

ATLANTA ECOFLEX

ECO-FRIENDLY CORRUGATED FLEXIBLE CONDUITS

The Atlanta Ecoflex PVC Corrugated Flexible Conduit is an eco-friendly versatile pipe engineered to safeguard electrical wires against physical damage, weathering, pests and liquid exposure. Widely utilized for cable management, it is also ideal for residential houses and various applications.

- ◆ HIGH FLEXIBLE PVC CONDUIT
- ◆ TOUGH, DURABLE, & COST EFFECTIVE
- ◆ EASY TO USE
- ◆ LIGHTWEIGHT
- ◆ EFFECTIVE IN PROTECTION OF WIRES & CABLES

ADVANTAGES

HIGH FLEXIBLE PVC CONDUIT

Atlanta Ecoflex PVC corrugated flexible conduit is classified as a highly flexible product due to its unique design and material composition. Made from premium-grade PVC, it features a corrugated structure that enhances its flexibility, allowing it to bend and adapt to complex routing requirements without compromising durability. This flexibility makes it ideal for applications requiring dynamic movements.

EASY TO USE

Atlanta Ecoflex PVC conduit is easy to use due to its lightweight and highly flexible design, allowing for effortless handling and installation. Its corrugated structure enables smooth bending and routing without the need for special tools. Additionally, it can be easily cut to the desired length, making it adaptable for various applications while reducing installation time and effort.

TOUGH, DURABLE, & COST EFFECTIVE

Atlanta Ecoflex PVC conduit is tough and durable due to its high-quality PVC construction, resisting impact. Its longevity and low maintenance make it a cost-effective solution for cable protection.

LIGHTWEIGHT

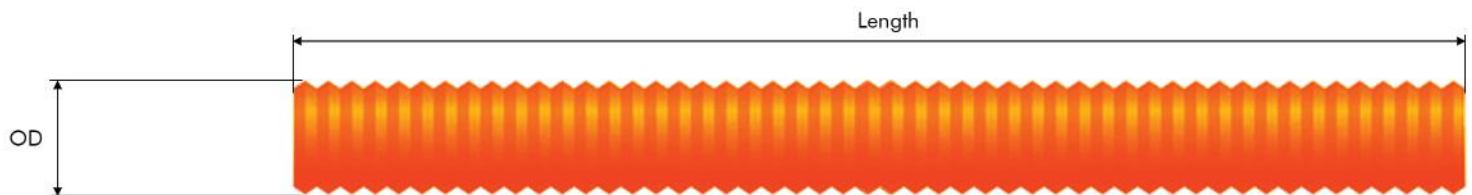

Atlanta Ecoflex PVC conduit is lightweight because it is made from high-quality PVC material, which provides durability without excessive weight. Its corrugated design further reduces material density while maintaining strength, making it easy to handle, transport, and install.

EFFECTIVE IN PROTECTION OF WIRES & CABLES

Atlanta Ecoflex PVC conduit is highly effective in protecting both external and internal wall installations due to its strong resistance to moisture, pests, corrosion, liquid exposure, extreme temperature & mechanical impact that ensures long-term reliability.

PRODUCT RANGE / DIMENSION

OD (mm)	Nominal Size (in)	Standard Length/Coil
20	1/2	100 or 50 LM
25	3/4	100 or 50 LM
