TOILETS

CERAMIC

Ceramica

Ceramic is a natural product, composed of a mix of raw materials such as kaolin, quartz and/or clay. BelBagno toilets are made of Vitreous China - material with reduced environmental impact that do not use polluting substances due to its composition and production. Superior Nano Glaze protection directly applied to the ceramic before firing process and used on both washbasins and toilets. The surface is perfectly smooth and does not allow dirt and scale to settle. This guarantees lasting shine, pleasant touch, high protection against scratches.

La ceramica è un prodotto naturale, composto da materie prime quali caolino, quarzo e/o argilla. I prodotti BelBagno vengono realizzati in Vitreous China - materiali a ridotto impatto ambientale che per la loro composizione e produzione non utilizzano sostanze inquinanti. Qualità superiore per l'innovativo smalto Nano Glaze, applicato sulla ceramica direttamente prima della cottura e utilizzato sia sui lavabi che sui sanitari. La superficie risulta essere perfettamente liscia non permettendo allo sporco ed al calcare di depositarsi. Questo garantisce durevole brillantezza, piacevolezza al tatto, alta protezione da graffi, abrasioni e agenti esterni. L'estrema facilità di pulizia inoltre permette un minor consumo di acqua e detersivi nel rispetto dell'ambiente.

- Optimal waterflow with every activation for a complete flush
- Efficient water use
- Easy to clean and hygienic thanks to Belguard technology
- one-man installation with a hidden fixation system
- WaterMark/WELS certifiend

RIMLESS TOILETS

VS. REGULAR RIMMED TOILETS

BelBagno toilets' lifetime warranty* takes care of any hiccups in materials or workmanship for as long as you've got the toilet. It's all about that ceramic goodness – we're here to safeguard your investment!

We're dead serious about giving you the best product, that's why our toilets have best in the industry. And guess what? Introducing that lifetime warranty – It's basically us shouting, «Hey, our ceramic toilets are top-notch, built to last forever!» You can totally count on us – this is our difference.

SOFT  CLOSE original

Perfect cleanliness and hygiene in hard to reach spots: it's not magic – it is the result of our innovative TakeOff technology. The entire seat is removed from the hinges in just one movement. And no tools are required! Once the ceramic and the seat are cleaned you simply push the seat back on again. One click – and you're done. Another practical feature: A new toilet seat can simply be fitted on, there is no new assembly required.

TAKE  OFF original

GEBERIT

- Geberit internals
Germanmade
- Duroplast seats
- Original Soft Close™ hinges
- Rimless design
- Nano Glaze coating

*The life time guarantee applies to the ceramic components of the toilet only

THERE ARE MANY GOOD MATERIALS. WE USE ONLY THE BEST.

We make no compromise with materials. The raw material is already subjected to stringent quality checks – and we only use what meets our high demands! First and foremost, this is Duroplast, an unbeatable material in many respects.

Optically Duroplast looks almost exactly like a premium ceramic. The smooth surface in particular denotes the best possible quality.

But this top material also shines with its inner qualities. Duroplast is so tough, hardwearing and long-life that, even after long years of use, our seats do not lose any of their advantages. And because it is completely pore-free, it also sets exceptional standards in hygiene.

SoftClose®

One light touch for the toilet seat is enough to close gently and quietly. A convenience you wouldn't want to lose out on! Put to the test numerous times over, it guarantees reliability and longevity.

ALEXANDER-R

Range:
BB0152-R-TS

Specifications:

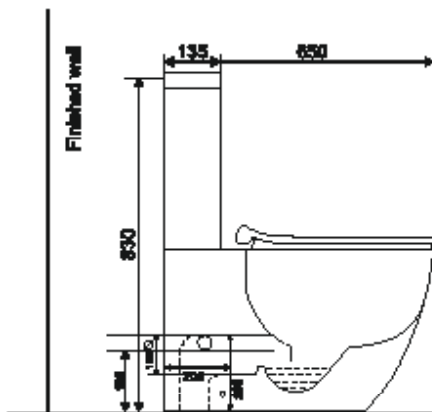

European design toilet suite with Geberit internals and German made soft close seat.

- Geberit Internals
- Thermosetting resin German toilet seat
- Soft close seat with quick release system
- Universal trap for S or P-trap installation
- Back and Bottom water inlet
- Rimless design
- Nano Glaze surface
