Jubilee Auction # 250

Malmö

21–25 September 2026

Did you know?

"Arc de Triomphe"

During World War II stamp booklet essays were produced with the cover text "SPECIMENS OF SUPPLEMENTAL FRENCH POSTAGE STAMPS" containing ten panes of ten stamps in different values, from the set designed and printed for the use of a possible provisional French government. Each pane of stamps has large overprints in violet "SPECIMEN". In 1944 thirty-six booklets were pro-

duced by hand for archiving purposes only, some of them were sent for approval to the French Committee of National Liberation in Algeria. Stamps from the booklets sent to Algeria were used for philatelic souvenirs and the few surviving booklets were preserved in the USA. Just very few are known on private hands! They exist in two variations of the contents, both are offered here.

Front cover:

Print made by Remi Parr, 1743, British

"The taking of Porto Bello by Vice Admiral Vernon on the 22nd of Novr. 1739
with Six Men of War only"

Preface

It is a great honour for us to present the catalogue for this Jubilee Auction #250, thicker and more rich in contents than ever, resulting in a five-days auction for the first time in our history! Although we were equally proud of our auction catalogue #1, for the very first auction held in May 1970, we must conclude that today's technology has made studying the printed catalogue much more enjoyable. And as a supplement, today we also have the digital version.

When talking about jubilees we must mention that this autumn, it is twenty years since our first viewing and auction was administrated in "Öresundshuset", however the auction was still held at Hotel Savoy.

The offer this time is not only extensive, but also with a variety out of the ordinary. We often auction Swedish booklets because this is a popular collecting area. But the spectacular consignment of worldwide booklets entrusted us by a very astute philatelist, is something really out of the ordinary. Another very fascinating section is the Indian Jammu & Kashmir, it could entice us to start collecting this area... Please have a look, you won't regret it!

As usual we also offer several "Name Sales" from long-time clients & friends such as Ivar Sundsbø, Atle Fossmark and Leif Nilsson. We thank them all for the trust to let us handle their treasures. Our gratitude to the Brand family, Inga, Klas and Anna is immense, for entrusting us Erland's remarkable collection of Swedish philately & history. Presented here in a separate section on almost thirty pages.

As if this were not enough, we also enclose two separate catalogues. "Luxury of Finland" #249, as a continuation of all our previous Finland catalogues for the last few decades, starting with Gummesson part 1 in 2010. The other catalogue, "Connoisseur" II, is our second coin and banknote auction, largely originating from Gary T. Athelstan's collection.

You are all most welcome to an exciting auction period in Malmö in September!

Live Bidding

Take part in the Postiljonen Auction from your home!

Postiljonen now offers the choice of Live Bidding for all clients. This means you can bid on items in real-time during the auction, from your home at your computer, just as if you were in the auction room.

In order to participate as a Live Bidder in the auction you must have an account for the Postiljonen web catalogue. If you have previously submitted written bids through the web catalogue you already have an account, otherwise you can create an account at www.postiljonen.com

In order to be approved to bid live during the auction, you must also register as a Live Bidder and be assigned a bidder number. **This must be done before every auction.**

Once you have registered you will receive an email confirming that your request have been sent, but it is only when you receive a second email from us, where we have assigned you a bidder number, that you are ready to start bidding live.

If you have any questions or concerns, do not hesitate to contact us! More information is also available at www.postiljonen.com

As usual, it will of course be possible to submit written bids, bid by telephone or use an agent.

Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.

Extra scans on the web!

For every auction we publish thousands of extra scans on our website www.postiljonen.com including more or less all certificates of single items and a very large number of collections and lots are scanned in their entirety, further many others with selected pages/scans.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

More scans at cost

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

Due to time restrictions and limited availability of the lots due to ongoing viewings, we must restrict this service of making further scans on individual requests. In the cases time allows us to supply more scans we will charge for the costs of **€ 10 for each request (maximum 10 scans or photos)**

If more than 10 scans are requested, € 1 per scan will be added. **Must be paid beforehand by credit card, please go to “Payments” on our website.**

“Postiljonen Horses”

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

Worldwide Booklets

France & Germany

Austria -Switzerland - Denmark – Sweden –
Iceland – Norway - BENELUX etc.

Early and modern rarities!

Flabbergasting is an unusual, but perfect word, exactly fitting in the situation when we opened box after box with this incredible and spectacular collection of worldwide booklets. Countries issuing booklets in early years were quite limited, most of them are represented here.

This collection has been built during decades by a very astute philatelist, who also built numerous outstanding country/specialised collections, many complete (!), which we have had the pleasure of being entrusted to auction in later years.

With a special interest in booklets, he succeeded during the years to acquire an exceptional number of rarities of early booklets as well as many modern varieties and rarities. The most impressive areas are France with extreme rarities and in a specialisation of varieties that are almost unimaginable, Germany is equally well represented with all different areas and periods, Denmark with the interesting advertisement stamps, Sweden with an incredible section, early Austria, Belgium and Switzerland. All very specialised! Also smaller, but extremely interesting sections or collections from Canada, USA, Great Britain, Ireland, Greece, Luxemburg, the Netherlands, Iceland, Norway & Finland. All these items and collections, of which many are deeply specialised, will be offered under each country respectively.

We were extremely impressed by this collection, and we doubt that we will ever see something close to this. We hope that you will enjoy studying it as much as we did when describing and working with it.

The Ivar Sundsbø Gold Medal Collection

A.V.2. and Air Transit Markings on Airmail From 1937 Onwards

The well-known international judge and exhibitor Ivar Sundsbø has confided us his Nordic Gold awarded and outstanding collection of Airmail markings, including an overwhelming selection of various A.V.2 Markings as well as an amazing display of Hong Kong Air Transit Markings.

We thank Ivar for again entrusting us an exceptional collection. It is offered below in many very scarce and unusual single covers, representing these interesting and often very rare markings that he specialised in. Together with the covers, in all cases you are getting a copy of the exhibition page, with a lot of interesting information about rates, routes, postmarks, flights and often also historical information. These can also be studied on our website!

At the end the vast remainder of this exhibition collection will be offered, still with many rare items and of course all on the original pages. An occasion for the specialist or for someone who wants to take up this collecting theme and develop it.

We hope you will enjoy studying it and find something to your liking.

"Faroe Islands Postal conditions during W.W.II"

Part 1

Atle Fossmark

We are very proud to offer this outstanding collection, awarded multiple Gold Medals. Atle has during many years built an exhibit covering all aspects on postal history from these exciting years during WWII, with several unique and rare items. All his items are marked "Ex Fossmark" and presented according to the chapters used in Atle's exhibit.

Here you can read Atle's own words about the story of the building of his exhibit:

"I started collecting stamps as a young boy, the same did my friends. We collected stamps with bright colours and nice appearance. My friends stopped collecting, but I didn't. Soon I collected Norwegian stamps by the book, always looking for the stamps I was missing. When I came of age I became member of the local philatelic club, that is 50 years ago. In the club I had a mentor, introducing me to other areas of collecting and the provincial issues from the Faroe Islands, were very interesting. My mentor sold me (cheap) two envelopes, without addressee with the 50 on 5 øre and 60 on 6 øre, cancelled first day of use. That started my interest in Faroe Island postal history during World War II. During the 80's I was just accumulating and in 1994 I was ready for my first exhibition. Which my exhibit won. Since then, countless hours has been spent, browsing auction catalogues and web sites, searching for new items, and new information. And many hours spent in archives and harbour journals. During the years many new discoveries were uncovered, including new information for the exhibit. My exhibit has been shown many times at Nordic and international exhibitions, being awarded many Gold Medals. The last 10 years or so, it has been difficult to find new items or information that would improve the exhibit. Therefore, it is now the right time to let others have an opportunity to acquire new items for their exhibits.

"But I keep the two FDC envelopes of 50/5 øre and 60/6 øre as a memory."

Silhouette Issues

It is a great honour for us to present what is probably the best ever collection of these issues, built over a large number of years and exhibited on numerous occasions including at many NORDIA exhibitions. The last time at Huddex 2026.

The collection includes Jón Sigurdsson 1911, Frederik VIII 1912 as well as the surcharged stamps issued 1924-26 and Official stamps. It will be offered in single lots as well as remainder collections (lot # 1049-1094).

Leif Nilsson

Our friend Leif is a well-known collector and a great force in the Swedish society, "Islandssamlarna", member since 1968, member of the board and editor of the magazine "Rapport" 1992-2023. He has also handled their website, archive etc.

In 2024 he was chosen as Islandssamlarna's 10th Honorary Member.

Leif started collecting the Silhouette issues in 1983 and included all aspects of the area, such as plate flaws and other varieties, postmarks including a large number of ship, and foreign cancellations as well as a great variety of covers. In later years he has reached the point when no more material, for expanding the collection, is available and has therefore decided that the time has come to let someone else enjoy these items, of which many have been locked up for decades.

Gold Medal Collection

"Swedish Prephilately 1558 onward"

EXCELLENCE IN PHILATELY

III

Gold Medal Collection
Swedish Prephilately 1585 and onwards
Erland Brand

SilverPostiljonen VÄST 78, Göteborg
SilverPostiljonen GOTHEX 85, Göteborg

Foreword

Erland Brand had, like most boys at that time, started to collect stamps in the normal “schoolboy” way. His more advanced interest in philatelic collecting started when he, still at a young age, was shown an old cover without stamps, but with beautiful handwriting. A very good friend of Erland in Arvika, where he was born and grew up, had found it in an old building under a floor and asked if he was interested. Erland asked for the price and bought it immediately. This was the start of a long and successful journey in the prephilatelic world.

He started to look for more old covers by visiting dealers, stamp exhibitions and auctions on the hunt for rare and special items, but like the artist and skilful painter he was, always following his aesthetic heart. Beauty was the strongest argument for him to acquire new covers and documents.

Personally, I was always very impressed when I saw his collections at exhibitions, by the contents, but even more by the quality and beauty. I remember sometimes thinking, how is it possible to put all this together?

When he started to exhibit in the 1970s, the success came quickly and was extremely well deserved.

Erland is one of few exhibitors who was twice awarded “The Silver Postiljon” trophy, the most prestigious award at Swedish exhibitions. That was in 1978 and in 1985. The year after he was awarded Gold Medal at the International World Exhibition STOCKHOLMIA 86 and in 1992 the Swedish Philatelic Federation assigned him their highest recognition, the Strandell Medal.

Erland and his wife Inga, who always joined him on his philatelic trips, were very welcome and recurring visitors at the Postiljonen auctions. Their friendliness was highly appreciated, especially at various social events, not only by us, but by everybody around them.

His collection was, of course, rearranged between exhibitions, as he had many more items than he was allowed to exhibit. In this book we have chosen what mainly represents his eight-frame exhibit. For the auction of his whole estate, we have produced a special section in the catalogue, where everything from his collection is described and offered. More or less all pages will be shown on our website before and during the auction period. That gives you the possibility to study it all.

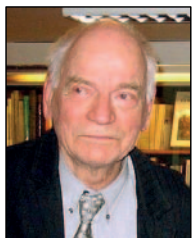

You will find many fascinating items like the letter with full contents from 1612 signed “Gustavus Adolphus” (Gustav II Adolf) and another signed by Duke Bernard of Saxe-Weimar and written 4 October 1631, when he accompanied King Gustav II Adolf on his march to the Rhine. Duke Bernard was the one who took command of the Swedish army after the King was killed at Lützen and secured the Protestant victory. These are documents of historical importance far above the philatelic.

There are numerous feather covers in various shapes, colours, and number of feathers, often the quality and beauty are overwhelming. This was the way to tell the courier or the postman that the letter was urgent, often in combination with various threats on the front, explaining the consequences of delays.

Finally, I want to thank the Brand family, Inga, Klas and Anna for their trust and for allowing us this great pleasure that it means to my colleagues and me, to handle this remarkable collection of Swedish philately and history.

Claes Arnrup

The Friend

E. Brand

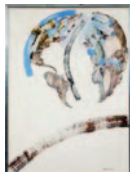

Erland Brand, acclaimed as one of Gothenburg's great artists. He was born in Arvika in 1922, moved to Gothenburg where he met textile artist Inga. They married in 1954 and have two children, Klas and Anna, who each have 2 children, as well as 4 great-grandchildren.

Erland was a fantastic person whom I had the privilege of being very close to since childhood. A harmonious man with a sharp intellect and always with a smile on his face. My parents, Margareta & Lago, were best friends with Inga & Erland and our families spent a lot of time together. There are countless memories of Christmases, birthdays, crayfish parties and summers spent with us in Särö and them in Dalen. It was easy to be friends with Erland who was natural, caring and happy. The friendship has now been passed down to the next generation as his son Klas and I are also very close friends today.

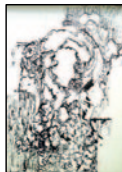

Two important areas united dad and Erland, namely philately and modern art. Within philately, Erland is known for his fantastic collection of swedish pre-philately, one of the best collections ever presented in that category. He was a passionate philatelist and historian, and he saw the beauty in the exquisite manuscripts, crown seals and feathers of the time, and became a recognized expert in the subject. In 1974, he wrote, among other things, the book "Bland kronor, slingor och fjädrar".

Landscape

Space

Drawing

Self-portrait

But he is of course best known for his artistry, as one of the great Gothenburg colorists. He had the talent already in his genes from his father and developed it further at Valand Art School in 1947, where he also became teacher in 1963. He worked first and foremost with graphics and oil, which he unfortunately had to stop using in 1968. Thereafter he focused on watercolor, drawing (skraffering), ink and collage. He also made many fine public tapestries together with his equally talented wife Inga. Within modernism, his artistic periods have ranged from Landscape, Space to Drawing and Self-Portrait.

Erland participated at a large number of solo- and group art exhibitions, both nationally and internationally. The most recent was a solo exhibition in 2014 at Gothenburg Art Hall with over 300 self-drawings and 130 paintings. Erland passed away in 2020 at the respectable age of 98.

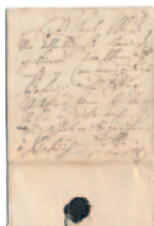

One of Erland's most appreciated paintings from the modernism era in the 50's. The painting was a gift from Erland to my mom and dad. However, it has now, after 70 years, been reunited with the family as a gift from me to Klas.

Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Shipping cost (minimum €30 outside of Sweden), insurance and charges on credit card payments will be added.
Exception: Only 20% commission, excl. Swedish V.A.T., only for
 - a. Export to countries outside of EU.
 - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

0 – 200€ 10€	1.000 – 3.000€ 100€	10.000 – 30.000€ 1.000€
200 – 500€ 20€	3.000 – 5.000€ 200€	30.000 – 100.000€ 2.000€
500 – 1.000€ 50€	5.000 – 10.000€ 500€	100.000€ – 5.000€

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone, fax or through internet live-bidding. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5a, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of 10€. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 5b, Any fees imposed by the carrier or customs authorities on Postiljonen as a result of the buyer's failure or refusal to pay applicable duties or taxes shall be invoiced to the buyer, who shall be liable for full payment of such fees.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
- 9, Swedish law is applicable.

Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.

3. Avgivet bud är bindande och budgivaren är personligt ansvarig för samtliga av honom gjorda inrop. Annullering av bud kan ej ske, såvida den inte är oss tillhanda senast samtidigt med buden. Vid bud för annans räkning ansvarar budgivaren för att försäljningsvillkoren uppfylls, som vore det eget bud. Budgivaren är också ansvarig för av honom gjorda fel i auktionsuppdraget. Likaså vid obekräftade telefon- och faxbud, eller genom internet livebudgivning, svarar budgivaren för ev. fel och missuppfattningar.

4. Auktionsuppdrag behandlas så omsorgsfullt som möjligt, dock utan några andra åtaganden från auktionärens sida. Auktionären äger rätt att ej godtaga bud, samt att dra tillbaka, omgruppera eller dela objekt. Auktionären har också rätt att avvisa personer från auktionen och avböja bud utan att ange skäl härför. Han förbehåller sig rätten att vid missförstånd eller meningsskiljaktigheter utlysa ny budgivning. Vid två eller flera lika bud på samma objekt från uppdragsgivare, tillfaller objektet den som först inkommit med bud. Vid auktionsuppdrag kan reservobjekt medtagas, eller också kan den totala köpesumman begränsas till visst belopp.

5a. Betalning sker kontant, mot postförskott eller mot förskottsfaktura. Objektet förblir säljarens egendom tills full likvid erlagts. Likvid skall erläggas inom 8 dagar från fakturadatum. Vid senare betalning debiteras ränta med 2% per påbörjad månad, räknat på fakturabeloppet, samt kravavgift med 10€. Dessutom kan ytterligare kravkostnader tillkomma. Har likvid ej inkommit 30 dagar efter fakturadatum eller om köparen vägrar betala, kan objektet utan ytterligare meddelande säljas på köparens bekostnad.

5b. Avgifter som påförs Posttjänsten av transportör eller tullmyndigheter till följd av att köparen inte betalt tillämpliga tullar eller skatter kommer att faktureras köparen, som är betalningsansvarig för dessa avgifter i sin helhet.

6. Objektet är omsorgsfullt beskrivna, dock kan smärre fel förekomma. Ev. reklamation måste göras senast 10 dagar efter det att objektet levererats. Vid all korrespondens bör fakturanummer anges. Vid godkänd reklamation återfår köparen auktionspris plus provision och eventuell moms. Rantegottgörelse kan ej påräknas.

7. Begäran om förlängd reklamationstid för att köparen önskar sända objekt för expertundersökning, måste ske omgående och inom 8 dagar efter mottagandet av objektet. Experten måste godkännas av auktionären. Auktionären kan vid reklamation kräva intyg från en opartisk, välkänd expert. Objekt med äkthetsintyg kan, om auktionären så anser befogat, och om det ursprungliga intyget är utfärdat av en godkänd expert, endast returneras om minst två opartiska och välkända experter har en avvikande mening. Defekter synliga på foto (klippning, tandning, centering, stämpling etc.) kan inte ligga till grund för reklamation. Reklamation kan ej heller ske om objekt eller märke förändrats genom någon slags behandling. Objekt innehållande fler än 3 märken kan inte returneras på grund av smärre defekter på enstaka märke. Stora objekt kan innehålla både stämplade och ostämplade märken. Samlingar, partier, massvara, kilovara etc., säljes i befintligt skick och kan inte returneras. En differens på 10–20% måste kunna accepteras av köparen.

8. Avgivande av muntligt bud eller auktionsuppdrag innebär godkännande av ovanstående villkor.

9. Svensk lag gäller.

Katalognummer och -värden är hämtade ur FACIT för Norden samt MICHEL för alla andra länder och områden, om inget annat anges.
