Our Innovation Your Success

Our brands

We look ahead with the best eyes. Yours.

The goal of every dentist is to take care of every patient.

Ours is to take care of every dentist.

Dentalica's mission is to find innovative ideas and solutions to simplify your life thinking about how to improve your service for patients.

Our goal is to guarantee you the best quality - price ratio on the market which includes product research to its widespread distribution throughout the territory, specialist consultancy to after-sales assistance, training to quality certifications.

A story that begins long ago.

Since 1954 Dentalica is a reference point for Italian dentistry. We have always been the one of the most innovative Italian companies in the sector. It distinguishes our ability to understand the market and anticipate its needs.

We choose and are chosen by prestigious international brands that we distribute exclusively and directly. Since 1974 we have our own line of products selected from the best international producers. Moreover we are certified since 1999 for CE 93/42 medical device and EN-ISO 13485/2016.

Over the years we have constantly increased our logistical and distribution capacity, strengthened and modified our sales network to meet your needs.

In 1998 we launched our first website which was then transformed into an online platform and today is an innovative e-commerce.

Careful selection of products

Quality and responsibility: the Certifications.

Our products are the result of careful selection and control for the health of your patient.

Dentalica is regularly CE certified, and since 1999 is also an ISO certified company.

These certifications mean a constant commitment on our part, aimed at the continuous improvement and development of all the main business processes.

All the products that pass through our company are completely traceable, from the raw material to the final user. In this way, in case of need, we are able to retrace the whole process and intervene if necessary.

A product sold by Dentalica is a safe, certified and guaranteed product.

Our added value

Training

Updating and training in our sector are synonymous of competitive advantage.

We can guarantee you continuous training through the organization of dedicated events or participation in the main sector events, whatever your specialization is.

We have organized online training courses – as webinars – through the most modern and widespread technological platforms while maintaining high levels of involvement, learning and interaction.

We have always offered professional updating for your staff, especially related to the correct maintenance of your instruments that preserve their functionality with the aim of saving you costs of any malfunctions.

Service Center

Our service center deals with repair of small and large equipment, supporting you directly in your studio or, if necessary, remotely.

Our strengths are:

- CE certification guarantee
- Response within 48 hours
- 6-month warranty on repairs
- Equipment scrapping
- Telephone or website service

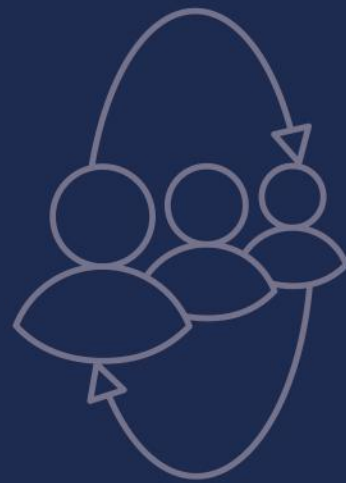

No intermediaries

Our sales force team is throughout the Italian territory to respond quickly to any of your needs.

We have expertise, knowledge and tools.

Our commitment is to guarantee you support in the selection and choice of products as well as in post-sales, personalized and advantageous offers, service and timeliness of deliveries.

One of our strengths is our logistics service which is efficient and fully automated, which guarantees deliveries 24/48h after placing your order.
