Design for life.

Laminex® has been part of Australian life for over 90 years. Our commitment to design, innovation, quality and sustainability endures. That's why we continue to produce a beautifully curated collection of decorative surfaces. They're perfect for a wide range of styles and applications to help create inspiring spaces for everyday living.

Navigating the range.

We know design decisions can be challenging, so to help make things easier we have brought together a timeless range of Mineral laminates that are split into three categories – Veins, Aggregates and Concretes.

Veins

From subtle to dramatic veining, our marble inspired décors range from delicate to larger designs using our Laminex TrueScale™ décors, adding sophistication to any space.

Aggregates

Inspired by natural stone, quartz and terrazzo styles, the range extends from ultrafine granular detailing to strong, statement-making designs.

Concretes

Polished and unrefined, concrete décors range from smooth and sleek surfaces to weathered and textural styles.

Laminex® laminates combine timeless and contemporary colours and finishes with the durability to service demanding interior environments. They're hardwearing and rigorously tested to ensure that they satisfy Australian standards for surface materials.

Laminex® Finishes.

The Laminex Minerals are available in a range of products and finishes for various applications. Here's a guide to each of the laminate finishes:

Natural Finish

A low sheen, smooth touch surface that is a durable and low maintenance option for benchtops and cabinetry.

DiamondGloss® Finish

A stunning high gloss benchtop surface, polished to perfection giving it a brilliance that is both striking and refined.

Laminex TrueScale™

Laminex TrueScale™ is a celebration of scale and stone. In a market first, slabs of immense size have been reproduced and printed without repeat, down to the smallest detail.

Island benchtop: **Laminex HPL Calacatta Majore Truescale™**, and Cabinetry: **Laminex Decorated MDF Calm White**.

Aggregates.

Varying colour, contrast and particle size can radically alter the look and visual appeal of aggregate style surfaces. Strong flecks and vivid tones create a contemporary mood while softer hues with subtle aggregation deliver a calm aesthetic.
