ABOUT US

Skysun Cera Decorators

Established in 2008, Skysun Cera Decorators is an ISO 9001-2015 certified company specializing in the manufacturing and export of premium quality FRP and ceramic products. We are committed to delivering excellence through our range of products.

With 18 years of industry experience, 3 state-of-the-art factories, and a 11000 sq. ft. manufacturing facility, we combine advanced machinery with skilled craftsmanship to produce products that meet international quality standards.

We are working with quality material products on fiber glass planter, fiber glass fountain, FRP manhole covers and all types of ceramic tiles like GVT-PGVT, parking tiles, wall tiles and etc. Our USP is that we work with quality not in quantity, focusing on quality and satisfaction of customers.

Our manufacturing facility spans 11000 square feet equipped with Heated Die Press Machine, R&D facilities, and testing facilities. We have a production capacity of 10000 KG per month using high quality fiber glass and high quality chemicals for strength.

We are actively involved in export promotion and supply our products to European countries while also serving the domestic market. Our packaging includes corrugated boxes with specific pieces per master box for safe delivery.
