

BEYOND ACADEMICS

AT RECTORY, GROWTH IS INTENTIONALLY WOVEN INTO THE FULL STUDENT EXPERIENCE. STUDENTS ARE ENCOURAGED TO EXPLORE NEW INTERESTS, DISCOVER THEIR STRENGTHS, AND DEVELOP CONFIDENCE IN WHO THEY ARE BECOMING.

These opportunities are built with purpose. Students are given room to explore, encouragement to take on new challenges, and the support to grow with confidence. Whether they are trying something for the first time, committing more deeply to a passion, contributing to a team, or stepping into a leadership role, students learn by doing. They begin to understand their strengths, manage their time, make thoughtful choices, and see themselves as capable contributors to a larger community.

This balance of choice, challenge, and connection helps students build skills that last — independence, resilience, responsibility, and the confidence to keep growing.

LEARN MORE

ELECTIVES

Electives give students the chance to explore new interests, build skills, and discover what excites them. Each trimester, students choose an elective or performing art, creating meaningful opportunities beyond the traditional classroom. Whether trying something new or growing an existing passion, students take ownership of their experience, build confidence, and learn more about who they are and what they love.

BEYOND ACADEMICS

STUDENT LEADERSHIP & DEVELOPMENT

Leadership is practiced every day at Rectory. Through guidance, reflection, and real responsibility, students build self-awareness, accountability, confidence, and the ability to advocate for themselves.

In classrooms, on teams, in dorms, and across campus, students learn to lead by example, support others, and contribute to the community. Guided by Rectory's core values — **Responsibility, Respect, Honesty, and Compassion** — they grow as leaders with character and purpose.

ADVISORY PROGRAM

At Rectory, every student has an advocate. Advisors are trusted adults who know students well, check in regularly, and help them navigate academic, social, and personal growth. Through advisory, students build organization, self-awareness, confidence, and independence. Advisors also serve as an important connection point for families, helping ensure each student is supported, understood, and encouraged to keep growing.

ENRICHMENT

Enrichment gives students dedicated time to focus, ask questions, and take ownership of their learning. Built into the schedule, this time allows students to meet with teachers, review challenging concepts, prepare for assessments, or get ahead on projects. Whether working one-on-one or in small groups, students receive consistent, personalized support while building important habits — managing time, seeking help, asking thoughtful questions, and growing as confident, independent learners.

RECTORY READS

Rectory READs turns reading into a shared experience. Through small, faculty-guided discussions, students explore books, exchange ideas, and build confidence sharing their perspectives. The program helps create a community where reading is valued, visible, and connected to curiosity, discovery, and conversation.
