PERFORMANCE

REFINED PERFORMANCE TO GO FARTHER AND EXPERIENCE MORE

The Mazda CX-50 Hybrid delivers increased fuel efficiency and greater driving range over the CX-50 2.5 S and 2.5 Turbo models while also delivering the unique driving dynamics that people expect from a Mazda Crossover SUV.

DYNAMIC DRIVING MEETS HYBRID EFFICIENCY

The powertrain package of the CX-50 Hybrid – a 2.5-liter naturally aspirated four-cylinder engine, electric motors, hybrid EV battery pack, e-CVT, and e-AWD – has been meticulously engineered to ensure it delivers Mazda signature driving dynamics.

CRAFTED FOR YOUR JOURNEY

e-AWD

Electronic All-Wheel Drive helps keep you confident at every turn of your drive. By controlling power to the front and rear wheels independently, any loss of traction in the front wheels can be met with more power going to the rear wheels.

Drive Modes

Mazda Intelligent Drive Select (Mi-Drive) lets you instantly choose Power mode for extra acceleration or Trail Mode for more gripping traction. When life calls for more, the Mazda CX-50 Hybrid answers.

Fuel Efficiency

Whatever you choose to do, do more of it. With an EPA-estimated 38 MPG combined⁶, the CX-50 Hybrid lets you keep discovering what's beyond the next horizon.
