Letter from the Chairman

We are proud to present our new catalogue for the 2025-2026 season.

In this new catalogue, we are showing as always our three collections: Artistic Silver, Artimetal and Procesionalia and it also includes new items clearly marked with the sign NEW. Within these three Collections you will find the most comprehensive and varied choice of religious metalware, where design and quality are our main goals and the foundation for our prestige renowned worldwide throughout our 85 years of history.

We would like to inform you again of our sheer capacity to create custom items as per your indications. Our design department and expert team of skilled craftsmen, formed through generations in all the techniques involved in the art of silversmithing, will make your project a reality and will develop it into an everlasting work of art.

Also, we encourage you to trust our expertise in restoring all kinds of liturgical metalware. During this restoration process we guarantee the preservation of the authenticity of the piece of art you trust us with as we use the same artisanal techniques used by the silversmiths who originally created the piece.

As always, please let us guide you with your future purchase of one of our pieces to assure your needs are completely satisfied. Our long tradition as expert craftsmen is your best guarantee.

Our international network of specialized distributors will provide you with the kind of professional and personalized attention you deserve.

Raúl Molina Salazar
Chairman

Facilities in Madrid - Spain

...Quality silversmiths since 1939

Luis Molina Acedo, 1949.

In 1939, after the Spanish Civil War, Luis Molina Acedo started working as an apprentice silversmith in the Plata y Bronce workshops of Madrid, run by his father, Luis Molina Pérez. He was only 15 years old. There, he carefully learnt from the old workshop masters the ancient and beautiful techniques used by the European silver and goldsmiths of yesteryear, such as embossing, chiselling, hand engraving, fire enameling and, very importantly, drawing and the roots of the classic, baroque, romanico, plateresque and Gothic styles. Very soon he was already designing and hand crafting fine ecclesiastical silverware that was actively sold throughout the provinces of Spain.

The years that followed the war were very hard, and this moved him to migrate, aged twenty-four with his wife and 2 year old son to Ecuador in 1949 and to establish himself with a small silversmith workshop in Quito, Ecuador.

His reputation rapidly grew inside the active Christian Community of South America due to his everlasting perseverance, the quality of his totally hand crafted sacred vessels and his personal and professional service. Before he returned to Spain during the mid 1950's, his one-man workshop in Quito had grown steadily and he was able to establish a new workshop in Lima, Peru with around fifteen skilled workers.

Great examples of his work can still be found in that continent, all showing the purest Spanish and colonial styles.

Finally, in 1960, he was able to fulfill his dream, and founded the actual workshops in his much missed Madrid, Spain, which are synonymous for the highest possible quality that only the Christian Church deserves and for an unsurpassed service.

By the year 1966, the staff had grown to more than 50 skilled workers, as the different religious communities continued demanding more and more quality metal ware and the old religious silversmithing workshops across Europe started fading away.

Although very hard times like the Vatican II and the Spanish Transition came after the 1960's bonanza, when many companies had to shut down their doors, the company struggled and once again survived by offering absolutely the best hand crafted sacred vessels with absolutely the best service.

"Mudejar" style chalice hand crafted by Luis Molina Acedo during his time as an apprentice silversmith in the Plata y Bronce workshops of Madrid, circa 1939.

Custom baroque frame, chiselled and embossed for the portrait of the Madonna of the Cathedral of Quito, Ecuador in 1952. It is shown here carried on procession outside the Cathedral that same year.

In 1983, Miguel Boyer, Spain's former Minister of Economy hands over Luis Molina Acedo the award given by the Chamber of Commerce of Madrid for the excellent volume of annual exports achieved the previous year.

The spectacular increase in the exports led to the creation in the U.S.A. of a wholly owned subsidiary logistic distribution center in Warwick, Rhode Island in the year 1981. It was established with the name Artistic Silver, Ltd. and canalized all the products and services to our selected network of specialized distributors inside the North American continent. The company was awarded in 1983, 1985 and 1986 with the gold medal for its annual exports by the Chamber of Commerce & Industry of Madrid.

His Holiness, John Paul II celebrates the commemorative Mass of his 50 years since ordination with our Gothic chalice # 2392, presented to him for this very special occasion.

Today, Luis Molina Acedo, S.A. led in the third generation by the current president Raúl Molina Salazar is a modern, 100% family owned and operated company with a qualified staff.

With this heritage, we can only assure we look at the future knowing we will do our best to continue offering all our customers around the world what our founder established as the principles of this company.

Of all the many custom articles we have hand crafted throughout our history, perhaps the one we are most proud of is the "Botafumeiro", the world's biggest censor, housed inside the Cathedral of Santiago de Compostela, Spain. The original Botafumeiro, hand wrought in sterling silver on the XV Century was stolen from Spain during the French Invasion at the beginning of the 19th century and molten into silver coins. A new Botafumeiro was built in 1851 by the Spanish silversmith José Losada, in brass, finished in silver plate to match with the original. In 1971, a further Botafumeiro was entrusted to us, a faithful replica of the XV Century original, hand crafted in solid sterling silver. It was completed and delivered personally by Luis Molina Acedo in the record time of one month. It is regularly used, altering with the 1851 brass original, majestically flying across the main body of the Cathedral and spreading the fine incense odour over the thousands of amused pilgrims.

Quality Custom Work & Projects

The tabernacle sits majestically under the marble baldachino at the Cathedral's Chapel for perpetual adoration of the Host. The integrity of the architect's original design can be appreciated from any angle.

The workshop staff who took part in the construction of the Botafumeiro proudly stand alongside their creation, just minutes before its departure for Santiago de Compostela in September, 1971.

The fact of being highly specialized in true gold & silversmith's techniques and our heritage in handling all sorts of artistic jobs in precious metals since 1939 gives us an extra edge when entrusted with your custom commission. Our skilled team of designers will develop a quality pencil drawing which will serve our experienced silversmiths to execute your exclusive piece by hand, forging and giving shape to the metals, chiselling, embossing, hand engraving, fire enamelling etc. The built piece will then follow a long process in which meticulous hand polishing, stone & enamel panel setting and a rich plating are carefully carried out to ensure first class quality standards.

Our extensive network of specialized dealers will be glad to work with you and submit your ideas to us in order to study the project, develop an exact and firm quote and create a workshop drawing to show you how your exclusive item would look. We will strive to create the precise article that will meet your specific liturgical needs and exceed your expectations.

Mounting and adjusting of all the engraved panels, doors and other fittings. It is essential to execute this phase with the utmost perfectionism to ensure a quality product. The tabernacle is after taken apart once again and carefully polished & plated.

This tabernacle, hand crafted for St. Peter's Cathedral, Belfast (Northern Ireland) is a faithful representation of our ability to hand craft all sorts of custom work in metal. The beautiful rich medieval design of the Architect, Mr. Richard Pierce was carefully studied and understood by our custom orders department, creating additional sketches to give dimension to the piece. It was then executed by our craftsmen from plain sheets of high quality brass which was heavily worked with more than 200 hours of expert labour. We are very proud of this project and for having had the chance to contribute to the great re-opening of the Cathedral, which has been intimately linked to the Catholic community of Belfast since 1866.

St. Peter's Ambry 2009

This magnificent ambry was commissioned to us back in Easter 2009. Specially developed by Maxwell-Pierce Architects, it was thoroughly handcrafted in brass by our craftsmen to match with the tabernacle and Evangelarium supplied by us previously to St. Peter's Cathedral, Belfast. With a colossal height of over 270 cm. and a massive amount of solid brass employed in its construction, this ambry has been one of the most difficult pieces we have ever worked on. Besides the fine machining carried out on its columns and the heavy duty construction carried out on the base, the most difficult task on this ambry was the making of the framework that holds the multiple bevelled pieces of glass, required to display the three oil stocks housed inside.

After building up the piece, every component was taken apart and polished carefully before applying a durable layer of oven baked lacquer to assure an impeccable finish for many years to come. The result achieved speaks for itself and we hope it will serve as an example of the degree of quality and attention to detail employed when crafting any of our custom creations.

59" Magna Monstrance designed by architect Joaquín Planell Santa for the Presentation and Adoration of the Sacred Host at the Ciudad Santo Domingo parish in Madrid. The monstrance holds a removable luna with cross and LED lighting for the exaltation of the 5-3/4" Sacred Host.

Exclusive sterling silver chalice presented to His Holiness John Paul II in 1990 by the Molina Family.

The node reads His Holiness' famous words "Totus Tuus", while the base depicts the image of Our Lady of Czestokowa and St. Peter as well as the Papal and Vatican seals. The design, personally created by Luis Molina Acedo was wonderfully executed by our team of silversmiths.

Special Tabernacles

Monumental tabernacle in Sevillian Baroque style made in bronze, brass and copper finished with 24 karat gold and 1000/000 sterling silver. Depicting scenes of the Life of Jesus in fire enamel and with chiselled and embossed floral motifs.

Maximum measures:

67" tall x 59" wide x 27-1/2" deep.

This Neoclassical tabernacle was commissioned under special request in the fall of 2006 for a very special location: The Cathedral of SS Peter & Paul in Philadelphia, USA. Our custom orders department worked endlessly for around three months together with our customer St. Jude Liturgical Arts and we managed to build it from scratch parting from sheets of brass, making sure that it was a faithful representation of the original drawings.

Slowly, the metals were worked on with the expert hands of our master craftsmen, conforming them to the necessary shape and specifications. Specially laborious were the oval shaped dome and the delicately embossed door panel depicting the Agnus Dei. The finished product looks superb sitting majestically on the main Altar of the Cathedral and is a faithful example of our capability to handle, from beginning to end, all kinds of custom projects achieving only the highest craftsmanship and the most demanding quality standards.

Medjugorje Magna Monstrance

Custom handcrafted monstrance, dedicated to Our Lady of Medjugorje (Bosnia-Herzegovina) in 2001. With a total height over 5 feet, delicate hand construction using solely sterling silver and a blend of ancient techniques such as embossing, engraving and fire enamelling, this piece belongs to a class of its own.

Custom Tabernacle for Panama

Custom tabernacle executed for the Cathedral of Santa Maria La Antigua in Panama upon request of Santarrufina, our distributor from Madrid. The design is a replica of the main façade of the Cathedral, finished in goldplate and silverplate (two tone) and measuring 25-1/2" in height x 24-1/4" in width and 14-1/2" in depth

Ave Maria Tabernacle (Naples, Fl)

This is a project we worked on together with Baker Liturgical Arts for two full years and one we are most proud of. Ave Maria Catholic University is the Unites States' most prominent Catholic University to have been built in the last 100 years and the tabernacle to reside in its magnificent Shrine should be only worthy of this condition.

With more than 250 lbs. of the best available metals used in its manufacture, massive overall dimensions of 63" wide x 47 tall, thoroughly handcrafted construction in solid, perfectly polished, gold plated brass including impeccably finished royal blue fire enamel over hand wrought criss-cross panels and other features such as twelve individually set rare tanzanite stones, this tabernacle boasts the same level of expertise as the best silversmith's creations from yesteryear which we make available to you in the XXI Century.

Custom Chalice, paten & Ciboria set for Pope Benedict's 2008 Historic U.S.A. Visit

Tradition, Beauty and Excellence were always priorities when designing these pieces in collaboration with our distributor Baker Liturgical Arts creating a simplified version of one of Christianity's most important pieces: The Carlo Magno chalice (Carlo Magno was appointed in 774 A.D. protector of Rome by Pope Adrian I). The cup bears two pristine fire enamel medallions depicting the Pope's coat of arms and Archbishop Wuerl's coat of arms. The base shows another six fire enamelled medallions among which the Washington, D.C. Diocesan Cross stands out in front. The base is ultimately adorned with Pope Benedict's two mottos: *Spe Salvi : Deus Caritas Est*.

World youth day Madrid 2011

This delicate set was created under special request from our distributor Santarrufina, S.L. and it has proven once again the sheer capacity of our workshop to manufacture unique works of art for the Catholic Liturgy.

All pieces were executed entirely in sterling silver with 24 karat goldplating. They were embossed and chiselled by hand with a rich floral motif, featuring in the cups the images of the Four Evangelists. The bases were adorned with four fire enamelled medallions depicting the coats of arms for His Holiness Benedict XVI, His Eminence Cardinal Rouco Varela, the Holy See and the Diocese of Madrid.

Quality restorations

Having created works of art for the Catholic Church for over 60 years and because of the highly qualified master silversmiths in our workshops, all of them experts in all the manual techniques used and developed all along history, we can guarantee the most professional and qualified service for your restorations of religious metalware.

With the passing of time and due to its normal use, truly works of art, both antique and contemporary suffer degradation and damages in their finishing which compromise the original material value. In our workshops, we are highly qualified to restore your work of art and bring it back the original beauty and value it had when it was created. We would always follow the same construction methods and use the same materials and techniques used by their creator when they were first built. This guarantees that your work of art will NEVER BE ALTERED, a golden rule in the art of restoration. Unfortunately, it is very common for us to receive distinguished works of art to be restored in which this golden rule was not followed in previous repairs and even in these cases, we are still capable of bringing the pieces back to the condition they should have.

Before: This beautiful German chalice dating from the early 1900's was in an original but unfortunate state. Had some of its enamels chipped off, and was missing some stones. It was also crooked and was missing its inner core that held it up together.

After: After meticulous stripping, all the pieces were removed, inspected and, if missing, duplicated. All fire enamel work was restored and it was fitted with a proper inner core. It was then hand polished, buffed and plated in 24 kt gold thus looking as good as the first day it was built.

Botafumeiro inside the Cathedral of Santiago de Compostela (Spain, 1851)

Well known is the Huge Censer that is "flown" inside the Cathedral of Santiago de Compostela in Spain during the Pilgrim Mass every Sunday dating back to the origins of the pilgrimage itself. Nowadays, there are two censers used in this spectacular celebration. One of them, dating from 1851, was executed by the silversmith Losada and the other one, entirely made in sterling silver came from our workshops. It was manufactured in 1971 as a replica of the piece from 1851.

The censer from 1851, entirely made in bronze and plated with silver had suffered numerous damages due to the passing of time and also because of its continuous use. Along the years, these damages were repaired, sometimes, by non qualified artisans and the censer was in a considerably battered condition. Our workshops were required, due to our expertise in the manufacturing of the sterling silver censer, to study the total restoration of the 1851 piece in order to bring it back to its original appearance and also to revise the safety of a piece such as this, masterpiece of the Spanish silversmithing, given that, while flying, it reaches the inertial mass equivalent to approximately 1000 kilograms.

Today, we can proudly say that the restoration commissioned to us of this emblem of the Catholic Religion was able to "fly" along the nave of the Cathedral once again during the Holy Week of 2006 showing its original aspect and with the maximum safety just as it was imagined and executed by the silversmith Losada back in 1851.

Chalices & Ciboria

Our silversmiths combine elegant design and pure craftsmanship to create chalices of renowned quality that will last a lifetime and that are worthy of the celebration of the Liturgy. When selecting an artistically built chalice you are contributing to the development and maintenance of the fine art of the liturgical silversmith, a profession intimately linked to the origins of the Christian religion which has enriched the western civilization since immemorial times. In this catalogue, you will find the broadest selection of chalices available in the industry that will enable you to make your important decision. Under special request, many can be modified with countless options to make sure we meet your specific needs. We also specialize in creating bespoke chalices of the highest quality for our customers from scratch.

The term "All Sterling Silver" refers to chalices and ciboria entirely made in sterling silver with only the internal connecting hardware made in non-precious metals. All prices in this catalogue for items with cup in Sterling Silver or entirely made in Sterling Silver are only approximate. Please, ask for an updated price before ordering any piece containing Sterling Silver.

MAESTRO COLLECTION

The sacred vessels presented in this collection are a faithful testimony of the sheer artistic quality developed by our master silversmiths throughout their life. Most are the result of our designers' creativity and some are replicas of Christianity's historic chalices. In all of them, only the purest craftsmen's techniques transmitted from the Medieval Ages such as embossing, hand engraving or fire enamelling have been applied resulting in real works of art.

"The St. Remy" Chalice & Paten

This masterpiece is an accurate replica of the original twelfth century St. Remy Chalice, housed in the Cathedral of Reims (France). It is completely hand made in 925 sterling silver gold plate. Attractive hand chased outer cup and base with open arch design exposing the brightly polished inner cup and base. Set with 32 genuine stones (Amethysts, Lapis Lazulis, Green Venturines and Garnets) as well as adorned with cloisonné fire enamel, the St. Remy chalice is a superb blend of beauty, quality and dignity of design. **\$ 25,200**

Height: 7 3/8"

Cup: 5 1/4"

Capacity: 18 Oz.

Paten: 7" dia.

*Same as above, partially hand made,
Sterling Silver, g/p finish **\$ 15,100**

ST. REMY

Widely known as the "St. Remy", the chalice of St. Remigius is probably the most beautiful and treasured symbol of a Christian sacred vessel. Its sheer beauty, magnificent craftsmanship and interesting history make it a legend in its own right. St. Remigius, Apostle of the Franks and Archbishop of Reims, France, during the VI Century was a very influential man who converted the Franks to Christianity. The Franks had been mainly warriors until then and had robbed or destroyed many of the sacred vessels of the Churches of the era. It is said that, after the Franks converted to Christianity, the chalice of St. Remigius was cut from the gold of the celebrated vase of the Church of Soissons, previously broken by a soldier of Clovis, King of the Franks, as a gesture of regret. The St. Remy chalice has been preciously kept since then in the treasury of the Cathedral of Reims, being even used by the Kings of France to communicate under the species of wine at the end of the Coronation ceremonies. Our version of this mighty chalice is a living proof of the degree of expertise, perfection and attention to detail transmitted through generations of our own craftsmen. Every part, every bit of it is made by hand with the purest techniques used by the great medieval silversmiths mixed with the most modern plating methods to assure that every one of them is a worthy tribute to the original chalice and a piece of art that will further its value with the passing of time. Matching Ciboria, open Ciboria, intinction set, cruets set and monstrance available.

TASSILO

The origin of this famous chalice can be traced back to the Duke Tassilo III of Bavaria, Germany, VIII Century. It is one of the most important treasures of this era even though it was not known of until the XI or XII Century. It is the symbol of the wedding between the Duke Tassilo III, from the Agilolfing dynasty that governed Bavaria and Liutpiric, the daughter of the Lombardian King Desiderius, and was presented by them in 777 to the Monastery of Kremsmünster (Germany) where it is still preserved today.

The only modification to this original chalice is the fact that the wording on the base from the original Tassilo chalice (+ TASSILO DVX FORTIS + LIUTPIRC VIRGA REGALIS +) has been changed to the Latin text PER IPSUM CUM IPSO IN IPSO + meaning FOR HIM WITH HIM IN HIM +, of important meaning in liturgy, thus making our version more appropriate for its use in a liturgical catholic service. Our chalice is also slightly smaller in size, making it easier to use during the services than the original of considerably larger dimensions. The design and style of the figures present on our chalice are sensibly more refined and symmetrical than those of the original, of a more primitive design. The figures represented on the base are The Blessed Mother, Saint Paul of Tarsus, St. John the Baptist and Saint Theodore while the ones on the cup are The Pantocrator and the Four Evangelists with their symbols. Matching Ciboria, open Ciboria, cruets set and monstrance available.

THE ARDAGH

The origin of this chalice goes back to the second phase of the Christian Era, during the beginning of the VIII century. It was discovered in the late XIX Century in Ireland by a small boy that was digging potatoes in Reerasta Rath, near the village of Ardagh. The chalice seemed a treasure that most likely belonged to a rich and well established Irish monastery. Its unique low design with two handles, hand forged construction in solid silver, deeply engraved celtic ornamentation and fire enamelled cabouchons make this chalice the most important and richest of the first Irish Christian objects and clearly one of the finest metal pieces from the VIII Century that has been discovered so far.

Our version of the Ardagh chalice is taller and resembles more the shape of a chalice than the original. Like its predecessor, it features a deep celtic engraved design on cup, base and node as well as engraved and fire enamelled cabouchons. Ciboria and monstrance available.

ROMANESQUE COLLECTION

The Romanesque art represents the spiritual unison of Europe and it is when the concept of Christendom arises. Western culture flourishes and the primacy of European culture will impose from then on its own dynamics of development, eclipsing both Byzantine and Islamic cultures. New constructive techniques arise and there is a fusion between expression and beauty in the figurative arts.

All of the Romanesque pieces in this collection have been developed by our silversmiths to reflect the beauty and character of this classic style, blending elegance, balance and craftsmanship in one.

GOTHIC COLLECTION

The Gothic period represents the zenith of the Western cultural process. During the 12th century the flourishing of the cities develops this style that faithfully represents the ideal of a free citizen. The artist acquires full independence. More slender and stylised forms give a more spiritual and closer vision of God.

Many of the chalices in this collection have been newly designed specifically for this catalogue, reassuring once again our tribute to this great classic style.

THE GOTHIC

This beautiful chalice was commissioned under special request by The Vatican as a present to His Holiness, John Paul II to commemorate his 50th anniversary in the priesthood.

The elegant, octagonal Gothic design created by our artistic department was masterfully executed by our silversmiths using sterling silver throughout. The result was impeccable and its generous proportions made it look impressive on the main Altar during the commemorative Mass in St. Peter's Basilica.

The many requests received by our clients for this chalice moved us to develop a matching Ciboria, open Ciboria and monstrance, thus completing a stunning, full Altar set.

2392

"The Gothic" Chalice & 6 1/2" scale paten with ring

Exquisite deep relief work, depicting the Four Evangelists imbedded into node chapels, Christ and the Twelve Apostles on the cup and a deeply sculptured "Flower of Passion" motif on the base. Chalice and paten made in 925 sterling silver, gold lined.

FLORENTINE COLLECTION

Each of the four chalices in this collection equally represents the smooth lines of the Florentine style which had its appearance and development in Florence, Italy during the first part of the XV Century, within the great Renaissance period.

2370

"The Florentine" Chalice & Paten

(Matching Ciboria available).
Depicting the Four Evangelists and symbols around the cup, this filigree cloisonné fire enameled chalice and paten set is executed in solid 925 Sterling silver, Gold lined. A masterful job of hand engraving gives highlights to the enamel lines and the construction of the chalice represents the highest form of craftsmanship. **\$ 21,995**

PLATERESQUE COLLECTION

Influenced by the Italian Renaissance movement and the Florentine artists that came to work for the Spanish Crown, the Plateresque style develops itself as a genuine independent Spanish style through the XV-XVI Centuries.

The pieces here illustrated are a worthy example of this pure Spanish style of clean lines and elegant presence.

BAROQUE COLLECTION

During the 17th century and the beginning of the 18th century, the baroque represents a moment in Western culture in which the affirmation of nationalities and the tension produced by the Reformation and Counter-Reformation coincide. An interest for the monumental, the surprising and the dazzling arises. It is also the art in which the movement and the theatrical tension are most successfully produced.

All the pieces in this collection offer you multiple possibilities to enrich your liturgy and complement your church interior in this beautiful style.

Monstrances & Ostensoria

Our monstrances are delicately executed in sterling silver or high quality base metal, heavily gold or silver plated to achieve the best looking finish. The luna is always immaculately finished in 24 karat gold plate in order to expose with dignity the Host for the Adoration. Great selection of styles and sizes to meet your specific needs. Our monstrances are always built by hand, so different luna sizes and custom modifications are always available upon request.

***7293*****"Gothic Monstrance"***

Rich cut-out Gothic filigree open work executed on this "one of a kind" magnificent monstrance. The finial cross is adorned with amethyst cabouchons.

The ornamentation features grape motif and images of the Twelve Apostles and Four Evangelists.

Available in sterling silver and sterling silver with 24 Karat goldplate finish.

Tabernacles

Our tabernacles are built with the objective of magnifying the Altar and its surrounding space in which the tabernacle plays a key role: housing the Ciboria which contains the Body of Christ. No expense is spared when building these works of art. The attention to detail on each one of them has no equal, resulting in a top quality piece that inspires devotion. The same degree of perfection is achieved on the inside, always immaculately finished in rich 24 karat gold plate. All our tabernacles can be modified to the customer's requests. Custom chiselling and embossing jobs to represent different scenes as well as custom fire enamel doors are always available upon request.

4112**"Baroque" Tabernacle***

Rich baroque ornamentation, featuring different scenes of the life of Christ and statuettes of the Four Evangelists. The doorframe is adorned with graceful cloisonné fire enamel filigree design. The interior is richly ornamented with a high-gloss 24 karat goldplate finish. Available in bronze, silverplated or 24 karat goldplated finish.

Measurements:**Height:** 33 1/2"**Width:** 23 5/8"**Depth:** 16 1/2"**Weight:** 141 pounds.**Double door opening:** 10 1/2" Wide by 13 3/4" High.**Silver Plate** **\$ 46,200****Gold Plate** **\$ 47,560**

***4025*****"The Gothic"***

CROWNS FOR STATUES

We hereby present a small selection of Aureoles, Crowns and Rays of classic design. Each of them is available in different sizes adjustable to the diameter of the head of the statue. All these different models can be exchanged using the crown of one with the aureole of the other. Custom crowns are always available under special request to meet your individual needs.

Net overcover with gold threading for 3 feet High Madonna)	
Face ornamental band for 3 feet Madonna	
Lower cover for a 3 feet High Madonna (simple design)	
Rails for Processional Carriage with simple brackets	\$ 3,095
Rails for Processional Carriage without brackets	\$ 1,475
Simple Brackets for rails for Processional Carriage	\$ 1,635

5. General Information

• Materials used:

The most commonly used materials in our production are Brass, Bronze, Sterling Silver, Gold and 24 karat electrolytic Gold that is used for our goldplating processes. These are all certified materials and follow exhaustive controls before being manufactured in our workshops.

• Finishings:

- All our articles, no matter the finishing they show in this catalogue can be finished in any other way. The available finishings would be the following:

- 24 karat electrolytic goldplate
- 1000 Sterling Silver electrolytic plating
- Two tone finish, combining silverplating at 1000 Sterling Silver and 24 Karat goldplating.

• Enamels:

All enamels shown in our items are entirely handcrafted and can be carried out using two different systems:

- **Fire enamelling:** It is the main system of enamelling. This procedure dates back from the Middle Ages and consists on “crystal dust” of different colours being applied with water on top of the surface to be enamelled. After that the water content is dried up and it is baked at temperatures above 800 degrees. This will give the enamels all their beauty and colourfulness. The items in this catalogue made using this process are indicated with the legend “fire enamelled”

- **Epoxy or cold enamelling:** It is the commercial enamelling. It consists in the application of resins with different colours that will be later baked in the oven where they will reach final looks similar to those of the fire enamelled pieces.

**• Lacquering:**

The vast majority of our items, in their final finishing are treated with vitreous lacquer. This process prevents the metal pieces from tarnishing and guarantees the durability of the different finishings of silver and gold without needing to clean them at all. In order to lacquer the pieces first they must be thoroughly cleaned, they are immersed in several tubs with degreasing liquids, then the lacquer is applied by atomising it with spray guns inside of an isolated room with continuous water curtain. Once the piece is lacquered it is placed inside of an oven at 160° for 20 minutes that will vitrificate the lacquer. A considerably hard crystal-like film on the surface of the piece will result from this process. This film will protect the piece from minor erosion and oxidizing. Only some items finished entirely in 24 karat electrolytic goldplate, because of their design, are not protected with lacquer, given that this is a material that does not oxidize.

**• Articles to match:**

Many of the chalices shown in this catalogue have their Ciboria or open Ciboria to match, please feel free to contact our customer service department if you are interested in the matching pieces for a specific model for which the picture is not shown and we will provide pictures or designs of the existing matching articles.

Also, some of our chalices are part of a bigger set composed by other metalware items such as Monstrances, Ostensoria, Tabernacles, Missal stands, etc. In this case, you will see references in the item that will take you to the rest of the set in other sections of the catalogue.

• Engraving:

In our workshops we count with artisan engravers able to carry out all sorts of inscriptions or designs in any of the articles we manufacture. Send us your requests and we will provide the most professional engraving in the market.

• Care and Preservation:

As we have already mentioned, all of our items are made using noble materials with high quality finishings, in most cases with mirror polishing and protected with vitreous lacquer.

For their care and preservation, it is only necessary to treat them with the care and attention an artistic item requires and only remove dust and fingerprints produced by the normal use of the piece with a feather brush or clean, soft, 100% cotton cloth that must always be used following the sense of the polishing marks. In the event of a wine stain or any other that cannot be removed using the mentioned procedures, please use a lightly humid soft cotton cloth. Once removed, dry the piece with care using a dry cotton cloth.

NEVER APPLY METAL CLEANERS, SOLVENTS OR ANY OTHER ABRASIVE PRODUCT LIKE ALCOHOL, GASOLINE, ETC.

• Custom Articles:

Because of the artisanal structure of our company, one of the aspects that best describes us in the market is our sheer capacity for developing custom articles. We are prepared for carrying out these jobs and we have the necessary expertise to develop any kind of metalware piece you may need.

You only need to bring in your ideas or specifications and we will develop a sketch for you with the degree of quality you request, together with the budget and a firm delivery timeframe. The final result, if you decide to go ahead with the project will be a magnificent and unique work of art that will be part, in the centuries to come, of the last pieces of real handcrafted metalware made in the world

• Safety and Hygiene at work:

It is with great satisfaction that we can guarantee within our productive process, the SAFETY and HYGIENE at work. Even though our production is artisanal we are certified and updated with the most modern safety and hygiene control measures at our premises, going through the most rigorous yearly controls imposed by the Labour Regulations of the Spanish Administration.

• Cases:

For a higher protection and care of our chalices, monstrances and other items of our production, standard and custom cases are available. Said cases are available in a material that imitates black leather, with padded interior and lined with red velvet. Special cases made in other materials are available upon request, even with real leather on the outside.

STANDARD CASE FOR CHALICE & PATEN: \$ 195

• Guarantee:

As a final consequence of all our productive processes and backed up by the self-assurance provided by our experience in the manufacturing of religious metalware for over 40 years, ALL OUR ARTICLES, are guaranteed for 5 YEARS against manufacturing defects.

In the event of a claim falling under this guarantee a written request must be addressed to our customer services department that will give you instructions on how to solve the issue.

Standard Case

• Administration and control of the productive process:

From the moment we receive an order for one of our items, an administrative and productive process, unique amongst the artisanal workshops, starts.

All orders are processed on a daily basis with detailed data on the customer, deadlines and all eventual aspects of the product such as reference numbers, finishings, etc.

Once the order is processed a production order is automatically generated by our computing systems with all the details regarding the productive process and with a barcode that will be read by a special software, custom made for this company, registering all production times and the different stages that the piece will go through until the completion of the article and the shipment to the final destination.

This guarantees that no aspect of the productive process is omitted and that all intermediate quality controls are carried out.

• Packing:

As final element of our productive process the packing system for our artisanal production is the best in the market both for road and air transportation.

Once carried out the final quality checks of our metalware, the items are carefully wrapped in their soft flannel bags (chalices and ciboria) or wrapped with silk paper. After that, they are protected in bubble wrap that prevent them from small hits and scratches during transportation. Finally, they are taken to the packing and shipping section where they are carefully placed in double thickness cardboard boxes and isolated from each other by bags of injected foam, where each article is entirely surrounded by said foam protection that once expanded provides an outstanding protection in order to make the items travel safely to their final destination.
