ABOUT BLOOMDALE

Bloomdale Eyewear is a successful and trendy Dutch eyewear brand founded in 2015. Our designs are characterised by cheerful and trendy colours, original shapes and refined details.

We design an extensive collection of frames that appeal to a wide audience, yet are just that little bit different.

Our models are made from high-quality, lightweight materials, ensuring comfort and long-lasting enjoyment.

We use Mazzucchelli acetate from Italy, Japanese stainless steel with a nickel-free coating, and soft silicone nose pads from Germany.

At Bloomdale Eyewear, you'll always find a pair of glasses that suits you!

DISCOVER OUR NEW **BETA-TITANIUM** COLLECTION

Colourful, comfortable and just that little bit different

Our new beta-titanium collection combines refined shapes with subtle colour accents. The frames are super-light – weighing just 14 grams – and are so comfortable to wear that you'll almost forget you're wearing glasses.

Thanks to the flexibility and strength of beta-titanium, the frames move comfortably with you. This collection combines colour and character with everyday comfort.

Just as you'd expect from Bloomdale!
