About us

Every space holds a threshold, a *moment where the ordinary begins to shift into something new*. This is the essence of liminal, the idea that inspired us to build **Liminal Origins Designs**, a multidisciplinary architecture and design studio.

From landscapes and interiors to exteriors and events, we design environments that embody this spirit of transition, crafted not only to function, but to move people, to connect them, and to reveal the beauty of becoming.

Our Expertise

LANDSCAPE DESIGN

We shape outdoor environments that blend with nature’s rhythm, creating spaces that inspire calm, movement, and connection.

INTERIOR DESIGN

From private homes to public venues, our interiors balance function and feeling, shaping atmospheres that move beyond utility into experience.

EXTERIOR & ARCHITECTURE

We design structures and façades that stand as thresholds, bold yet inviting, innovative yet timeless.

EVENT & SPATIAL DESIGN

Moments deserve spaces that transform. We craft event environments that immerse, engage, and leave lasting impressions.

Cakradonya Bay is designed as an integrated cultural landscape where heritage and modern leisure coexist. While its core design reintroduces the legacy of the Aceh Sultanate through immersive historical zones and narratives of influential figures, the overall plan also integrates supporting amenities such as dining spaces, accommodations, and an amphitheater for cultural performances. This comprehensive approach ensures that visitors not only learn from the past but also enjoy a complete recreational experience within a contemporary public space.

INTERIOR

Designed with an adventure-driven spirit, **Eiger Coffee** captures the essence of exploration and adrenaline within an urban café setting. The interior translates the brand's outdoor DNA into spatial form, exposed brick walls, raw wooden surfaces, and bold geometric flooring evoke the rugged textures of mountain trails.

A standout feature of the space is its climbing wall, symbolizing Eiger's identity as a brand that pushes boundaries and celebrates the thrill of challenge. Each element, from the barrel-inspired tables to the industrial pipe lighting , echoes the balance between strength and warmth, between wilderness and comfort.

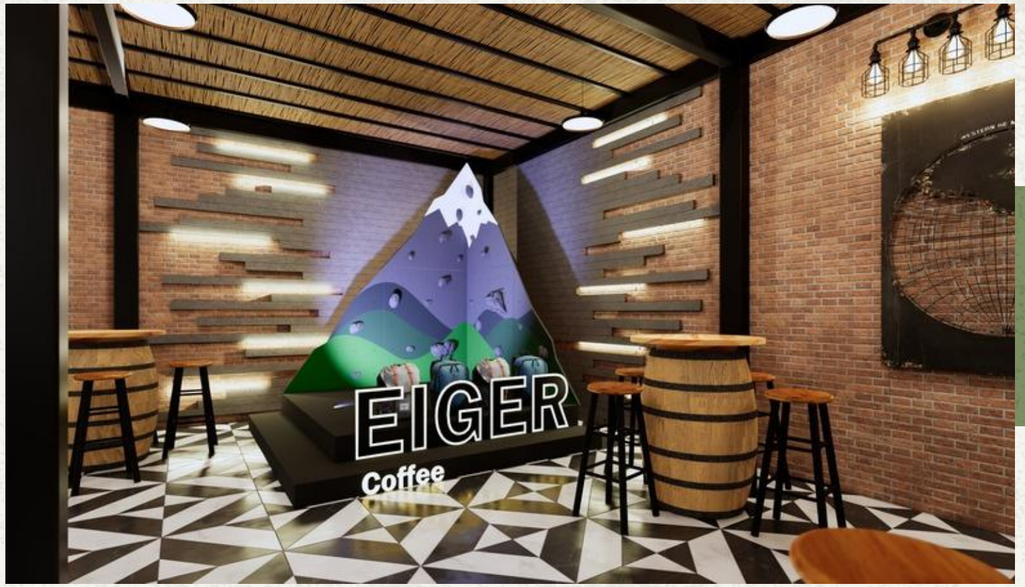

Eiger Coffee invites visitors to experience the pulse of adventure in a new way: through the aroma of coffee, the tactile feel of natural materials, and an atmosphere that sparks curiosity and courage.

Mrs. A's residence was designed with a clear mission: *to create a calm and characterful home within a modest budget.* From that vision emerged a Japanese-inspired concept, one that embraces natural wood tones, clean lines, and spatial harmony that flows seamlessly with nature.

The façade highlights authentic materials: solid wood doors, slatted windows, and textured details that lend a sense of depth and craftsmanship. An open deck area and pebble garden evoke the essence of zen, offering a tranquil atmosphere that encourages stillness and mindfulness.

Through its simplicity, this home proves that beauty is not born of luxury, but of balance, sincerity of materials, and quiet attention to detail.

EVENT

Bhayangkara Fest 2024 was envisioned as a grand celebration uniting the spirit of solidarity, sportsmanship, and the dedication of the Indonesian National Police to the people. The festival grounds were designed as an open and modern public space, accommodating a wide range of activities, from the main concert stage and UMKM booths, to sports zones and family entertainment areas.

The spatial design emphasizes fluid and secure visitor circulation, with modular booths and integrated greenery creating both comfort and visual rhythm. Dominated by red and gold, the visual identity symbolizes bravery and honor, the two timeless values of Bhayangkara.

As night falls, the illuminated main stage transforms into the heart of the celebration, reflecting the modern, progressive spirit of the police in harmony with the community. Bhayangkara Fest 2024 stands not just as an event, but as a symbol of unity between tradition, service, and the vibrant energy of a new generation.

About Our Pricing

At Liminal Origins Designs, every project begins with understanding— of place, of purpose, and of the people who will live and move within it. *No two sites are the same, and no two visions share the same rhythm.*

That's why we don't fix our prices within this catalogue. Each space we design is a response, to context, scale, and story. Some projects demand intimacy, others complexity; some unfold in the quiet detail of a single room, others in the choreography of a public landscape.

Rather than offer rigid packages, we approach every commission as a collaboration. We begin by listening, by mapping possibilities together, and from there, we craft a tailored proposal that reflects both the scope and the soul of your project.

Let's talk about your vision, and how it can transform the space you call your own.
