What is Foundation of Goalkeeping?

Who it is for?

The Foundation of Goalkeeping is a Football Australia recognised course, designed for new and developing goalkeeping coaches, team coaches, parents and volunteers who work with goalkeepers at the introductory stages of their development.

What is it?

It is an entry-level coach education course that introduces the fundamental principles of goalkeeping. The course covers basic goalkeeping techniques, age-appropriate coaching practices, and how to integrate goalkeepers into team training using simple, game-based activities.

Why it is useful?

The course provides a clear starting point for coaching goalkeepers. It builds confidence and understanding, helps coaches deliver safe and engaging goalkeeping sessions, and supports the development of positive early goalkeeping experiences that encourage enjoyment, learning and long-term participation in the position.
