

HARTWOOD
CONSULTING GROUP

Hartwood Consulting Group (TnDA Technologies, Inc.) is an SBA-certified 8(a), SDVOSB, and SDB prime contractor specializing in enterprise data modernization, Microsoft 365 cloud architecture, business process re-engineering, and federal information governance. Hartwood provides the administrative and operational rigor of a mature prime contractor, backed by certified quality management frameworks, fully eligible to support classified requirements, and deep Department of Defense past performance.

CORE TECHNICAL COMPETENCIES & DIFFERENTIATORS

Enterprise Cloud & M365 Engineering

- M365/Power Platform
- SharePoint Online Dev
- Cloud Government Integrations
- Custom Full-Stack Applications

Information, KM, and Data Governance

- NARA GRS 6.1 CapStone
- Automated CUI Labels
- Micro Focus CM & ERMA
- Policy Modernization

Business Process & Mission Automation

- BPMN and SIPOC Process Modeling
- Decision Tools (eDST)
- Change Enablement

Defense Financial & Program Integration

- PPBEA Budget Defense
- DAI, PBIS, SABRS & Navy ERP Integration
- Master Scheduling (IMP)

Enterprise Cloud Modernization & M365 Development

- Intelligent Cloud Ecosystems: Architects and deploys enterprise Power Platform solutions (Power BI, Power Apps, Power Automate) and SharePoint Online environments across classified (SIPRNet) and unclassified (NIPRNet/MCEN) defense enclaves.
- Legacy System Modernization: Assesses, refactors, and migrates complex on-premises environments (e.g., legacy Oracle KMS, SharePoint 2013/2016 farms) into secure Microsoft 365 cloud infrastructures.
- Custom Mission Applications: Full-stack development utilizing Angular, ASP.NET MVC, JavaScript/TypeScript, REST APIs, and Oracle/SQL databases under Agile two-week sprint cycles.

Information Governance, CUI Compliance & Records Management

- Automated Data Protection: Configures Microsoft Purview sensitivity labeling and Controlled Unclassified Information (CUI) categorization to automate data loss prevention across thousands of enterprise users.
- NARA & FERMI Mandate Execution: Directly supports agency-level electronic records management compliant with OMB M-19-21, NARA GRS 6.1 Capstone, and DoD 5015.02 requirements.
- Enterprise Digitization: Large-scale analog-to-digital records conversion, metadata tagging, optical character recognition (OCR/ICR), and cloud repository ingestion.

Business Process Analysis & Organizational Change

- Process Modeling & Optimization: Applies BPMN and SIPOC (Supplier, Input, Process, Output, Customer) frameworks to eliminate workflow bottlenecks and establish institutional governance.
- Directives & Policy Alignment: Analyzes enterprise policy gaps, standardizes standard operating procedures (SOPs), and integrates inspection criteria into formal command directives.
- Curriculum & Adoption Delivery: Develops Computer-Based Training (CBT) modules using Articulate 360, creates role-based job aids/slick sheets, and delivers interactive virtual and classroom training.

RESULTS PROVEN. FUTURE DRIVEN.

PRIME PAST PERFORMANCE & PROVEN CUSTOMER FOOTPRINT

Hartwood serves as the prime contractor on complex, multi-year federal programs supporting defense leadership, combat commands, and civilian agencies:

USMC PACIFIC BRANCH

PLP/ PP&O

DPRI & Pacific Posture Enterprise

CONTRACT SCOPE & TECHNICAL HIGHLIGHTS

Technical, analytical, and financial support for a multi-billion dollar international relocation portfolio. Built the Enterprise Decision Support Tool (eDST) on Power Platform; manages PPBEA budget modeling via DAI, PBIS, and SABRS.

KEY DELIVERABLES & TOOLSETS

- eDST Decision Dashboard
- Integrated Master Plan (IMP)
- 24,000+ Asset Command Library

HQMC Administration & Resources

ARDB

Enterprise Records Management

CONTRACT SCOPE & TECHNICAL HIGHLIGHTS

Prime contractor driving Marine Corps enterprise electronic records management, directives, and forms modernization across Total Force commands. Configured Microsoft Purview for enterprise CUI/ERM labeling.

KEY DELIVERABLES & TOOLSETS

- CROSS Governance Platform
- Purview CUI Implementation
- NARA Capstone Rollout Plan

USMC Wounded Warrior Regiment

WWR

IM/KM & Application Integration

CONTRACT SCOPE & TECHNICAL HIGHLIGHTS

Business process re-engineering (BPR) across 90+ clinical and administrative workflows. Sustains and enhances the MCWIITS tracking application and developed the automated TEEP coordination system.

KEY DELIVERABLES & TOOLSETS

- WWR IM/KM Strategy Architecture
- MCWIITS Technical Enhancement
- TEEP Event Workflow Tool

Commander, Operational Test & Eval Force

COMOPTEVFOR

CONTRACT SCOPE & TECHNICAL HIGHLIGHTS

Modernization and migration of COMOPTEVFOR's unclassified RDT&E and collateral classified secret networks, replacing a legacy Oracle KMS with custom SharePoint applications.

KEY DELIVERABLES & TOOLSETS

- Classified/ Unclassified Web Apps
- Software Architecture Docs
- Secure RDT&E Custom Modules

Dept. of Housing & Urban Development

HUD

Office of Housing ERMA

CONTRACT SCOPE & TECHNICAL HIGHLIGHTS

Provided and host a centralized, FedRAMP-compliant Cloud Electronic Records Management Application (ERMA) managing 180 TB of data and 2.5M pages of annual record digitization.

KEY DELIVERABLES & TOOLSETS

- 180TB FedRAMP Cloud Repository
- Automated Retention Engine
- GIS Property Tool API

Codes & Certifications

- **UEI:** MHB9PQ6TRMA7
- **CAGE:** 4YSP8
- **Primary NAICS:** 541511, 541512, 541513, 541519, 541611, 541330

Contracting Access

- SeaPort NxG
- Certified SDVOSB direct award eligible (FAR 16.505(b)(2); FAR 6.302-2)
- GSA OASIS+ SDVO (via Hartwood's SBA SDVOSB JV)
- 8(a) Business Development Program

QAS International ISO 9001:2015 REGISTERED COMPANY
