CUSTOM TOURING SPECIAL EFFECTS

WHO IS IMAGE SFX?

IMAGE SFX is a premier special effects and laser powerhouse servicing musical artists globally. We provide a wide variety of effect types including pyrotechnics, flames, cryogenics, smoke, confetti and more as well as standard and audience scanning lasers. From design through execution, our experienced team of designers, technicians, engineers and project managers provide high-quality, consistent results.

Our team is made of industry veterans and legends, bringing decades of special effect and laser expertise to every project. We WOW audiences with creative, innovative designs. Uniquely supported by a team of engineers at Image Engineering, IMAGE SFX offers custom-fabricated special effects equipment to meet the needs of our clients. The synergy between Image Engineering’s special effects custom fabrication capabilities and Doug Adam's vast design / touring experience is changing how tours and large stage performance special effects are designed and executed worldwide.

KISS

End of the Road World Tour

IMAGE SFX was proud to support KISS on it's final tour around the world. The tour featured a myriad of beautiful effects to celebrate and honor KISS's lasting legacy on the music and production industry. Effects included flames, pyrotechics, fog, cryogrenics, and confetti.

THE GEAR:

Custom Low Fog Curtain
Custom Vertical Fog Wall
LSG Low Fog Units

Freaks

TRANS SIBERIAN ORCHESTRA

The Ghosts of Christmas Eve

IMAGE SFX has worked on the Trans Siberian Orchestra tours since 2019. Year over year, Trans Siberian Orchestra creates mesmerizing looks with various effects such as flames, lasers, and sonic booms and a dynamic automated stage design. IMAGE SFX has created multiple proprietary effects units in tandem with Trans Siberian Orchestra over the years.

THE GEAR:

FLAMES
Phoenix Flame Units
Fire Screens Flame Units
Diablos Flame Units
Custom Vertical Fire Sticks
Custom Flaming Pyramids
Inverted 5 - Master Flame Units
Luminous Arena Flame Units

PYROTECHNICS
Traditional Stage Product
Kinetic Waterfall Rig
Gerb Spinners

LASERS
30 Watt Lasers
12 Watt Lasers

FOG
Sonic Booms
Low Fog Units

TRANS SIBERIAN ORCHESTRA

Flaming TSO Sign & Triangle

For the 2023 Trans Siberian Orchestra tour, Image SFX created a spinning triangle that would burst into flames. In 2024, using a similar architecture to the triangles, the Image SFX team designed and fabricated a specialty spinning TSO logo.

TED

DRAKE

It’s All a Blur Tour

The It’s All A Blur arena tour was an incredible collaboration between the tour’s creative team and the IMAGE SFX team’s technical knowledge, including many beautiful laser looks but most notably was the integration of laser design with stage mounted robots that would bounce the laser beams off of the mirrored hands of the robots. With safety top of mind, the IMAGE SFX team was able to consistently deliver a beautiful and safe show each night of the tour.

THE GEAR:

LASERS

100i Watt Lasers

25 Watt Lasers

12 Watt Lasers

CRYOGENICS

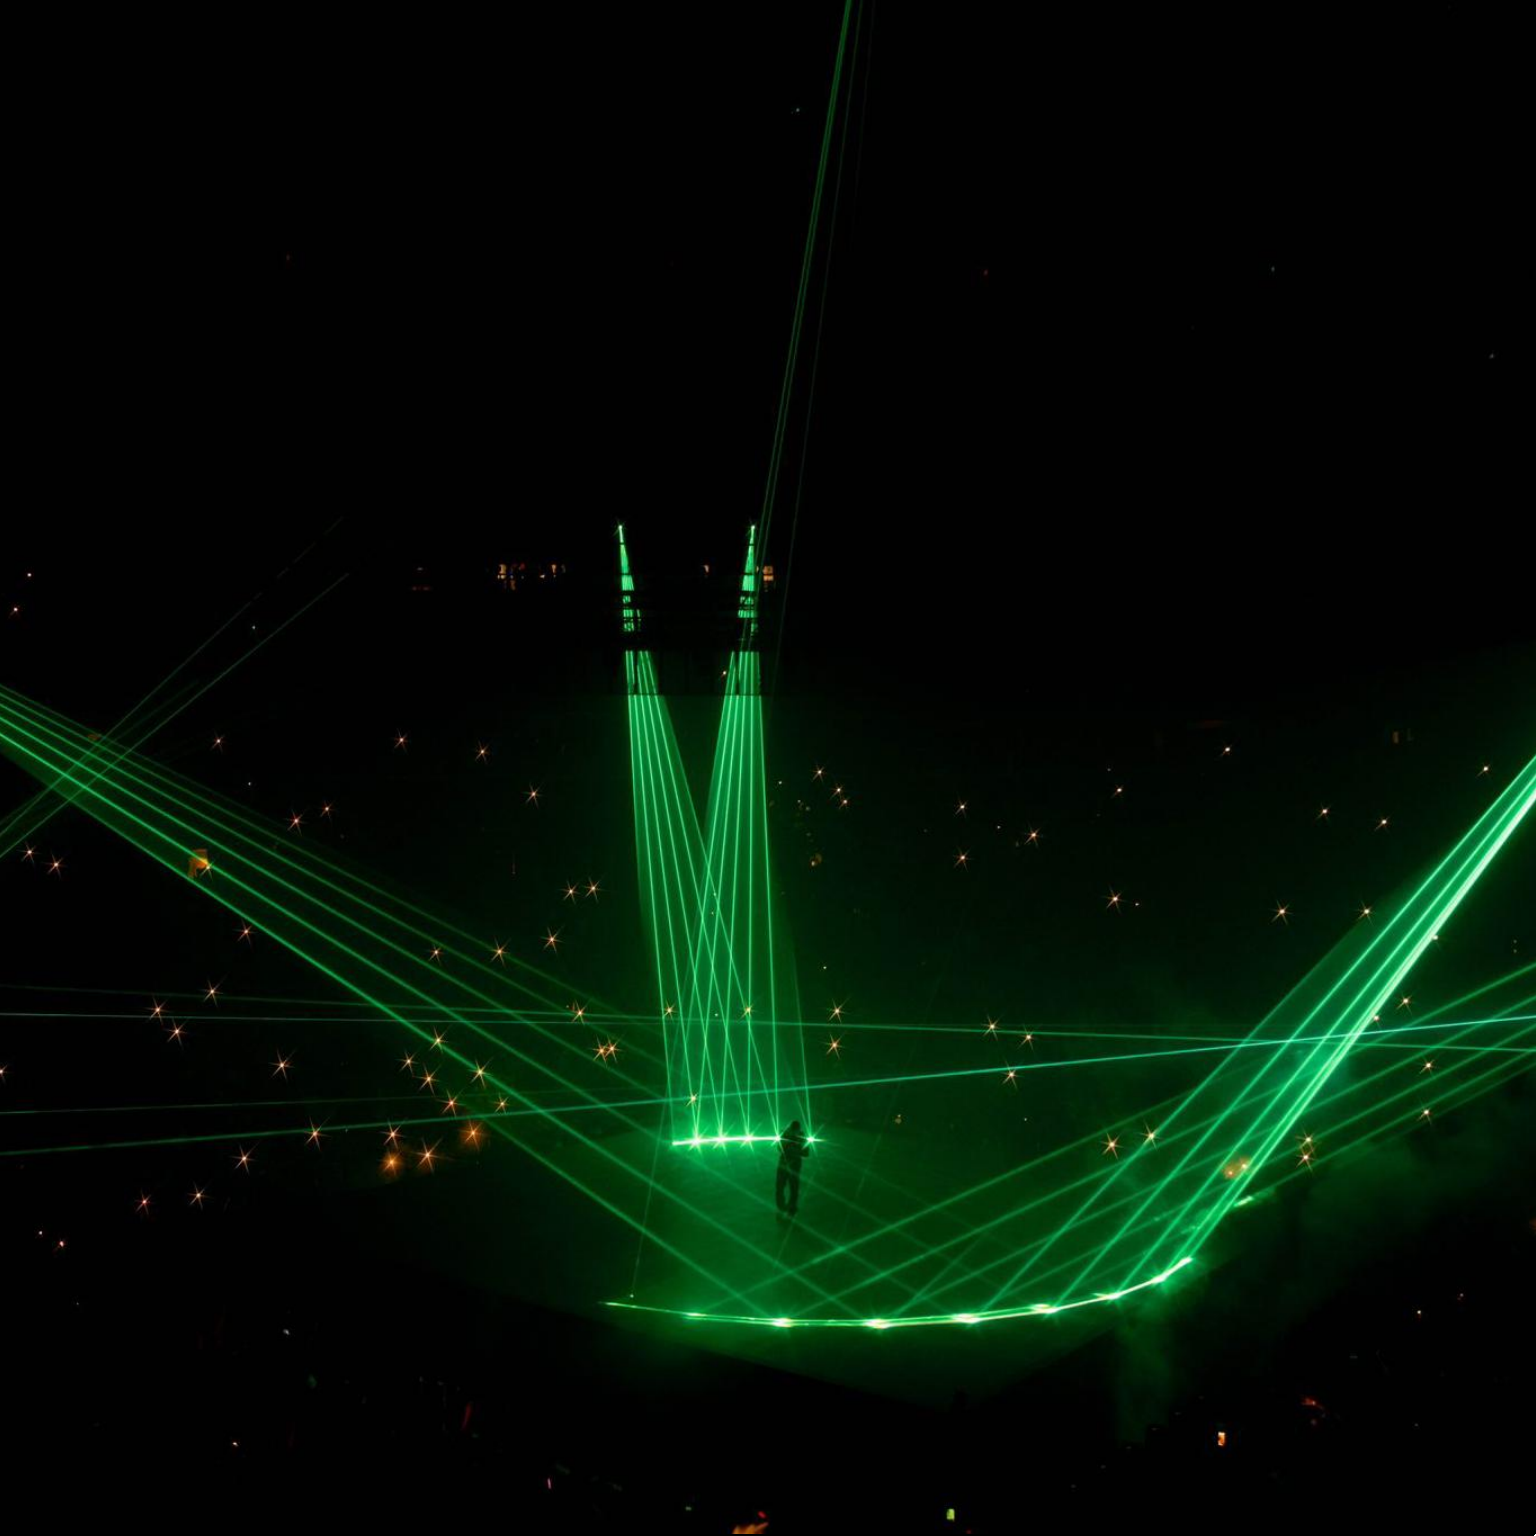

Club Cannon CO2 Jets

CONFETTI

Confetti Blowers

FOG

Carpet Crawlers Units

DISTURBED

Take Back Your Life Tour

With a distinct speciality in custom flame unit fabrication, IMAGE SFX was approached by Disturbed to envision and engineer flame units that could be rigged on articulating trusses. In eight weeks, the team was able to design, prototype, test and manufacture 16 Firesnake units in addition to a custom piano flame bar. The production is a dynamic and ever changing fiery backdrop.

THE GEAR:

FLAMES
Firesnake Flame Units
Custom Piano Burn Bar
Firescreen Flame Units
FiveMaster Flame Units
Inverted Sparkulars

CRYOGENICS
CO2 Jets

CONFETTI
Confetti Blowers

blackbear
Red Rocks 2022

The blackbear production camp approached the IMAGE SFX team with a vision of a flaming palm trees to complete the stage design for Red Rocks. Engineered to withstand the elements in an outdoor setting, the Fire Palms create a beaultiful billowing flame when lit.

THE GEAR:

Double Fluted Confetti Cannons
Single Barrel Confetti Cannons

PANTERA

2022 – 2023 World Tour

The Pantera production camp approached IMAGE SFX with a concept to create a flaming Pantera sign that would be rigged in each venue. With LED peaking through the negative space when it's not engulfed in flames, the ignition of the flames created a surprising impact on the audience.

THE GEAR:

FLAMES
Custom PANTERA Sign
Salamander Quad Pro Flame Units

FOG
Sonic Booms

PANTE

KAROL G

Mañana Será Bonito Tour

Image SFX has been the preferred special effects partner for Karol G's tours since 2021. On the Mañana Será Bonito tour, Image SFX adapted the US based stadium tour for smaller European arenas and tried to keep the same effects and design event with the dramatically decreased venue size.

THE GEAR:
