Clarity™ Carve
Shaping sound through form

Shaping Sound Through Form

Clarity™ Series is a versatile range of high-performance acoustic panels designed to enhance sound quality and improve interior comfort across environments.

Clarity™ Carve celebrates the convergence of performance and design, where sound-absorbing panels become sculptural forms that define, divide, and enrich interior spaces.

Through a curated range of cut-out patterns inspired by geometry, nature, and cultural influences, **Clarity™ Carve** extends beyond conventional acoustic treatments.

Flexible

All patterns can be ordered in 1200 mm x 2400 mm and 1200 mm x 2800 mm panel sizes. Custom pattern designs and project-specific solutions are available to realize unique interior concepts.

The patterns shown in this booklet are designed for 1200 mm x 2400 mm panel dimensions. When adapted to 1200 mm x 2800 mm panel dimensions, minor modifications to the patterns may be required.

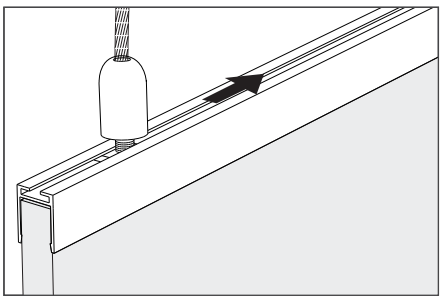

Contact your Innovasia® Acoustics representative or acoustics@innovasia.com for more information.

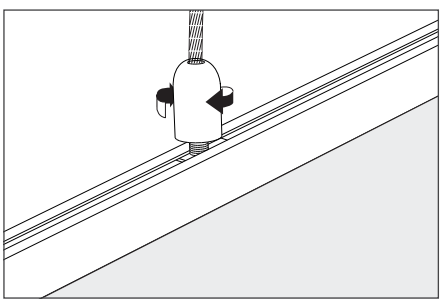

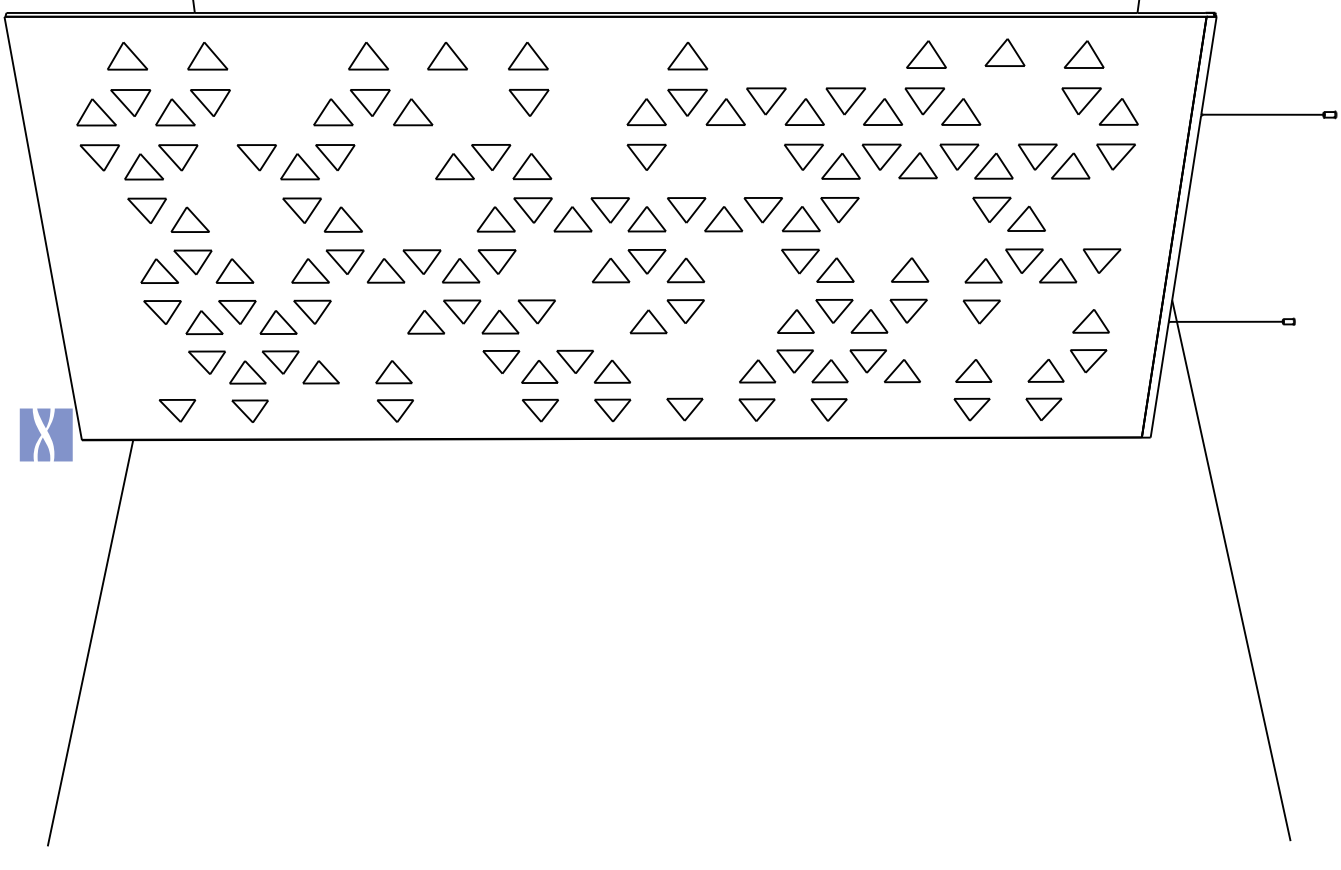

Installation

Innovasia provides a U channel system designed for the installation of Clarity™ screens. This system offers a complete, integrated solution that ensures a smooth and efficient setup process, **suitable for Clarity™, in thicknesses of 12 mm and 24 mm.**

The U-channel configuration is user-friendly, making it easy to install while delivering a secure and reliable fit for the screens.

Product Specifications

Style Name	Clarity™	Clarity™ Accent	Clarity™ Vario	Clarity™ Vario 2.8
Style Number	1107	1104	1071 / 1072	1079
Thickness	9 mm	8 mm	9 / 12 mm	12 mm
Weight	1.9 kg/m²	2.0 kg/m²	2.0 / 2.4 kg/m²	2.4 kg/m²
	5.7 kg/panel	6.0 kg/panel	5.6 / 6.9 kg/panel	8.2 kg/panel
Content	60% Recycled Polyester, 40% Polyester			
Dimensions	1220 mm x 2440 mm (± 10 mm)			
	Clarity™ Vario 2.8: 1220 mm x 2800 mm (± 10 mm)			

Flammability

EN 13501 B-s1, d0

Acoustic Performance

Clarity™ series is specifically designed to reduce and control reverberated (echo) noise in building interiors, with a NRC of 1.00 with 25 mm glasswool infill.

Noise Reduction Coefficient

ASTM C423

	Clarity™	Clarity™ Accent	Clarity™ Vario	Clarity™ Vario 2.8
Direct placement	0.35	0.30	0.35 / 0.45	0.45
With 25 mm glasswool	0.90	0.90	0.90 / 1.00	1.00
