the boys finished second, we are still very proud of our athletes' hard work and dedication for the past few months.

Although some of the results might be unexpected, we are all sure that our students have gained a lot of experience to further improve their skills and prepare for the next tournament to come. We would like to give our thanks to all the students who have participated in the tournament thus far!

REWARD

• • ARCHIE	- Silver [800m]
• • AUGUST	- Bronze [Relay]
• • FIFA	- Gold [200m]
• • IMMIE	- Bronze [Relay]
• • KATE C.	- Bronze [Relay], Bronze [400m], Gold [High Jump], Bronze [Triple Jump]
• • KITTY J.	- Bronze [Relay], Bronze [100m]
• • KITTY A.	- Gold [Relay]
• • LINJOU	- Bronze [Relay]
• • MISSILE	- Silver [Triple Jump]
• • NAMMON	- Bronze [800m]
• • NIKO	- Bronze [Relay], Gold [400m], Gold [Long Jump]
• • NORTH	- Gold [800m], Gold [Triple Jump]
• • NUTTY	- Gold [Relay], Bronze [200m]
• • PAN	- Bronze [Relay]
• • PEE	- Silver [Triple Jump], Bronze [Long Jump]
• • PRAB	- Bronze [Relay]
• • PRIMM	- Gold [Relay]
• • PUN	- Silver [800m]
• • RAFA	- Bronze [Relay], Silver [Triple Jump]
• • SAYHI	- Bronze [Bronze], Silver [800m], Bronze [Long Jump]
• • SUMMER K.	- Gold [Relay], Silver [100m], Silver [400m]
• • TOD	- Bronze [Relay]
• • TONNAM	- Bronze [Shotput]

The GBAC Track and Field Competition was an exhilarating journey that saw our student-athletes soar to great heights. This year's event was held on December 9th at Brighton College Bangkok, with many other schools participating. We had a total of 46 student-athletes selected to participate in this year's competition, from year 7 all the way up to year 13, and it was quite a successful day for all of us!

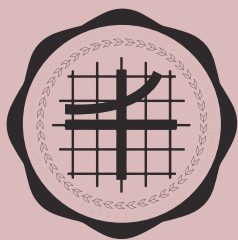

Events include relays, 100-meter sprints, 200-meter, 400-meter, and 800-meter sprints on the track, and high jump, triple jump, long jump, javelin, and shot put on the field. Every single one of our athletes gave it their all, pushing themselves to the limit and crossing the finish line with determination. The crowds made sure there was not a moment of dullness, cheering to the top of their voices and offering words of encouragement, celebrating each other's accomplishments. It was a very sunny day out, like always! But we had energy drinks, snacks, and fruits to keep the energy up!

The day went smoothly, with lunch and breaks in between, and most importantly, everyone had a blissful time. With hard work and dedication comes a great prize; our athletes have all earned themselves the golds, silvers, and bronzes. In total, we had 11 golds, 7 silvers, and 17 bronzes. Even though there were some individuals who did not win any medals, they all gave it their best effort. Also, a big thank you to our coaches for giving us their time and support and training us to be our best. Sadly, we did not win the trophy for the school, but there will always be a next time. We will come back better and stronger next year. Go Spip!

TRACK AND FIELD
GBAC

STUDENT COUNCIL

The SPIP Student Council was established to represent the student body. We aim to bring forth and take action upon students' opinions, taking their best interests into consideration. We serve as a voice to strengthen the communication link between students and faculty members. Comprised of many amazing individuals from different year groups, all members have given it their all and worked tirelessly to organize a wide range of school events and activities across the year, including Halloween, the school fair, the buddy system, Teachers Day, Graduation and many others.

Their hard work and dedication have not gone unnoticed, as these students have demonstrated remarkable leadership, creativity, and teamwork. We are confident that their leadership and commitment will continue to inspire future generations of student leaders.

This year marked a significant change for the Student Council, as the council underwent a full restructuring to better serve the needs of the student body. Under the guidance of their faculty advisor, the student council members worked tirelessly to reevaluate their existing structure and mark areas for improvement. Many changes have been made with the new committee in place, including creating a social media platform to help students reach members of the council better and a way to give out information about activities that will be happening. We also increase the amount and quality of activities, mainly focusing on students, such as improving relationships between seniors and juniors in our buddy system, our cheerleader program, which gives students with specialties in other areas a chance to shine, or Halloween, which many deemed one of the best in SPIP.

SPIP Student Council

SECRETARY

“ **PRESIDENT**

“I am honored to be given this position and I'm proud to say that every single member of the student council was a pleasure to work with, everybody gave it their all even when things get tough. I look forward to seeing what will become of our student council as we pass it on to the next generations to come.

It has been a long journey, thanks for all your hard work”

”

SUMMER - KRISTICA KAMOLVARINTHIP
PRESIDENT

“ **VICE PRESIDENT**

“Its been a long and troublesome journey yet we all made it as a team. I would like to thank every student council member for putting in their efforts into every projects we have been involved in. I am proud that I chose you to be part of our team. I hope next year's student council will even be better than this year's.

Wish you all the best. “

”

JARR - THANAPOOM PATAROWAS
VICE PRESIDENT

SPIP ZERO WASTE

SPIP Zero Waste is a remarkable team of students who changed our approach to waste management and set a shining example for the entire school community. The Zero Waste team has consistently strived to reduce, reuse, and recycle, from organizing waste audits to advocating for the use of reusable materials. We look forward to what future generations have to offer on our path to creating a sustainable community!

ZERO WASTE FAIR

To inspire and connect! The Zero Waste Fair was held on March 3, 2023, and was created by our project to educate fellow students about waste management in an interactive and entertaining way. We invited external organizations and set up booths, workshops, and activities for all SPIP students. Our team has worked hard to create a fun and memorable experience for everyone to enjoy.

SPIP 4TH ANNUAL DEBATE

On October 21, 2022, the Special Events department collaborated with the Humanities and English departments in organizing the 4th annual debate competition here at SPIP. The debate's topic was "Tourism is bad for the environment." Though both teams deserve applause for their bravery and knowledge, the juniors pulled through with their perseverance and dedication and stole the win from their seniors. Great job, and congratulations to all of you!

GPSC-RDF ZERO WASTE TRIP

Representatives of the Zero Waste team visited the GPSC-RDF of Rayong Integrated Solid Waste Management Center, where they learned how trash is organized in Thailand and how our waste can be converted into precious energy through multiple stages of processing.

“We would love to do this again, and we highly encourage everyone to try it out!”

TEACHER APPRECIATION CEREMONY & AAA

The teacher appreciation ceremony, or Thai Wai Kru ceremony, has always been a crucial event in every Thai education, providing students with the opportunity to pay homage to their monitors. We would like to give our thanks to the Thai Department and the Student Council for making this event possible.

On September 23, 2022, SPIP students and teachers all gathered to celebrate Wai Kru Day. Student representatives of each tutor group and sixth-form students went up on stage to pay homage to our teachers by giving them flowers on golden trays, or “phans.” In return, teachers would bless students with success in their future endeavors.

Students selected by the English department had also arranged and prepared carefully written Wai Kru essays, which were presented to all teachers by Brye, Parinchaya Lekcharoen, and Bambam, Woranatcha Techathanachuen, both from Year 9. After that, to end the ceremony, the traditional Thai dance was performed by our students.

We would like to give all our thanks to SPIP teachers, who have helped us and invested their time in giving us the opportunity to become the best versions of ourselves. Thankyou!

In addition to that, the Academic Achievement and Diligence Awards were also handed out to those who have been industrious in their studies to enjoy the fruits of their labor. This year's Director's Award was given to Neuf, Natwadi Karnjana-o-past. We congratulate every single one of you who got an award and look forward to all your further achievements!

SPIP HALLOWEEN

..... This year's Halloween was hands-down one of the best SPIP has organized, thanks to the hard work and dedication of the Student Council and the English department. From the moment students entered the building, each and every floor, bathroom, and even elevator were decked out with decorations and posters of our beloved teachers, creating a spine-tingling atmosphere for our school.

Each student, dressed in their costumes, got the chance to enjoy various activities, including Lucifer's Lucky Draw and Boo Loi, a new creepy take on the traditional Thai sweet. These events were prepared and coordinated by our amazing faculty members, senior students, and parents. As always, the highlight of this event was the "Eerie Escape Room and Haunted House," organized by our Year 11 students. The haunted house with a twist as students attempted to solve the mystery within the rooms, terrifying screams and cries were heard throughout the day.

SPIP's Halloween Fashion Show 2022 was an event to look forward to as well, as students got up on stage in their costumes—Teletubbies, Howl, Maids, IT, and that is to name a few.

Overall, the spirit of Halloween was truly felt by students, teachers, staff, and parents. This provided another means of uniting the SPIP community and creating bonds within the school between teachers, parents, and students.

SPIP CHRISTMAS

The SPIP Christmas event was a wonderful celebration of the holidays that brought together students and teachers. Students were dressed in their reds and greens to celebrate the Christmas spirit as the day started off with each tutor group hosting parties in their classrooms—snacks, drinks, and most importantly, the revealing of Secret Santa!

After the festivities in the morning, the 3rd floor's PNS Snack Fair opened for business, where they sold bubble tea, cotton candy, popcorn, and other goodies. But the fun didn't stop there; SPIP's traditional Christmas student vs. teacher football game made its long-awaited return.

Furthermore, the SPIP Christmas show, which was traditionally performed by the theater club, also had another installment in this Christmas show where they told the story of an alien crash landing on Earth right on Christmas, and the plot followed as they attempted to fix their spaceship and return home.

In addition to that, students gathered to watch the short film "The Snowman and the Snowdog" and enjoy band performances played by students. Our event ended with our traditional lucky draw, with each lucky student receiving great prizes to bring home at the end of the day.

UNIVERSITY FAIR

On Friday, November 4, 2022, SPIP invited representatives from various prestigious universities across Thailand to allow students to meet and discuss directly with admission officers and professors from those establishments. Students have taken this opportunity to learn more about the application process, entry requirements, and scholarships.

Furthermore, to promote reading among students, SPIP also worked with Kinokuniya to set up a discounted book fair just for students.

SATIT PRASARNMIT INTERNATIONAL PROGRAMME

HACKATHON

The first SPIP hackathon! Our students worked hard to come up with a solution under the title "Make Bangkok a better place to live," in which the solution will have to fulfill one of the UN's 17 Sustainable Development Goals. Students from all key stages were welcome to participate in the preliminary rounds. However, only one team from each house was chosen to be the representative in the finals. The competition was fierce, and everyone gave their hearts and souls for the win. In the end, the Makara team pulled through and secured the win as SPIP's first ever hackathon champions. We are honored to have Bangkok Governor Chadchart Sittipunt and our esteemed judges including representatives from SWU, NIA and UNHCR join us and provide valuable feedback and insights. During the event, NFTs were also given out to all finalists as a token of their hard work and something to look back upon in the future.

- 1st: GREEN GREEN VENDING MACHINE from Makara House
- 2nd: Y2K WAY2CRY from Singha House
- 3rd: BLUE'S CLUE from Erawan House
- 4th: 5 BEGINS from Yaksha House

SCHOOL FAIR 2023

On the 9th of January, Satit Prasarnmit International Program held a joint school fair with PSM. As per tradition, our Year 11s were in charge of organizing the booths. After much consideration and negotiation with various vendors, they ultimately decided on setting up game booths and also an ice cream stall.

Students got the entire day to themselves, as they were able to indulge themselves in the fair and hang out with their friends. Some of our students have also taken this chance to perform on stage, including the newly formed “Matdle” band and the “Wong Wien Yai” band, who need no introduction. The crowds were all hyped up as students raced to the front of the stage to give our performers flowers and gifts. Two groups of students also performed dance mashups for this year’s school fair, with one getting the opportunity to perform on the big stage late into the day. Aormsin, Kwangtung, Kate (Najthip), Nammon, Fah, and Bonus—these students have all dedicated themselves wholeheartedly to perfecting their dance performances. All their hard work had paid off as they carried out an incredible dance routine, getting the crowds screaming and hyped up!

UNESCO WORLD THEATRE WEEK

In honor of UNESCO World Theatre Day, our theater students, including Anie, Aormsin, Athens, Bambam, Jr., Mi-o, Nene, Phum, Pitcha, Poonh, Ricky, and Zee, worked hard to showcase their talents and dedication by performing a Shakespearean play at Siam Singapore International School, with the help of Mr. George and Mr. Darren Roysten, who was an active member of the UNESCO International Dance Council.

The students would eagerly meet up in the school's mini theater for their weekly rehearsals, where they learned how to dance like nobles in 14th-century Venora. The dancing techniques required a large amount of communication through eye contact and subtle hand movements, which took our students a while to master. After countless hours of practice and hard work, they were finally ready for their grand performance.

The show went smoothly; our young actors acted out their roles and danced on stage beautifully. Audiences cheered and clapped for them as they all joined hands and bowed at the end. All of the students were happy with how they performed and the smiles they brought to the crowd. Our talented actors celebrated the success of their show with a fun pizza party afterwards.

THEATRE

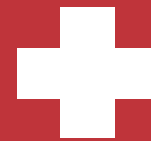

SPIP BKK MUN 2023

This year marks an important milestone as SPIP joins the Model United Nations, or BKK MUN, for the first time. We would like to give a big shout out to Mr. Thomas, who introduced this opportunity for us students and helped everyone prepare for it.

The club started out targeting only senior students; every student appeared to be a little bewildered and perplexed during their first conference, but as time passed, students became accustomed to the debates and procedures and started to enjoy themselves more. After the success of the first senior conference, the club started to grow in size and began welcoming our juniors.

On April 29, 2023, 10 student representatives from KS3 went to NIST International School for the NIST MUN Middle School Conference 2023. Joined by Tammy from Y12, who was selected as one of the chairs for the UNWomen committee, the students separated into committees and took on the role of delegates representing their countries. Each got to debate, write speeches, discuss with other delegates, and more. They developed various skills such as public speaking, critical thinking, collaboration, etc. Although it may have been tricky at the beginning since it was their first time, it was really an enjoyable experience for them. Hopefully, there will be another chance for them and others to go in the future. Overall, it was a great experience!

SPIP SUMMER 2022 SWITZERLAND

After an 11-hour flight from Bangkok to Zurich and an hour by bus, our students finally arrived at the Engelberg campus of Alpadia language schools. At first sight, the mountain view was astonishing, the air was fresh, and everyone was looking forward to the adventures they would have on this trip.

Students spend their weekdays attending English classes in the morning while enjoying sports and indoor activities in the afternoon, including volleyball, basketball, hiking, and many more. Parts of the weekdays that everyone looked forward to most were during the evenings, when they had the opportunity to freely explore the town. Most, however, recalled that their most memorable trips were during the weekend excursions, where students visited other cities like Interlaken, Zurich, Bern, and Lucerne, including many famous sites such as Titlis Mountain and the famous bridge.

Students received a big surprise on Swiss National Day (August 1st): locals around the area came out to celebrate on the streets, holding bright, colorful parties and many games for all to enjoy. It was exciting to explore the area, as some bought souvenirs from kiosks of local businesses, and some even visited a playground on the opposite end of the town. All the students enjoyed themselves, running around and playing on the swings and seesaw; even our science teacher, Ms. Lene, joined in on the fun!

Furthermore, many new friends and relationships were made along their journey in Switzerland, and everyone agreed it was a trip worth remembering.

MEIKEI STUDENT EXCHANGE SHORT-TERM PROGRAMME

Students who took part in the Meikei Student Exchange Programme received the opportunity to take part in a short summer program at Meikei High School, located in Tsukuba, Japan. It is famously known for being a superscientific city. Going to Meikei has been a great experience for all of the students, as they dove deep into the roots of Japanese culture.

New friends were made along the way, helping them with their Japanese and making their stay as comfortable as possible. Students also learned to take care of themselves as they did their own cleaning and separated waste to be sent off for recycling. Everyone was amazed by the size of the school and how environmentally friendly the community is; however, some ran into some issues as the bedrooms were rather dusty, but the problem was quickly solved.

Most of the classes were held during the first week of their stay; the second week, however, was spent mostly sightseeing in Tokyo. Students visited many traditional landmarks, including the Meiji Shrine and the Asakusa Temple, where they got to pay their respects to the temple and learn of different superstitions of Japanese culture, such as ways to increase one's luck.

Students also got the opportunity to visit JAXA, the infamous space museum, which displayed all the different components of a spaceship and the histories of Japan's famous astronauts. They also took a trip to an art exhibition called "Teamlab," which consisted of mainly digital artworks. The Oarai Aquarium was also an exciting experience. Located in Ibaraki, students got to experience and see the different species of sea animals.

For their leisure time, students mostly spent it in Tokyo, except for their shopping at Lias, which is known as the largest shopping center in Tsukuba. Students explore locations including Harajuku, Asakusa, and the well-known theme park called Tokyo Disneyland. Although the distance from Tsukuba to Tokyo took quite awhile, the views that passed through were unforgettable. Starting our trip with the scenery of a calm, quiet town, we transitioned to the big, colorful city of Tokyo. It was a wonderful journey, as they even got to see the shadows of Mount Fuji as they proceeded to Tokyo.

KOREAN LANGUAGE & CULTURAL CAMP 2023

On the first day of the half-team 2 break, nine students set out from Thailand and landed at Incheon International Airport, South Korea. There, students got the opportunity to learn many new skills and gain many valuable experiences, such as different cultural experiences, learning the Korean language, and taking K-pop dance classes. They also got the opportunity to visit plenty of well-known places, including Lotte World, Coex Starfield Library, Myeongdong night market, Hongdae Street, Changdeokgung Palace, Ewha Women University, and even SM Entertainment Tower.

Students somehow unanimously decided to visit Myeongdong night market every single day of the trip as they explored the countless kiosks that lined both sides of the street, buying food, snacks, and souvenirs. The infamous Lotte Young Plaza shopping mall also caught a lot of the students' attention as they shopped at Pop Mart and other brand-name goods. A hidden gem, however, was the K-pop album store, as students spend most of their savings here, choosing albums of their favorite Korean artists.

P'Tawan, our lovely tour guide, was one of the most remarkable individuals on this trip, as his friendliness and patience were something every student admired. He was very accommodating and willing to change plans to satisfy students, even if it went against the original plan. Students agreed that he was the MVP of this trip!

Every student had a great time as they took in the culture and what Korea had to offer. They arrived home in Thailand cheerfully with suitcases packed full of artist albums, souvenirs, and precious memories of their time together.

TAIWAN CULTURAL EXPERIENCE CHINESE LANGUAGE SCIENCE CAMP

After an 11-hour flight from Bangkok to Zurich and an hour by bus, our students finally arrived at the Engelberg campus of Alpadia language schools. At first sight, the mountain view was astonishing, the air was fresh, and everyone was looking forward to the adventures they would have on this trip.

Students spend their weekdays attending English classes in the morning while enjoying sports and indoor activities in the afternoon, including volleyball, basketball, hiking, and many more. Parts of the weekdays that everyone looked forward to most were during the evenings, when they had the opportunity to freely explore the town.

Most, however, recalled that their most memorable trips were during the weekend excursions, where students visited other cities like Interlaken, Zurich, Bern, and Lucerne, including many famous sites such as Titlis Mountain and the famous bridge.

Students received a big surprise on Swiss National Day (August 1st): locals around the area came out to celebrate on the streets, holding bright, colorful parties and many games for all to enjoy. It was exciting to explore the area, as some bought souvenirs from kiosks of local businesses, and some even visited a playground on the opposite end of the town. All the students enjoyed themselves, running around and playing on the swings and seesaw; even our science teacher, Ms. Lene, joined in on the fun!

Furthermore, many new friends and relationships were made along their journey in Switzerland, and everyone agreed it was a trip worth remembering.

On Songkran Day, known as Thailand's New Year, students got to experience and recall their childhood memories, including Thai traditional games, cultures, activities, and food. For Thai traditional games, "Wing Priao," or flag race, was introduced. After a tired round of running, students can enjoy their Thai cotton candy burrito pancake, Thai coconut pudding with toppings (some attempted to scoop out their own), and a cup of sweet, refreshing shaved ice.

With our own imaginations, we were allowed to design our own kite and umbrella. Folding lotuses into beautiful shapes and making garlands were also new experiences for many. Not only are the activities provided, but also our traditional culture of paying respect to elders by pouring water over their hands as they give students their blessings

At the end of the day, the moment everyone was waiting for was... water splashing! Students piled on the grass field, which turned muddy real quick, as students grabbed guns, cups, buckets, and the biggest weapon of all, the hoses. As students ran around splashing each other, many went as far as filling the water with ice, surprising many with a splash of ice-cold water on the their backs. Overall, it was an amazing experience!

BUDDY SYSTEM

SPIP's Student Council has worked hard to start SPIP's very first Buddy System, a chance for juniors and seniors to bond with each other. During the game, the identities of their senior buddies were kept anonymous, and on Friday, February 10, the buddies were revealed!

Seniors took this opportunity to bond with the junior students, whom they may have never interacted with before. The event was an ultimate success, as seniors gave valuable advice, helped with their homework, and even brought gifts for their buddies; however, some may have been more obvious than they thought, letting them get caught before the day of the reveal. It was a fun and lively event that involved the majority of the students, and we hope it can become a tradition from this year on.

CHEERLEADER

Among all the events that were held this year, the street dancing competition was a newcomer to SPIP events, but it sure did leave quite the impression on our students. Organized by the Student Council, a group of dancers from each house volunteered to choreograph a dance under the theme of "Y2K" to perform as a group.

After much dedication and hard work, they persevered through many hardships in both choreography and rehearsals to, in the end, produce a show befitting of their talent. Even though there were numerous problems in bringing about the event, both the performers and organizers all put in 100% effort and left a remarkable entry into SPIP history as the first street dance competition of SPIP.

We would like to congratulate Yaksha on winning first place in this competition. Also, excellent job for Makara (2nd place), Erawan (3rd place), and Singha (4th place).

SPIP GRADUATION CLASS OF 2023

One of a student's most memorable moments in life is their time in high school, but every party needs to come to an end. On Friday, April 28th, SPIP 8's graduation ceremony took place in the minitheater. The event that marked the end of many's time at SPIP was packed with joyous and nostalgic moments where they took a trip down memory lane to revisit their younger days. Many were left in tears as videos of their past at SPIP were shown. As each year 13 received their diplomas and an inspirational speech from Ajarn Boy, both they and students in years 12 and 11, who also held their farewell ceremonies, said their goodbyes.

After the ceremony was over, students piled onto the sixth-grade common room as they wished their seniors farewell, bringing them gifts and taking pictures as a form of wishing them luck on all their future endeavors. We wish all of you good luck on your journey and thank you for all you have done for SPIP. Just remember: It's not "goodbye", just "see you later".

Graduating class of 2023, signing out.
