Slab Lifters

Manual

Automatic

The patented Aardwolf Slab Lifter is an essential accessory for lifting and moving stone slabs. The Aardwolf Manual Slab Lifter features a red spring-loaded latch that is pulled to release the lifter from the slab once it has been fully lowered to the ground.

The Automatic lifter auto locks and unlocks the slab from the jaws of the lifter. The heavier the load, the tighter the grip. No need for the manual release!

Model	Product Name	Grip Range (mm)	Capacity (kg)	Brand
AL30W	Aardwolf Manual Slab Lifter	0 - 30	1200	
AL50W		10 - 50		
AL60W		15 - 60		
AL75W		30 - 75		
AL20A	Aardwolf Automatic Slab Lifter	0 - 20		
AL30A		0 - 30		
AL50A		10 - 50		
AL60A		15 - 60		
AL75A		30 - 75		

Wide Jaw Slab Lifter

The Aardwolf AL30AWJ slab lifter is a versatile lifter with a wide jaw making it well suited for delicate materials such as porcelain, glass, marble etc.

Model	Product Name	Grip Range (mm)	Capacity (kg)	Brand
AL30AWJ	Aardwolf Slab Lifter Wide Jaw	0 - 30	1200

Scissor Clamp Lifters

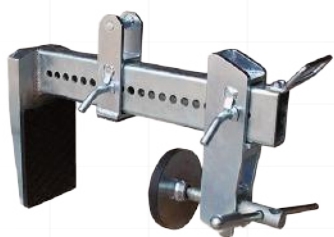

The gravity controlled scissor clamp by Aardwolf opens and close automatically as the load is lowered and lifted. Perfect for lifting marble and granite slabs, multi-slabs, tombstones, etc.

👑 Rubber pads prevent the material from chipping.

👑 Various sizes available.

Model	Product Name	Grip Range (mm)	Capacity (kg)	Brand
ASL105	Aardwolf Scissor Clamp	0 - 105	750	
ASL125		0 - 125	750	
ASL200		50 - 200	1000	
ASL300		150 - 300	1500	
ASL450		300 - 450	2000	

Tomb & Monument Lifters

A great accessory when dealing with stone monuments. This works with any lifting device and no straps are needed. Great clamping power!

Model	Product Name	Grip Range (mm)	Capacity (kg)	Brand
GPM1000	Aardwolf Monument Lifter	0 - 407	1000	

LARGE UK STOCK - CALL 0800 999 4758

Hand Clamps

Bohle

Hand clamps are perfect for moving sheet materials from A to B. They provide superior grip and allow two people to safely and securely transport materials. Carry clamps are lined with robust rubber pads to protect the material and avoid any slippage.

Various sizes available

Makes moving sheet materials easier and safer!

Model	Product Name	Grip Range (mm)	Capacity (kg)	Brand
SCC02	Stone Panel Carriers	0 - 52	150 / Pair	 AARDWOLF INDUSTRIES LLC
SCC03	Carry Clamps for Sheet Material	0 - 50	200 / Pair	
SCC05	Carry Clamp for Sheet Material	50 - 100	200 / Pair	
07.03.0010	Bohle Carry Clamp for Sheet Materials	0 - 40	160 / Pair	 Bohle

Carrymate® Transport Grips are used in pairs and each grip is capable of lifting up to 100 kg, which makes them suitable for moving a wide variety of materials. The point of contact to the material can be wherever it is most suitable for the user's height and the user's lifting arm and back remains straight.

Model	Product Name	Grip Range (mm)	Capacity (kg)	Brand
07.03.0020	CarryMate Single Handle	0 - 80	100kg / Pair	Carrymate
07.03.0022	XL CarryMate Single Handle	80 - 1600	100kg /Pair	
07.03.0023	TG-120 CarryMate Double Handle	40 - 120	100kg / Pair	

Vacuum Hand Cups

Vacuum hand cups are perfect for smaller jobs such as laying stone paving or tiles!

Wooden racks for all types of stone

The **efficient** and **affordable** solution for the **transport and storage of stone!**

With Deltarack's wooden racks, your stone transport becomes easier, cheaper, faster, and safer.

Thanks to our innovative modular concept and wide range of standard sizes, you can customize your transport racks perfectly to fit your slab materials. Our racks combine low weight with a considerable load capacity, making them ideal for the safe transport of large stone slabs.

Need a rack that you can easily move? Our optional wheel boards turn your static rack into a convenient, mobile A-frame cart for all your stone.

FB3LP-5420		2210 - 5410	800	Unextended - 2400 Extended - 300	

PICK THE RIGHT HOOK FOR YOU! - SEE PAGE 18

Forklift Extensions

A fast and efficient way of handling light bulk materials. Fork extensions are invaluable when loading or unloading material from a pickup truck. The fork extensions slide onto the forks and are secured with two bolts at the back of each fork pocket, behind the mounting studs. They are also held in place by a bolt that locks behind the existing fork blades.

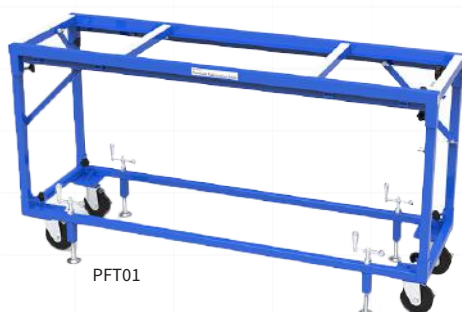

Various sizes.

Model	Product Name	Length (mm)	Brand
