FAQs 63

Welcome

At Kendal College you'll find more than qualifications.

You'll find opportunities, experiences, friendships and the confidence to become **who you want to be**.

Whether your goal is university, an apprenticeship, employment or something you haven't discovered yet, we're here to help you get there.

Whatever **your future** looks like, it starts somewhere.

Start it here.

Jason Turton
Principal

Study somewhere extraordinary.

Choosing a college is about more than a course. It's about finding a place where you can grow, discover new opportunities and enjoy every part of student life.

Situated on the edge of the Lake District, Kendal offers an inspiring place to live, learn and achieve. Whether your goal is university, employment, an apprenticeship or something you haven't discovered yet, you'll be part of a town known for creativity, opportunity and ambition.

Everything is within easy reach. Our three campuses are connected by the heart of Kendal, putting cafés, shops, culture, sport, transport links and green spaces right on your doorstep.

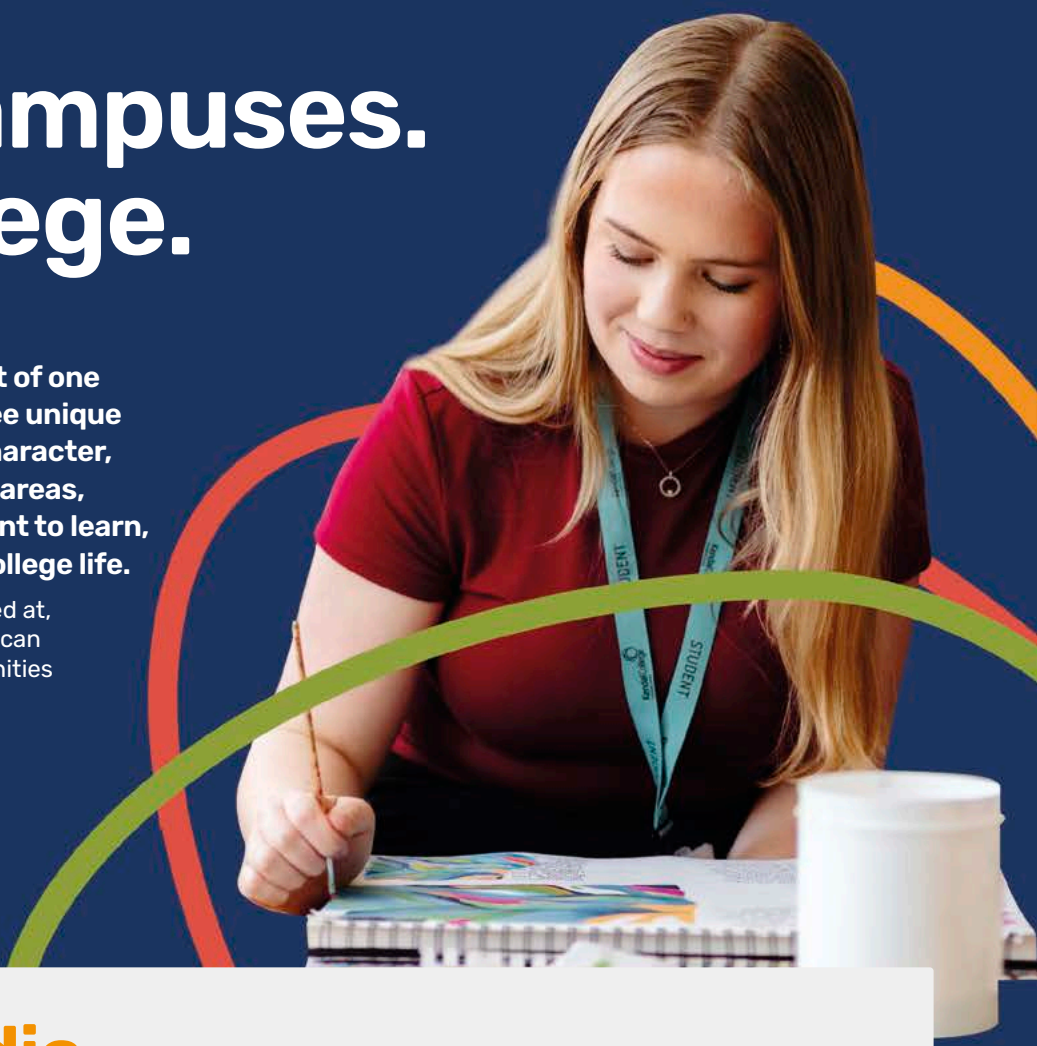

From local employers and industry placements to festivals, creative projects and community partnerships, you'll have opportunities to gain real experience, build confidence and develop the skills employers and universities are looking for.

Kendal combines the energy of a thriving town with the space to think bigger, try new things and find your own path.

Three campuses. One community. Endless opportunities.

02

Three campuses. One College.

At Kendal College, you'll be part of one college community across three unique campuses. Each has its own character, specialist facilities and course areas, giving you the right environment to learn, develop your skills and enjoy college life.

Whichever campus your course is based at, you'll be a Kendal College student and can access facilities, support and opportunities across the college.

Arts & Media Campus

➤ A creative space for ideas, performance and production

Our Arts & Media Campus is home to our creative courses, bringing together specialist studios, workshops and performance spaces where you can develop your ideas, collaborate with other students and work on practical projects.

➤ Facilities

The campus includes art and design studios, Mac suites, digital art facilities, photography and textile spaces, recording studios and sound booths, dance and rehearsal spaces, and specialist theatre and technical facilities. Students can also access careers, inclusion, safeguarding and wellbeing support on campus.

The Box is our dedicated performance venue, while the Wildman Gallery & Studios provides additional creative, exhibition and performance spaces.

Courses based here

Art & Design • Games & Concept Art • Music Performing Arts • Theatre Event Technology & Stage Management • Film Production • English & Maths Photography

Milnthorpe Road Campus

➤ Hands-on learning in industry-standard facilities
Our largest campus is home to many of our technical, practical and professional courses. The focus is on learning by doing, with specialist facilities designed to give you experience of the environments, equipment and technology you could encounter in your future career.

➤ Facilities
These include our £3.4 million Engineering & Construction Block with CNC and 3D printing workshops, electrical lab and maker space; hybrid and electric vehicle workshops and our Animal Rescue Centre. The campus is also home to the House of Hair & Beauty, The Restaurant, café and Learning Centre. Students can also access careers, inclusion, safeguarding and wellbeing support on campus.

Courses based here
Agriculture • Animal Care • Hairdressing & Barbering • Beauty Therapy • Construction Skills Engineering • Foundation Learning • Hospitality & Catering • Motor Vehicle • Sports & Outdoor Adventures • Uniform Services • English & Maths

Westmorland Campus

➤ Modern learning in the heart of Kendal
Our town-centre campus offers a bright, contemporary environment with shops, cafés and transport links right on the doorstep. Following significant investment and refurbishment, Westmorland Campus combines modern classrooms and specialist teaching spaces with areas to study, meet friends and spend time between lessons.

Each area of learning has its own dedicated hub, creating a welcoming space where students can connect with others, feel part of a community and develop a sense of belonging.

➤ Facilities
The campus offers modern classrooms, specialist teaching rooms including science labs, dedicated study spaces and a large central atrium with areas for socialising and informal learning.

From September 2027, students will also benefit from new facilities, including a dedicated Business suite, a Creative Arts performance space and specialist Health and Early Years training environments.

These include a simulated hospital ward equipped with NHS beds, hoists and clinical training equipment, allowing students to develop practical skills and confidence before entering healthcare settings.

A purpose-built nursery environment will provide opportunities for Early Years students to plan and practise activities, create displays and learn alongside visiting teachers and industry practitioners.

Students can also access careers advice, inclusion, safeguarding and wellbeing support on campus.

Life at Kendal College

More independence. New experiences.

Your college life

College is different from school. There are no bells and no uniform, and you'll have more independence to manage your own time, explore your interests and take responsibility for your future.

But college life is about much more than lessons. It's a chance to meet new people, try new things, build your confidence and gain experiences that will stay with you long after college.

Get involved

There's plenty happening outside the classroom. Take part in clubs, societies and enrichment activities, become a Student Ambassador, have your say through Learner Voice or put yourself forward as a Student Governor.

Whether you want to try something new, meet people who share your interests or add valuable experience to your CV, there are lots of ways to get involved.

Clubs & societies
Sport
Creative activities
Student events
Volunteering
Student Ambassadors

Enjoy your independence

College gives you more freedom to manage your own time. Between lessons you can study, catch up with friends, use facilities across our campuses or head into Kendal.

You'll have the independence to make college life your own, while still having support around you when you need it.

Support when you need it

Being independent doesn't mean doing everything on your own. Your tutors will support you with your studies and progress, while our wider college teams are here to help with wellbeing, additional learning needs, careers and planning your next steps.

Whatever you need to succeed, there are people here to support you.

Find out more about student support

kendal.ac.uk/life-at-kendal-college

Build your future

Your time at college is about preparing for what comes next as well as gaining a qualification.

You'll have opportunities to develop skills and experience through work and industry placements, careers support, CV and interview preparation, university applications, volunteering and student leadership.

It's all part of helping you leave college ready for your next step.

"I really enjoyed my time at Kendal College. The supportive lecturers and adult learning environment helped me achieve the A*s I needed for university, while also making lifelong friendships. The town-centre campus was convenient and well connected. I couldn't recommend the college more highly".

Em Fenton, A-Level Student
Art & Design, Maths, Physics & Psychology

Results that open doors.

Kendal College students continue to achieve exceptional results, progressing to university, apprenticeships, employment and further study.

In 2026, our students achieved 416 high grades across academic and technical qualifications, reflecting the hard work, ambition and determination of our learner community.

Whether your goal is university, a higher or degree apprenticeship, employment or further study, we'll help you develop the skills, confidence and experience to take your next step.

With expert teaching, industry-focused learning and dedicated support - you'll be encouraged to aim high, explore your ambitions and achieve your personal best.

Ofsted recognises our progress, culture and learner experience

Following our latest Ofsted inspection in March 2026, Kendal College was judged to be meeting the expected standard across all areas, with safeguarding standards also met.

Inspectors recognised the progress made across the College, including teaching and learning, learner support, leadership and the quality and relevance of our curriculum.

Most importantly, the report reflects the experience of our learners and apprentices — learning in welcoming environments, supported by knowledgeable tutors and encouraged to develop the skills and confidence they need for their future.

"Learners and apprentices value being taught by knowledgeable tutors in welcoming environments."

Ofsted, March 2026

Your Options After Year 11

Which route is right for you?

A Levels & AAQs

Kendal College SIXTH

Study at KC SIXTH

A flexible academic programme that can prepare you for university, higher apprenticeships and employment.

Level 3

- Typically study 3 A Levels, with the option of a fourth for some students
- A Levels are assessed through exams
- AAQs can be studied alongside A Levels
- AAQs include coursework-based assessment

Best for: Students who enjoy academic study and want to keep their future options open.

V Levels at KC SIXTH

NEW FOR 2027

Kendal College SIXTH

A new vocational pathway for ambitious students.

V Levels are new Level 3 qualifications that sit alongside A Levels and T Levels, combining specialist subject knowledge with practical, applied learning.

At KC SIXTH, V Levels give you another way to follow your interests and prepare for university, higher-level study, apprenticeships or skilled employment.

Subjects available in 2027:

- Accountancy & Finance
- Digital Systems & Data
- Education

Best for: Students who want a Level 3 qualification combining specialist knowledge with practical and applied learning.

T Levels

T-LEVELS

Learn in college and the workplace

Technical qualifications combining classroom learning with substantial experience in industry.

Level 3 • Equivalent to 3 A Levels

- 80% classroom-based learning
- 20% industry placement
- Minimum 45-day placement
- Designed with employers and focused on your future career

Best for: Students who have an idea of the industry they want to work in and want a mix of technical learning and real workplace experience.

There's more than one way to reach your future. Whether you prefer academic study, practical learning or getting straight into the workplace, we'll help you find the route that suits your ambitions and the way you learn.

Professional & Technical Courses

Learn by doing
Develop practical skills and specialist knowledge for a particular career or industry.

Levels 1–4
- Combine practical and academic learning
- Learn in specialist, industry-focused facilities
- Progress through different qualification levels
- Level 3 two-year programmes can be equivalent to 3 A Levels

Best for: Students who prefer practical learning and want to develop skills for a particular career or industry.

Apprenticeships

Earn while you learn
Become an employee, earn a wage and develop your skills through a combination of work and training.

Levels 2–5
- Full-time employment
- Dedicated training as part of your apprenticeship
- Earn a wage and receive paid holidays
- Gain skills and experience in a real workplace

Best for: Students who are ready to enter the workplace and learn on the job.

Not sure yet? That's ok.

You don't need to have your whole future mapped out at 16. Explore your interests, talk to our team and discover the different routes available to you.

Explore careers and your options

Your Bright Future
yourbrightfuture.kendal.ac.uk

What level will I start at?

You don't need to work this out on your own. The right level will depend on your previous qualifications, experience and chosen course. Our team will help you find the right starting point and pathway to help you progress.

Check individual course pages for entry requirements.

Your course is just the beginning.

Kendal Alumni
CONNECT | GROW | GIVE BACK

There isn't one route to a successful future. The skills, experiences and confidence you gain at Kendal College can open doors you might not have considered yet.

Our former students have gone on to universities, careers, businesses and opportunities across a huge range of industries. Some follow the path they always imagined. Others discover completely new ones along the way.

Georgie Buckland

Performing Arts Alumni

Georgie studied Level 3 Performing Arts at Kendal College before progressing to the Royal Conservatoire of Scotland and beginning her professional acting career.

Most recently, Georgie starred as Andy Sachs in Elton John's The Devil Wears Prada and as Andie in Mean Girls.

PERFORMING ARTS > ROYAL CONSERVATOIRE OF SCOTLAND > PROFESSIONAL ACTOR

"I would never have gotten to this point in my career without Kendal College and the wonderful teachers who guided me to where I am now.

I am living my dream of being a professional actor and I am forever grateful I made the decision to study at Kendal College. I wouldn't change it for the world."

Becky Swallow

Beauty & Art & Design Alumni
Becky Swallow Photography

Becky began at Kendal College studying Beauty Therapy before a change in circumstances led her to discover a passion for photography.

She went on to study Photography and now runs Becky Swallow Photography, as well as working as a freelance photographer for Horse & Hound magazine.

BEAUTY > PHOTOGRAPHY > BUSINESS OWNER & PROFESSIONAL PHOTOGRAPHER

"It doesn't matter if you have it all mapped out or not, life can have other ideas and things can change."

Lauren Domville

Music Alumni
Tour & Production Management/ Sound Engineer

Lauren has toured and worked with the likes of: Annie Mac, Bicep, Avatar, Metallica, Dizzee Rascal, Sub Focus, Paul Heaton & at festivals Parklife, Kendal Calling, Boardmasters & Lost Village.

MUSIC > UNIVERSITY - SPIRIT STUDIOS, MANCHESTER > TOUR & PRODUCTION MANAGEMENT > SOUND ENGINEER

"I would say if you are considering a career in the music industry in any way, it is an absolute no-brainer to choose Kendal College. It is the best stepping stone to progress into the industry, and the quality and care of the tutors, who actually want to see each student thrive, is the best support you can ask for!"

Where will your story take you?

A Levels at KC SIXTH.

Campus: Westmorland Campus

More than a sixth form. A place designed for ambitious students.

At KC SIXTH you'll find more than A-Level qualifications. You'll discover a supportive, ambitious learning environment where you can achieve your academic goals, develop your independence and prepare for whatever comes next.

Choose from a wide range of A-Level subjects, with opportunities to explore additional qualifications, enrichment activities and professional pathways that reflect your interests and ambitions.

With experienced teachers, personalised support and our newly refurbished Westmorland Campus, you'll have the space, confidence and opportunities to make your future your own.

Your future.
Your space.
Your KC SIXTH.

Kendal College SIXTH

Why study with us?

➤ **A-Levels Plus: more choice, more opportunities**
Build a study programme around your ambitions. Most students choose three A-Levels, with options to study a fourth qualification or enrich their programme through Core Maths or the Extended Project Qualification (EPQ). Our expanding KC SIXTH offer also includes new V Levels and opportunities to explore professional and technical pathways.

➤ **Your ambitions. Our support.**
At KC SIXTH, you're more than a number. Our experienced teachers take the time to understand your strengths, support your progress and help you achieve your ambitions. From academic guidance and study skills to wellbeing and future planning, you'll have access to the support you need to succeed.

➤ **Your space. Your independence.**
Enjoy a more independent, university-style learning environment at our newly refurbished Westmorland Campus. At its heart is our new KC6 Atrium, a dedicated sixth-form space for independent study, socialising, collaboration and preparing for your next steps.

➤ **Expert teaching. Ambitious learning.**
Learn from experienced, highly qualified teachers who are passionate about their subjects and your success. Through engaging lessons, discussion, research and collaborative learning, you'll develop the knowledge, critical thinking and independent study skills needed for higher education and beyond.

Courses
A Level & AAQ subjects

- Art & Design
- Biology
- Business
- Chemistry
- Criminology*
- Dance
- Drama & Theatre
- Economics
- English Language
- English Literature
- Engineering AAQ

- Health & Social Care AAQ
- History
- Law
- Mathematics
- Music
- Philosophy
- Physics
- Photography
- Politics
- Psychology
- Sociology

Additional study options: Core Maths and Extended Project Qualification (EPQ)

*Criminology is equivalent in size and value to an A-Level qualification.

Entry criteria

You will normally need a GCSE grade 6 or above in the subject most relevant to your chosen A-Level. For Mathematics and Further Mathematics, the minimum GCSE grade is 7.

You will also need at least four other GCSEs at grade 5 or above, including English and Maths.

Please visit our website for full entry requirements. If you have a non-standard educational background, contact our team for advice.

"Studying in Kendal has given me such a great opportunity to balance my education with my social life. There are so many places to visit and study both with friends or independently, the possibilities are endless. Plus, only being a short train ride from two universities provides such an advantage for social studying, this benefitted me hugely during exam season."

Niamh Holliday
A-Level Alumni

T-LEVELS | Kendal College

T Level qualifications are designed to give you a head start towards the future you want. They follow GCSEs, are equivalent to three A Levels and combine classroom learning with valuable experience in the workplace.

The two-year qualification brings classroom and work placement together on a course designed in collaboration with employers, helping you develop the knowledge, practical skills and experience needed for your future career.

80% CLASSROOM

20% WORKPLACE

80% of your time will be in the classroom and 20% on a 45-day placement to equip you with the knowledge and skills companies are looking for.

Your T Level will help you to step straight into your chosen career, an apprenticeship or a degree.

Wherever your future is heading, take it to the next level.

Why study with us?

➤ **Learn in the classroom and the workplace**
Spend 80% of your time learning in college and 20% completing a 45-day industry placement, putting your knowledge into practice in a real working environment.

➤ **Gain valuable industry experience**
Your placement gives you the opportunity to experience the workplace, develop practical skills and understand what employers are looking for.

➤ **Develop specialist knowledge and skills**
Build the technical knowledge, practical skills and confidence you'll need to progress in your chosen industry.

➤ **Prepare for your next step**
Your T Level can help you progress into skilled employment, an apprenticeship, higher-level study or a degree.

➤ **Learn in industry-focused facilities**
Develop your skills using specialist facilities and equipment designed to reflect professional working environments.

T Level courses in:

- Agriculture
- Animal Management
- Business Management
- Education & Early Years
- Engineering
- Health and Social Care

kendal.ac.uk/T-Levels

Degree-level courses with Kendal Higher.

Kendal Higher

We offer a range of higher-level qualifications, with full-time and part-time study options designed to help you develop specialist skills, advance your career or progress to further study.

Engineering, HNC (HTQ)

We offer two Higher Technical Qualifications (HTQs) in engineering: Manufacturing Engineering and Electrical & Electronic Engineering. They include an enhanced work-related curriculum, mapped to Level 4 apprenticeship standards. HTQs equip students with the right skills and competencies for the workplace or progression to further study.

Digital Film Production for the Creative Industries, Level 4 New for 2027!

This one-year course prepares you for a career in film and digital content production across a range of creative industries. You'll gain hands-on experience in filming, directing, editing, cinematography and post-production. Learn industry-standard software including Adobe Premiere Pro, After Effects and DaVinci Resolve. Work with professional cameras, lighting and audio equipment while building a portfolio of industry-ready projects. A strong foundation for higher education in Film Production, Media, Content Creation or Digital Storytelling.

Music Production for the Creative Industries, Level 4

This one-year course prepares you for a career in music production and sound design, both studio and live. You'll gain hands-on training in recording, mixing, and electronic music production. Learn industry-standard software: Logic Pro, Ableton Live, and Pre-Sonus Studio One. Work with professional hardware and develop high-level, industry-ready skills. A strong foundation for higher education in Music Production, Sound Engineering, or Live Event Management.

Outdoor Adventure, HNC/HND

Equivalent to the first two years of a degree, this course offers £1,000 towards NGB qualifications to support career progression in the outdoors.

Professional Diploma In Performance, Level 4

This intensive one-year course prepares you for drama school auditions, professional performance careers, or developing your own theatre practice. You'll train as part of a small-scale theatre company, creating, rehearsing and performing original and established work. Develop advanced skills in acting, devising, movement, voice and performance-making while building confidence, creativity and professional practice. Delivered over three days per week, the course provides a strong foundation for higher education, conservatoire training or careers in theatre, performance and the wider creative industries.

We also offer:

- **Higher-level apprenticeships**, e.g. Assistant Farm Manager, Level 4
- **Part-time professional courses**, e.g. AAT Accountancy

Apprenticeships.

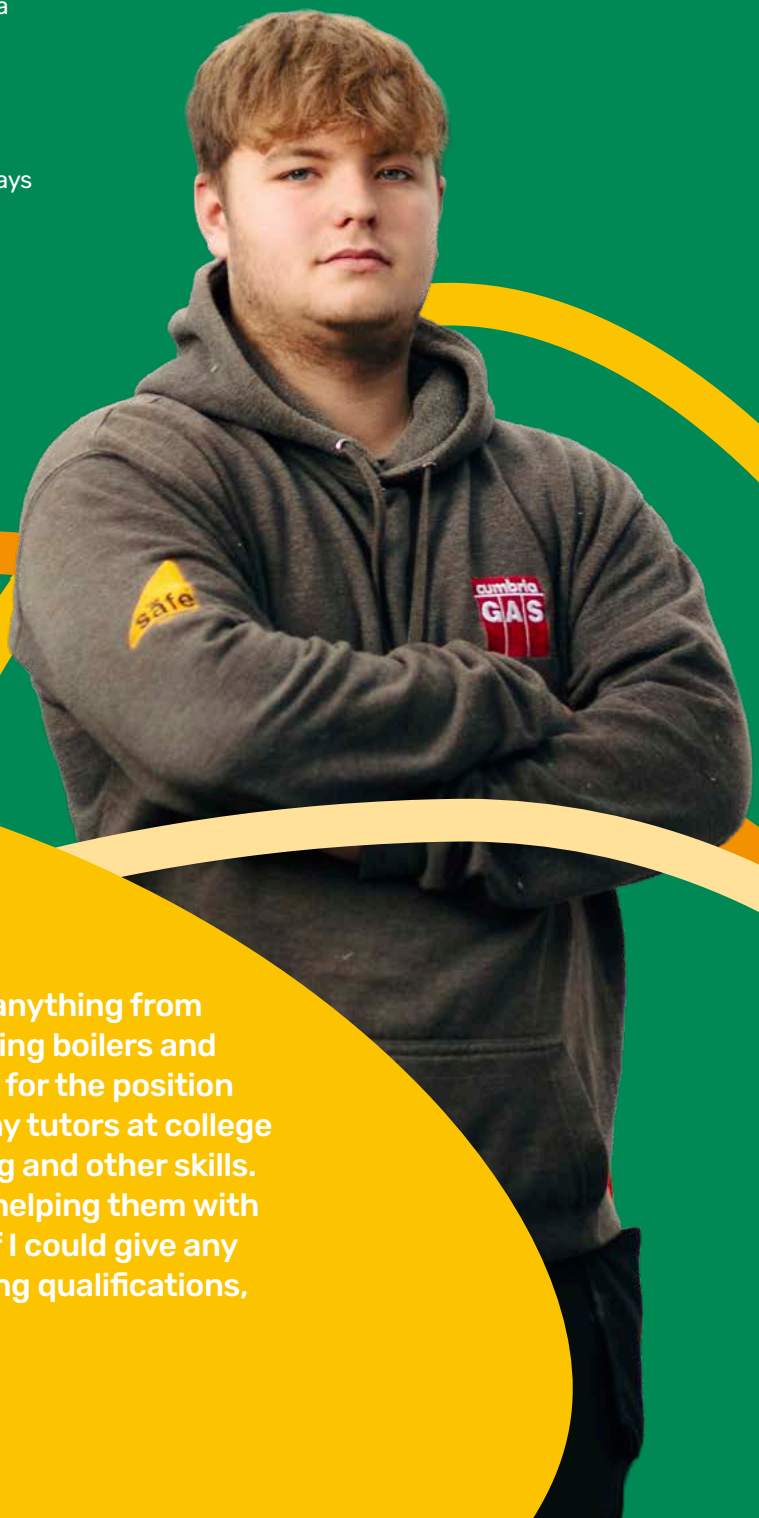

An apprenticeship is a job with training, giving you the opportunity to earn a wage while developing the skills, knowledge and experience you need for your career.

At Kendal College, we offer a wide range of apprenticeships and work with employers across Cumbria and beyond. The right apprenticeship for you will depend on your skills, interests and experience.

You'll need to be employed before you can start your apprenticeship, but our team can help you search for opportunities and take your first steps into the workplace. The application process for apprenticeship jobs is different for each business. We can give you information, advice and guidance to help you find opportunities and make a successful application.

Why study with us?

- **Earn while you learn**
  You'll be employed, earn a wage and receive paid holidays while working towards your apprenticeship.
- **Gain real workplace experience**
  Develop job-specific skills by working alongside experienced colleagues and putting your learning into practice every day.
- **Training alongside your job**
  Combine your workplace experience with dedicated training to develop the knowledge and skills required for your chosen career.
- **Dedicated support**
  Receive regular monitoring, guidance and support from our experienced lecturers and apprenticeship team throughout your programme.
- **Progress your career**
  With apprenticeship training available from Level 2 to Level 7, there are opportunities to progress to higher apprenticeships and degree-level study.
- **Find the right opportunity**
  If you haven't found an employer yet, you can join our Talent Pool to receive personalised updates about relevant apprenticeship vacancies.

"There is all sorts of work that we can do, anything from plumbing and bathroom fittings to servicing boilers and fires. I felt like college set me up very well for the position I'm in now. I was very well supported by my tutors at college where I developed soldering, pipe bending and other skills. Day-to-day I'm meeting new people and helping them with their problems which is very rewarding. If I could give any advice to people looking to get engineering qualifications, I'd say work hard and you'll get there."

Adam Baxter
Gas & Plumbing Apprentice, Cumbria Gas

"I really love the job, I love that every day is different, and no day is the same, we're never sat down doing nothing. I would really like to stay on at the school and continue to work here. We run the breakfast and after school clubs for the children. During the day, we're able to put what we've learnt at college, about the different areas of development, into the activities we do with the kids. It's so nice to come to work and really enjoy it."

Bella Berriman
Early Years Apprentice
Castle Park School

"The hospitality apprenticeship has had a noticeable impact on each individual's growth, not just in terms of skills but also in confidence. Many of them have taken on new responsibilities and are showing clear potential for progression within the company. We're seeing them develop into more well-rounded professionals, capable of handling more complex tasks. The skills they're learning are highly relevant and align well with what we need to drive the business forward. We couldn't be happier with the support and communication we receive from the college, especially from their tutor who is fantastic."

Maria Boyd
HR Manager
Lake District Hotels

Apprenticeships available

- Accounting (AAT)
- Agriculture
- Business Administration
- Education & Early Years
- Construction & the Built Environment
- Customer Service
- Engineering
- Hairdressing & Barbering
- Health & Social Care
- Hospitality & Catering
- Motor Vehicle
- Pharmacy

Agriculture.

Campus: Milnthorpe Road Campus

Full-time Agriculture courses

Agriculture, Land Management & Production, T Level
Pathway: Livestock Production
Level 3 | 2 years | Equivalent to 3 A-Levels

See page 17 for more information about T Levels.

This department is a fast-growing department offering a range of full-time and apprenticeship-based courses in land-based studies and agriculture.

We have agricultural courses running from both Kendal College and Wigton. Our students undertake their practical lessons at a range of farms throughout Cumbria. This means they can experience a wide variety of different farming methods, breeds and machinery and are exposed to the most up-to-date industry standards and practices.

Agriculture is a vibrant industry and vital for food production and environment management.

British farmers produce more than 60% of the food eaten in the UK (Defra).

As one of our students, you will benefit from hands-on practical experience and taught sessions in the classroom with our highly experienced tutors. This will allow you to develop the knowledge, skills and behaviours that you need to become excellent in practice and highly employable.

Why study with us?

➤ **A specialist teaching team**
Our tutors are specialists in many areas of agriculture, ranging from sheep, beef and dairy to machinery, crop production and management.

➤ **Up-to-date knowledge and skills**
Cumbria, Lancashire, and Yorkshire have diverse land-based sectors. Our programmes will teach you modern techniques for productivity and business methods that will allow you to embrace the opportunities that will arise in the years to come. The national Future Farming and Countryside Programme is one of the most significant industry changes in any sector in the UK. It includes a range of environmental land management schemes, including sustainable farming, nature recovery and landscape recovery. Our courses and apprenticeships will give you the skills and experiences to access these new grants and incentives.

➤ **Our partnerships**
We work with a wide range of industry partners. We use an extensive network of local employers to give you a diverse, relevant set of experiences. This isn't just tied to one place or type of location, so we can ensure you receive the training you need to be ready for what faces you after you leave college.

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

Almost half a million people work in UK agriculture, with the sector contributing £15.9 billion to the UK economy in 2025. (Gov.uk)

"Our learners see a variety of farming systems through our extensive range of local farmer partners. They experience best practice in action."

Dan Stamper
Head of Faculty

YOURBRIGHT FUTURE

There are a variety of progression options for agricultural students to consider.

Our courses will expand your skills in teamwork and communication, adaptability, proactive networking, and business management. This will make you highly adaptable and attractive to employers and universities.

After your course, you could progress directly into employment either in farm management, or alternatively with agri-businesses in the supply chain or quality assurance in the agriculture industry.

You may choose to continue your studies at college or progress to a degree in agriculture, animal science, crop management, environmental sustainability or business management. Last year, our apprentices progressed onto Harper Adams University to study Agriculture with Animal Science, and Newcastle University to study Agriculture.

There are also higher-level apprenticeship options, including a Level 4 Assistant Farm Manager apprenticeship.

Agriculture Apprenticeships

Paid employment with training

General Farm Worker | Level 2 | Approx. 12 months
Livestock Unit Technician | Level 3 | Approx. 15 months
Assistant Farm Manager | Level 4 | Approx. 18 months

For more information, see page 21 and visit kendal.ac.uk/apprenticeships

Animal Care.

Campus: Milnthorpe Road Campus

Full-time Animal Care courses

Animal Care | Level 1 and Level 2 | 1 year

T Level in Animal Care & Management (Animal Behaviour) Level 3 | 2 years | Equivalent to 3 A Levels

See page 17 for more information about T Levels.

We are one of the first colleges in the UK to have an Animal Rescue and Rehabilitation Centre alongside our teaching department.

Why study with us?

- **Animal Rescue and Rehabilitation Centre (lovingly known as the 'ARC')**
  Facilities include an intensive care and treatment room, with industry-standard surgical equipment and digital x-ray facilities, providing the highest level of care for wildlife and the best possible learning environment for students.

  We also have an exotics room with various species, including a bearded dragon, tree frogs, snakes and tortoises (to name a few!) and a mammals room housing rabbits, guinea pigs and degus.

- **Experienced, passionate tutors**
  Our teaching team includes veterinary surgeons, conservationists, marine biologists and animal care professionals. Our Marine Biologist, Sarah Neill, works with British Divers Marine Life Rescue to provide rescue and care support to local seals.

  She was the only woman in the UK selected to join the Sedna Epic expedition to the High Arctic in 2022. The team have also recently achieved a Silver Award for the Hedgehog Friendly Campus scheme!

- **Academic and industry partners**
  We work with the University of Cumbria, the RSPCA inspectorate and wildlife hospitals, local veterinary practices and conservation organisations at both local and national levels. These links provide our students with work placements, insightful guest speakers and up-to-date industry knowledge.

- **Inspiring trips and visits**
  As well as various local visits, you will have the opportunity to take part in international trips - previous students have travelled to Ecuador, Eswatini and South Africa!

More than 77,000 vacancies for animal care services occupations were recorded over the latest 12-month period reported by UCAS. (UCAS career data)

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

"I studied both a BTEC and A-Level, and I cannot fault the teaching and support I received. The teachers were always happy to help if I didn't understand something or if I needed help with my university application. I'm now studying Veterinary Science at the University of Bristol."

Emma Thexton
Animal Management Alumni

YOUR BRIGHT FUTURE

Employment and apprentice opportunities include veterinary nursing, laboratory and ecological work, or pursuing animal-related roles in the police, retail and agricultural industries. Our students have progressed to various higher-level courses after college, including zoology, marine biology, ecology and veterinary medicine at university.

Our courses will expand your skills in teamwork and communication, persistence and commitment, organisation and attention to detail, and flexibility and patience in academic research. This will make you highly adaptable and attractive to employers and universities.

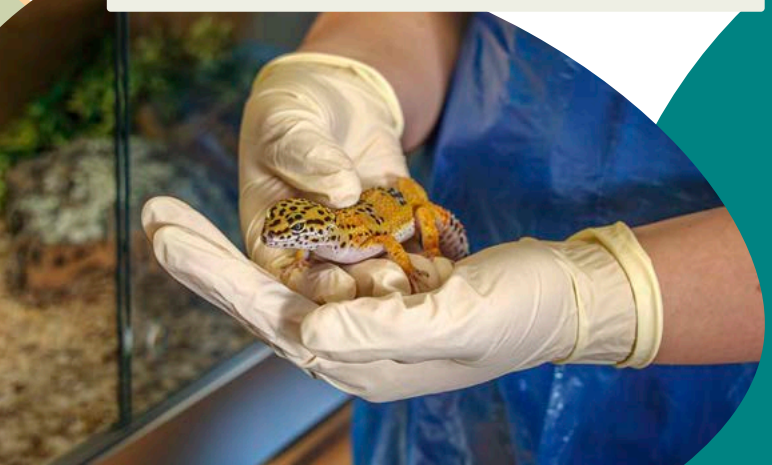

Our recent alumni have progressed directly into employment, for example with South Lakes Safari Zoo, started apprenticeships in a range of animal related fields, progressed onto our degree-programmes, and gained the following university places:

Harper Adams University - Veterinary Bioscience, Anglia Ruskin University - Zoology, University of Salford - Wildlife Conservation with Zoo Biology, Manchester Metropolitan University - Animal Behaviour & Conservation, University of Plymouth - Ocean Science & Marine Conservation, Liverpool John Moores University - Animal Behaviour, University of Cumbria - Animal Conservation Science

Art & Design.

Full-time Art & Design courses

Art & Design | Level 2 | 1 year

Photography, Graphics & Film | Level 2 | 1 year

Art & Design | Level 3 | 2 years
Equivalent to 3 A Levels

Fashion & Textiles Pathway | Level 3 | 2 years
Equivalent to 3 A levels

Graphics & Product Design Pathway | Level 3
2 years | Equivalent to 3 A levels

Art & Design UAL | Foundation Art & Design | Level 3
1 year

Campus: Arts and Media Campus

Art & Design is the launch pad for a wide range of career paths and professional destinations, from fine artists to textile and product designers, photographers, illustrators and animators to graphic and fashion designers. Our qualifications allow students to achieve places at top universities and progress into employment within the creative industry.

Why study with us?

➤ **Vibrant spaces**
We teach all the latest skills and techniques in vibrant, exciting spaces. The £2.9m Wildman Street Studio and Allen Building include a professional gallery, multidisciplinary creative spaces, a photography darkroom, print and ceramic studios and a metal and wood workshop.

➤ **Professional tutors**
Our passionate teaching team includes a professional graphic designer, a photographer who works for BBC publications, a fashion and textile specialist, a professional fine artist, a product and design specialist, a moderator for the University of Arts London and a ceramics and craft specialist.

➤ **Build your portfolio for future success**
Our students have long-standing success in skills shows and competitions, exhibiting alongside world-class artists at the Abbot Hall Gallery, Blackwell Arts and Crafts and Brewery Arts Centre.

Students progress to top universities, including The London College of Fashion, The Royal School of Needlework Hampton Court, University of Arts London, Manchester Metropolitan University, Northumbria University and Glasgow School of Art.

The UK creative industries supported around 2.46 million jobs in 2025 – 17.3% more than in 2019. (Gov.uk)

"I am so glad I chose to study the Level 3 course (equivalent to 3 A-Levels) instead of A-Levels. I had no idea in Year 11 that my specialism would become textiles. Being able to use the fantastic textile resources at college, enabled me to specialise and get an incredible university place. I am now a professional hand embroiderer fascinated by the alternate and ornate. I have a passion for the hand-made, whether it is within fashion, accessories, interior, costume or art, my intrigue encourages me to explore and combine these sectors. I studied at the Royal School of Needlework after college. My professional training along with varied industry experience has equipped me with a thorough knowledge of the production of hand embroidery within fashion, interiors, costume and textile art."

Emilie Mason
Art & Design Alumni

YOURBRIGHT FUTURE

Our students exhibit alongside world-class artists and have progressed to top universities.

Our courses will expand your skills in teamwork and communication, persistence and commitment, organisation and attention to detail, and flexibility and patience in academic research. This will make you highly adaptable and attractive to employers and universities.

Previous students have progressed to: Costume Design at Edinburgh University, Fine Art at Falmouth University, Internship at Burberry, Product Design at Central St Martins, Practising artist exhibiting in high profile galleries as far as St Ives, Photography at Manchester Metropolitan University, Graphic Design at Northumbria University, Film at London College of Communication, Fashion buyer at Asos, Illustration at Leeds Arts University, Digital Marketing apprentice, Textiles at London College of Fashion

Art & Design UAL

Foundation Art & Design | 1 year | Level 3

A transformative arts qualification, designed to encourage independent exploration, experimentation and risk- taking. Created for students who've completed A Levels or a Level 3 Diploma and want to achieve progression to higher education or the industry.

This course is all about you - your ideas, your growth, your future. You'll develop skills in:

- **Creative Media** - From sketchbooks to screen, explore a wide range of visual tools
- **Artistic Voice** - Learn how to shape and share your unique perspective
- **Reflective Growth** - Understand your creative journey and where it can take you next

A highly practical course focused on you and your creative goals.

Free if you're 18 or under.

Find out more and apply!

kendal.ac.uk/art

Barbering, Hairdressing & Beauty Therapy.

Campus: Milnthorpe Road Campus

Full-time Barbering, Hairdressing & Beauty Therapy courses

Beauty Therapy | Level 2 and Level 3 | 1 year
Barbering | Level 2 | 1 year
Hairdressing | Level 2 Diploma | 1 year and Level 2 NVQ in year 2

Start your career in a versatile, ever-changing industry!

Why study with us?

➤ **House of Hair & Beauty**
The House of Hair & Beauty is our professional hair, barbering and beauty training centre. Our salons are open to the general public and will give you hands-on practical experience in a range of treatments.

The department has four training salons with excellent facilities and equipment to match the industry.

➤ **Professional tutors**
Our highly skilled teaching team keeps abreast of the latest trends, passing on emerging themes and techniques to their students.

Many of the teaching team still work in the industry and have fantastic links with highly recognised manufacturers and international companies, for example, GHD, Cloud Nine, Crystal Clear, Bespoke Aroma, Dermalogica and Neil & Wolf.

➤ **Strong employer links**
We work with over 40 local employers across the hair, barbering and beauty sector who have considerable experience working in the industry.

As part of your course, you will be supported to gain work experience in a salon, barber's shop or spa. This will help further develop your confidence and experience in different settings.

Leading experts in hair and beauty come to the college to teach special classes and give exciting demonstrations.

The college is well respected for training professionals proficient in using industry-standard equipment and understanding the day-to-day running of a busy salon environment.

➤ **Inspiring trips**
The department organises various trips to enhance learning and understanding of the many opportunities available, such as Hair & Beauty UK, Pro Beauty Live, Edinburgh, Glasgow and London.

➤ **Competitions**
You will have the opportunity to participate in regional and national competitions, as the department is a well-established member of the AHT (Association of Hairdressers and Therapists). WorldSkills will be a potential gateway for you to achieve on a world stage.

The UK beauty industry contributed £28.3 billion to the UK economy in 2025 and supported more than 595,000 jobs. (BABTAC)

"I'm creative and like interacting with people, so barbering was perfect for me. The teaching style was hands-on, so you could learn from your mistakes. I'm now working in barbering and hope to have my own shop in the future."

Juraj Smigovsky
Barbering Alumni

YOUR BRIGHT FUTURE

Many of our students have gone on to work for major employers in the travel and tourism trade, including Low Wood Bay, Brimstone, luxury hotel groups, and cruise ship operators, as well as in local salons or renting chairs on a self-employed basis. It is also possible to progress to higher-level study in areas like salon management and advanced treatments.

Our courses will expand your skills in customer service, Maths and English, enterprise, client care, health & safety, and mental health awareness. This will make you highly adaptable and attractive to employers and universities. For example, after gaining further confidence in building relationships with people, one of our recent alumni has now progressed on to a career in midwifery.

Barbering, Hairdressing & Beauty Therapy Apprenticeships

Paid employment with training

Professional Hairdressing | Level 2 | Approx. 12 months
Professional Barbering | Level 2 | Approx. 12 months

For more information, see page 21 and visit kendal.ac.uk/apprenticeships

Business & Accountancy.

Campus: Westmorland Campus

Full-time Business & Accountancy courses

Business Foundation BTEC | Level 2 | 1 year

T Level in Business Management | Level 3 | 2 years
Equivalent to 3 A Levels

See page 17 for more information about T Levels.

Explore the range of diverse departments that work together to form a successful business. You will benefit from the industry experience of our expert tutors, who have had successful careers in human resources, marketing, finance, retail and management.

Why study with us?

➤ **Strong employer links**
Our business department boasts strong links with some of the top-performing businesses in the local area. The curriculum has been designed to utilise the knowledge of these employers and how they can benefit our students. Continuing with the theme of employer engagement, the courses we offer have been designed by educators alongside UK businesses to provide learners with the skills required within the workforce. On our T Level programme, learners participate in an Employer Set Project, mirrored to real work-life tasks that may be required of them as duties within employment.

➤ **Work placement**
One benefit to our T Level course is the industry placement that our students are involved in. The course requires that all students experience 45 days, 20% of the course, with local employers. This allows our students to apply the knowledge they have developed from lecturers to real-life practical experiences. On our Level 2 course, students will also complete a unit based around work placements and developing skills required by employers.

➤ **Real-life application**
We aim to provide our students with the tools they need to gain meaningful employment once they have progressed to the next step in their career path. Networking, practising skills and applying knowledge to placement prepares students for this progression. We do this through departmental trips to visit successful businesses, observing them in action, and guest speakers who visit us in college to share their knowledge and advice. Students have particularly enjoyed our 'Dragon's Den' task over the last few years, which involved pitching some fantastic start-up business ideas and a cash prize for the winning pitch!

➤ **Developing skills**
We focus on developing the practical and professional skills employers are looking for. We encourage our students to work on communication, organisational, time management, and presentation skills. We cover business context, business behaviours, finance, people, marketing principles and project management.

From larger multinational employers through to growing SMEs, Cumbria is home to over 23,755 active businesses and enterprises employing a workforce of 235,000 people across a range of industries (CLEP).

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

"A business qualification can take students anywhere and opens up a world of possibilities; from climbing the ladder in the corporate world to using the skills learned on the course to start up their own business. Financial and business education gives students practical and valuable skills in whatever employment area they choose to follow."

Beverley Davis
Business Lecturer

YOURBRIGHT FUTURE

A business course is a perfect stepping-stone to careers and degree courses in various business-related topics such as marketing, HR, finance and law. Studying alongside maths can also open doors to jobs related to finance and accounting.

Our courses will expand your skills in critical reasoning and problem solving, curiosity and creativity, collaboration and teamwork, leadership and project management, and organisation and time management. This will make you highly adaptable and attractive to employers and universities.

Our recent alumni have progressed directly into employment, for example with Netherwood Spa and Hadwin Motors, started apprenticeships with Deloitte and BAE Systems, progressed onto our HNC/D Business course, and gained the following university places:

Durham University - Business & Management, Lancaster University - Management & Information Technology, University of Salford - Business Management, University of Sheffield - Business Management, Manchester Metropolitan University - Human Resource Management (CIPD)

Business & Accountancy Apprenticeships

Paid employment with training

Accounts or Finance Assistant (AAT)
Level 2, Level 3 and Level 4 | Approx. 12 - 24 months

Business Administration | Level 3 | Approx 18 months

Construction.

Campus: Milnthorpe Road Campus

Full-time Construction courses

Construction Skills | Level 1 | 1 year
Plumbing | Level 2 | 1 year
Electrical Installations | Level 2 and Level 3 | 1 year
Carpentry & Joinery | Level 1 | 1 year

Employment prospects within construction are highly varied. There are thousands of jobs under one umbrella! You could be working in an office designing and pricing electrical systems, delivering contract work on an oil platform or wind farm, creating bespoke furniture for private clients, building homes, connecting home theatre systems, installing thermal heat pumps for a commercial company, running your own business, or anything in-between!

Why study with us?

➤ **State-of-the-art facilities**
Our £3.4 million T Level Engineering and Construction Block includes a renewable centre and electrotechnical suite, providing world-class facilities to develop the skills and knowledge needed to be at the forefront of exciting new technologies and developments. Our additional workshops in the Construction Centre provide our students with industry-standard facilities and equipment.

➤ **Meaningful work placements**
We work with various employers across the sector to offer meaningful work placements to all our students.

VolkerStevin welcomed learners from full-time courses to undertake work experience as part of the Kendal Flood Defence Scheme. Learners were given the opportunity to support local primary schools to create enrichment areas for their outdoor play areas, encouraging hands-on experience to develop valuable construction skills.

➤ **Experienced specialist tutors**
Our teams of tutors have decades of combined teaching experience with backgrounds across a range of construction specialisms.

The UK construction industry needs more than 47,000 additional workers every year to meet demand by 2029, highlighting the huge opportunities for people entering the sector. Construction Industry Training Board (CITB), 2026

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

Our specialist carpentry and joinery workshops

Our workshops have high-quality Format-4 Felder woodworking machinery, including spindle moulders, mortice and tenoning machines, CNC, dimension saws and more. You have space to explore a range of trade knowledge and hone your craft skills.

Construction Skills

This course is a great introduction to construction. It will develop your knowledge and skills in plumbing, electrical, brickwork and joinery.

Site Carpentry

A site carpenter works with timber to create a variety of building structures, from commercial to domestic projects. Our courses will develop your skills in hand and power tools, hanging doors, skirting and architraves, roofing, walls, flooring, and introductions to installation work of kitchens, windows and staircases.

Bench Joinery

Bench joiners make workshop timber-based products to be delivered or installed on-site. Our courses will develop your knowledge of technical drawing, marking, and manufacturing objects such as furniture, doors, windows, and staircases.

You will have a fantastic opportunity to learn the safe and correct way to use hand and power tools and our workshop machinery.

We have strong local links to site carpentry and bench joinery companies, time-served craftspeople and degree-qualified designers. Our tutors have worked on some truly amazing projects, from domestic to commercial works, events, conservation and museums in the UK and worldwide

Technical Services: Electrical and Plumbing

Technical Services covers all aspects of technology around electrical, plumbing, environmental technologies, heating and gas work.

Students from these courses will be involved in designing, installing, maintaining and testing all aspects of technical services in the built environment. This work can be as small as repairing a leaky tap or faulty socket to installing the complete heating or electrical system for a hospital or large factory. As energy costs increase, employment in this area looks to grow even further, ensuring a secure and exciting career for years to come.

Our plumbing and heating team has comprehensive industry experience, born from working on commercial, industrial, and domestic sites for many years. Contracts with Best Western Hotels, NHS commercial plant rooms, and schools throughout the Northwest, delivering industry training for manufacturers, plus contributions to development and research in environmental technologies.

Our electrical team has over 100 years of site experience between them! They have been involved in large and small commercial, industrial and domestic systems, for example, working on the Millennium Dome, Euro Hub, Manchester Airport and many others.

This experience will give you invaluable insight into the industry and the many career pathways to choose from.

"I am a gas engineer for Cumbria Gas. I like the variety of my job as it gets my mind working. During my time at college, I developed a lot of skills. It made me see that if I put my mind to most things, I can accomplish them."

Byron Bell
Plumbing Alumni

The construction industry accounts for approximately 3 million jobs, 10% of total UK employment, and is expected to grow by 14.1% to reach £227,627.2m by 2026 (Designing Buildings & GlobeNewswire).

The built environment is transitioning towards increased digitalisation, sustainable construction and automated production, assembly and delivery. Sustainable construction involves changing the traditionally used material and rethinking waste and energy consumption. This is in response to government strategies and increased awareness around cost, efficiency, and health & safety benefits.

The government's target to decarbonise all sectors of the UK economy and meet their net-zero targets by 2050 is expected to drive further sustainability innovation and growth in the industry.

"We work with contractors passionate about supporting young people to develop the skills needed in the industry. Students gain experience in all areas of the build. They are given the opportunity to work with different trades, helping them decide on their future career path and understand how a project comes together. Being on a real construction site and working with people with different backgrounds, ages and ethnicities helps develop their confidence and skills."

Ian Reynolds
Chartered Construction Manager
EQUANS

YOURBRIGHT FUTURE

Our courses will expand your teamwork, communication, organisation, time management, and problem solving skills. This will make you highly adaptable and attractive to employers and universities.

Our courses enable our students to progress onto apprenticeships and employment with a wide range of industries, and set up their own businesses.

Previous students have progressed to: HNC degree courses with James Cropper Plc, Apprenticeships at BAE Systems, They run businesses large and small, Trainee manager at Morrisons, Groundworker, Keel University - Engineering Degree, Music teacher and Folk band, Electrical Technician at college, Compete in WorldSkills competitions, Take their skills and qualifications abroad to gain further valuable experience

Apprenticeships

Paid employment with training

Carpentry & Joinery Apprenticeships

Architectural Joinery or Site Carpentry
Level 2 & Level 3 | Approx. 15 months

Electrical Apprenticeships

Electrical Installation & Maintenance
Level 3 | Approx. 48 months

Plumbing Apprenticeships

Plumbing & Domestic Heating Engineer
Level 3 | Approx. 48 months

Gas Engineering Operative | Level 3 | Approx. 18 months

Education & Early Years.

Campus: Westmorland Campus

Full-time Education & Early Years courses

Early Years | Level 1 and Level 2 | 1 year

T Level Early Years | Level 3 | 2 years
Equivalent to 3 A Levels

See page 17 for more information about T Levels.

Our tutors are all education and early years professionals with extensive experience working in primary schools, early years settings and international schools.

Why study with us?

➤ **Develop your professional industry skills**
Our full-time courses include work placements with Ofsted-rated Good or Outstanding organisations, which model good practice. You will work in various preschool, nursery, and primary school settings for two days a week. This allows you to put the theory of child development into practice, for example, when planning and implementing activities or observing a child's progress.

You will gain detailed knowledge of the national curriculum and develop your confidence and communication skills working with children and professional practitioners. This will prepare you well for university or higher-level study in the workplace.

➤ **Excellent links with academic and sector partners**
As well as your work placement, you will benefit from guest speakers from local universities, Schools Direct and Children's Services, and visits to outdoor learning and Montessori settings.

An international trip to visit an early years educational organisation is planned each year and can vary as to location.

➤ **Up-to-date industry knowledge**
Our tutors understand the sector, current thinking and modern developments. You will learn about forest schools, phonics and planning in the moment (to name just a few!)

➤ **Gain a licence to practise**
On completion of the T Level, you will gain Early Years Educator (EYE) status giving you a licence to practise. This means you can become a teaching assistant in a school or a nursery practitioner without additional training.

➤ **A new interactive facility at our Westmorland Campus**
We have developed a new real working environment with state-of-the-art technology, where local children will visit us for activity sessions.

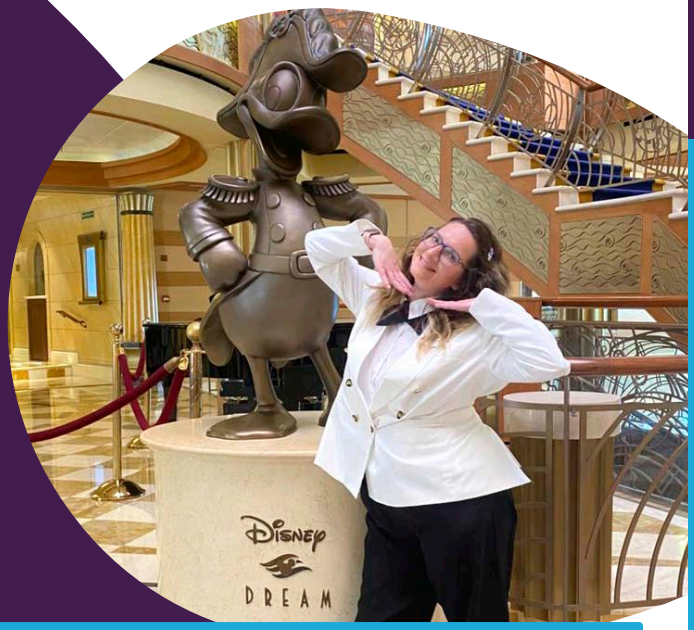

The early years workforce delivering funded childcare in England grew by 5.2% in 2026, adding 14,200 workers in just one year. (Department for Education, 2026)

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

"I made some good friends during my course that I am still in touch with. Another great memory was finishing my Level 3 with a distinction! I now work in the nursery on the Disney Dream Cruise Line and absolutely love it. Along with the rest of the team, I care for the babies and infants aged 6 months to 3 years by changing diapers, giving them snacks and drinks and entertaining them with crafts and games. Everything I learnt during the course is being used in my role from the importance of forming bonds with the children and age-appropriate activities due to their age"

Becky Harper
Education & Early Years Alumni

YOURBRIGHT FUTURE

Our training equips students with the necessary skills and experience to progress their careers and gain employment.

Our courses will expand your skills in teamwork and leadership, organisation and time management, staying calm in challenging situations, and academic research and writing. This will make you highly adaptable and attractive to employers and universities.

The Early Years Educator (EYE) status enables our students to gain direct employment in a wide range of preschool, nursery, and primary school settings.

Our full-time level 3 students move on to a wide range of higher-level courses, including our Foundation Degree in Children, Schools & Families.

Previous students have progressed to:
University of Salford - Occupational Therapy, Leeds Trinity University - Primary Education, Working with Children, Young People & Families, Edge Hill University - Primary Education with QTS, University of Cumbria - Primary & Early Years Education, University of Surrey - Nursing Studies, Liverpool John Moores University - Primary Education

Education & Early Years Apprenticeships

Paid employment with training

Early Years Practitioner | Level 2 | Approx. 12 months
Early Years Educator | Level 3 | Approx. 18 months

For more information, see page 21 and visit **kendal.ac.uk/apprenticeships**

Engineering.

Full-time Engineering courses

Engineering | Level 2 | 1 year

T Level Design & Development for Engineering & Manufacturing (Mechanical) | Level 3 | 2 years
Equivalent to 3 A Levels

T Level Design & Development for Engineering & Manufacturing (Electrical) | Level 3 | 2 years
Equivalent to 3 A Levels

See page 17 for more information about T Levels.

Campus: Milnthorpe Road Campus

Our £3.4 million T Level Engineering and Construction Block includes CNC and 3D printing machines, an electronics lab, and a maker space facility to enable students to turn their ideas into reality.

The additional workshops house numerous manual lathes, welding and fabrication bays and project-related technologies and equipment.

Why study with us?

➤ **A teaching team with a diverse background**
The engineering team has a diverse background of industrial and academic knowledge to support your career direction. This includes experience in aeronautical and turbine manufacturing at Rolls-Royce, mechanical audio acoustic at Primasonics, electrical engineering in the Royal Engineers, mechanical design at Don-Bur commercial vehicles, and a senior research associate at Lancaster University who researched lithium technology for Tesla!

➤ **Develop your technical skills in our professional facilities**
You will have access to CAD software to visualise something in a 3D space and then manufacture a prototype on the 3D printers. Our Precious Plastics shredder and moulds enable you to turn plastic waste into new products, for example, building materials for the construction industry. Your skills in design and manufacturing will be developed, as well as your digital and project management skills.

➤ **Employer partnerships**
We have strong links with local businesses that rely on the college to meet their current and future business needs. The team organise guest speakers and trips to engineering firms in the UK and abroad, and you will complete valuable work placements to develop your knowledge.

➤ **Inspiring work placement opportunities**
Our T Level programmes include a 45-day placement, enabling you to put the academic theory into practice and gain a deeper understanding of this exciting and ever-changing industry.

Our T Level students gain direct occupational experience with local engineering firms, including Anord Mardix and James Cropper.

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

An estimated 240,000 people are needed to join the UK engineering and technology workforce each year up to 2030. EngineeringUK, 2026 (analysis of Skills England data and the Labour Force Survey)

Did you know...

The Engineering AAQ is also available, which can be studied alongside A Levels. See page 13 for information.

YOURBRIGHT FUTURE

Many of our students go on to higher-level study, attaining degrees in mechatronics, energy, motorsports, and aeronautics. Just as many secure apprenticeships with local and national employers, including Gilkes, Anord Mardix and BAE Systems, or go on to study our Higher National Certificate (HTQ).

Our courses will expand your skills in creative problem solving, attention to detail, analytical skills, communication, teamwork, and leadership. This will make you highly adaptable and attractive to employers and universities.

Previous students have progressed to: **Leeds Beckett University - Quantity Surveying, Lancaster University - Electronic and Electrical Engineering, Manchester Metropolitan University - Electrical and Electronic Engineering, University of Nottingham - Engineering & Physical Sciences, Electrical Engineering, University of Portsmouth - Mechanical Engineering, Teesside University, Middlesbrough - Aerospace Engineering, Nottingham Trent University - Mechanical Engineering**

Film Production.

Campus: Arts and Media Campus & Westmorland Campus

Full-time Film Production courses

Photography, Film & Graphics | Level 2 | 1 year

Film & Media Production | Level 3 | 2 years | Equivalent to 3 A Levels

Digital Film Production | Level 4 | 1 year post A Levels or Level 3 | New for 2027!

These courses are awarded by University Arts London (UAL)

Our courses are fast, fun, practical and engaging, with students constantly challenged to develop the skills they'll need for a career in the growing digital media sector. Whether you want to be a director, editor, writer, cinematographer, sound designer or any of the hundreds of jobs available, we'll give you the space to learn your craft and the crews to bring your stories to life.

Why study with us?

➤ **Highly practical learning**
Learning is delivered through demonstrations, presentations, film screenings, and group and class discussions, but mainly through practical filmmaking and working in crews.

➤ **Develop your skills and knowledge**
You'll learn the fundamental processes used in all film production, with group productions developing skills in planning, writing, producing, using industry standard cameras and sound equipment, editing, post-production and presentation. You will gain a grounding in the core principles of cinematic storytelling, experience working in crews, understanding production roles and develop an industry specialism.

On top of these vocational skills, you'll learn how to work to a brief, research, analyse, schedule and evaluate your projects. You'll gain experience in teamwork, problem solving and negotiating solutions. You will be treated as a filmmaker from day one, making a variety of work that challenges you to discover a voice of your own.

➤ **Professional teaching team**
Every member of our teaching team has extensive professional experience and backgrounds in camera, sound production, script writing and production; all remain active in the film industry.

➤ **Strong external partnerships**
The film department has strong partnerships with the Aesthetica Film Festival, Brewery Arts Centre, Cumbria Tourism, Manchester Film School, Kendal Mountain Festival, Signal Film and Media, and many other local businesses. As well as being involved in live community projects, you will also gain relevant work experience, hear from a range of guest speakers and take part in trips to Aesthetica Film Festival York, London residentials and Manchester.

15% GROWTH IN FILM ROLES
Roles in large-scale UK film production grew by 15% between 2023 and 2025.
Source: ScreenSkills, 2026

"My experience at Kendal College has been immensely rewarding. The Film Production course has provided me with extensive knowledge, numerous opportunities to enter the film industry, and I've formed valuable connections and friendships."

Susie Thomas
Film Production Student

YOUR BRIGHT FUTURE

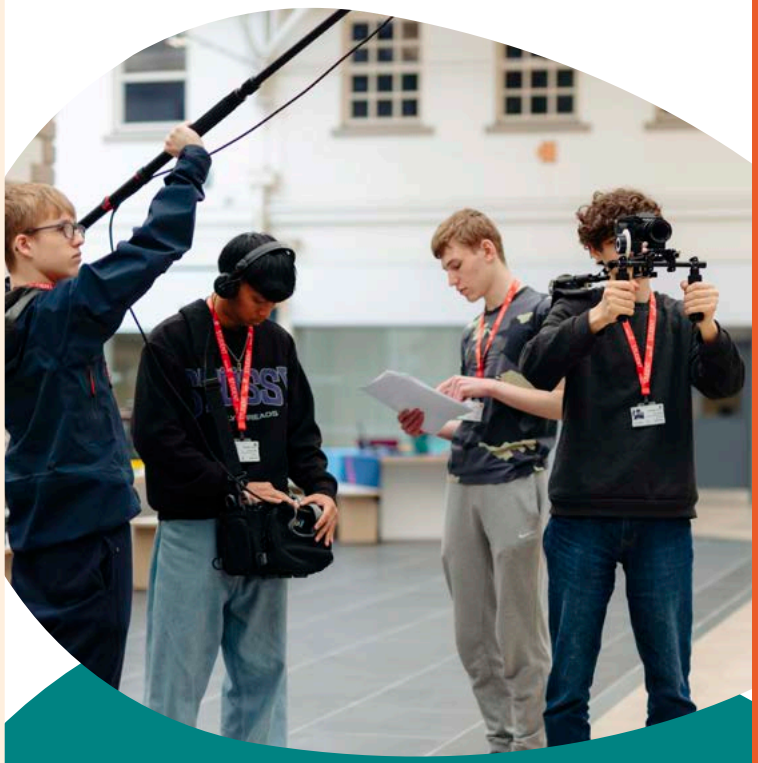

Our students move on to various universities, film schools, freelance jobs and industry training schemes, including BFI Film Academy, ITV & BBC Training Schemes, and set up their own production companies. Alumni films have been selected, screened and won awards at national film festivals.

Our courses will expand your skills in creativity, artistic vision, storytelling ability, analytical frame of mind, programming teamwork, and communication. This will make you highly adaptable and attractive to employers and universities.

Previous students have progressed to: University for the Creative Arts - Animation, BBC – News Producer & Broadcast Producer, UCEN Manchester – Film & TV Production, The Crown and His Dark Materials - Digital Image Technician, University of the Arts London – Film & Television, Naik Media - Editor, Film on the Brain – Business Owners, Leeds Beckett University - Filmmaking, Kendal Mountain Festival – Content Producer, University of Westminster, London - Film, Oxford Media Factory - Videographer, BIMM Institute – Film Business & Production, Hawkshead Brewery - Marketing, University of Sunderland – Digital Imaging, BT - Broadcast Engineer, University of Salford – Post-Production & VFX, Photographer for Rene La Vice

Foundation Learning.

Campus: Milnthorpe Road Campus

Full-time Foundation Learning courses

Kendal College Supported Internships
Level 1 | 1 year | Practice and learn essential skills in a real working environment

Link 2 Pathways to Work | Level 1 | 1 year

Link 2 Pathways to Progress | Level 1 | 1 year

Link 2 Pathways to Independence | Level 1 | 1 year

Our Foundation Learning courses are designed to give you a secure start to studying at college in a well-supported environment. You will develop confidence, resilience and decision-making skills to support your independence and prepare for your future.

Our programmes are tailored to your individual needs, interests and aspirations, helping you work towards your next steps. These may include supported internships, further study within the college, apprenticeships, supported employment or greater independence in everyday life.

➤ **Kendal College Supported Internships** | Level 1 | 1 Year
Our Supported Internships are designed for young people with an Education, Health and Care Plan (EHCP) who are ready to take their next steps towards employment. Your programme will be individualised to your interests, strengths and career aspirations, giving you the opportunity to develop essential skills in a real working environment. With personalised support, you will build confidence, develop workplace skills and gain valuable experience to help you work towards paid employment.

➤ **Link 2 Pathways to Work** | Level 1 | 1 or 2 Years
Pathways to Work supports you to develop the personal and employability skills needed to prepare for employment. You will have opportunities to experience different vocational areas, explore career interests and develop practical skills through real-life projects and activities. Your learning will be tailored to your interests and future goals, helping you build confidence and prepare for supported internships, further study, apprenticeships or employment.

➤ **Link 2 Pathways to Progress** | Level 1 | 1 or 2 Years
Pathways to Progress offers a welcoming and supportive environment for young people who are looking for a fresh start with education. If you have found learning challenging or have spent time away from education, this programme will help you rebuild confidence, develop positive routines and rediscover your interests. Through personalised learning, practical activities and opportunities to explore different subjects, you will develop the skills and resilience needed to take your next steps into further study, training or employment.

➤ **Link 2 Pathways to Independence** | Level 1 | 1 or 2 Years
Pathways to Independence supports you to develop the skills and confidence needed for greater independence in everyday life. Through practical activities, real-life projects and trips, you will focus on preparing for adulthood, including independent living, community participation, relationships and being healthy. Your learning will be tailored to your individual needs and future goals, helping you develop confidence, make choices and become more independent.

"I am now working for the NHS. I really understood my first pay slip because we had covered tax and national insurance within the employability skills curriculum when I was an intern."

Becca Fell
DFN Project SEARCH Graduate

What to Expect from Link 2

All Link 2 pathways provide a supportive learning environment where your programme will be individualised according to your needs, interests and aspirations. Some learners will spend one year on their pathway, while others may benefit from two years before progressing to their next step.

You will have opportunities to develop your personal, social and practical skills through a range of learning activities, projects and experiences.

Depending on your pathway, you may also have opportunities to explore different vocational areas, such as:

- Art & Design
- Animal Care
- Catering
- Construction
- Motor Vehicle

All Link 2 programmes support you to prepare for adulthood, focusing on your future goals in education and employment, independent living, community and relationships, and being healthy.

You will be expected to continue studying Maths and English as part of your programme.

Applying for Link 2

You will be invited to attend two taster sessions to help you experience the programme and decide whether it is right for you.

You and your parent(s) or guardian(s) will then be invited to attend an interview. If you have an Education, Health and Care Plan (EHCP), you will be asked to bring this with you.

Your individual needs, interests and future aspirations will help us identify the most appropriate pathway for you.

What to expect from the Kendal College Supported Internship

Our Supported Internship programme offers real workplace experience with local employers, helping you develop the skills, confidence and independence needed for your future. With personalised support from job coaches and college staff, you'll explore opportunities across different sectors and prepare for your next steps into employment, further education or training.

YOURBRIGHT FUTURE

Our courses will help you develop valuable skills in communication, teamwork, time management, organisation, English and Maths, preparing you for your next steps into further education, training or employment.

Our Foundation Learning students have progressed to a range of full-time vocational courses, including Hospitality, Art & Design and Animal Care, as well as Supported Internships.

Students have also secured employment across a variety of sectors, including health and social care, retail and other local businesses.

Our Supported Internships provide valuable workplace experience, helping students develop confidence, independence and practical employability skills. Working with a range of employers, we support students to progress towards paid employment and positive destinations that reflect their individual strengths, interests and aspirations.

"The course really helped me get the job skills I needed for my future."

Finn Ramsey,
DFN Project SEARCH Alumni

Games & Concept Art.

Full-time Games & Concept Art courses

Games & Concept Art | Level 3 | 2 years
Equivalent to 3 A Levels

This course is awarded by University Arts London (UAL).

Campus: Arts & Media Campus & Westmorland Campus

Games & Concept Art is the place to be if your interests lie in creating stories, characters and worlds.

The course provides students with a fully equipped PC suite and Wacom drawing tablets. Tasks will be given that allow students to explore their creativity and apply it to challenges and mini-briefs. These will push them to strive for professionalism and are built around expectations within the industry. Furthermore, group-based creative endeavours allow students to experience what it is like to operate as part of an innovative team. This will allow leaders to emerge and communication skills to flourish. The team has a wealth of complementary experience. Alice Lawrence Bell provides experience of 3D model making skills in blender and unreal engine gained from her training as an architect, whilst Stephanie Fulke focuses on design strategy and technology platforms to help visualise students' ideas. Both tutors will deliver an engaging, highly creative course that is tailored to suit your specific skills and areas of interest.

The UK video games industry supports more than 73,000 jobs, including around 28,000 developers working in highly skilled roles. TIGA, Economic Impact Assessment of the UK Video Games Industry, 2025.

Did you know...

It may be possible to add Core Maths, or an A-Level in English Literature or Psychology, to your course. Please ask us about this if you are interested.

Why study with us?

➤ Develop your creative decisions and skills
Games & Concept Art focuses on creating characters, props and environments with 2D and 3D modelling software to aid storytelling and create experiences via various media. Throughout the course, you will explore how your research, subject understanding and creative decision-making influence the development of professional work.

➤ Project-based learning
There will be opportunities to work on client briefs to demonstrate technical and creative skills in producing a complete project. For each project, you are encouraged to follow the creative process to properly structure your approach to creative conceptual thinking and problem solving work, replicating industry. This starts with a foundation of solid research, followed by simple ideation/ sketching of initial ideas before seeking feedback to re-evaluate the outcome and develop it further.

➤ Understand the latest trends and developments
You will participate in lively discussions about new gaming technology and media campaigns. You will also review the latest developments within the sectors as they are released. You will regularly benefit from opportunities to meet industry specialists from the gaming industry, for example, through events organised in collaboration with Lakes International Comic Art Festival. You will gain a first-hand understanding of the industry and understand how professional creatives think and rationalise their work.

➤ Vibrant spaces and specialist software
We teach all the latest skills and techniques in vibrant, exciting spaces, which include industry-standard software and equipment within specialist creative art workshops. Students can access specialised studios, dedicated Mac suites, and Wacom drawing tablets. You will be taught to use various digital software, such as Adobe Creative Suite, Blender and Augmented Reality applications.

➤ A variety of trips and visits
To help learning and make better connections for progression routes, the department organises various trips and talks about the industry. The course links with local universities and events, such as the University of Cumbria, Lakes International Comic Art Festival, the Manchester UCAS Fair, and organises an annual trip to Liverpool.

YOUR BRIGHT FUTURE

This course leads to employment in the sector or higher-level study. You could potentially move to a career in level design, concept or character art, game design or any degree-level course linked to games development.

Our courses will expand your skills in creativity, artistic vision, storytelling ability, analytical frame of mind, programming teamwork, and communication. This will make you highly adaptable and attractive to employers and universities.

Health & Social Care.

Campus: Westmorland Campus

Full-time Health & Social Care courses

Health | Level 1 | 1 year

BTEC Health | Level 2 | 1 year

T Level in Health | Level 3 | 2 years
Equivalent to 3 A Levels

See page 17 for more information about T Levels.

Our courses provide a practical, real-world approach to learning alongside a theoretical background, giving you the knowledge, confidence and skills you need to prepare for university and employment.

Why study with us?

➤ **Experienced, professional tutors**
Our teaching team includes a mental health nurse, psychology specialist, health promotion specialist and registered care managers.

➤ **Our partnerships with the sector**
We have strong partnerships with a wide range of industry and academic organisations, including the NHS, University of Cumbria, Oaklea Trust, HC One Care company, Cumbria County Council and Pearl Care. Our links with employers give you valuable insights into the sector and first-hand experience through guest speakers, visits, trips and work placements.

Our Level 2 students have two weeks of placement to prepare them for progressing to the Level 3 courses.

Our T Level students gain direct clinical and ward experience with the University Hospitals of Morecambe Bay NHS Foundation Trust. They work in at least two nursing wards, for example, medical assessments, gynaecology, operating theatre, paediatrics, and dementia. The course will enable you to progress to all areas of nursing, including mental health, paramedics, and midwifery.

➤ **Dedicated Health Suites**
You will have access to two Health Suites within the college. These simulated health environments replicate real-life care settings, enhancing your practical development. Our facilities include a clinical care environment featuring a replica ward area with simulation mannequins. The suites also have a clinical treatment/therapy area and a seating area simulating a consulting room.

Employment demand for priority occupations in England's adult social care sector is projected to grow by 281,000 jobs, an increase of 28%, between 2025 and 2035. (Skills England, Sector Skills Needs Assessment – Health and Adult Social Care, 2026)

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

"A placement whilst on a T Level course offers an invaluable and immersive experience, helping the students to understand what real working life is like. At UHMBT we prepare students thoroughly, providing extensive training and inductions prior to placements commencing."

Iain Hook
Careers Lead
University Hospitals of Morecambe Bay
NHS Foundation Trust

YOURBRIGHT FUTURE

Our students progress to various degree programmes, higher-level apprenticeships and full-time employment. Lancaster University, Kings College London and Northumbria University are just some of the destinations of our former students. They are now studying subjects including midwifery and paramedic and all strands of nursing.

Our courses will expand your skills in teamwork and communication, commitment and compassion, organisation, flexibility and patience, and academic research and referencing. This will make you highly adaptable and attractive to employers and universities.

Our recent alumni have progressed directly into employment with the NHS and gained a variety of university places, including:

University of Birmingham - Adult Nursing, Liverpool John Moores University - Midwifery, Edge Hill University - Child Nursing, Psychology, University of Sunderland - Paramedic Science & Out of Hospital Care, Manchester Metropolitan University - Adult Nursing, Northumbria University, Newcastle - Nursing Science, University of Lancashire - Paramedic Science, Lancaster University - Psychology, University of Chester - Mental Health Nursing, Northumbria University, Newcastle - Nursing Science, Health, Education & Social Care

Health & Social Care Apprenticeships

Paid employment with training

Adult Care | Level 2
Lead Adult Care Worker | Level 3

Hospitality & Catering.

Campus: Milnthorpe Road Campus

Full-time Hospitality & Catering courses

Bakery | Level 2 | 1 year
Food & Beverage Service | Level 2 | 1 year
Professional Cookery | Level 1, Level 2 and Level 3 1 year

The college has an unrivalled reputation for delivering some of the UK's most talented chefs, managers, and industry professionals. Situated in one of the country's most popular tourist destinations, students have no shortage of opportunities to gain experience in first-class hospitality businesses.

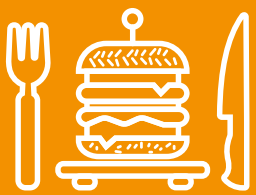

Why study with us?

- **Highly trained staff**
  Our highly experienced tutors have worked as head chefs and sommeliers across the country, including Michelin-starred and AA Red Rosette restaurants. They have a dedication and passion for the job that is second to none.
- **Modern kitchens with up-to-date technology**
  The department has 'world-class' facilities, including a fully electric kitchen, induction hobs and a state-of-the-art TV and camera system to enhance teaching.
- **Well-established professional restaurant**
  You will gain experience in the college café and The Restaurant, which is open to the public for lunch and dinner, serving modern fine-dining cuisine. The team regularly hosts and supports prestigious events at the college, such as The Cumbria Food Awards.
- **Excellent industry links**
  The department has strong partnerships with various employers, including Simon Rogan, Forest Side and English Lakes Hotels. Work placements, 'surprise' guest chef events, and international trips will expose you to current industry standards and expand your awareness of modern food and drink service trends. This will develop your confidence and expertise to carry forward your future careers.

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

The hospitality industry is the UK's 4th largest industry. 1 in 6 new jobs created are in hospitality, and 170,000 new chefs will be required in the UK by 2027 (LMI For All) (Careerpilot).

"I've established the Simon Rogan Academy as a way of doing something positive, and because Kendal College share the same values and requirements for excellence that I do. I want to show people that choosing a career in hospitality is an exciting prospect, one that can literally take them anywhere in the world. It's an incredibly rewarding industry, you are surrounded by people who are passionate and creative in everything they do, and you can't help but be inspired."

Simon Rogan
Michelin-Starred Restaurateur

YOURBRIGHT FUTURE

Our students have progressed to a wide range of roles in some of the most prestigious venues in the country, including Forest Side Hotel, L'Enclume and The Samling Hotel.

Our courses will expand your skills in teamwork and communication, customer service, commitment and passion, organisation, and flexibility. This will make you highly adaptable and attractive to employers and universities.

Previous students have progressed to: Development Chef at Tesco, Teaching qualifications, Working in cafés, hotels and larger establishments, Personal Chef in a private yacht, Outside catering businesses, Front of House L'Enclume, Front of House Hand & Flowers (Tom Kerridge), Head Chef at Dallam School, Setting up their own business, Local Chocolatier, Artisan Market Bakers, Pastry Chef in a Spanish 3 Michelin Star Restaurant, Sous Chef in a Spanish 3 Michelin Star restaurant, Chef and Front of House jobs with Simon Rogan and his restaurant group, Private chefs on yachts, Food development for a national award company

Hospitality & Catering Apprenticeships

Paid employment with training

Commis Chef | Level 2 | Approx. 12 months
Hospitality Team Member | Level 2 | Approx. 12 months
Chef de Partie | Level 3 | Approx. 18 months
Hospitality Supervisor | Level 3 | Approx. 8 months
Hospitality Manager | Level 4 | Approx. 18 months

Motor Vehicle.

Campus: Milnthorpe Road Campus

Full-time Motor Vehicle courses

Vehicle Maintenance | Level 1 and Level 2 | 1 year

Our facilities and garage are equipped with everything a main dealership might have, including the latest diagnostic computer equipment, new post lifts with shaker plates for MOT checks, and a hybrid technical board.

Why study with us?

- **Electric and hybrid technology**
  The college has dedicated electric and hybrid vehicles, and has specialist tools and equipment to maintain electric vehicles.

  As automotive technology evolves, and customers look for sustainable driving options with enhanced features, you will learn the skills required to be at the forefront of this dynamic industry.

- **Daily, real-life experiences in our garage**
  The garage provides a range of vehicle maintenance services, thus giving you real-life experiences and daily challenges to expand your learning and development. Laptops are built into the toolboxes, enabling you to assess technical data, take measurements, monitor filling capacities and view circuit diagrams.

- **Experienced tutors**
  Our teaching team has worked in the automotive industry for Renault, Volvo, BMW and Volkswagen, to name but a few!

- **Links with local employers**
  The department has strong links with local employers and support students to gain relevant experience through work placements.

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

IMI analysis indicates that there is a requirement for 111,400 jobs over the next 10 years and that by 2030, we will need 103,000 Tech Safe qualified technicians to work with electric vehicles (The Institute of the Motor Industry).

"I was an apprentice straight from school, so I can really relate to the vocational study route in practical careers such as this one. A hands-on learning experience is immensely valuable and we are fortunate to have such fantastic facilities and equipment at the college to prepare our students for the exciting next steps in their careers."

Craig Brook
Motor Vehicle Lecturer

YOUR BRIGHT FUTURE

Our students progress on to employment with national and international car dealerships, as well as successfully running their own garages and working abroad.

Our courses will expand your skills in teamwork, problem solving, attention to detail, communication, customer service, and professionalism. This will make you highly adaptable and attractive to employers and training providers.

Motor Vehicle Apprenticeships

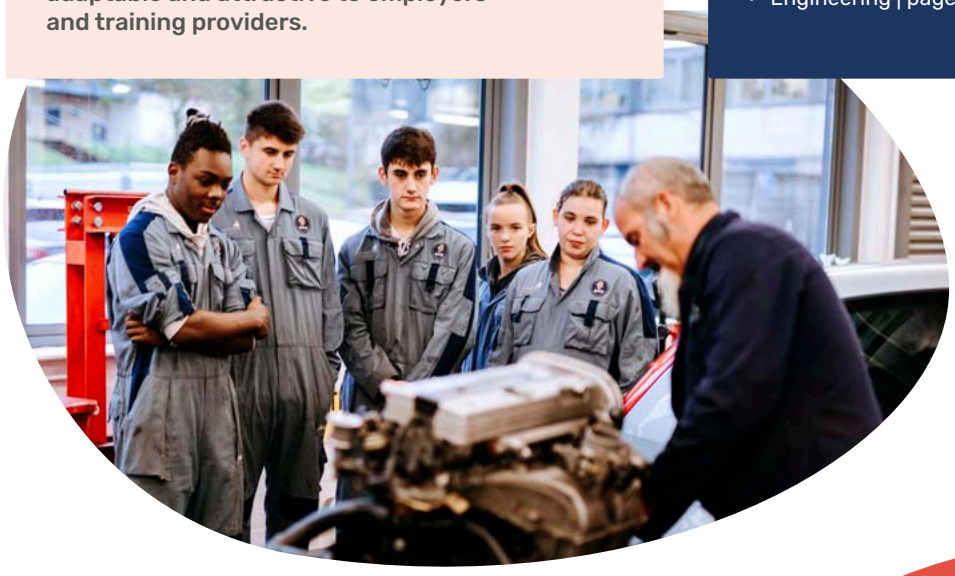

Paid employment with training

Motor Vehicle & Maintenance | Level 3 | Approx. 36 months

Music.

Full-time Music courses

Music Performance & Production | Level 2 | 1 year

Performance - Performing Arts, Music, Production Arts | Level 1 | 1 year

Music Performance & Production | Level 3 | 2 years
Equivalent to 3 A Levels

Music Production for the Creative Industries
Level 4 | 1 year post A Levels or Level 3

These courses are awarded by University Arts London (UAL).

Campus: Arts and Media Campus

Our Music Department offers courses that perfectly balance music performance and production. Whether you are an instrumentalist, vocalist, songwriter or producer, our experienced and industry-trained lecturers will help you to take your work to the next level.

Why study with us?

➤ **We offer two exciting pathways of study**
A performance route and a production route, both of which interlink and involve collaboration. Combined study is also an option.

➤ **Dedicated performance and production facilities**
Our music facilities are the best in Cumbria, allowing for a wide range of practical learning. We have a dedicated Live Venue space, a professional recording studio with industry-standard equipment, a Mac Suite for Electronic Music Production and well-equipped rehearsal booths for band practices.

➤ **Industry relevant projects**
Our specially designed curriculum is finely tuned and will prepare you for university entry and employment within the music industry. Subjects include instrumental and vocal skills, studio recording, live performance skills, composition, digital music production, practical theory skills and critical listening.

➤ **Practical learning**
We understand that everybody learns differently, and our teaching styles reflect this. You will be involved in performance workshops, studio sessions, 1:1 tutorials, research and evaluation classes, practical and theoretical sessions and band rehearsals. Each learner has access to an individual workstation for Electronic Music Production, and you will eventually produce a portfolio of work to support your academic studies.

➤ **Live performance experience**
You will be able to perform at professional live music venues, including the Brewery Arts Centre, Ruskins and our in-house performance facilities. We have also performed at venues in Liverpool, Newcastle and Manchester and organised field trips to professional concerts. You will be actively supported to work with local musicians on industry-led projects such as podcasts and recording sessions, as well as opportunities for involvement in local events and festivals such as Kendal Calling and Kendal Music Festival.

Did you know...

It may be possible to add Core Maths, or an A-Level in English Literature or Psychology, to your course. Please ask us about this if you are interested.

The global music industry is forecast to more than double to about $131 billion by 2030. The UK is currently the world's second largest music exporter, home to iconic global festivals, venues, artists, producers and studios, presenting very clear opportunities (UK Music).

"After graduating Kendal College in 2022 I moved to Manchester to continue my studies at the Royal Northern College of Music. I graduated RNCM with a first-class honours degree in 2026 and have since played Kendal Calling Mainstage with Vacant Weekend, a UK tour with 'Ciao-Ciao Marigold' and am now gearing up to release my second EP in November 2026 alongside another short tour. I chose Kendal College because I felt that the school system was not a good fit for the way I learn, and the more relaxed and creative structure of the music course would allow me to focus on doing what I love. Plus the facilities for the Music course were far ahead of any sixth-form in the area. I feel as if Kendal College gave me a good platform to apply to music universities and the tutors were extremely helpful during the application process."

Isaac Dobson
Music Alumni

YOUR BRIGHT FUTURE

After completing these courses, students continue their studies at universities, conservatoires, and Higher Education accredited recording studios. They also gain direct employment in various industries. The many transferable skills gained from completing our courses, such as IT skills, teamwork, creativity and marketing, make our students competitive when applying for jobs and universities.

Previous students have progressed to: Royal Northern College of Music, Liverpool Institute of Performing Arts, BIMM (British & Irish Modern Music Institute), Spirit Studios Manchester, Brewery Arts Centre, Kendal Calling, Self-Employment as Peripatetic Instrument Teachers, Employment in the Music Industry as Musicians, Promoters, Managers and Sound Engineers

You may also be interested in

- A Levels & V Levels, KC SIXTH | page 13
- Theatre Event Technology & Stage Management | page 59

"I have performed gigs all over the UK at professional venues and festivals such as Glastonbury, Kendal Calling and Edinburgh Fringe. I have recorded and produced music for a number of local artists, as well as my own bands and side projects. Teaching at Kendal College allows me to share my experience and practical knowledge with the next generation of musicians."

Wayne Scurrah
Music Lecturer

kendal.ac.uk/music

Performing Arts.

Campus: Arts and Media Campus

Full-time Performing Arts courses

Performance - Performing Arts, Music, Production Arts Level 1 | 1 year

Performing Arts - Acting, Dance & Musical Theatre Level 2 | 1 year

Performing Arts - Acting, Dance & Musical Theatre Level 3 | 2 years | Equivalent to 3 A Levels

UAL Level 4 Diploma in Performance | Level 4 1 year post A Levels or Level 3

These courses are awarded by University Arts London (UAL).

The Performing Arts department is widely respected throughout the country for the professional quality of the work students present and the range of industry experiences offered. It has a strong record of propelling students into creative careers, not only as performers but also into the opportunities studying performing arts opens up.

We make no excuses for having some of the highest success rates in the country and for supporting students to follow their dreams.

Why study with us?

➤ **Industry experienced tutors**

Our tutors are industry-trained professionals who have worked extensively as actors, dancers, choreographers, and theatremakers.

Using our experience, we will develop your performance skills in acting, dance, and musical theatre through challenging and innovative projects. Examples of areas you will cover include 'Scare Night,' full-scale plays, musical theatre shows, and acting for TV and films.

➤ **Professional performance spaces for your training**

The department has professional performance and rehearsal spaces in our £4.2m Box Theatre and Wildman Street/ Museum Studios. We also work with various partnership venues, including Kendal Town Hall, The Brewery Arts and The Victoria Wood Theatre. Students are encouraged to book spaces outside of classes to continue to rehearse.

➤ **Work experience opportunities**

We work with organisations such as Kendal Torchlight, where, for example, you are trained as street performers and carnival dancers. You will also work with local primary schools as workshop leaders in acting, dance, and puppetry and with Rachel Ashton Apprentice Actors, where you may experience touring with a company whilst being paid.

➤ **Practical training with academic challenge**

The performance elements of your course are vital to developing your skills and knowledge for the industry; academic development is also part of this as you learn to reflect, analyse, and apply your learning through the progression of each industry focused unit.

Your digital literacy will be developed as we work with electronic portfolios, Instagram and TikTok throughout projects.

Did you know...

It may be possible to add Core Maths, or an A-Level in English Literature or Psychology, to your course. Please ask us about this if you are interested.

The creative industries sector is growing more than 5x faster than the national economy. UK's creative industries contribute almost £13m to the UK economy every hour (Gov.uk).

"Being in Six is amazing. It's a dream come true. A fabulous experience. My Kendal College course leader, Hilary Pezet, always told me I could do this. She was a Godsend, incredible. I love Kendal College's creative hub. I would recommend it 100 per cent. I had such a fun time and met some of my absolute best friends there."

Mary Elliot
Performing Arts Alumni

YOURBRIGHT FUTURE

After completing these courses, our students progress to leading conservatoires and universities, training, or employment in various industries. You are not limited to a performer's career, as the skills and knowledge gained open you up to a wide variety of career routes. Our courses will expand your skills in creativity and imagination, adaptability under pressure, organisation skills and planning skills in academic preparation for university. This will make you highly adaptable and attractive to employers and universities.

You can also completely change direction into nursing, forensic science, arts marketing, event and venue management, drama therapy and teaching as examples of some of our student's progression routes.

Former students now work as characters, dancers, and events managers at Disney Paris, Florida and Singapore. They've also gone on to work as front-of-house management for The Lion King, various casting and talent agencies, drama teachers, children's coaches, choreographers and, of course, actors on stage and screen. Other students are working as drama and dance therapists; in community theatre, touring with Theatre for Young Adults and creating their own work.

Previous students have progressed to:
Trinity Laban - Professional Dance & Musical Theatre, Royal Scottish Conservatoire - Musical Theatre, **East 15 - Acting & Physical Theatre,** Leeds Beckett University - Adult Nursing, **Glasgow University - Paediatric Nursing,** Liverpool Hope - Forensic Science, **Circa Media Bristol - Circus School,** Arts Ed - Acting, **Rose Bruford - Costume Design and Making,** London Contemporary - Dance, **Salford - Journalism**

Sport & Outdoor Adventure.

Campus: Milnthorpe Road Campus

Full-time Sport & Outdoor Adventure courses

Sport | Level 2 | 1 year

Sport | Level 3 | 2 years | Equivalent to 3 A Levels

Outdoor Adventure | Level 3 | 2 years | Equivalent to 3 A Levels

GT-7 Football & Sport Academy | Level 3 | 2 years Equivalent to 3 A Levels

Where better to learn than in the stunning natural adventure playground of the Lake District? Surrounded by possibilities and with excellent links with local specialist facilities, there are hands-on challenges at every corner.

Why study with us?

➤ **Inspiring, practical environments**
An outdoor adventure practical day could be walking the highest mountain in England, canoeing the longest lake or climbing one of the iconic rock faces in the Langdales Valley in the heart of the Lake District. Our sports students benefit from using the best facilities for the sport being studied. For example, we have strong partnerships with Carus Green Golf Club, Kendal Squash Club, Kendal Rugby Club and local gyms.

➤ **The practical/theory mix**
The practical sessions are underpinned by theoretical knowledge. You will develop your skills and techniques whilst understanding the theory behind them.

➤ **Tracking the trends**
We keep up-to-date with the latest trends and developments in the industry. For example, we have introduced canyoning and paddleboarding into our outdoor adventure course due to the increasing consumer demand in these areas.

➤ **Gain additional qualifications**
Our Level 3 outdoor students are offered the opportunity to gain additional qualifications, e.g. First Aid, British Canoeing Performance Awards and Leaders Awards.

➤ **Local, national and international experiences**
Various trips and visits are organised throughout the year to broaden your experiences in the sector. For example, day visits to St George's Park, National Cycling Centre and Institute of Sport in Manchester, and trips to North Wales, Isle of Skye, Morocco and Barcelona.

➤ **Professional, experienced tutors**
The teaching team includes outdoor instructors who have worked as freelancers for a range of providers and led expeditions to Thailand, Morocco and throughout Europe. Our sports tutors have experience in sports rehabilitation, injury management, football coaching, lifestyle consultation and fitness club management.

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

The UK sport and physical activity sector supports around 600,000 jobs, with careers spanning sport, fitness, coaching, outdoor activity, leisure, health and wellbeing. CIMSPA, 2025

"I coach tennis and chose this course because I wanted to experience different and unique sports like jujitsu and lacrosse and gain top-level teaching from specialist staff, to then adapt and use this knowledge for my tennis career. College is different from what I expected. You're treated like a grown-up and you're in charge of your own learning, which gives you more independence and allows you to learn in a professional environment."

Issy Younger
Sport Student

YOURBRIGHT FUTURE

The sport and fitness industry consists of organisations providing sports clubs, leisure centres, fitness, sports analysis, sports rehabilitation and injuries and personal training. The sector focuses on improving physical and mental well-being and developing skills, techniques, and tactics within sport.

Previous students have progressed to: **Senior Instructor at Tower Wood,** BA Law at Newcastle University, **Forestry employment with the National Trust,** BA Outdoor Adventure Leadership and Management at University of Worcester, **Football Scholarship in America,** Sports Therapy at Edge Hill University, **Ski Instructor in the French Alps,** Personal Trainers (after competing the Level 3 Personal Training), **Apprenticeship with Pulse Fitness,** Travelling around South America

Theatre Event Technology & Stage Management.

Campus: Arts and Media Campus

Full-time Theatre Event Technology & Stage Management courses

Performance - Performing Arts, Music, Production
Level 1 | 1 year

Event Technology & Event Management | Level 2
1 year

Event Technology & Event Management | Level 3
2 years Equivalent to 3 A Levels

These courses are awarded by University Arts London (UAL).

Our courses will introduce you to all aspects of production for live performance such as: dance shows, festivals, corporate events, music gigs, musical and theatre shows. You will develop the necessary skills to work in this exciting and ever-changing industry.

Why study with us?

- **Dedicated performance spaces**
  The department utilises the £4.2m dedicated performance spaces of The Box and Wildman Street Studios, which boast top of the range technical equipment specially designed to host theatre and events.
- **Practical learning**
  Students learn in a creative, hands-on environment and are given a grounding in the five core disciplines: lighting (including design), projection (including design), scenic construction and set design, sound (studio and live), stage management.
- **Experience supporting a variety of events**
  You will support and lead on internal and external productions including a show which engages over 2,000 primary school children; full scale end of year musicals; fully teched dramas and music gigs in the Box and local music venues. You will be involved with several community partnerships with Kendal Torchlight, Kendal Mountain Festival and Kendal Calling, amongst others. Students are at the forefront of our productions. You will explore and experiment with your ideas and see them transform into a public performance or event.
- **Industry-trained teaching staff**
  Our teaching staff are well experienced in the industry and have strong partnerships with the Brewery Arts

Employment in the UK cultural sector was 12.7% higher in 2025 than in 2019, with 762,000 jobs across the sector. Department for Culture, Media & Sport, 2026.

Did you know...

It may be possible to add Core Maths, or an A-Level in English Literature or Psychology, to your course. Please ask us about this if you are interested.

"There was so much I loved about the course, but for me the main pull was how practical the course was. Every day brought a new challenge, and most of them were fun! We created multiple shows and were one of the first productions to be publicly held Post-Covid. We of course had to do some written work, but it was reflective and purposeful, rather than just filling in the syllabus.
The course really instilled a 'get up and go' attitude and a want to be as involved as possible in theatre.

After college I studied at the Royal Conservatoire of Scotland and went on to work for London Philharmonic, Disney Theatrical and the Edinburgh Fringe. Currently I'm on the Mary Poppins UK Tour as an Assistant Stage Manager (Book Cover). This means I work alongside the rest of the Stage Management Team, running different areas of the stage and sometimes I cover for our Deputy Stage Manager and call the show."

Brad Hamilton
Theatre & Event Technology Alumni

YOUR BRIGHT FUTURE

Studying Theatre Event Technology & Stage Management can be a direct training route to employment as an event and venue technician or a sound and lighting engineer. Recent students have progressed to lighting roles for Strictly Come Dancing and The Voice, a props master on the West End, Kendal Calling roles, festival managers, artist liaisons, event technicians, and sound on Disney Cruises.

The transferable skills gained in creativity, leadership, IT and budgeting will also make you highly adaptable and attractive to employers and universities.

Previous students have progressed to leading conservatoires and universities to train further in lighting, sound, set design, and stage management. Liverpool Institute for Performing Arts, Royal Academy of Dramatic Art, Guildhall, Royal Central, and Backstage Academy, to name a few, are examples of recent student destinations.

Students have also diversified into estates management, paramedics, IT managers, and primary school teachers!

Uniformed Services.

Campus: Milnthorpe Road Campus

Full-time Uniformed Services courses

Uniformed Services | Level 3 | 2 years
Equivalent to 3 A Levels

The uniformed services help aid and protect the public. The main work areas are the police, fire and rescue, paramedics, and armed forces. If you are interested in a career in these areas, responding to emergencies, or progressing to degree-level study, this is for you!

Why study with us?

➤ **Hands-on experience**
The department works with many different uniformed services, enabling you to gain hands-on experience with the work conducted by these vital services and put what you learn into practice.

You will gain fire service and major incident training, work with the MOD Police and Royal Navy, complete assault courses with the Army and compete with other colleges.

➤ **Specialist tutors**
Your course tutors include a serving member of the British Army Reserve with a specialism for physical training and a strength and conditioning coach with the Kendal Rugby Club first team.

➤ **Prepare for your future career**
The courses are designed to be mentally and physically demanding in preparation for your chosen career in uniformed services. You will be given support and training to prepare for specific fitness tests and learn how to cope with the pressures of working in these services.

You will develop the skills and values required, for example, honesty, a positive mindset, discipline, integrity and commitment. You will also have opportunities to lead a team and be confident in doing so.

All students wear a uniform, so you can become familiar with them and wear them with pride.

Every day will be different, diverse and exciting!

Defence supports around 462,000 UK jobs across the Armed Forces, defence industry and MOD Civil Service. (Ministry of Defence, 2026)

Did you know...

It is possible to add Core Maths to your course, please ask us about this if you are interested.

"You're trusted to be independent and treated like an adult. I'm thinking of joining the fire service or marines, and we're advised on the different training needed for each service. We're taught about discipline, having a healthy mind and body, and we're out every day, often at Kendal Rugby Club. We are pushed outside of our comfort zone, with various drills, developing our team building and communication skills."

Ben Parker
Uniformed Services Student

YOUR BRIGHT FUTURE

Following this course, you may pursue a career in the Police, Armed Forces, Fire and Rescue, Prison Service or other uniformed services. The Level 3 course can also lead to study at a degree-level in areas including (but not limited to) policing, emergency planning, disaster management, sociology, criminology, and outdoor adventure.

Our courses will expand your skills in teamwork and communication, problem solving, leadership, discipline, and physical fitness. This will make you highly adaptable and attractive to employers and universities.

Our recent students have progressed directly into employment and gained the following university places.

University of Lancashire - Nursing, **Lancaster University - Criminology,** University of Cumbria - Professional Policing, **Liverpool John Moores University - Policing**

FAQs

What transport is available to get to college?

The college works with Stagecoach & KT's Coaches to offer discounted bus passes to students, and runs a number of dedicated services in Lancashire as well as Eden and South Lakeland. There is financial support for students living in low-income households or experiencing financial hardship. We can also provide you with information and advice about other options, such as car sharing and local council transport.

A car park permit is available to college students. The permits cost £1 and can be purchased from reception. Cycle bays are also available. For more information see: **kendal.ac.uk/transport**

Are there any course fees?

Full-time courses are generally free for students aged 16–18 and may also be free for eligible young people aged 19–25 with an Education, Health and Care Plan (EHCP). Eligibility is based on your age on 31 August of the relevant academic year.

If you're aged 19 or over, you may still be eligible for a fully funded course, depending on your circumstances and the course you choose. Please contact our Admissions team for further advice.

Apprenticeships are free to learners of all ages, with training costs funded through employers and government funding.

What kit and equipment will I need?

Some courses may require you to purchase equipment for your course. More information will be given when you apply and are offered a place. If you have any questions about a specific course, please contact us.

What are the options for lunch?

Our cafés offer a range of homemade food and cater for all dietary needs. Alternatively, you are welcome to bring a packed lunch or go off campus.

Can I get help with the costs of coming to college?

Financial support is available to eligible students from low-income households or those experiencing financial hardship.

We administer the Government's Bursary Fund, which can help with costs such as transport, equipment, educational visits, emergency living costs and other essential study-related expenses.

Students who meet the eligibility criteria for Free School Meals (FSM) may also be able to access a free meal while studying at college.

If you are a young parent aged under 20, you may be eligible for the Government's Care to Learn scheme, which helps with childcare costs while you study.

The Residential Support Scheme provides financial assistance with residential costs, such as rent, for eligible students who need to live away from home because their full-time Level 2 or Level 3 course is not available locally.

For further information about bursaries, Free School Meals, Care to Learn and other financial support, visit **kendal.ac.uk/money**

What are your access arrangements?

We're committed to ensuring that students with disabilities can access all parts of the college. All campuses have lift access, disabled facilities and designated disabled parking spaces. If you have any access needs, please disclose your requirements as soon as possible to ensure the right level of support is in place for you to enjoy your time at Kendal College.

How do you work with parents, guardians and carers?

We believe that maintaining close and professional relationships with parents, guardians and carers is key to the success of our students. Parents, guardians and carers can request access to information about attendance, targets and progress (if student consent has been given). Progress Evenings are also held to review overall performance and allow any potential problems or concerns to be discussed. We also send out a monthly newsletter to keep parents, guardians and carers up to date with the latest college news.

Ready to find your course?

Your future starts here.

You've explored what life at Kendal College could look like. Now it's time to find the course that can help take you where you want to go.

Whether you already know what you want to do or you're still exploring your options, your next step starts here.

Step 1: Explore your options

Discover the different subjects, qualifications and pathways available and find what interests you.

Come along to an Open Evening, book a campus tour or speak to our team to explore your options and find the right path for you.

Step 2: Find your course

Explore our departments and find the course that matches your interests, strengths and ambitions. Take a look at the entry requirements for each course to understand which route and level could be right for you.

Step 3: Apply

Found the right course? You don't need to wait for your GCSE results to apply. Complete your application online and take the first step towards joining Kendal College.

Step 4: Interview & offer

Once you've applied, we'll invite you to an interview to talk about your chosen course, your interests and your future plans. If your application is successful, you'll receive an offer to study with us.

Step 5: Get ready for college

Once you've accepted your offer, we'll keep in touch and help you prepare for starting college, including information about your next steps, enrolment and joining us in September 2027.
