ABOUT US

Scavenger Fire & Safety is a Western Australian fire protection and safety specialist delivering comprehensive fire safety solutions across commercial, industrial, government, and residential sectors.

The company provides a full suite of fire protection services, including the supply of certified fire safety equipment such as fire extinguishers, fire blankets, smoke alarms, emergency and exit lighting, personal protective equipment (PPE), spill containment kits, and emergency response products. These products are selected to meet relevant Australian Standards and ensure compliance in a wide range of operational environments.

Beyond equipment supply, Scavenger Fire & Safety offers end-to-end installation, testing, inspection, and maintenance services for critical fire protection systems.

This includes fire detection and alarm systems, sprinkler and suppression systems, hydrants, hose reels, fire doors, and passive fire protection elements. All servicing is conducted in accordance with applicable regulatory requirements and industry standards, including AS1851 routine service schedules.

The company also delivers specialist fire safety consulting and compliance support services. This includes fire risk assessments, evacuation diagram development, emergency planning, and scheduled compliance audits designed to assist clients in meeting statutory obligations and maintaining safe, compliant facilities. Their maintenance programs are structured to support ongoing compliance management and reduce operational risk.

Scavenger Fire & Safety is proudly Ashburton certified, reinforcing our commitment to delivering services that meet the highest standards of safety and operational excellence in remote and resource-sector environments.

Scavenger Fire & Safety works across a broad range of industries, including mining and resources, oil and gas, construction, strata management, healthcare, education, and government infrastructure. Their services are tailored to the specific risk profiles and operational demands of each sector, with an emphasis on reliability, regulatory compliance, and workplace safety outcomes.

With a focus on technical capability and service consistency, Scavenger Fire & Safety supports clients in maintaining effective fire protection systems and ensuring preparedness in the event of emergency situations.

SCAVENGER ELITE

FIRE GOGGLES

**Frame:**

- Flame-retardant TPU material ensures durability and protection in hazardous environments.

Lenses:

- High-temperature and impact-resistant lenses offer superior clarity and protection in extreme conditions.

Comfort:

- Equipped with a flame-retardant sponge and elastic band for a secure and comfortable fit during extended use.

Customizable Vision:

- Includes three interchangeable lenses in different colors, suitable for varied light and environmental conditions.

Safety Cover:

- Flame-retardant eyewear cloth cover included for added protection and convenience.

LEVEL 1 GLOVES

Cut Resistance:

- Certified for Level 1 cut resistance
- Essential protection against sharp objects without losing flexibility

Durability:

- Reinforced stitching and wear-resistant materials enhance longevity

Grip:

- Textured palm surface for a strong, non-slip grip, even in wet or oily conditions

Comfort:

- Breathable and lightweight design for prolonged use without discomfort

Fit:

- Available in multiple sizes to ensure a perfect fit for every hand

FOAM EDUCTOR

Flow Stabilizing Device:

- Ensures precise foam mixing under varying pressure conditions

Pressure Loss:

- Less than 35%, improving operational efficiency

Disc-Top Bead Regulating Valve:

- Provides accurate foam ratio control for consistent performance

Material:

- Constructed from high-quality aluminum alloy with T6 surface spray anti-corrosion treatment for enhanced durability

Dip-Tube:

- Low-temperature-resistant, 2 meters long, designed for reliable performance in harsh conditions

Connector Options:

- Customizable to meet specific installation requirements

SCAVENGER ELITE

SEARCHLIGHT

- With five lighting modes - Strong, Medium, Weak, Flash, and SOS—it adapts seamlessly to various tasks, from intense search-and-rescue operations to signaling distress. A powerful 20W P70 bulb that delivers an impressive 1500 lumens of brightness
- Powered by a robust 8000mAh 18650 battery, the searchlight offers 7-15 hours of continuous operation, ensuring reliability when it matters most.
- It also features a Type-C charging port and functions as a power bank, making it a practical tool for charging devices in critical scenarios.
- Certified Explosion Proof (Ex IIC) and IP66 waterproof, it is built to endure extreme environments, whether industrial worksites, outdoor expeditions, or emergency response zones.

THERMAL IMAGING CAMERA

Dual Imaging Capability:

- Combines thermal and visible light imaging for enhanced clarity.

Real-Time Detection:

- Instantly displays potential issues on a color screen for swift action.

Precise Temperature Measurement:

- Central point cursor allows accurate temperature readings.

Data Storage & Reporting:

- Images and videos are stored in the device, exportable via USB for reporting or printing.

Compact & Easy-to-Use:

- Lightweight design ensures portability and convenience.

WIFI Data Transmission:

- Supported.

PPE STORAGE RACKS

Scavenger Elite Racking (SER)

Our Scavenger Elite Racking (SER) comes in a variety of configurations to meet your specific needs and available space. You can select from freestanding, wall mounted or mobile to optimize your storage capacity.

Each rack bay is designed to hold PPE/C for one team member.

Product Features

- Constructed from heavy-duty tubular steel with a durable red powder-coated finish
- Offered in both single and double-sided configurations

SCAVENGER ELITE LEVEL 2 FIRE SUIT

STRUCTURAL FIREFIGHTING PROTECTIVE CLOTHING AUSTRALIAN STANDARDS APPROVED

JACKET & TROUSER

Designed for frontline firefighting environments, this structural firefighting protective clothing set delivers advanced thermal protection, moisture management, durability, and wearer comfort.

The garment system combines a proven multi layer construction with reinforced high wear zones and functional firefighter focused design elements.

Engineered using high performance Nomex® and Kevlar® fibres, the jacket and trousers provide reliable protection during structural fire response, search and rescue, and extended operational use.

KEY HIGHLIGHTS

Three layer structural firefighting system for thermal, moisture, and flame protection. Nomex® IIIA ripstop outer shell for durability and tear resistance. Advanced PTFE moisture barrier to prevent water penetration while allowing moisture vapour release. Continuous 3M™ reflective striping for enhanced visibility. Reinforced impact and high wear areas for extended service life. Ergonomic design supporting mobility and operational comfort.

SPILL KITS & HAZARDOUS MATERIAL STORAGE

BUNDS & FLOOR SWEEP

100mm Spill Bund

Description:

SpillSmart SpillBunds 100mm provide cost-effective temporary storage for liquids and chemicals whilst containing potential spills and leaks. These bunds are exceptionally easy to transport, store, clean, reuse and require no assembly. Vehicles including forklifts and trucks can access the bund from all four sides instantly without the driver leaving the vehicle. High quality memory foam ensures the 100mm side walls spring right back into place after being depressed during access.

300mm Spill Bund

Description:

SpillSmart Collapsible Bunds contain accidental spills & leaks and provide cost-effective temporary storage for liquids and chemicals. This bund is perfect for:

- Temporary storage of liquids and leak containment
- Equipment washing
- Maximising bunding capacity with 30cm high-side wall

10KG Floor Sweep

Description:

SpillSmart FloorSweep is manufactured from a special selection of Australian grown organic cellulose products. These naturally occurring fibrous materials are blended and processed to produce a range of absorbents that quickly absorb a wide variety of liquids including petroleum, oils, fuels, solvents, cooking oils, sewage, protein fluids and other messy liquids that could pollute or contaminate the work area and the environment. SpillSmart FloorSweep Absorbent should not be used on strong acid or alkaline solutions.

SPILL KITS

Oil and Fuel (Hydrocarbon) Spill Kits

Description:

Contain highly effective products that will absorb hydrocarbon-based liquids, including oil, fuel, solvent and grease. Sizes: 30L, 50L, 80L, 120L & 240L.

General Purpose Spill Kits

Description:

Contains Floor Sweep, a fast-acting, highly effective bioactive absorbent, combined with a premium sock, pads, gloves and contaminated waste bags to ensure a spill can be cleaned up efficiently. Sizes: 30L, 50L, 80L, 120L & 240L.

LIQUID STORAGE CABINETS
